Bar Association Opposes Judicial District Changes

Members of the Eastland County Bar Association met in the district court room at 2 o'clock Friday afternoon to discuss plans for solving the redistricting of certain judicial districts in Texas, one of which affects Eastland county.

At this time there are about 137 judicial districts in Texas, according to a statement by Judge L. R. Pearson of Ranger, and there is a tendency at this time to centralize the courts on a population basis rather than the amount of litigation handled by the various courts.

Judge Earl Conner Sr., presided at the meeting, while Judge Davenport, because of his position, stated facts concerning the proposed changes.

A statewide change is next to the impossible, it seems, though taken piece meal, the entire picture of our judicial set-up may be changed. Courts have been abolished, and new courts have been created. At times a district will be given an extra county or so. On a population basis so far as the American Bar Association is concerned, about 53,000 people make up a desirable district. But in actual work some courts with one half that amount of population have sufficient litigations to occupy a full time court.

The problem that West Texas is facing today might be summed up in this manner: Certain Central and South Texas counties because of population are asking for more courts, and they will likely get them on the population basis if West Texas does not act. Eastland county with a population of about 24,000 people has one busy court, and it might prove burdensome to add another county to the district. It will be remembered that Eastland formerly had two district courts and both were busy. Oil, land and other things made them necessary.

At first glance one might think that larger cities have an axe to grind, as some of them have several district courts. Rural areas are generally being reduced in the number of districts, as it is based on population, without thought of volume of work done.

Certain rural districts are already slated for the axe, and others will be increased in area, but reduced in the number of judges.

The State bar may make recommendations that will result in some relief.

At the close of the meeting a motion was made and seconded that the chair appoint a committee of four to arrange the time and place for a get together meeting and banquet for the Eastland County Association. The committee names is composed of Judge B. W. Patterson, chairman; Billy Frost, Eastland; Judge Edward Brown of Cisco and Judge R. L. Pearson, Ranger.

The committee will make its announcement within a short time.

Doubly In Dutch

Prince George Courtship, Va. (UP)—John Garland Bick, 21, explained to Justice W. F. Binford that he was driving at 90 miles an hour to get to court at Courtland, Va., to answer a speeding charge.

Radio Equipment For Sheriff's Department Has Been Purchased

Eastland county peace officers will be using 2-way radio equipment within the next few days. Part of the equipment has been ordered, and will be delivered immediately.

Sheriff Tucker deserves much credit for this, as he has put in many days and hours soliciting funds for the purchase. As a matter of fact he is still short about \$1,100, though the sheriff says he will get it within the next few weeks.

With this money he will purchase an aerial to be placed on top of the standpipe in Eastland City Park. Broadcasting will originate in a private room in the sheriff's office, and county prowl cars driven by the sheriff and his deputies will be equipped with 2-way radio sets.

In order to make the plan more

BARKLEY GREETED IN KOREA—Vice President Alben Barkley shakes hands with Gen. Matthew Ridgway on the arrival of Barkley and his wife in Korea. Left-to-right: Gen. Van Fleet, Mrs. Barkley, Gen. F. F. Everest, Barkley and Gen. Ridgway. (NEA Telephoto).

Ridgway Says Russia Shot UN Plane Down Over Neutral Sea

PARIS, Nov. 24 (UP)—Gen. Matthew B. Ridgway told the United Nations today that two Soviet fighter planes attacked a missing UN weather reconnaissance aircraft more than 20 miles outside Russian territory.

Ridgway's report, submitted to the UN Security Council, blasted a formal Soviet accusation to the United States today that the UN twin-engine plane with 10 men aboard deliberately flew over Russia's naval base at Vladivostok.

The report from the UN supreme commander in Korea said an intensive search for the Navy P2V Neptune patrol bomber proved fruitless. It disappeared Nov. 6 while on a weather reconnaissance mission for the UN command.

"The route this plane was following did not approach closer than 40 miles to U.S.S.R. territory, and the plane crew had been thoroughly briefed not to approach closer than 20 miles to USSR territory under any circumstances," the note said.

"It can only be concluded that the plane made neither an intentional nor an unplanned approach to the Russia coast and that the plane was intercepted and attacked without warning while over international water, and furthermore, while well outside of 20 miles from the Russian coastline."

From the plane's last reported position, this report said, there is no doubt it was the same aircraft referred to in a formal Soviet protest delivered Nov. 7 in Moscow. The Russian note said that two Soviet fighter planes fired on a twin-engine bomber Nov. 6 in the vicinity of Cape Ostrov.

Eastland Boy Is Given Promotion

Gene R. Gaeta, brother of Gil Gaeta, Eastland, has been promoted to the grade of sergeant at Goodfellow Air Force Base, San Angelo.

He is assigned to duty as first cook in the Cadet Mess.

Sgt. Gaeta entered the service July 27, 1950, and received basic training at Lackland AFB, Tex. He reported to Goodfellow on Sept. 15, 1950.

He attended Olden high school.

Radio Equipment For Sheriff's Department Has Been Purchased

Effective Cisco councilmen have purchased equipment for the Cisco police department, and it is highly probable that Eastland and Ranger city officials will do likewise, it is said. The cost for equipping cities of this size with 2-way radio service is less than \$1,000, we are told. With Eastland, Cisco and Ranger hooked up with County Sheriff's department, the lawless element will possibly think twice before they enter this section. To the East we have Fort Worth's radio service, and on the West we have Abilene.

Should a crime be committed along this route, every peace office in the country would be alerted, and guilty parties would find it rather difficult to escape. Every road would be blocked by officers within ten minutes after the crime was committed.

Those who have not contributed to this fund are requested to contact Sheriff Tucker.

Texas Oilman Closes Deal In Egypt Today

PARIS, Nov. 24 (UP)—Texas oilman Glenn McCarthy said today that he has signed a contract involving the exploitation of more than 4,000,000 acres of Egyptian oil lands.

The contract calls for purchase of a majority interest in the National Petroleum Co. of Egypt which controls the exploitation of oil lands in the Sinai Desert, McCarthy said.

The Houston oil tycoon said he planned to invest about \$10,000,000 in the project. His contract he said, calls for the purchase of an option which French oilman Dr. Staislas Delazovert held on between 92 and 93 per cent of the company's stock. McCarthy said he and his associates had bought, subject to conditions now being fulfilled, nearly all of the approximately 93 per cent. His personal share is 51 per cent, he said.

