

Ridgway Agreed Today To Preliminary Cease-Fire Conference In Korea Sunday

COMMIE-CONTROLLED PAPER SAYS NO POLITICAL DEMANDS

By Earnest Hoberecht
United Press Staff Correspondent
TOKYO, July 5 (UP)—Gen. Matthew B. Ridgway agreed today to a preliminary cease-fire conference on the Korean battlefield Sunday and Red sources said the Communists would help speed up an armistice by avoiding political issues.

The Communist-controlled newspaper Ta Kung Pao, generally regarded as Red China's mouthpiece in Hong Kong, said the Communist negotiators would not make any political demands at the truce conference.

The newspaper said all speculation about the possibility that the Reds would try to hamstring the cease-fire talks with political issues was "entirely unnecessary."

It denied that the Communist Armistice move was a ruse to cover preparations for a new offensive and said the Reds are sincere in "desiring the fighting to end as soon as possible."

Allied authorities have predicted from the start that a quick agreement on a cease-fire could be reached if the Chinese and North Korean Reds did not drag in such political questions as the future of Formosa and China's seat in the UN.

Ridgway today sent the Communists his agreement to a preliminary cease-fire conference to be held Sunday and at the same time demanded "positive assurance" of safe-conduct for the Allied delegation.

The Supreme United Nations commander's request for a safe-conduct guarantee was the first indication of official concern that the cease-fire talks might be a Communist "trap."

However, the Reds were expected to give Ridgway the guarantee he asked and follow it up with details of their own delegation's planned trip to the 38th Parallel no-man's-land city of Kaesong for the preliminary conference.

UN monitors kept tuned to the wavelengths of Peiping and Pyongyang, the enemy capitals, but reported no reply had been received up to 9:30 p.m. (7:30 a.m. EDT) — nine hours after Ridgway's message was broadcast.

The preliminary meeting will be charged with arranging details of formal cease-fire talks, also to be held in Kaesong. Ridgway has expressed the hope that these could begin Tuesday, or earlier if possible.

In Korea, the war ground to a virtual halt in a midsummer rain in apparent anticipation of the cease-fire. A UN patrol entered the city of Kaesong yesterday and found it deserted.

Only small-scale enemy counter attacks, easily repulsed, patrols and sporadic artillery duels were reported elsewhere along the 100-mile Korean front.

Communist radio stations, meantime, kept up a propaganda broadcast designed to "save face" in the light of the failure of the Reds' Korean adventure.

The fifth and latest in the series of messages exchanged by the Allied and Communist commanders was broadcast by UN stations at 10:30 a.m. (8:30 p.m. Wednesday EDT).

It was addressed by Ridgway to Kim Il Sung, North Korean premier and commander in chief and Gen. Peng Teh-Huai, commander of Chinese "Volunteers" in Korea.

The message replied to one sent only 15½ hours earlier by the Communists, that accepted Ridgway's proposal for a preliminary conference in Kaesong but asked that it be held Sunday instead of today as the UN commander had urged.

Ridgway's reply said: "I have received your reply dated 4th July.

"The date of 8th July for an initial meeting is acceptable.

"Reference is made to my message dated 3rd July. In addition to the three liaison officers specified in that message, two interpreters will be sent. Positive assurance of safe-conduct for this personnel is requested.

"SECOND ECHELON REDS"—Elizabeth Gurley Flynn (L), chairman of the Women's Commission of the Communist part, and Betty Gannett, another indicted member of the "second echelon leadership", stand outside Federal Court before entering to plead not guilty to charges of conspiring to advocate the forcible overthrow of the government. Missouri River On A Rampage Today As Families Are Chased From Homes In Flooded Area

ST. CHARLES, MO., July 5 (UP)—The rampaging Missouri River broke through a railroad embankment north of here today, forcing 80 farm families out of their homes as it swept across 20,000 acres of rich bottomlands.

Helmuth Dallmeyer, Red Cross Disaster Worker, said the swollen "big muddy" cut a 40 foot breach in the Missouri-Kansas-Texas railroad fill about 5 a.m. CST.

The break dashed hopes of Coast Guard, Engineer Corps and Civilian Flood Workers, who had worked a week to strengthen the embankment, to save the area from a complete flooding.

