## YOU NAME IT

By Everett Taylor

Golf will be offered for the time in Conferences AA and by the state Interscholastic League at the State Meet for 1951, the league has announced.

This is an interesting fact for many Eastland citizens as the city seems to be growing more golf conscious, and the high school has a golf team for the first time this year.

Cisco is the only other high school in this district which has a team this year.

There will be divisions for boys' singles and a boys' team, which will consist of four boys from the same high school.

At the district meet, each high school may enter three boys' singles and two boys' teams of four. Each district may qualify to the region, two boys' singles and two boys' teams of four, according to the Interscholastic League, official league publication.

Each region shall certify to the state meet one boy's singles and one boy's team of four.

All matches will be played under the United States Golf Association Rules. Singles and team play shall be over a total of 36 holes; 18 holes to be played in the morning and 18 in the afternoon. Ties will be determined by playing an additional hole or holes until the tie is broken.

All entries in the various meets will play a total of 36 holes, and the individual with the lowest score will be the medalist. The medalist may be the representative in the singles or a member of the team.

In other words, the individual, whether he enters singles or on a team, who has the lowest score, will be the medalist winner and the winner of the singles.

The team winner will be determined by adding the score of all four players of a team.

There is a great deal of talk about drilling a well on the hospital block just back of the Caton Clinic since the new ordinance for drilling inside the city limits has been passed.

If the well were a success, the problems of financing a hospital would be, in part at least, answered. The revenue from a good well would just about support the hospital.

Some persons have expressed the hope that a well on the hospital block be the first drilled under the new ordinance. Leasing has been especially strong along the creek east of the main portion of the city during the past few weeks, and drilling will probably start there in the near future.

The ordinance, which was drawn up by the City Attorney Frank Sparks, was approved by the city commission at a meeting Saturday morning.

It is a lengthy affair and covers almost every angle a person might think of. No drilling in alleys or streets will be allowed. The city manager, I. C. Heck, will act as Gas and oil inspector under the ordinance.

Ranger, which recently approved such an ordinance has started a well inside the city limits there.

This is school visitation week in Eastland and throughout the state.

Local schools are welcoming visitors to classes and to special programs throughout the week. The first of the special programs was to be held at 9 a.m. today at the West Ward school.

If you have not visited in the schools this week, why not go to one or all of them for a visit or plan to attend one of the programs being planned for the occasion.

Valentines by the millions flood United States post offices yearly. During one season, the Chicago office alone accepted 1,250,000 and 750,000 were handled by the Philadelphia office.

## Schools Week Is Underway

The first of a series of programs to be presented by local schools observing this, schools visitation week, was held at 9 a.m. today at the West Ward School.

An assembly program was presented at the school.

Other programs for the week will be South Ward at 2:30 p.m. Wednesday, an assembly program; Wednesday at 2:30 p.m., the Douglas school will also present its assembly program for the week.

The week will be climaxed with a giant assembly program presented jointly by the High School and Junior High at 2 p.m. Included on the program will be the high school band and the A Capella Choir with members from both High School and Junior high.

Citizens were reminded that they will be welcome, not only to attend any or all assembly programs, but also to attend class periods and observe the students at work.

## Services Today For Mrs. McVey

Rev. Leslie M. Seymour and Rev. J. Morris Bailey, Eastland, conducted funeral services at 1 p.m. today for Mrs. D. E. McVey, 61, at Rising Star.

Mrs. McVey, who was the wife of Rev. D. E. McVey, pastor of the First Methodist Church at Rising Star, died Saturday.

Graveside services and burial will be held at 5 p.m. Tuesday at Springtown.

Rev. Seymour is the Cisco Methodist district superintendent. Survivors include her husband; two sons, Vernum of Tucumcari, N. M., and Tilman McVey of Memphis and two daughters, Mmes. Arvilla Foster and Imogene Storey of Ft. Worth.

## HOUSTON FOOD PRICE BOOST TO BE PROBED

HOUSTON, Tex., March 6 (UP)—Reports that neighborhood stores have boosted their meat and other food prices above those charged during the base period preceding the Jan. 26 price freeze were under investigation today by the District Office of Price Stabilization.

Charles H. Winerich, Jr., acting district OPS director, said the operator of one store admitted raising his prices and said he knew nothing about the price control regulation.