McCarthy said Johnny Meyer, former associate of movie producer and oilman Howard Hughes, who accompanied him on a recent

Shotgun Blast Ends Life Of Mrs. Eula Martin

Mrs. Eula Lane Martin of near Rising Star died early yesterday as the result of shot gun wounds, allegedly self inflicted. Members of the sheriff's department were called to the scene by her husband.

From the story officers gathered that he left the house about eight o'clock and was out pumping some wells. Shortly after 9 o'clock he returned to the house and found his wife dead. The top of her head had been blown off. A shot gun was found nearby.

The woman had been in bad health for many years, it is said.

Mrs. Alice Odom Passes Away At 5 A. M. Saturday

A Ranger resident since the early boom days, Mrs. Alice Odom, passed away at her home Saturday morning at 5 p.m. Funeral services are pending the arrival of two of Mrs. Odom's sisters.

Surviving Mrs. Odom are three daughters and one son; daughters Pauline Odom, Ranger, Mrs. W. J. Kohanek of Big Spring, Mrs. E. M. Howard, Fort Worth; the son is Russell Odom of Ranger. She is also survived by 7 grandchildren and 5 great-grandchildren.

Killingsworth Funeral Home will be in charge of the funeral arrangements.

What-No Camels

ABILENE, Nov. 24 (UP)—A guest at the Windsor Hotel where the Suez Temple Shriner conventioners are staying stomped up to the hotel desk clerk.

The guest said a Shriner beat a drum just outside his room at 3 a.m. yesterday.

"The guy says he is a camel herder," the victim told the clerk, "but I didn't know they herded camels with drums."

Three Die In Two-Car Wreck Near Conroe

CONROE, Nov. 24 (UP)—Three women were dead and a Kansas City insurance man was in critical condition today as the result of a two-car collision near here.

The dead were identified as: Miss Virginia J. Stone, about 55, an employe of the University of Houston; her sister, Mrs. Electra B. Thompson, about 60, office secretary of the David Burnett Elementary school of Houston, and Mrs. Bayard T. Gross, of Kansas City, who taught school in Houston 25 years ago.

Critically injured was her husband, Bayard, a Kansas City insurance man.

The highway patrol said Miss Stone and Mrs. Thompson were en route to Palestine, to visit Mrs. Thompson's only son, William, a former coach at Sidney Lar Jr. Junior high school.

The Gross family were en route to Houston to visit Gross's mother, Mrs. Joseph L. Gross.

The accident occurred at 4 p.m. on Highway 75, four miles north of here.

Texas Highway Patrolman Fred Burns, who was driving behind the car driven by Miss Stone said it skidded on wet pavement and slid into the path of the Gross automobile.

Burns said both cars were moving at a reasonable rate of speed.

Prizes Awarded At Opening Of Art School Here

More than 100 individuals were present last evening for the formal opening of Florence Jessop's School of Painting, located in the Morocco building just west of the city.

In the judging Catherine Germany took first place in "Still Life." Mrs. Hazel Campbell of Olden took second prize with her pencil sketching. Mrs. Willie Walters and Miss Nancy Coody of Breckenridge, received honorable mention.

Presbyterians Announce Their Sermon Subjects

Sunday services at First Presbyterian church, in Eastland will be under the direction of the pastor, Rev. M. P. Elder. He will use as his subject "Bible Reading Essential to Spiritual Growth."

The public is cordially invited to worship at this church.

Honest People

PHILADELPHIA, Nov. 24 (UP)—Restaurant operator Thomas Theodos had reason today to believe that people are pretty honest.

All but one of the 50 patrons routed from his restaurant by smoke from a minor fire last night returned to pay their bills—and the other one said he would be back to do so today.

UN And Red Negotiators Fail To Agree On Cease Fire Line

PANMUNJOM, Korea, Nov. 24 (UP)—United Nations and Communist negotiators agreed today on half the Korean cease-fire line but their failure to complete to the last line set back the "truce by Christmas" program at least 24 hours.

Two staff officers from each side spent five hours and 10 minutes poring over maps trying to reconcile their versions of the location of the present battle-line—which will become the cease-fire line if other armistice terms are settled within 30 days.

They agreed on 15 to 20 miles of the east coast sector and then on small segments of the line all the rest of the way to the west coast. The agreed portions added up to about 65 to 75 miles.

A UN spokesman said "certain areas of major disagreement" remain, but would not tell how many. In the case of several disputed areas, Col. James E. Murray of Alexandria, Va., suggested the group fly to the front in a liaison

plane. The Reds declined.

"They are making claims not only on positions in no-man's-land, but on positions behind our lines," the Allied spokesman said. "But we are still bargaining on the assumption they want to establish the line as much as we do."

The four-man committee will meet again at 10 a.m. tomorrow (8 p.m. today EST) in an attempt to trace the remainder of the 145-mile front. Both sides already have agreed that the opposing armies shall withdraw 1 and one-fourth miles from the contact line to form a buffer zone when the armistice is signed.

Failure of the staff officers to complete their work today meant that the armistice subcommittee will not be able to approve the line before Sunday at the earliest and perhaps not until Monday.

This in turn will delay final ratification of the line by the full five-man armistice delegations until Monday or even

Midwest Hit By Severe Cold; Rain In Texas

A severe cold wave, with temperatures more than 35 degrees below normal, chilled the northern Midwest today while a soaking rain drenched a wide area extending from Texas to New England.

The cold wave was centered in Minnesota with below-zero temperatures report in all sections of the state. Alexandria, Minn., had 12 below and Minneapolis 5. It was 16 below at Jamestown, N. D., six below at Grantsburg, Wis., and two below at Mason City, Ia.

To the south and east, a band of rain 200 miles wide stretched from north-central Texas all the way to the Atlantic coast.

It rained almost all day yesterday in the lower Ohio Valley. Forecasters said that Paducah, Ky., registered a total rainfall of 3.66 inches, and West Plains, Mo., recorded 2.76 inches.

Temperatures in the west also were below normal. Phoenix, Ariz., caught both the cold and the rain with a temperature reading of 49—very low for that area—and a .78 inch rainfall.

The Mississippi River at Minneapolis was frozen over and half a dozen families fled their households packed yesterday when an ice pack swept away gangplanks and ground the boats into splinters.

The giant ice jam also snapped the morning lines holding two 400-ton barges which broke loose and started on an uncontrolled journey downstream.

The ice climbed the river bank to where the households had been drydoctored. The stricken families ran from the advancing ice. Only a few were able to save any of their household possessions.

At Sioux City, Ia., five-year-old Dennis Rapp was seriously chilled when his father left him in a pickup truck then went to "go drink beer." The father was arrested for intoxication several hours later.

