

that a wealthy convict in the State Prison at Huntsville, has made a 2 o'clock at the Thomas Funeral cash gift to a young man recently Home in Cisco. parole from the prison. This gift was \$19,000, all in cash. When asked about the deal, the donor J. C. Henderson, stated that he had taken a liking to the boy during his few months stay in prison, and contended that he had never had a chance.

Henderson still believes in the ried, bought a new car and is takg life in a happy go-easy fash-

'this would indicate that all prisoners are not hardened convicts and in this case this might apply to both Henderson and the lad.

It seems at this time that the Rosenbergs will be executed on the 18th of this month, for Julius and Rosenberg all but sealed their fate this week when they refused to talk.

They are charged with conspiring to betray the Government's Atom Bomb secrets to Soviet Russia, and when sentenced the Judge told them that such was worse than

of Bastland, has made consideration words and acts are sufficient to prove them "unfriendly" to the United States. Yet on the other hand we wonder if death is the proper punishment. We can take life, but we can't give it. Something to think about.

Our president sees no beginning of a general war, and his words broadcast Wednesdey evening, were quite encouraging. If spoken by any other individual, we might have taken them with a grain of salt but with Fig. grain of salt, but with Eisenhower

Eisenhower is an Intelligent man, a congervative toan, and a total value of production of the year. Although it was after the trained man. He is one of the He understands government and he knows people — even the Russians. He does not speak just to to mislead people. Therefore we accept his statements. He is human, and could be wrong, but his opin-ions should be considered as worth-

At this time the best thing we can do is to be quiet, cooperate with our leader, and hope for the Windfohr wrote,

The Democratic party is not dead, and a group in Texas known as the "loyal" group are trying to stage some kind of a come-back. We would if the is the proper time for such work, for we do not have sufficient harmony. Last year a-bout three-fourths of the Demo-crats in Texas, didn't consider them loyal at all. In fact with their

votes they said so.

We had too much Trumanism and not enough democracy, and m down and out. This was the will not be necessary, but If it is, you may rest assured that the Regular group will settle for nothing less than the restoration of old time Jeffersonian democracy. They

don't propose to have a few socialistic planks in the platform.

They insist that we shall have a 100 per cent democracy—the ekind that has made America the great nation she is today. We don't care to apologize for our leaders, and we are not going

to make an effort to cover up their stripes. A good Democrat won't have need for white-wash. We want those who have stood the acid test and came out just as clean as a hound's tooth.

A good democrat will not put party above principle, yet we know people in this state who scratched out the name of Eisenhower, when they had to hold their noses every time the name of Truman was mentioned. Such we feel, was very poor judgment.

Any way the Lord seemed to lead several hundred thousand Texlead several hundred thousand Texas voters to vote as they did. Yes, the Democratic party will rise again, bigger and better than ever before yet we plan to clean it up before we put it out on display. People today are keen observers and a bag of corrupt practices covered by a little white-wash is not going to mislead them.

It hasn't been too many years since Republicans suffered a similar experience. Administrations need an occasional change — that

need an occasional change - that keeps all parties straight.

Mrs. Rutledge Will Be Buried **Today In Cisco**

Funeral services for Mrs. Annie B. Rutledge, 73-year old widow of the late Fred Rutledge, late prominent Mason and Shriner, will be held this afternoon at

WEST TEXANS

Oil accounts for about \$1.3 billion or about 54 per cent of the oil wells, farms and ranches of West Texas, R. F. Windfohr, president of the Texas Mid-Con-tinent Oil and Gas Association, writes in the current issue of West Texas Today, magazine of the West Texas Chamber of

Commerce, rock of the region's economy,

The regional chamber of commerce reported that West Texas production put nearly \$60 million into the state treasury 1952 and paid \$162,500,000

royalty owners. Production of the entire 132-county area totaled 520,220,214

barrels. Gross market value was \$1.3 billion, computed at average price of \$2.50 per barrel. The state production tax is 4.6 per

Because it produces such a large part of the region's wealth all West Texas businessmen, what ever their line, have a direct re-lationship with activities of the pc roleum industry, Windfohr declared. In the past 25 years petroleum reserves, production and service facilities have been built up in West Texas to sustain for many years to come a large part of the gains which have been made in West Texas production

and business activity, he said.
"However," he added, "there is considerable uneasiness in the industry today about the prospects for continued expansion the rates enjoyed in the past de-

The oil industry leader made these other comments:

There seems to be no shortage of optimism or ingenuity among West Texans but some economic factors over which they have no control are disturbing oil men.

The discovery of oil-recervesthe basis of the whole operation - requires tremendous investments of capital with the foregone expectation that much of it will be lost in dry holes. In the West Texas Chamber of Commerce territory there were about or a total of more than 50 mil-lion feet of hole. Probably some-thing like a half billion dollars was required for this effort and

ment wound up in dry holes. to most West Texans that the industry is planning some

. . . The auto family had a casualty toll of two million. Deaths totaled 37,600. Speed killed 13,430 and injured 600, 000 more. Drivers under 25 had 24% of the fatal accidents but constituted only 15% of the total drivers. Statistics show that of every car owner who had one or more accidents in 1952 would decrease that number by one, car insurance would be cut in half in 1954. Let's all try it.

PEACE PROGRAM: A program the world by President Eisenhower in his recent address before celebration. American newspaper editors. The Nearly a thousand Texans now President spoke as the leader of living in Washington were on the nation-not as the leader of a hand. political party. He looked for ways of getting out of our difficultiesnot for pointless arguments about how we got into them. He stressed the basic principles that unite Americans-not the partisan differences that divide them.

