Around The Square

With Mack

J. Frank Norris, militant Baptist minister for nearly half a century, passed to his reward unexpectedly at Jacksonville, Florida, early Wednesday morning, Aug. 20. Mr. Norris would have been 75 years of age next month. He retired as pastor of First Baptist Church Fort Worth, some months ago, because of failing health, though he was attending a youth meeting in Florida at the time of his death and it came as a shock to many thousands of his friends. He became known as "stormy petrel of the pulpit", and at no time in his long career did he ever compromise with sin.

His friends were legion, not only in Fort Worth, Detroit, and many cities in the United States, but in Europe as well. He had his enemies, to be sure. To know him was to like him or despise him, though it may be said to his credit that he was always on the right side of every moral issue.

Fundamentally, we have always agreed with Frank Norris, though there have been times when we could not approve of some of his tactics. This does not necessarily reflect any discredit on the man, for we have recognized him as a strong and courageous individual, and a man of God, though not perfect.

Baptists and others, all over the world, will regret the passing of Rev. J. Frank Norris, and the seeds that his has planted will grow and flourish, even as giant plants, until time shall be no more.

Our water situation is serious, and all of us are more or less worried. Yet we feel that entirely too many "rumors" are floating about. Some of them may border on facts, while others are malicious and idle rumors calculated to hurt. The best we can do right now is to keep our mouths closed and our eyes open. Let us conserve water—not waste it. Our authorities are not to be blamed. They are probably doing the very best they can under the circumstances. They can ration water, but they can not make it rain. So far the rationing has been just and necessary, and we hope this continues.

We may be suffering from one of the worst droughts in the history of the county, but the county is not whipped or seriously crippled. The auction sale this week, according to very reliable information, was one of the best for several months. Many hundreds of cattle were sold and they all brought good prices. And the wonderful part is that many of the cattle were produced right here in Eastland county.

As long as we can produce and raise high grade livestock we have nothing to fear.

As we have said before, and now repeat, Eastland should not be considered in the light of being a great agricultural county. It is not. There are years when we make good crops, and there are years we do not.

We should center our attention on other things such as stock farming, oil, and even manufacturing.

When we go in for those things mentioned above we will have more money and fewer heart-breaks.

Eastland county has some very large payrolls, and one of those days we shall endeavor to show you that Eastland county can grow and prosper even though agriculture was unknown.

Swim Contest Winners Announced By Scout Leaders, At Breckenridge

The North District Swim Meet for Scouts of Eastland and Stephens counties was held Tuesday night with the pool officials at the new Breckenridge pool serving as hosts. Some 100 Scouts and leaders from Eastland, Ranger, Cisco and Breckenridge participated in the meet. There were approximately 150 visitors present at the meet.

In addition to the regular competitive events a canoeing demonstration was put on by Scout Jimmy Dye from Breckenridge and field executive Jim Cooper of Goldthwaite. Ben Sparks of Breckenridge put on a diving demonstration for the event.

Adlai Stevenson Names New Finance Head

By RAYBURN LAHR
MINQUA, Wis., Aug. 21—Gov. Adlai E. Stevenson stuck to his program of recruiting new faces for his presidential campaign team by naming Beardsley Ruml as finance chairman of the Democratic national committee.

He announced the appointment of the business executive and sometime critic of administration policies while saying that he wanted to pick the best man "regardless of whether they are in or out of politics."

Although he has chosen few for key campaign assignments, he said he thinks there are "many competent old line politicians."

The Illinois governor announced from his vacation retreat here that Ruml had accepted the job of campaign fund-raising. Ruml, a New Yorker, was until recently treasurer and chairman of the board of R. H. Macy Co.

Not Cleared with Fitzpatrick
The government said the appointment was not cleared with Paul Fitzpatrick, New York Democratic chairman.

Meanwhile, it was learned that Stevenson will open his presidential campaign with a Labor Day speech in Grand Rapids, Mich. Vincent E. O'Neill, Grand Rapids Democratic and CIO leader, said Wednesday that Stevenson will speak in Grand Rapids before flying on to Detroit for the major Labor Day speech.

Cars Must Pass Test Prior To September 6th

If your car doesn't have that "yellow sticker," better go to a testing station and see what you can do.

It may sound bad, but as a matter of fact it is not to be dreaded as you may think. A few months ago we did some plain and fancy "yelling," but this was before we managed to get a "sticker." The law has been modified to some extent, and a fellow who has a car with brakes, horn and other necessary equipment, has a little to fear. The state is not trying to work an undue hardship on anyone—just trying to keep you from killing or getting killed.