They turned their efforts after the break to getting out the few families which had remained behind in hopes the improvised levee would hold.

One optimistic farmer, George Ansler had remained in his home with his family although they lived only a stone's throw from the spot where the embankment finally gave way. They were removed by Coast Guard Boat after the levee broke.

Dallmeyer said others in the area had more time to evacuate. It would take all day for the water to sweep over the bottomlands between here and the Mississippi River, he said.

He said it was hoped that several large lakes in the area would prevent the floods from reaching the villages of West Alton and Orchard Farms. However, the swirling waters were expected to isolate the community of Black Walnut.

The waters also would reach the northern city limits of St. Charles, Dallmeyer said, but the main section of the city, which is located on a high hill four miles south of the levee break, would not be endangered.

Meanwhile, the Missouri continued to rise. The river stood at 36.3 feet, 11.3 feet above flood stage, and the Weather Bureau said that might be the crest.

Army Engineers reported the "Big Muddy" falling upstream at Hermann, Mo., and, except for scattered local areas, the flood was subsiding in Western Missouri and Kansas.

The Verdigris River was expected to crest at Claremore, Okla., at about 10 feet above flood stage today, and the Arkansas continued to rise at Tulsa.

In their daily summary of the flood situation the engineers said 130 levees in Missouri have been torn out.

Erwin Nadler, 11, of Augusta, Mo., became the 10th flood victim in the Kansas-Missouri area when he drowned while playing in a drainage ditch.

Missourians counted more weather damage at Webb City following a tornado which struck the town early yesterday, injuring one man and causing damage estimated at \$100,000.

The funnel damaged 27 homes and several business buildings in a four-block area.

Many local citizens are hailing the formation of the HVWA (Hospital Volunteer Workers Association) as the best move made to date in the effort to obtain a hospital for Eastland.

The group is dedicated to the formation of plans for a hospital here, and seeing that they are carried out. Theirs will be the task of actually seeing that a hospital is constructed, in the manner and place they find best by investigation.

The HVWA is no restricted group. They will welcome any who wish to help with the work into the group, and will urge young men of the city to join them in seeing the task to completion.

In reporting on the past activities of the hospital movement, W. B. Pickens told the group at their Monday meeting that the funds committee which earlier had tried to raise \$100,000 to do the job had found that it could not be done.

He explained that the people of the city were not in the right frame of mind to put the drive over. Others at the meeting expressed the opinion that the strong opposition of so many persons to the proposed assessment of \$1 on each water meter of the city also reflected the fact that the people of the city are not convinced of the need for a hospital here.

It was agreed that one of the tasks of the newly formed group will be to sell the people of the city on a hospital. All present agreed that a hospital is essential to the welfare of the city.

"We don't just need a hospital," Wayne Jackson said. "We just gotta have a hospital."

Others at the meeting agreed with his views and work was started on doing something about it. Perhaps this is the beginning of the final realization of a hospital for the city.

New System For Money Orders Told

July 1, 1951, the Post Office Department discontinued the old money order system and instituted a new system, E. E. Layton, coas postmaster, has announced.

Under the old system, money orders were drawn on a specific post office. Within 30 days they could be cashed at any post office. If cashed at an office other than the office of issue or the office drawn on a fee was charged equal to the original fee. After 30 days it had to be cashed at the office of issue or at the office drawn on.

The new money order is printed on a punched card. It is not drawn on any office and may be cashed at any office within a year. The system is designed to save time both at the office of issue and in the accounting department of the Post Office Department. They can be cashed at any bank and are collectible through any Federal Reserve Bank.

Applications are filled out by the patrons the same as with the old forms. Since they are punched cards in order to facilitate their handling at regional accounting offices with electrical sorting and accounting machines, patrons are cautioned not to bend or fold them.

The sale of postal notes was discontinued March 31, 1951.

"The Post Office Department feels that these new money orders will be more convenient for the patrons, and at the same time effect a great saving in the accounting department," Layton said.

Further information may be obtained at the money order window at any post office.

Cash Market Available For Dry Peas In Eastland County

Farmers who may wish to plant late blackeye or other varieties of peas are assumed a ready cash market for their dry peas at Gorman, Boyd Hilley of that city informed the County Agent's office in Eastland this week.

