

Bull Town Bulletins

By
Bill Ellis

THE POWERS THAT LIKE to shape our nation have suggested once again that Daylight Savings Time be extended from its present six months' duration, to run eight months a year.

The country attempted to operate on an extended Daylight Savings Time back during the oil crisis of 1973-74, and it just did not work out.

School children were forced to have to catch their buses (in city areas) so early in the morning that it was still dark, creating a safety hazard that previously did not exist. The street lights and bright lights of the large cities, which were supposed to be saved by DST, were having to be turned on early in the morning, instead of early evening.

There are still a lot of people who would argue that ANY Daylight Savings Time is just that many months too much. It more or less is similar to the story about the old Indian who wanted to make his blanket longer. So, he cut off one end of the blanket and sewed it to the other end.

Daylight Time has been nothing but a headache to farmers in many areas. Farmers for the most part operate on Daylight Time every summer anyway--from sunup until sundown. But during the six-month period in which Daylight Savings Time operates, they sometimes find their parts houses or stores which sell farm supplies closed earlier in the day than would be the case without DST.

Daylight Savings Time has caused a shifting of opening hours for shopping centers. Some of the stores in such centers in metropolitan areas don't even open until 10 a.m. under Daylight Time. If a person was really in need of something from one of these places early in the morning, they would just be out of luck.

The drive-in movie business, for one, has practically been ruined by the advent of Daylight Time. Summertime used to be the industry's main season, what with youngsters out of school and so forth.

But few parents want their children going to a movie that doesn't have a chance of starting before 10 p.m. A big promotion by the drive-in movies has always been double features, or two movies for the price of one. Go to a double-bill during DST, and you'll find yourself dragging home at 2 or 3 a.m., which would be approaching milking time if you owned dairy cows.

Daylight Savings Time really hasn't helped anyone to a great extent, except that segment of the population that wants to run and play more often. And, let's face it: even the folks who enjoy life in the fast lane can't possibly take advantage of DST five or six times a week. Maybe we ought to pass a law and just have Daylight Time on Fridays.

A friend of ours says that since labor unions appear to be prime instigators of the movement to extend Daylight Savings Time, he has a suggestion: "Let the unions renegotiate their contracts, so that their members can go to work at 3 a.m. every day, and leave everyone else alone!"

Just think: those people who like the "run and play" aspect of DST could go to work at 3 a.m., work straight through to 11 a.m., and when they took off for lunch, they would have the rest of the day (and night) for their three-martini lunch, or whatever other project they might have in mind.

Our contact (who, by the way, is opposed to Daylight Savings Time), says it might be cheaper for the labor unions to re-negotiate their contracts, than to have to use millions of dollars to buy off congress, to get the lawmakers to extend Daylight Time.

MISION BAUTISTA BELEN

Church Building To Be Dedicated

The Spanish Baptist Church of Bovina, "Mision Bautista Belen" has finished constructing their new church building, which they had begun in April of last year. This temple is very beautiful and will be 'Dedicated to the Lord' Sunday, July 10 at 3 p.m.

On this special occasion members of the First Baptist Church will be present. There will also be other churches present from around the area.

"The Mision Bautista Belen has the pleasure to extend a cordial invitation to all persons in this community of Bovina, and would like to invite you to honor them with your presence in this special occasion," says Rev. J.G. Silva, pastor.

Rev. Roberto Garcia of Dallas, Texas will be the speaker at the dedication. Rev. Garcia is the Language Missions Coordinator for the state of Texas. There will also be other representatives of the Llanos

Altos' Association.

"Once again we would like to invite everyone in Bovina to attend in this day for the Dedication of our new church building," Rev. Silva said.

Marathon Race Slated To Benefit Churches

On Saturday, July 16, there will be a "Marathon" sponsored by "Fraternidad Bautista Noroeste" (Baptist Churches from the area). This purpose is to raise money for the "Latin Youth Congress" which will take place July 28-30.

This "Marathon" will consist of running twenty-six miles from Muleshoe to Morton. It will begin at 6 a.m. Saturday, July 16. There will be trophies for the first three who place in this run.

Men, women and youth of all ages may compete in this marathon. There are people in charge of enlisting people who are willing to run, in each neighboring town. People in charge in Bovina are Rev. J.G. Silva and Ninfa Leal, phone 238-1420 or 238-1462.

To register, each person will need \$2.00 to run and a donation of 25¢ per mile. These donations will be paid by

