

BY BILL ELLIS

STRIKES HAVE BEEN very much in the news this year. Earlier this year, public servants got in on the act when policemen went on strike in San Francisco.

Also, the garbage collectors in New York City went on strike. Folks didn't think that was very funny, especially after the smell began to get to them.

School started a few weeks ago, except that in New York and other selected places, the teachers weren't ready for their summer sabbatical to be over. Like a bunch of the overgrown kids that they are, the teachers in New York almost unanimously voted to strike against the NY school system for one grievance or another.

As we understand it, salary wasn't even involved in the New York issue. Believe it added up to working conditions, class sizes, etc. We don't blame them much. We wouldn't want to teach in New York City, either.

++++

NOW IT COMES DOWN to a strike by a team in the National Football League, namely the New England Patriots.

We thought that one of the commentators said a mouthful when he said "The world needs policemen, garbage collectors and school teachers, but it can get along without professional football players."

We believe that the New England Patriots let their zeal for wanting to become labor leaders outstrip their logic and sensibility. Television has built up the National Football League until it is truly the national pastime during the fall months.

It was very thoughtless and reckless on the part of the New England team to strike the game that was to be carried on TV, since television through its coverage and its payments to the clubs has "made" the NFL.

We wouldn't blame CBS if it never scheduled a New England game again for national television. In fact, we'd predict that it will be a long time coming.

If this strike fever persists, it will hurt professional football, because fans don't want to have to wonder up until kickoff time whether or not they are going to be able to see a game that day. Especially if they have shelled out hundreds of dollars for a certain number of season tickets.

Another commentator made the remark that "A strike is a desperate action by desperate people." We can't believe that the NFL players are that desperate.

New England club owners were refusing players the use of their facilities for practice until the strike situation is resolved. We wonder how the players would make it if the owners were to pull out and let it be up to the players to meet their schedule.

How would the players like to buy their own round-trip airline tickets for cross-country flights to the games? Ditto for hotel and meal expenses, and travel while out of town.

Professional football players are probably already overpaid, considering the fact that they only "work" about half a year at their jobs.

++++

SCHOOL STRIKES, of course, are more drastic than those to the National Football League.

We were relieved to hear the president of the Texas State Teachers Association say she was opposed to such drastic action.

The way our schools' financing has been stretched due to the new school financing program, any such action in our area would more than likely bankrupt even the strongest schools.

Strikers, if they aren't careful, can very easily kill the goose that laid the golden egg.

Mrs. Wilson and Mrs. Minyen each correctly predicted the outcome of 12 of the 14 games on the contest last week. Mrs. Wilson missed the outcome of the Vega-Sunray and Houston-Rice games and predicted a 12-7 Happy win on the tiebreaker, 12 points off the 18-13 Bovina win. Mrs. Minyen missed the Vega-Sunray and St. Louis-Denver games and predicted a 7-6 Bovina win, 18 points off the actual score.

Mrs. Wilson was presented a check for \$7.50 with Mrs. Minyen awarded \$5 for second place.

Villarreal and Ms. McKay, along with six other contestants, predicted the outcome of 11 games on the contest. Current Comments From . . .

DICK BROWN in the MASON (MICH.) NEWS....In the next three or four weeks the roads leading to colleges will be packed with youngsters on their way to college. They will be joined by the high school group lining up for the school buses. There is a warning that all these students should heed.

There is nothing magic about education. There is no foolproof guarantee of success included in a college or high school diploma.

There is no reason for every high school graduate to expect, deserve or need to go to college.

The fact is that we live in an era when everyone needs an education. By education we do not necessarily mean formal schooling at the college level. We mean the development of the ability to perform meaningful and needed labor.

Getting any kind of a job in these days of economic bind is tough but it is next to impossible for those with no trained and marketable skills.

The formula for success in this day is simple. Find a line of work which you are capable of doing, which you like and for which there is a demand...and acquire the reputation of being a reliable, conscientious, loyal worker.

Follow this formula and you can write your own ticket, even in this suppressed labor market in which we find ourselves.

Without this formula the most learned, educated college grads—those with degrees coming out their ears—can get nowhere.

Learning, both formal and informal, both at the college level and the skilled trades, isn't automatic. It isn't instant success unless the knowledge gained is put to good use, unless there is a demand for the knowledge.

Too many of today's high school grads are pressured into heading for college campuses when they should be eyeing the trades.

As someone once said, "The society which scorns excellence in plumbing as a humble activity and tolerates shoddiness in philosophy because it is an exalted activity will have neither good plumbing nor good philosophy. Neither its pipes nor its theories will hold water."

PAUL DURHAM in the DIBOLL-FREE PRESS....Who is we—On at least two different occasions this

newspaper had editorially supported this nation's trade with other countries, including the Soviet Union. Although we feel there should be some control on exports such as the big wheat sales, we still feel that there is merit in selling surpluses. For one thing, it makes farming worthwhile for our grain farmers.