Hilley, manager of a feed store in Gorman, bought over 30 tons of dry peas for an East Texas concern last year to establish a cash market for dry peas in the county for the first time.

A larger acreage of early peas has been planted in the area and a number of fields of the peas have reached the bloom stage, J. M. Cooper, county agent, said.

According to reports these fields look good at the present time. Yields last year ranged from 400 to 800 pounds per acre, and yields this year are expected to be better.

Due to rains in late May and early June it was thought that other farmers may have changed their crop plans and would have some acreage they would like to plant in peas, especially if they

Contractors To Report Today

DALLAS, July 5 (UP)—The American Association of Oilwell Drilling Contractors reported today 2,713 rotary rigs active in United States and Canadian fields this week.

This was 33 more than last week. The figure compares with 2,640 rigs operating a month ago, and 2,329 for the same week a year ago.

A breakdown gives the following rigs this week and last week in various areas:

Ark. - La. - Tex. area—158, 154; West Texas and New Mexico—904, 889; Gulf Coast—590, 586; and Oklahoma—300, 289.

Kids Do Okay Man Gets Hurt

SAN ANTONIO, July 5 (UP)—The kids did all right with their fireworks yesterday, not a single injury being reported as a result of noisemaking devices among the smaller fry.

Police said the only fireworks injury in these parts was received by a 57-year-old pharmacist burned on the hand when he held a sputtering firecracker too long.

Allen Shivers Talks Straight

AMARILLO, July 5 (UP)—Gov. Allan Shivers has caused new speculation that he has an eye on the U. S. Senate seat now held by the veteran Tom Connally.

Addressing an Independence Day Celebration at the Amarillo Fairgrounds yesterday, Shivers delivered a critique on U. S. Foreign Policy, a field in which Connally has specialized as Chairman of the Senate Foreign Relations Committee.

The Governor said, "we must realize that to have peace we must meet Communism on all fronts, without appeasement. We must fight a course and stick to it."

"It's about time for us to do things the American way instead of someone else's way."

Shivers said the peril facing the nation now faces its gravest peril of history, "from a source which would engulf the whole world"—Communism.

"You can't call any of them, including old Joe, a good fellow," Shivers warned. "If you don't stamp them out like a snake under your feet, they will rise to stab you in the back."

Legion District Meet Is Slated

Some 450 delegates are expected at Breckenridge this weekend for the convention of the American Legion 17th District Legionnaires and Auxiliary members.

The meeting will open Saturday with registration followed by a stag for Legionnaires and an informal coffee for Auxiliary members. Saturday night a dance is planned.

Sunday morning's memorial service is to be conducted by Department Chaplain Leslie Cochran.

American Soldiers Figure Ways To Remain Alive To War's End

SOMEWHERE IN KOREA, July 5 (UP)—American soldiers on patrol figured ways today to keep from being killed before a cease-fire is signed.

When the all clear word was passed, the patrol fanned out and up to the top of the mountain. Holt put his glasses on the enemy and his men whispered.

"I hope this cease-fire isn't just a bunch of talk," Sgt. Lloyd Bright, of Los Angeles, said. "There is always a chance of running into something with this war as close as it is to being over. It's a hell of a time to be hurt."

The patrol accomplished its mission and trudged for three hours back to their line position.

"I feel that this was my last patrol," Pfc. Stanley R. Shaw, of New Haven, Conn., said hopefully. "By the time patrol duty comes around again to my squad, the war will be over."

Legion Meeting To Hear Boys State Report

Joe Ernst and Jim Ed Willman, representatives from Eastland to Boy's State this year, will report on their trip at the regular meeting of the Eastland American Legion Post Thursday night.

The local post each year sponsors representatives from Eastland to Boy's State, where they operate their own government and hold their own elections as a part of the program.

Boys are chosen each year on their scholastic record and personality among other qualities. Representatives each year are Juniors in high school.

Refreshments will be served at the meeting, according to C. G. Stencheomb, post commander.

Harry Byrd's Atlanta Speech Was Of Political Importance

By Lyle C. Wilson
United Press Staff Correspondent
WASHINGTON, July 5 (UP)—First reports of Sen. Harry F. Byrd's Atlanta, Ga., speech missed a lot of its socio political importance.

