### Around The Square

With Mack

While this column is written primarily for home consumption, we notice that a lot of "foreigners" are reading it. Well, that is O. K., for if it is the "truth" in Eastland, (which we doubt) it won't be to big a "yarn" by the time it gets to Lubbock or Wichita Falls.

One of our Lubbock customers, Solon Bourland by name, has sent us a jar of Lubbock sand. He did this to prove that all the county don't blow down here during a sand storm. Thanks, Mr. Bourland, your nephew, Leon, delivered the sand to our desk and we are going to save it for hard times. A little later we are going to plant one of those big running type of tomato vines and use this sand for fertilizer. The seed man told us the plant, under normal conditions should reach a height of about 20 feet, and produce several bushels of tomatoes.

But we are going to get him one better. By using this pint of sand as fertilizer, we plan to grow a vine fifty feet high, which will supply fruit for our large canning factory. We know all about that Lubbock sand. It is the world's finest. Once while living in that city, we grew watermelons that weighed as much as 150 pounds. It was not uncommon to gather black eyed peas off of a corn stalk. The wind there does many remarkable things, when it comes to scattering pollen. One year we planted wheat—that was the year it rained, if you will remember, and we made so much wheat we couldn't stack it on the ground where it had been grown. Prolific, we should say so.

But don't run off. Stay where you are, for you are living in a kind of "promised land." We can prove that by Charlie Guy, your local editor, who finds it difficult to breathe when he visits down here in Texas.

Our second customer resides in Wichita Falls. That's another good town, and in fact all West Texas towns are good. This customer is John M. Mouser, former resident of Eastland. He reads the column, and we presume he likes it, for he told our circulation manager to always send him a notice as he didn't want to miss any of the fine articles by Mac. Encouraging to say the least.

We are trying to avoid politics this week, but just can't refrain from giving you the political definition of a "Liberal." "The definition of a liberal is a man who, in Washington, wants to play the Almighty with our money." Can you name him?

While attending that "dry water" mission Thursday night we got thirsty that our whistle "stuck." We stepped out of the court house at 30 seconds after 9:00 o'clock, but just in time to see the lights go dark at four drug stores. We were spitting cotton and could not speak, but we came so near kicking a door in that Everett Plowman before he opened up and let us have a glass of water an Eskimo Pie. Thanks, and we hope the retail druggist association don't fire you for the minor crime.

Among our distinguished visitors Thursday was Kathryn Duff of Abilene Reporter-News fame. She was state editor for a long time and may still have the magic wand over that department, but she is also a staff correspondent of worthy note. So happens that we send Kathryn a few squibs from this section, and she pays us for them. Sunday when the Reporter-News is delivered to your door, see if you can find a few Eastland Feature stories? If you do, let us know, and we will clip them out and send them in. We didn't write them, and she won't pay for them, but we want her to know that we read her paper and like it. In fact the Reporter-News is doing a swell job in this section of Texas, and Kathryn is doing her part. Also our old friend, Frank Grimes, editor-in-chief, contributes his share, as does old "Ham" Wright, the "writing parson" who knows more West Texans than any living man. Come and see us again, Kathryn.

### Local Red Cross Workers

This is the group who will make the Red Cross drive what it should be: Mmes. Jos. M. Perkins, Jas. Horton, Clyde Young, Arthur Murrell, J. L. Cottinham, Sam Butler, Jas. Whittington, Harry Woods, W. L. Stanley, Robert Perkins, Jas. Fields, Cyrus B. Frost, Jr., Jack Frost, A. J. Blevins, W. L. White, Hubert Gage, Jack Chamberlins, Gordon Smith, Ben Smith and Jack Carothers, hosts.

### Blood Mobile Unit's 3 Day Stay In County Nets Only 329 Pints

The Blood Mobile Unit from the Ft. Worth Center spent three days in our county this week and took away only 329 pints of blood instead of the 600 pints from people they could have served. A severe comparison to the 1500 pledged for the two days the unit spent here in 1943. Of the 1500 pledged, 1479 people were processed, with the result of 1289 pints of blood, taken in 1943. This week, 2 days for Ranger 197, 1 day in Cisco, 132. Total 329.

Practically every hour on the radio there has been an appeal for blood donors and still there were approximately 30 people from Eastland who neither called or came for their appointments. There were nine who did account for the time pledged and could not give. In requesting pledges some remarked that "this is only a cold war," but unless your son, husband or brother is on the front line with the folks back home turning a deaf ear to the plea for help you can't realize what a "Cold War" it is turning out to be. Won't you try to get to the Ft. Worth Center and give your share yet? It is so badly needed!

One who has done his share in R. D. White, owner of the Victor Hotel in Cisco who gave his 41st pint of blood on Thursday. The first donation was in 1920 and had the opinion that he had done nothing of importance even though it is somewhat of a record.

It is noted that Mrs. Angie Everett who gave a gallon during the last war was the first donor from Eastland.

The Doctors and Nurses and volunteer helpers from Eastland were generous with their time and blood as well. Doctors Brown, Caton, Treadwell and Townsend

### Francis J. Brock Given Promotion

CRAIG AFB, ALABAMA—First Lieutenant Francis J. Brock, son of Mr. and Mrs. Howard Brock of 301 North American Street, Eastland, is one of the class of civilian and military pilots attending the current six-week course at the Pilgr Instructor School here.