This must be the way some farmers feel, too. Here is a recent article from the Farmland News titled "Who's We?"

Rep. John Y. McCollister (R-Neb.) has a point.

"I find it incredible that some people can stand up and say that 'we' should not sell our grain to the Soviet Union," he says.

We? Whose grain is it anyway? Is it the longshoreman's grain? The government's grain?

For the government to interfere and prevent sales would be outright confiscation, he says—without compensation, without a hearing, without so much as an apology.

Increasingly, we encounter the kind of logic that regards the nation's crops as public property, to be disposed of by the government. The outrage of other independent businessmen were they subjected to this same reasoning can only be imagined.

Pointing out that our farmers have produced a huge surplus of grain and that its sale is saving the taxpayer millions of dollars in storage costs, in addition to giving our balance of trade a badly needed boost, seems to have no effect at all. Reminding critics that the slipshod handling of the 1972 sale to Russia has been replaced by careful planning, full disclosure and hard bargaining doesn't help either. One wonders if anyone can seriously believe that the best interest of consumers requires rock-bottom commodity prices and a liberal sprinkling of farm bankruptcies.

It's ironic that farmers, virtually the only true independent businessmen left, are subject to such intense attempted regulation of the sale of the products.

"We" American consumers, usually with the encouragement of our legislators, do seem to regard the wheat field and corn fields as "ours."

Do "we" plow until midnight, worry over fertilizer shortages, and take "our" losses when hail or

drought destroy crops? Where are "we" when it's time to buy the fertilizer, cut the wheat and pay the mortgage?

Even in socialist countries, McCollister points out, where the government owns the means of production, it does not destroy individual property rights or repeal the law of supply and demand. Yet the leaders of some segments of organized labor and their friends in Congress presume to do just that.

DON SCARBROUGH in the GEORGETOWN SUN....A New Orleans attorney called at the RFC Office regarding a loan for his Louisiana client. After exhaustive work, the attorney ran the title down to 1803 and sent the report to the RFC. Presently he received a letter from the RFC stating that approval could not be given for the loan until title was claimed for the period prior to 1803. The attorney's reply was a classic, and is reproduced herewith.

"Your letter regarding titles in Case No. 189156 received. I note you wish titles to extend further than I have presented them. I was unaware that any educated men in the world failed to know that Louisiana was purchased by the United States from France in 1803. The title to the land was acquired by France by right of conquest from Spain. The land came into possession of Spain by right of discovery made in 1492 by a Spanish-Portuguese sailor named Christopher Columbus, who had been granted the privilege of seeking a new route to India by the then reigning monarch, Queen Isabella. The good Queen, being a pious woman and careful about titles (almost as careful, I might say, as the RFC) took the precaution of securing the blessing of the Pope of Rome upon the voyage before she sold her jewels to help Columbus. Now, the Pope, as you know, is the emissary of Jesus Christ, who is the Son of God, and God, it is commonly accepted, made the world. Therefore, I believe it is safe to presume that He also made that part of the United States called 'Louisiana.' ...and I hope to hell you're satisfied."

J.W. Wright, who farms near Bovina, took Parmer County's first bale of cotton of 1955 to the gin Friday afternoon, Sept. 9. The cotton was ginned by Mills-Fleming Gin at the Hub. It was Half and Half variety and was planted the 22nd day of April.

10 YEARS AGO—SEPT. 15, 1965

Bovina's first 1965 bale of cotton was ginned yesterday (Tuesday) at Bovina Gin Co. Produced by Arnold Hromas on his farm a mile west of town, the cotton was handpulled by a large crew which began work yesterday morning.

Much more excitement and publicity such as occurred here last week may cause the change of the nickname of Bovina from Bull Town to Snake Town.

Mrs. Lula White, owner of the Spudnut Shop, was near the back door of the building when she heard a hissing sound. She says she thought the sound was being made by someone checking a gas line. Then, she started to open the back door to check on the sound. That's when she saw the rattler, a three footer with seven rattlers!

According to her own account of the story, she screamed, on the run, and went to the city hall to get Deputy Henry Minter. Minter returned to the shop along with Paul Holcomb and Andy Garza, city employees. While the others looked on, Garza destroyed the snake with an iron bar, but not before the reptile had struck at him.

The publicity part came about when area radio stations heard of the story. Then a "jazzed up" report came on a news wire service. Even Paul Harvey, a national radio commentator, gave a report of the Bovina snake. According to people who heard the national report, it had Bovina located in New Mexico and lawmen shooting at the snake with pearl-handled .45's.

