Chances for the election of the Democratic presidential candi- Nuttall Wins \$5 -dates evidently continues to increase on the national level.

We wonder if the chances are actually improving or if the poll people are making doubly sure they won't be caught in a trap like they were in '48 when Harry Truman pulled the "impossible" and upset Thomas Dewey after the people who were supposed to know said Truman couldn't be the winner.

We'd like to believe what we're reading and hearing lately --- that Humphrey's stock ning the seventh weekly event. Truck Lusk. is increasing and Nixon's lead is slipping.

Seems from here that the enthusiasm for George Wallace is on the downswing. It was fun to talk about Wallace back in the summer for many potential Means. voters, but as the election nears, many evidently want to side with a more qualified can-

We've heard a couple of peopeople will vote as they always have ---- Democratic."

There's some comfort in those remarks and we hope it turns out that way.

On the local level, we're confident the Bovina area will stay in the Democratic column. The big reason is simple enough, Farming under a Republican administration just isn't as much fun as it is under the Demos. And most people realize it.

The Republicans got off to a good start in the campaign with their candidate, Nixon, His popularity seems to be decreasing now in the late stages. Maybe he's been overexposed. The opposite was true in the case of Humphrey - Muskie, but their campaign seems to be gaining momentum roward the end.

The election is still almost a week away and a lot of things can happen in that much time. The results will be interest-

We've been disappointed during the current campaign by the wishy-washy attitude taken by state Demo candidates in regard to the national slate.

This tends to be the nature of many Demo leaders in the state, however, who apparently believe it's all right to consistently support the GOP on the national level and so-called Democrats on the state and lower levels.

We disagree with their thinking, but not enough to join the

More dedication to and enthusiasm for the party which has put them where they are now would be admirable on the part of several of the state Democratic candidates.

They want to be elected to heavy and larger machinery ables coming in or being sent the offices they re seeking no matter which party gets into power on the national level. We can appreciate their way of thinking, but a better display of backbone for their own party would be gratifying.

Willis Hester has his peanuts harvested and parched.

Hester, who farms west of town, received some publicity in this space back in the spring when he planted his peanut "crop", which consisted of one acre, all that is allowed to farmers who do not have a peanut allotment.

Willis isn't completely satisfied with his crop this year and thinks he can do better next year. It wasn't bad this time, but he thinks there is room for improvement.

The yield was just under 3000 pounds and that's pretty good. After sharing the peanuts, both raw and parched, with neighbors, and town friends, Willis still sold a total of \$319 worth. That's pretty good for one acre, admittedly, but it could be better, Willis is quick to point

THIS IS WHAT FRANK FORD HAS BEEN SAYING **DURING HIS CAMPAIGN TO SERVE YOU AS** STATE REPRESENTATIVE

WATER CONSERVATION AND IMPORTATION:

"Water is the life-blood of our irrigated economy, and the importance of total water resources planning cannot be over-emphasized. Feasibility studies for importing water to the high-plains from the lower Mississippi basin should be pushed forward at maximum speed. Funding on these-and importation itself-must come from congress, with maximum state-federal cooperation. At the state level, our district is far behind on planning for flood control and conservation dams on our creeks. We must keep the water that falls in our district, rather than seeing it rampaging on down-stream after every big rain. We must use lake water and tail water return systems to the maximum, along with irrigation practices consistent with the water available in any given area. If elected, I intend to work with men who have a proven record of water conservation. Under no circumstance must this issue be allowed to become a political football to be used at election time for partisan gain."

EDUCATION AND VOCATIONAL TRAINING:

"Texas has fallen from 33rd to 38th during the past eight years in per-student support for education. During the same time, we have fallen from 40th to 44th in literacy. This dismal record cannot be continued if our young people are going to be able to hold jobs which will be available in the 1970's. We must increase our attention to primary education and the development of basic skills, give additional help to children with specific learning disabilities, increase pre-school opportunities with bilingual education where needed. Vocational training must be increased, with emphasis on job training by private industry, so that the trainee will know that a specific job is waiting upon completion of the training. Education and jobs are the only effective answer to proverty."

