

ANCHOR MERCANTILE CO. BURGLARIZED

The Anchor Mercantile Company's store was broken into sometime Wednesday night and several hundred dollars worth of men's clothing, silk shirts, Stetson hats, shoes, socks and various other articles were taken. Possibly the full extent of the loss can never be known. Entrance was gained by cutting the back screen and breaking a window. The thieves evidently had a car, as car tracks appeared at the back door, indicating that it had been backed up against the sidewalk to receive the loot. From the nature of the goods taken, the thieves evidently knew the stock. As a further evidence that the goods were taken away in a car, the warehouse of H. M. Rose was broken into and some gasoline taken. Hardly a hat box in the store remained untouched. Surely the robbers must have been hard to fit. The boxes were turned topsy turvy. Dozens of boxes of shoes were piled on the counter and it seems that several pairs were taken.

At this time there is no clue to the robbery, but the officers have the matter in hand and are doing everything within their power to locate the thieves. They will doubtless show up quite a distance away. Evidently they knew their business, as night watchman King made his regular rounds and found nothing out of the ordinary.

Some boys on their way home late at night came across a car without lights at the place of business owned by H. M. Rose. Upon their approach the parties hurried away, and the number in the car could hardly be ascertained. It was a large car, however.

Youths Of 21 To Register.

Washington, Aug. 14.—The registration on Saturday, Aug. 24, of all youths who have reached the age of 21 since June 5 last, was ordered today by Provost Marshal General Crowder.

This was done to add quickly to the almost exhausted class one to meet the army draft calls for September.

About 150,000 will register. Most will qualify for class one and be called within a month.

MEN IN FIRST ARMY

Washington, Aug. 14.—Gen. Pershing's First Field Army consisting of 31 Divisions, or approximately 1,250,000 men, was organized August 10, according to a statement made today by General Peyton C. March, chief of staff.

Elaborate Improvements.

The Merkel Lumber Company is making elaborate improvements to its place of business. The office has been considerably enlarged, new floor laid, the walls covered with Cornell board and panelled, making a very attractive inside effect. A cement porch has been added and the entire yard buildings will be painted.

The company is preparing to install a full line of paints, glass, nails and shelf hardware. The drouth is taken as a matter of course and the company is taking advantage of the occasion to make these improvements. It knows that prosperity is just bound to come sooner or later and proposes to install every facility to make up for lost time when it does come. Manager Kelley is rather proud of the appearance of the improvements, and he might well be for they are highly creditable. He has no low note to sound and is content to await his turn at the wheel of fortune.

CALL ISSUED BY THE GOVERNMENT FOR MANY STENOGRAPHERS

The Civil Service Commission is now planning a drive to make up for the great lack of stenographers in Government departments. They will have examiners in all states, and have asked the United States Employment Service to co-operate with them in getting stenographers.

The Civil Service Commission is now trying out an experiment in two or three places which, if successful, will enable them, they hope, to get the papers through in forty-eight hours after the examination. This will do away with one of the greatest defects of the system—the delay in putting through the papers of applications.

There is practically no limit to the number of stenographers that will be required and there is no danger of going beyond the number wanted.

A campaign for women stenographers is going to be launched through the Council of National Defense, but any young woman who apply now will be most acceptable.

Stenographer and typewriter examination, with clerical subjects, includes the following: stenography, dictation and transcription; copying from rough draft and from plain copy; spelling; letter writing; penmanship and arithmetic. The Typewriter examination with clerical subjects includes: Copying from rough draft and from plain copy; spelling; letter writing; penmanship and arithmetic. Time consumed in copying is taken into consideration in the above tests. These examinations may also be taken, omitting the clerical subjects.

Any inquiry addressed to the United States Employment Service, Box 1028, San Antonio, Texas with respect to the foregoing, will be given prompt attention.

DENTAL NOTICE

This is to inform the public that I make a specialty in the treatment of Pyorrhea (which is diseased gums). If the gums are properly cared for, there is no occasion for false teeth.

I have had three years of successful practice and have been thoroughly convinced that bad gums are the direct cause of numerous systemic ailments, such as stomach trouble, rheumatism, etc.

I will be glad to consult with any one at any time on any subject pertaining to the oral cavity. Office over Woodroof-Bragg Company.