Irrigation Field Day July 14

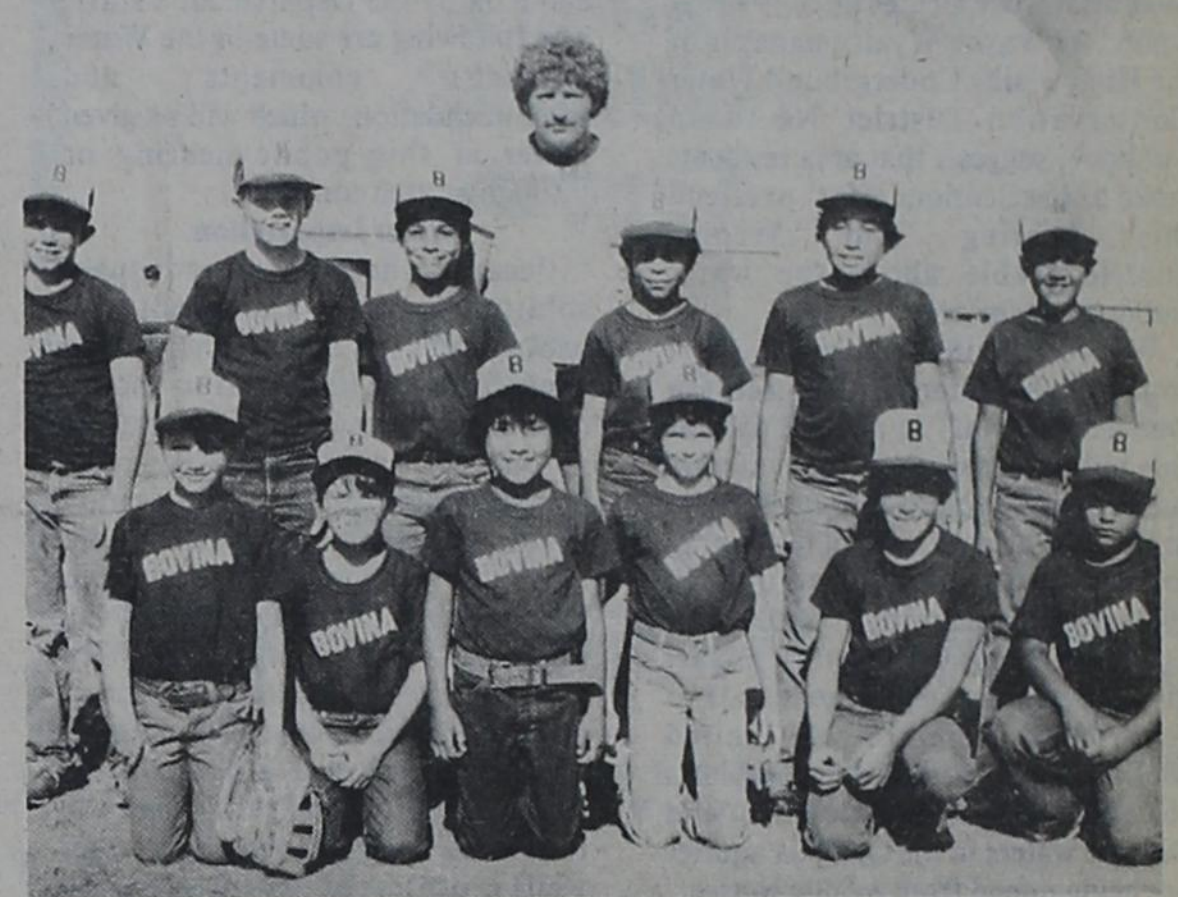

A Field Day will be held Thursday, July 14 at 9 a.m. at Hub on Phil Johnson's farm (southwest corner of intersection of Highway 86 and FM Road 214).

The new technology of furrow irrigating with "Surge" irrigation equipment will be shown. The advantages and disadvantages of the use of such equipment will be discussed by Jerry Walker, Agricultural Engineer on the Soil Conservation Service irrigation team at Amarillo.

Also an irrigation well will be evaluated for pumping plant efficiency. Leon New, Agricultural Engineer with the Agricultural Extension Service, will be available to answer any questions on pumping plant evaluations.

The use of gypsum blocks for determining when to apply irrigation water to crops will be discussed along with the SCS-ARS Co-op Study being conducted on the farm.

Everyone interested in the techniques of improving irrigation efficiency are invited to attend this field day sponsored by the Parmer County Extension Service, Parmer County Soil and Water Conservation District, and the Soil Conservation Service at Friona.

MUSTANG TEAM... Bovina's entry in the Friona Mustang League for 1983 have played well. In the back are Cain Neal, Eric Helton, Adrian Acosta, Andy Serna, Juan Reyna and Martin Meza. Kneeling are Andy Stormes, Gary Bannisto, John Ortiz, Misti Stanton, Cory Kirkpatrick and Ralph Serna. Ronnie Cary is the coach. Not present were Rusty Venable, Chris Caldwell and Korey Mitchell.

BRONCO TEAM... Bovina's Bronco League team, made up of boys 11 and 12 years of age, is pictured here. In the back row are Jessie Stone, assistant coach, Pete Quiroga, Sam Morgan, Scott Sudderth, Hippy Gomez, Jimmy Don Gilbreath and Randy Stone. Front: Genara Ruvalcaba, Shonda Trim, Mike Bermea, Jaime Ornales, David Bermea and Clay Carrell. Not present was Ed Terry, coach.

PLAYOFFS SLATED

Bovina Players Are All-Stars

Bovina Little Leaguers have been chosen on three separate all-star teams for post season action beginning this week. The Bovina players have been participating in Friona's Little League program this year.

Named to the "Mustang" all-star team were Andy Stormes, Cory Kirkpatrick and Adrian Acosta from Bovina. The Mustang league corresponds with what has been called Minor League in the past, and is made up of players nine and ten years of age.

The all-stars from this league are to play an all-star team from Muleshoe at the Friona park in a best two out of three game series beginning Thursday, July 7. Game time each evening will be 7:30 p.m.

Bovina players also were selected as members of the Friona "Bronco League" all-star lineup. These players are 11 and 12 years of age.

Two teams of all-stars were chosen, and both will see action in the post-season tournament which will be held July 11-16 in Muleshoe.

Named to the "Red" all-star team were Hippy Gomez and Randy Stone. Chosen to the "White" all-star team were Jaime Ornales and Sam Morgan. Bovina coach Ed Terry will serve as coach of this team.

The Friona "White" Bronco League team faces the Muleshoe "Number one" team at 6 p.m. on July 11, followed at 8 p.m. by a game between the Friona "Red" team and Muleshoe "Number two" at 8 p.m.

The tournament is a double elimination set-up.

Members of the Red team are Clint Deaton, Hector Perez, Andre Duran, Cody Bracken, Robert Sandoval and Shannon Cochran of the league champion Friona Star; Raul Rodriguez and Adolfo Hernandez of Friona Feed Yard; Daylen Gallman of Reeve Chevrolet-Olds; Hippy Gomez and Randy Stone of Bovina; and Louis Dunnam, Corey Cunningham, Steven Smith and Beto Gomez of Friona State Bank. Terry Copley and Tony Duran will coach the Red All-Stars.

Members of the White team are Jacky Lafuente and Jerry Lafuente of the Friona Star; Chad Rhodes, Ernie Crutchfield and Junior Silva, Friona Feed Yard; Mike Bermea, Jaime Ornales and Sam Morgan of Bovina; John Ed Duke, Dustee Gee, Kevin Zachary, Sammy Garcia, Bill White and Daniel Chavez of Reeve Chevrolet-Olds; and Nito Perez and Brian Osborn of Friona State Bank. Ed Terry is coach of the White All-Stars.