There are a number of official testing stations in Eastland county, and if you wish to continue driving your car, better get the old bus in shape. After September 6th, it will be unlawful to drive a car that does not bear the sticker.

Stage Comedian Arrested On Bigamy Charge

OAKLAND, Calif., Aug. 21 (UP)—The curtain fell Thursday on Francis H. "Ding Dong Daddy" Van Wie's brief career as a burlesque comedian when police led the portly, 66-year-old Romeo off the stage and locked him up on bigamy charges.

The officers said the "Ding Dong Daddy" of the D-Car Line had been wed far more times than he had been divorced. They said he had gone to the altar 16 times.

The romantic lover, who got his nickname by marrying half the women in the block along his San Francisco streetcar line, spent an unromantic night in city jail Wednesday night.

Unsympathetic police officers said he would have to stay there unless he could rake up \$10,000 bail.

The versatile Van Wie was right in the middle of an act at the El Rey Burlesque theater here Wednesday night when two men from the Los Angeles district attorney's office walked in.

They had a warrant for his arrest, based on a complaint by Martha Moyle Van Wie, 67, of Long Beach, Calif. She was the latest woman to step forward and claim to have walked down the aisle with the ex-trolley car conductor.

JOSEPH STALIN WILL ABOLISH POWERFUL PARTY POLITBURO

By Phil Newsum
United Press Foreign Analyst
Russia's Premier Joseph Stalin is abolishing the job on which he rose to power.

After a lapse of 13 years, he has called a meeting of the Communist party Congress on Oct. 5 to consider, among other things, a new constitution which would abolish the all-powerful party Politburo of which he has served as secretary-general since 1922.

So powerful has been the job of Communist party secretary-general that it was not until 1941 that Stalin even bothered to hold public office.

He didn't have to. As secretary general he ruled Russia as well as the Communist party.

Lenin Regretted Move
Nicolai Lenin, patron saint of modern day communism, lived to regret he ever had allowed his ruthless protégé to reach such high estate, but too late. He died before he could, in his own words, "find a way to remove Stalin and find another—more potent, less capricious."

It was as secretary-general that Stalin forced Leon Trotsky into exile.

It was in that same period that Russia set up her collectivization program and engineered a famine in which millions died; that the famous purge trials of army and political leaders were held and that Russia entered into her ill-starred alliance with Germany.

As usual, the Russians have not bothered to explain why the Politburo is being abolished and what, if any, difference there will be between the Politburo and the "Presidium of the Central Committee" which will take its place.

Gorman Youth Is Returned To The Front In Korea

With the 25th Infantry Div. in Korea—Pfc. Herman H. Dupuy, son of Mr. and Mrs. Lee Dupuy, Route 2, Gorman, Texas recently returned to the 25th Division in Korea after a five-day rest and recuperation leave in Japan.

He and hundreds of soldiers from other divisions in Korea, stayed in the finest hotels in Japan and enjoyed many luxuries unobtainable in Korea. The leave is part of the Army's policy to give the fighting soldier a rest from rigors of combat.

Dupuy is serving as a wireman in Battery A of the 8th Field Artillery Battalion.

Higher Retail Milk Prices In Effect In North Texas

DALLAS, Aug. 21 (UP)—Higher retail milk price ceilings went into effect Thursday in 16 North Texas counties.

The Office of Price Stabilization permitted boosts of 4 1/2 to 2 1/2 cents a quart for delivered milk. Distributors may charge 1 1/2 cents more for homogenized milk and 2 1/2 cents for non-homogenized, pasteurized milk.

OPSS said it raised the ceilings after major milk distributors testified that they had raised the price to producers 36 cents a hundred weight for raw milk, bringing the price to dairy farmers in the milk-belt to \$7.04 a hundredweight.

A quart of home-delivered homogenized and pasteurized Grade A milk will cost 27 cents. OPSS said new ceilings for retail stores will be about 1 1/4 cents below delivered prices. Ceilings will be the same for milk in bottles and paper cartons.

OPSS also lifted ceilings on delivered buttermilk from 20 1/2 to 22 cents a quart, on whipping cream from 32 cents to 35 cents a half-pint, and on coffee cream from 16 to 17 cents a half-pint.

The counties affected by the boost are Cooke, Collin, Dallas, Delta, Denton, Ellis, Fannin, Grayson, Hopkins, Hunt, Johnson, Kaufman, Lamar, Parker, Rockwall and Tarrant.

Eastland Cubs To Play Ranger Juniors Tonite

The Eastland Cubs (12-15 year old boys) will be in Ranger tonight (Thursday) for a game with the Ranger Juniors. This should be a pretty fair game, stated J. R. Boggus, Cub manager, this morning.

