**JANES' HISTORICAL HOME RANCH**--Scheduled to be moved in the near future to a new home just east of the Bailey County Civic Center in Muleshoe is the Janes' Home Ranch house. Constructed early this century, this stately home will be moved and preserved, along with the Santa Fe Depot and the Muleshoe Ranch Cookhouse. The Janes' Ranch home was donated to the Muleshoe Heritage Foundation.

## Janes Ranch Historical Home Donated To Heritage Group

As the Muleshoe Heritage Foundation 'gears up' to begin work on a historical/museum located east of the Bailey

County Civic Center near the west edge of Muleshoe, one of the future focal points may be the historical Janes Ranch headquarters.

Recently, the current owner of the ranch house, located east of Muleshoe, donated the Janes Ranch House to the Muleshoe Heritage Foundation. It will be moved in the near future to join the Santa Fe Depot building that was moved to its new permanent home about three months ago.

The Janes Home Ranch is now composed of League 205, Garza County School Land, and League 220, Castro County School Land, and located about six miles east of Muleshoe.

Records show that the State of Texas leased these lands to T. H. and J. W. Snyder for the period of ten years, beginning September 17, 1889, for two cents per acre, per annum. The Snyders were ranchmen who operated more or less around Colorado City, Texas, at that time.

On March 5, 1892, the State of Texas issued a patent to League 220 to Castro County, with the patent being executed by J. S. Hogg, Texas governor, on that date.

On the same date, Castro County sold the land to Thornton Jones for \$5,959.60. The land then passed from Thornton Jones to Mrs. E. S. Ray and from there, from Thornton Jones and his wife, and Mrs. E. S. Ray and her husband to A. T. Dunlap, who on March 20, 1894, quitclaimed League 220 to Castro County.

On October 10, 1895, J. S. Brown and others executed a bill of sale to Janes Brothers and Brown for \$47,594.08, conveying the title to all the cattle, horses, improvements,

and other lease privileges on 18 Leagues of land, comprising 53,000 acres, which included League 220, Castro County School Land.

At that time, it was customary that the lessee construct all fences and other improvements necessary for the use and enjoyment of the leased lands.

On September 1, 1902, Castro County leased to Janes Bros. and Brown Cattle Company, four Leagues of land, which included League 220, beginning September 1, 1902 and ending January 27, 1903, for a consideration of three and one half cents per acre, per annum.

Then, on May 9, 1904, Castro County entered into a contract for sale of League 220 to Janes Bros., a partnership composed of J. B. Janes, J. O. Janes and J. N. Janes, for \$1.75 per acre; \$10 cash, and a sum of \$7,739 to be paid within thirty years; and carrying an option to pay \$1,000 or any multiple, at any interest paying date after three years.

J. B. Janes sold his interest in the Home Ranch to John N. Janes in 1910 and moved to Knox City.

On May 13, 1913, Janes Bros. paid the sum of \$7,739 in full, and received a warranty deed from Castro County.

**THE HOME RANCH**  
The present ranch house was constructed with full basement and two complete stories, and was thoroughly modern, with steam heat, and electricity provided by a carbide plant.

Included was a large servants' quarters, with the house being double walled stucco and gravel.

The Home Ranch included three stories, with a basement.

The main floor had a living room with fireplace, dining room with French doors, kit-

### Local Cyclists

#### Win 5 Awards

#### At Clovis Meet

Nine members of the Muleshoe Road Riders Motorcycle Club attended the annual motorcycle rally hosted by the High Plains Drifters Motorcycle Club in Clovis on Saturday, July 27.

According to reports, games were played during the day-long rally, drawings were held, and an evening meal was served to cyclists from the area.

Marcha and Odell Rasco won first place with their 1983 Interstate Motorcycle and trailer. They also captured the "Best Overall" trophy for the second year.

Winning first place in the Interstate division were Sid and Loretta Turner of Clovis.

Lee and Margaret Kimbrough brought home first place for their 1985 Limited Edition Honda.

Also attending were Jess Bryant and Charlie and Connie Haight.

Muleshoe Independent School District Superintendent H. John Fuller said he would encourage all parents of students, and all taxpayers to attend the school budget hearing this week.

Superintendent Fuller said the budget hearing will be conducted at 8 p.m. on Thursday, August 8, in the school administration office.

Joyce Holmes, manager of the Bailey County Civic Center, said fall and winter youth skating will be starting up again September 20.

She said sponsors for the skating are needed. Interested groups may check with her at the Civic Center.

Don't forget, the Mule Putt Miniature Golf Course has an ongoing tournament, with players taking to the course on Friday and Saturday nights.

There's still time to pay your \$5 entry fee and join the fun at the Mule Putt Golf Course.

A basketball tournament is scheduled to be played at the Roy S. Walker Community Center August 27-31, in Clovis, N.M.

Entry fee is \$70 per team, and there is an August 23 deadline for teams to enter.

For more information, or to enter the tourney, call Jerry Logg at 505/762-4387.

**TROPHY BUCKLES TO BE AWARDED**--Jeff Smith, coordinator of the annual Mule Days Festival, will be awarding a number of buckles to winners of the events during the Mule Rodeo held in conjunction with the other Mule Day Festival activities. Here, he is shown with the 1985 buckles, and is ready to present them to winners.

## City Officers Recover 'Stolen' Merchandise

\*\*\*

### Mule Days Festival Provides Color, Fun

Are you a person who likes excitement, fun, food, friends and the unexpected? If so, the Mule Day Festival in Muleshoe, Texas, is definitely for you! Over the years, the celebration has seen ten inches of rain just days prior to Mule Day; one of the chairmen was laid up from an accident; a stubborn train (and they talk about mules) blocked the entrance for two hours; not to mention weather like only Texas can deliver.

The Mule Day Festival, as we know it today, began as a small private party some fifteen years ago. In 1970, Jeff Smith and Joe Bob Stevenson, (a fun loving duo) decided to have a party and a grand total of three couples were present. The next year saw these couples inviting friends, so the numbers grew to fifteen or so. Each year, more friends were invited and the attendance climbed.

In 1976, Jeff Smith purchased 307 acres just northeast of Muleshoe, so the dance and party was moved to his barn. The party kept growing in attendance until 1980 when it was decided not to have a party because of sky-rocketing costs.

Several people voiced their disappointment over the cancellation of the party; so in 1981, Larry Winkler joined with Smith to host the party. This year saw the party named the "Mule-A-Rama" and T-shirts were ordered to mark the event. People gave a donation to help defray costs.

Smith and Winkler decided to

### SPS Asking

### New Rate

### Adjustment

Southwestern Public Service Company (SPS) today filed informational packets giving advance notice of a request to restructure rates for retail electric service to the Texas communities the utility serves.

The company emphasized the restructuring will barely change prices customers pay for electricity.

"Prices to our customers will hardly increase or decrease under our rate proposal," said SPS president and chief executive officer Bert Ballengee.

"We have had some costs to the company go up, and some costs come down," Ballengee said. "Now, we must restructure our rates to reflect those changes. But the prices customers pay for Texas retail electric service will continue to be stable."

SPS last sought, and was granted, an increase in base rates for retail electric service in Texas in mid-1982, he noted.

The proposal to restructure rates in rural areas of Texas served by SPS will be filed with the Public Utility Commission of Texas, probably in early September.

The proposed restructuring, Ballengee said, "On the one hand, would increase the base-rate portion of the electric bill, and, on the other hand, would generally offset that increase by lowering the boiler fuel-cost portion of the bill. The net effect should only slightly change prices."

Ballengee credited decreasing costs of some SPS operations primarily to the utility's coal-fueled power plants, a softened natural gas market in the United States, and to lower interest costs. Increased costs to the utility included construction of coal-fueled power plant units and of new transmission and distribution facilities, and higher costs of most other materials and services, he concluded.

enlarge on the 1982 celebration. They renamed it "Mule Day Festival," added a Mule rodeo and contacted Marshall Cooper, administrator of Girlstown, U.S.A., about Girlstown becoming involved in the Festival. It was this year that the celebration saw Girlstown being presented with a check for \$3300.

The first Mule rodeo was held at the Muleshoe Arena. Before the 1983 Festival, a rodeo arena was built on Smith's land just outside of Muleshoe.

Some of the materials and labor were donated to the arena by area people. Also in 1983, the Mule Day Festival Charitable Foundation was founded, and Jeff Smith and Lonnie Adrian got busy designing a slide presentation about Girlstown.

Smith and Adrian took their slide presentation, utilizing several. Cont. Page 6, Col. 3

### Singles Group

### Elect Officers;

### Plan Activities

Thursday night, the Muleshoe Singles re-grouped, re-formed and re-elected officers and made plans for several group activities.

James McNew was elected president; Tommy Sisemore, first vice president; Donna Cheshire, second vice president; Jessie Robinson, treasurer; Gayle Williams, secretary and Jerry Hutton, reporter, with Clea Robertson named the person in charge of the meeting room.

On Thursday night, August 8, the group will meet at Summit Savings meeting room for an ice cream social, followed by table games. Reporter Hutton said they will also have at least one freezer of 'sugar-free' ice cream. Hutton said free babysitting for anyone attending the social and meeting will be at 319 West Ave. K.

On Saturday, August 24, the group will go to Canyon to see "Texas."