The Mustang All-Stars include Jimmy Ancira, Wes Drake and Tony Ibarra of Friona Ford; Patrick Upton, David Barnett, and Arturo Perez of the B-J Bees; Nathan Brockman, Chad Hamilton and Louis Abeyta, Hi-Pro; Wade Carson, Alex Mendoza and Gary Stowers, Ethridge-Spring; Andy Stormes, Cory Kirkpatrick and Adrian Acosta, Bovina. Charles Hamilton is coaching the Mustang All-Stars.

CROSSING WORK.... Employees of Santa Fe Railway have been reworking the railroad crossing on the east side of town this week. Motorists have been obliged to use the Third

Street crossing while the work has been in progress. The work should make for a more smooth crossing at the location when it is completed.

New Texas Water Plan Is Unveiled By Group

The Texas Department of Water Resources has recently updated the Texas Water Plan which was originally adopted in 1968. The Department will conduct a public hearing in Lubbock at the Lubbock Memorial Civic Center on July 12, at 7 p.m. A. Wayne Wyatt, manager of the High Plains Underground Water Conservation District No. 1 in Lubbock, suggests that area residents make a conscientious effort to attend this hearing and become knowledgeable about the water resources of the area.

Wyatt, having reviewed draft copies of the water plan, expects the Department staff to present data at this public hearing on the available surface- and ground-water resources in the area as well as data pertaining to water used by all segments of High Plains society (municipal, industrial, agricultural and domestic). Wyatt also expects the Department staff to report that there are very limited surface-water resources available in the area for future development and that the waters in the Ogallala aquifer are being mined from a finite source.

Wyatt does not expect the Department to present any encouraging information on water importation; the subject of much statewide controversy during early development of the Texas Water Plan. Wyatt explains that recent studies indicate that importation of water to the High Plains at this time is not economically feasible due to the cost of water importation exceeding \$500 per acre foot, and, complicating this problem, the water imported would be used to increase production of agricultural products which are already in surplus supply. Wyatt does not expect the water plan to include identification of any sources of water for importation to the High Plains, nor routes, nor cost data.

It is anticipated that the recommendation in the plan to the people of the High Plains and West Texas will be that, given the limited water resources available, the only alternative to running short of water, at least for the immediate future, is conservation.

Undoubtedly there are many in the area, like the Water District staff, who have ideas and special problems

which need to be brought to the attention of the Department. These issues need to be discussed at this public hearing in order that they be addressed in the water plan, suggested to the Texas Legislature, or acted on by the Department's staff. The following are some of the Water District's comments and recommendations which will be given either at this public hearing or through written comment.

Water Importation

Because there is no adequate solution to the water needs and problems of the state from in-state sources, water importation should continue to be considered and studied as one of several alternatives to increase water supplies. Importation studies and planning should consider only those flood waters determined to be in excess of the future needs of any potential import source area. With the most effective water conservation program possible, over 40 per cent of the gravity water in storage in the Texas High Plains that can be recovered using conventional water wells is projected to be used by the year 2000, and over two-thirds is projected to be used by 2020. At the present time, this water supply supports over 67 per cent of total irrigated acreage in Texas, annually.

Irrigation contributes over 40 per cent of the total value of crops sold in the state. Therefore, a water supply for irrigation is very important to Texas agriculture and to the Texas economy. The irrigated agricultural multipliers are over \$3.60 of total economic effect per \$1.00 of irrigation farm sales and are more than \$2.50 per dollar of food and fiber that is processed within the state. Importation studies and planning should be continued with a view toward finding solutions, including agreements with neighboring states for a source of water, by about 1990 and 1995. Import projects should begin to deliver water to the Texas High Plains no later than 2010 to 2015.

Research And Development

The Water District believes that the total water resources of the High Plains need to be better identified particularly those waters stored in the Triassic system below the Ogallala

which are saline. The Department should direct studies toward desalinization of these saline water resources should it become necessary to develop and use this water for domestic, municipal and/or industrial purposes.

The Water District believes the Department should continue its studies of rainfall enhancement, not to be confused with hail suppression, which potentially could increase the precipitation which occurs in the High Plains of Texas. The Department should continue to support investigations of releasing water from the wet sands of the Ogallala Formation thereby making it

available for recovery from wells. Additionally, the Department should support studies of the release of water vapor from air which might provide a limited supplemental water supply for rural residents.

In the area of water use, the Water District believes the Department should encourage the Texas Legislature to adequately fund Texas Tech University, the Texas Agricultural Experiment Station, the Texas Agricultural Extension Service and others in their research efforts such as: developing plants which are highly efficient in their water use, chemicals which might be applied to plants to reduce their evapotranspiration rates, and growth regulators to use on plants to reduce their water use. The Water District also feels that the Department should become more involved in the study of artificial recharge of rain-water that collects in playa basins. It should consider recent technology that may provide new types of filter materials which might be used to remove the silts, salts, clays and biological life from playa water which earlier research indicated prevented successful recharge.

Public Information And Awareness About Water Conservation

Public information and awareness about water conservation in the urban community needs serious effort. The adoption and installation of efficient water using appliances, increased use of native vegetation for landscaping, trickle irrigation, soil moisture monitoring to determine time and need for irrigation and other water conservation methods are available at the present time. However, public information is needed to encourage more widespread use of these methods.

The High Plains Water District, its Board of Directors and staff encourage you to attend and participate in this hearing. Any and all comments will be accepted by the Department staff at this hearing or in the form of written comments up to 30 days thereafter.

On The Farm

By SETH RALSTON

An organization representing swine producers from 28 counties of West Texas and Eastern New Mexico has been formed to promote production, marketing and education of producers and consumers.

The West Texas Pork Producers Association, formed during a meeting following the recent June 16 Texas Tech Swine Short Course, has been recognized by the Texas Pork Producers Association as an affiliate of the state organization. WTPPA thereby became an affiliate of the National Pork Producers Council.

The area represented by WTPPA extends from Deaf Smith, Randall and Armstrong counties on the north to Andrews, Martin, Howard, Mitchell and Nolan counties on the south, and includes Curry, Roosevelt and Lea counties in New Mexico.

Producers at the organizational meeting elected officers and adopted a constitution and by-laws as well as selecting its name. Officers are Joe Tarter of Lazbuddie, president; Stanley Young, Tahoka, vice president; and Don Orr, Lubbock, secretary-treasurer.