FRANK FORD IS THE ONLY CANDIDATE IN THE RACE WHO HAS SPOKEN OUT CLEARLY ON:

- * The need to keep the family sized farm unit strong as it is the backbone of our rural economy.
- * Practical measures that should be encouraged in each community for economic growth.
- * The need for abolishing daylight savings time, a measure which his opponent pushed to passage in 1967.
- * Ways to reduce the crime rate, which has nearly doubled in the last eight years. * The need for a two-party system so that the people can regain control of their

Study Club Receives Award Certificate

Bovina Woman's Study Club has received a certificate of award for participation during the summer in the Youth Opportunity Program sponsored nationally by Vice President Hubert Humphrey.

The certificate was signed by Humphrey and President Lyndon B. Johnson in appreciation for the program in Bovina.

A letter addressed to Mrs. Jesse Walling of the Study Club from Humphrey stated that the program could apply the lessons learned in 1968 to the program for 1969. He thanked the club for providing employment for the young people of the area, which "is a beginning for improving their opportun-

ities for the future." The Youth Opportunity Program in Bovina provided employment during the summer months for about 30 boys and girls. It was sponsored here by the Study Club.

Both the certificate and the letter were read to members of the club at its meeting Thursday afternoon by Mrs. H. D.

Responsibilities for Americanism was the topic of the club's program last week with Mrs. C. A. Ross in charge.

Speakers on citizenship were Mrs. Clarence Jones and Mrs. Henry Ivy. Mrs. Ivy posed the question, "Can we still claim government is of the people, by the people and for the people"? She urged members to vote in the November general election.

Mrs. Jones noted the privileges of American citizens, their heritage, and the ways in which people become citizens of this country.

In a business meeting, the club was given a report that the Saturday rummage sales in downtown Bovina have been successful. Members state that articles for the sales are still being accepted.

Hostesses for the meeting were Mrs. J. R. Caldwell, Mrs. Roy Dodson and Mrs. Jack Clayton. A harvest theme was used as a centerpiece for the serving table.

What is the saying -- "you only pass this way once"? Some who pass barely leave a mark, others make a small trail, while others make an impact so great that it will be felt

for years to come. The latter is what happened when Grace Paul walked through the streets of Bovina.

It all started when she moved here 20 years ago to teach homemaking and English in a school that had a total enrollment of 150 students, from first grade through high school. Between that time and the spring of 1968, Miss Paul touched many lives in Bovina.

The influence of her life is not measureable, but is loudly proclaimed by all who sat in her classrooms or worked with her side by side. She was a quiet woman and went about her business in a quiet

way. She never married --- she had no children. Her children

were those enrolled in Bovina Schools and she was as concerned with each as if he were her own. She was never too busy to hear their problems or help them with their school work --- no matter what time of day or night it might be. Miss Grace Paul was in the classroom for the service she might give --- and that was the only reason. She was one of those

few who are labeled "dedicated." Perhaps a clipping found in her Bible best describes Miss Paul's philosophy of life: This world would be better off if we had dirtier fingernails and cleaner minds.

She will be missed -- but she will be remembered for a long

Even in death she leaves a legacy -- the Grace Paul Scholarship Fund, set up as a memorial at First State Bank of Bovina and the Grace Paul Wing of Ridgelea Elementary, named in the honor of a person who could truly say, "I am a teacher."

"Give me that old time religion, give me that old time religion, give me that old time religion, it's good enough for me."

Living The Faith As We Labor Read Romans 6:12-14

Whatever is born of God overcomes the world; and this is the victory that overcomes the world, our —I John 5:4 (RSV)

IFTEEN hundred years ago, St. Piran left Ireland. He landed on a fertile strip of land near a stream on the north coast of Cornwall and built a little chapel. It is a thousand years since that little chapel was overwhelmed by sand driven relentlessly inland by gales.

The faithful band of Christians who then worshiped there crossed the stream and built a new church, pro-tected from the shifting sand by the flowing water. Then in the seventeenth century mining operations drew the stream underground, and the sand pushed relentlessly on until the second church building was engulfed. A third structure was built still further inland.