What the Virginia Democrat told the Georgia Democrats was reported adequately. But in the dozen days since Byrd spoke it has become clear that the circumstances of the speech were as significant as its language.

By the language he used, Byrd broke beyond repair with President Truman. He said there was a difference between real Democrats and Truman Democrats. The Senator said the difference was created by what he termed the President's financial irresponsibility, his Socialistic program, his advocacy of unconstitutional civil rights, the moral deteriorating of government under his administration, and the centralization of government power in Washington.

Byrd has been talking that way for some time. His Atlanta speech on June 25 was a wrap-up of various indictments of the administration over a period of years.

Political and editorial reaction in the Southland here since the speech was delivered has pointed up the importance of the audience which applauded Byrd. He spoke under the auspices of the Democratic State Committee of Georgia. He was the committee's guest by persuasion of Georgia's two Senators, Walter F. George, and Richard B. Russell.

Byrd's speech brought Gov. James F. Byrnes of South Carolina into what appears now to have been a concerted movement by the elder statesmen of the Democratic party in the South to break the hold of northern Democrats on their party.

Now this is significant because these four men actually are the top Southern Democrats and, moreover, none of them joined the leadership of the State's Rights or Dixiecrat movement which sought in 1948 to hold Southern electoral votes from Truman.

Warn Against Mex Remedy

WASHINGTON, July 5 (UP)—The Food and Drug Administration warned the nation's 1,000,000 diabetics today that use of a "diabetes remedy" produced by a Mexican company could prove fatal.

The agency said about 20 packages of the preparation have been intercepted en route to diabetics in various parts of the United States.

Authorities said the preparation was "worthless and dangerous" if used as a substitute for insulin and that diabetics would risk their lives by taking it.

The remedy, called "Cacalia Composita, Mexican-Indian Root," is offered by the Mexican Indian Root Co., Mexico City. The firm's circulars give the name of

Texans Die Over 4th

At least 14 Texans died by accident and violence during the 30-hour fourth of July holiday. The toll was far below that predicted by Department of Public Safety forecasts.

Five died in traffic accidents, three persons drowned, one man was killed in a plane crash, and five others died in miscellaneous accidents and violence.

The National traffic toll was at least 21, far less than the 130 predicted by the National Safety Council.

At least 160 persons were killed across the country. In addition to the traffic deaths, 27 persons drowned, six were killed in plane crashes, two were killed by fireworks and 24 died from miscellaneous causes.

Worst holiday tragedy in Texas occurred at Dallas where four young Negroes were killed in an auto collision near Fair Park Tuesday midnight, just as the holiday began.

The fifth traffic victim was a Negro child killed in Navarro county when a hay truck overturned, pinning him underneath.

Ray Wright, 26, of Plainview, a crop dusting pilot, was killed near Memphis, Tex., when his Piper Cub crashed and burned after hitting power lines bordering a farm field.

Ronnie Eugene Huddleston, 2½ years old, drowned in Wolf Creek near Woodville while on a picnic with his parents. Otis Gross, 49, drowned in a farm lake south of Dallas when he leaped in to help women boat passengers he thought were in distress.

Melvin Lee Vest, 11, drowned in Red River near Denison. A 15-year-old Vidor youth, Ernest Gilbert, was believed drowned in the Neches river near Lakeview. He was seen to dive into the water and his clothes were found on the bank of the stream, but searchers could not locate his body.

The Department of Public Safety had predicted 38 deaths in Texas during the holiday period.

Freak weather added to the holiday damage. A tornado cut through Webb City, Mo., but no one was seriously injured, and a 10-day-old fire in the Black Range Mountain area in New Mexico was reported under control after clearing 40,000 acres of virgin pine.

A storm swept Lake Michigan, disabling the 72-foot yacht Buccaneer off Holland, Mich. A Coast Guard cutter reached the vessel today six hours after it sent out distress signals.

Near Rhinelander, Wis., a streamlined Chicago and North Western passenger train smashed head-on into a loaded ore train, injuring 34 persons.