County caucus groups elected county directors to serve one-year terms. They include: Deaf Smith, Bill Walden; Randall, Larry Tackitt; Parmer, Joe Tarter; Castro, David Harris; Briscoe, George Martin; Lamb, Jack Richards; Hale, David Howell.

Also, Cochran County, Alvin Gladden; Hockley, Milton Marrow; Lubbock, David Hettler; Crosby, Ronnie Voigt; Lynn, Stanley Young; Garza, Ronny Dunn; Dawson, Bobby Shofner; Andrews, Weston Burnett, and Martin, Johnny Peugh.

Elected to three-year terms as at-large directors were Jerry Jones of Springlake; Seth Ralston of Farwell and Don Orr of Lubbock.

Counties for which directors haven't been elected are Armstrong, Swisher, Bailey, Floyd, Yoakum, Terry, Gaines, Borden, Scurry, Howard, Mitchell and Nolan in Texas and Curry, Roosevelt and Lea counties in New Mexico.

The purpose of the association is to provide a formal structure for the cooperation of pork producers in the area, explained Dr. Robert S. Cohen, swine specialist with the Texas Agricultural Extension Service at Lubbock.

Its objectives include encouraging efficient pork production, promoting consumption of pork and pork products, improving the quality of pork and pork products, recommending and supporting herd health programs, developing educational programs and methods for producers and consumers, encouraging scientific research, and representing pork producers through the state association in legislative and regulatory matters.

REFLECTIONS

....From The Bovina Blade

25 YEARS AGO--JULY 16, 1958

Mrs. Virginia Charles and son, Reed Charles from Arkansas, are visiting in the home of Mr. and Mrs. Wilber Charles. Mrs. Charles is a sister-in-law to Wilber Charles.

The First Baptist Church of Bovina is presently in the midst of initial planning for a building program, and committees for the program, and appointed Wednesday night of last week during a business session of the church.

Mr. and Mrs. Leslie McCain became the parents of a baby boy, William Charles, Saturday about 5 p.m.

20 YEARS AGO--JULY 17, 1963

Floye Smith, daughter of Mr. and Mrs. Wess Smith, was listed on the Dean's List Honor Roll for excellence in academic achievement during the spring semester, 1963, at Eastern New Mexico University at Portales.

Argy Hawkins, four-year-old son of Mr. and Mrs. Erith Hawkins, was injured Friday when he fell from a tractor he was riding with his father.

Bradley Owens, son of Mr. and Mrs. Don Owens, celebrated his fifth birthday recently with a party in his home.

Elke Steffens, exchange student from Germany, will leave Friday, July 19, to go to Washington, D.C. She will leave August 1 for Europe.

Staff Sergeant Marion G. Hughes of Farwell, Texas has completed the United States Air Force Management course for supervisors at Hurlbert Field, Florida.

15 YEARS AGO--JULY 17, 1968

A new aerial agricultural spraying service has been established in Bovina. The new company, which has been named Agri-Sprayers put a new spray plane into operation this week.

Hn. Gerry Beauchamp, son of Mr. and Mrs. Tom Beauchamp, is at home convalescing following surgery in Honolulu, Hawaii.

Mrs. Joe Fowler of Bovina and Mrs. Billy Strawn of Spearman attended the annual School of

Missions for Methodist Church at Abilene last week.

10 YEARS AGO--JULY 18, 1973

Mrs. Dessie Leach, 57, sister of Mrs. Cash (Mildred) Richards of Bovina and Lubbock died Tuesday afternoon of last week after being stabbed several times during the robbery of the State Line Bar, which she and her husband owned and operated at Glenrio, New Mexico.

Mike Read, 12, son of Mr. and Mrs. Billy Don Read of Bovina, was rushed to the Clovis Memorial Hospital Wednesday morning of last week suffering from a severe case of chemical poisoning.

Mrs. Dora Calhoun, wife of the mayor, visited with Mrs. Ruth Hawkins this week. She also visited in the homes of Mr. and Mrs. Erith Hawkins and Mr. and Mrs. Lester Norton of Farwell.

5 YEARS AGO--JULY 19, 1978

The Bovina I.S.D. School Board met in regular session July 11. Aside from the regular agenda, the board hired a new high school principal. The board selected Mark Gunnels to fill the position vacated by Wallace Price.

The Mustang Drive-In recently came under the ownership and management of Mary Mendoza. Mrs. Mendoza and her family will continue to operate the drive-in as it was in the past.

FOR 1983

Official Explains How PIK Relates To S.S.

Many farmers in the Texas area are apparently confused as to how the 1983 payment-in-kind program relates to social security, Carl Thompson, social security branch manager in Clovis, said recently.

Under the PIK program, a farmer agrees to set aside part or all of his land previously used to produce a crop in exchange for receiving surplus federal commodities of the same crop at the usual harvest time. Commodities involved are wheat, corn, grain sorghum, rice, and upland cotton.

In general, payments under the PIK program are treated the same as other federal agricultural program payments, Thompson said. They are included in the farmer's gross income. Since the PIK payments are in the form of certificates of ownership, they are not includable in gross income for 1983 until they are converted to cash for purposes of federal income tax and the social security self-employment tax.

How the PIK payments affect receipt of social security benefits

depends on when the farmer became entitled to those benefits, Thompson said. If the farmer started getting social security benefits before 1983, PIK income can be excluded from gross income for purposes of the annual earnings test because it is income not attributable to significant services performed after the year in which benefits began. In this case, PIK income would have no effect on the receipt of social security benefits.

However, if the farmer starts getting social security benefits in 1983, PIK income is included in the farmer's net earnings for purposes of the annual earnings test. But in this first year of retirement, a self-employed person can receive a benefit for any month he or she does not perform substantial services in self-employment regardless of total income for the year. Generally, a farmer is not considered to be engaging in substantial services if he or she works 45 hours or less a month in the farming operation. More information is available through your local social security office at 912 Parkland Drive, Clovis, N.M.