Sin has the same effect on our lives as does the sand on the fertile soil. If our faith is undermined, sin creeps in and threatens to choke out the goodness in us. If we keep faith, we shall with God's help conquer sin, and the world will be able to see God's love and power displayed in our lives.

Will the next President be elected by default?

It happened in 1920, 1924, 1928, 1932, 1936, 1940, 1944, 1948, 1952, 1956 and 1960. The winning candidate was the choice of the second largest group of eligible voters. The largest group didn't vote.

More people didn't vote than voted for the winner.

And, in 1964, more than a third of the people still didn't vote. More than 41 million Americans just didn't bother—refused to be involved.

What are you doing on November 5th?

THE 72nd DISTRICT NEEDS BILL CLAYTON

The economy of West Texas and particularly the 72nd Legislative District is based on water supply for agriculture, municipal and industrial needs.

We need the help, assistance and proven leadership of people like BILL CLAYTON who have the influence, seniority, integrity and ability to get the job done.

Your effective

voice in

State Government

Bill Clayton's record stands for itself. It reflects the work of a conscientious young man. The 72nd District is in good hands.

VOTING RECORD & POSITION

* Water Development

Bill Clayton has been directly associated with every major piece of water legislation passed during the last six years. He is recognized by his colleagues as being one of the most effective and well informed members of the Texas Legislature on water and soil resource development and conservation. Bill Clayton knows the vital importance of water, not only to your future, but to the future of the entire State. Past accomplishments and effective leadership have made Clayton vital to continued progress in development of water resources for the High Plains

* Education

Child by child we build our nation . . . tomorrow depends on today's children and young adults. Bill Clayton is ever mindful of the need to raise our standard of excellence in the Texas school systems. This can only be done through the uprating of the Texas schools, and dedicated recruitment of the finest teachers. Clayton co-authored a bill that created the "coordinating Board of Texas Colleges and University systems." His voting record shows a continued support of teacher pay-raise and the strengthening of all educational systems in Texas.

* Law Enforcement

Today, law enforcement agencies are facing new problems. Bill Clayton is concerned about the breakdown of law and order. Clayton has been active in seeking higher salaries for law enforcement officials and uniform standard procedures. Bill Clayton served on a special House Committee which will suggest revision of our obsolete liquor laws. Clayton believes that all people must respect the law and that proper enforcement is essential to maintain law and order.

* Industrial Development

Bill Clayton knows that industrial development helps to stabilize the economy of any given city or area. During his six years in the Legislature, Bill Clayton has worked aggressively for industrial development for our area of the State. Several smaller cities in our 72nd Legislative District now have airports as a result of Clayton's assistance in starting a program of State grants. These State grants are financed with unclaimed gas tax refund on aviation fuel. Bill Clayton knows that airports help encourage industry in less densely populated areas.

* Tourism

Bill Clayton has worked hard for tourism during his six years as State Representative. Clayton, House Speaker Ben Barnes and other interested legislators were successful in establishing a National Park in the Big Bend area of West Texas. The water importation program being led by Clayton will develop many new recreational opportunities with huge water reservoirs for fishing and boating. Bill Clayton realizes both the need for more recreational facilities in his district and increased business activity from tourist trade.

* County, City & Local Government

Bill Clayton has been a strong advocate of local government, He is currently serving as chairman of the Committee on Counties of the Texas House of Representatives. Clayton believes that government at the county and city level are more responsive to the people and whenever possible they should take the lead and the responsibility of many governmental programs and functions. Clayton has authored many bills that benefit the cities and support the idea of allowing cities the option to choose their own method of taxation. Bill Clayton is needed on the job for more effective responsible county, city, and local government action.

Take advantage of this opportunity to keep your firm grip in the State Legislature by going to the polls on November 5th, and casting your ballot for BILL CLAYTON.

Springlake-Earth Falls To Bovina By 28-14

District 3-A game Friday night. It was their first conference win since they joined the league at the start of the 1966 season. The victim was the Springlake-Earth Wolverines and the score was 28-14.