Full impact of the farmer's ability to continually improve production is not realized by most of us. Demonstrating this point is a comparison of the total acreage planted now to that planted in the past. It's true the 218 million acres now being farmed in the United States is a lot of land... most people assume it's more than ever before. Fact is, it's considerably less than many years since 1900 and far below the record 359 million acres planted in 1929. Washington experts who keep the records say on the average two and one half million acres of cropland are deleted every year, some to urban development, but most to grassland or forestry. Offsetting this loss is the breaking of half that much new land, one and a quarter million acres. A net loss of over a million acres every year... but technology improves... research continues... methods change... farmers work smarter... production sets new records. Again and again.

Young Homemakers Week Proclaimed

Mayor Tom Bonds of Bovina this week signed a document proclaiming the week of Sept. 21-27 Young Homemakers of Texas Week here.

The three main goals of the Young Homemakers are to strengthen the individual as a person, family leader and community leader; strengthen the family life of its members and seek a better understanding of individual family members; and to strengthen the community in which members live.

The Bovina Young Homemakers have set two events during the special week—they will honor school board members and host a crafts program.

Members of the chapter will serve baked goods and coffee at the school board meeting. On Tuesday, at 7:30 p.m., a crafts night will be held in the home of Mrs. Joe Blatchford. All women, ages 18-35, are invited to attend.

At the organization's Sept. 9 meeting in Community Room of First State Bank of Bovina, Mrs. Judy Seals was introduced to the group. Mrs. Seals, homemaking instructor at Bovina High School, will serve as chapter advisor along with Mrs. Gwen Corn. Activities for the Young Homemakers Week were discussed.

For the bicentennial celebration, the chapter will make a special quilt to be donated to the Bovina Museum. Members voted to host a chill supper before the Bovina-Farwell football game Friday, Oct. 17. Mrs. Daryl Kirkpatrick will be in charge of the chill supper committee.

A bread dough crafts program was presented by Mrs. Wilson of Friona. Mrs. Mike Beauchamp and Mrs. Kirkpatrick were hostesses for the meeting. Next meeting will be at 4 p.m. Tuesday, Oct. 14, in Community Room of the bank.

WATERMELON FEED... A large crowd of Bovinians was on hand at Mustang Field for the annual watermelon feed, hosted by members of the board of trustees of Bovina Schools. The first-of-the-school-year social is held so that residents of the community may become acquainted with new

teachers and visit with returning faculty members. Cap Naegle and Earl Whitten, two of the seven-member board, are in the front center of the picture, manning the slicing board. Other members are Leon Schilling, James Clayton, Billy Smith, Edwin Lide and Leon Ware.

Bicentennial Program Begins Study Club Year

Bovina Woman's Study Club began the new year Thursday of last week with a luncheon at Bovina Restaurant and Steak House. Mrs. Rouel Barron, president, opened the meeting with a poem written by Helen Steiner Rice: "As we start a new year untouched and unmarried, unblemished and flawless, unscratched and unscarred, may we try to do better and accomplish much more, and be kinder and wiser than in the year gone before—What will you do with this year that's so new? The choice is yours—God leaves that to you!"

A brief business session followed with three new members—Mrs. Ronald Minyen, Mrs. A.R. McCutchan and Mrs. Frank Pesch—welcomed into the organization.

Mrs. Ovid Lawlis, Federation Counselor, then presented a program on the Bicentennial Federation with the theme of "Sea to Shining Sea." With her speech focusing on patriotism, Mrs. Lawlis stated that "as we near the bicentennial celebration of the United States, the club will look to the past to review the basic concepts and moral structures of the nation and the Federation because it is upon this heritage that we continue to strengthen both the nation and Federation. The time has come when we must unite this nation so all people participate in love of country through their actions to strengthen and preserve it."

"Let each of us say: 'Sea to Shining Sea, you can count on me so there will be unity.'" Mrs. Lawlis closed the program by presenting small American flags to those attending and playing a tape of the national anthem.

For the luncheon, guests were seated at tables covered with white cloths and adorned with milk glass bud vases holding rose buds. A centerpiece of Peace roses, baby's breath and ivy centered the head table.

A baked ham meal with all the

trimmings was served to Mrs. Barron, Mrs. Earl Richards, Mrs. Earl Whitten, Mrs. Joe Fowler, Mrs. Charlie Ross, Mrs. Leslie McCain, Mrs. Earl Stevenson, Mrs. A.L. Hartzog, Mrs. Leon Ware, Mrs. Bobby Englant, Mrs. Clarence Jones, Mrs. I.W. Quickel, Mrs. Lawlis, Mrs. Pesch, Mrs. O.H. Jones, Mrs. Minyen, Mrs. McCutchan, Mrs. Henry Ivy and Mrs. Oakley Stevenson.

Next meeting of the organization will be Thursday of next week at the club house with the program to be on "Americanism." Guests will be members of the Senior Class at Bovina High School. Hostesses will be Mrs. Oakley Stevenson and Mrs. Lowell Boozer.

UMW Hears Speech By Russian Author

United Methodist Women met for a luncheon and program Tuesday of last week in Fellowship Hall of the First United Methodist Church. Mrs. John Dixon and Mrs. George Turner were hostesses for the luncheon.