## Suspect Freed On Bail

DALLAS, Tex., March 6 (UP)—Glen Roach was freed on \$5,000 bond today after being charged with murder in connection with the Sunday shooting death of Dave Batterman, 31, in a West Dallas tavern. Roach surrendered to Sheriff Bill Decker, immediately after the shooting.

## Cold Wave Slated To Whip In Tonight

By United Press  
Summer-like weather lingered over most of Texas today but was scheduled to make an abrupt exit tonight.

A new cold wave, pushing slowly down from snow-stricken Nebraska, will sweep into the Panhandle this afternoon, the U. S. Weather Bureau predicted.

By tonight, the front was expected to bring "considerably" colder weather to the Panhandle, South Plains and north portion of East Texas. Lows of 22 to 30 in the Panhandle, 28 to 34 in the South Plains and near freezing in the upper Red River Valley were predicted.

anytime during the week.

Public schools week in the state has been proclaimed by Governor Allan Shivers and Mayor W. W. Linkenhager has proclaimed the week officially in the city.

In the proclamations, the tremendous importance of our schools in the developing of the youth of our country is pointed out.

Parents, especially, were urged to attend school during the week. W. G. Womack, superintendent of schools, urged strongly that everyone attend the schools for a visit sometime during the week.

## Missing Girl Found Near Home Today

An all-night search failed to find Betty Hagaman of Ranger, who had been missing since 4 p.m. Tuesday, but Ed Varner, on a hunch, before going to work this morning, drove to the east of Ranger and found Betty asleep in her family's car which was parked off the Ranger Country Club Road.

Varner, a former employee of L. H. Hagaman, father of the missing girl, said he talked to Betty and persuaded her to return home. The girl's father said today that Betty gave no explanation for her disappearance but he was convinced that his daughter became "wound up over something" and on an impulse left home. Hagaman said the mileage indicator showed that she hadn't driven over 60 or 60 miles.

When Betty was reported missing Tuesday afternoon, she was last seen driving east. Ranger police were notified and in turn alerted the state highway patrol who broadcast a description of the girl and the car.

At 11 p.m. Tuesday night, the fire station siren summoned Ranger citizens who were split into groups to search all side roads. No trace of the girl was found during the night and it wasn't until 7:30 this morning that the girl was found when Varner thought of looking at the place where she was.

## Quarterbacks Note

The Quarterback Club meeting, previously set for Tuesday night, has been postponed until Wednesday at 7:30 p.m., Bruce Pipkin, president, has announced.

Reason for postponement of the meeting is the conflict with the Father-Son Banquet and other meetings set for Tuesday night, Pipkin said.

Cards have been sent out with the Tuesday night date, but members were asked to disregard them. Pipkin said that important business will be discussed at the Wednesday meeting, including plans for the annual minstrel. All members were urged to be present for the meeting.

## Cold Wave Slated To Whip In Tonight

The weatherman said the cold wave might carry a few snow flurries into the Panhandle, but was not expected to be accompanied by the icing conditions of past wintry blasts.

However, considerable damage was expected to newly-budded trees and the first flowers of spring.

Temperatures today were expected to be tropical, as yesterday, when none of the maximums dropped below 70 degrees. Laredo had the state high of 87, and Texarkana the low of 70.

Increasing winds, and no precipitation, were expected today.

Pictured above is the group which will work in the residential area of Eastland on the Red Cross drive now underway. From left to right are: Mrs. Alice Frost; Mrs. Juanita Hickman, chairman, Mrs. Jerry Halbert and Mrs. Olivia Carothers. Shultz Photo.

## Vaught Well Flows 35 Barrels In 12 Hrs.

Hightower-Gray 9 miles south-east of Eastland, was completed yesterday and showed 35 barrels after a 12-hour bale test.

Drillers Bob Vaught, Jack Vaught, Tom Harris and E. C. Hightower said they will probably use a pump but will not hydrofracture. They reported that the flow of oil was increasing.

The well cut another two feet of pay going a total of 15 and a half feet into pay at 1185 feet. An offset 300 feet to the north of the Hightower-Gray will locate soon.

## GI Kills 12 Reds To Avenge Buddy's Death

WITH U. S. 2ND DIVISION, Korea, March 6 (UP)—Corp. Billy Turner of (117 N. "C" St.) Brownfield, Tex., said when he learned that the Chinese Communist had killed his best friend.