The boys have been training for several weeks and have made considerable progress. The game will be called promptly at 8 p.m. and you are invited to be present. No admission charge will be made, though the boys will take a collection at the game.

EASTLAND WATER SUPPLY GOOD FOR ABOUT 20 DAYS

That Eastland's water situation is very serious, no one doubts, though there is probably no cause for alarm.

Very few, if any one, ever picture "dry" in Texas, and though the Eastland lake may go completely dry, Eastland people will still drink water. Wild rumors have been floating around during the past few days, but most of them are unfounded, even though the situation is acute.

In conversation with City Manager Heck early today we gathered considerable information. Here are the facts, which we pass on to you:

We are now using water from the Ringling Lake, and while it tastes pretty well, it requires considerable treating. The supply at this lake will be consumed in another ten day. The big lake still has some water, and by changing the pump to the deepest part of the channel, we have what has been estimated at about 10 or 12 days additional supply of pretty fair water.

The new wells drilled a few weeks ago and located just below the spillway, are producing about 50,000 gallons of good water each day. Just how long this will continue can not be said. A new well on the west side of the lake has just been completed, and while it produces about 10,000 gallons of water daily, it is not fit for human consumption. A second well nearby has been abandoned at about 36 feet. Too much lime, salt and other minerals in this immediate section to supply water which may be used for household purposes.

There is the picture in a nutshell; and here is what Mr. Heck and others are doing.

They have visited Thurber, and we can get plenty good water there. Of course it will have to be shipped and this would be necessary, be an added expense. The T&P railroad is cooperating to the best of its ability, and will if necessary build two additional

Will Stand Firm On Prisoner Issue

By Dayton Moore
WASHINGTON, Aug. 21 (UP)—President Truman has assured diplomatic officials that the United States will not weaken its Korean truce terms in order to win a peace settlement before the November election, it was learned Thursday.

Authoritative sources said Mr. Truman privately communicated the promise to key officials some time ago, in order to lay at rest any fears that political pressures might induce the Democratic administration to "buy" an armistice.

Mr. Truman seized an opportunity Wednesday to give public notice to the world—and particularly to Communist leaders—that this country is standing firm on the prisoner of war issue that has deadlocked the Korean truce talks.

In an open letter to an Army captain in Korea, Mr. Truman declared anew that the United States will not force any prisoner to return to Communist rule against their will.

About 70,000 of the 170,000 prisoners of war held by United Nations forces have balked at going home.

Mr. Truman said there are "compelling and humanitarian and moral reasons" for the U. S. position, and added:

"We must not use bayonets to force these prisoners to return to slavery and almost certain death at the hands of the Communists."

He made his "no compromise" statement in a letter to Capt. Charles G. Ewing, of the Army's 704th counter intelligence detachment in Korea, who has been interviewing prisoners resisting repatriation.

Ewing had written to Mr. Truman, expressing hope that—"despite all pressure from defeatists"—the UN would stand fast on the repatriation issue.

5 Girls Born To Poverty-Stricken Rural Couple

SÃO PAULO, Brazil, Aug. 21 (UP)—Girl quintuplets born to a poverty-stricken rural couple were reported progressing satisfactorily Thursday in an incubator at the Sao Paulo maternity hospital.

The five girls were born Tuesday night to Mrs. Maria Aparecida Albano, 38, wife of Jose Albano, a Negro odd job worker. They became the third set of surviving quintuplets known in modern times.

The governor of the state of Sao Paulo ordered the state treasury to extend financial aid to the family, which includes two other children, and advised the state's welfare service to give them all possible help.

Doctors at the hospital, where the babies were taken after being delivered with the help of a neighboring midwife, said they appeared to be in good health and had a good chance of survival.

Texas Oilman Buys Magazine

NEW YORK, Aug. 21 (UP)—William Bradford Huie, editor and owner of the American Mercury magazine, announced Thursday that he has sold ownership of the magazine to a group headed by Russell Ma Guire, a Texas oil producer of Greenwich, Conn.

Huie said the sale was made to provide funds for further development of the magazine which will continue under his editorship.

Farm Implement Workers Cause New Labor Crisis

By United Press
A strike by some 25,000 International Harvester Co. farm implement workers brought a new crisis Thursday in the nation's already turbulent labor scene.

And the possibility of a crippling strike by 100,000 non-ferrous metal workers became clear after the International Union of Mine, Mill and Smelter Workers asked its members for a strike vote.

The Independent Farm Equipment Workers Union called a strike against 12 Harvester plants in three states after eleventh-hour negotiations for a new work contract broke down. The strike began at 12:01 a.m. Thursday.