The Pilgr Instructor School, the only training program of its kind in the Air Force, offers a six-week course in both academic and flying instruction to qualified pilots who later will be assigned to teach aviation cadets how to fly at various air bases throughout the country.

Lieutenant Brock is highly recommended for this assignment, having a great deal of past flying experience.

**Little Items Of Local Interest**

Sgt. Robt. N. Jones spent the weekend in the home of his parents, Mr. and Mrs. S. B. Jones, 202 N. Ammerman. Also visiting with him was a buddy, Cpl. Willard G. Hennings, of Ritzville, Wash. Both boys are stationed at Shaw Air Force Base, Sumpter, S. C., and are temporarily at San Angelo, taking part in "Operation Longhorn."

Quite a number of local Baptists are attending a worker's conference in Ranger today.

### Morton Valley HD Club Visits Eastland Schools

Morton Valley Home Demonstration Club observed Public School Week, Tuesday, instead of having their regular monthly meeting. Four members, Mmes. John Nix, Raymond Beck, D. D. Franklin and Clifton Beck, went to Eastland and visited West Ward and the High Schools.

They were shown to the register in the West Ward, by first grader, Mary Carven. Miss Nettie Thornton had her first grade pupils play a game where they read a slip of paper and then performed what the paper said. Some of the words on each of the papers had words they had studied. They are trained in phonetics so they could "sound out" the new word.

Mrs. Patterson was holding her fifth grade English class, and pupils were studying singular and plural verbs. Nancy Beck showed visitors some of the accomplishments of her class.

Time didn't permit a visit to all the classes, but the visitors enjoyed all they saw at West Ward. They then went to High School where they were greeted by Marilyn Morgan who acted as hostess. They saw the agriculture room and science rooms, study hall, auditorium and English room where Miss Johnson was conducting a class in speech.

Mrs. Jay Whatley took the visitors through the well arranged library, pointing out the progress which has expanded the library from a small back room to the present spacious, well lighted quarters. Open shelves make it easy for a student to select a book and then sit at a nicely appointed table and read. Mrs. Whatley showed them a sample page of the Moverick, their annual, which is being printed at this time.

They were shown modern home-making rooms where Miss Loretta Morris was instructing the boys, who are making shirts. They saw the new stoves, the refrigerator and the desk where students work. The dining room is quite a room which might be found in most any home. Clean and un-class-like, was its appearance with its China, silver and linens.

Mr. Atwood showed the visitors through the band rooms, where the instruments were seen, along with trophies the band has won. Starting in as a Class "B" band they have developed into a Class "A" group.

Mrs. Gattis showed them through the cafeteria with its huge refrigerator and stove. There is a "Coke" box where students can purchase additional desserts. Visitors were served chocolate cake which was on Tuesday's luncheon menu.

The ladies thoroughly enjoyed the afternoon and vowed that next time they would take the whole day which is required if one wishes to see everything.

### Bay Rum Fatal To Cisco Man

Cisco officers were notified Friday by a hotel operator in that city that one of their guests was in a critical condition. The call was answered, but when officers entered the room through a window, he greeted them. He had been consuming large quantities of bay rum, but was in his own room and raising no disturbance, so they left.

Saturday they were called again and while officers broke down a door to reach the room, they were too late. The man was dead.

### Paregoric Head Given Fresh Air By Chief Laney

Paregoric proved to be the downfall of one Eastland visitor early Monday morning. Where he came from, or where he went, is not known, but when he tried to persuade a local drug clerk to sell him a supply of paregoric he punched the wrong button.

Chief Ray Laney located the man and took him to the edge of the city and advised him to march on. Reluctantly he did so, though not without murmuring that he was a sick man suffering from all the maladies known to medical science. They'll do it every time.

### Phi Theta Kappa Holds Initiation Friday At RJC

On Friday evening, March 7, at 7:30 p.m., in the Student Union Center, ten pledges were initiated as active members of the Delta Tau Chapter of Phi Theta Kappa, National Honorary Society for Junior Colleges.

Gene Ready, president, assisted by Richard Ivy, vice-president, Duane Rose acting secretary and Miss Anna McEver, sponsor, presided at initiation ceremony.

Those initiated were: Gaylie Carter, Ranger; Pauline Coltharp, Olden; Colleen Davis, Caddo; Joy Hull, Ranger; Charles Lane, Eastland; Mrs. W. A. Lewis, Ranger; Rita Locklear, Brady; Glen E. McCleskey, Ranger; Jerry Sandefur, San Angelo; and David Sullivan, Woodson.

Members of Delta Tau Chapter, Phi Theta Kappa are chosen through election by the local chapter and a faculty committee on the basis of scholarship, leadership and character. To be eligible for membership, a student must complete one semester in Ranger Junior College, having carried fifteen hours per week, twelve of which must be in the arts and sciences; he must be of good moral character and must possess recognized qualities of leadership; he must be in the upper ten per cent of the regularly enrolled student body. He must have an average of 85 or above on all courses.