Thirsting for revenge, he grabbed his rifle and a pair of field glasses and went on a sniping trip. When he returned to his company in the evening he had 12 enemy dead to his credit.

"I must've been crazy," Turner said. "But I couldn't think of anything else when they told me the Chinese had killed my best friend. I was mad clear through."

Turner had worked his way to an exposed mountaintop and watched for signs of movement in the valley below. When he spotted a movement through his field glasses, he fired a few rounds to drive the Chinese into the open then picked them off.

The hunting was so good that he returned for Sgt. Jimmy Baxter of Anderson, S. C., and Sgt. Doyle Elmore of Left Hand, W. Va. They took turns as observers and snipers and between the three of them ran up a total of 36 dead Chinese.

Baxter recalled one shot that netted him two Communists. "I couldn't believe it," he said. "I fired at this clump of bushes and two Chinese slumped out and rolled down the hill."

## MOVIE SHOWN TO ROTARIANS MONDAY

Members of the Rotary Club were shown a movie, "Selling America," at their regular meeting Monday at the Connellee Hotel.

Charles Lane was presented as the Junior Rotarian of the month at the meeting by W. C. Robinson.

Lane is a senior in high school, and assistant drum major of the high school band of which he has been a member about four years.

## Gen. Ike Names 7-Man General Staff For Army

PARIS, March 6 (UP)—Gen. Dwight D. Eisenhower announced today the appointment of a seven-man general staff to help him organize and lead the Atlantic Pact Army.

Only one American was included in the group. He was Maj. Gen. Edmond H. Leavelle who will be assistant chief of staff for logistics.

Eisenhower postponed naming a deputy supreme commander.

The others named to the "brain trust" were Lt. Gen. Marcel Maurice Carpenter, French Army, Deputy Chief of Staff for Administration; Air Vice Marshall E. C. Huddleston, British RAF, deputy chief of staff for plans; Rear Admiral Ferrate Capponi, Italian navy, assistant chief of staff for personnel and administration.

Maj. Gen. Sir Terence Sydney Airey, British army, assistant chief of staff for intelligence; Maj. Gen. F. W. Festing, British Army, assistant chief of staff for organization and training; and Maj. Gen. Pierre Louis Bodet, French air force, assistant chief of staff for plans, policy and operations.

The announcement by Eisenhower's supreme headquarters pointed out that "these positions do not include a deputy supreme commander nor any other major operational command which will come under Gen. Eisenhower."

"The final selection of these (operational) officers has not been made," the announcement said.

Among the men mentioned for these appointments were Britain's Field Marshal Viscount Montgomery and France's Gen. Alphonse Juin.

## CITIES NAMED AS STOCKPILING POINTS FOR WILDCATTING

WICHITA FALLS, Tex., March 6 (UP)—The Petroleum Administration for Defense has designated four Texas cities as stockpiling points for tubular goods for wildcatting, the North Texas Oil and Gas Association said yesterday.

The association said Wichita Falls, Odessa, Houston and Corpus Christi would be formally designated as stockpile locations by the PAD later this week.

Other southwestern locations named were Oklahoma City, Shreveport and Harvey, La.

## Oil Production Depletion Cut Is Opposed

WASHINGTON, March 6 — A reduction in the 27.5% percentage depletion allowance for oil and gas production as recommended by the Treasury Department would force his company out of business with a few years, H. B. Fuqua, chairman of the board of the Texas Pacific Coal and Oil Co., Fort Worth, Texas, declared in a statement prepared for presentation before the House Ways and Means Committee today (March 6).

Fuqua stated that the proposed slash in the depletion allowance to 15% would seriously curtail the accumulation of working capital by his company.

"Unless the Company's working capital can be preserved," he said, "it cannot explore, drill and develop new oil reserves to replace the oil that is produced. This is just another way of saying that unless the company can maintain its working capital it cannot long remain in business as a going concern."

And, if the company is forced out of business, Fuqua emphasized, the suggested cut by the Treasury Department would result ultimately in a loss, instead of a gain, in tax revenues.

His company, Fuqua explained, is engaged solely in oil and gas production. Annually it drills an average of 75 wells, 20 of which are wildcat, or exploratory wells. Most of the latter, he said, result in dry holes and a consequent loss of the entire investment.