Some Pickets Appear
Pickets were on the scene at the Harvester McCormick works in Chicago a few minutes after the strike was called.

Cement Factory Target For Fighter-Bombers

SECUL, Korea, Aug. 21 (UP)—More than 100 United Nations planes battered a huge Communist cement factory with bombs, bullets and napalm Thursday in the second day of stepped-up air attacks against vital Red troop, supply and industrial centers.

Fighter-bombers and B-26 light bombers destroyed 63 buildings, damaged 29 more and left the entire area a mass of flames and smoke.

F-84 Thunderjets, F-80 Shooting Star jets, propeller-driven F-51 Mustangs and twin-engined B-26s zoomed down on the target area at OSU, southeast of Sariwon, with bombs, rockets, machineguns and deadly napalm, the jellied gasoline whose use the Communist radio Pyongyang deplored this week as "barbaric."

French Beauty Shows Too Much

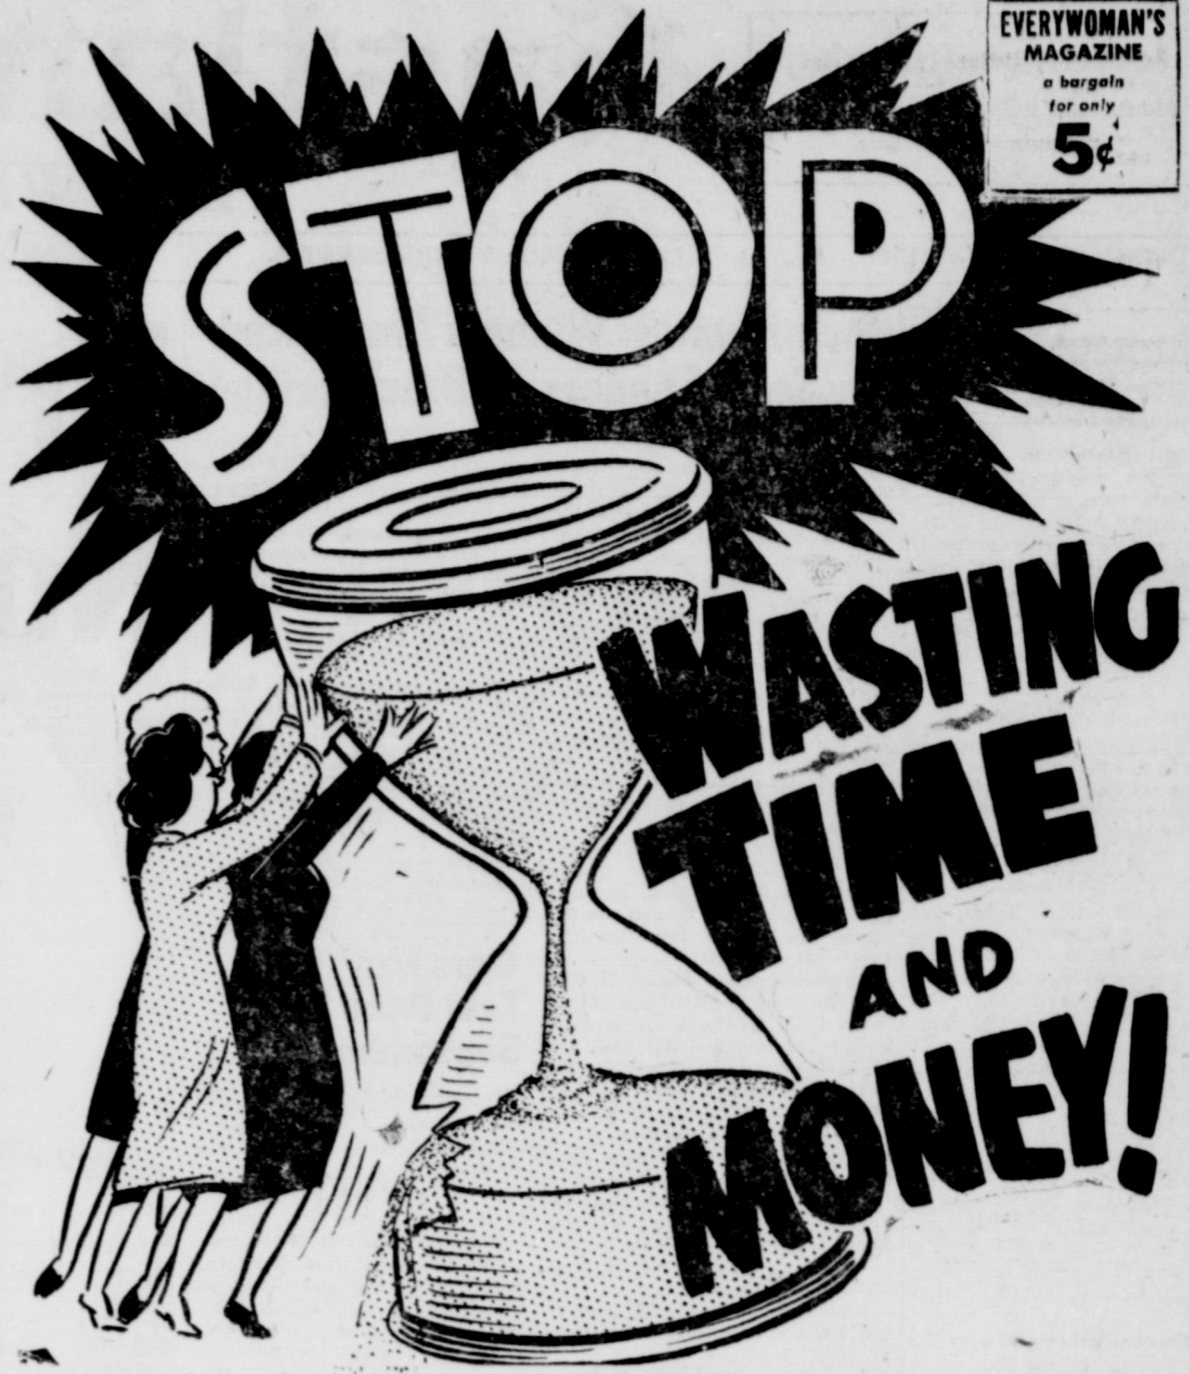

CANNES, France, Aug. 21 (UP)—Miss Paris of 1952, Jenny Chateau, promised Thursday to wear a less revealing Bikini bathing suit.

After she was arrested for showing a little too much, Miss Chateau explained she designed the suit herself "to please my fiancé." She was let off with a lecture.

NOTICE OF SHERIFF'S SALE STATE OF TEXAS COUNTY OF EASTLAND

NOTICE IS HEREBY GIVEN that by virtue of an Order of Sale issued out of the 91st District Court of Eastland County, Texas, on a judgment rendered in said court on the 12th day of June, 1952, in favor of Kay B. Fuller and against Mid-Continent Corporation of New York, Oil Exploration in the case of Kay B. Fuller against Mid-Continent Corporation of New York, Oil Exploration, No. 21,269, in such court, for the sum of \$8,080.37 and costs of suit, I did on the 10th day of July, 1952, at 4:25 o'clock p.m., levy upon the following oil and gas leasehold estate and all personal property used or obtained in connection therewith by covering the following described land situated in Eastland County, Texas, to-wit:

