**THERE'S A GOOD SIDE** to the high price of oil and the flood of dollars the Arabs are receiving for their black gold. A lot of those dollars are coming back to the U.S. as the Arabs discover that there are very few countries where the investor is as well protected as he is in the U.S. There are also few countries which can supply the military hardware the Arabs are buying.

As a result of the Nixon-Ford Administration efforts to strengthen U.S. influence in the Middle East, big contracts are being signed between Saudi Arabia and this country. Bechtel Corp. is designing a \$100-million airport; Rtheon is supplying the hardware for the Saudi air defense system. Lockheed is selling the Saudi 30 C-130 cargo planes and Whittaker Corp. will provide \$17-million worth of equipment and maintenance for three Saudi military hospitals.

One American company won a \$300-million contract to equip the Saudi Arabian National Guard. Contracts of less than \$20-million are considered to be penny-ante.

A lot of merchandise could have been sold to the Saudis if it could have been produced. Caterpillar had orders for 1000 heavy construction units but could allocate only 350 because their production lines are operating at top capacity. Lockheed got a contract for two TriStar jets with a price tag of \$25-million each for the national Saudi Arabian Airlines. General Motors is building an assembly plant at Jiddah.

The Arabians are upgrading almost every phase of their economy, including communications, education and transportation systems. Over \$1-billion alone will be spent on the University of Riyadh. A 3-million metric ton steel mill is under construction and Bechtel has also been hired to design an industrial complex for the oil-gas-rich eastern province near Dhahran. Over \$10-billion will be spent on petrochemical and fertilizer plants in the next ten years. The Saudis are also looking for opportunities in food processing, cement and aluminum.

Much of this program is many years down the road. But for the moment, the Saudis are going to have a rough time spending just 25 percent of this year's revenues of \$40-billion.

**IN THE WASHINGTON, D.C.** suburb of Bethesda, Md., a frustrated driver has become so fed up with the inconsiderate parking habits of some of his fellow drivers that he has taken the law into his own hands.

Instead of throwing rocks or slashing tires, however, he has gone to the trouble of printing "Parking Violation" notices which he slips under the windshield wipers of offending vehicles. The notices resemble police tickets but say the following:

"This is not a ticket, but if it were within my power, you would receive two. Because of your bullheaded, inconsiderate, feeble attempt at parking, you have taken enough room for a 20 mule team, 2 elephants, 1 goat and a safari of pygmies from the African interior.

"The reason for giving you this is so that in the future you may think of someone else other than yourself. Besides, I don't like domineering, egotistical or simple-minded drivers and you probably fit into one of these categories.

"I sign off wishing you an early transmission failure (on the expressway at about 4:30 p.m.). Also, may the Fleas of a thousand Camels infest your armpits."

Although we know of no public opinion survey on the subject, we would guess that most parkers would prefer to be hit by the standard \$5 or \$10 fine of a police ticket instead of the dread armpit fleas of a thousand camels.

## '75 Grain Harvest Gathering Steam

Wheat and barley harvest for 1975 is gathering steam in the Bovina area with early indications pointing to at least an average, or perhaps better than average, yield this year.

Last Monday's hail damage was a severe blow to farmers from northwest to southeast of Bovina with damages ranging as high as 70 per cent in the main path of the storm.

The first loads of wheat, dryland variety, were delivered to the two elevators in Bovina Saturday and Sunday. Larry Scott delivered the first load of wheat to Sherley Grain Saturday with Jim Owens delivering a load to Bovina Wheat Growers Sunday.

The first load of barley was delivered to Bovina Wheat Growers Sunday, June 8, by Houston Bartlett who also earlier delivered the first load of barley to Sherley Grain.

Spokesmen at both elevators stated that harvest of the irrigated wheat is about a week away as yet. Harry Johnson at Sherley Grain estimated that barley harvest is at the mid-way point. Yields on the irrigated barley are running about 100 bushels per acre, said Johnson.