## EASTLAND BAKERY UNDERGOES RECENT REMODELING JOB

The Eastland Bakery and Coffee shop has recently undergone complete remodeling. Mr. and Mrs. E. R. Overstreet, owners, have announced.

The interior of the shop has been re-arranged and re-decorated providing much more space and for more convenience.

Overstreet also announced that Don Howe, one of the better cooks of the area, is now employed by the Bakery. He will cook for the short order department as well as in the bakery.

## Volunteer For Air Forces Told

Joe L. Bertino, Mings, volunteered last week for duty in the Air Forces. M-Sgt. Frank E. Lockman, Eastland area recruiter, has announced.

Bertino was employed by the Texas Electric Service Co. Sgt. Lockman also announced that any previous service men can now enlist in the Air Forces. Men with up to and including two dependents are being accepted by the Air Forces, Lockman said.

## FINAL BARRIERS ARE UMT, 4 OR 2 YEAR LIMITATIONS

WASHINGTON, March 6 (UP)—Senate backers of the 18-year-old draft bill were confident today of knocking down additional amendments which they claimed would cripple it.

A showdown vote on the draft bill was likely tomorrow. Final passage was foreshadowed by the test votes which the administration forces won yesterday.

An effort to lower the draft age from 19 to 18 1-2, instead of 18, was beaten by a 55 to 31 vote yesterday. Today the two major barriers to final passage were amendments to strip the universal military training features from it, and to place either four or two year limitations on the program.

In other congressional developments:

## Father-Son Banquet Plans Are Complete

The program for the annual Father-Son banquet to be held at the First Methodist church at 7 p.m. today, has been announced. Fred G. Adecock will be toastmaster for the banquet which is sponsored by the 945 Bible Class of the First Methodist church.

Rev. J. Morris Bailey will give the invocation. The banquet will be served by the Martha Dorcas Class.

Following the banquet, R. Pat Miller will lead a sing song period. A hillbilly band, composed of a group of Eastland children and presented by Ruth Foe Herring, will be on the program.

Stanley Webb, accompanied by Mrs. Webb, will present a vocal solo.

Rev. Philip W. Walker, pastor of the First Methodist church, Denton, will be the speaker and will be introduced by Virgil T. Seaberry, Rev. Walker, a former pastor of the church here, will speak on "Hounds and Men."

The Father-Son banquet is presented each year for the boys of the community. Judge J. E. Hickman initiated the program while he was living in Eastland. He is now a member of the Texas Supreme Court in Austin.

The banquet is for all members of the community. All fathers and sons are welcome to attend.

If any tickets are left over, they will be available at the church tonight.

## 60,000 May Draftees

WASHINGTON, March 6 (UP)—The Army asked today for 60,000 draftees during May.

## Democracies Borrow Leaf From Red Book-Use Bare-Knuckle Diplomacy

By Harry Ferguson  
United Press Foreign News Editor

The things that go on these days would cause an old-line diplomat to roll in his grave. Gone are the times when no matter how angry you were you still maintained a rigid politeness and used language like "accept, excellency, the renewed assurances of my esteem."

We have moved into the bare-knuckle era of diplomacy. The democracies have borrowed a leaf from the Communists' book. They talk tough all the time for fear that if they don't the other side will think they are ready to make some concessions.

The Communists have taken quite a going over in the last three days. Things that have been said to them and about them that would have caused troop mobilizations and ultimatums back at the turn of the century when nations subscribed to the old-fashioned idea that you declare war before you attack somebody.

Just at the time when representatives of America, Britain, France and Russia were sitting down in Paris to see whether they could set up the basis for a truce in the cold war the following things happened:

1. The U. S. State Department said Communism had been a flop in Western Europe. The party has lost 1,295,000 members, one-third of its membership.

2. Two aides of Marshal Tito of Yugoslavia announced that if Russia incited anybody to attack their nation the aggressors would

RFC—White House associates were reported split over whether Donald S. Dawson should testify voluntarily in the Senate's RFC inquiry. Dawson is personnel adviser to President Truman, and his wife supervises Reconstruction Finance Corp. files. Testimony before a Senate banking subcommittee revealed that he was a "complimentary" guest at the Saxony Hotel in Miami Beach four times. The hotel had a \$1,500,000 RFC loan at the time.