Hospital Report

ADMISSIONS--

Lori Jordan, Friona; Orlando Ortiz, Jr., Clovis; Maria Elena Rodriguez and baby boy, Friona; Anna Aronce, Friona; Effie Jennings, Friona; Cleo Routon, Farwell; Maynard Agee, Friona; Jesse Ramos, Friona; Carolyn Stevick, Friona; Brook Stevick, Friona; Jimmy Mace, Farwell; Ida Sanchez, Friona; Kevin Frye, Friona; Brad Lane, Friona; Lorna Schueler, Friona; Cornelia Perez, Friona; Bud Reed, Friona; and George Kellum, Texico.

Scooter's Scoops

By Scooter Russell

We want to congratulate John and Elouise Dixon on the birth of their seventh grandchild, a little girl named Jennifer Michelle and her parents are David and Bobbie Dixon of Canyon. They also have two sons, Brandon six and Michael four.

This is also P.O. Dixon's great-granddaughter, and we congratulate him.

Lester and Flossie Rhinehart attended funeral services a week ago last Sunday in Longview for Lester's sister, Myrtle Stafford, and his cousin, Sylvester Jones. Both passed away the same day. The Rhineharts returned home the following Wednesday.

We understand the Ernest Woelfels are getting along fine following a two vehicle accident several weeks ago. They have been at their son's house in Amarillo. Their preacher, Arther Judd, said they had been out of the hospital a couple of weeks. If you would like to drop them a card the address there is: W.E. Woelfel, 3708 Harmon St., Amarillo, 79109.

Laura Lewis suffered a heart attack and is a patient in St. Anthony's

Hospital in Amarillo. Mrs. Lewis is Jean Judd's mother. The Judds have spent time in Amarillo to be with her.

Visiting Paul and Ola Lee Jones during the Fourth of July weekend were Mr. and Mrs. Carl Jones of Talco, Texas. Carl is Paul's brother. Ola Lee said they had a good time and a good visit together. They came Saturday and left Sunday.

Bill and Chris Cupit have just returned home from a trip to California where they visited with Bill's parents and his five brothers and two sisters and their families in Hickman, California.

Arther and Jean Judd have enjoyed having their granddaughter Amy visiting for a couple of weeks from Albuquerque, New Mexico. Their daughter Dianne came for the Fourth of July weekend and Amy went back to Albuquerque with her mother.

Arther said their son, Jay, who graduated from high school, this year is in Santa Fe for the summer working with their other son.

Reba Bonds' mother is a patient in the Clovis hospital. She suffered a

broken hip when she fell at her home. She underwent surgery and Reba said her mother would probably be in the hospital for two or three weeks.

Elaine Glasscock had surgery in the High Plains Hospital in Amarillo. Friends say she is expected to be released early during the week.

Glenda Ritchie was hospitalized for a short time in the Amherst hospital but is getting along much better and is out of the hospital.

Betha Wilcox has been having a good time with her family visiting from California, her daughter June. While she was here June and her daughter, Sheryl, and her husband from Plainville attended the Glorietta Baptist Assembly near Santa Fe, New Mexico. June's son Bret of Muleshoe was also with the family. June, her daughter Cheryl and her husband have returned to

California.

Flaura Lee Bass attended over the weekend the Shults family reunion which was held at the Coleman Park in Brownfield. About seventy members of the family were there. Her sister and brother-in-law, Mr. and Mrs. R.W. Hudson of Colorado Springs, came to Bovina for a short visit before returning home.

Mr. and Mrs. Lowell Primrose are enjoying having their two granddaughters visiting, Tammy, 11 and Carol 7. The girls' parents are Joe and Priscilla Primrose of Farmington, New Mexico.

Tammy is attending Blue Haven Camp this week with Libby Marshall from Bovina. Mrs. Primrose said this is the fourth year Tammy has went with the Church of Christ group.

Thank you for helping with the Scoops, and have a good week.... Scooter.

Tri-State Fair Books Great Lineup For '83

Get ready for a generous sampling of the finest musical entertainment on the stage today. The Amarillo Tri State Fair has again booked a combination of the well-known and the brand-new, but always the best; the award winners and young hopefuls, a musical selection sure to delight any audience.

The shows begin Saturday, September 3 and will feature two headliners twice daily, all shows to be conducted each day at 5:30 and 8:30 p.m., except Sunday, when shows will begin at 3 and 8 p.m. Tickets are priced at \$8, \$9 and \$10. This price includes free admission to the

grounds on the day of the show.

Tickets are available by mail order only until they go on sale across the counter at Sunset Center in Amarillo on August 15. Fair officials suggest that tickets be ordered early, and that date and time desired be clearly indicated. Tickets will be available at the door as well, unless the show is a sell-out.

This year's headliners are David Frizzell and Shelly West, Saturday, September 3; Barbara Mandrell and Williams and Ree, Sunday, September 4; Bellamy Brothers and Riders in the Sky, Monday, September 5; The Greg Kihn Band, Tuesday, September 6; Glen Campbell and Micky Rae, Wednesday, September 7; T.G. Sheppard and Bonnie Nelson, Thursday, September 8; Conway Twitty and Karen Wheeler, Friday, September 9; and Eddie Rabbitt and Karen Brooks on Saturday, September 10.

Tickets may be ordered from Tri State Fair, P.O. Box 31087, Amarillo, Texas 79120. Please add \$1 to each order for postage and handling.

Society Has Meeting With New Officers

On the night of June 20, members of the St. Ann's Society met at the community hall for their monthly meeting.

Nine members were present and the meeting was led by vice president, Vernie Schacher. Sabina Schilling, secretary, took notes while everyone discussed the upcoming events.

The annual garage sale will be Saturday, July 9 from 8:30 a.m. until 4 p.m. at the Community Hall. Dora Rejino is the chairman for this project.

Mary Rose Brito and Nancy Schwertner have been busy getting a quilt ready for the group to quilt. All members will be meeting on July 13, for a quilting party.

At the meeting June 20, a program was presented by Ron, Linda and Phyllis on nursing home care. These people are on the staff at the Farwell Nursing Home and they would welcome anyone who would like to do volunteer work.

Hostesses for the Society's monthly meeting were Eunice Schilling and Nancy Schwertner.