Attending the Thursday night meeting were Gayle Williams, Clea Robertson, Donna Cheshire, Ethel Murray, Chuck Wales, Jim Faulkner, Debbie Fahnttrapp, Jessie Robinson, Tommy Sisemore, Jerry Hutton, Mark Tutt, Glenn Stevens, James McNew, Pauline Garcia and Audrey Martin.

**INVESTIGATION CONTINUING**--Muleshoe City Police Sgt. Richard Bonham, left, and Muleshoe City Police Det. Sgt. Julian Dominguez, are pictured with a large amount of possible stolen merchandise, recovered this week. Owners of some of the merchandise have been contacted.

## Social Security News & Views

### THINKING ABOUT RETIREMENT

It is interesting to note that as Social Security celebrates its 50th Anniversary this month that the original act covered only retirement benefits for workers in commerce and industry. Now, of course, Social Security covers more than 9 out of 10 workers in employment and self-employment.

But, lets go back to the main questions: Are you thinking about retiring? If so, I'm sure you have many questions such as: *When should I retire? How much money can I expect from Social Security and other sources? Can I work and still get some benefits? And what about Medicare?*

Good planning pays off. Start early to gather facts so you'll know what to expect. *When* you should retire will depend on your financial situation, health, interests, and other factors. Social Security recognizes a need for flexibility and offers you several options.

**\*Age 65-**Currently this is the age when you can receive your full rate benefit. The maximum monthly benefit for someone who retires at 65 in 1985 is \$717 and the average check is \$449.

**\*Early retirement-**You can start getting Social Security payments as early as 62, but the amount is permanently reduced to take account of the longer period you will receive them. The reduction is 20 percent at 62, 13-1/2 percent at 63, and 6-1/2 percent at 64.

**\*Delayed retirement-**If you work past 65 your monthly benefit will increase by 3 percent for each year (1/4 of 1 percent for each month before 70 that you don't get a payment.

No matter which option you choose, you often can work and still get some or all of your Social Security. If you are 65 to 70 in 1985, you receive all benefits if your annual earnings don't exceed \$7,320; the exempt amount is \$5,400 if you are under 65, and there is no limit if you are 70 or older. With earnings over the exempt amount, \$1 in benefits is withheld for each \$2 of earnings over the limit.

Once benefits start, the amount generally increases automatically each January if living costs have risen at 3 percent.

You generally do not have to pay Federal income tax on your Social Security benefits unless you are among the one in ten people who have high outside income in addition to benefits. In no case, however, will more than one-half of your benefits be subject to tax.

Medicare health insurance protection starts at 65. If you don't plan to retire by then, you should contact Social Security 2 or 3 months before 65 to arrange for Medicare.

There are several special situations when you may wish to discuss your retirement plans with someone at the Social Security office. For example: *\*You are eligible for a public or private pension before 62--an*

increasing number of people can receive a pension at 55 or so. If you are among them, you may want to find out how the pension relates to the Social Security benefits you will have at 62 or later and to determine if there are any gaps in your protection before than (particularly if you should become disabled).

*\*You are a divorced spouse-* You may be eligible for a benefit at 62 on a former spouse's Social Security record if you were married at least 10 years and divorced at least 2 years. Your ex-spouse does not have to be retired for you to receive benefits.

For more information, ask any Social Security office for a free copy of the leaflet, *Thinking about retiring?*

### Nursing Home News

by Joy Stancell

Beryl Hollis has a new perm. Elizabeth Harden and Hazel Gilbreath and her brother Delmar McCarty are among those visiting her last week.

Lois Ethridge went out Wed. night with her granddaughter Christie to the Pizza Hut for pizza.

Mr. & Mrs. J.C. Shanks came Sun. morning to have Bible Study with the residents.

Mrs. J.C. Shanks and Mrs. J.C. Odom came Wed. afternoon to play the piano and sing to the residents.

Our thanks to Mr. & Mrs. Delmar McCarty for the nice flower bulbs.

Residents having Aug. birthdays are Edith Bruns Aug. 1, 1889, Edith Goucher Aug. 8th, 1906, Morris Douglass Aug. 19, 1912, Lois Ethridge Aug. 22, 1917, Fred Peat Aug. 24, 1891. They would enjoy a birthday card from anyone who would like to send one.

Edith Bruns was visited Tues. afternoon by Ruth Briscoe and Francis Bruns.

Alva Shofner was visited this week by Mr. & Mrs. J.T. Shofner and Zora Mae Bellar.

Minnie Berry visited the Nursing Home Tues. Morning.

We wish to express to all of our volunteers a heart felt thank you for standing by us and continuing to be supportive in good times as well as bad.

Glenda Jennings, one of our very faithful volunteers, was not able to come Wed. for the Sing-A-Long due to a back problem.

Clara Lou Jones and Zora Mae Bellar came Thurs. morning to play the piano and lead Gospel songs, Fred Peat and Lois Ethridge read Bible readings.

We were happy to receive a letter from Rosemary Pool last week. Rosemary is in a nursing home in Lubbock.

### Letter To The Editor

San Angelo, Texas  
125 South Cecil St.  
August 1, 1985

Letter To The Editor:

The time has come for us to leave your city. We want to take this opportunity to say "good-bye". Also our "thanks" to the Muleshoe merchants who have been so nice to us. If we try to name them we would surely leave someone out, therefore let us just say "you have been very helpful to us and we do thank

you, Muleshoe Merchants."

We realize there are a few people in Muleshoe who are glad to see us go. Our "SPECIAL" thanks to the Muleshoe Police Dept. for responding to our calls for help when the noise level at American Legion Building was "unbearable." Our sympathy goes to the neighbors who still live around the American Legion building's noise. We would encourage you to keep fighting and someday you will be able to sleep undisturbed.

TOLK personnel! have not been accepted or appreciated many times, however we all realize how much this area, as well as other areas the "electricity" will benefit our fellow man--so when you turn on your

light at night or add another convenience to your home, please say a prayer for all the men who labored and sweated under the strain of *hard work* to give you this great power house, and to the men who will continue to labor daily to keep TOLK in operation for you.

Good-bye and good luck!!  
Lonnie and Nora Flanary.

Hearing for Muleshoe ISD. As superintendent of schools, I appreciate anything you can do to encourage public participation in this hearing.

Thank you for your continued support of the schools. We appreciate all you do for us.

Sincerely,  
H. John Fuller  
Superintendent

Dear Cieta: HJF/jr  
Enclosed please find an encls.  
agenda for the annual Budget

### ANNOUNCEMENT

H. & R Block is offering a Basic Income Tax Course starting September 5th. There will be a choice of morning or evening classes held at the H & R Block office at 224 W. 2nd St.

The twelve week course is taught by experienced personnel and certificates are awarded to all graduates. While thousands of job opportunities are available, graduates are under no obligation to accept employment with H & R BLOCK.

Registration forms, brochures and a schedule of classes may be obtained by contacting the H & R BLOCK office at 224 W. 2nd 272-3332.

CITY OR SPECIAL DISTRICT: CITY OF MULESHOE

### NOTICE OF CALCULATION OF EFFECTIVE TAX RATE, ESTIMATED UNENCUMBERED FUND BALANCES, AND DEBT SCHEDULE

I, Jerry Hicks, assessor/collector for City of Muleshoe, in accordance with Sec. 26.04, Property Tax Code, have calculated \$ .5182 per \$100 of value as the tax rate which may not be exceeded by more than three percent by the governing body of the City of Muleshoe without holding a public hearing as required by the code.

The estimated unencumbered fund balance for Maintenance & Operation fund: \$ -0-  
The estimated unencumbered fund balance for Interest & Sinking fund: \$ -0-

The following schedule lists debt obligations that 1985 property taxes will pay: NONE

[Expand worksheet as necessary to list debt obligations. If the unit needs additional space, refer the reader to the portion of the notice of the effective tax rate for this debt schedule. See examples.]

*Jerry M. Hicks* Chief Appraiser  
August 2, 1985

### CALCULATIONS USED TO DETERMINE EFFECTIVE TAX RATE

#### I. DATA

|  |               |
|--|---------------|
| 1. 1984 Total tax levy from the 1984 tax roll  | \$ 457,967    |
| 2. 1984 Tax rate (\$ .49 M&O and \$ -0 I&S)  | \$ .49 /\$100 |
| 3. 1984 Debt service (I&S) levy  | \$ -0-        |
| 4. 1984 Maintenance & operation (M&O)  | \$ 457,967    |
| 5. 1984 M&O taxes on property in territory that has ceased to be a part of unit in 1985  | \$ -0-        |
| 6. 1984 M&O taxes on property becoming exempt in 1985  | \$ 44         |
| 7. 1984 M&O taxes on taxable value lost because property is appraised at less than market value in 1985  | \$ -0-        |
| 8. 1985 Total taxable value of all property  | \$ 90,619,210 |
| 9. 1985 Taxable value of new improvements added since Jan. 1, 1984   | \$ 418,390    |
| 10. 1985 Taxable value of property annexed since Jan. 1, 1984  | \$ 2,407,260  |
| 11. 1985 Tax levy needed to satisfy debt service (I&S)   | \$ -0-        |
| 12. Rate to raise 1984 tax due levied to appraisal roll errors (lost dollars divided by 1985 taxable value) (\$ 2893 ÷ \$ 90,619,210 × 100)      | \$ .00 /\$100 |
| 13. Rate to regain taxes lost in 1984 due to appraisal roll errors (lost dollars divided by 1985 taxable values) (\$ 2893 ÷ \$ 90,619,210 × 100) | \$ .00 /\$100 |
| 14. 1984 M&O Taxes used to regain lost 1983 levy   | \$ 2953       |

