To add to all this, we have chosen a president who says we

are to have no more tax raises, barring an all-out war, and maybe not then. When we settle down to work, and everybody does his part, it may not be long until we may be allowed to take all our check home. Of course this will not be possible until we get some of our debts paid, but Ike has told us that he will do his best to ease down on this withholding tax.

Also Ike, being a good "states righter", is going to get our tide-lands back, which means we won't

1953 CHRYSLER NEW YORKER CLUB COUPE

Smart new lines mark the 1953 Chrysler New Yorker club coupe. New Yorker models are offered in a choice of 6-passenger sedan, club coupe, special Newport club coupe, Town and Country wagon and 8-passenger sedan on a wheelbase of 125 1/2 inches. Powered by the Chrysler 180-horsepower FirePower V-8 engine, they feature power brakes and Overflow shock absorbers as standard equipment. They are available with full-time power steering as optional equipment.

ever have to take up collection to pay our school teachers. But all this good stuff can not be realized over night. It will take time, and we know it.

We are not going to rush him, for we think he will do his very best, and at the earliest date possible.

Another thing we must mention and that is Ike's stand on this Korean business. Nobody seems to have started it, according to Harry, and no war has been declared. Yet many thousands of innocent American boys paid with their lives for all this folly. It may have tended to give us a kind of blood-bought prosperity over here, but the whole thing is

wrong. Ike is going over there in a few days, and he may soon return some startling facts. Yes, Ike is a military man—the world's very best, and is the only living man that Joe Stalin fears. Ike will stop that wholesale murder of innocent boys over there, and Uncle Joe had better agree with him. If he doesn't Ike may give him more war than three Russias and fourteen satellites can take care of. We do not want war. Ike does not, but if it must come America has one advantage—America has for our commander-in-chief, the world's greatest military leader. He is more than liked—he is internationally loved.

And when he appoints his cabinet, we have an idea that he can tell the difference between an honest American and a Communist.

Hunters Urged To Check Fire

The Executive Secretary of the Game and Fish Commission in Austin said cooperation of hunters and outdoorsmen generally is needed to avert a catastrophe to woods and forest from fire.

He said the woods and fields in most of the state have been reduced to extreme inflammability by the prolonged drought. He added that some fires already have caused great property loss as well as tragic loss to wildlife.

The Executive Secretary quoted a letter from the Texas Forest Service to emphasize his appeal. The letter, signed by D. A. Anderson, head of the Research & Education Department, said in part:

"Of increasing importance are the fires attributed to hunters. The fires charged to hunters are no doubt caused through negligence but nonetheless they are increasing our fire problem.

"I felt that you could possibly assist us immeasurably by calling attention to hunters to the condition which presently prevails in the East Texas area and asking them to take every possible precaution in preventing fires. Not only are the forest resources at stake, but the wildlife as well.

"I assure you that any help you can give will be sincerely appreciated. It is urgent of course that action be taken as once since our problem is now critical."

The executive secretary suggested that Texans in the field can prove their understanding of the peril to conservation by not only preventing fires but by offering to help control any fires they may encounter.

An outbreak of typhus in Naples during 1943-44 was stopped by spraying with DDT to kill disease-carrying lice. It was the first time in history, says the National Geographic Society, that such an epidemic was thus halted.

I'M GROWING AND GAINING on PURINA!

Forty-one Hereford and mixed steers, weighing in at 450 pounds each, have been placed in a special pen by the Wilson Feed & Seed Company, local Purina dealers, to show how steers can be fed more profitably in the dry lot.

The steers will be fed for 100 days on the new ration, "Fat Calf Chow." During the time this feeding demonstration is being conducted, cattlemen and others interested in feeding steers, are being invited to visit the Wilson Feed & Seed store, to watch these steers grow.