IN 1981

West Texas Leads State In Travel

Over three billion dollars were spent by travelers in West Texas in 1981, according to the most recent figures available from the U.S. Travel Data Center and reported by West Texas Chamber of Commerce magazine, *This Is West Texas*. Total expenditure growth in West Texas was 18 per cent compared to a statewide growth of 15 per cent.

According to the *This Is West Texas* story it was found that nine West Texas counties were among the top twenty Texas counties in highest total travel expenditures. These include Tarrant, third; El Paso, sixth; Potter, twelfth; Lubbock, thirteenth; McLennan, fourteenth; Midland, fifteenth; Ector, eighteenth; Taylor, nineteenth; and Wichita, twentieth.

Total travel expenditures for Farmer County were \$6,314. Entitled *Travel In West Texas Its Impact On West Texas Economy*, the *This Is West Texas* article attributes an excellent highway system and emphasis on travel by various West

Texas cities for the travel expenditure increases.

West Texas travel meant over \$645 million in travel generated payroll in West Texas while generating 65,602 jobs. West Texas cities benefitted from travel tax receipts of over \$31 million.

Where do Texas visitors come from? According to the Texas Department of Highways and Transportation over 55 per cent of U.S. visitors to Texas come from ten states: Oklahoma, 9.01 per cent; California, 7.63 per cent; Louisiana, 7.46 per cent; Illinois, 6.20 per cent; Florida, 5.60 per cent; Missouri, 4.93 per cent; Michigan, 4.41 per cent; Arkansas, 3.72 per cent; Kansas, 3.63 per cent; and Ohio, 3.49 per cent.

This Is West Texas is published bi-monthly by the West Texas Chamber of Commerce and covers topics of interest such as recreation, energy, industry, technology, agriculture and transportation. *This Is West Texas* is available to non-WTCC members at a subscription cost of \$2.50 per year.

Farmers Get Answers To PIK Questions

Everett Rank, administrator of the U.S. Department of Agriculture's Agricultural Stabilization and Conservation Service, today encouraged farmers who signed up for the 1983 payment-in-kind program to take any unanswered questions about the program to their local ASCS offices for the quickest possible answers. Rank said he has directed that response procedures be streamlined between the agency's county, state and Washington personnel.

"For example, we will attempt to answer a farmer's questions by telephone immediately, then follow up with a written answer when necessary," Rank said. "Most of the questions will be answered immediately by ASCS state and county personnel. However, when necessary, the field offices have been instructed to phone Washington to keep the response time to a minimum."

Ranks said USDA realizes that because of the massive sign-up, and because PIK is a new program, many participants desire clarifications or have questions on program procedures.

WHAT IS A "REFRACTION" OR YOUR EYE EXAMINATION

When an eye specialist examines your eyes, he performs what is called a "refraction." This one test is based upon mathematics...measuring your eyes ability to see clearly.

But there is much more to a complete eye examination than just the refraction. Here are other tests which must not be overlooked:

1. **Health Examination**--to determine if your eyes are healthy and free from disease and other abnormalities. This includes glaucoma tests (measuring the pressure inside your eyes) and tests for cataracts, macular degeneration, tumors, lesions, retinal tears and many others.
2. **Coordination tests**--to determine if your two eyes are working together to proper ratio. Do they POINT and FOCUS at the same place and are they working together as a team?
3. **Stereopsis tests**--to determine depth perception...your ability to judge distances and space relationships properly. This is most important in driving or flying.
4. **Peripheral vision tests**--to determine your ability to see out of the side of your eyes...called field of vision. This is also important for good depth perception.
5. **Professional judgement**--putting it all together so that the prescription fits the individuals special needs and will relieve the problems called for by the patient.

A complete visual examination is a combination of many tests including the refraction and they must be done in an unhurried manner. This is why optometrists ask that you make an appointment in advance so that adequate time can be allotted for all of these important tests.

This message is brought in the interest of better vision by Drs. Armistead and Smith, Optometrists, Littlefield, Texas.

PUBLIC NOTICE

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas, including West Texas Rural Telephone Cooperative, Inc., of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies, including West Texas Rural Telephone Cooperative, Inc. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR WEST TEXAS RURAL TELEPHONE COOPERATIVE, INC. MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

PUBLIC NOTICE
 Notice is hereby given that
 DEAF SMITH ELECTRIC
 COOPERATIVE, INC. (The
 "Utility") intends to change
 its power cost adjustment
 rate for electric utility service
 effective July 21, 1983, or as
 soon as may be permitted by
 law. The proposed power cost
 adjustment changes the
 manner in which wholesale
 power cost are collected from
 the Utility's ratepayers. The
 change is applicable to all
 areas to which the Utility
 provides electric utility
 service. All classes of
 customers are affected by the
 proposed change. The
 proposed power cost adjust-
 ment is not expected to
 increase the annual revenues
 of the Utility.