Troops — A Republican bloc was ready to ask that the House be given a voice in approving assignment of American troops to Western Europe. GOP members of the Senate Foreign Relations and Armed Services Committee were ready to present the suggestion as the committees neared a decision on the issue.

Communism — Rep. Harold H. Valde, R., Ill., a member of the House Un-American Activities Committee, said a witness has been found who may "turn state's evidence" and talk freely about Communism in Hollywood. He would not identify the witness. Subpenas for 18 witnesses — three in New York and 15 in Hollywood — already have been served in the committee's new inquiry into Reds in the filmland.

Taxes — Oil industry spokesmen asked house tax writers to reject President Truman's recommendation that the present depletion allowance of 27 1-2 per cent on gross income be cut to 15. They said any reduction in the special tax allowance they now get will result in less oil production.

DO-SI-DO MEETS  
The Do-Si-Do square dance club will meet at 8 p.m. Thursday at the American Legion Hall. All members are urged to attend.

be driven back with smashed heads." 3. Dr. Vannevar Bush, who played a large part in the development of the atomic bomb, said Russia was afraid to start a war now because if she did the United States would destroy her with A-Bombs.

In due time Moscow will reply to these assertions in even stronger language.

Up until about two years ago the United States, Britain and France used conciliatory language in dealing with Moscow. Their attitude was that something might happen at any time to cause Moscow to change her attitude and doors always must be left open through which the world could walk into an era of peace. That thinking gave way gradually and it died on the day the North Koreans invaded South Korea. That was the proof that, despite all its protestations that it wanted peace, international Communism had a program of war for any part of the world where the chances looked inviting.

When the Soviet Union makes a proposal these days, the immediate reaction in Washington and London is "what we want from Moscow is deeds, not words." In two years the attitude of the democratic world has shifted so radically that everything Moscow puts out is searched not for what it says, but for the joker that usually is in the deck.

"ROCKET AHEAD" With Oldsmobile Osborne Motor Company, Eastland

### UN Ground Army Ready For Red Counter Attack

8TH ARMY HEADQUARTERS Korea, March 6 (UP)—Lt. Gen. Matthew B. Ridgway, commander of Allied ground forces in Korea, said today that his men were ready for any Communist counter-offensive.

moment," he told a press conference. He said he did not believe the Chinese and North Korean Communist armies now confronting the 8th Army could drive the UN forces out of Korea.

"Their time-table said they would kick us out of Korea by the end of January," Ridgway said. "Now it must be later. It is already March 6."

He conceded that the Communists still have an overwhelming superiority in numbers at the front, but attributed this in part to the fact that 80 per cent of their troops are front-line riflemen.

"We fight as a team," he said. "We do not move without firm logistical support."

He said he had issued stiff orders against wasting material and it is a punishable offense for any soldier to waste or needlessly damage any usable piece of equipment.

His goal, he said, is still the maximum destruction of enemy forces at a minimum cost to the Allies.

There is no definite evidence of Russian advisers with Communist combat units, Ridgway said. But he said Chinese tactics were modeled directly on the Russian doctrine of a short concentrated attack in overwhelming numbers, to be followed by quick disengagement if the attack fails.

### Operation Fireworks

ORANGBURG, N. Y., March 6 (UP)—Nineteen-year-old Frank Perkins fired at a crowd yesterday. Instead, he hit the roof of a fireworks factory, setting off an explosion which leveled three of six old frame buildings.

### Explosion Wrecks Cafe

FORT WORTH, Tex., March 6 (UP)—An explosion blamed to accumulated gas wrecked the Big Apple Cafe early today, causing damage estimated at \$6,000 to \$8,000.

**HIT MISS**—Striking is the word for the bathing suit worn by actress Virginia Gibson in Hollywood. "Lightning strikes twice" is the theme of this suit, and the least you can say is lightning certainly knows what it's doing.

### More You Itch, More You Scratch

Itching may well lead the field as a robber of comfort. Itching gets you coming and going. The more you itch, the more you scratch; and the more you scratch the more you itch. And it can arise from more causes than a dog has fleas.

The family doctor is usually the first one you go to when you itch. He should be, because he may save you much time, energy and money in the long run. He may pin your itching down to some specific affliction, right off the bat, something that has nothing to do with the skin. Something like liver or kidney disease.