#### II. CALCULATION

##### MAINTENANCE AND OPERATION (M&O) TAX RATE

|  |                 |
|--|-----------------|
| 1. (A) 1984 Total tax levy (Data 1)  | \$ 457,967      |
| (B) Subtract 1984 debt service levy (Data 3)   | \$ -0-          |
| (C) Subtract 1984 taxes on property no longer in unit (Data 5)   | \$ -0-          |
| (D) Subtract 1984 taxes for exemptions (Data 6)  | \$ 44           |
| (E) Subtract 1984 taxes for productivity valuation (Data 7)  | \$ -0-          |
| (F) Subtract 1983 taxes used to regain lost 1983 levy (Data 14)  | \$ 2953         |
| (G) Adjusted 1984 M&O levy   | \$ 454,970      |
| 2. (A) 1985 Total Taxable value of all property (Data 8)   | \$ 90,619,210   |
| (B) Subtract 1985 value of new improvements (Data 9)   | \$ 418,390      |
| (C) Subtract 1985 value of annexed property (Data 10)  | \$ 2,407,260    |
| (D) Adjusted 1985 taxable value for M&O  | \$ 87,793,560   |
| 3. (A) Divide the adjusted 1984 M&O levy (1-G above) by the adjusted 1985 taxable value for M&O (2-D above) (\$ 454,970 ÷ \$ 87,793,560) | \$ .005182      |
| (B) Multiply by \$100 valuation  | × 100           |
| (C) Effective M&O rate for 1985  | \$ .5182 /\$100 |

##### INTEREST AND SINKING (I&S) TAX RATE

|  |               |
|--|---------------|
| 4. (A) 1985 I&S levy needed to satisfy debt (Data 11)  | \$ -0-        |
| (B) 1985 Total taxable value for all property (Data 8)   | \$ 90,619,210 |
| (C) Divide the 1985 I&S levy (4-A above) by the 1985 total taxable value (4-B above) (\$ -0 ÷ \$ 90,619,210) | \$ -0-        |
| (D) Multiply by \$100 valuation  | × 100         |
| (E) Effective I&S rate for 1985  | \$ -0- /\$100 |

##### APPRAISAL ROLL ERROR RATE

|  |                 |
|--|-----------------|
| 5. (A) Rate to raise the 1984 levy due to appraisal errors (Data 12) | \$ .00 /\$100   |
| (B) Add rate to regain taxes lost due to errors (Data 13)            | + \$ .00 /\$100 |
| (C) Total rate to adjust for appraisal roll errors                   | \$ .00 /\$100   |

##### TOTAL EFFECTIVE TAX RATE FOR 1985

|  |                 |
|--|-----------------|
| 6. (A) Effective M&O rate (3-C above)                        | \$ .5182 /\$100 |
| (B) Add effective I&S rate (4-E above)                       | + \$ -0- /\$100 |
| (C) Add rate to adjust for appraisal roll errors (5-C above) | + \$ .00 /\$100 |
| (D) 1985 Effective Tax Rate                                  | \$ .5182 /\$100 |

1985 Effective Tax Rate is the tax rate published as required by Sec. 26.04, Property Tax Code.

**TRU-TEST PAINTS**  
**PAINTING HELP SPOKEN HERE.**

BY *Bonnie Blaire*  
TRU-TEST COLOR CONSULTANT

Dear Bonnie:  
*I have fallen in love with the country look and want to decorate with two or three different patterns. Can you tell me how to put together a coordinated scheme?*  
Dee Dee

Dear Dee Dee:  
Some of the nicest decorating schemes come from the country look. The availability of pastel colors in mix and match fabrics and wall-coverings seems endless. First, select one color as your favorite (dominant) color. Second, find a fabric or wallcovering that features this color in mid to large size print. Coordinates will come from the secondary color in the print. The print provides the primary pattern, while the second pattern, to support the first, can be different in formation but must contain the same colors and be smaller in scale. Third patterns augment the second and are generally smaller and have no more than two colors. As a flower is supported by a stem, leaf and stamen, so should your country garden bloom.

## TDA, Valley producers tell USDA "Don't lift Florida quarantine,"

(McAllen)—A team of Texas Department of Agriculture officials has led the fight here to maintain the existing canker quarantine on fresh Florida citrus from coming into Texas and California.

"We stand four-square behind the citrus producers of the Rio Grande Valley who vehemently oppose allowing any Florida fresh fruit back into Texas at this time," said Texas Agriculture Commissioner Jim Hightower in written comments.

"Lifting the existing citrus canker quarantine on Florida fruit, as USDA proposes to do, would be a premature, irresponsible and dangerous act. TDA's scientists and regulators have concluded that lifting the quarantine now would leave the Texas citrus industry vulnerable in dozens of ways to an infestation of the Florida canker. TDA will fight against any easing of the quarantine at present, using every means at our disposal," Hightower said.

TDA Assistant Commissioner Ron White said, "The deadly Florida citrus canker could wipe out our entire citrus industry if it found its way into Texas. It's premature to even talk about lifting the quarantine since inspections as recent as April and May indicated that new cases of canker are still being found."

The United States Department of Agriculture is holding the hearing on its proposal to lift the ban on bringing fresh citrus into other citrus-producing states, including Arizona, California and Texas. The quarantine now in effect applied only to fresh citrus, not frozen products. Fresh citrus sales in all other citrus producing states including Arizona, California and Texas amount to only one percent of Florida's market.

White testified, "The only known way to control the disease is to destroy all the trees in the entire grove. Our growing area in the Valley is so compact that if the canker did get in, the entire area would be wiped out. It doesn't make much sense to jeopardize 100 percent of our citrus production, so that Florida can sell less than one percent of its citrus product."

The USDA has two proposals for lifting the ban. If seven requirements are met, a limited permit could be issued which would allow the citrus into those parts of the state where the citrus is not grown. It would be up to the Texas Department of Agriculture to then make sure that Florida citrus delivered outside the Valley didn't find its way south. If those seven requirements are met under the USDA proposal, plus three others, a certificate could be issued which would allow the citrus from Florida to be shipped to any

part of the state, including the citrus producing area in the Rio Grande Valley.

White said, "We simply don't have the inspectors to check every piece of citrus headed down the highway. The only way to protect the citrus industry in Texas is to keep the Florida citrus out altogether, until we're absolutely sure there is no longer a problem. We ought to eventually reach that point, but we're certainly not there now."

The citrus canker in Florida was first discovered in August of 1983. An inspection as recently as April 12 of this year indicated a new find of canker in a field which would have been able to ship its produce to Texas.

In addition, citrus producers in the Valley are still struggling as a result of the devastating winter freeze two years ago. Because of that disaster and because of the very serious potential damage the canker poses, citrus producers from across the Valley are expected to attend the hearing and voice their opposition along with TDA.

White said, "The federal government is getting a lot of pressure from Florida officials to lift the ban, and today's hearing is in response to that pressure. But I think USDA's going to find out

the heat they're getting from Florida will be countered by a major cold front here in Texas.

"Our adamant stand is not taken with any hostility toward Florida citrus producers, and we sympathize with the tough situation that they are in. But we cannot alleviate their misery by importing it to Texas," Hightower said. "Our own citrus producers are having tough times of their own—in fact, Valley farmers will have fresh fruit to sell this fall for the first time since the devastating freeze two years ago. We're not going to endanger their recovery or invite total destruction of our citrus industry just because Florida producers are anxious to sell a few boxes of fruit to Texas consumers. Frankly, if the shoe were on the other foot, Floridians certainly would never stand for us shipping fruit from a canker-infested area to them—nor should they."

"We at TDA will continue to work closely with our Texas producers, USDA, and officials of other citrus-producing states to determine when the canker threat is over so that fresh citrus from Florida can again be shipped anywhere in the country. But clearly, that time is not now," Hightower said.

## Ice Cream Stars With Meringue Or Cake Roll

Invention and innovation characterize the history of ice cream.

Nero, for example, sent his runners to the mountains for snow to mix with fruit juices and honey for his "ice cream." Jacob Fussell, a milk dealer, in 1851 sought an outlet for surplus cream and thus commercial ice cream production was born. Ice cream was served in small dishes at the 1904 St. Louis World's Fair. When they ran out of dishes, thin, crisp pastries rolled into cone by a neighboring concessionaire were substituted as containers. Thus was conceived the ice cream cone.

Serving ice cream with meringue is not new, but having the meringue layers thin and crisp in the manner of a torte is different and delicious. This way you'll need only two egg whites rather than the traditional four or more. Chopped, toasted almonds give the meringue a distinctive flavor that goes with both strawberry ice cream and chocolate sauce.

Ice cream in a cake roll is a standard item with some manufacturers, but the flavors and colors of this one are new. Sliced strawberries are sprinkled on the vanilla ice cream before rolling with the sponge-type chocolate cake. Then it's served with strawberry sauce, truly a Neapolitan delight!