Along the lower Atlantic Coast and Gulf states, temperatures were mild. Chicago weather forecasters said it was doubtful that the cold wave would move into the east.

West coast temperatures also were below normal. Los Angeles reported a temperature reading of 49 at midnight.

Soviet Delegate Says West Preparing For War, Not Peace

PARIS, Nov. 24 (UP)—Russia rejected the west's disarmament plan today on grounds its "two-faced" authors are preparing for war while talking about peace.

Soviet Foreign Minister Andrei Y. Vishinsky broke a five-day silence to dash hopes he might be considering a softer attitude to the global proposal sponsored by the United States, Britain and France.

"The tripartite proposal circumvents all questions of reduction of armaments," Vishinsky told the United Nations main political committee.

"—There are two faces to this coin. One is the face of peace, the other war. Such two-faced visage never has and cannot serve the interests of the peace-loving nations."

"Although some delegates saw hopes in Vishinsky's 110-minute address, the majority felt he had not come up with the predicted 'concessions.'

"We will not bargain with our principles," he declared.

The glib-tongued foreign minister announced he is preparing a series of amendments to the West's proposal but did not describe them.

Normal Soviet practice is to offer emasculating amendments in an effort to block all major western moves before the UN.

In unfolding details of the arms reduction plan last Monday, Secretary of State Dean Acheson pleaded with Russia to accept it and thus bring about "a turning point in history."

Acheson is a "two-faced Janus," Vishinsky snapped. "How can the authors of the tripartite proposal claim they have reached a turning point? They do not in any manner rule out more increases in arms and armed forces."

President Truman's statement that the U. S. relied on armed strength instead of negotiations with Russia "sounds almost bizarre," Vishinsky said, "but is wholly in conscience with American deeds."

The West's plan calls for an international census and verification of the world's arms before they would be reduced in a step-by-step program. The West's rearmament program is based on the belief that Russia will refuse to negotiate a cold war settlement until the West speaks from a "position of strength."

White's injuries are not of a serious nature.

Dave Fiensy In Hospital; Hurt In Auto Crash

Dave Fiensy, Eastland City Commissioner, is in Ranger General hospital, where he is being treated for injuries received Friday afternoon when the car in which he was driving collided with another car driven by Earl K. White. The collision occurred on the 400 block of W. Commerce in Eastland. Both cars were badly wrecked.

Mr. Fiensy was rushed to nearby Caton-Treadwell clinic in Eastland, where he received first aid treatment. His condition was found to be of serious nature, and he was taken to the Ranger hospital as soon as doctors felt that he could be moved. Word early today indicated that while his injuries are serious, they need not be considered as being fatal.

White's injuries are not of a serious nature.

WFR&S Railroad Man Loses Foot In Accident

A motorcar accident about seven miles north of Ranger on the Wichita Falls and Southern Railway hospitalized two of the three members of the bridge crew riding on the car, with one of the men losing a foot in the accident.

The cause of the wreck is still unknown according to W. J. Winingor of the railroad.

P. N. Gifford, G. C. Grogan, and foreman A. W. Strickland, were the men involved in the accident. Gifford had his right foot severely broken and it was later amputated after he had been taken to a Ranger hospital. Grogan's right foot was broken and A. W. Strickland escaped uninjured from the wreck.

Grogan is expected to be released from the hospital "in a day or two," according to Winingor.

Daily Report Of Hospital Workers

Volunteer workers at the hospital Tuesday evening was composed of Carl True, Donald Brinkley, Rev. Otto Marshall, H. L. Gibson, Wayne Caton, Bob Dean, Mert Mueler, Virgil Messengale, Bill Frost, Rev. Morris Bailey, Cyrus Frost and Milton Fullen.

The hostess committee was notified that you were coming, therefore no lunch or coffee. Had we known you were coming we would have baked a cake.

The list of workers on Wednesday: Dave Fiensy, C. J. Germany, Teddy Lamb, Jas. Webb, Denny Jack, M. H. Perry, B. F. Hanna, Mr. Spurlin, John Lively, Andy Taylor, Willie Smith, Wayne Jackson, Thee Lamb, Joe Riehl, Donald Brinkley, Carl True, Louis Dunlap, E. M. Daniels, Curtis Koen and Thomas Samuels.

Hostesses: Mr. and Mrs. C. W. Hoffman and Judge and Mrs. Clyde Grissom.

Little Items Of Local Interest

Arval Stuart of Cisco was injured Friday afternoon when the car in which he was riding overturned on the Ringland Lake road. His two companions were uninjured.

Judge L. R. Pearson of Ranger was in Eastland for several hours Friday. While here he attended a meeting of the County Bar Association.

Judge Edward Brown of Cisco was a business visitor in Eastland Friday.

Cooler weather and rain have been predicted for this area. Most Eastland people would stand either heart or cold so long as it is wet. They want moisture, be it rain, sleet or snow.

Time was when guests came by invitation to Sunday dinner or supper. But today they drop in anytime, sure of a welcome, and light refreshment which may be served at the dining table, from end tables, coffee table, or anywhere in the house.

This pleasant custom makes quick tidying up the rule of the day. Early in the morning to put rooms in company order, after family meals, and again when guests leave. And that's where today's modern carpet sweeper serves as a convenient helpmate.

Modern in design and action, light weight and easy to use, carpet sweepers whisk up crumbs, bits of paper and flower petals leaving rugs and carpets in apple pie order. The woman who finds a modern carpet sweeper under her Christmas tree is sure to welcome it warmly as a time saver in keeping rugs bright and new looking.

Child specialists say that children learn in more learning between the time they learn to walk and the time they go to school than they possibly can in any amount of time later. And they recommend toys that teach. The toy carpet sweeper gives a child an opportunity to imitate mother, and helps establish the good habit of cleanliness and neatness.

Six weather stations, operating in the Arctic regions, record weather observations for accurate short range forecast and accumulate research data for long range forecasting. Five of the stations established in 1947, are operated jointly by the United States and Canada while the sixth is a joint operation of the United States and Denmark.

Resupply of this chain of Northern outposts has been a yearly mission of the U. S. Navy Task Group, commanded by Captain Walter C. Ford, U.S.N., of Buffalo, New York, was composed of the Atka, a navy icebreaker; the East Wind, a coast guard icebreaker; USS Wyandot, and the USS Acheonar, cargo ships and the USS Nesplen, a tanker. Supplies for the coming year were unloaded at central weather stations at Thule, Greenland and Resolute Bay, Cornwall Island. From these central points supplies for the satellite stations are flown by planes of the United States and Royal Canadian Air Force.

