SOCIALISM

Brother . . . You Don't Know The Helf Of It!

Let's put away all the ten-dollar words and call a spade a spade. Socialism-in plain English-is nothing more nor less than political panagement of the lives-the total lives-of people.

Somewhere back in history-around 1776-it seems we polished up some muskets, rammed 'em with gunpowder, and stopped the first attempt to manage our lives. And again in 1917. And again in 1941. What manner of people are we who will fight at the drop of a hal

ners in our midst go on and on-plotting and planning more control of our Business machine-without which this nation would swiftly los its power and its greatness. Step by step-the burden of taxes grows heavier-stifling Busi

ess growth and progress-undermining our capacity to create jobs. More and more, restriction follows restriction. More and more political management of our lives-our total lives-makes a farce of lemocracy-the last genuine democracy on earth.

That-Mr. and Mrs. U. S. Citizen-by whatever name you choose to eall it-is Socialism in the making!

That is the same bag of political tricks that has finally made the courageous, fighting people of England victims of a busted economy. Victims-finally of political management of Business.

Under political management last year in England, Civil Aviation lost a hundred million dollars, Coal lost a hundred and eight million dollars, Railroads lost an estimated hundred million dollars.

And who pays the bill? The people, of course-in taxes that kill all initiative-all desire even to work for more than the bare necessi-

Austerity-they call it. The other word for it is starvation. And what is the prospect of relief? None-as long as Business remains under control of politicians who know nothing of Business opera-

This is Socialism in England-in action! This is political managenent in action! Management that has driven prices up and the standard of living down, turned profits into losses, lowered production, reduced the quality of goods and services. Management that will finally run the total lives of people at a loss-a loss of pride, of dignity, of freedom, of all that we hold sacred.

OLD STOVE ROUND-UP

NOW! Meals by clock control

Set the clock control and temperature control, your Gas range turns itself on, maintains exact temperature, turns itself off. Imagine this instead of your old-range when you're busy!

NOW! Smokeless broiling

Melted fat drops out of high-heat zone into broiler pan. Normal surface smoke and grease-laden vapors are consumed by live Gas flame. No range but a Gas range broils without smoking!

NOW! Absent cooking

New burners bring foods to a boil in two minutes — or less. Set timer. Turn to simmer. Leave. Return when timer signals. Ends pot watching and foods positively will not scorch!

SEE WHAT A WIDE AND WONDERFUL CHOICE there is in the new Gas, most-modern-of-all, ranges! Why, you can have as many as 10 cooking units; six burners, two ovens and two broilers. You can bake at two different heats . . . and, broil in both broilers at the same time.

NOTE THE WAIST-HIGH BROILER. Look, too, at the glass window in the oven door. Gas ovens are fresh air circulated for evenest baking...heavily insulated for cooler kitchens. So... IN with the automatic! Values were never better. Go to the Old Stove Round-Up Sale, today.

in 24 hours you can have the heart of a modern kitchen!

You Don't Need Much Advice-

.... but it is valuable at least twice in your insurance experience. First is, when you get ready to buy insurance, don't select just any kind of an agent or any kind of policy. There's a big difference. Second is, when you have a loss would you rather have your friend at home with year's of insurance experience or some one living in Dallas, St. Louis or elsewhere, to handle your claim? There's another big difference.