### NEAPOLITAN ICE CREAM CAKE ROLL

10 to 12 servings

#### Cake Roll:

- 1/4 cup sifted cake flour
- 1/4 cup cocoa
- 1/2 teaspoon baking powder
- 1/2 teaspoon salt
- 4 eggs, at room temperature
- 1/4 cup sugar
- 1 tablespoon water
- 1 teaspoon vanilla extract
- Confectioners' sugar

### Rebekah Lodge

Muleshoe Rebekah Lodge No. 114 met Tuesday night with Noble Grand Ruby Green in charge. The American Flag was presented by Patsy Chance and the Rebekah Flag by Dimple Sims. The opening prayer was given by Ona Berry after which routine business was conducted.

It was reported that the President of the Rebekah Assembly of Texas will be making her official visit to District Five on August 20th. This meeting will be held in Friona and members of the Muleshoe Lodge will be attending.

An invitation to the Degree Under The Stars was received from the Clovis, N.M. lodge. This event will take place on August 17th. Everyone is urged to attend both of these meetings.

The charter of the Lodge was draped for 30 days in memory of Iva Kall, past president of the International Rebekah Assembly. A candle light draping was conducted by Dimple Sims, Thursie Reid, Dodie Actkinson, Teri Snell and Mary Franklin.

Ruby Green presented her year book to all members present. It was reported that she has a very interesting term planned and all members are urged to attend each week and participate in her program.

Refreshments were served to 15 members by Thursie Reid, Lena Hawkins and Fern Davis.

1 quart vanilla ice cream, softened

1 cup sliced unsweetened strawberries

STRAWBERRY SAUCE:  
(Yield: approx. 2 cups)

1/2 cup sugar

4 teaspoons cornstarch

1/2 cup sliced unsweetened strawberries

1 tablespoon butter

Few drops red food color (optional)

1 1/2 cups sliced unsweetened strawberries

Preheat oven to 357°F. For

cake roll, butter bottom of 15 x

10-inch jelly roll pan; line with

waxed paper. Butter paper and

sides of pan; dust with flour.

Sift together flour, cocoa, bak-

ing powder and salt; set aside.

Beat eggs on highest speed of

mixer until thick and lemon

colored. Add sugar a little at a

time, beating well after each

addition. Beat until thick and

fluffy. Fold in water and vanilla.

Gradually fold in flour mixture

until smooth. Spread evenly in

prepared pan. Bake 12 to 15

minutes. Immediately loosen

sides and turn out onto towel

sprinkled with confectioners'

sugar. Remove waxed paper.

Roll cake in towel, starting at

narrow end. Cool on wire rack.

Unroll; remove towel and

spread ice cream over 3/4 of

cake; sprinkle strawberries over

ice cream. Roll and freeze

several hours or overnight.

Meanwhile, for sauce, combine

sugar and cornstarch in a small

saucepan. Stir in water. Stir in

1/2 cup strawberries. Heat to

boiling, stirring frequently, until

thickened. Boil and stir 2

minutes. Remove from heat and

stir in butter until melted. Add

red food color (optional). Stir in

1 1/2 cups strawberries. Chill.

Remove cake roll from freezer

and let stand at room temper-

ature about 15 minutes before

serving. Slice and spoon sauce

over each serving.

STRAWBERRY MERINGUE

TORTE

6 to 8 servings

2 egg whites, at room

temperature

1/4 teaspoon cream of tartar

1/2 cup sugar

1/2 teaspoon almond extract

2 cups finely-chopped toasted

almonds

2 pints strawberry ice cream,

softened

1/2 cup chocolate sauce, chill-

ed

Whole strawberry.

Preheat oven to 275° F.

Cover a large baking sheet with

parchment or brown paper;

draw two 8-inch circles on

paper; set aside. Beat eggs

whites and cream of tartar until

frothy. Gradually add sugar and

extract. Continue beating until

stiff and glossy. Fold in nuts by

hand. Divide meringue evenly

between circles. Spread as

evenly as possible to cover

circles. Bake 55 to 60 minutes,

or until meringue just begins to

brown; cool. Carefully peel off

paper. Spread 1 pint of ice

cream on each layer; stack

layers and freeze several hours

or overnight. Remove from

freezer and let stand at room

temperature about 15 minutes

before serving. Drizzle chocolate

sauce over top layer of ice

cream. Garnish with whole

strawberry.

GOLDEN GLEAMS

Blessed is the man who

having nothing to say

abstains from giving

us wordy evidence of

the fact.

-George Elliot.

**4-H EXCHANGE TRIP**—On July 23 thirteen Bailey County 4-H Exchange Students along with their sponsors went to Kissamee, Florida, where they visited Epcot Center, Disney World, 27,000 Farm and Ranch and NASA, as well as other farm and agriculture activities in the county. They returned home July 28. Students from Florida will be coming to Bailey County next summer. Back Row (L-R): Donae Parker, Leslie Langfitt, Jodie Wheeler, Scotty Spies, Shelley Sain and Chris Young; Front Row; Andy Langfitt, Holly Huckaby, Jamie Wheeler, Stacy Kindle, Zanna Huckaby, Glenn Flowers and Britta O'Tay. Not pictured, Lyndon and Linda Huckaby, Joella Flowers and Deana Finck, sponsors.

### SFBC Junior Department Visits Sara Woods

The Junior Department of the Sudan First Baptist Church visited in the home of Sara Woods Sunday, July 7 during their regular Sunday school hour. Paul Kent brought the devotional based on I Timothy 6:10; "For the love of money is the root of all evil." He also gave the opening prayer.

Jody Dodson told the story about "Jesus Cleansing the Temple." Julie Serratt gave an illustration on the "Trinity" as compared to the three parts of an apple. Jason Bellar said the shortest verse in the Bible and where it is found, John 11:35.

The memory verse for the week was "We cannot but speak the things which we have seen and heard." Acts. 4:20. Louzelle brought the lesson on "The Holy Spirit Comes." She explained to the class that the Holy Spirit is God's unseen power that works in and through peoples feelings and thoughts.

### TOPS Weekly Meeting

Muleshoe TOPS Club chapter No. 34 met at 6:30 p.m. Thursday, July 25 in the meeting room of Bailey County Electric.

Clara Lou Jones, leader, called the meeting to order. The TOPS pledge was recited and the fellowship song sung. Jewel Peeler, weight recorder, called the roll with 10 members present. Evelene Harris, secretary, read the minutes of the previous meeting and they were approved as read.

Ernestine Steinbock and Rose Sain tied for best loser for the week and Jewel Peeler was runner up.

Following a discussion of the Money Contest, it was decided to extend the ending date to Aug. 29 with the auction being held on Sept. 5.

The meeting was closed with the singing of the goodnight song.

Others took part in answering questions pertaining to the lesson and reciting other memory verses. Mary Ann Gordon led the class in singing "Mine Eyes Have Seen the Glory", "America," and "The Star Spangled Banner." Monty Edwards led the closing prayer.

Those attending were Misty Miller, Tanya Fisher, Gayla Rasco, Jody Dodson, Jason Bellar, Terri Ray, Shannon Fisher, Clay Carr, Monty Edwards, Kim Moss, Paul Kent, Julie Serratt of Amarillo, Ronny Jo Grover of Fredrick, Okla. and teachers Louzelle Serratt and Mary Ann Gordon.

### Summer Is Jelly Making Time

Summer is jelly-making time. When fruit is in season, it's time to get busy in the kitchen.

But while you're waiting for the next fresh fruit to ripen, why not make a quick and easy jelly from pure fruit juice that's sure to be a hit on your family's morning toast?

Rainbow jelly is simple to make using Tree Top Rainbow Blend pure fruit juices, such as Fruit n' Berry, Fruit n' Grape, or Fruit n' Apple.

Just take three cups of your favorite juice blend and add a two-ounce package of powder pectin, stirring together in a pan. Bringing the contents of the pan to a boil, add four cups of sugar and bring to a hard rolling boil for two minutes. Remove from heat and skim off foam. Pour into hot, sterilized glasses and cover with melted paraffin.

For a spicy variation, tie a tablespoon of cloves and two broken cinnamon sticks in a cheesecloth bag and boil it with the juice. Sprigs of fresh mint in cheesecloth will give your jelly a special mint flavor.

This recipe yields seven six-ounce glasses of jelly.

Fish can be susceptible to seasickness. Artificial "storm waves" made in a glass bowl, in a scientific study, resulted in seasick goldfish.

## New Studies Show Lower Seafood Cholesterol Levels

People concerned about cholesterol in their diets may no longer need to avoid shellfish.

The "no shellfish" diet recommendation is based on studies which indicated that oysters, shrimp, clams and other shellfish are high in cholesterol.

According to Texas A&M University Agricultural Extension Service seafood specialist Annette Reddell Hegen, the methods of analysis used in these studies did not distinguish between true cholesterol and other sterol compounds contained in foods.

"Latest data from the National Marine Fisheries Service (NMFS) shows that cholesterol accounts for only about 40 percent of the total sterols contained in some shellfish," reports Hegen. "The rest are plant sterols from algae that the shellfish consumes."

The research studies place oysters, clams and scallops at between 40-50 milligrams of cholesterol per 3 1/2 ounce serving. These figures compare favorably with cholesterol levels in most fish, Hegen says, the fish is a food often recommended for cholesterol-restricted diets.

New cholesterol tables still show shrimp to contain 90 to 125 milligrams per serving,

while most species of crab and lobster tested by the NMFS lab contained 60-75 milligrams per serving.

"Based on this current information, there appears to be little reason to suggest limitation of shellfish in normal healthy diets," says Hegen.