HANDICAPPED ON ASSEMBLY LINE—Down the production line goes this North American F-56 Sabre, world's fastest aircraft. And helping out in the procedure are these three handicapped workers, veteran employees of the plant. Paul K. Johnson, of South Gate, Calif., (left) patiently goes about the business of baring parts for the plane, while Harvey Singer, of Los Angeles, who was injured in a civilian accident, installs equipment on the jet. Also helping in the baring operation is Miles S. Cundy, of Hawthorne, Calif., who was a hard luck victim of World War I. He served in the Fifth Marines and was wounded by a shell burst an hour before the close of hostilities November 11, 1918.

WARNS BERLIN REDS—Maj.-Gen. Lemuel A. Mathewson, above, American commandant in Berlin, promised that the Western Allies would retaliate for the Communist seizure of Steinstuecken District in the American sector of the four-power capital. Possible Western targets might be the Soviet Radio headquarters in the British Zone or the Russian railway headquarters in the American Zone.

Movie Bad Man Says He Will Quit Drinking

HOLLYWOOD, Nov. 24 (UP)—Screen tough guy Lawrence Tierney said from a county jail cell today that he intends to "stick to my work" to "lay off" drinking.

Tierney, who rose to fame as the "John Dillinger" of the screen, was placed on three years probation yesterday on condition that he serve the first three days of a suspended 180-day jail sentence for drunkenness and that he give up liquor.

The 32-year-old actor has been arrested 13 times in the past seven years, mostly on drunk charges. His latest arrest came when he appeared barefoot in a bar and offered to "whip anyone in the house."

"I give you my word of honor I won't drink again," Tierney told municipal Judge Rose Pfaff. "And I've never given my word of honor before."

The university of Illinois school of forestry reports 4-H and FHA boys have planted about 270,000 trees since 1937, in Illinois.

POTPOURRI OR WORSE

By Major Hoopie McCorkle
Telegram Philosopher

Talk to us about ourselves and we will like you.

We hope we are not egotistical, though one of our neighbors told us yesterday that "we were the editor who wrote himself up." Now we have done our very best to stay out of the newscolumns. We never use the pronoun "I" under any circumstances, and when you find the word "we and us" just remember this: Sometimes we get a little wild and in case someone calls our hand he might think we were more than one, and skip the whole thing. He might give us a booting, but he doesn't know just how strong the "we" is — might be a big gang.

Personally, we don't think there is anything to the proposed armistice. We want it and would do most anything to bring it about, but there are others who are not so favorably impressed. An armistice, and eventually peace, might throw Uncle Joe out of a job and that would be bad. No people other than those fool Russians would hire him, and with peace they might let him go. Surely nobody else would give him a job. Truman might find a job for him in the tax collecting department, but if we had peace Truman wouldn't have any excuse for more taxes.

Yes sir, if we could put this armistice over we think the whole world would benefit. Truman could go back to Missouri and reopen his tailor shop. Sam Rayburn could resign his post and return to Texas and the world would wobble along just as if nothing had happened. Even Texas might be enabled to get a new Senator. The old one may be alright in his way, but too many of his ways don't seem to have the approval of voters.

Should an armistice materialize we poor people could begin eating again. But when you add a war tax to a T-bone steak nobody but a plutocrat can indulge. (And we ain't no plutocrat.) When we have to throw down ninety some odd cents for a pound of coffee, it makes us want to pour "high life" on the fellow's head who told Brazilians to burn a few crops and the price would go up. And those fool Brazilians

did just what they were told. Almost as smart as killing all the pigs and calves, and plowing up crops.

And we can remember when spuds were selling by the ounce if you bought them from the farmer who produced them, while you could buy good American grown spuds from Canada at one third the price. Burn, dump them in the ocean, give them away—anything just so hungry Americans didn't get their hands on them. This plan may be a kind of revised version of "rob Peter to pay Paul." We don't know. But we do know how it feels to want an Irish potato and can't get it, when you know that millions of bushels are rotting, while politicians are trying to stabilize prices. Maybe we were born too late to ever appreciate these modern fads.

But no use squealing now. The calves are all dead and the spuds have rotted. Also we have fought a couple of wars, and have lost many hundreds of thousands of perfectly good American boys. It has been hard to take, and it will take a century for us to forget our wounds. So if by chance this proposed Armistice should be the real Stuff we are in favor of it. We'll forgive Uncle Joe, for the whole thing if they will bring about a peace. That is what we crave. We will forget high taxes. We will even try to forget the blood-shed, if we may have peace.

Let our prayers be offered in this direction.

The older we get the more positive we are that most men are foolish. At the age of 20 we imagined we knew just about all there was to know. We would have volunteered our services to coach Senators, King and Presidents. And the funny thing about it, we were honest. We actually felt that our wisdom compared very favorably with that of Solomon. At 30 we had improved a little, and had quit studying. We marveled at the ignorance of our father and others about us. At 40 we felt sure we really knew it all. At 50 we were not so sure, and began listening to others. At 60 we know just how long we have been a fool—just 60 years. If the Lord lets us live for a few days, we hope to attain the status of half-wit, and if we do that we'll be happy. Most of us never get that high in knowledge. We just think we do.

But we must move on. We have preachers to do the preaching and all we have to do is write this column. Christmas is almost upon us and though we are in war and maybe facing disaster, let us in-voice our lives and see if we can't be of service to humanity. Don't consume all the good things in life while others about you are

suffering for the necessities. Plan to render aid, and then you will know how the joy of giving feels.

Once during a Christmas Cheer campaign we contacted an elderly couple. Both were more than 80 years of age. The man was blind and his wife old and drooped. The house they lived in was no more than a shack. Half the floor in the lean-to, which was used for a kitchen, was missing. The house was open and cold, and there wasn't 20 pounds of coal on the premises. We were the cheer editor, and the first thing we did was order 500 pounds of coal and some food. They were actually hungry. Alone and almost forgotten they were spending their last days in abject poverty and suffering. We rendered temporary aid, but we couldn't sleep that night.

Very fortunately our cheer fund was ample for all needs and by just a little skimping here and there we managed to set aside a "little" for the old couple. Others were taken care of on Christmas eve, but on Christmas day, in company with a fine young printer, we loaded out a truck the "little" and drove to this shack. The day was cold, but when it was learned by the old couple what was about to take place, or

rather what was taking place, as we took box after box into the house all filled with food and clothing, they both made it out to the yard. We experienced the greatest thrill we have ever known, even to this day. The blind man could not see the goods, but he sensed them and offered one of the sweetest prayers of Thanksgiving we have had occasion to hear. The wife was shouting, praying, screaming and crying for joy all at the same time. She grabbed my companion by the hand, and before we knew what was going on they were in full embrace. The boy turned to me a moment later, his eyes filled with tears, and as he fumbled for his handkerchief he said to me, "Mack this is great—I wish I could be as good as grandma."