Being all of the oil and gas leasehold estate, together with all the personal property used or obtained in connection therewith, under and by virtue of original oil and gas lease dated March 20, 1950, executed by W. M. Isenhower, lessor, in favor of W. Varner, lessee, recorded in Vol. 297, page 416 of the Deed Records of Callahan County, Texas, in so far as said lease covers all that part of the NW 1/4 of Survey No. 4, GC & SF RR Co. Survey lying within the boundary of Eastland County, Texas, which is approximately the E. 18 acres of the 160 acres embraced in said NW 1/4 of said Survey No. 4, GC & SF RR Co. Survey situated in Callahan County, Texas, and covered by said original lease, and levied upon as the property of Mid-Continent Corporation of New York, Oil Exploration, and that on the first Tuesday in September, 1952, the same being the 2nd day of said month, at the Court House door of Eastland County, at Eastland, Texas, between the hours of 10 o'clock a.m. and 4 o'clock p.m., by virtue of said levy and said Order of Sale, I will offer for sale, and sell at public auction, for cash, to the highest bidder, all of the right, title, and interest in and to said property above described.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in the Eastland Telegram, a newspaper published in Eastland County, Texas.
 Witness my hand on this, the 10th day of July, A.D. 1952.

CHAMBERS — cooks while the cook's away

We BOTH work...

"My husband and I both work and we're so glad we bought a Chambers Range. Cooking in the Thermowell means so much to us. It's grand to be able to put a complete dinner in our Chambers in the morning... burn the gas... turn it off... leave the house for the entire day and forget it. When we return home in the evening a delicious, piping hot meal... all cooked and ready to eat... is waiting for us."

Chambers Available in Six Beautiful Colors!