As your Senator - as an Am erican - I support that kind of program. I am ready at any time to do whatever I can to help the President carry it out.

FLOOD CONTROL: Texas flood control projects are threatened with drastic stretch-outs. Heavy cuts in appropriations are suggested in the revised budget for flood control and rivers and harbors, presented to Congress last week

Suggested appropriation for the Ballas floodway is slashed from \$2,900,000 to \$750,000, that for the Fort Worth floodway from \$1,-550,000 to \$1,000,000. These projects are designed to prevent flooding of the Fort Worth-Dallas area by the Trinity River. The cuts, if put into effect, will simply delay completion of the overall project. That delay could be disastrous. Who knows when the Trinity will flood again?

TRANSIST-EAR FOR HARD OF HEARING

Here is the world's first ALL-TRANSISTOR hearing aidfirst consumer product to use the amazing transistor to full advantage.

This instrument, operated entirely by a single "energy capsule", no larger than a dime and only a trifle thicker, uses transistors to eliminate all vacuum tubes and bulky batteries. It is hardly larger than a cigarette lighter-weighs only 21/2 ounces or concealed in a woman's hair. Its efficiency brings 75% reduction in operating costs.

This revolutionary MAICO-TRANSIST-EAR is now on dis-play at our office. Stop in for a personal demonstration, or write today for FREE booklet, "Facts About Transistor Hear-ing Aids." This booklet may save you many dollars and guide you to the best hearing help. Send for it by using this coupon.

The revised budget cuts out a together \$975,000 for the Galves ton seawall. It would reduce th appropriation for the Garza-Little Elm Reservoir from \$4,935,000 to \$3,635,000. It proposes an appropriation of \$7,265,000 for the Texarkana Reservoir, compared with \$8,565,000 in the original budget.

POSTMASTER EXAMS: Postmaster vacancies in 80 Texas towns and cities have been nounced. There may be more come. All eligible registers were terminated when the Civil Service Commission, at the request of the new Postmaster General, "raised standards" for postmasters.

I wrote the Postmaster Gener-

al to ask (1) if postmasterships are to be denied because of poli tical affiliations to persons who have passed Civil Service examinations recently but whose appoint ments have yet to be confirmed, and (2) if postal appointments are to be removed from Civil Service.

The Deputy Postmaster General replied that "No one is being denied opportunity to compete for a postmastership because of politic-al affiliations." He said standards sition of postmaster is much more important than has been generally recognized." It is interesting that the Republicans didn't recognize the importance of postmasters until they started making the appointments. He also wrote: "There is no intention of removing from office any of the postmasters appointed during the previous administration if they are now performing and continue to perform a visit, among them Mrs. Hampton atisfactory service."

sident and Mrs. Eisenhower were W. M. Murphy, Sr., of Victoria, and Mrs. Emmett Wallace of Bryciety "brunch" last Sunday. We felt it highly appropriate that our Texas League of Women oVters for real peace was presented to first native Texan President should also came by to see me. Tather's Day, June 21, will be a big day for Stephen McNally, movie star, who heads one of the largest families in Hollywood. Mrs. McNally is planning a Father's Day dinner featuring fried chicken and cranberry sauce for the six McNally children and their famous Dad. The idea is in keeping with the campaign of the National Father's Day Committee, Inc., New York, suggesting that the way to make Dad happy on Father's Day is to serve him chicken and cranberry sauce. Watching Mom hand Dad a heaping platter of chicken are Julie, 2; Patricia, 5; Horace, 11; Rita, 9; Stephen Jr., 7, and Terence, 4.

Christian Science Lesson-Sermon

The term Principle is another name for God, according to the Christian Science Lesson-Sermon of this week. On the subject, "God the Only Cause and Greator," selections illustrating the orderliness of God's creation, and the love offered by the Father, will be read from the Bible and the Christian Science textbook by Mary Baker

"The Lord is the true God, ha is the living God, and an everlasting king . . . He hath made the earth by his power, he hath established the world by his wisdom, and hath stretched out the heavens by his discretion." This is the Golden Text from Jeremiah (10:10, 12).

The Psalmist thought of th creator as a shepherd who loving-ly tends his flock, and he said, "He is our God; and we are the people of his pasture, and the

sheep of his hand" (95:7). The Discoverer and Founder of Christian Science in "Science and Health with Key to the Scripturs" says of God: "He is divine Principle, Love, the universal cause, the only creator, and there is no other self-existe:ce. He is allinclusive, and is reflected by all that is real and eternal and by nothing else" (p. 331).

Mrs. McBee Is Honored on 83rd Birthday Here

RECORD-BREAKI GAS MILEAGE

for the driving YOU do!

CHEVROLET

This year's Chevrolet brings you the most important gain in economy in Chevrolet history. And it's the kind of everyday economy that saves you money wherever and however you drive!

Inch along through heavy traffic. Roll up the miles in steady highway cruising. Long trips or short errands, byroads or boulevards, you get far more miles per gallon in this great new Chevrolet.

New high-compression power is the reason. Both the new 115-h.p. "Blue-Flame" engine in Powerglide models-and the advanced 108-h.p. "Thrift-King" engine in gearshift models-deliver .more power on less gasoline. Acceleration and hill-climbing ability are greater, fuel consumption is lower!

This is the kind of economy that counts the most-important gasoline savings for the driving you do, together with lower over-all costs of upkeep. And along with it, you enjoy all the other advantages that only the new Chevrolet offers you. Come in and see for yourself! *Combination of 115-h.p. "Blue-Flame" engine and Powerglide automatic trainission available on "Two-Ten" and Bel Air models only.