We shook and trembled, but could not utter a word. Truly the Lord was present on that occasion.

So when you see our jars next week, leave your subscription. We may not find another case similar to the one mentioned above, but when our final report is made back to you, your heart will thrill as you tell yourself—"I helped make this possible."

CHRYSLER DREAM CAR

Something new in passenger car design is Chrysler Corporation's K-310 European type sports sedan developed as an experimental companion to a powerful new Chrysler K-310 engine which produces 310 horsepower on ordinary premium grade gasoline without supercharging. Styled and designed by Chrysler engineers in the United States, the K-310 experimental car was built by Carrozzeria Ghia in Turin, Italy, on a chassis shipped to Europe by Chrysler. Built on a 125 1/2-inch wheelbase, the car is only 53 inches high, with low sweeping lines and full head-room, with a low flat hood and large wire wheels. K. T. Keller, Chairman of the Board of Chrysler Corporation, said the K-310 sets "entirely new objectives to reach for" in passenger car development. Whether it will be produced for sale has not yet been decided.

FOUR REASONS why Fort Worth's annual Moslah Shrine Circus goes over with such a bang. These are the Flying Malkos, aerialists, who make up one of the 22 professional acts presented in this year's show at Will Rogers Memorial Coliseum, November 16-25.

Three East Texas State Teachers College Coeds have been entered in the Maid of Cotton contest. They are, left to right, Frances Clanton of Colorado City, Peggy Teague of Texarkana and Rita Jennings of Terrell. Pictures were made by the photograph division of the college.

HEADY ITEM — What Donna Decker is showing here is a new, adjustable shower head that can be set at any height to accommodate tall, medium or short people. It has a valve that regulates temperature and type of spray, too, and it's displayed at a San Mateo, Calif., home show. Donna's bathing suit? Oh, it's a chinchilla-trimmed number. Sells for \$2000.

Texas—

(Continued From Page 1)
trip to the Middle East, shared an undisclosed part of his 51 per cent stock. McCarthy said he retained for himself all voting rights.

He said in an exclusive interview that the final agreement was signed last night after negotiations here with Delazovert and executives of the company to conclude an initial "memo agreement" reached in Cairo last week. McCarthy said the Egyptian government will take a royalty of 15 per cent of the company's total production.

Asked if the investment worried him because of the tense international situation, McCarthy said:

"I'm going in like I am blind but I am not. I do not think the West can ever allow Russia to take those oil fields."

The "conditions" of the agree-

Win Watch Awards for 4-H Records

OUTSTANDING records of achievement in the 1951 National 4-H Dairy Foods Demonstrations and Meat Animal programs have won four Texas club members top state honors. Each received a 17-jewel watch. The winners and brief outlines of their records follow:

Enterprising and successful can best describe Mitchell Robinson, 20, of Ackerly, state winner in the 4-H Meat Animal program. Ability to select, feed and show livestock, are among the many skills he has learned during eight years in the project. Starting in 1944 with one steer and one gilt, he has raised a total of 35 beef cattle and eight swine. He estimates the net income from the marketing and sale of these animals around \$24,000. Mitchell has shown steers at every major show in the nation receiving many awards. In 1950 he showed the grand champion steer at International Livestock Exhibition in Chicago. This young stockman lives on the 610-acre ranch of his parents, Mr. and Mrs. T. M. Robinson and plans to make stock farming his career. An all-around 4-H'er, Mitchell completed 69 projects, among which were cotton, grain sorghum and dairy. He has served as president of his local club, and is a member of the Texas Council. Thos. E. Wilson, Chicago meat packer, has donated the awards in this program for 22 years.

Showing others how to use dairy products to make new and appetizing dishes, won top honors in the 4-H Dairy Foods Demonstration program for Doris Fisher, 15, of Victoria, and the team of Agnes Warren, 17, of Waco, and Cynthia McKethan, 17, of McGregor. Giving demon-

strations not only perfected their knowledge, but the girls also developed poise and self-confidence through speaking before community groups. Doris' prize-winning demonstration was "Plain Egg Custard." Knowing the value of eye appeal she added a few strawberries and a mound of whipped cream as a garnish after folding strawberries into the custard. The team demonstrated "Making and Serving Cottage Cheese." The wrist watch award was presented to each of these 4-H'ers by the Carnation Company for their excellent work.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

The law now forbids any foreigner from holding a controlling interest in an Egyptian firm. "I have been promised the law will be changed during the month of December. Once it is changed, I'll get started with the development of the oil lands within two weeks," he said.

McCarthy said considerable equipment was available already but he will have to bring in some of his own.

The company controls exploitation of 121 "lots", each covering 60 square miles, for a total of 4,646,000 acres of Sinai Desert land on the eastern side of the Red Sea.

McCarthy said he and Meyer will leave Monday night by plane for New York.

NEWS AND COMMERCIALS

PUZZLE GRANGERS
Hartford, Conn., (UP) — A guest was being introduced at the annual convention of the Connecticut State Grange when over the public address system came an interruption:

"Call for Philip Morris."

Again, when officers were about to be installed, an excited voice bellowed:

"It's another touchdown for Cornell."

The PA system was picking up radio frequency signals which kept the grangers on edge, wondering what was coming next.

DEPUTY MAKES ARREST WITH GREATEST EASE

Deadwood, S. D. (UP)—Deputy Sheriff Lloyd Schultz was sitting in his office chatting with a visitor.

As they talked, a police radio message came in from Belle Fourche, 30 miles away, describing a man wanted for forgery. Schultz didn't have to get out of his chair to make the arrest. The wanted man was his visitor, John Berschide.

"It was the easiest arrest of my career," Schultz said.

Last Wisconsin Elk Is Killed

WOODRUFF, Wis., Nov. 24 (UP)—Wisconsin's last surviving buck elk has been shot by a hunter who apparently wanted a genuine elk's tooth.

Wardens who found the carcass of the 600-pound "Old Man" yesterday, said the killer had removed all of the elk's teeth.

PROVE YOUR FINANCIAL RESPONSIBILITY
under the new Texas Motor Vehicle
Safety Responsibility Law with
AUTO LIABILITY INSURANCE!