No greater honor can come to a student of Ranger Junior College than to belong to Delta Tau, the local chapter of Phi Theta Kappa. Dean and Mrs. W. W. Smith and Mrs. Hal Hunter attended the initiation services.

### Bill Solomon Candidate For County Sheriff

W. E. (Bill) Solomon of Cisco, former Eastland county deputy and peace officer in Cisco, has requested the Telegram to announce his candidacy for Sheriff of Eastland county. Mr. Solomon has been a resident of this county for more than 25 years. He served as deputy sheriff under former sheriff J. B. Williams.

He will make an effort to contact the voters of this county prior to the July primary, and asks that you give his claims due consideration. He will publish a formal statement at a later date.

### Schools Good Rotarians Say

School visiting committees from the Rotary Club, gave their reports Monday, following school visits during Public School Week. All committees gave encouraging reports, and the consensus of opinion is that grown-ups will in the future, most closely affiliate themselves with our school system.

Most buildings are in good condition, though at least one school building is in need of repairs. Play ground equipment is being kept in fair condition.

Teachers were commended for their various endeavors, and patrons seem well pleased with existing conditions.

Following these reports Roland Phillips furnished a picture program depicting fishing scenes. An expert instructed us in proper casting, and more than one groan was heard, when he would land a big one. The picture was educational and instructive to all who "fly fish," but the "willow limb and can worms" group—well it just went over their heads.

Dulin-Daniels Post American Legion of Eastland, will celebrate its 33rd Birthday on Friday evening of this week with a "Chicken Barbeque." The meeting will be at the Legion Hall, and will start at 7:30 in the evening.

# Government Seeks Injunction Ending Railworker Strike

## Howard Payne College Presents Fine Arts Program Here Tonight

Music lovers of Eastland will hear members and the staff of the Fine Arts Department of Howard Payne College at 8 p.m. this evening at the Woman's Club.

The program is under the direction of Dr. Clyde Jay Garrett, department head and is sponsored by the Music Study Club.

Members have been selling tickets all this week and tickets are 50c for adults and 25 cents for students, available at the door.

## Father And Son Banquet Well Attended; Wimpee Proves to Be Most Talented Entertainer

The Father and Son banquet was a success before it ever started, and by the time A. C. Wimpee, of Brownwood, entertainer for the evening, got through juggling his audience for an hour and a half, it was a "scream."

Attendance was exceptionally good. The Church sanctuary was filled almost to capacity, with fathers and sons. Boys who had no father were given a "daddy for the day," and no one was ever overlooked. Early in the evening boys let it be known they were interested in food. Many of them informed "dads" and others that they were hungry. One small fellow upon arrival at the festive board, after eyeing the 300 plus plates filled with turkey and the trimmings made a remark that he could eat two or the dinners and would probably want a hamburger for a dessert. We watched the lad and noticed he left food on his plate, and while he drank two cups of coffee and a cup of hot chocolate, the ice cream and cookies came near being too much. But remember he was a boy and most boys have eyes bigger than their "tummies." And they are all hungry.

The fellowship between fathers and sons was very noticeable. The sons were having the times of their lives, and this brought joy to the fathers. So far as could be determined there wasn't a sad individual in the house. Our "Men of Tomorrow" had an opportunity to see "today" what life will be when they take over, and with the training and fellowship that they saw demonstrated last evening, most of the group will likely follow the path of righteousness, for their training has been in this direction.

The 940 Bible Class of the Methodist Church sponsor this annual affair, and the membership of that class is to be commended. Many individuals might be named here, for they spent time, effort and money to make the occasion a success. So dads who put in

just a little extra to make this possible, may consider themselves "patted on the head." Just as sure as we tried to list names we would leave some old "bell-weather" out and it would take us from now on to get over it. In fact every "dad" there made a contribution, by his very presence, if nothing else, and as we sum it all up we have decided that the writer was the worst "Jonah" in the crowd. His sons are nearly as old as he is and have a bunch of sons and daughters of their own. However, we had a fine little "fellow with us, and he got so "tickled" at Wimpee, he came near caving the table in.

And when the name Wimpee is mentioned, your mind immediately goes to that Brownwood Individual. Although he got out of a sick bed to make the Eastland meeting, rather than disappoint the boys, no one would have known it, had he not have told them. Yes he was

(Continued On Page 6)

## Farm & Garden Bulletins Are Now Available

Congressman Omar Burleson is submitting to the farm families and those interested in farming and gardening in his Congressional District an order list for bulletins and pamphlets dealing with various agricultural activities prepared by the Department of Agriculture.

In doing this, Congressman Burleson invites those wishing such material to return the order list to him with an indication of those publications desired, and insofar as possible the bulletins and leaflets will be furnished.

In addition to the farmers' bulletins, Congressman Burleson advises that there are also two booklets on recipes and food management which can be secured.

## Justice Dept. Lawyers Go to Cleveland

CLEVELAND, O., March 11 (UP)—The government has asked for a restraining order and an injunction against three rail brotherhoods to end their three-day strike against the New York Central System and the Terminal Railroad of St. Louis. Petitions for the order were filed this morning in federal court at Cleveland, Ohio.