Mrs. Vernon Estes led a patriotic program, which had as its theme scripture from Ezekiel. Mrs. Estes presented excerpts from a speech given by Aleksandr I. Solzhenitsyn,

exiled Russian author, in which he stated that he believed the main problem in the United States to be moral and spiritual rather than economic or political. Copies of his speech have been ordered and will be available for persons interested in reading the speech.

Mrs. Dixon presided over the business session. Members voted to hold the annual bazaar Nov. 21.

Others attending were Mrs. Joe Jones, Mrs. Rouel Barron, Mrs. Joe Fowler, Mrs. Myrtle Perry, Mrs. Earl Ware, Mrs. O.H. Jones, Mrs. Henry Ivy and Mrs. Dean Hastings.

by Lou Nuttall

Just a special note to our sister-in-law in South Dakota - DON'T take Lee Ann to see "Jaws!"

Finally got a chance to see the movie and it is everything we heard and then some. Never been so absolutely terrified in our life.

It was a good thing that paper cup was empty, cause it did get crushed. Heard about one girl with a full cup which flew about three feet in the air and showered several rows of movie-goers, and the funny thing was that no one even realized it for awhile.

It is a superb movie, well-made in every respect. Read that even the experts couldn't tell the fake shark from the real things in the film.

The terror would build up to the nerve-snapping point and then the tension would be broken with a well-timed humorous remark or other bit. Then, just about the time one relaxed back in the seat, wham!, they would throw another screamer of a scene at the audience, until finally, we realized we hadn't relaxed in at least 30 minutes. Still clutching that empty soft drink cup as if it could save us from the Great White killer.

Shoot, we never did really want to go to the beach, anyway. And any boat smaller than the Queen Mary probably isn't too safe out there on the water in the first place!

Am sure there has been plenty of complaints without any more comment from us, but...couldn't someone do something about those gravel trucks speeding down Third Street and the Dimmitt highway?

Left the office the other day just in time to see two of the McMillian gravel trucks "dragging" Third, side by side, at at least 50 miles per hour.

Wonder where the black and whites are when this is going on every day?

Our apologies, from myself and

the Booster Club, to Vernon Ward. Seems we left Vernon's advertisement out of the Mustang football program.

The good guy "Hoss" is, he just donated the money, anyway, to the Booster Club, and we do appreciate that kind of support.

The last few football seasons have sorta spoiled us, we goss. Had gotten accustomed to beautiful weather on Friday nights until at least the latter part of October. Just wasn't ready for that bone-chilling, damp game Friday night. It's difficult to even enjoy winning a game in that kind of setting.

And, speaking of football, the ladies did all right for themselves in last week's football contest. Three out of the four winners (had a tie for third place) were women. Way to go, gals!

Get a little perturbed when we hear the disgruntled men claim that the husbands fill out the blanks for their wives. Not so, fellas. We know that Mary Jane and Edna fill out their own contest entries and they can hold their own with the men any day in that little guessing game. If you don't believe the women are good at predicting the winners, just ask Erith Hawkins.

Open house Set By Water District

The Board of Directors of the High Plains Underground Water Conservation District No. 1 will conduct an open house of its new office building, 2930 Avenue Q, Lubbock, Saturday from 1 p.m. until 6 p.m. All interested persons are invited to meet with the Directors, County Committeemen and staff at that time and to tour the headquarters facility.

The new District offices, prepaid without increasing the District's tax rate, selling bonds or borrowing any money, was designed to accommodate the many diverse programs and functions of the District and to provide facilities for other water-oriented activities, such as meetings by industrial, civic, governmental and educational groups.

Although this building was designed specifically to provide efficient facilities for the accomplishment of the functions required of the District by State law, and as deemed necessary and beneficial by the District's

Directors, it is emphasized that it was also designed to better serve the water conservation and development needs of the entire populace of the District, and it is hoped that such public use is made of the building as can be accommodated.

Special features of the 7,724-square-foot building are a 30-foot by 40-foot Board of Directors' room, slide-sound-film projection facilities, a photography-reproduction laboratory and a basement for storage and mailing of the District's monthly publication, "The Cross Section."

As a part of the open house, the District has published a brochure entitled, "Office of the High Plains Underground Water Conservation District No. 1," which explains in detail the design and construction, intended use and financing of the new facility. Anyone interested in obtaining a copy of the publication may receive one, free of charge, by contacting the District's Lubbock office.

180,000 4-H members shared in awards provided by 60 private-sector donors through the National 4-H Service Committee in 1974.

Church Chuckles by CARTWRIGHT

"If I don't mention money, they think the church is flush — if I do mention it, they say I'm too worldly! Would you consider trading jobs?"