Yours very truly,
F. N. REYNOLDS, D.D.S.

MISS JESSIE F. WINTERS MISS CECIL BURDICK
Texas Girls Volunteer

Responding to the call for 200 additional workers to aid in the hut work of the Salvation Army in France, Miss Cecil Burdick and Miss Jessie F. Winters, have dedicated themselves to the service of our men in khaki in France. Misses Burdick and Winters sailed recently from New York.

Miss Winters and Miss Burdick were residents of Houston, Texas, and were business women of that city. Miss Burdick being the chief operator for the telephone company. They both resigned their positions recently to enter Salvation Army service in France. Miss Burdick's mother and father, Ensign and Mrs. Floyd Burdick, former residents of Dallas, have been in France for some time serving in the huts just behind the trenches. Mrs. Burdick has become famous among the soldiers of the American army and is the champion pie and doughnut baker among the Salvation Army workers. She is known to the boys as "Mother Burdick" and she and her husband have been given much credit for helping to sustain the morale of the American soldiers.

Salvation Army women have been permitted to go nearer to the front line trenches than any other women in France and the American Salvation Army girls have been closer to the front than any of their British collaborators.

The Salvationists establish huts in any kind of building they can secure and make it a recreational center for the soldiers. They furnish it with tables for games and correspondence, and give to it a touch of home for the home-sick boys on the firing line.

One of the most important parts of the hut equipment is some kind of a

stove and kitchen utensils where pies and doughnuts and other goodies may be made and served to the boys at cost. Salvation Army workers have won the hearts of the American soldiers because of their skill as cooks and because their pies and doughnuts remind them of home and mother.

Brigadier George Wood, head of the Salvation Army forces in the Southwest, with headquarters in Dallas, is receiving many applications from women of the Southwest for service in France. Brigadier Wood reports that there are many more needed for the hut work behind the lines.

The presence of the pure-souled, devoted Salvation Army women in the midst of the camp has a marked influence for good upon the soldiers—profanity ceases, a touch of home prevails, which helps to cure homesickness. While the women are ever alert to serve the soldiers, the soldiers themselves vie with each other in assisting the women in every way possible.

Military officials greatly appreciate the value of good American women in the camps.

The Salvation Army has a number of huts in France, and has also established one in nearly all American cantonnements. The Army is now asking for additional funds to carry on this work and the Southwestern War Work Council composed of over one hundred prominent men and women of the Southwest direct the campaign in this section. Brigadier Wood, with headquarters at Dallas, is chairman; and Senator Morris Sheppard, of Texas; Senator Robert L. Owen of Oklahoma; Senator Joe E. Ransdell of Louisiana, and Mrs. Governor Hobby are vice chairmen.

VISITS MARKET

E. N. Brown, manager of the Brown Dry Goods Company, has just returned from market. He says he has purchased as nice assortment of the very latest lines the market affords. His confidence in the west is unshaken, and while conditions did not warrant his laying in a full supply, as usual, yet he bought heavily and his goods are being received daily.

The excuse for a four page paper again this week has changed from the absence of the Edtress to the lack of rain.

The little girl of Mrs. Milam is still very low with typhoid fever.

Mrs. Dee Coats, who was seriously ill the past week, is much improved.

Miss Clara Moore is off on a few days vacation.

Mrs. P. B. Casseaux is visiting her daughter in San Antonio. Mrs. J. E. Davis of Nevada visited Mr. and Mrs. D. J. Jones the past week.

Mrs. John Jones of Nevada is visiting her mother and sister, Mesdames Jordan and Poland, who reside near here.

Mrs. Brock of Memphis, Tenn., and Miss May Miller of Dallas are visiting their sister, Mrs. W. F. Stanford.

Mrs. E. V. White and children of Denton are visiting her parents, Mr. and Mrs. Vol Martin.

Mrs. Courtney Hunt of Haskell is visiting her parents, Mr. and Mrs. G. E. Comegys, and sister, Mrs. R. O. Anderson.

Clifford Rose, who is at work at Baird, was a home visitor on Sunday.

Mrs. C. L. Cash has purchased a residence on Oak street from Dr. Armstrong.

Ira Armstrong and family have moved to Waco, where he has accepted a position with an implement house.