Texas League Going Strong

All four of the Texas League baseball doubleheaders played before holiday crowds last night came off with a split as Houston, Fort Worth, Oklahoma City and Shreveport scored double victories.

The Houston Buffs, new occupants of the league's No. 1 position, were carried to nine innings by San Antonio in their scheduled seven inning opener before winning 2 to 0 on a seven-hit pitching masterpiece by Fred Martin.

In the second game, cut to seven innings, Houston staged three scoring rallies for a 5 to 2 victory on 10-hit pitching by Octavio Rbert.

Dallas, late of the lead spot, was beaten 4 to 3 and 5 to 4 by the Oklahoma City Indians. The losses dropped the Eagles to three full games behind Houston.

Hugh King allowed only four Dallas hits in the seven-inning opener, facing only 25 batters. In the second game, pinch-hitter Baldwin hit a fifth inning home run for Oklahoma City with two on. It was one of only four Indian hits, but enough to spoil a fine pitching job for the Eagles by Hal Erickson.

The Fort Worth Cats shutout Tulsa 3 to 0 in a game highlighted by a two-run homer by outfielder Ben Guintini, playing his first game for Fort Worth since his release by Dallas. The Cats won the opener 7 to 1 on six-hit pitching by Pete Mondorf.

CHURCH NEWS

Baptists from 12 counties will gather at Lueders on July 9 for a five-day session of inspiration and fellowship.

An estimated 500 to 600 Baptists of all ages are expected to attend the annual Lueders Baptist Encampment of District 17, according to Rev. Henry Littleton, district missionary.

Inspirational speakers slated during the week include Price Daniel, Texas' attorney general; Dr. Andrew H. Allen, state Sunday School, state Training Union

supt.; H. L. Wrenn, Snyder businessman and member of the First Baptist Church there; Dr. J. Howard Williams, executive secretary of the Texas Baptist Convention; L. H. Tapscott, state Brotherhood president; Miss Eula Mac Henderson, state WMU secretary.

Dr. Allen will speak Monday night and Tuesday morning. Dr. Gardner Tuesday night and Wednesday morning; Miss Henderson Wednesday night and Thursday morning. Thursday night, Daniel, Wrenn and Tapscott will speak. Messages of Dr. Williams Friday morning and night will be the final ones of the encampment slate.

Monday night and Tuesday morning the program emphasis will be on Sunday School and Tuesday night and Wednesday morning discussion will center around Trainin Union. Women's Missionary Union work will have the spotlight Wednesday night and Thursday morning and the Brotherhood will present its speakers Thursday night and Friday morning.

The Rev. Houston Walker, pastor of the First Baptist Church at Rule, will preach a sermon at mid-afternoon Friday, last day of the encampment. Reports of district presidents will be heard during the final afternoon; as well as reports by Dr. Rupert N. Rieardon, president of Hardin-Simmons University and E. M. Collier, supervisor of Hendrick Memorial Hospital.

Conference leaders during the week will be the Rev. A. E. Posey, pastor of the First Baptist Church at Hamlin, adults; J. M. Crowe, educational director of the First Baptist Church, Abilene, young people; W. H. Jackson, missionary to Japan, intermediates; Miss Henderson, juniors and primaries; and Ethel McIndoo, elementary worker of the First Baptist Church, Abilene, Sunbeams.

Counties included in District 17 are Taylor, Nolan, Fisher, Kent, Stonewall, Jones, Haskell, Shackelford Callahan Stephens, Eastland and Knox.

Board Rejects A Resignation

BEAUMONT, July 5 (UP) — The Board of Directors of the Texas High School Coaches Association today unanimously rejected the resignation of President Grady Hester in a telegraphic poll conducted by L. W. McConachie, executive secretary.

Hester submitted his resignation as head of the schoolboy coaches organization earlier this week, giving as his reason his decision to leave the coaching profession and become superintendent of Weslaco schools.

Hester, informed today of the board's action, said it was "surprising," but added, "I will be glad to serve. I was not trying to get out of anything."

Pleasant Hill HDC Asks Votes For La Nell Hale

A letter from Mrs. Bernard Campbell requests votes for Miss La Nell Hale, who is the Pleasant Hill Home demonstration Club's candidate for "Queen for a Day" at the Horned Toad Derby.

