

VOLUME TWENTY-FIVE

No. 33

EASTLAND, TEXAS, WEDNESDAY, JULY 8, 1953

PRICE FIVE CENTS

Next to a boiler factory these big diesel driven trucks, etc., that shoot through Eastland each day, hold the record for making noise. You can hear one of them coming a long time before you are able to see it.

When you first notice its approach, windows will begin rattling like someone was sending a wireless message. Later shingles on the roof will begin vibrating, and by the time it gets in seeing tance you may have an opinion t the Korean war is moving our

If all lights are green, we are luck-it won't be here very long, but when it runs into a red light there is a different story. It makes a complete stop, only to noise than ever before. Court us ually adjourns, preachers take a sip of water and hope for the best, while people who are merely engaged in conversation start talking on their fingers-hearing is out for the duration.

In all seriousness, it does seem that there should be some way to 'muffle these babies down." The disturbance they create is almost unbearable at times, and those that have been equipped with excessive noise making machinery, seem to enjoy strutting while passing through town.

Smaller cars and trucks, not capable of actually disturbing the peace, are forced to use mufflers or pay a fine. These big Berthas go Scot-free. It simply is very un-fair. They can have mufflers of some type to reduce this racket, and should be forced to do so.

Why, there are times when this

If we had more statesmen and fewer politicians things would not be in the mess they are today. Statesmen serve the people while politicians serve themselves. We can see this every day. So long as the individual puts self before duty we are going to have trouble

Cattle growers are having some hard sledding at this time. Pastures are short, feed prices are unreasonably high, yet cattle prices continue to remain low. This situation may be improved to some extent if government aid is not delayed too long. This aid will St. Louis, and most firms feel the not be a "cure all," but it will reason is that there's too much alleviate present suffering to some travail in the wassail. degree. Hungry cattle may be fed and prepared for market, and ciation revealed that more than while the government is planning 24 per cent of the firms that foraid, it should also investigate mar- merly sponsored Yuletide parties keting conditions,

A year ago good, fat calves and feed shortage, managed to come out in fair shape. Today the ame class of cattle are moving at e away prices. There is no oney to be made in the cattle isiness if the breeder must pay more for feed than the cattle thereselves will bring. Six dollar cattle and \$60 hay should never be considered at all. It would be a tough battle, even if cattle were bringing four times as much as they really are.

Dick Wesson hit the nail on the head when he said farmers and and Sunday, July 11, and 12, accattle growers are great gamblers.
Farmers will bet their last dollar that it rains enough to make a all singers are invited to attend. crop. And then when they face two or three crop failures in a LeClaire, president; Stan

Cattle growers know they can't feed seventy-five dollars worth of hay to a steer that will sell for \$40 or less, and hope to make a

We admire their spunk, but question their wisdom. They know better, but just continue following

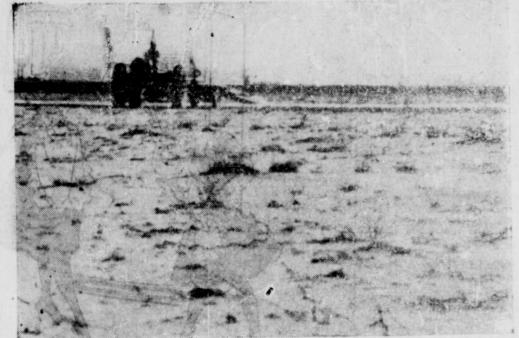

the old beaten paths. Right now we are wishing for the best. It is not too late for some kind of a crop, and cattle-

men may get government aid in sufficient amounts to carry them

At least we hope this may be true.

SHULTZ STUDIO OVER CORNER DRUG

Due to Mr. Shultz's serious illness, the Studio will be closed temporarily after July 14th. However in the meantime Miss Sue Gorley will be at the Studio from the hours of 9:00 a.m. to 3:30 p.m. in order to let all pictures be picked up.

We wish to thank each and every one for their kindness in the past and hope to have you back as customers in the future.

MRS. SHULTZ

Put your Ford in Trip-top shape

"Travelize" your Ford now! You'll save time

and money

A vacation trip is one time when you want your Ford in the pink.

Travel-wise owners make sure by having their Fords "Travelized." And not at the last minute, either!

A week or so before their trip, they get the all-round check-up which their Ford Dealer is so well equipped to perform.

Then they know they're driving away in

a car which has been given a real "travelcheck" by Ford mechanics who have at their disposal the advantages of factoryapproved methods and Genuine Ford Parts.

Try this "Travelizing" idea on your own Ford. Let your Ford Dealer go over it point by point, with special attention to the eight under-hood items displayed below. You'll say the peace of mind alone was worth the little time and money it cost you.

New Gimmicks Are Added To Old Selling Game

Advertisers have come up with a suitcase full of new gimmicks in an effort to sell more goods.

A recent advertising meeting re- showing how implements respectively

Among the "booby traps" is a

iniature phonograph that pays a 50-second message. It can be oncealed in a car or refrigerator door and starts playing when the door is open.

Some of the tiny phonographs have been hidden in the base of a pop-up toaster display. The advertising pitch comes when lever is pushed down.

Another new advertising gadge s the "rotolight." It's a projection levice that forms the advertiser's nessage out of a haze effect, brings it into focus, then lets i fade away.

A spokesman haited the new gadgets as a personnel saver or sales floors. He said the machine give customers the initial pitch eaving the salesmen free to con centrate on the most likely buyers. Stage Effects

Advertisers have even taken a ip from the armed forces in the ontinuous sales campaign.

"Cartergraphic visualizers," us ed extensively by the U.S. Navy, are the basis for an animated training and sales aid for a tract

Variable cams activate movin ardboard parts to give effects of coordinated motion. Operation of he tractor's hydraulic system ca be seen by turning a wheel in the chart. This carries the hydrauli through a 24-stage cycle

Several firms are using new theatrical devices to publicize their

Black light, used in theatrical presentations, is applied to different pages of a chart. Ultra violet rays reveal colors invisible under ordinary light and give the pages of the chart double use.