Three Justice Department lawyers arrived in Cleveland, Ohio early today to ask a federal judge for a court order requiring 6,000 rail workers to end the walkout.

The injunction would force the striking engineers, firemen and conductors brotherhoods to return to work.

Union officials refuse comment on the threatened court action. But they said they are willing to negotiate demands for higher wages and revised working conditions—the dispute that sparked the strike.

The walkout defied the authority of the Army which technically has been in charge of the nation's railroads for two years. The effects of the strike are being felt in New York, Pennsylvania, Ohio, Indiana, Illinois and Missouri.

Officials of the New York Central estimate their losses so far at three-million dollars and fear the number of employees idled by the strike will rise to 50,000 if the dispute is not ended quickly.

## Light Rain In City; Heavier In South Area

Sunday's over-cast clouds proved worthwhile to a few people in this county, though in the city proper the precipitation amounted to only .12 of an inch. Olden reported .20 of an inch. South of town the rain was somewhat heavier, some farmers reporting as much, or even more, than 1 inch.

This will not be too valuable, so far as crops and planting are concerned, but in some sections considerable stock water was impounded.

## Free Chicks For Eastland Group

One day next week Eastland will celebrate "Free Chicken Day." That is 100 people with proper tickets will be given 15 live baby chicks—the kind that changes into broilers in just a few weeks time. Early on that date (to be announced later) Castleberry Feed Co. will pass out tickets to those passing his store. Later these tickets may be exchanged for 15 live baby chicks.

Mr. Castleberry gave away a number of chicks last year, but eager gift seekers came near wrecking his store. He will not do this again, but will pass out tickets, and then when the "crash" is over the fortunate 100 individuals will go back and claim the chicks.

## Civic League, Garden Club to Have Program

Mrs. Homer Smith will be the leader of an interesting program on Fire Prevention at 3 p.m. Wednesday, at the regular meeting of the Civic League and Garden Club at the Woman's Club.

A well prepared panel discussion on Communism will also be a feature of the program. Mrs. Art Johnson, program chairman has announced.

## Turkey Raisers Warned to Watch For These Diseases in the Poults

COLLEGE STATION, March 10.—The use of management and sanitation practices that will prevent diseases are mighty important to the turkey producer. It is always more desirable to prevent the occurrence of a disease than to try to treat an outbreak, says L. C. Grumbles, poultry pathologist of Texas A. & M. College.

Management practices are important from the day the poults are hatched and one of the first to cause trouble is water starvation.

tion, says Grumbles. This practice always happens when the poults are about two weeks old and results from the change from small water fountains to large ones or automatic watering systems. The poults just don't find the water and the trouble can be avoided by making the change gradually and by providing sufficient watering space.

Another condition associated with management that often causes trouble is crop and gizzard im-

### Buyer Has 129 Model-Color Choices

A striking array of miniature Chevrolets illustrates the 129 model-color choices available to the 1952 buyer. Brilliant new colors in solid or two-tone combinations with smartly styled interiors in harmonizing shades are features of the recently introduced line. Betty Rennell is shown above making her selection.

### Sharp Reduction Noted in Taking Whitetail Deer

AUSTIN.—Sharp reduction in the number of white-tailed deer trapped in Texas this season was reported by the Assistant Director of Wildlife Restoration for the Game & Fish Commission.

He said about half the deer needed for re-stocking commitments were taken during the period which began late last October and has just ended.

The Assistant Director said the total trapped was slightly more than 300. The schedule had called for 600 whitetails.

He explained the principal reason for the trapping slowdown was a mild winter on the Aransas National Wildlife Refuge where the trapping is done.

"The natural food was so plentiful," he said, "that the deer were not interested in the cottonseed cake used to bait the traps. In ordinary winters the animals relish this food. This winter, because of the mild conditions and plentiful food on the range, the deer kept robust and amply nourished."

"It all goes to point up the problem of planning scientific aids to wildlife and the problems that occur when Nature takes a hand." The Assistant Director said one result of the trapping decrease was disappointing in some areas where re-stocking commitments had been made.

He added that one conspicuous setback concerned the new wildlife management area near Crockett in Houston County. Whereas been scheduled for releases in that area, only a part of one load was delivered. The remaining deer will be obtained through priority arrangements next season, he said.

fection. It occurs when the poults eat the floor litter and can usually be prevented by covering the litter with paper or sacks for the first week of the brooding period. Providing plenty of feeder and drinking will also help, says the watering space and then making sure the poults are eating and drinking.

Three infectious diseases cause most of the trouble in young turkey poults. One of these is pullover. It is transmitted through the egg and can largely be eliminated by buying poults from a hatchery that is U. S. pullover clean.

Another is heximitiasis. This disease is caused by a very small parasite that inhabits the small intestine and mortality among the infected poults is usually very high. It generally occurs in poults between the ages of four and twelve weeks, Grumbles says most mature turkeys are carriers of the disease and the organisms are passed out in the droppings. The parasite survives for only about 30 minutes outside of the bird's body and is spread through fresh

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of J. B. Brannan, Resident Engineer, Breckenridge, Texas, and Texas Highway Department, Austin. Usual rights reserved.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 2.728 miles of Gr., Strs., Base and Surfacing from 3.2 mi. North of Okra to 3.9 mi. South of Carbon on Highway No. FM 1027, covered by S 1209 (3), in Eastland County, will be received at the Highway Department, Austin, until 9:00 a.m., March 16, 1952, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid at the regular governing rates.