"Anyone who eats shellfish should be able to keep daily cholesterol intake close to the 300 milligrams recommended by many health professionals," she adds.

## Less Sugar, More Sweeteners

Consumers may be developing a false sense of security about reducing sugar in their diets, says a Texas A&M University Agricultural Extension Service nutritionist.

"More people are reading food labels to see if sugar is listed among the top three ingredients," says Dr. Alice Hunt. "They tend to see these as high-sugar products, and avoid them."

Hunt says there are two problems with this shopping strategy.

"Mostly for economic reasons, food manufacturers are using many other forms of sweeteners, such as corn syrup, high fructose corn syrup, honey, molasses, sucrose, dextrose and maltose," she explains. "So consumers need to recognize all forms of sweeteners when they are listed on labels."

"Food manufacturers may also use more than one type of sweetener in a food product," says the nutritionist.

"This means the sweeteners may be placed far down on the ingredients list," Hunt notes, "because smaller amounts of each type are used."

"But if all the different sweeteners used in the product were added together for one listing, it would be near the top of the ingredients list," the nutritionist points out.

U.S. Department of Agriculture figures show that the per capita consumption of sweeteners is going up, even though the consumption of sugar is going down, reports Hunt.

Since these sweeteners have about the same calories as sugar, weight-conscious consumers should watch their intake of these products, just as they would be concerned about sugar, she advises.

### BIBLE VERSE

*Be strong and of a good courage; be not afraid, neither be thou dismayed.*

1. By whom was the above statement made?
2. To whom was it made?
3. Whom did he succeed?
4. Where may this exhortation be found?

### Answers

1. The Lord.
2. Unto Joshua, the son of Nun.
3. Moses.
4. Joshua 1:9.

**ENGAGEMENT PARTY**---Dr. and Mrs. Enrique Muyschondt will host an engagement party in honor of their son, G. Patrick Muyschondt and Donna Rodgers, daughter of Mr. and Mrs. Clarence A. Rodgers, Saturday, August 24 at their home in Muleshoe. The couple plan to be married on Saturday, Aug. 31 at 5 p.m. in the Agape United Methodist Church at Lubbock.

## Barry Wiseman Performs In Summer Musical

Barry Wiseman, son of Mr. and Mrs. Calvin Wiseman of Sudan, was selected to perform in the musical group "Celebration" at Abilene Christian University for the summer of 1985.

The group, sponsored by the music department at ACU, will give several performances of popular music throughout the summer. "Celebration" contains 13 members and is directed by Dr. Marion Cawood, professor of voice.

Wiseman is a member of the music honor society Phi Mu Alpha Sinfonia. He also has been involved in the men's social club Kinsmen as vice president, sibling father and director for Sing Song '84 and '85.

He has been a member of band, orchestra, and Summerstage companies five, six and seven.

Wiseman is a 1978 graduate of Sudan High School where he was involved in band, Future Teachers of America, Future Farmers of America, National Honor Society and drama.

## SMILES

### No Expert

"Your methods of cultivation are hopelessly out of date," said the youthful agricultural college graduate to the old farmer. "Why I'd be astonished if you got even ten pounds of apples from that tree."

"So would I," replied the farmer. "It's a pear tree."

### Different Tale

Dodd--"I notice that in telling about that fish you caught you vary the size for different listeners."

Rodd--"Yes. I never tell a man more than I think he'll believe."

## Hobby Club

Muleshoe Hobby Club met Thursday, August 1 in the community room of the Muleshoe State Bank.

A report was given on Allie Barbour's condition. She has recently been in the hospital.

Fiddle Shafer told about the celebration last Sunday in honor of her's and Bub's 50th. wedding anniversary.

Mabel Caldwell drew the

hostess gift. It was a crochet doll.

Edith Fox took cucumbers from her garden which she shared with the other members.

Sun tea, soft drinks and Ritz cracker, pimento and cheese sandwiches were served by the hostess, Rita Sauer.

Those attending were: Mabel Caldwell, Mae Provence, Nan Gatlin, Fiddle Shafer, Vickie Hendricks, Edith Fox, Rita Sauer and a visitor, Alissa Wilson, granddaughter of Ms. Sauer.

The next meeting will be on August 15 with Mabel Caldwell as hostess.

## Janes Ranch

Cont. from Page 1

chen, bedrooms and a bath. In the basement were an office, with steel vault, including the inscription 'John N. Janes' written above the safe; a fireplace in a large room, that was thought to possibly be a playroom; a laundry room and large coal furnace.

The third story included several bedrooms, a bath, nursery and ballroom.

An architect and builder from Amarillo, the late Fred Pone, constructed the home. Most of the furnishings and rugs were purchased from Robert Keith Furniture and Carpet Co., of Kansas City, Mo. and shipped to the ranch.

During all of the intervening years, the furnishings have remained practically intact, and much of it is now called "antique," even to a player piano.

The Home Ranch even had a swimming pool, scraped out of the earth and protected from the cattle by a fence of cottonwood posts. Later, the posts rooted in the deep sand and became large trees which surrounded the area.

### THE JANES FAMILY

Jarrett O. Janes married in 1911 and purchased the Agua Negra Ranch near Santa Rosa, N.M. and resided on that ranch for a few years, then disposed of the ranch and moved to El Paso, in the fall of 1918, after a visit with the John N. Janes family at the Home Ranch near Muleshoe.

He was enroute to El Paso, and with the flu epidemic raging at that time, he became ill at Albuquerque. John N. Janes wife and four year old daughter, John Ann, traveled to Albuquerque, with Mrs. Janes taking the flu and succumbing to it within two days, on October 15, 1918.

When Jarrett O. Janes recovered enough to travel, he returned to his home in El Paso, only to have a relapse and die, on January 25, 1919.

Jarrett O. Janes' will was probated in Muleshoe and was No. One on the Docket of the Probate Court in this county, for the first one to be probated in Bailey County.

John N. Janes married Ruby Robbins in Vinita, Okla. on January 4, 1912. She was an employee of the National Reserve Bank, the same bank were William E. Halsell and John N. Janes, among others, were directors.

William E. Halsell had his headquarters in Vinita, and was owner of the "Mashed O" Ranch which adjoins the Janes Home Ranch on the east, and is still the property of the Halsell heirs.

At the time of the marriage of John N. Janes and Ruby Robbins, Bovina was the nearest railroad point, and the old road followed Running Water Draw to a point north of the Home Ranch, then turned south to the ranch headquarters.

Around 1902, the Janes Bros. hauled lumber from Colorado City, which was the nearest railroad point, as the PV&NE railroad had not been constructed from Amarillo to Roswell at that time. This lumber was hauled to land north of Sudan, known as the 'Sod House Pasture'. They then constructed what was known as the 'Red House' because of the paint used to paint the house. This was moved shortly afterward to the site of the present ranch home, where it remained until

1915. In 1915, it was moved about 300 yards southeast and the present ranch home was constructed, being completed late in the fall of 1915. The 'Red House' was occupied from that date by ranch hands.

During the time that John N. Janes operated the Home Ranch 'saddle-up time' was 4:30 a.m. in the summer and 5 a.m. in the winter. It was said that it did not take long to stay all night at the Rocking Chair Ranch.

**CATTLE MARKET DROPS**  
In 1919, cattle went to the unprecedented price of \$90 per head, at which time John N. Janes sold all of his cattle, remuda, chuck wagons, and other supplies, and leased his ranches for five years to William L. Ellwood.

He sacked his money and moved to Amarillo. Within six months, the price of cattle collapsed and a good cow with calf at her side could be bought for \$25. This sudden drop in price broke many ranchmen, and many others, while not bankrupt, were never able to fully recover from the blow.

John N. Janes never re-entered the cattle business and his ranches have been leased for pasture purposes since that time.

However, he retained possession of the headquarters house, together with four acres of land surrounding the home. He continued to call the ranch his home and spent most of his summers there during his lifetime.

It was his custom to go to the ranch about the first of April, carrying along a cook and gardener, put in a large garden, procure several bunches of yellow-legged chickens approaching the frying size, and he and his daughter, John Ann, who spent her vacations with him at the ranch, were all set for the summer.

**RANCH BRANDS**  
The Janes Ranch brands were 'LF' for horses; 'Rocking Chair' for bulls and 'Drag Y' for cattle.

John N. Janes died on April 16, 1930, while visiting his daughter, John Ann, who was attending the El Paso School for Girls.

On May 2, 1936, John Ann married Dr. William Stuart Wallace, and to them was born one child, William Stuart Wallace II, on April 5, 1937.

Their son became one of the executors of the Janes estate, and was instrumental in selling the current Ranch Home to The Kassahn family, who have donated the Ranch Home to the Muleshoe Heritage Foundation.

This historic old ranch house will soon be moved to its new home beside the Santa Fe Depot and the Muleshoe Ranch Cookhouse, which has also been donated to the Muleshoe Heritage Foundation, and then preserved, in all its dignity and history, for posterity.

### Burglaries...

Cont. from Page 1

continuing as they were still inventorying and attempting to pull the entire series of thefts together.

In an unrelated case, Det. Dominguez solved the theft of several bicycles during the week, as he recovered several bicycles, and parts of bicycles. Two juveniles were charged with the theft of the bicycles, said the detective.

## Cotton Grade Can 'Go Up' Using Care

Producing a good grade of cotton is about as important as a good yield, and this is where harvest-aid compounds come into the picture.