Under this new law, your driver's license and registrations will be suspended following an accident in which persons are injured or killed, or property is damaged in excess of \$100, if you fail to deposit security with the State as proof of your financial responsibility to satisfy any judgments that may result from the accident.

*Security as proof of financial responsibility is an automobile liability insurance policy, or a bond, or up to \$15,000 in cash or in securities.

The least expensive and most practical way to avoid suspension of your driver's license under this law, is to have an Auto Liability Insurance policy to file as security to prove your financial responsibility.

Mrs. Kinnaird Hosts Thanksgiving Meeting Of Music Study Club

Mrs. D. L. Kinnaird was hostess to members of the Music Study Club Wednesday afternoon at her home, 702 West Moss Street, for their Thanksgiving program. Mrs. A. D. Dabney was program chairman for the afternoon.

Mrs. T. E. Richardson told of the "Songs of the American Soldier" and the parts they have played in each of the wars of American history.

Mrs. L. E. Corbell gave the history of Spirituals and history of several hymns.

Mrs. Kinnaird, president, presided over the business session, heard reports of officers and committees. Mrs. Corbell, finance chairman, re-

ported more than \$60.00 had been made on the rummage sale.

The group planned a bake sale and set Saturday, December 22 as the date.

They also voted to adhere to the by-laws in charging fines for absences and failing to contribute their part on the program.

Following the program refreshments of coffee, fruitcake and homemade candy was served from a table laid with white linen cloth and decorated with yellow and bronze Chrysanthemums. Mrs. A. H. Johnson poured.

Present were Mmes. W. E. Brashier, R. L. Carpenter, Corbell, Dabney, R. N. Grisham, D. L. Houle, Johnson, Don Parker, Richardson, A. F. Taylor, and Miss Maggie Van Hoose.

The next meeting will be guest day for the program of the Taylor Studio, and will be at 3:30 p.m. December 5th at the Woman's Club.

C.W.F. Sponsors Bake Sale Sat.

Members of the Christian Women's Fellowship are sponsoring a bake sale Saturday at the Church annex.

Captain and Mrs. Larry Flanagan of Fort Hood were the Thanksgiving Day guests here in the home of Mr. and Mrs. Tom Lovelace. Captain Flanagan has just returned from a four years stay in Germany. He visited here with the Lovelaces many times during World War II. He is a mechanical instructor in the Air Corps.

LOOK WHO'S NEW

Lloyd Bruce Jones is the name given to the new son of Mr. and Mrs. Lloyd G. Jones of Fort Worth.

He was born Wednesday, November 21st in Ranger General hospital, and weighed six pounds and 12 and one-half ounces.

He and his mother, the former Miss Barbara Anderson, are reported to be doing just fine.

Grandparents are Mr. and Mrs. Roy Jones and Mr. and Mrs. R. L. Alford. Great grandparents are Mrs. Latha Taylor of Eastland and Bascom Anderson of Olden.

Personals

Mr. and Mrs. Henry Pullman and Sol joined Mr. and Mrs. Jack Kaman and family of Ft. Worth Thanksgiving day at the home of Mr. and Mrs. Walter Taylor and family in Wichita Falls for their Thanksgiving get together a n d family dinner. Mmes. Kaman and Taylor are sisters of Mrs. Pullman.

Mr. and Mrs. Frank Castleberry had as their guests Thanksgiving Day their sons, Winston, Mrs. Castleberry and Cindy Lou of Dallas, Frank Pettit, and Mrs. Castleberry of Midland and their daughter, Karen Castleberry of Houston.

Rev. and Mrs. Alfred Nelson and family of Olden, spent the holidays with Mr. and Mrs. Ross Newton at Cross Plains.

Mr. and Mrs. James Wright and children, Jim and Jeannie, Mrs. Vernon Humphreys a n d Clinton Ray met relatives in Fort Worth last Sunday and spent an enjoyable day visiting in t h e park.

Mr. and Mrs. Sam Weaver and children of DeLeon were the Thanksgiving Day guests in the home of Mr. and Mrs. H. T. Weaver, Herby and Jana.

Fire Box On Fire
Phoenix, Ariz., (UP) — Sirens screaming, lights flashing and bells ringing, the fire engines raced to an outlying neighborhood. The fire was in an unfinished fire alarm box.

Mrs. Lonnie Jack Norton

Tommie Ruth Browning Becomes Bride Of Lonnie Jack Norton Wed.

The home of Mr. and Mrs. E. P. Robinson of Ranger was the setting Wednesday evening, Nov. 21 at 7 p.m. for the marriage of Miss Tommie Ruth Browning and Lonnie Jack Norton.

The bride is the daughter of Mr. and Mrs. T. L. Browning of Ranger and Mr. Norton is the son of Mr. and Mrs. O. K. Norton of Olden.

The Rev. Gariand Lavender, pastor of the First Methodist Church of Ranger, was officiant at the double ring candle light ceremony.

Given in marriage by her father, T. L. Browning, the bride wore a costume of nylon lace over white bridal satin, scalloped ballerina skirt with petal topped bodice, ice covered with fitted lace bolera fastened with tiny lace and satin covered buttons from the wing collar to the waist. The long sleeves of the bolera ended in points over the wrists and also fastened with lace over satin covered buttons.

Her headdress was a juliet cap with a short nylon veil caught at the sides with pearls. She carried a white Bible, topped with an orchid and satin streamers.

Miss Gay Nell Whitley of Gorman was the bride's attendant. She wore a costume of delph blue faille of ballerina length with matching blue braided pylon net headpiece.

Marvin Nash of Eastland, served as best man, with Hayett L. Browning of San Saba and Rufus J. Browning of Connally A.F.B.,

Waco, brothers of the bride as ushers. Wedding music was provided by Mrs. Fred Baumgardner who rendered "I Love You Truly," "Because" and "The Lord's Prayer" on the piano.

A reception was hosted in the Robinson home immediately following the ceremony. The bride's table was laid with a lace cloth with crystal and silver appointments. The bride's cake was a three-tiered white cake with pink roses and silver drages, topped with the miniature bride and groom.

For traveling the bride wore a gray gabardine suit with navy blue velvet accessories and wore an orchid corsage. The couple will make their home in Dallas after a short wedding trip.

Mrs. Norton is a graduate of the Ranger High School and Ranger Junior College and had been employed by the Texas Electric Service Company of Ranger, for some time. Mr. Norton is a graduate of the Eastland High School.