Plans and specifications available at the office of G. L. Smith, Resident Engineer Eastland, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Gibson Girl Is Newsworthy In Spring... 1952

In wearing apparel and accessories, the Gibson Girl steps out of the past with an all-important emphasis in newest fashions.

High collars—full sleeves—waistlines made small and cinched-in, and back interest with skirt fullness, are all copied right out of the Gibson Girl era.

Accessories give special accent to the "G.G. look" with tailored, but clever little ties—high, extra collars, cummerbunds and belts in either wide or narrow widths.

Small waists look even smaller with hipline padding and stiffening, especially in the derriere—waist cinchers, beneath it all, and full leg o'mutton or balloon sleeves—above.

From young teens to their fashion-conscious mothers and grandmamas—all of fashion's daughters will find dress-up ideas in the "Gay Ninety" theme—a

high point of the Nifty Fifties era!

Public Opinion

To the Editor: I do not know the best way to go about the problem posed by enclosed clipping, but this I know: A nation that submits to being plucked by taxgatherers, that pays the taxes of tax evaders as well as the incredible taxes already endured, is either stupid or too cor-

rupt to survive; and, what is worse is not likely to survive—under the strains and stresses of a brand new religion whose chief article of faith is the destruction of the U. S. A. We need strength; and in rottenness there is no strength.

We need a revival—a shouting brush arbor revival of our own integrity; thus can we find means of requiring an honest government.

## Regular Meeting E.O.F. Set Mar. 15 In Carbon Church

The regular meeting of the Eastland County Federation of Clubs is scheduled for 2:30 p.m. Saturday March 15th at the Methodist Church in Carbon.

Mrs. C. G. Stubbiefield extends the invitation to all club members and visitors to attend.

Members of the Carbon Study Club will be hostesses and will present the program.

### Personals

Mrs. George Cross of Ft. Worth has been the guest here in the home of Mr. and Mrs. E. S. Perdue and Stevie.

Mrs. John Beatty of Ft. Worth and little son, John Carl, visited here Monday and Tuesday in the home of Mrs. Beatty's parents, Mr. and Mrs. J. Carl Johnson, so that John Carl might attend the Father and Son banquet with his grandfather.

Mr. and Mrs. T. L. Amis accompanied Mr. and Mrs. Ed T. Cox to Ft. Worth Sunday, where they visited Mrs. Cox's sister, Mrs. H. H. Collier, who is a patient in St. Joseph hospital. They also visited with Mrs. Ed T. Cox, Jr., who is a patient in the same hospital, where she was to undergo spinal surgery Tuesday.

Lavon Huddleston, who has been ill in Ranger General Hospital, has been removed to USPHC hospital in Ft. Worth, a veteran's hospital. Mr. Huddleston was accompanied by his mother, Mrs. Glenn Huddleston and his pastor, the Rev. C. M. Rathel.

Mrs. Pete Clement has returned from Fort Worth after having been in the hospital, where she underwent surgery.

CALL 601 FOR CLASSIFIED AD SERVICE

## LOOK WHO'S NEW

Mr. and Mrs. Lavon Huddleston are the parents of a daughter born March 8th in the Ranger General hospital. She has been named Trivonna Lou and she and her mother, the former Miss Sue Corporaal of Abilene, and Wausau, Wis., are reported to be doing fine.

Grandparents are Mrs. T. Corporaal of Wausau, Wis., and Mrs. Glenn Huddleston of Eastland.

Great grandparents are Mrs. Ona Freeman of Eastland and Mrs. E. B. Huddleston of San Antonio.

Mr. and Mrs. MacBartee are the parents of a ten pound and one ounce son born Saturday, March 8th, at Ranger General hospital. He and his mother, who are reported to be doing fine, will be removed to the home of Mrs. Bartee's parents, Mr. and Mrs. A. C. Page in Abilene, until they are able to join Mr. Bartee, who is minister for the Brackwood Church of Christ in Austin.

The Bartees have one other child a daughter, Janita Kay, 13 months. The paternal grandparents are Mr. and Mrs. Bartee of Victoria.

Gary Bruce is the name Mr. and Mrs. Bruce Pipkin, 205 S. Oaklawn have given to their son born Monday, March 10th, in Ranger General hospital.

He and his mother, the former Miss Doris Groves of Olden, are reported to be doing fine.

Grandparents of the baby are Mr. and Mrs. Grady Pipkin, 201 Oak Lawn, Eastland and Mr. and Mrs. Lois Groves, of Olden.

Mrs. W. H. Groves, 207 South Walnut Street, and Mr. and Mrs. M. M. Scott, 409 South Seaman Street are the maternal great grandparents.

## Community Night Started By HDC Of Union Center

The Union Center Home Demonstration Club sponsored the first of the "Community Night" social meetings when they entertained Friday night with a "42" party.