"Cotton grades are determined by color, trash content and preparation. A well-managed harvest-aid program aids producers in achieving early harvest and high quality lint," says Dr. Bob Metzger, a cotton specialist with the Texas Agricultural Extension Service, the Texas A&M University System.

As cotton begins to mature, farmers who plan to stripper harvest should consider a harvest-aid program to achieve the highest grade possible, notes Metzger. He says that ginning costs can be reduced and grades improved by first dropping the leaves with a defoliant such as DEF, Folex or DROPP and then applying arsenic acid, sodium chlorate or paraquat.

"In such a program, a key point is to avoid treating the crop too early," emphasizes the specialist. "Applying a desiccant to a mature crop that is at least 75 to 80 percent open. Use a defoliant when at least 65 percent of the bolls are open."

Harvest-aids are difficult to use on a poorly fruited crop that has not cut out (stopped growing), says Metzger. If re-

### Mule Days...

Cont. from Page 1

eral slide projectors, and sound, to various civic clubs and other organizations, both in Muleshoe and around the area. After spending several hours, at different times, at Girlstown, U.S.A., Jeff Smith had formed a unique bond with the toddlers to young ladies who reside at Girlstown. It was usually an emotional Jeff Smith who spoke to the civic clubs about the girls and their various needs from Girlstown.

In 1983, Girlstown received a check from the Mule Day Festival in the amount of \$5000.

The weather went a little wild just before Mule Day Festival 1984 and Jeff Smith was left on his own to organize as Larry Winkler decided not to get involved for another year. Jeff leaned heavily on the shoulders of the heads of various committees forming the Mule Day Festival Committee to make sure their particular event was ready.

The Muleshoe area received ten inches of rain just prior to Mule Day, but the day of the celebration was beautiful. The crowd wasn't as large as was hoped for but the check to Girlstown was for \$4100 even with the smaller attendance.

The celebration has always been held on the second Saturday in August and continues to grow each year by about one-third. Smith still plays host on his land just northeast of Muleshoe. As long as people enjoy mules, fantastic food, arts and crafts, mules, visiting with friends, hot air balloons, mules, turtle races, dancing, mules, wild action, cowboys and more mules, there will be a Mule Day Festival and a check will be presented to Girlstown.

So--Ya'll Come!!!!

growth is a problem, he recommends using a material such as DROPP at .2 pounds per acre. Adding one-half pound of methyl parathion such as a tank mix will increase the activity of DROPP and will also help control late-migrating boll weevils. Adding insecticides to defoliants and desiccants has proven to be one of the most effective tools in reducing overwintering weevils. For picker harvest, the rate of methyl parathion in the tank mix may need to be reduced with 90 degrees plus temperatures to avoid plant desiccation.

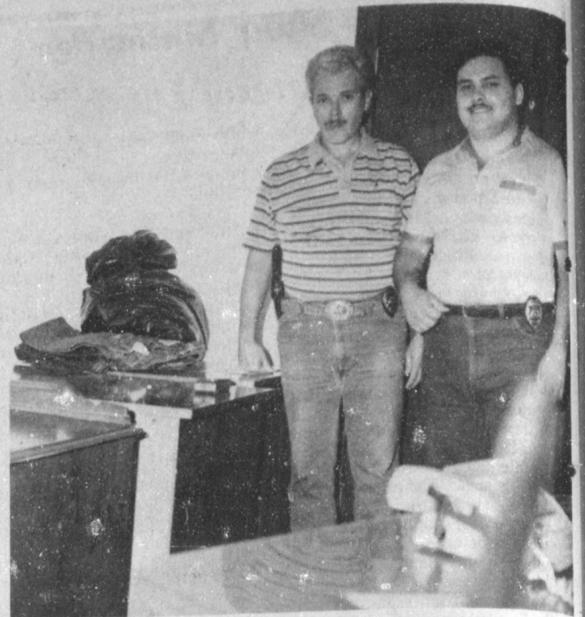

The specialist advises farmers to follow this treatment with arsenic acid and then to wait until the crop dries sufficiently before harvesting. Proper scheduling of harvesting after treatment is important in reducing barmy cotton.

Moisture that's so essential for lint production becomes a problem at harvest time. Make sure seed cotton is dry and dwe is burned off before starting harvest each day. Ideally, relative humidity should be 60 percent or less during the daily harvest period. The acreage treated should be in line with harvest capacity to prevent long delays in harvest after treatment and to reduce the opportunity for excessive regrowth.

"Farmers might also want to consider a relatively new harvest-aid compound that hastens the opening of mature bolls," says Metzger. "This compound marketed under the trade name PREP, can be applied at a rate of one quart per acre when bolls are 50 to 60 percent open. Since PREP may not always provide complete leaf drop, a defoliant should be applied after five days or more. PREP and a defoliant may be tank-mixed to reduce the number of field operations. Make sure the remaining unopen bolls are mature to avoid reduction in lint yield and quality. Hard, speckled bolls that cannot be easily cut with a sharp knife can be used as a rough indication of boll maturity.

"Harvest-aid compounds can play a big role in the quality of cotton farmers take to the gin. However, the condition of the crop at time of application as well as the weather are key factors in achieving good results," says Metzger.

One good thing about summer is the welcome arrival of fresh fruits and vegetables.

SEVERAL STOLEN TV'S RECOVERED--Muleshoe City Police Sgt. Richard Bonham, left, and Muleshoe City Police Det. Sgt. Julian Dominguez are shown with some of the recovered televisions, both from Muleshoe and Lubbock, following a burglary investigation during the past weeks.

### OIL MARKET

VIENNA, AUSTRIA -- World oil markets appeared calm after an OPEC meeting broke up without agreement on a defense of prices and as analysts said there was little the exporting nations could do to prevent a continued price drop.

### MOSLEMS MEET

BEIRUT, LEBANON -- Moslem leaders met recently in Syria, the power broker in this war-ravaged nation, seeking ways to halt the bloodshed and to counter U.S. sanctions imposed on Lebanon in retaliation for the TWA hijacking.

### MEXICO CUTS OIL PRICE

MEXICO CITY -- Mexico, the United States' biggest foreign oil supplier, has sharply reduced its crude oil prices in reaction to OPEC's failure to shore up sagging oil prices world wide.

### AIDS NEWS

BOSTON -- The AIDS virus wrecks the immune system by blinding senary cells in the blood so they cannot recognize protein labels that ordinarily signal the presence of germs in the body, a new study concludes.

**John Copley  
Funeral Services  
Held Saturday**

Services for John William Copley, 31, were held at 2 p.m. Saturday, Aug. 3 in Ellis Funeral Home Chapel of the Chimes with the Rev. H.D. Hunter officiating.

Interment was in Bailey County Memorial Park under the direction of Ellis Funeral Home. Copley died at 7:10 a.m. Friday in West Plains Medical Center following a lengthy illness.

Born Oct. 22, 1953, in Casa Grande, Arizona, Copley had been a Muleshoe resident all of his life. He married Vickie K. Stovall on March 15, 1974, in Muleshoe. He was a powerline man with Ketchersid Construction in Plainview and a member of the Community Church of Muleshoe.

Survivors include his wife, Vickie; one son, Billy Dan Copley of the home; one daughter, Cheree' DeAnn Copley, of the home; his parents, Mr. and Mrs. W.T. Copley of Muleshoe; one sister, Mrs. Irene Musick of Fredrick, Montana; two brothers, Randol Copley and Jerry Copley both of Muleshoe.

One brother, Walter Copley, preceded him in death.

JOHN WILLIAM COPLEY

**Local Man's  
Brother Dies  
At House, N.M.**

Services for Glenn Mitchell, 73, of House, N.M. were held at 1:30 p.m. Friday, August 2 with the Rev. David Snyman officiating, assisted by Foy Armstrong.

Interment was in House Cemetery at House under the direction of Steed-Todd Funeral Home.

Mitchell was born June 1, 1912, in Newland, Texas and moved with his family to House when he was 10 years of age. He attended school in House. At 17 years of age he taught school at Mesa, south of Tolar, N.M. He also drove the school bus in Mesa.

He had been the manager of the House Co-op, and had owned and operated the House Grocery Store for many years. He served on the House School Board for seven years and was a longtime rancher and farmer, raising his family in House. He was a member of the House Methodist Church. He married Mildred Henry in 1934, in Portales.

Survivors include his wife, Mildred; five daughters, Laquita Terry of Clovis, Carol Whitecotton of House, Janie Hughes of Muleshoe, LaDonna Sinclair of Santa Fe, and Glenna Fouts of Melrose; two sons, Royce of Cottonwood, Ariz., and Troyce of Melrose, N.M.; four brothers, Hugh of House, George of Muleshoe, and Herman and W.Y. Jr., both of Clovis, N.M.; two sisters, Argie Mitchell of House, N.M. and Kate Franklin of Tolar, N.M. 24 grandchildren; and 11 great grandchildren.

Grandson served as pallbearers.

**Sister Dies**

Funeral services for Eunice Bethune, 68, of Lubbock are pending with Sanders Funeral Home. She died at 12:22 a.m. Wednesday in Methodist Hospital following a lengthy illness.

She was born in Tribby, Okla. and married Vody L. Bethune on March 15, 1932, in Wannette, Okla. They moved to Lubbock in 1945. He died June 19, 1979.