"YOU WILL BE BLESSED FOR IT"

A beautiful and practical gem of wisdom is found in Proverbs 22:9: "Be generous, and share your food with the poor. You will be blessed for it."
I am to be generous. Why? Because God has been generous with me. I have what I have because God shared with me. "Every good endowment and every perfect gift is from above, coming down from the Father of lights with whom there is no variation or shadow due to change."
I am to share. My generous aim must be translated into good deeds. I do not say to the poor man: "Good luck to you, keep yourself warm, and have plenty to eat." Instead, I should say: "Friend, please accept some of this bounty which God has given to me."
If I will be generous in heart and helpful in life, I will be blessed. Jesus taught that true joy is found in loving and in serving. He said: "It is more blessed to give than to receive." Jesus, in His picture of the day of judgment, teaches that those who will enter into eternal life are those who have ministered to the needy.
Friend, share what God has given you! You will be blessed for it!

How does the cost of life insurance compare now to what it was twenty years ago?
It is probably the only service-oriented product that serves a long-established need and continues to go down in price per thousand at any given age. There are many good reasons... competition being one of the biggest. Contrary to popular belief, life insurance rates are not set by any government regulatory body. As the insurance industry has become more sophisticated with the use of automation and modern business methods, so have the field representatives... a smaller, more professional sales force... helping people simplify their problems. People live longer and insurance companies invest their money more wisely. Therefore, you have a better product at a cheaper price with reduced administration costs.

RAMPANT PUMPKIN VINE...Mrs. G.A. Bandy of 1101 Ave. K has a rather unusual pumpkin vine, even for Texas, growing near her back door. A volunteer plant, the single vine is over 30 feet long and about 15 feet wide with hundreds of blooms and numerous pumpkins on the vine. One, which may not be seen in the above photo, is nearing maturity

and is approximately the size of a bushel basket. Mrs. Bandy is pointing up towards another oddity, a pumpkin, about basketball size, which is growing about seven feet off the ground, entwined in a honeysuckle vine. The pumpkin, although shaded by the vines, may be seen just above and to the left of Mrs. Bandy.

Grain Sales Ban Blow To Farmers

The president of the Texas Farm Bureau has urged President Ford to call off his moratorium on grain sales to Russia.

Carroll Chaloupka of Dalhart said the ban on grain sales is a serious blow to agriculture. Extension of the moratorium until mid-October was announced by the President following a meeting with George Meany, head of the AFL-CIO.

"Farmers resent being used as pawns in a political chess game," the grain and livestock farmer said. "When agricultural markets are involved, we feel you should consult farmers, not the AFL-CIO. Labor union leaders do not feed this nation—farmers and ranchers do."

Chaloupka said farmers had responded with bumper crops to the government's request for all-out agricultural production to help fight inflation and earn dollars abroad. He reminded the President that farmers had been promised access to world markets.

"Now with government stepping in to interfere with

normal sales, we feel that we have been short-changed," Chaloupka said. "This action could have results not anticipated in your negotiations with labor union leaders. Instead of resulting in more domestic supplies of grain and lower consumer prices, the opposite may be true."

In his letter, Chaloupka said Texas wheat farmers are getting ready to plant their 1976 wheat crop.

"If they feel they cannot count on normal export sales, they may cut back on their acreage, or not plant wheat at all," Chaloupka said. He added that even the most patriotic farmer must make a profit to stay in business.

"We know you understand the problems of agriculture as well as the contributions of farmers and ranchers—as you have so eloquently stated so many times," Chaloupka said.

"We urge you to call off your moratorium, then go to the American people and explain the economics of agriculture. They need to know who puts food on their table."

PUBLIC NOTICE

SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS (S.J.R. NO. 11) SPECIAL ELECTION NOVEMBER 4, 1975

PROPOSITION NO. 1 ON THE BALLOT

Revising the separation of powers, legislative and executive provisions of the Texas Constitution. Article II, Separation of Powers, is amended to:

Provide that the powers of government of the State of Texas are divided among three distinct branches: legislative, executive, and judicial. Except as otherwise authorized by the constitution, members of one branch may not exercise any power properly attached to either of the others.

Article III, The Legislature, is amended to:

Continue the present structure of the legislature consisting of a senate with 31 members and a house of representatives with 150 members. The present organization and procedure of the legislature are continued except that the provision allowing closed executive sessions of the senate is omitted. Provisions on the conflict of interest of members of the legislature are continued, as is the governor's power to veto bills or line items in appropriation bills. The article provides for single-member senatorial, representative, and congressional districts. A compensation commission is created to recommend the compensation and allowances to be received by members of the legislature. The legislative compensation, set by law, may not exceed this recommendation and does not take effect until after an intervening general election. The article provides for annual sessions of 140 days in odd-numbered years and 90 days in even-numbered years, and a veto session of 15 days upon request of three-fifths of the membership of each house. The legislature may meet in organizational sessions prior to the convening of the legislature in regular sessions.