15.00 DELIVERS & INSTALS
36 MONTHS To Pay Balance

ASK YOURSELF THESE QUESTIONS— Can you: Bake and "cook" with the gas turned off?... Broil meats on top of your range?... Cook a complete dinner and be gone all day?... Bake in two ovens at the same time?... Save \$176 yearly? If you can't, then you need a Chambers Range!

Michial Frances Morton was born at 4 a. m. August 20th to Mr. and Mrs. Duke O. Morton of Snyder formerly of Eastland. He weighed seven pounds and eight ounces and was born in a Colorado City hospital.

He has an older brother Merideth Odel 32 months old. Grandparents of the children are Mr. and Mrs. John H. Terrell of Snyder and Rev. and Mrs. W. B. Morton of Coleman.

Both mother and babe are doing fine and will be returned to their home Friday.

ATTEND CHURCH SUNDAY

Artistic Pose Not Appreciated

Two Belmont women said Thursday they were painting a landscape Wednesday when a man drove up to the hillside, stripped to the skin and struck an artistic pose.

Mrs. Hazel N. Pugh and Mrs. Margaret Hodgson ignored the uninvited model and concentrated on the landscape. After 10 minutes, he put on his clothes and drove off.

STARTS OUT YOUNG

GREENSBORO, N. C., Aug. 21 (UP)—Police Thursday charged an 11-year-old boy with stealing a truck in Danville, Va., and driving it here, although he barely could reach the foot pedals. Authorities were alerted by a motorist who said the truck seemed to have no driver.

Mr. and Mrs. H. T. Weaver were visiting with relatives and friends in De Leon, Wednesday afternoon.

BIRTHDAY FOR BARUCH—Bernard M. Baruch, right, celebrated his 82nd birthday August 19 at Dyerville, Calif. in the heart of the Redwood Empire. Gov. Earl Warren, left, dedicated a bench in Founders Grove, on which the two are sitting, in honor of the Elder Statesman. (NEA Telephoto).

Brings World's Record Price

Dr. Armand Hammer of Shadow Isle Farms, Red Bank, New Jersey, announces the sale of a one-half interest in the 1948 International grand champion Aberdeen-Angus bull, Prince Sunbeam 249th, at the world's record price of \$100,000 to Marchison and Ljungdahl of Burnet, Texas. This outstanding bull is one of six living International grand champion Angus bulls to go into the state of Texas.

Under the terms of sale, the bull will be used six months in the Texas herd and six months at Shadow Isle in New Jersey. He will be flown by air to his new home in Texas in September.

As a calf, this bull was sold to the Ellerslie herd in Virginia at the record price of \$6,000, and then this herd was dispersed in 1949, he was bought Dr. Hammer for the then world's record price at auction of \$51,000. In the two years he has been in Shadow Isle Farms, he has sired over \$250,000 worth of cattle. He is at present seven years old.

The deal was consummated August 18 by T. P. Marchison, prominent Texas banker, oil man and rancher of San Antonio, Texas.

STAGE—

(Continued From Page 1)

She said she had married Van Wie unaware that he had made 15 previous marriages.

The latest marriage came only a week after the clunky lover was locked out of a Los Angeles apartment by wife No. 15 after she also learned of his matrimonial past.

Van Wie has been headlining the playbill at the El Rey here all week, relating his marital experiences to burlesque fans.

Next week he was to star in a "Ragtime Wedding" act in which he would be married on the stage three times a day and four times on Saturday.

"I'll fight it to the bitter end," Van Wie managed to burst out as he was led off the stage Wednesday night. His pronouncement was roundly applauded by the theater's enthusiastic patrons.

PERSONALS

Mr. and Mrs. Charlie Dean and children, Mike and Melinda of Athens are the guests here in the home of Mrs. Dean's parents, Mr. and Mrs. Frank Day.

Eugene Green is returning to his home today after having undergone surgery at the Eastland Memorial hospital.

EASTLAND—

switches. One will be near Straw, which will make it possible to load water by gravity force. The second will be in Eastland, near the haydite plant, where the water will be unloaded. It will go into the treating plant and on into the city mains.

Today Mr. Heck is examining wells both north and south of town. Both wells produce good water, and this water could be made available though the supply is limited.

Texas Electric Service Co., and Lone Star Gas Co., are aiding and Eastland may get from 50,000 to 100,000 gallons daily from the Texas Electric Co. Lake. We can borrow a gas line from the Lone Star, but it will require a little time. Sixteen gas customers are served on the line and it would be necessary to arrange a butane supply for them before

we could take over the line. May be done, however.

