The hustling did not end at 20 years—we are still hustling, and as a usual thing are just about two jumps ahead of the sheriff. After we pay our lights, water, gas and grocery bills, we think we are growing prosperous as our bank account is not overdrawn. Then someone—usually an FBI, reminds us of our Truman taxes. As he talks with us we can hear the squeak of prison doors. We think of the wife-how lonely she would be without us being around to worry her, so we rush madly out and borrow enough to get this fellow out of town. Generally we morigage our salary for the next six months in order to get this

This means that tax giant sits idly by while we work and toil, only to find at the end of the only to find at the end of the year that we owe more than we did the previous year. This world has been turned topsy-turvy, and it can all be charged to greed. People are never satisfied with what they have-always want more. If they can get it honestly, fine, but if not get money at all costs.

In the end they will learn that they can not take it with them. They must leave these gains here for other people to fuss over, while they go on to hell-still looking

## Is he in business "to stay?"

When you buy a used car from a Ford Dealer, you're dealing with an established businessman who has a large investment and his good name at stake. We're here today, and we'll be here tomorrow!

## Check the used car, sure! But check the dealer too!

## Does he really know cars?

Ford Dealers are in the service business, too; work with cars day in and day out. We know how to spot trouble fast. And our expert mechanics have the equipment and "know-how" to handle any service job.

Are his prices really fair?

Ford Dealers handle used cars and trucks as a service to customers who trade them for new ones. We get a lot of trade-ins. And we keep them moving to free our working capital. That's a good reason why we offer our used cars and trucks at rockbottom prices.

Is he interested in you?

IT'S WHERE

YOU BUY IT THAT COUNTS!

Remember-we Ford Dealers want to keep your good will because we want to take care of all your automotive needs. Someday we hope to sell you a new car, or another used car, and in the meantime, we want your service business.

Do his cars meet

standards?

When you go to a Ford Dealer's and see the A-1 label on a car, you know it has met with the dealer's A-1 standards. And because you can trust the man you bought it from, you can trust the car.

A message to every prospective new car buyer:

You can have

the most popular automatic transmission to be found in any low-priced car Chevrolet's Famous 1953 Powerglide!\*

Much fleeter, smoother, more economical! Thoroughly proved and improved through years of development and over a billion owner-driven miles! Production now running at new high levels due to record nationwide demand!

Much More Economical

Chevrolet's 1953 Powerglide Automatic Transmission\*-teamed with the 115-h.p. Blue-Flame" high-compression Valve-in-Head engine-brings you entirely new operating economy in city driving and on long trips.

Far Livelier Getaway

Put the selector lever in "DRIVE" position-step on the accelerator-and you move smoothly away from a standing start to legal traffic speed in seconds.

Important New Gas Savings

You'll never know how economical an automatic transmission can be until you try the 1953 Powerglide. Various improveents, including a more efficient use of engine power, make it extremely thrifty.

In fact, bring you the most important gain in gasoline economy in Chevrolet history.

Great New Passing Ability The car picks up pace in traffic or on the highway at the touch of a toe, for the '53 Powerglide has an added automatic pass-

Smoothest No-Shift Driving at Lowest Cost

Driving is almost incredibly easy, changes of speed almost unbelievably smooth . . . smoothest, no-shift driving at lowest cost.

Safe Eyes-on-the-Road Driving Safety is served in many ways. And one of the most important, perhaps, is that Powerglide permits you to concentrate on

driving. You can keep your hands always on the steering wheel and your eyes always on the road.

Full Engine Braking-Power on Hills Powerglide's flexibility lets you cruise easily up any hill. And you enjoy constant engine braking power for maximum safety when descending.

Rock Out of Trouble

Powerglide's smooth power flow lets you rock out of sand, snow or mud whenever the need arises. "LOW" and "REVERSE" are side by side on the Powerglide quadrant, making the operation doubly easy.

Push-Proof Parking

Put the selector lever in "PARK" position when you leave the car, and a positive gear-type lock holds it in position until

Time-Proved, Owner-Proved Dependability

Come in. Drive a Chevrolet with this finer, more popular automatic transmission. Test it and you'll want it. It's time-proved, and road-proved by hundreds of thousands of owners, in over a billion miles of driving.

MORE PEOPLE BUY CHEVROLETS THAN ANY-OTHER CAR!

Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models. Power Steering available on all models.