Out of town guests were Mr. and Mrs. Hayett L. Browning of San Saba; Pfc. Jack R. Browning, Connally A.F.B., Waco; Mrs. Marvin Nash of Eastland, Mrs. G. L. Whitley of Gorman, Mr. and Mrs. Billy Jack Jackson of Eastland, Juanita Gorman and Peggy Poyner.

Miss Mozelle Pullman, student at Texas University at Austin is a guest this week-end in the home of her parents, Mr. and Mrs. Henry Pullman.

O'Dwyer Leaves For Tijuana To Spend Weekend

LAREDO, Nov. 24 (UP) — United States Ambassador to Mexico William J. O'Dwyer left here today to spend the weekend at Tijuana, Mex., after Laredo citizens gave him a farewell barbecue.

O'Dwyer, who inspected the international Falcon Dam now being constructed on the Rio Grande 75 miles south of here yesterday, refused to answer newsmen's questions concerning U. S. affairs.

The former New York mayor, a strong backer of Gen. Dwight D. Eisenhower for the presidency in 1948, said he had not read a New York Times report that the general had been offered next year's Democratic nomination by President Truman.

Reporters fired questions at him about politics, graft a n d gambling in New York, but he answered them all:

"Was that in Mexico?"

O'Dwyer had high praise, however for the \$47,000,000 dam, now being built as a joint effort by the U. S. and Mexico. He termed it "more eloquent than any number of speeches on international relations between our two countries."

The ambassador knew of no negotiations for a revised U. S.-Mexico trade treaty, and said conferences on a new immigrant labor agreement between the two nations had not yet begun. The present agreement expires Feb. 1.

He also disclaimed knowledge of any program to ship more U. S. scrap iron to Mexico.

O'Dwyer commented on agricultural, industrial and recreational benefits which will accrue both countries when the dam he inspected is completed. The earthen embankment on the U. S. side has been finished and the spillway half completed. Work is in progress on two large power plants.

"Stop Thief"

CHARLES CITY, Ia., Nov. 24 (UP)—The Rev. G. M. Ottsen, working on his Sunday sermon entitled "Stop Thief," reached into his desk drawer for a pencil yesterday and discovered that a thief had pilfered \$40.

CHRISTIAN SCIENCE SERVICE

That God, Soul, not matter, is the real life of man will be stressed at Christian Science church services next Sunday. The subject of the Lesson-Sermon is "Soul and Body." At the outset the Golden Text states, "Know ye not that ye are the temple of God, and that the Spirit of God dwelleth in you?" (I Corinthians 3:16).

Selections from the Bible will include the following: "And when he was demanded of the Pharisees, when the kingdom of God should come, he answered them and said, the kingdom of God cometh not with observation; neither shall they say, Lo here! or lo there! for, behold, the kingdom of God is within you (Luke 17:20,21).

From the Christian Science textbook will be read this comforting assurance: "If God, who is Life, were parted for a moment from His reflection, man, during that moment there would be no divinity reflected. The Ego would be unexpressed, and the Father would be childless,—no Father. But man cannot be separated for an instant from God, if man reflects God. Thus Science proves man's existence to be

infect" (Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 306).

CHILDREN STUDY PARENTS IN UNIVERSITY COURSE

Cleveland, O., (UP)—They've finally recognized the younger set at Western Reserve University.

After years of teaching courses in child psychology to parents and parent-to-be, officials at the school decided this fall to start an "adult psych" course for the small fry.

Catalogue notes describe the non-credit course as "a joint-generation study designed to help students in the eight-year-old bracket understand their fathers and mothers."

Improved Pasture Producing 465 Lbs. Beef Worth \$130 Per Acre

That's the statement of an East Texas farmer about results gained from his improved bottomland pasture of White Dutch Clover, Fescue and Bermuda.

This pasture produced an average of 465 pounds of beef, worth \$130, per acre. Expense was only \$25.00 for seed, fertilizer and supplementary feeds.

This is not an unusual record as other land owners in this section, and other sections, are gaining a good income from meat and milk production from the combination of improved pastures and live stock.

Talking with the County Agent and Soil Conservation Service Office will give you facts on how to go about having improved pastures.

The New Safety Responsibility Law—
... was enacted to protect the public from careless, irresponsible owners or operators of motor vehicles. The law is designed to restrict the operation of automobiles to those who are financially able to pay for bodily injuries, death or property damage which their automobiles may cause. To meet the financial requirements of this law we recommend automobile liability insurance. It's safe, convenient, sure. Call us today for full particulars. No obligation.
If It's Insurance We Write It.

OUR DEMOCRACY— by Mat
WILL ROGERS, ALL-AMERICAN
"ALL I KNOW IS WHAT I READ IN THE PAPERS."

BUT WILL ROGERS DIDN'T GET HIS NATIVE DRAWL, HIS "OKLAHOMA" WIT, HIS BROADLY HUMAN PHILOSOPHY FROM WHAT HE READ IN THE PAPERS.
THESE QUALITIES WERE, LIKE WILL, THE PRODUCT OF HIS NATIVE SOIL, HIS AMERICAN ENVIRONMENT. HE REPRESENTED THE UNIQUE GENIUS OF THE LAND HE LOVED AND DEMOCRACY WASN'T JUST A WORD TO HIM—IT WAS HIS LIFE.

Since 1918, 55,000,000 acres of farm-land previously used to grow feed for farm animals have been made available to raise food for people, as a result of the increasing replacement of farm horses by machinery.

38% Mens Suits Are Selected By The Wives

WASHINGTON, Nov. 24 (UP)—The Agriculture Department said today that 38 out of 100 men take their wives along when they go shopping for a suit of clothes. And for this 38, it said, taking the little woman along ends any voice they may have had in making the selection. They moaned to the department that the only role they play in the purchase is to "stand up straight" while being fitted—and, of course, pay the bill. The department's check on men's apparel buying habits was made to guide manufacturers in the use of scant wool supplies. Among other things, the department discovered that the vest—once considered an essential part of a suit—is now regarded as "out of date and useless." Only 37 out of 100 men actually want vests and most of these die-hards live in the deep south.

Bandit Has His Scruples

MINNEAPOLIS, Minn., Nov. 23 (UP)—Mrs. Eli Swenning was waiting on customers in her husband's grocery yesterday when a nattily-dressed young man entered and asked for a pack of cigarettes. He then pulled out a revolver and demanded that she open the till. Mrs. Swenning hesitated. "Please, let me talk to my husband," she said. "He's blind." "Forget about the money," the young man said and walked out. He left the cigarettes on the counter.