Twenty-two families of the community were represented by the 50 who attended the meeting held in the HDC Club house.

Jack White entertained the group with his violin music and refreshments of coffee and cake was served.

Hostesses for the evening were Mrs. Arthur Wright, Walter Hill, Odus Criswell and G. G. Crowell.

Many present expressed their appreciation of the gathering and stated that they were looking forward to a better fellowship with their neighbors through the community night socials. Mrs. G. G. Crowell, reporter, stated.

## Mrs. W. H. Cooper To Host Meeting Of Zeta Pi's

Members of the Zeta Pi Chapter of the Beta Sigma Phi Sorority will meet at 7:30 o'clock this evening in the home of Mrs. W. H. Cooper, 604 South Seaman Street, with Mrs. Fehrman Lund as co-hostess.

## Scale Runners to Meet In Jones Home Wednesday

The Scale Runners Club will meet at 8:15 Wednesday afternoon in the home of Mr. and Mrs. Hubert Jones of the Leon Plant Village, with their daughter Rosemary as hostess.

## Collins Family Attends Funeral Of Relative

Mr. and Mrs. Johnny Collins and Charles have returned from McKinney, where they attended the funeral Friday of Mrs. Collins' sister-in-law, Mrs. James A. Long.

Mrs. Long, who was laid to rest in Restland cemetery in Dallas, is survived by her husband, a son, James Scott Long, her mother, Mrs. Alma Phillips of Melissa, a sister, Mrs. C. A. Crites of Dallas, two brothers, Homer and Jim Phillips of Melissa.

## Laymen Conduct Services Aboard Navy Fleet Ships

NEW ORLEANS, Louisiana—Under a program initiated by the Navy to provide religious observance of a chaplain, more than 1000 officers and enlisted laymen of all religious faiths are conducting divine services aboard ships of the U. S. fleet throughout the world.

Rear Admiral Stanton W. Salisbury, USN, Navy chief of chaplains, said the religious representative program is being intensified throughout the fleet to emphasize the maintenance of a high moral standard in the Navy.

Part of the program will include supplying recordings of religious music and equipment for conducting divine worship.

Large ships and fleet commands have chaplains assigned but smaller vessels depend entirely on "circuit riding" chaplains for church activities. They travel to out-of-the-way stations and ships to conduct divine services for all faiths.

The Navy said these lay religious leaders do not in any way attempt to perform the religious function of a regular chaplain. They serve as a layman does in his own church and they do not, for instance, observe communion or perform baptisms. Protestant men conduct a worship service, and Catholic men a Rosary service.

From: Office of Public Information Headquarters Eight Naval District Room 945, Federal Bldg. New Orleans 12, La.

Mrs. Jack Carothers, local chairman, who has organized a loyal corp of Red Cross workers, all of whom are working hard to put Eastland over the top.

## Mrs. Alvis Wood To Present Show For Small Tots

Mrs. Alvis Wood of Ranger will present a puppet show for preschool age children and first and second grade students at 10 a.m. Thursday at the South Ward School.

Tickets are 9 cents each. Mrs. Wood's show is being sponsored by the Civic League and Garden Club and proceeds will go to the Eastland Memorial Hospital fund. Mrs. Wood will present a show at a later date for the older group of South Ward students.

Miss Jerry Heninger of Wichita Falls was the guest this week end of Mr. and Mrs. W. E. Brasher and their son, Billy, who is a student at North Texas State College.

### CARD OF THANKS

We take this means to thank each and every one who sent cards and flowers during the illness and death of our dear husband and brother D. Henson. Also we want to thank the blood donors, May God bless each and every one of you.

The Family of D. Henson.

## Mrs. O. L. Hooper To Host Class Monthly Meeting

Mrs. O. L. Hooper will hostess the regular covered dish supper of the Home Makers Class of the First Baptist Church, Tuesday evening at 7 o'clock in her home, 506 S. Daugherty.

All members, social members and prospective members were invited.

## T.E.L. Class to Meet In Home of Mrs. Alice Speer

Members of the T.E.L. Class of the First Baptist Church will meet at 11:30 a.m. Thursday for a covered dish luncheon, business meeting and social in the home of Mrs. Alice Speer, 410 East Sadosa St.

CALL 601 FOR CLASSIFIED AD SERVICE

### Personals

Mr. and Mrs. Sam Conner and children of Ballinger, were the week end guests here in the home of Mr. Conner's parents, Mr. and Mrs. Earl Conner, Sr.

Mr. Conner, who is official court reporter of 119th Court, accompanied by the Judge of the court, C. M. Parrish stopped briefly in Eastland enroute to Ft. Worth to attend the re-districting meeting of Judicial districts.

Mr. and Mrs. E. M. Gattis, accompanied his mother, Mrs. I. L. Gattis to Fort Worth Sunday, following a visit here in their home.

Mrs. H. F. Vermillion has returned to her home here after a

Real Estate Property Management Home and Farm Loans

three weeks absence of she visited in Purocell, her brother and family Melborn, and Batesville her sisters, Mrs. G. H. Mrs. W. H. Meers and Mrs. W. B. O'Neal and daughter, Mrs. Norma of Texarkana.