Yields on dryland barley have been as high as 60 bushels per acre with dryland wheat ranging from 20 to 25 bushels in most instances.

Price quotations on barley as of early this week at the local elevators was \$4.25 per 100 pounds, up about \$1

over this time a year ago. Price quotations on wheat were expected to be up sharply, to about \$3 per

## AT COWBELLE DINNER

# Name Kenneth Cary Father Of The Year

Over 200 attended the first Father's Day Dinner here Sunday at Bovina Schools cafeteria. The beef dinner was sponsored by Bovina CowBelles with Mrs. Vernon Estes serving as chairman of the project.

Kenneth Cary, manager of Bovina Pump Co., was named 1975 Father of the Year. He was presented a roast of beef, donated by Bovina Supermarket, and a copper replica of the CowBelle bell insignia.

Cary and his wife, Virgie, have

one son, Ronnie, who will be a freshman at Bovina High School this fall. They are members of First United Methodist Church here and serve as counselors for the junior high youth. Cary is a director of Bovina Chamber of Commerce and Agriculture, a member of Lions Club, manages the senior league baseball team and coached a Little Dribbler team, including the all-stars this past season.

Members of the CowBelles prepared and served the meal.

Mrs. C.C. Naegle, president of the organization, expressed special thanks to Mrs. H.H. Kelso, owner and operator of the Mustang Drive In, who donated the paper cups for the meal; to Mrs. Nan Hall, a member of the school cafeteria staff and also a CowBelle; and to Billy Whitecotton and Billy Smith at Bovina Supermarket.

In addition to the Beef for Father's Day Dinner, the promotion this past week included placing 10 \$1 beef certificates, redeemable at Bovina Supermarket, in packages of beef Thursday, Friday and Saturday. Persons purchasing beef with those

certificates hidden inside may use the coupon toward the purchase of additional beef.

## Bake Sale Slated Saturday

A bake sale, sponsored by the cheerleaders and pom pom squad captains, will be held Saturday from 9 a.m. until 5 p.m. at Bovina Supermarket.

Funds derived from the sale will help with expenses for the groups' trip to SMU in July.

Cheerleaders are Cathy Trimble, Connie Ware, Dianna Naegle, Denise McCormick, Dian Roming and Linda Marcom. Pom pom captains are Rita Nuttall and Ginger Gober.

**ACCEPTS GIFTS...**Raymond Schueler, left, accepts a plaque and watch from Larry Webb, manager of Bovina Wheat Growers, Inc., at the annual meeting of the cooperative Tuesday night of last week in Bovina Schools cafeteria. Schueler, outgoing director and president of the board, was honored for 19 years continuous service as a director of the organization.

**ELECT DIRECTORS**

## Wheat Growers Hear Reports At Meeting

Ben Rejino and Floyd Schueler were elected to the board of directors of Bovina Wheat Growers, Inc., at the annual meeting of the cooperative Tuesday night of last week in Bovina Schools cafeteria.

Raymond Schueler, president and outgoing director of the board, was presented a watch and engraved plaque for 19 years service on the board. M.H. Carson was the second outgoing director.

Carson and Floyd Schueler were presented as candidates for the board by a nominating committee. Rejino was nominated for the post from the floor during the business session.

Raymond Schueler presided over the business session. E.G. Steelman, secretary, read the minutes of last year's meeting.

About 140 persons attended the meeting and were served a barbecue beef and ham meal with all the trimmings, catered by L.J. Jamison

of Bovina Restaurant and Steak House.

Bud Swenson of Cornell and Co. in Amarillo, the audit company for the cooperative, gave a financial report for the past year, noting that the "Bovina cooperative had a good year," and was about average in comparison with other cooperatives in this area. He reported an approximate net savings to patrons of \$71,457 for the past business year.

Holdover members of the board of directors are Walter Potts, current vice president; Steelman, secretary; and Leon Schilling, director.

New board officers will be elected at the next meeting of the directors, probably after harvest, according to Larry Webb, manager of the cooperative.