Dutch Huddleston, Jim Tipton and some other parties left a few days ago in their car for New Mexico, Arizona, California and other points. They possibly may locate in California for a while.

To cut county expenses in every way, vote for Dee Coats for Commissioner and he will put on the brakes. Put on the brakes, boys, put on the brakes! Put on the brake, boys! Put on the brake! During war times, drouths and high living, make no mistake. Vote for Dee Coats and he will put on the brakes.

B. F. Cox, who has been very low with typhoid fever, is beginning to sit up, and we hope to see him well and hearty again before very long.

JONES COUNTY CITIZENS

I wish to express to you my very deepest appreciation for your valuable support and many kind words in my behalf, which has made it possible for me to go into the run-off primary on August 24th, having received the largest vote of any man in the race at the July primary. For these splendid efforts on your part I most kindly thank you all.

As the run-off primary was adopted for the benefit of the voters in securing a majority nominee for their officers, I am again coming to you asking your most serious consideration for this responsible office. I am thoroughly familiar with the tax collector's duties, having had several years actual experience in this character of work. I have been a tax-paying citizen of Jones county for many years, and am asking you for this most responsible office that I may support a wife and four children, as every interest I have is here.

Owing to a misfortune over which I have no control, making it necessary for me to remain in the sanitarium in Abilene with my wife, I will not be able to make a further canvas of the county, therefore, I earnestly ask the careful consideration of every man and woman in Jones county as to my fitness for this office, which belongs to the good tax-payers, and which should have the protection of an efficient officer. If you will elect me in this important position, I shall endeavor to conduct the affairs in such a business way that the office will be handed back to you with credit to myself and with no regrets on your part for having supported me.

Again soliciting a further support of everyone, whether you supported me or one of my opponents on July 27th, I am most gratefully yours.

W. C. Cutrell, candidate Tax Collector of Jones County.

ALLIES MAKE SOME IMPORTANT GAINS

London, Aug. 14.—The town of Lassigny, on the southern part of the Picardy battle front for which the French have been struggling over the hills to the west and south, has been captured by them, the Pall Mall Gazette today says it understands.

The reported capture took place this morning. The news of the fall of the town has not been officially confirmed. There was terrific fighting today on top of the Lassigny ridge, the Evening Standard reports. The French there were fighting their way stubbornly forward and this afternoon were pushing solidly down the far side of the elevation, he reports declare.

The Germans were said to be putting up the fiercest sort of resistance and the fighting, it was indicated, might last a day or two before the hill was finally cleared of the enemy.

London, Aug. 13.—Every part of Russia where German troops are stationed, the German commanders have all they can do to hold down the people by force of arms. This task will soon call, if it has not already done so, for strong reinforcements.

Saw Chained Huns

Austin, Texas, Aug. 13.—That he "personally saw German machine unners who were shackled together to insure their staying and working their gun," is the statement of Captain Warren S. Freund of Austin, recently wounded in France, in a letter to a friend here.

"How human beings stand such treatment is certainly a mystery to me," the letter said.

Torpedo Boats Busy.

German torpedo boats have been doing considerable damage off the American coast, several vessels having been sunk. Effective means are being arranged for clearing American waters of these perilous crafts.

Reports from the front on the 14th state that the French have made extensive gains in Picardy, and unconfirmed reports indicate the capture of Lassigny. About 40,000 prisoners and 600 guns were taken.

Advertised Letters.

These can be redeemed upon payment of one cent.

Judge Bowyer On Exemption Board.

Judge John Bowyer of Abilene has been appointed a member of the local exemption board for Taylor county to succeed Homer L. Easterwood, who resigned recently in order to enter army service within a short time.

Mailing Yourself Money.

Every time you stick a Thrift or War Savings Stamp on your card you are mailing money to yourself to be received later with interest. Cashing in these stamps is going to be better than "getting money from home," for with the money comes the remainder that you contributed to the great victory which then will have been completely won.

on, many people are dispirited and we can't believe that all who speak thus mean what they say. If they do, the federal government wants them and wants them quick. No disloyalty can be countenanced at this time.