Mrs. Jack Hilburn of Monahans underwent major surgery Friday morning at Ranger General hospital. Mrs. Hilburn, daughter of Mrs. Nellie Pate, is reported to be improving.

This is How it Works Out—

... Insurance operates on the theory that the worst never happens, and it seldom does. Insurance says: "You will have no losses for a whole year". You challenge, buy adequate insurance and wait. Who wins? The law of averages gives the premium to the company, but a full year's protection and satisfaction to you. And, like the story, it ends well, everybody is happy but the poor fellow who wasn't insured the year the law of averages went hay-wire!

If it's Insurance We Write it.

Actress Says Grapefruit Got A Million-Dollar Break From Her

HOLLYWOOD, July 5 (UP)—Mae Clarke said today it's been 20 years since James Cagney squashed a grapefruit in her face and she hasn't yet heard a word from the grapefruit industry. She's beginning to think they're ungrateful.

"I gave them a million-dollar break," she sighed. "And do they even send me one grapefruit? Not a squirt."

"I understand Jimmy gets gift crates every now and then—and has for 20 years. I've been waiting patiently all this time, but I've been neglected."

Miss Clarke thinks this is a pretty shabby way to treat a lady who gave her all for the citrus industry. And she does mean "all."

What that one "squash" in the face did to her career is something that should never happen to a gal who wants to be a great

actress.

"It didn't jinx me, exactly," she says. "But it certainly did alter my career. I was on my way to the top as a big star."

"Then I got slapped in the face with that grapefruit. After that nobody could see me doing anything but comedy."

"I went along with the gag for a few years. Then I retired."

But she's back now, doing bit parts and small featured roles, and she's still a mighty pretty woman with a curly chignon and chocolate-droo eyes under honey-gold bangs.

"I'm 40," she says frankly. "And I'd like to clear up all that 'old lady' stuff. People tell me they used to see me in the old silent movies. But I was never in a silent in my life."

"I came right from the stage into the 'talkies.' And I was doing fine, too, until I connected

with that grapefruit."

She wants to crash back in the movies again and she's making a good start in MGM's "Callaway Went Thataway," with Fred MacMurray.

It's a character part with a lot of light comedy. Miss Clarke figures she might well settle for that. Because the way it looks now, she's never going to live down that grapefruit business.

THANK YOU

When you pick a Tractor... be sure you can always get parts

Any tractor is a big investment. You have every right to expect years of profitable performance from such an investment. In this connection one of the first things to think about is—"Will I always be able to get parts?"

The Ford Motor Company manufactures the Ford Tractor. What greater assurance could you have of being able to get parts—anytime, anywhere.

Not only is this important to you as long as you have the tractor, but it is also something the buyer thinks about seriously when you go to sell or trade in your used Ford Tractor. This is only one of the many reasons why a used Ford Tractor commands a high resale price.

THE SIGN FOR SERVICE ...that can't be beat!

We are pretty proud of this service sign. We do our best to live up to those seven letters S-E-R-V-I-C-E.

We spend time and money training our mechanics. But we feel this is worthwhile to us because it's worthwhile to our customers.

We try to keep an adequate stock of genuine parts on hand at all times . . . and to stock up on parts ahead of the busy seasons so we have what you need in emergencies.

We cordially invite you to look over our service setup.

Mexico Might Modify Stand

MEXICO CITY, July 5 (UP)

Sources close to the government indicated today that Mexico may be willing to modify its stand against further importation of Mexican farm workers into the U.S.

Until now, the government has said that the new labor pact approved in Congress is unsatisfactory and that Mexico will halt the flow of "braceros" across the border after the 15th of this month.

But official sources hinted now that if the U.S. Government will do the contracting and assume

responsibility for distributing the braceros among the farms, as well as for their well being, the Mexican government may be willing to enter negotiations for a new labor treaty.

Dallas Girl Dies Of Injuries

DALLAS, July 5 (UP)—Miss Mary Cabell, 20, died yesterday at Dallas Hospital from injuries received in an automobile accident in Grand Prairie Early Sunday.

Miss Cabell suffered a head injury when the car in which she was riding smashed into the side of a rubber plant building near downtown Grand Prairie.