EASTLAND'S MANUFACTURING PLANTS

LIVESTOCK PRODUCTION HERE IS GROWING RAPIDLY; AUCTION SALE IS CONTRIBUTING FACTOR

Eastland's weekly livestock auction sale may not have the largest payroll in the county, and we have not been able to convince ourselves that it is a manufacturing plant in the remotest degree, but so far as dollars and cents are concerned it is the vehicle used to bring in the "long green" in the largest doses of any single institution in the county. Therefore it goes on manufacturing page.

It bears the name of Sig Faircloth Auction Sale, but in truth it should be Sig Faircloth and Associates, for as a matter of fact most every livestock grower and producer in the county has a little to do with it's success. And together it forms what might be known as the Eastland county livestock industry. It means thousands, maybe millions of dollars, new money, for this county each year.

The sale this week was well attended. Many new faces were seen, some of them mean more cash buyers for Eastland county livestock. Out-of-town buyers come from all over the country. Each week from one to three cars of Eastland county cattle go to far-away California and Arizona. Packers from all over the state, including the major packers have been sending their buyers to Eastland.

This can mean only one thing, and that is that Eastland always has something to offer—enough to make it worth while to attend.

More than a hundred thousand dollars worth of livestock, including cattle, sheep, hogs, horses, etc., passed through the sale barn this week. This included 987 head of cattle, and is not considered a big offering, for there are times when twice that many cattle are brought in.

Eastland county was at one time an excellent cotton producing county, but that was before the "worm" took over. Cotton is still grown here, and some good crops are grown each year. However, cotton is no longer a number 1 crop. Peanuts have proven quite profitable, and many hundreds of acres are planted to peanuts each season. Other feed crops do well, and Eastland is forging ahead as a fruit producing county. All this is good and it means citizens here are alert at all times. The diversified program has been adopted and it is working wonders.

"But if the Mexican government cancels my contract, they can walk every step of the way home. I'll not pay out another cent if that happens."

The Mexican's, who claimed each had between \$15 and \$50 to show for his season's work, made seven specific charges against Jamison. They maintained:

1. They were brought 1,100 miles from Eagle Pass, Tex., to Tiptonville in open trailer trucks, one of which had no water, and were given only three five-minute rest stops on the way.

2. They were housed in six converted Army barracks on the windswept shore of Sunkist Lake, "bad mattresses" and insufficient blankets for their triple-deck bunks.

3. Only one stove, which doubled for cooking and heating, was installed in each barracks and then only after the season's first freeze and snow early this month.

4. Only one water faucet for cooking, drinking and bathing purposes was provided for the entire camp.

5. Two laborers were arrested and charged with theft when they threatened to report on conditions to Cano.

6. Too many pickers were hired for the plantation and they were unable to make enough money.

7. Recently they have been required to pick the same fields for the third and fourth times, drastically reducing the amount of cotton available and thus cutting income.

Jamison testified he paid the workers the "prevailing wage" of \$2.50 per 100 pounds of cotton picked. He said he maintained a non-profit commissary for the camp at which he sold food, clothing and other essentials and denied that any of the workers had complained to him about the bedding.

"They say they don't have enough money," he said, "but all of them have new shoes, new socks, new shirts, new sweat shirts, new jumpers and new caps. When they came here they were ragged and hungry."

Pedro Rojas-Campos said two men who deserted the camp were taken off a Memphis-bound bus and charged with theft by Lake County sheriff J. C. Haynes. They were released when they agreed to return to work, he claimed.

The two said they wanted to report on conditions to Cano. Jamison said they had blankets, cotton sacks and cooking utensils in their possession.

Sebastian Oviedo said the principal dissatisfaction besides living conditions was "we can't get enough cotton to pick." Jose Prieto-Alfara testified he had been able to send his wife and six children only \$20 since Sept. 20. Others fixed their savings at between \$15 and \$50.

Jamison said the workers averaged between \$16 and \$35 weekly.

Mexican Cotton Pickers Complain About Conditions

TIPTONVILLE, Tenn., Nov. 24 (UP)—Disgruntled Mexican laborers imported to pick cotton on a 800-acre Mississippi River plantation complained to their government today about "bad mattresses," cold barracks, not enough water and inadequate pay.

The charges were leveled against planter Terry Jamison at a hearing conducted by Angel Cano, Mexican consul at Memphis, and W. O. Crittenden of the U. S. Labor Department's Division of Employment Security. The meeting was held at the Lake County courthouse here last night to determine reasons behind the exodus of 77 of the 150 Mexican laborers Jamison signed up to pick his cotton.

Six spokesmen for the 73 pickers who remained on the farm poured out the complaints of fellow workers in rapid-fire Spanish and Cano took voluminous notes for a report which he immediately transmitted to the Mexican Embassy in Washington. Crittenden also filed a report, but neither would comment on their recommendations.

Dissatisfaction among the Mexicans came to light Thanksgiving Day when 50 of them plodded into Memphis to see Cano after a 100-mile trek from Jamison's riverside plantation.

Jamison told Cano that he had "done my best" to make conditions pleasant for the Mexicans and invited those who had left his farm to return for the remainder of the picking season. However, he said he would wash his hands of the laborers if the Mexican government cancels its contract for their services.

"If the cotton pickers will continue work," he said, "I will pay them everything coming to them, including transportation back to Mexico. And that goes for those 77 in Memphis."

One Day Service Plus Free Enlargement Bring Your Kodak Film To SHULTZ STUDIO EASTLAND

Oil wells pay dividends, but livestock pay larger dividends, and are scattered among more individuals. Most any farmer can raise a calf or two each year, and when they are sold to present day prices the farmer realizes their worth in dollars and cents.

At the sale this week the market was strong, and bidding was brisk. In some instances cattle showed as much as \$8 per head higher than last week. And experts tell us that cattle prices will not hit the toboggan trail until groceries, feed, clothing and most other items have been reduced in price.

About 120 airplanes take off weekly from Berlin's Tempelhof airport, while in the last six months 35,000 airplanes landed and took off at German airports, carrying over 500,000 passengers.

Your Scrap Dealer...

A VITAL LINK IN NATIONAL PRODUCTION

The scrap metal he gathers is necessary for producing tanks and autos, nails and bridges, as iron ore from mines. He needs your broken machinery, old batteries, in fact anything discarded or useless made of iron and steel or other metals to send on to the mills. Most steel is made from 1/2 scrap and 1/2 pig iron. Other metals, too—zinc, lead, aluminum, copper, etc.—are re-used in production. Scrap is critically short.

THE NEED IS NOW—SELL YOUR SCRAP TODAY TO