The drouth is on. There is no getting around it. It seems that all will suffer alike. At this time we want to warn the good citizens about getting panicky and running away. Positively there is no place to run. We would warn them not to pick up and move not knowing where they were going. Thousands of people are arriving in Fort Worth and Dallas every week from the west and southwest of the State and have to be cared for by public charity. They have not had rain in that section since early in July and it is mighty dry. Let us warn our people against leaving until they know they can find work at the other end of the journey. Don't go by hearsay. Several of our citizens left for Nashville, Tenn., the other day to work for the government. They left their families here and will return when conditions warrant. They are paid good salaries. Don't leave thinking this is the worst country on earth. Take a trip 100 miles around Merkel and you will return satisfied. Go to south Texas, to west Texas, even to east, and nowhere will you hardly find conditions, ideal. Our day must come. We are willing to suffer hardships, undergo privations, even go hungry, but we are not willing to shake the dust of Merkel off our feet. It has made good; it will make good; we propose to stay, even if we have to make soup out of mesquite leaves. Just picking up and running away does no good. Some of our farmers give their farm animals away, go out and pick a little dab of cotton and don't make enough to buy their animals back next spring. Leave your families, make some money and send back. Let us be game. A big crop will be made next year.

If There Were No Religion In The Community

Mr. Silas was talking to Mr. Jonas. "Well, Jonas, how much is your religion costing you these hard times?" Mr. Silas said it in a jocular way, but behind his jocular was a critical spirit toward Mr. Jonas and his religion.

"Comes pretty high, Silas. What with the high cost of living and the moving away of several of our supporters, it puts it pretty high in drouth times."

"Well, do you get your money's worth, Jonas?"

"Yes, I think so. At least I have never felt like I was short-changed. You will notice, Silas, that the supporters of religion never complain of their burdens. The complaints are from the people who ought to be supporters but are not. Take for instance our neighbor Demas; he gave a dollar during the big meeting year before last and has been talking about expense ever since; while there is Titus, our other neighbor who gives ten dollars a month out of his hundred dollar salary and enjoys it down to his toes. There is this difference between the two men, however: Demas has criticised religion so much at home that he has turned every one of his boys from religion, and you remember how much money he has had to pay out on little Demas. In fact he has paid out twice as much to keep little Demas out of trouble as Titus has paid to his religion. And Titus has a boy that is a creditable young fellow. He's every inch a man. Silas, if you will take a look at our citizenship you will see that it is the religious men and women of this community that keeps the standards of living up to where this is a safe place to raise boys and girls."

Mr. Silas sat silent and meditative for awhile.

"Well I guess you're right Jonas." (By Quanticus)

No one in the army should be addressed as Mr. His title should always precede his name. If private, Pvt.; if corporal, Cor., ect. It would greatly facilitate the handling of mail to pay attention to these regulations.

There never was a time when history was being made with the rapidity that it is being made today. The world is in deadly combat. Civilization hangs in the balance of the most ferocious struggle that ever called into play the passions of men. The news from the front is fine, but it must be remembered that so far the allies have only pushed the Germans back over the territory they recently acquired. The war is not yet over, but days, weeks and months of the hardest fighting must ensue. We predict that the resources and vitality of every nation engaged will be pretty well used up by time the mighty struggle closes. It is therefore the duty of every one to co-operate to the utmost in the winning of the war.

The Council of Defense is gathering records of what the people have done to win the war. Generally they have been met in a most cordial manner. A few have spoken out, wanting to know why they should help the government, as they did not know that the government had ever helped them, that the Red Cross was a grafting machine, etc. In most cases the gravity of such talk has been gently brought to their attention and practically all of them have taken back what they said. Let us caution the people, if they are loyal not to speak hastily because of a fancied intrusion. The drouth is

SOIL SURVEY OF TAYLOR COUNTY, TEXAS.

Washington, D. C. Aug. 6.—To determine the nature of soil types of Taylor County, Texas, in order that local farmers may be assisted in fitting soils to the different crops to best advantage, the Bureau of Soils of the U. S. Department of Agriculture has made a soil survey of the county. The report of the survey published by the Department contains a large map of the county on which the various types of soils are indicated by different colors, and on which farmers may find the approximate location of their farms with respect to well known landmarks. There are 40 pages of text, describing the soils in detail and discussing their capabilities.

Twenty-six soil types, exclusive of Brough, stony land are mapped in the county. These are grouped in nine soil series.