Survivors include four sons, Herman, Leon and Ralph, all of Lubbock and John of Albuquerque, N.M.; one brother, Dave Bostick of Macomb, Okla.; five sisters, Mary Lance of Petersburg, Mrs. Clyde Henry of Canyon, Mrs. Stanley Friend of Seligman, Mo., Pauline Houston of Lazbuddie, and Mrs. Weldon Wilmanth of Ruidoso, N.M.; 13 grandchildren; and five great grandchildren.

**Lupeta Olivarez**

**Services Held**

**Here Saturday**

Funeral services for Lupeta Olivarez, 64, were held at 11 a.m. Saturday, August 3 in the Immaculate Conception Catholic Church.

Burial was in Bailey County Memorial Park under the direction of Ellis Funeral Home. Mrs. Olivarez died at 4:20 p.m. Wednesday in West Plains Medical Center.

She was born on Aug. 5, 1920, in Panna Maria, Texas and moved to Muleshoe in 1953, from Caldwell. She was a housewife and a member of the Immaculate Conception Catholic Church. Her husband, Salvadore Olivarez, died May 3, 1957.

Survivors include six sons, Salvador Olivarez, Jr., of Big Spring, Lupe Olivarez, and Filemon Olivarez, both of Muleshoe, Julio Olivarez of Dallas, Chavelo Olivarez of Kalamazoo, Michigan, and Juan Garth of Hereford; two sisters, Benita Esponiza of Post, and Felicitas Soto of Mangum, Okla.; one brother, Chale Rendon of Petersburg; 26 grandchildren; and five great grandchildren.

**City Police Report**

Muleshoe City Police had a busy week during the past week as numerous complaints, accidents and reports were received.

Richland Hills Texaco reported the theft of \$150 from a coin machine. The theft is under investigation by the city detective.

Barrett Produce reported that someone had shot a small child with a B-B gun.

A man reported the theft of a package containing prescription medications from his mailbox and the theft of an air conditioner valued at \$300 was reported.

Someone reported illegal parking harrassment and several arrests were made in 'bad checks' charges.

Three accidents were reported to city police, with no injuries reported in any of the accidents.

Three persons were arrested for public intoxication, with one arrested for no driver's license, second offense and no motor vehicle insurance.

**Angels Of Mercy Of West Plains Medical Center**

Lorena Stigaulde is the type of nurse that you want to make sure YOU HAVE AT YOUR bedside when you are in the hospital. She approaches her work in the same way she approaches life: Taking whatever task is handed to her and doing the best job she knows how to do. Ms. Stigaulde became licensed as a Vocational Nurse in August of 1968. She has lived in Bailey County for 39 years, 23 of which have been spent in working at the Muleshoe Hospital. Ms. Stigaulde says "I enjoy helping people... that's the reason I've been in this profession 23 years."

**Letter To The Editor**

Dear Editor:  
I would like to make a friendly correction to your July 28, 1985 article, "Bailey County Schools Have Hefty Budgets." The tax rates listed in "Bench Marks for 1985-86 School District Budgets in Texas" are a little misleading. The rates that publication listed as "true rates" are evidently altered by outside factors for statistical or ratio type considerations. The actual tax rates for the two local school districts in 1984 were:  
Three Way \$1.19 per \$100., not \$1.359  
Muleshoe \$ .76 per \$100., not \$ .741

**Sheriffs Office Report**

Several entries were made in the jail log book during the past week, reflecting arrests made by city, county and state troopers.

According to the jail log, Rebecca Gloria was charged with driving while intoxicated, as was Donald A. Marlow. Both were released on bond.

Six persons were logged into the jail following sentencing for driving while intoxicated.

Two persons were charged with driving while license suspended; four with public intoxication and one for investigation for revocation of probation.

Reporting a theft to the sheriff's office last Monday was Bobby Edwards, who reported as missing from a tractor, speakers and small tools.

**SCHOOL DISTRICT: THREEWAY INDEPENDENT SCHOOL DISTRICT**

**NOTICE OF CALCULATION OF EFFECTIVE TAX RATE, ESTIMATED UNENCUMBERED FUND BALANCES, AND DEBT SCHEDULE**

I, Jerry Hicks, assessor/collector for ThreeWay Independent School District, in accordance with Sec. 26.04, Property Tax Code, have calculated \$ 1.2702 per \$100 of value as the tax rate which may not be exceeded by more than three percent by the governing body of the Three Way I.S.D. without holding a public hearing as required by the code.

The estimated unencumbered fund balance for Maintenance & Operation fund: \$ 23,570.00  
The estimated unencumbered fund balance for Interest & Sinking fund: \$ 100,000.00

The following schedule lists debt obligations that 1985 property taxes will pay: NONE

[Expand worksheet as necessary to list debt obligations. If the unit needs additional space, refer the reader to the portion of the notice of the effective tax rate for this debt schedule. See examples.]

**CALCULATIONS USED TO DETERMINE EFFECTIVE TAX RATE**

**I. DATA**

|   |                        |
|---|------------------------|
| 1. 1984 Total tax levy from the 1984 tax roll   | \$ 446,428             |
| 2. 1984 Tax rate (\$ <u>1.19</u> M&O and \$ <u>0-</u> I&S)  | \$ <u>1.19</u> /\$100  |
| 3. 1984 Debt service (I&S) levy   | \$ <u>0-</u>           |
| 4. 1984 Maintenance and operation (M&O) levy  | \$ 446,428             |
| 5. 1984 M&O taxes on property in territory that has ceased to be a part of unit in 1985   | \$ <u>0-</u>           |
| 6. 1984 M&O taxes on property becoming exempt in 1985   | \$ 144                 |
| 7. 1984 M&O taxes on taxable value lost because property is appraised at less than market value in 1985   | \$ <u>0-</u>           |
| 8. 1985 Total taxable value of all property   | \$ 38,782,020          |
| 9. 1985 Taxable value of new improvements added since Jan. 1, 1984  | \$ <u>0-</u>           |
| 10. 1985 Taxable value of property annexed since Jan. 1, 1984   | \$ <u>0-</u>           |
| 11. 1985 Tax levy needed to satisfy debt service (I&S)  | \$ <u>0-</u>           |
| 12. Rate to raise 1984 tax levy due to appraisal roll errors (lost dollars divided by the difference of 1985 taxable values minus over-65 homesteads taxable values)<br>[\$ <u>1645</u> ÷ (\$ <u>38,782,020</u> - \$ <u>431,370</u> ) × 100]  | \$ <u>.00</u> /\$100   |
| 13. Rate to regain taxes lost in 1984 due to appraisal roll errors (lost dollars divided by the difference of 1985 taxable values minus 1985 over-65 homesteads taxable value)<br>[\$ <u>1645</u> ÷ (\$ <u>38,782,020</u> - \$ <u>431,370</u> ) × 100]  | \$ <u>.00</u> /\$100   |
| 14. 1984 M&O taxes used to regain lost 1983 levy  | \$ 2626                |
| 15. 1985 Taxable value of over-65 homesteads with frozen taxes  | \$ 431,370             |
| 16. Frozen M&O levy of over-65 homesteads with frozen taxes   | \$ 722                 |
| 17. Frozen I&S levy of over-65 homesteads with frozen taxes   | \$ <u>0-</u>           |
| 18. Rate to generate reduced state aid or receive maximum equalization allotment (amount of lost aid or additional levy for equalization, divided by 1985 taxable values minus 1985 over-65 homesteads' taxable value, × 100)<br>[\$ <u>44,239</u> ÷ (\$ <u>38,782,020</u> - \$ <u>431,370</u> ) × 100]<br>(If both lost aid and equalization apply, use larger amount of the two.) | \$ <u>.1153</u> /\$100 |

**II. CALCULATION**

**MAINTENANCE AND OPERATION (M&O) TAX RATE**

|   |                          |
|---|--------------------------|
| 1. (A) 1984 Total tax levy (Data 1)   | \$ 446,428               |
| (B) Subtract 1984 debt service levy (Data 3)  | \$ <u>0-</u>             |
| (C) Subtract 1984 taxes on property no longer in unit (Data 5)  | \$ <u>0-</u>             |
| (D) Subtract 1984 taxes on exemptions (Data 6)  | \$ 144                   |
| (E) Subtract 1984 taxes on productivity valuation (Data 7)  | \$ <u>0-</u>             |
| (F) Subtract frozen M&O levy of over-65 homesteads (Data 16)  | \$ 722                   |
| (G) Subtract 1984 M&O taxes used to regain lost 1983 levy (Data 14)   | \$ 2626                  |
| (H) Adjusted 1984 M&O levy  | \$ 442,936               |
| 2. (A) 1985 Total taxable value of all property (Data 8)  | \$ 38,782,020            |
| (B) Subtract 1985 value of new improvements (Data 9)  | \$ <u>0-</u>             |
| (C) Subtract 1985 value of annexed property (Data 10)   | \$ <u>0-</u>             |
| (D) Subtract 1985 value of over-65 homesteads (Data 15)   | \$ 431,370               |
| (E) Adjusted 1985 taxable value for M&O   | \$ 38,350,650            |
| 3. (A) Divide the adjusted 1984 M&O levy (1-H above) by the adjusted 1985 taxable value for M&O (2-E above) (\$ <u>442,936</u> ÷ \$ <u>38,350,650</u> ) | \$ <u>.011549</u>        |
| (B) Multiply by \$100 valuation   | × \$100                  |
| (C) Effective M&O rate for 1985   | \$ <u>1.15491</u> /\$100 |