Olden has good water though the supply has been found to be limited, and the city would not be justified to buy a 3 1/2 mile water line for the amount of water which might be obtained.

In all the picture is not bright, but we will drink water and continue to live, and—

Maybe it will rain pretty soon.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headache and dizziness may be the harbinger of kidney trouble. Doctors say most kidney function is very important to good health. When some overlying condition, such as stress and strain, causes the kidney function to slow down, nagging backache, dizziness, headache, irritability, loss of pep and energy, loss of appetite, and other symptoms may appear. The best remedy is to get the kidneys back into normal action. This is done by using a special kidney medicine. It is called Dr. Pepper's Kidney Pills. It is a natural, non-toxic, and safe medicine. It is the only kidney medicine that has been tested and approved by the U. S. Food and Drug Administration. It is the only kidney medicine that has been tested and approved by the U. S. Short Course In Turkey Growing Be Hed Sept.

COLLEGE STATION, Aug.—Sam A. Moore, coordinator for the National Turkey Improvement Plan, will be one of the principal speakers at the five day Turkey Short Course to be held at Texas A. and M. College Sept. 8-12.

T. A. Hensarling, executive secretary, Texas Poultry Improvement Association, Stephenville, will also be a featured out of town speaker. Members of the Poultry Department and pathologists from the School of Veterinary School will round out the 20-man staff to speak during the short course, Prof. E. D. Parnell, in charge of the course, says. The course is planned to train

official flock selecting agents for the national turkey plan. Most of those enrolling in the course will be from Texas turkey breeding farms and hatcheries, although inquiries concerning the course have been received from Iowa, Louisiana and Oklahoma.

This annual training school is sponsored each year by the Poultry Department of which J. H. Quisenberry is head.

"ELECTRIC SERVICE is the BIGGEST BARGAIN IN YOUR HOME!"

... and especially right now ... when electricity is keeping you cool and comfortable in spite of hot weather ... when electric refrigerators and home freezers are keeping your foods fresh and wholesome. With air conditioners, fans and coolers running at full speed around the clock ... with refrigerators and freezers having more work to do ... and other electric appliances performing their daily duties at the same time ... you can realize what an everyday bargain electric service really is. It's truly the biggest bargain in your home.

Zoning ordinances, restrictive covenants limit use of property

Ownership of property does not carry with it the right of unlimited use of the premises. Certain restrictions upon the use of real estate have been handed down to us through the ages. These restrictions, relatively small in number, exist by reason of custom. The prime example of such a restriction is that a person cannot maintain a nuisance upon his premises.

With the growth of cities and the increasing importance and value of real estate, it became important to change and add to these age old restrictions. It was found necessary that certain operations on real estate that would be regarded as nuisances in a residential area must have a place in the city where they would not be nuisances. At the same time, they should be prohibited from existing in a locality where they would not only be a nuisance but where they also would detract from the value of the other property in the neighborhood.

This change and addition has been accomplished largely by two methods: (1) Zoning and other Statutes and Ordinances and (2) Restrictive Covenants. The latter are usually placed upon a tract of land by the person who is subdividing and developing it as an addition to the city. It is important for the house buyer to find out exactly how these two types of restrictions affect his property.

What zoning ordinances are in effect upon his property and the property in the neighborhood? What restrictive covenants are in force in the subdivision of which his land is a part? If the buyer doesn't have the answer to these questions before he signs the contract of sale, the contract should contain a provision giving him the right to discover the answer and decide whether he wants the property in view of his discovery. An illustration may serve to emphasize the importance of zoning ordinances and restrictive covenants.

Jones moves into his new house and wants Uncle John to live with him. In order to persuade Uncle John, Jones commences building an addition to the house in the form of a bedroom and kitchenette. An enterprising neighbor soon informs Jones that he is violating the restrictive covenants of the subdivision by placing the addition too close to the property line. Jones ignores his neighbor and a city inspector soon appears, who not only

verifies the neighbor's assertion, but also tells Jones that his block is zoned for single residential dwellings. Also the restrictive covenants have the same provision. Jones retreats until he sees a store building being erected on a corner lot almost directly across the street from his property. He proceeds to give the inspector a piece of his mind about commercial enterprises ruining a nice residential area. Then Jones discovers that the lot in question is zoned for business. Furthermore, since it is not within the same subdivision as his house, it is not subject to the covenant restricting the land to single residential dwellings.

4,000 Entries Livestock Show

More than 4,000 livestock entries are expected for the 1952 through 19, Livestock Manager Ray W. Wilson has predicted.

Entries close Sept. 8 for beef and dairy cattle, swine, sheep, and goats and the Junior Livestock Show. Deadline for horse show entries is Sept. 22.