### News In Fabrics For Spring; From Cottons To Silks Told In Texture And Nubby Surface

Though Spring wears a dainty look, mild as a new lamb, and the accent is on the feminine it is interpreted in a series of rough fabrics.

Suits and toppers appear in the fashion picture with a new "slubbed" look—which means they are ribbed or crossweaved. Wool is especially good when ribbed and turns up often in suiting worsteds. Even silks are handled roughly—the ribbed, heavy silks an excellent choice for the long, flowing coats.

The poodle influence extends even to suiting, though here it is generally combined with a plain fabric. But this is the year of the curly, loopy, deep-texture look—the poodle with a Spring haircut! Little toppers—brief hug-me-tights—full greatcoats fashioned

of the clipped poodle are newer than first love.

When interwoven with white, clipped poodle becomes a frosted fabric. Nothing is smarter—nothing prettier than Spring's frosted look—enticing as icing on a birthday cake. The frosty look also lends new glamour to other fabrics besides wool—silk, cottons, crepes and linens are all dusted with white magic.

As a stand-out for the full silhouette, Spring fabrics are crisp and staccato, never slick or sliding. Taffeta, sharp and rustling, remains high on the fashion ladder. No other material keeps a profile so bouffant and graceful as taffeta. Skirts—dresses—and taffeta coats are the very shape of Spring.

Lustrous, flattering silk shantung assumes as many colors as Joseph's coat this season. Shining examples are the iridescent shantung, beautifully tinted—a single hue the basis for a fabulous fiesta of color. Here, too the "slubbed" texture dominates even to the sheerest silks. Shantung is perfect for the pretty dress-up dress skirts—the dainty shirtwaist. Wonderful, too, for evening wear, particularly good when touched with gold.

**EXERCISE LONGHORN**—The Salvation Army of Texas is marshaling its facilities to provide off-duty morale services to the 150,000 U. S. Army troops from all parts of the nation who will take part in extensive maneuvers in March designated as "Exercise Longhorn." Based at Fort Hood, the troops in their realistic maneuvers will be deployed over much of Central Texas. Lt. Col. John A. Morrison, Texas divisional commander of The Salvation Army, says that his organization will keep twelve mobile canteens busy in the exercise area. They will follow the troops wherever they happen to be, and will provide coffee and doughnuts, sandwiches, book matches, prepaid postcards, writing materials, and mailing services to the soldiers. In the photo above, Capt. Jessie Gough serves coffee to a soldier at one of the mobile canteens in the build-up area. Colonel Morrison estimated that The Salvation Army will spend \$25,000 in providing morale services during the maneuver period.

The Spring story is well-told in print. But for a different version these new prints are usually done on textured fabrics such as shantung, sarah or crisp taffeta. Classic polka dots give way to odd and scattered dots—white grounds—exotic Siamese patterns. Stripes are here to stay and taffeta, their natural habitat.

From Paris comes word that lace makes fashion headlines, as a Spring fabric. Not only is it a lovely choice for the filmiest evening gowns and stoles, it is also beautiful in new wool lace—when graced with touches of linen. Cotton lace appears often in the smartest daytime costumes. Spring gloves in lace keep company with the alluring feminine look of Spring.

Cottons have a head on Spring, for this year they look anything but cottony. It's very likely they may be your first Spring dress or suit, for they come in tweedy weaves—calico and dimity quilted patterns—sculptured piques. Big-

gest cotton sheer promises to be tissue chambray.

And linen—from imported to the linen weaves, in cotton, rayon, nylon and orlon. Whichever you choose it's fashion right if it's linen! In the new bisque shade, highlighted with black patent, it's downright witchcraft!

In silken accents, the texture story is finished. There are more pure silks now than ever before—silk taffetas, shantungs—silk surahs—silk pongee prints—silk sheer organdies. Soft, flattering, always adaptable, silk is the mainspring of the Spring wardrobe. Like puppy love—the first jonquil—the first robin—silk goes with Spring.

#### Stability For Price Level Is Set By Coffee

Wholesale prices for roasted coffee established a record for stability in 1951, according to the National Coffee Association. For the entire twelve months' period there was no important price movement, either up or down.

Since coffee is a highly competitive industry where every Company immediately reflects any savings it can secure in raw material costs, the condition noted is entirely unprecedented in the industry's modern history.

The reason for the development is found in the fact that coffee production has been slow to increase, and producers have been able to demand a price for green coffee which they think consistent with their increased costs of production. All coffee importers have had to pay these prices, and none therefore has been in any position to reduce prices in rare instances and for very short intervals.

### Dysentery On Increase With Spring Coming

AUSTIN, March 11—Commenting on the unusually high incidence of dysentery in Texas at the present time, Dr. Geo. W. Cox, dysentery as being an infectious disease characterized by diarrhea, pain in the abdomen, and toxemia. It is caused by a specific bacterium or germ. These germs cause inflammation of the lining of the intestinal tract which produces pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus. Toxemia results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the body through the mouth," Dr. Cox said, "and then make their way to the intestines in the same manner in which food does. When they reach the intestines they find conditions favorable to their growth, and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery affects young children more often and more seriously than adults, frequently resulting fatally; however, he said, it may occur at any age. It is usually more prevalent during the summer months, and the great number of cases now being reported are unusual for spring.