Cure for Dysentery

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."

Over At The Baptist Church

A good day last Sunday, thank you. Good congregations filled the house at both morning and evening hours.

The pastor is to be away on next Sunday, but the pulpit will be filled both hours by Prof. D. W. Arnet of Simmons College, a preacher and teacher of many graces and a very acceptable speaker. Hear him. The Prayer Meeting will meet as usual on Wednesday night of next week, using the Thirty-seventh Psalm as its material for thought and discussion. Brother Will Matthews will be the leader.

Drouth is a reality, but so is God. And the riches of God's grace are not exhausted by any means. This is a time to sit tight and trust in the God of all grace. "The Lord reigneth." Because He reigns it will end when His beneficent purposes toward men are realized. Behind all His providences, and the things that He permits, is a love deeper and broader and sweeter than any earthly human love has ever been. Let the hearts of the people believe, and out of the darkness will come light, and out of the bitterness sweet, and out of the struggle victory.

E. E. Dawson, pastor.

Pastors Association Formed.

At a meeting of the pastors of Merkel last Monday afternoon formal organization was entered into by making Pastor Standifer of the Presbyterian Church chairman, and the undersigned, pastor of the Baptist Church, secretary.

A Charities Organization was also formed which will be composed of the pastors and one man and one woman from each of the cooperating churches. It is hoped by this means to consolidate all charity work of the

town and better the situation in every regard. Announcement of the completed organization will be made at an early date. Those knowing of cases needing help ought to confer with any one of the pastors, the mayor, or the town marshal.

Arrangements were made for two very important meetings on the second Sunday evening in September. One will be a Conference of Fathers, to be held in the Methodist meeting house, and the other a Conference of

Mothers, held at the Presbyterian meeting place. Splendid programs for these meetings are in process of arrangements, and they will be of interest to the whole community without respect to religious standing.

E. E. Dawson, Secretary.

GRADY COLLINS WRITES

The J. A. Collins family have received a letter from their son and brother, Grady, from somewhere in France, saying in part:

Had a lovely trip through the states. Every town seemed to give us the glad hand, especially the larger cities, and the spirit of old glory was shown at several places by the ladies of the Red Cross. Now when the call for help in behalf of the Red Cross and the Y. M. C. A. is made, I truly hope and believe that the people of Taylor County and others as well will do their part. They are certainly doing a great part to heal this great man slayer. I naturally felt shaky when going upon the deep blue but when I actually was ready and marched on the boat and sailed off, I couldn't believe there was a particle of danger, but I can say one thing and that is it was a long, long way across. The most beautiful thing I saw on the water was the sunset. After sailing for several days with hills of water all around, we sighted land in the afternoon and the water grew smoother. Many ships were at anchor, and the golden sun shining through a most beautiful cloud setting and the dim blue hills in the distance presented an entrancing spectacle. At last I was to behold the land I had longed many a time to see. The boys all gathered on deck, and in their admiration of the scene were speechless, only the sound of the waters could be heard. If I but could command the vocabulary I could write a book as to how beautiful and quaint England is, with everything so odd looking. The buildings are all brick and are very close together. The streets and roads are perfect. Every road in the country is paved and shaded with large trees. If Texas had the good roads England has, she would be the finest country west of Arkansas and Louisiana, south of Colorado and Oklahoma and east of New Mexico.

The people of England certainly did welcome us. The girls can show the American girls a stunt or two when it comes to entertaining the soldiers. All of the treats are on them and you pay for nothing and you do not have to run around and get acquainted, as they come around to you.

I would have liked to have spent more time in England and hope to visit there again. I would not take \$1000 for my trip. Next time I will tell you about France.

Granulated Sore Eyes Cured.

WILLIAM MERSHON WRITE.

Chas T. Mershon is in receipt of a letter from his son, William, who is now with the expeditionary forces in France:

I am now a soldier in France, having been drafted from Morenic, Ariz., last April, and went from there to Camp Funston, Kan. Am well and all OK. Arrived over here without any incidents of importance enroute.

France and England are both very beautiful—that is to look at, but not to live in. The U. S. is by far the best country I have ever seen. The U. S. is God's country and one fully appreciates being an American, with all the advantages his country has. No one is left at home in France and England but real old women and a few children and now and then an old man, who is usually blind or crippled. All the rest of them are in the war, that is all that are alive.