"Police Action"

WASHINGTON, July 5 (UP)—The Defense Department today reported a new total of 78,110 American battle casualties in Korea. This was an increase of 1,361 in week.

The weekly total, however, was less than half of the more than 3,000 in each of the previous two weeks.

The total represented casualties whose next of kin had been notified through last Friday. The actual number of U.S. battle casualties is higher because, one to three weeks are required to notify next of kin.

Today's total included 13,099 dead, 52,975 wounded, 10,649 missing, 157 captured by the Reds and 1,327 who once were missing but have since been found.

ALLIES CEASE FIRE PROGRAM—Map shows how Gen. Ridgway has arranged to send three staff officers by air (heavy black line) from Kimpo Airfield to Kaesong on Thursday for cease-fire talks. In the event of bad weather, the cease fire mission will proceed by truck (broken line) via the Seoul-Kaesong road. (Broken line inset) shows battle line where light probing attacks are taking place. POAGE WARNS OF A TRAP

BELTON, July 5 (UP)—The Communist offer to talk peace in Korea was described as "a trap" by Rep. W. R. Poage, D., Tex., in an address yesterday at the annual July 4 celebration here.

"I believe the Communists are using this peace move to trap the United States," Poage told a record crowd attending the celebration. "We had better profit by our experiences in the past and make sure any peace is a lasting peace."

The Waco Congressman said if a settlement of the Korean War cannot be made, "when we are sure we are not being trapped," then the U.S. should "meet the enemy who we are the strongest—in the air and on the sea."

He advocated "blasting basis with air power and using a Naval blockade along their coastlines."

"I am not in favor of any invasion of the Chinese mainland," he added. "Because the Communists have a larger army—and we would lose too many American lives."

In a speech keynoting the celebration, Texas Attorney General Price Daniel said the signing of the Declaration of Independence was "the greatest event next to Christianity the world has known."

He said "we get our rights from God, and the rights of man and freedom of the people are founded on these."

Retired General Jonathan Wainwright, famed hero of the Pacific War, told the crowd in Belton City Park that he believes "this nation would be a complete unity against any foe which might attempt to invade it."

That Drunk Was Really Loaded

PERRYTON, July 5 (UP)—Before locking up a man arrested for drunkenness, Highway Patrolmen Jack Shields and Bob Loving wrote him a receipt for \$81.84 they found in his pocket.

Then the man reached into his sock and pulled out 28 \$100 bills and told the officers: "Well you might as well hold this for me."

WRONG CAR

DALLAS, July 5 (UP)—Boys will be boys, especially on July 4.

A thoroughly grown "boy", 40 years old, tossed a firecracker into a passing automobile yesterday.

The policeman in the auto, a squad car, took him to jail.

Boxer Killed In The Ring

66 CHARLOTTE, N. C., July 5 (UP)—A 17-year-old amateur boxer fell dead in the last round of his first fight last night, apparently of a heart attack.

Ring officials agreed today that M. L. Chandler, Jr., of Durham, N. C., was not struck by his opponent, Ray Therrell, 16, of Mount Airy, N. C., just before his eyes went "glassy" and he slumped to the canvas.

Referee George Diehl said the 133-pound amateur "had a strange look on his face and fell, his head hitting the rope and then the floor. I kept Therrell away from him and he did not hit him as he fell. It was not the result of any blow."

WTCC Trying To Create Dollars

ABILENE, Tex., July 5—What West Texas chamber of commerce are doing or can do to create more dollars for their towns and the cotton growers of their trade territories by assisting with a sound cotton insect control program was outlined by George Logan, manager of the Agriculture and Livestock Department of the WTCC, in a project and activity report to chamber managers of the area.

In cooperation with the Texas Cotton Seed Crushers Association the Statewide Cotton Committee, Logan stressed the insect control phase of the 7-step cotton program, pointing out that cotton farmers and agricultural agency representatives of each communi-

ty have the know-how; that local chamber can help by arranging meetings, handling publicity and necessary correspondence. In this connection, special cotton insect control editions for local newspaper have been used successfully.

Of prime importance to cotton growers, it was pointed out, were insect recognition instruction, latest information on new insecticides, application methods including preventive control, as well as late application and credit needs of the grower who carries on a complete insect control program.
