Every drop of Tennessee Dairies milk is guarded as though I expected my own babies to drink it.

MILK - NATURE'S MOST NEARLY PERFECT FOOD

Milk is best for growing boys and girls because it's irradiated with Vitamin D-the sunshine vitamin that puts strength in bones and soundness in teeth. But who --child or grownups -- drink milk for the vitamins? You'll like Tennessee milk for the simple reason that it tastes so good—is richer in cream and gives you a real pickup at any time of day.