Article IV, The Executive, is amended to:

Continue the present status of the governor and all other statewide officers, and include the commissioner of agriculture as an executive department officer. The governor is limited to two consecutive terms. The governor is authorized to designate chairmen of state boards, and to remove gubernatorial appointees to state agencies for cause unless the removal is vetoed by the senate. The article mandates the legislature to provide a new governor-elect an appropriation so the governor-elect may organize an office prior to inauguration, and permits the legislature to grant powers of fiscal control to the governor. All governmental agencies, with several exceptions, have a life of not more than ten years unless extended by the legislature, and, at the regular session held in odd-numbered years, the governor shall submit to the legislature a report on the organization and

efficiency of the executive branch.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the SEPARATION OF POWERS, LEGISLATIVE, AND EXECUTIVE PROVISIONS OF THE Texas Constitution."

If adopted by the voters, will become effective January 1, 1976, except Article III, Section 5, which becomes effective January 1, 1981.

The supreme court and the court of criminal appeals are merged into a single court of last resort, and this supreme court is authorized to provide for efficient administration of the judicial system and to balance case loads. Voting by the people in all elections must be by secret ballot, and the legislature shall provide by law for residence, registration, and absentee voting

A new Higher Education Fund for Texas is established for the benefit of colleges and universities outside The University of Texas and Texas A&M Systems. The state ad valorem tax of ten cents on \$100 valuation is continued as the source of revenue for the fund. The ten cent higher education tax may be changed by law within the ten cent maximum. The legislature may allocate by law a portion of the Higher Education Fund to certain state vocational and technical institutes. The article provides that the public education system must furnish each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs exceeding the level provided by the state consistent with general law. Authority to issue Permanent University Bonds is continued but the bonds may not exceed 30% of the Permanent University Fund.

Provides that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. Existing exemptions from ad valorem taxation are continued. The present dedication of motor fuel taxes for highway purposes and the Available School Fund is retained. The "pay-as-you-go" principle for the operation of state government is retained. The legislature shall establish separate formulas for appraising land to promote the preservation of open-space land devoted to farm or ranch purposes and may establish separate formulas for appraising land to promote the preservation of forest land devoted to timber production. The \$3000 exemption from state ad valorem taxation for residential homesteads is continued and the legislature by law may increase this amount. A separate \$3000 exemption from ad valorem taxation by political subdivisions is provided for the residential homestead of persons at least 65 years of age and the political subdivision may increase this amount. The legislature by law may exempt from ad valorem taxation certain property owned by veterans' organizations, non-profit water corporations, and persons in need because of age or disability, and economic circumstance. The legislature may also exempt property to preserve historical, cultural or natural history resources. Taxpayers are provided a new method of correcting inequitable tax assessments by paying ad valorem taxes under protest and suing for a refund in a district court. State debt may be authorized by law only if approved by a two-thirds vote of each house of the legislature and submitted to and approved by a majority of the qualified voters of the state voting on the question. Public funds and public credit may be used only for public purposes and no public funds or public credit may be used to influence the election of a public officer. The article prohibits a retail sales tax on agricultural machinery or parts, fertilizer, feeds or seeds, prescription drugs or medicine, or food, except food sold by restaurants for immediate consumption. The seaward beaches of the Gulf of Mexico and coastal submerged lands belonging to the state are held by the state in perpetual trust for the people, and subject to reasonable limitations prescribed by law, the public has the free and unrestricted right of use and benefit of the beaches. The provision is continued that, except as otherwise provided by law, a rate of interest in excess of ten percent a year is usurious, and that if a contract does not specify a rate of interest, the rate under the contract may not exceed six percent a year. Ponies Kick Cowboys For First Victory

The Bovina Mustangs came up with their first win of the 1975 football campaign Friday night, defeating old rival's, the Happy Cowboys, 18-13. The game was played in a cold, misting rain before a small crowd for both sides.

The Mustang defense, led by Terry Schilling, Dana Harris and Ray Martinez, held the Cowboys scoreless in the first half while the Maroon offense racked up 12 points for a 12-0 halftime lead.

Ruben Salazar took the opening kickoff on the 30 and ran the ball back to the Bovina 43 and from there the Ponies scored on their first possession of the pigskin, taking 15 plays to push across the goal line.

The Mustangs picked up six first downs enroute to the TD with Quarterback Dennis Willard scoring from about one-half yard out with 4:57 remaining in the first quarter. Halfback Tommy DeLeon failed in a running attempt for the extra points.

Putting the ball into play on their own 35, the Cowboys, behind the running of Vincent Venhaus, moved the ball to the Bovina 33 before Ray Martinez pounced on a Cowboy fumble.

Starting their second touchdown drive at the Bovina 30, Halfback Clint Cox picked up five yards and Halfback Tommy Serna five more for a first down at the Bovina 40. Martinez picked up four and Cox five with Willard, on the third down play, driving for three yards and a first down at the Happy 48.