Special guests at the meeting were Jerome Beach of Lubbock, representative of Growers Seed Co.; Martin Man Warren of Amarillo, fertilizer and chemical specialist

with Farmland Industries, Inc., who spoke to the crowd on the outlook for next year's fertilizer supplies; and Arnold Pritchard and Milton Johnson of Amarillo, representatives of Producers Grain Corporation (PGC). Pritchard also spoke to the crowd on this past year's business and the outlook for the coming year.

During the business session, Oakley Stevenson requested that the board consider purchasing another corn dryer for the Bovina facility in view of the increased corn acreage this year and the difficulty in getting trucks unloaded at the peak of harvest season.

Schueler said the board had considered purchasing a dryer, but were also considering other alternatives. Webb said that three dumps would be operable this year which should speed up dumping operations, particularly the large semi-trucks.

Mix a little cotton with your orange juice and it nearly equals milk. At least in protein percentage. This is just one of the many possibilities now being considered for the new gossypol-free cottonseed flour produced by what is called the Liquid Cyclone Process. LCP for cotton flour will soon be utilized on a commercial scale by the plains Cooperative Oil Mill at Lubbock. The new food-grade cottonseed flour will have as much as 65 percent protein compared to about 13 percent for wheat flour. Unusually high protein content of the flour was the primary reason for the concentrated research. Scientists say that as much as six percent of the total world supply of protein is in cottonseed, but until LCP was discovered the protein could not be utilized directly by humans because of the toxic gossypol pigment in the cottonseed. LCP's success in making possible the production of the food-grade flour is being hailed as a major achievement by world nutritionists.

What is IRA? Can it be used by everyone?

IRA is the Individual Retirement Account which became effective September 2, 1974. It allows a person to tax shelter a percentage of his income into an IRA qualified plan up to a maximum of 15% or \$1,500 whichever is less. No individual who is covered by another IRS approved retirement pension or profit-sharing plan may participate in IRA. These funds may be placed in almost any investment the individual would desire. For example, insurance companies use retirement income life insurance plans and deferred annual premium annuity plans. These are self-trusted and after retirement have a built-in annuity factor that will be advantageous to the individual.

# Miss Clarke, Dale Johnston Wed In Amarillo Ceremony

MRS. DALE JOHNSTON

Miss Janice Arlene Clarke and Gary Dale Johnston exchanged double ring wedding vows at 6 p.m. Saturday, June 14, in the East Amarillo Church of Christ with Robert Boyle, minister, reading the ceremony.

Parents of the couple are Mr. and Mrs. O.R. Clarke of 1042 Ricks in Amarillo and Mr. and Mrs. Elvin Johnston of Bovina.

The couple exchanged vows before a basket of white gladioli and yellow daisies flanked by seven branch candelabra.

Traditional wedding music was presented by singers of the church with Jerry Dorman singing "Twelfth of Never" and Helen Lee singing "The Wedding Song."

Escorted to the altar and presented in marriage by her father, the bride selected a formal gown of bridal satin and lace designed with cap sleeves and rounded neckline, trimmed in daisy lace. The hem of her skirt was trimmed in daisy lace and fell into a chapel length train. Her cathedral length veil of illusion was trimmed in matching lace. The bride carried a cascade of roses, daisies and stephanotis.

For something old, the bride wore a locket belonging to her grand-

mother; something new was a pearl necklace, a gift of the bridegroom; something borrowed was her veil; something blue was the traditional garter and the bride carried a six-pence in her slipper.

Miss Virginia Clarke of Amarillo, sister of the bride, was maid of honor. Miss Tricia Pratt and Miss Sally Allen of Amarillo were bridesmaids. Mrs. Evanna Jamerson of Bovina, sister of the bridegroom, was bridesmatron. The attendants wore formal gowns with yellow dotted swiss designed with ruffled sleeves and hemline. They carried nosegays of yellow daisies and wore daisy headpieces.