**INTEREST AND SINKING (I&S) TAX RATE**

|   |                     |
|---|---------------------|
| 4. (A) 1985 I&S levy needed to satisfy debt (data 11)   | \$ <u>0-</u>        |
| (B) Subtract frozen I&S levy of over-65 homesteads (Data 17)  | \$ <u>0-</u>        |
| (C) Adjusted 1985 I&S levy  | \$ <u>0-</u>        |
| (D) 1985 Total taxable value of all property (Data 8)   | \$ 38,782,020       |
| (E) Subtract 1985 value of over-65 homesteads (Data 15)   | \$ 431,370          |
| (F) Adjusted 1985 taxable value for I&S   | \$ 38,350,650       |
| (G) Divide the adjusted 1985 I&S levy (4-C above) by the adjusted 1985 taxable value for I&S (4-F above) (\$ <u>0-</u> ÷ \$ <u>38,350,650</u> ) | \$ <u>0-</u>        |
| (H) Multiply by \$100 valuation   | × \$100             |
| (I) Effective I&S rate for 1985   | \$ <u>0-</u> /\$100 |

**APPRAISAL ROLL ERROR RATE**

|  |                        |
|--|------------------------|
| 5. (A) Rate to raise 1984 levy due to appraisal errors (Data 12) | \$ <u>.00</u> /\$100   |
| (B) Add rate to regain taxes lost due to errors (Data 13)        | + \$ <u>.00</u> /\$100 |
| (C) Total rate to adjust for appraisal roll errors               | \$ <u>.00</u> /\$100   |

**TOTAL EFFECTIVE TAX RATE FOR 1985**

|  |                         |
|--|-------------------------|
| 6. (A) Effective M&O rate (3-C above)                        | \$ <u>1.1549</u> /\$100 |
| (B) Add effective I&S rate (4-I above)                       | + \$ <u>0-</u> /\$100   |
| (C) Add rate to adjust for appraisal roll errors (5-C above) | + \$ <u>0-</u> /\$100   |
| (D) 1985 Effective Tax Rate                                  | \$ <u>1.1549</u> /\$100 |

1985 Effective Tax Rate is the tax rate published as required by Sec. 26.04, Property Tax Code.

**STATE AID/EQUALIZATION ENRICHMENT AID RATE**

|  |                        |
|--|------------------------|
| 7. Rate to replace reduced state aid or qualify for maximum equalization (Data 18) | \$ <u>.1153</u> /\$100 |
|--|------------------------|

**FREE Hearing Test For Senior Citizens**

Livingston Hearing Aid Center, Inc.  
1913-19th St. Lubbock, Tx. 79401  
806/762-2951

Offers a new concept in  
helping the hard of hearing.  
Livingston Hearing Aid  
Center, Inc. will sponsor FREE  
an electronic hearing test on  
Wednesday, August 7, 1985  
from 9:30 a.m. to 10:30 a.m.  
The test will be given at  
Western Drug in Muleshoe by  
Richard R. Davila, A.C.A. His  
professional approach assures  
you of personal understanding  
and expert help.

Certified Hearing Aid Audiologist

Most hearing aid specialist  
sell you the brand of hearing  
aid they carry. And that brand  
may not have the model that's  
exactly right for you.

With Livingston Hearing Aid  
Center, Inc., 1913A 19th St.  
Lubbock, 762-2951, it's diff-  
erent. We offer a new concept  
for the hard of hearing by  
carrying a wide variety of  
hearing aids from over 12  
different manufacturers. We  
promise to fit you with an aid  
that answers your problem  
exactly. And our promise is  
backed by a 30 day satisfaction  
guarantee or your money back.

Every one, especially older  
citizens, should have their  
hearing tested electronically at  
least once a year. Many of you  
may suspect you have trouble  
hearing and understanding.

Repair service and cleaning  
will be available to you for your  
present hearing aid--no matter  
what brand or where you  
bought it. The hearing tests are  
FREE and will only take 20  
minutes of your time. Please  
come in and take advantage of  
this special opportunity.

**NOTICE OF CALCULATION OF EFFECTIVE TAX RATE, ESTIMATED UNENCUMBERED FUND BALANCES, AND DEBT SCHEDULE**

I, Jerry Hicks tax assessor/collector for Bailey County,  
in accordance with of Sec. 26.04, Property Tax Code, have calculated \$ .4090 per \$100 of value as the tax rate  
which may not be exceeded by more than three percent by the Commissioner's Court of Bailey County  
without holding a public hearing as required by the code.

|    |              |   |
|----|--------------|---|
| \$ | <u>.0674</u> | per \$100 for farm-to-market/flood control tax;   |
| \$ | <u>.3416</u> | per \$100 for the general fund, permanent improvement fund, and road and bridge fund tax; |
| \$ | <u>.4090</u> | per \$100 TOTAL COUNTY EFFECTIVE TAX RATE   |

The estimated unencumbered fund balances are as follows: NONE

|                                     |                   |
|-------------------------------------|-------------------|
| <b>Farm to Market/Flood Control</b> |                   |
| Maintenance & Operation:            | \$ <u>10,000</u>  |
| Interest & Sinking:                 | \$ <u>-0-</u>     |
| <b>General Fund</b>                 |                   |
| Maintenance & Operation:            | \$ <u>195,000</u> |
| Interest & Sinking:                 | \$ <u>-0-</u>     |

The following schedule lists debt obligations that 1985 property taxes will pay: NONE

[Expand worksheet as necessary to list debt obligations. If the unit needs additional space, refer the reader to the portion of the notice of the effective tax rate for this debt schedule. See examples.]

August 2, 1985

**CALCULATIONS USED TO DETERMINE EFFECTIVE TAX RATE**

Separate calculations are performed for each type of tax levied by Bailey County in order to determine a 1985 total effective tax rate. The following guide corresponds with the calculations shown: **A** - Farm-to-market Road **B** - General Fund Tax.

| I. DATA   | Type of Tax: <u>A</u> |                      | Type of Tax: <u>B</u> |                      |
|---|-----------------------|----------------------|-----------------------|----------------------|
|   |                       |                      |                       |                      |
| 1. 1984 Total tax levy from the 1984 tax roll   | \$                    | <u>144,390</u>       | \$                    | <u>747,975</u>       |
| 2. 1984 Tax rate  | \$                    | <u>.0651 /\$100</u>  | \$                    | <u>.3253 /\$100</u>  |
| 3. 1984 Debt service (I&S) levy   | \$                    | <u>-0-</u>           | \$                    | <u>-0-</u>           |
| 4. 1984 Maintenance & operation (M&O) levy  | \$                    | <u>144,390</u>       | \$                    | <u>747,975</u>       |
| 5. 1984 M&O taxes on property in territory that has ceased to be a part of unit in 1985                         | \$                    | <u>-0-</u>           | \$                    | <u>-0-</u>           |
| 6. 1984 M&O taxes on property becoming exempt in 1985   | \$                    | <u>146</u>           | \$                    | <u>32</u>            |
| 7. 1984 M&O taxes on taxable value lost because property is appraised at less than market value in 1985         | \$                    | <u>-0-</u>           | \$                    | <u>-0-</u>           |
| 8. 1985 Total taxable value of all property   | \$                    | <u>226,962,890</u>   | \$                    | <u>231,674,940</u>   |
| 9. 1985 Taxable value of new improvements added since Jan. 1, 1984  | \$                    | <u>1,202,820</u>     | \$                    | <u>1,202,820</u>     |
| 10. 1985 Taxable value of property annexed since Jan. 1, 1984   | \$                    | <u>-0-</u>           | \$                    | <u>-0-</u>           |
| 11. 1985 Tax levy needed to satisfy debt service (I&S)  | \$                    | <u>-0-</u>           | \$                    | <u>-0-</u>           |
| 12. Rate to raise 1984 tax lev due to appraisal roll errors (lost dollars divided by 1985 taxable values)       | \$                    | <u>.00192 /\$100</u> | \$                    | <u>.00936 /\$100</u> |
| 13. Rate to regain taxes lost in 1984 due to appraisal roll errors (lost dollars divided by 1985 taxable value) | \$                    | <u>.00192 /\$100</u> | \$                    | <u>.00936 /\$100</u> |
| 14. 1984 M&O taxes used to regain lost 1983 levy  | \$                    | <u>742</u>           | \$                    | <u>3747</u>          |
| <b>II. CALCULATION</b>  |                       |                      |                       |                      |
| <b>MAINTENANCE AND OPERATION (M&amp;O) TAX RATE</b>   |                       |                      |                       |                      |
| 1. (A) 1984 Total tax levy (Data 1)   | \$                    | <u>144,390</u>       | \$                    | <u>747,975</u>       |
| (B) Subtract 1984 debt service levy (Data 3)  | -\$                   | <u>-0-</u>           | -\$                   | <u>-0-</u>           |
| (C) Subtract 1984 taxes on property no longer in unit (Data 5)  | -\$                   | <u>-0-</u>           | -\$                   | <u>-0-</u>           |
| (D) Subtract 1984 taxes for exemptions (Data 6)   | -\$                   | <u>146</u>           | -\$                   | <u>32</u>            |
| (E) Subtract 1984 taxes for productivity valuation (Data 7)   | -\$                   | <u>-0-</u>           | -\$                   | <u>-0-</u>           |