Three plays netted the Ponies seven yards and an offside penalty left the Mustangs with a fourth down situation and eight yards needed for a first down when DeLeon took the ball on a double reverse and netted 31 yards to keep the Mustang drive alive. From the 18, Martinez picked up three, Willard two and Cox six with Martinez plunging over left tackle four yards for the score. The attempt for extra points failed again

and the Ponies led, 12-0, with 5:53 remaining in the half.

The Cowboy receiver fumbled the kickoff with an alert Mustang defender falling on the ball at the Happy 32. However, the golden scoring opportunity crumbled with a five yard offside penalty followed by a 15 yard offensive holding penalty, forced Willard to punt.

The Cowboys got on the scoreboard with 7:28 remaining in the third quarter with a drive that began at the host team's 15-yard-line. Quarterback Terry McDonald picked up the counter from four yards out. The extra point attempt was aborted when the holder fumbled the snap and Bovina led at that point, 12-6.

The Mustangs failed to move the ball on their next possession and a short 13-yard punt by Willard gave Happy the ball on their own 42.

However, the Maroons got new life when Alan Rhodes covered a fumble on a Happy punt attempt, giving the Mustangs the ball on the Happy 29. Bovina moved the ball to the Happy four yard line before losing the ball on downs.

Once again, the defense arose to the occasion. This time Duane Mitchell plucked a fumble out of midair and raced to what looked to Mustang fans to be a touchdown, however, the officials ruled the ball dead on the one. From the one, Martinez dived across the line for the touchdown on the first play of the final stanza, giving the Ponies an 18-6 lead.

Another fumble on an attempted punt, this time by the Mustangs' Willard, gave the Cowboys the ball for the final time on the Bovina 12. From there, Venhaus picked up the entire 17 yards in three plays, scoring from six yards out for the final TD of the evening. Venhaus kicked the extra point with 24 seconds showing on the scoreboard clock.

Cox led the Bovina ground game with 69 yards in 17 carries while running mate DeLeon stepped off 67 yards in 10 carries. Martinez picked up 17 yards in nine carries, Serna accumulated 19 yards in five carries and Willard stepped off eight yards in four carries.

Backup Quarterback Butch McCain went in for Willard with only seconds left in the first half when Willard suffered a broken blood vessel in his hand and played for a time in the third quarter before Willard came back on the field.

"We were very pleased with the victory and felt our kids had a lot better effort Friday night," commented Head Coach Joe Christian this week. "Offensively, I'd say we were 100 per cent better," he commented, "however, we were not too pleased with the defense, especially in the second half; they moved the ball too much on us."

Offensively, Christian cited Cox and Guard Dana Harris and defensively, the head coach singled out the work of DeLeon and Serna.

