

If you failed to attend the Farm it. At least for the present. eau barbecue at Eastland Park Monday night, you failed to attend a new record in August. he largest and best gathering of the past ten years.

More than 800 people were pre-sent, and from all walks of life. There were plenty farmers there, with their wives and chil-Also most every town and ciw in Eastland and adjoining counties was represented, and this included ranchers, bankers, lawderchants and i merchants and many of them

was a very democratic group of people ,and the whole affair reminded us of early day Texas gatherings, where pioneers for a hundred miles around would meet for a good time.

The Farm Bureau Association is rapidly forging ahead. It is adopting programs that will mean a great deal to agricultural sections. They are not advocating any halfbaked ideas, but after deliberations foster only that which shows to be good. Their program is sure win for they have something to offer, and the day will come unless we miss our guess, that the farmer who does not line up with their programs will be found outside the fold, and he will suffer the consequences.

We are also pleased with Mr. Burleson's speech, for he admitted that Congress is making an effort to alleviate suffering. And the farmer has not been left out in the cold to sink or swim, live or die, but rather he and his problems are getting attention and they may expect this to continue.

Mr. Burleson serves on some very powerful committies and some of them have to do with the farmer's welfare, and Texas farm-ers are fortunate in having such a man in Washington to represent

The Arkansas Leader, published at Mountain View, Ark., has this to say: "The right and freedom to join a labor union is no longer denied anywhere in this country. It is protected by federal law. But the corresponding right and freedom to stay out of the union, is not so protected and is now becoming rapidly extinguished in this 'our land of liberty.' " Food for serioues thought, to say the

Back To School Program Should Be Well Planned

If you've been keeping track of the days on the calendar, or noticing the sun go down a little earlher each evening, you will know that the "Old Man" has been pushmertime. You suddenly remember string you tied on your finger week was to remind you to help the students of the house get their gear ready and decide what and how much they are going to take back to the campus. If this is your pride and joy's first trip to school you will want to make sure whatever they need will be other hand, if the scholars are making the return trip to school, experience will tell them . their bags, boxes, and luggage are practicaly there if they are started

In any event, whether you've got a quarterback or a cheerleadin your house to get off to school, here are a few very im-portant reminders when sending their baggage ahead:

Be sure to remove all tags and labels that have old address-

2. Put a label with full name and address, and school or college address inside each trunk, suitease and package.

3. Cushion all fragile articles today. Because he was right Tues- ternoon. carefully. 4. Put two address tags on the

outside of each piece of baggage. (Any Railway Express office will furnish them free.)

value on each tag.
6. Be sure each trunk and bag
is carefully locked, straps buckled
and all knots tied.

EMPLOYMENT IN U.S. HITS

If your sort of pessimistic about employment situation, forget Employment in the nation hit

More Americans were working kind in Eastland county dur- last month than ever before and fewer were unemployed than at any time since the end of World War II the Commerce Department reported today in Washington.

It said August employment reached a record 63,408,000, and unemployment declined to a postwar low of 1,240,000, a level which officials considered close to a bare minimum.

"Only 1.9 per cent of all civilian were out of jobs this August as compared with 2.5 per cent a year ago," commented Acting Secretary of Commerce Rounemployment is barely over the one million mark."

The figures showed 308,000 more people working in August than in July, due to a pick-up in commercial and industrial hiring which more than offset a seasonal decline in farm employment.

Employment in factories, stores and other businesses climbed to 56.134,000 from the 55,492,000 estimated in July.

On the other hand, farm em ployment dropped to 7,274,000, about 350,000 under the July total and 650,000 below the June peak. The usual mid-summer farm lull was joined by weather conditions areas, but hampered grain harvesting in others.

The previous postwar unemployment low was 1,284,000 in Oct-ober, 1952. In August last year home. He died shortly after havthe figure was 1,604,000

NEWS FROM

CHEANEY

Mrs. Bill Tucker

Parking's a pushover with Ford Power-Steering

It's a brand new Ford "Worth More" feature - costs up to \$40 less than any other power steering in its field and it's the newest and finest power steering.

With one finger, while the car is standing still, a woman can turn the steering wheel. No longer will rough road ruts "throw you." Should ever a tire blow out, power steering assistance helps you to keep safe straight-line control.

Sure! These are advantages of all power steering systems. But, Ford doesn't stop there! Ford brings you the newest, the finest, the lowest-priced power steering in its field!

Ford Power Steering has a more natural "feel" and it does up to 75% of the work. You don't have to change your driving habits radically. The steering gear ratio is the same as without power steering and the hydraulic system gives you just the right assistance when you need it.

No change in driving habits! You in a Ford with Power Steering and feel completely at ease from the start. This is because Ford Power Sibering has exactly the same ratio as Ford regular steering.

D.A.F.

"Wheel Shock" reduced! With a hydraulic "cushion" between your steering wheel and the front wheels, Ford Power Steering reduces "wheel shock" on rough roads. You enjoy a normal, safe "feel" every moment at the wheel.

Parking is a pushover . . . all driving is a lot easier. You can easily turn the wheel with one finger while the car is standing still. At times, up to 75% of the effort you need to steer is supplied for you by Ford Power Steering.

You're safer! Even if a front tire should blow out, Ford Power Steering gives you the "muscle" to keep control. And even if hydraulic pressure is lost (which is highly unlikely) you're right back to

with New Perimeter Central Heating for 2 and 3-bedroom existing cottages 10% Down, 36 Months to Pay Installation Requires ducts, diffusers, piping, wiring and flue-vent expertly engineered, installed and guaranteed by lone Star Gas Company. Complete cost runs between \$600 and \$675 in average cottage.

New Perimeter Central Heating is Flue-Vented, which eliminates excessive moisture indoors - the main cause of wall sweating.

New Perimeter Central Heating also controls warm air circulation, the key to draft-free comfort. Outside walls and windows are blanketed with warm air. No heat loafs at the ceiling while you shiver below. The floor - the part of your home that usually is coldest - is as warm as a sunny beach.

Warm air ducts are installed under the house; diffusers in the floor. No major wall and ceiling alterations! And installation takes only a few days.

Your home is as modern as its heating. Why put up with old-fashioned nuisances such as wall sweating and drafty floors? Call Lone Star Gas Company's expert heating representative. Ask him about New Perimeter Central Heating for your home

Furnace fits in small closet or any space 2 ft. wide by 3 ft. deep

Floor and Wall Furnaces. Down payment is as low as \$14.66. Monthly payments as low as \$5.05. Don't miss the Summer Discount. Call for Heating Survey.

WORLD'S LARGEST SELLING MOTOR OIL

W. Q. VERNER Phone 64

Eastland

The Auto is a Dandy but a Death-Dealer-

. . A lot of people imagine the automobile to be a wonderful plaything like a shining toy, but actually it is a deathdealing machine. The National Safety Council says the average motorist makes from 20 to 50 decisions an hour. What happens if only one of these decisions is wrong? In heavy going a driver is never more than one second away from an accident. So folks go right ahead but don't blame us if you never