"The germ is always expelled with the excreta of persons sick with dysentery and may continue to be expelled for some time after the patient recovers from the disease. These persons who still discharge the germs after they recover are called carriers, and they occur more frequently in this disease than in the majority of other infectious diseases.

"Food protection and adequate sanitary measures are more urgently needed now than ever before if we control the potential possibilities of epidemic dysentery in this State."

## READ ALL ABOUT IT IN TOMORROW PAPER

## For Normal Driving - It Loafs!

You cross over the boundary into another state—and there are the posted rules and regulations.

Maybe the daytime limit for passenger cars is "forty-five"—or "fifty-five." Or, maybe no limit at all... just your own good common sense and the general rules of safety.

Well, whatever the legal limit, your Golden Anniversary Cadillac is going to "loaf!"

Down under its hood is the most powerful engine ever used in a standard American passenger car. There's more power there than you'll ever need—except for emergency.

But don't think that power doesn't work for you—even when you're driving within the legal limits!

It works for your safety... because a great reserve of power is a wonderful safeguard in most of the driving emergencies that present themselves.

It works for your comfort... because no car rides so well, or handles so superbly, as when it "coasts along," with a great percentage of its power still under the accelerator.

And it works for your peace of mind... for it is

unbelievably comforting to know you have tremendous acceleration, should the necessity for it arise.

Of course, power has to be harnessed and handled in order to be your friend and servant.

So the Golden Anniversary Cadillac has superb new brakes—larger and more efficient—and designed and built to double the span of their endurance.

And those who want the ultimate in easy handling may order at extra cost Cadillac's new power steering that eliminates up to seventy-five per cent of normal steering effort.

It would take a volume to tell you all the things that have been done to make this a "car among cars." But it will take but a mile or a minute for you to sense what it means in terms of pleasure and satisfaction.

It means something wonderful... too wonderful, in fact, to miss!

Better come in today—for a look—and a ride—and a revelation.

### Danger Big Government Replacing That Of Big Business; WTCC Says

WASHINGTON—Not so many years ago "big business" was the target of those who saw in bigness an inherent public danger.

To protect the public interest, a legislative wall was built around corporate operations. Laws were passed to insure fairness in competition and to guarantee an even break for the small operator.

Now, now so much is heard about the "bigness" of business. There is public acceptance of bigness in business as necessary for efficiency provided that ample safeguards against abuse exist.

But meanwhile bigness has appeared in another direction. Today it is big government. And people are uneasy over it. They do not know where it will lead, or where it will end. What are the safeguards?

D. A. Hulcy, president of the Chamber of Commerce of the United States, believes bigness in government is leading straight into socialism, and that it must be feared.

"Wherever I have been," he says, "I have found people deeply con-

cerned. There is an increasing awareness that it can end in socialism because socialism everywhere is another name for big government.

How big is this government of ours?

It is the single biggest employer in the country.

"Thirty million persons are drawing checks directly or indirectly from the federal government.

"Our government is so big it has mortgaged on banks, railroads, manufactures, homes and reportedly on a rattlesnake farm.

"Our government operates railroads, canals, power plants, printing plants news services universities steamships and radio. It is the nation's biggest money lender.

"Government is in business in competition with private enterprise and it is operating its businesses on tax money collected from private business.

"We are watching socialism being purchased with our own money.

"People in the government scoff at the statement that we are going socialist. Yet, when you turn over great power to government you are gambling with the future. Tomorrow's heirs of those in

power today may not be so benign. Another danger is that you are conditioning the people to acceptance of centralized power.

"Once we begin to compromise with centralized federal controls

we have begun to steer straight for the skidrow of socialism."

### Father & Son—

(Continued From Page 1)

ood—a perfect entertainer, and he got over in some wonderful points, which were sugar coated with a joke. His remarks were to the point, and his "puns" never failed to register.

A young assistant from Brownwood aided in the comedy act that was exceptionally good, though the "magician tricks" captivated the boys. Of course they knew he didn't have a basket of live snakes on the stage, but those near the front went for cover when a bunch of sidewinders' jumped out of his handkerchief and landed in their midst.

Two local "cuties" aided him with a number of tricks, but from the expression of their faces, we imagine they were glad when they were dismissed.

From the beginning to the end, the program was a scream, and while it was staged primarily for the entertainment of the boys, we noticed a few old "gray heads" rolling in mirth. Yes, some of them laughed until they cried.

This was the 23rd celebration of the Eastland Father and Son banquet, and if Winpees ever wants to come back, we imagine it will be an easy matter to get an "invite."

### Attendance Is Good At Olden Baptist Church

Olden Baptist hit the ceiling last Sunday with 95 in Sunday School and 78 in T. U. The Sunday School enrollment is 128, and they are proud of this record attendance, but cannot be satisfied until they have 100 in Sunday School and 75 in T. U. Even then they will not be satisfied.

Ray B. McCorkle brought an inspiring message in the general assembly of the Training Union Sunday night, and the Baptist Church expressed its appreciation for the interest shown in them.