The American soldiers have most everything they need at present. We are quartered in an old deserted French village. There were about a dozen old women, two or three old men and a few children when we arrived here, and what few old French peasants that were here look to be as old as these old stone buildings, which I dare say

A VERY OLD PAPER

A copy of the Ulster County Gazette of Kingston, N. Y., published by Samule Freer & Son, was shown us the past week by J. A. Giles, who secured it from his mother. It was published on January 4, 1800. It contains a synopsis of President John Adams address to Congress, the answer made by Congress and his reply thereto. It contains an account of the battle of Zurich, the dispatch being dated October 19, 1799. It contains a full account of the death of Washington, which took place on December 14, 1799. The advertisements that appeared then are not extensive as today, but they are unique in character. In the copy appears "Sheriff's Sale," which is the one connecting link in newspaperdom that has not been changed. There is one ad-

vertisement of "A stout, healthy, active negro wench." Another feature that is gone into the forgotten past is a wanted advertisement for an apprentice "An active, diligent boy between 14 and 18 years of age." Another advertisement says "Ashes taken in said store." One advertisement appears in poetry. The paper is amply bedecked with dark rules, as a token of mourning for the lamented father of our country.

A Billious Attack.

When you have a billious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

Geo. Groene got his arm broken while cranking a car last Friday afternoon. This is the second time this arm has been broken. He is particularly unfortunate in this respect. His other arm has been broken three times.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like as much.

JAMES R. BROWN WRITES

Mr. and Mrs. Geo. Brown are in receipt of the following letter from their son, James, who recently reached Camp Mills, New York:

Our trip was interesting and not so tiresome as we had Pullmans and service all the way. The Red Cross met us in Fort Worth and Greenville with fruits, cigarettes, candies, papers and magazines. We saw some rough country in Arkansas, many sawmills, negroes and razor back hogs, and very few pretty homes.

In Memphis we visited the Y. M. C. A. natatorium and all took a swim. We passed through Nashville and Chattanooga, saw Lookout Mountain, lots of pretty homes and pretty country. Just eight hours ahead of us at Nashville two passenger trains collided, killing 125 persons.

We went through Washington at night, but could see the capitol, it being well lighted.

At Philadelphia we saw girls pushing trucks, working in factories, conductors on street cars and some running engines. From their appearances we saw negro women on the section gangs. Here we notice all of them are glad to see us and are very interesting to talk to and seem to quit their work to run out to wave at us.

We stopped for two hours at New Ark, N. J., where a passenger train passes every five minutes, and we could talk to those on board. They all wanted to know where we were from, and when we told them Texas, they said they thought so, that they had heard a lot of Texas soldiers and were glad to see us. Here we noticed whites and blacks riding together; we saw one negro and two whites eating together in a dining car. One of the boys said: "How can you do it. Get the captain to let six of us in there and that negro will be playing checkers." He told the negro to tell all of his kind to never come in a car with Texas boys if he didn't want to get hurt. The negro closed his window to keep from hearing the rest of the speech.

We went to the Grand Central Station in New York, passed under the Hudson and out by tunnel to Long Island and to Mineola.

Emmitt went to New York last night and we both intended to go tonight, but can't leave, so I guess we won't see much of it. Emmitt received a wire from Stewart a few minutes ago and he will be over to see us tonight. We are in tents without floors and eat outside, but that's only for a short time. The weather is very pleasant except from 11 to 2, which is very warm, but at night I sleep under two blankets all night.

I have seen several of the boys since coming here and we are all rearing to go over.

What is Best for Indigestion?

Mr. A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. For sale by all dealers.

QUINCY WRITES

Quincy, the former efficient and obliging colored boot-black at the City Barber Shop, who is now in service, writes:

I like the camp fine. It will make a man out of any one to come here. Everything is nice and clean and has to be that way all the time. The captain laughed at me this morning as I was standing around the mess hall. I mean the kitchen. I told him I always made money shining shoes, could eat without being run over—Just 600 eat in our hall. The first meal I ate was at the back table, but since then I have been eating at the front table.

That is all. Quincy belongs to the 53d Company, 165th Division
