Fox Presents Qualifications In Vote Bid

To the voters of Eastland County: I wish to state that this is my official announcement:

I was born and reared in East land County, at Olden. In 1940 I mobilized with the Texas National Guards into the army of the United States. The Company I mobil zed with was Co., "I", 142nd Infantry Regiment, 36th Division at Ranger, Texas. I participated in the invasion of Italy and was wounded at Venafro on December 14. 1943. The extent of my wounds was the loss of my right arm (six inches below the elbow), my left arm shattered with 25 pieces of shrapnel still in my body, most of it embedded in my chest wali. blown out, plus other wounds. After staying in various hospi tals for about one year, I was diswork for the government in Austin. After working there for about two years I came back to Eastland County, where my friends pre suaded me to run for County Treasurer. I won the office by a large majority. I held the office for two years, but due to my failing health I did not run for re-elec tion. I stayed under the observation of the doctors of the Veterans ninistration for about two (Continued On Page 6)

Under the 1953 program, he explains, PMA community committeemen will make farm-by-farm contacts to help each farmer check his farm field by field to see what needs to be done to cure its ills and improve the land wherever possible. attention. Calling attention of how the ACP helps farmers, Mr. Blackwell says that the symptoms of illness of land may differ on different farms but there are some general signs that can be checked on most farms. One of these is the signs of erosion. Gullies are easily seen and most people are aware of trouble when land is being, cut up with these small canyons. Even more serious is the less spectacular sheet erosion which almost unnoticed gradually removes the

top soil. Erosion in general is usually the result of a breakdown of soil struc-ture loss of organic matter. The soil becomes more and mele com-

pact, less water soaks in, and cracks appear when the surface dries out. While the symptoms vary with different types of soil, they are indications that the land is in failing health.

The chairman points out that grass and legumes in permanent pasture or in rotation is usually the remedy. When lime and phos phate are needed to make the grass and legumes grow better, these materials play an important part on the soil improving process. Construction of terrances, contour farming and other devices play a part in holding the soil in place. All are emphasized in practices for which assistance is available under the Agricultural Conserva

DEAR VOTER:

I take this opportunity to answer a vicious, scandalous and false newspaper article calculated to injure and defame my personal character and integrity. This attack is a last minute attempt to mislead and prejudice the people of Eastland County in order to obtain the office of District Judge by a distortion of the truth.

THE FACTS ARE THESE:

The Commissioners Court of Eastland County made a contract with Horace Walker to collect delinquent taxes, which contract was approved by the Attorney General and Comptroller of the State of Texas. I, as an attorney at Law, was employed by Mr. Walker to examine abstracts of title in connection with this contract; I performed those duties. I had no authority whatsoever over the tax monies collected, or the prosecution of tax suits, nor have I done anything in connection with this tax matter, which seems to have been made a political football, which has not been in the least dishonorable.

In connection with the cases against Mr. Walker, I will say this: if Mr. Walker is guilty he should be punished to the fullest extent of the law. I have had no part or parcel in these cases, except that I have been subpoenaed as a witness for the State of Texas.

With reference to the property in Limestone County: My opponent evidently is unaware that it is quite customary and usual for real estate men and Attorneys to purchase and handle property for their clients, and this was done by me in several instances. There is absolutely nothing wrong in that.

It strikes me as very strange indeed that inasmuch as investigations have been going on for several years that I have not heretofore been attacked until this late hour in a political campaign with the imputation of a wrongful act.

I have made several campaigns and in no campaign has anything unfair, derogatory or un-christian-like ever appeared against any of my opponents. I have always contended that a man who is unclean in politics will probably be unclean, unfair and unjust in public office.

It is regretable that any person who is a candidate for such an honorable position as that of District Judge would countenance any article such as has just appeared by letter and in the press of Eastland County, and would conduct a campaign for such a high office on such a low political plane.

"Deliver me not over to the will of mine enemies: for false witnesses are risen up against me, and such as breathe out cruelty." Psalm 27:12.

TERRACES STOP THE RUSH OF WATER, **BUT DO NOT INTERFERE WITH TILLAGE**

Rain water runs from sloping land with the speed and destruction of a mountain torrent.

Broad-based terraces, with proper grades, offer sturdy resistance to the downhill rush of water, yet make no clumsy ridge to interfere with tillage. You plow the terrace as you plow the field, or sow it broadcast with grass or grain that binds the soil.

It is soil conservation to build terraces around the contours of sloping land and support them with strip cropping and contour tillage.

Soil Conservation Service Technicians have the technical knowhow to put a good terracing program on your land.

SUPPORT THE SOIL, AND THE SOIL WILL SUPPORT YOU

Of Importance To You

This is a brief statement about a very important matter—the 76th Representative District, comprising Eastland, Callahan and Shackelford Counties.

The office of State Representative, as you doubtless know, is one of the lowest paid, but one of the most important in our state. The kind of state government we will have for the next two years will be determined, in a large mesause, by the kind and character of men the people of Texas elect to the Legislature in the approaching primaries.

The Legislature runs Texas. It not only makes our laws, but levies our taxes and spends the money. It is within the power of the Legislature—thru good or bad legislation—to make or break any business or industry. The Texas Legislature has grown until it is now a billion dollar institution.

We are convinced that Mr. L. R. Pearson is the best qualified man for this important office. He served us ably and efficiently in three sessions of the Legislature. He has demonstrated that he is content to do well the job at hand, without trying to build himself up to a better paying office. He is experienced, capable, sound, energetic. He knows his way around in the Legislature, and gets things done. Also, he knows the value of the tax dollar. He does not favor spending the state into hopeless debt, and is pledged against any new or additional taxes. Also, he is pledged against creating any new boards or commissions. He has sponsored some of the most beneficial legislation the state has had in the last six years.

We will need his ability and good judgment in the 53rd Legislature which convenes in January.