The livestock and agriculture program for the fair is shaping up as a giant reflection of Texas' two-billion-dollar farm and ranch empire, Wilson said. Mammoth scope of the great panorama is indicated by:

1. Interest being shown in the Pan-American Helstein Show, Oct. 16-17; more than 15 states with 250 head of the famous black-and-white dairy breed are expected to be represented.

2. The colorful "Story Book of Texas Agriculture," which presents agriculture as glamorously as a swank store does a milk coat.

3. Farm implement displays by 14 different manufacturers and dealers, covering 100,000 square feet of outdoor exhibit space.

4. Dozens of special days and events honoring livestock, poultry, agriculture and youth organizations, including Rural Youth Lay, Oct. 4, when 100,000 farm and ranch kids are expected to be guests of the fair.

5. The 76 judging events for livestock and poultry, and the total of \$80,224 in premiums being offered, plus literally thou-

sands of ribbons and other awards. Twenty-seven breeds of beef and dairy cattle, horses, swine, sheep and goats are featured.

6. Exhibits such as those of the King Ranch and the Texas Research Foundation, both of which will show herds of Santa Gertrudis

cattle, and the one depicting the growth of today's high broiler chicken industry.

It all adds up to the most comprehensive and best-balanced livestock agriculture portrayal the fair has ever had, Wilson said.

Other features of the 1952 fair include the Dean Martin Jerry Lewis show, Ice Cycles of 1953, the Auto Swenson Thrillride, the Variety Club Circus, an hour-long version of "Show Boat" and the million-dollar Midway, plus hundreds of exhibits and special events.

Girls Rated Best Scholars

AUSTIN, Texas, Aug. —Best scholars—as a group—at the University of Texas are the girls who live in "co-op" houses, low-cost living units where students do their own cooking and housekeeping.

A scholastic report for student organizations maintaining houses places the all-girls' co-op average at the top of a list that includes the all-sorority average, all-women's average, all-men's co-op average, all-university average, all-fraternity average and all-men's average.

However, China House for men won top individual honors with a 2,009 or "B" average. Grades are assessed point values of 3 points for a semester hour of "A", 2 points for "B" and 1 point for "C". Tops among women's residences was Pi Beta Phi sorority with 1,802 points.

Women took first, second and third places in the scholastic ranking. Following the all-girls co-op average of 1,683 points were the all-sorority average of 1,683 points and all-women's average of 1,600 points.

The all-men's co-op average of 1,454 points topped the all-university average of 1,415 points. The all-fraternity average of 1,353 points. The all-fraternity average of 1,353 points was above the all-men's average of 1,333 points.

Any organization whose scholastic average for an academic year is below 1,000 (or "C") is subject to suspension or any other penalty assessed by the committee or student organizations maintaining houses. Organizations with scholastic averages between 1,250 and 1,000 points are subject to restrictions regarding pledging, cooperative probation, maintenance of membership and social activities.

Success of cooperative living plans, underscored by the scholastic averages, will be emphasized again this fall with opening of six new low-cost housing units for women. Five existing co-ops will move from their present residences to the new quarters, while a new group will occupy the sixth. Two women's co-ops will continue operation in their present houses.

Seven co-ops for men are in operation.

"Congratulations" Gets Man Suspended Sentence

DETROIT, Aug. 21 —Frank Dentzler owed his freedom Thursday to his knowledge of current events.

Dentzler, 57, was the first defendant brought before newly-appointed Recorder's Judge John A. Ricca.

"Congratulations on your new job, your honor," said Dentzler, facing the judge on a drunkenness charge.

Ricca, seeming pleased, noted this was Dentzler's first appearance in court in three years.

"Sentence suspended," he said. "And stay out of here for at least another three years."

air attacks against the Communists, who in the same Pyongyang broadcast made it clear that the repeated Allied attacks are beginning to hurt.

Allied planes Tuesday destroyed three Red MIG-15 jet planes and damaged two more, heavily damaged a troop and supply center at Namyang and blasted two targets in a four-hour night raid on Pyongyang, capital of North Korea.

Thirty-eight Air Force B-29 Superforts from Okinawa hit Red manufacturing plants, troops and supply dumps in the Pyongyang raid.

Communist anti-aircraft fire was heavy but it stopped the B-29s flew over the city to drop more than 350 tons of bombs. Night fighters described as "not very aggressive," made only one firing pass during the four-hour strike. All the Superforts returned safely to base.

Had Been Warned

Civilians living in the Pyongyang area had been warned to leave the previous night by leaflets dropped by other B-29's.