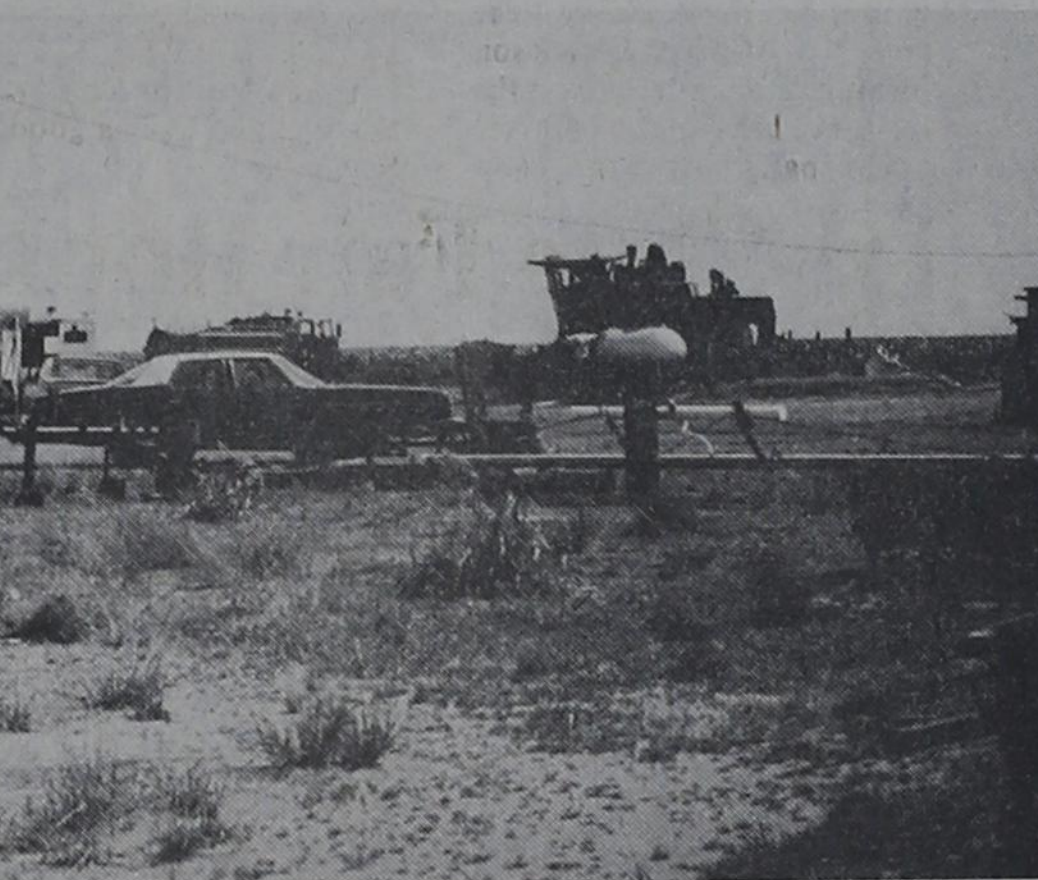

Implementation of the
 proposed change is subject to
 approval by the appropriate
 regulatory authority. A
 Statement of Intent including
 the proposed revision is on
 file with the Public Utility
 Commission of Texas.

The Statement of Intent is
 available for public inspection
 at the general office of the
 Utility located at Hereford,
 Texas.

Campbell McGinnis
ATTORNEY FOR
THE UTILITY

EXCAVATED....Not exactly buried treasure, but excavated
from the new parking lot of the Bovina Senior Citizens' Center
were these two old gasoline storage tanks. The tanks had been
used by a service station which was in business at the location
during the 1920s, and were all but forgotten until the contractor
dug them up while making preparations to pave the parking lot at
the center.

COMBINE FIRE....Bovina Volunteer Fire Department
responded Tuesday morning to a fire on the Bruce Caldwell farm
four miles south of town. A combine had caught fire, and
firemen extinguished the blaze, although the machine sustained
extensive damage. Action by the fire department prevented the
blaze from spreading. The combine was a John Deere 7700
belonging to Caldwell. A.M. Johnson farms the place.

EGG COLLECTION...Maesie Flynn is pictured
with her basket of eggs. This hobby started in
1960. Friends and family have given them to her
as gifts. Maesie has collected 27 eggs, mostly of
onyx, but some of alabaster. Besides having eggs
from several states in the union, she also has
items from Rome, Italy; Mexico and Spain.

It's A Girl
For Dixons

David and Bobbie Dixon of
 Canyon are parents of a baby girl
 born June 28 at the High Plains
 Baptist Hospital in Amarillo. The
 infant weighed nine pounds, six
 ounces and was twenty-one inches
 long. She has been named Jennifer
 Michelle.

Grandparents are Mr. and Mrs.
 John Dixon of Bovina and Mr. and
 Mrs. Lloyd Dickerson of Brazil.
 Great-grandparents are P.O.
 Dixon of Bovina and Mrs. Lewis of
 Canyon.

David and Bobbie have two sons,
 Brandon, six and Michael, four.

Lazbuddie FFA
Boy Wins Trip

Frank Jesko of Lazbuddie High
 School's Future Farmers of America
 chapter is one of five young men who
 won Southwestern Public Service
 Company-sponsored trips to the
 National FFA Convention in Kansas
 City, Missouri in November.

Jesko is the son of Mr. and Mrs.
 Pete Jesko of Lazbuddie.

Jesko was a top student in the
 "Electric Controls" course, at a
 three-day farm electrification
 workshop sponsored by SPS in
 Amarillo June 13-15. Eighty-four
 FFA boys and five FFA girls from
 Texas and New Mexico attended.

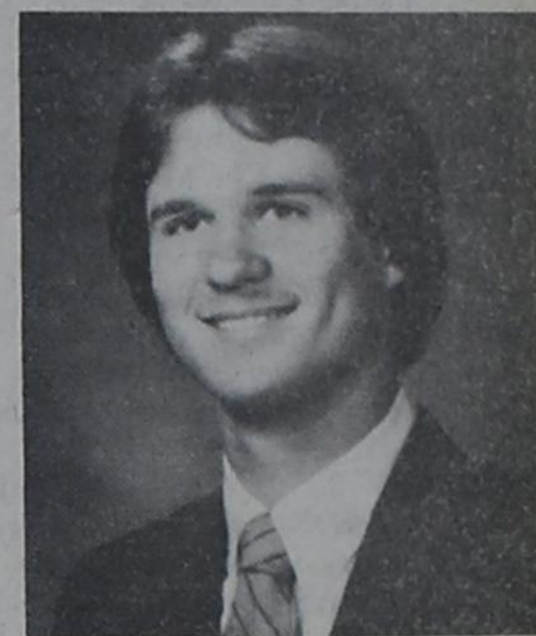

Vocational agriculture teachers
 who made up the workshop faculty
 selected the five trip winners on the
 basis of test scores and class
 performance. Other trip winners were
 J. Dale Butler of Valley High School,
 Keith Williams of Mobeetie, Shad
 Kelley of Abernathy and Brooke
 Owens of Artesia.

The workshop was the 21st
 sponsored by SPS. It was the second
 ever in which girls were students.

The future farmers learned how to
 wire buildings, build and use electric
 controls, or how to build electric
 motors. They also were taught how
 electricity is made, and first aid and
 safety tips.

Five area vocational agriculture
 teachers paid by SPS taught the three
 courses. They were assisted by ten
 adult FFA advisors and by SPS
 personnel.