He'll usually ask you four questions, pertinent questions about your itch. He'll want to know if the itch wakes you up and starts you scratching at night. He'll ask if you forget about the itchiness while you're busy during the day. He'll also find out if you can stop scratching without too much difficulty when you decide to stop. And he'll inquire under what circumstances the itching starts, whether walking into a warm room

starts it up, whether it gets busy when you get cold, whether it's worse when you're dressing or undressing, or whether you can relieve it by wearing loose clothes.

Itches that waken you from your sleep and make you scratch fall into one class, while those that don't fall into another. The sleep-breaking itches are generally the ones where you can't help yourself, you just gotta scratch; the others may be just as annoying, but you scratch because you want to scratch, not because you have to.

And the more you scratch, the more you itch, the more you scratch.

### Girls State Cage Tourney Begins Thursday

AUSTIN, Tex., March 6 (UP)—Pairings were set today for the first annual girls' state Texas Interscholastic League basketball tournament which opens a three-day run Thursday night.

League sponsors of the tourney, said Class B competition will begin at 7:30 p.m. Thursday with

Denton Valley (Clyde) playing Bartow at St. Edward's Gymnasium. Troy plays Warren at 8:50 p.m. in a second game.

The remainder of the tournament will be played in Gregory Gymnasium on the University of Texas campus.

In other first-round Class B openers, Sulphur Bluff meets Claude at 8:45 a.m. Friday; and

at 10:10 a.m., Duncanville plays Industrial Consolidated (Vanderbilt).

In Class A play opens Friday with Plano vs. Itasca, 11:30 a.m.; Carrizo Springs vs. McLean, 1:45 p.m.; Comanche vs. Decatur, 3:10 p.m., and Fredericksburg vs. West Columbia, 4:35 p.m.

There is no AA class in girls' competition.

## When Nasty Colds Leave You WEAK AND RUNDOWN HADACOL CAN HELP

If Your System Lacks Vitamins B1, B2, Niacin and Iron, Which HADACOL Contains

When a nasty cold leaves you in a weakened and run-down condition, HADACOL can help build you up if your system is lacking in Vitamins B1, B2, Niacin and Iron, important elements contained in HADACOL. Many folks have found that this fine family formula helps overcome these deficiencies and soon they feel good again.

Mrs. A. Jiminez, 141 East 13th St., Port Arthur, Texas, gave HADACOL to her young son, Floyd, after he had recovered from a bad cold when she heard how HADACOL was helping folks suffering from deficiencies of Vitamins B1, B2, Niacin and Iron. It helped him so much in regaining his strength and energy that Mrs. Jiminez says she is always going to have HADACOL on hand for Floyd.

covering from a siege of a bad cold.

He was very run-down and I started giving him HADACOL. After about a bottle and a half I could notice an improvement. His appetite picked up and he had increased strength. I think HADACOL has done wonders for Floyd, and can't praise it enough. I have continued to give him HADACOL and intend to always have it on hand for Floyd."

Floyd Jiminez

Here is Mrs. Jiminez's statement:

"My son Floyd was very subject to colds. He's eleven years old, and he was run-down, didn't seem to have an appetite at all and just simply lacked energy. I heard about HADACOL on the radio, and it was about this time that Floyd was just re-

Men, women and children of all ages are praising HADACOL for supplying Vitamins B1, B2, Niacin and Iron which their systems lacked. Don't let that "After-Cold Run-down Feeling" drag you down—HADACOL can help you too. If you suffer such deficiencies.

Sold on a strict money-back guarantee. You'll feel great after the first few bottles you take or your money back. Trial size, \$1.25; large family economy size, \$3.50.

## Medical Center Slated For Sheppard Field

WICHITA FALLS, Tex., March 6 (UP)—A large specialized medical center, the Air Force's equivalent to the Army's Brooke Medical center at San Antonio, will be established at Sheppard Air Force Base.

Col. Julian A. Jarman, medical officer, said yesterday the 1,075-bed center will offer medical, dental and surgical specialties. The stepped-up hospital activity, involving doubling of present facilities, will be in addition to Sheppard's main activity of training airplane mechanics.

Jarman did not say when the expansion would be completed. He said equipment would be brought from other bases and World War II buildings here would be rehabilitated as quickly as possible.

The medical center will serve Air Force personnel throughout the central United States.

Two tons of shiny sheets of stainless steel cap a monument in Northwest Greenland erected seven years ago in memory of Admiral Peary.