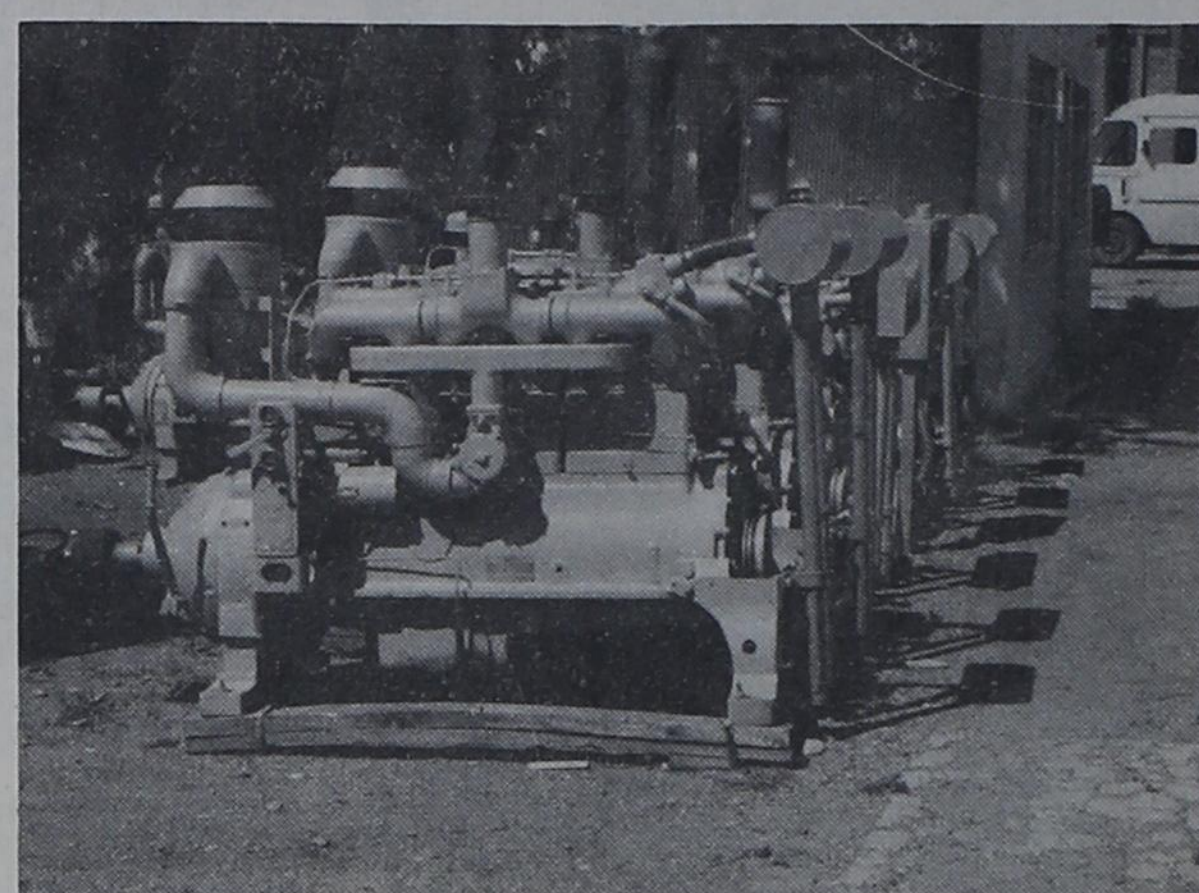

When asked about the injury to Willard's hand, Christian said the hand was still swollen and sore this week and Willard would be a question mark going into Friday night's game at Lazbuddie.

Maroons Meet 'Horns In Old 'Grudge' Game

Bovina's Mustangs, fress off their first victory of the 1975 season, will take the road for the second consecutive week Friday night, meeting again for the second consecutive week, a long-time rival and former district opponent, Lazbuddie's Longhorns.

Game time will be at 8 p.m. Friday.

The game will continue the type of rivalry expected between two schools in the same county. The Longhorns are said to consider a win over the Mustangs to be the highlight of any football season.

Lazbuddie will go into Friday night's game with no wins against two losses this year. The Longhorns have failed to put any points on the scoreboard in the young season, while Whiteface scored six points and Texico eight points against the 'Horns. Texico scored its touchdown on a pass interception in the final 30 seconds of the game last week.

"Lazbuddie isn't as big as the other teams we've faced this year, but we still expect a real tough game from them," Head Coach Joe Christian said Tuesday. He noted that the Longhorns run an offense similar to that of the Mustangs and also run out of a double slot formation.

"We feel Ricky Wall, the 'Horns fullback, is an excellent player, as good as any we've seen this year," Christian commented.

In last year's game against the Longhorns, the first since 1971, Bovina emerged with a 39-0 victory and will be attempting to keep the winning string alive Friday night.

Lazbuddie, who struggled through a rebuilding season last year, should

be improved this year with the experience of 17 returning lettermen.

Nine offensive and nine defensive regulars return from last year's squad, including Wall, a 5-7, 165-pound running back, who is considered capable of earning all-state honors in Class B.

Also expected to provide the leadership are defensive specialist Balty Buentello (5-7, 155), running back-defensive lineman Marty McGuire (5-8, 160), noseguard Greg Crim (5-8, 130), offensive guard Stan Treider (5-7, 150) and back Charleson Steinbock (5-4, 110), a freshman.

The Longhorns, who compete in the North Zone of District 2-B, are one of the smaller teams in that district, but are expected to be quick.

Probable starters for the Mustangs are as follows:

OFFENSE:
 Center—Duane Mitchell, 135, senior;
 Guards—Dana Harris, 135, senior; Steve Guest, 170, senior;
 Tackles—Terry Schilling, 170, senior; Ted Stallings, 170, senior; or Randall Ritchie, 210, freshman;
 Ends—Ken Sorley, 160, senior; John Caldwell, 175, senior;
 Quarterback—Dennis Willard, 160, senior;
 Fullback—Ray Martinez, 175, senior;

Halfbacks—Clint Cox, 160, senior; and Tommy DeLeon, 160, senior.

DEFENSE:
 Linemen—DeLeon; Caldwell; Mitchell; Schilling; Stallings; or Ritchie;
 Linebackers—Martinez; Gerald Shelby, 155, sophomore;
 Secondary—Tommy Serna, 125, junior; Cox; Ruben Salazar, 140, freshman; and Alan Rhodes, 150, senior.

SNAKES ALIVE!!!!...Larry Scott, above, his father, Eugene Scott, and Ben Jenkins, an employee, uncovered 13 snake eggs under a pile of scrap iron at Larry's farm Tuesday of last week. Nearby was the skin of a bull snake which measured 56-inches long. Scott cut one egg open for Blade employee

Mrs. Jim Russell, and out crawled a 13 and one-half inch bull snake. The soft-shelled eggs, which were in a cluster, were about the size of a hen egg. Not too thrilled with the assignment of photographing snakes, Mrs. Russell's only comment was "This is gory!"