Ronald Coffman of Big Spring, cousin of the bridegroom, was best man. Groomsmen were Stanton Luke of Amarillo, Dennis Johnston of Bovina, brother of the bridegroom, and Olen Johnston of Decatur, Ala., brother of the bridegroom. Ushers were Walt Fewell and Randy Monk of Amarillo.

Denise Johnston of Bovina, niece of the bridegroom, was flowergirl. Deanna Dorman of Amarillo and Scotty Johnston of Bovina, nephew of the bridegroom, lighted the candles. Kevin Barnett of Muleshoe,

nephew of the bridegroom, was ringbearer.

Mrs. David Schultz presided at the guest register.

For her daughter's wedding, Mrs. Clarke selected a formal gown of lavender with purple lace jacket and white accessories with an orchid corsage.

Mrs. Johnston selected a formal gown of mint green with floral jacket and white accessories with an orchid corsage.

The couple greeted guests at a reception in Fellowship Hall of the church following the ceremony.

The bride's table was covered with a white lace cloth and centered with the bride's bouquet and white tapers in crystal holders. Mrs. Stanton Luke and Mrs. Connie Boyle of Abilene, sisters of the bride, and Mrs. Walt Fewell served at the bride's table. The groom's table was covered with a yellow daisy lace cloth and centered with the maid of honor's bouquet and yellow tapers. Mrs. Dennis Johnston of Bovina, sister-in-law of the bridegroom, and Mrs. Carolyn Barnett of Muleshoe, sister of the bridegroom, served chocolate cake and coffee from a silver service.

For a brief wedding trip, the bride

wore a yellow pants suit with yellow accessories and a corsage of daisies and roses.

The couple will be at home at 5107 Bonham Street in Amarillo.

The bride is a graduate of Caprock High School and Amarillo College and is employed by Dr. R.M. Longanecker, D.D.S. Johnston, a graduate of Bovina High School, attended Texas State Technical Institute in Amarillo and is employed by Affiliated Foods in Amarillo.

So I honked, waved and thought, "How clever...how cute...that's nice."</p> <p>Later I began to see bumper-stickers [modern day phylacteries]...they were everywhere...suggesting that I honk if I love Jesus. Now I have decided that I cannot appreciate that which I once thought clever.</p> <p>I am not sure I know why I changed. But maybe it is because so many are willing to honk for Jesus and not willing to live for Him. Maybe it is that lots of people are willing to try to get others to honk for Him...but not at all willing to go and teach others about Him.</p> <p>Following are a few suggestions for some bumper-stickers to go on our hearts. They won't be so popular, but let us think about them for awhile.</p> <p>"Keep His Commandments...If You Love Jesus" [John 15:15] "Let Your Light So Shine...If You Love Jesus" [Matt. 5:16] "Do Unto Others As You Would Have Them Do Unto You...If You Love Jesus" [Matt. 7:12] "Seek First The Kingdom...If You Love Jesus" [Matt. 6:33] "Abide In The Doctrine Of Christ...If You Love Jesus" [2 Jno. 9].</p> <p>I love Jesus, but I ain't gonna honk for Him. I think it is much better to live for Him. This world does not need a bunch of honkers for Christ, but it needs a bunch of dedicated, consecrated living on the part of Christians.</p> <p><b>Cecil Bunch</b></p> <p><b>BOVINA PENTECOSTAL HOLINESS CHURCH</b></p> <p>Sunday School-9:45 a.m. Morning Worship-11 a.m. Radio Program on KZOL at 2 each SUNDAY AFTERNOON Evening Worship-7 p.m. Wednesday Worship-7:30 p.m.</p> <p><b>MISION BELEN BAUTISTA</b></p> <p>Escuela Dominical-9:45 a.m. Mensaje-11:30 a.m.-Union De Pre Preparacion-5 p.m. Miercoles Estudio De La Biblia-7:30 p.m.</p>

## Reflections From The Blade

FIFTEEN YEARS AGO—JUNE 15, 1960

Dedication ceremonies for First Baptist Church's new building will begin Sunday afternoon at 2:30, climaxing several years of effort by the congregation. Dr. Neil Record of Tulia will deliver the dedicatory message.