## '51 CHRYSLER WINS SPEED TITLE AT 100 MPH

Tom McCahill, featured automotive writer for "Mechanix Illustrated" (center), receives trophy emblematic of the 1951 official unmodified stock-car record from Bill France, President of the National Association for Stock Car Auto Racing. The record of 100.13 miles per hour was made at Daytona Beach, Fla., in a Chrysler New Yorker four-door sedan, powered by the new 180-horsepower V-8 Firepower engine. McCahill entered the trials on the spur of the moment with a car that had been driven only 400 miles and that had been given no special tune-up. W. Brewster Shaw, Jr., Chrysler dealer in Daytona Beach, shown standing at the right, loaned him the vehicle, taking it off the showroom floor.

## Tobacco Chewing Vermonters Forms Only K-Nine Corps In Korea War

By H. D. Quigg  
WEST CENTRAL FRONT, Korea, March 6 (UP)—The lean, easy-going sergeant with the Vermont accent stick an unlighted cigarette behind his right ear, shifted his quid of tobacco to his right cheek and clapped a mint into his mouth.

"When I started out here from the States," he said, "the idea was that I was going to be with a K-nine war dog detachment. Something went wrong. I found myself in the line with the First Cavalry Division."

Sgt. 1st Class Guy C. Sheldon, a veteran handler of war dogs in World War II in which he served with a K-nine detachment with the U. S. Marines, the Australians, and the Papuan infantry in New Guinea and New Britain, spread his hands out to warm over a charcoal pot in the dirt-walled Korean room which was his quarters.

"When I got here, the first thing I said was, 'you got dogs in this outfit?' The cavalrymen said, 'hell, no; the only thing we do with 'em out here is eat 'em.' The Koreans, you know, grow dogs for food and eat them by the time they're a year old."

Sheldon, who will tell you of the drop of a hat that "my home is in Montpelier, Vt., and I'm an old Republican," put some of his traditional New England stubbornness to work when he got here and found himself fighting Communists with a rifle instead of with dogs.

"I told a line officer, 'I'm a dog man' and he said 'okay, let's grab off a few dogs.' So a platoon sergeant and I went out with a jeep and got a Korean dog in a village. He was mean. We had to rattle the S.O.B. down. It was like taking hold of a damned piece of chained lightning."

That was the start. Sheldon formed the first and only K-nine detachment in the Korean war—using native Korean dogs. That first dog now is up in the line doing guard duty.

When Sheldon first began building his K-nine unit he was with—no kidding—Dog Company. But now he and the unit have moved to a regimental headquarters. There are nine men in his unit and seven dogs in training. Sheldon says the local dogs he is using are a shepherd cross. The Japanese introduced shepherds which they got from the Germans, and the shepherds have crossed with native dogs.

Sheldon equipped his unit by making a trip to Pusan and designing his own pack saddle, collars, leashes, and brushes, which he got some leather workers to make up.

Some of the dogs just wandered up looking for food and became

## Bolivia Accused Of Gouging Price Of Tin

part of the unit, some were acquired by trading, and Sheldon says, "sometimes we even bought 'em for a thousand to five thousand won. That's equivalent to paying 25 cents to \$1.25."

One red-haired female dog was acquired by trading a cigarette lighter. "She's the WAC," said her trainer, Corp. Floyd T. Abrahamson, 24, of (3935 Peachtree St.) Dallas, Texas.

"Yep," said Private George Mooren, 23, of Maple Heights, O., "the other six dogs are GIs. Matter of fact, counting us trainers and handlers, we got 15 GIs and 1 WAC." Mooren is the veterinarian technician of the detachment.

The handlers crowded around me to point out the dogs they had trained. PFC. Joseph Riley, 18, of Macon, Ga., had trained "Spik," the first dog in the unit. PFC. James D. Matty, 21, of Snow Shoe, Pa., pointed to "Tippy," a pup which they had found faint from hunger.

Corp. Curtis A. Remfrey, 29, of Cornwall, N. Y., said his dog "Snake" was presented to them by a mortar platoon. Corp. Robert G. Tracey, 19, of Portland, Me., paid a Korean 50 cents for his "Rex." Corp. Don J. Smith, 22, of (5414 Parkdale Drive) Dallas, Tex., paid \$1.25 to a Korean mamasan for "Wolf."