As it turned out, the game was a fairly easy one for the Ponies eventhough they had to come from behind to win it. On an unusual play, the Wolverines jumped into a 0-6 lead early in the second quarter on a 92yard scamper by their big, freshman quarterback, Hoyt Glasscock.

That made things look bad for the Mustangs, who were underdogs going into the tilt, but they rallied quickly to put 15 bit points on the scoreboard in that period and then add 13 more in the third stanza to salt the game away.

The visiting team added a meaningless touchdown and dual extra points in the final period to conclude the scoring.

The extra point kicking game got back on schedule following that score and Stone's toe made the endzone with the tying six- | the score 15-6 with time running out in the first half.

For insurance, the maroon and white added on two more six pointers and an extra in the third period. Both came late in the quarter.

The first touchdown of the second half was scored on a quarterback keeper play by Beauchamp from one yard out with 3:11 remaining.

The second came less than a minute later on a 19-yard run by McMeans with 2:14 remaining on the third quarter clock.

The first TD was set up by a fumble recovery by Steve Pierson which put the Mustangs in business on the Springlake-Earth 28. The score came eight plays later. The extra attempt failed.

Before the cheering Mustangs fans could get settled in their seats, Bovina had another score, Another S-E fumble gave the Mustangs possession on the second play after the kickoff at the visitors' 33, Halfback Danny Stanberry rumped for 14 yards to a first down at the 19. Springlake-Earth tried to get back in the game with an onside kick following the TD, but Redden fell on it at the midfield stripe to foil the attempt.

The win for the Mustangs gave them the best record they ve had since '65 when the competed in Class B. They now have four wins and three defeats and are 1-1 in district competition. Their record has been 2-8 each | ice cream bars. of the past two seasons.

Pierson and Randy Barnett were the standouts in the line for the Mustangs.

McMeans was the leading ballcarrier with 83 yards net in 16 carries. Fullback Royce Sisk made 70 yards in 19 trips. Halfback Danny Stanberry made 48 yards in nine attempts, Beauchamp earned 25 yards also in nine times. Dyer toted the ball three times for a total of eight yards.

put forth its best effort of the season Thursday night even though a tough Springlake team took a 24-0 decision.

The eighth grade team lost, 42-6, and the seventh grade was downed, 38-6, in a series of games played at Springlake. Coach Roger Ezell said the entire "B" team looked good defensively, as well as offensively. However, the Colts should have scored. In the eighth grade battle, Springlake scored 35 points the first half, but the Bovina team held the winners to one TD in the second half.

Bovina scored a touchdown in the final quarter on a fourth down play with 35 yards to go for a first down. Springlake was expecting a pass, but Jeff Mo-Cormick took the pigskin and ran 45 yards for six points.

The seventh grade had difficulty holding the Springlake team, which scored two touchdowns in the first quarter, one in the second, and two in the second half. Extra points were run across for the second half scores, Coach Bill Nitcholas

tory, the Boyina Mustangs go Kress in a tilt with the Kang- trict opener to Sudan.

The Mustangs will have a good chance of getting win No. 2. according to some observers, if they can keep the momentum they built up last week in their verdict over Springlake-Earth.

Gametime is 7:30 p.m. The Kangaroos, once a district power, aren't as strong this season as they have been in recent years. They dropped a 60-0 decision to the Farwell Steers last week as "fumblitis" hit the Kress team in the worst

It should be pointed out, however, that the Kangaroo outfit is a better team than that score indicates. For the season, the Roos are 3-3-1. The tie came in their game with Happy, a team the Mustangs defeated in their second game of the season by a 6-0 count. The Happy-

Mustang Mentor Roy Stone says the Kress team has good speed and good backs. "They have two Jackson boys in the back field who we'll have to Stop."

Optimistically, Stone points out, "If they don't straighten out their fumbling, we could be in business with them," However, Stone goes on to explain that he's sure improvements will be made in the Kress team.

Coach Stone figures the game should be rated a toss-up.

The coach was pleased with the play of his team in the Springlake-Earth game, "We played one of our better games," he says, "especially defensively. We were able to take advantage of their mis-