First meeting in the new \$104,687 structure will be held tonight.

Bovina School District is faced with rising costs and decreasing state aid and must eventually alter local tax situation if it is to maintain operational funds. This point was presented to members of the school equalization board Friday by trustees of Bovina Schools.

Turbulent black clouds dropped a cloudburst of almost four inches of rain, mixed with hail, north of Bovina Friday and set off a tornado alert in the city. Damage to crops and farmland was heavy in areas where the storm directed its worst punch. Wheat took a beating from hail but swirling waters, which some farmers said were the highest they have seen in the area, caused the most damage.

More than eight inches of rain were gauged in Bovina from Sunday night to Friday of last week.

+++

TEN YEARS AGO—JUNE 16, 1965

Work is scheduled to begin this week on a new \$100,000 bank building in Bovina. Bob Estes, president of First National Bank of Bovina, announced this week that the contract for construction of the new building has been let to Robert Boston of Amarillo.

Contract for construction and ownership of Bovina's new post office building has been awarded to an East Bernard firm, according to an announcement last week from the Washington office of Congressman Walter Rogers. The new post office is scheduled to be completed between January and March of next year.

Charles Corn, owner-manager of Corn's Farm Store, has been appointed a member of Bovina's city council. Corn was named to the council to fill the unexpired term of Mario Trevino who moved from the community several months ago.

Four new teachers were hired at a regular meeting of Bovina Schools board of trustees Monday night. Those signed for the '65-'66 school year were Mrs. Wilson DiCuffa, high school English; Mrs. Margaret Renfro, special education; Miss Judy Roach, to be assigned; and Roger Ezell, to be assigned.

What was considered one of the best rains in modern history fell here Wednesday and Thursday. The total amount in Bovina was 3.25 inches and this measurement held about steady throughout the rural area around town.

+++

FIVE YEARS AGO—JUNE 17, 1970

The first load of 1970 wheat was delivered to the elevator 10 days before the first load of 1969 and was termed "real good grain." A truck load from the farm of Dutch Dean was delivered to Sherley Grain here Wednesday of last week.

Dolph Moten has been named chairman of Bull Town Days 1970. Appointment was made at a meeting of Bovina Roping Club Monday night and approved by Bovina Chamber of Commerce and Agriculture Tuesday morning.

Bryant Harris will be the band director in Bovina Schools during the next school term. He is a spring graduate of West Texas State University and a native of Wellington.

This week marks the last Saturday First State Bank of Bovina will be open for business. Beginning on June 27, the bank will be closed on all Saturdays, following the trend of banking institutions across the nation.

## SCS Report

It is becoming more and more important to consider characteristics of soil in selecting construction sites in Parmer County. Soil characteristics, such as permeability, depth to water table, and shrink-swell properties.

The price of materials these days is overwhelming. One mistake in construction could cost more in rebuilding or repairing than the original cost. Consider the cost that is needed to install the foundation and underground assembly of corn dryers today. Tomorrow it will cost more. Consider your soil before you start.

We have all seen concrete foundations for houses and sidewalks cracked, broken or sinking. We say the concrete was not strong enough. This is not the case most usually. We see only the concrete, but we do not realize it is the soil under the concrete, causing the damage.

There are seven major types of soils scattered throughout Parmer County. Each soil has different characteristics to consider. We have this soils information at the Soil Conservation Service office in Friona and will be glad to give anyone information on this subject.

## Bond Sales Released

Frank A. Spring, County Chairman for the Savings Bond Program in Parmer County, reported sales of Series E and H United States Savings Bonds in the amount of \$11,033 for April 1975. Sales for the first four months of the year totaled \$49,240 which represents 49 per cent of their assigned dollar goal.

Sales in Texas during the month amounted to \$20,376,490 while sales for the four-month period totaled \$82,368,654 with 35 per cent of the yearly sales goal of \$234.3 million achieved.