And Corp. Theodore McKelvey, 23, Crestwood, N. Y., got his "Jack" from "a GI, who raised him from a pup."

TEXAS CITY, Tex., March 6 (UP)—A Senate preparedness sub-committee's charges of price gouging by Bolivia on tin ore were reflected today in a report that costs of producing tin have risen here.

S. P. Lowe, vice president and assistant general manager of the tin processing corporation smelter, said costs here have risen in proportion to sharp increases in the price of ore.

The big smelter is the only one in the western hemisphere and much of its raw material comes from Bolivia. Lowe said costs of smelting have "increased considerably" since the Korean war began.

The Senate sub-committee noted that Bolivia has raised the price of tin to the United States from 75 cents a pound to almost \$2 a pound since last June.

## Las Leales Club Has Texas Day Program At Woman's Club

Members of Las Leales Club heard a Texas Day program Monday evening at their meeting at the Woman's Club.

Mrs. D. E. Frazer told of Texas Festivals and Mrs. Lewis Crossley reviewed Ed T. Cox's "History of Eastland County."

Mrs. J. P. Kilgore, president, presided, heard reports and the group voted to give a donation to the Red Cross drive.

Roll call was answered with excerpts from Texas Poets, with the work of Maifred Halle Cullen, predominating. Mrs. Cullen, now of Colorado City, is a former club member. Mrs. Joe Sparks was welcomed as a new member.

Present were Meses. Wayne

Caton, Crossley, Frazer, H. L. Hassell, Kilgore, Fred Maxey, Don Parker, Guy Patterson, G. A. Plummer, Homer Smith, W. Q. Verner, H. C. Westfall, J. C. Whately, James Horton, Wendell Siebert, Rudolph Little, Ross Rucker, Joe Sparks and Miss Jessie Lee Ligon.

### Personals

Mr. and Mrs. D. B. Cox have had as recent guests in their home their daughter, Mrs. J. B. Brannon, Mr. Brannon and daughters, Judith Ann and Johnnie of Breckenridge, and Mrs. Cecil Hibert, who also visited with other Eastland friends.

Mr. and Mrs. S. E. Price accompanied by Meses. D. B. Cox and Jack Lusk attended the Singing, Sunday in Stephenville, and visited with friends.

Captain J. B. Blunk of Jackson South Carolina visited here over the week-end with friends.

## TENNESSEE DAIRIES MILK NOW AT YOUR GROCERY

Every drop of Tennessee Dairies milk is guarded as though I expected my own babies to drink it.

MILK — NATURE'S MOST NEARLY PERFECT FOOD  
Milk is best for growing boys and girls because it's irradiated with Vitamin D—the sunshine vitamin that puts strength in bones and soundness in teeth. But who — child or grownups — drink milk for the vitamins? You'll like Tennessee milk for the simple reason that it tastes so good—is richer in cream—and gives you a real pick-up at any time of day.

## TCU, Aggies Meet In First Playoff Game

WACO, Tex., March 6 (UP)—Texas Christian's Horned Frogs and the Aggies of Texas A&M meet tonight in the first act of the Southwest Conference's battle of champions for a NCAA tournament berth.

The winner of tonight's battle, expected to be played before a capacity crowd of 3,000 in Baylor's gymnasium, advances into a best two-of-three series with the University of Texas. All three clubs tied for the regular season conference championship.

The Frogs and Cadets look even on paper.

Offensively, TCU rates the edge with an average of 52 points per game in conference play, compared with A&M's 42. Defensively, the Aggies gave up fewer than 40 points per contest to the Frogs' 48.

The clubs, in two previous meetings this year, won one game each—and by identical margins. TCU defeated A&M, 30 to 27, at Fort Worth, and the Aggies edged the Frogs, 39 to 36, at College Station.

Each team placed two men among the top 10 scorers in the loop, both in conference play and over the full season.

George McLeod, lanky TCU center, ranked second in the loop for the season with 322 points for the best record of the quartet. Walt Davis of A&M was fifth at 304 points, Jewell McDowell eighth at 281 points and TCU's Harvey Fromme at 259 points.

The final series, pitting tonights winner and Texas, will open Saturday night in either College Station or Fort Worth, depending upon the winner. The second game, and third if necessary, will be shifted to the Longhorns' Gregory gymnasium next March 12 and 14.