The "Farm Wiring" course
 emphasized safe and efficient wiring
 of two- and three-way switches,
 proper wire splicing, and how to
 make a meter loop. The skills can be

FRANK JESKO

used in homes, barns, sheds, or other
 places electricity is needed.

Students in the "Electric Controls"
 course learned how to tie in three-
 and four-way switches, how to set up
 photoelectric cells for automatic
 lighting, and how to set up two- and
 three-pole relays.

The "Farm Motors" course taught
 students how to operate, repair and
 build small electric motors.

On the second day of the
 workshop, the students toured SPS'
 Harrington Station, the coal-fueled
 power plant northeast of Amarillo.
 The station has a generating capacity
 of 1,122,000 kilowatts.

Southwestern Public Service pri-
 marily provides electric utility service
 to a population of more than one
 million in a nearly 70,000-square-mile
 area of the Panhandle and south
 plains of Texas, eastern and
 southeastern New Mexico, the
 Oklahoma Panhandle and
 southwestern Kansas.

Drownings Head
Accident Lists

"Drownings account for over 90
 per cent of the fatalities in boating
 accidents," reports Jo Moore, public
 relations chairman for Panhandle
 Emergency Medical Services.

Since drownings are the leading
 cause of death in small boating
 accidents, it is essential that persons
 in small boats know how to swim or
 wear a U.S. Coast Guard Approved
 personal flotation device at all times
 while in the boat.

Ms. Moore, who is an Emergency
 Medical Technician with the Vega
 Ambulance Service, said that unsafe
 operation was the principle cause of
 these drownings. She offered the
 following pointers for a safe boating
 season":

1. Learn how to operate your boat
 safely. Boats do not operate like
 automobiles.
2. Do not overload the craft with
 people or equipment.
3. The law requires that a personal
 flotation device be available for
 everyone in the boat. Make sure they
 are in good condition.

4. Most small boats will float when
 capsized or filled with water. Stay
 with the boat if it capsizes. It is easier
 to spot a boat on an open lake than a
 lone swimmer.

5. Learn the "rules of the road,"
 operators of all craft are responsible
 for taking all necessary action to
 avoid collisions.

6. Turn off the engine anytime you
 are allowing swimmers or skiers to
 enter or leave the boat.

7. Learn cardio-pulmonary
 resuscitation (CPR) from your local
 Red Cross, Heart Association or
 Ambulance Service and know how to
 rescue someone who has been injured
 in a boating accident.

Ms. Moore concluded by advising
 that the summer boating season can
 be fun if we practice good safety
 measures.

In the event of an emergency,
 people in the Panhandle can call toll
 free 1-800-692-1331, the Emergency
 Medical Services number for an
 ambulance and medical assistance.

DEDICACION DEL NUEVO
TEMPLO

LA IGLESIA BAUTISTA MEXICANA "MISION
BAUTISTA BELEN" ha terminado la construccion de su
nuevo templo, la cual habia dado principio desde Abril del ano
pasado. Este templo ha quedado muy hermoso y sera
"DEDICADO AL SENOR" el Domingo 10 de Julio 1983 a las
3:00 P.M.

Estaran presentes en esta ocasion tan especial los miembros de
la Iglesia Americana (First Baptist Church). Estaran presentes
tambien personas de las iglesias del area.

La Mision Bautista Belen se complace an extender una cordial
invitacion a todas las personas de esta ciudad de Bovina para
que nos honren con su presencia en esta ocasion tan especial
para nosotros.

El orador en esta ocasion sera el Rev. Roberto Garcia de Dallas,
Tx. Pues el hermano Garcia as Cordinador de Misiones de
Idiomas del estado de Texas.

Ademas estaran presentes algunos otros representantes de la
Asociacion "Llanos Altos."

De manera que cada una de las personas de Bovina seran
bienvenidas a la "DEDICACION" de nuestro nuevo templo.

MISSION BAUTISTA BELEN REV. J.G. SILVA,
PASTOR

Around The House In Parmer County

By LAURA JACOBS
**Health Alert--Don't Be
A Heat-Stroke Victim**
Don't become a heat
stroke victim during Texas'
hot summer months. Know
the warning signs--and take
action!

People most likely affected
are older persons, the obese,
the very young, alcoholics
and people suffering from
chronic diseases.

First, know the warning
signs.

When it's too hot, people
can suffer heat exhaustion or
heat stroke. Heat stroke will
kill, if you don't take
immediate action. Heat
exhaustion, on the other
hand, usually is not life
threatening.

***HEAT STROKE--**Warn-
ing signs are reddened skin,
fiery hot to the touch and
DRY. The victim is
obviously feverish but NO
LONGER PERSPIRING.
The victim might be
disoriented--or possibly
unconscious. Most heat
stroke victims collapse. Heat
stroke victims can be
suffering body temperatures
up to and over 108° F.,
because in cases of heat
stroke, the body's normal
cooling mechanisms have
quit functioning.

***HEAT EXHAUSTION--**
Warning signs are pale skin
that is cool and moist to the
touch, and the body
temperature is about normal.
The victim might be
disoriented. A few heat-
exhaustion victims do
become unconscious and
collapse.

Also remember to ACT
FAST FOR HEAT
STROKE. Minutes count in
cases of heat stroke. Reduce
the body temperatures at
once. Call for an ambulance
or medical help, then start
cooling the victim with
whatever means you can
find. Bathe him with cold
water if possible. But be
careful if he's unconscious,
so you don't accidentally get
water into the nose or
mouth.

Another warning: watch
for respiratory distress, and
assist his breathing if
necessary. Due to the
necessary rapid cooling of
the body, the victim may go

into shock, and that can
affect breathing.

Heat-stroke victims should
be hospitalized and observed
for several days--in case there
might be kidney or nerve
damage.

Early treatment of heat
exhaustion involves moving
the victim to a cool spot and
trying to get him to drink
cool fluids, such as water or
lemonade.

Also, loosen or remove
clothing, and cool him off by
bathing with cool water.
Usually the person will feel
better promptly, but if he
seems tired, or if he is elderly
or has a chronic disease,
make sure he sees a doctor.

Preventing heat exhaustion
and heat stroke usually can
be achieved by following
some simple, common-sense
precautions.

During hot weather--Don't
expose yourself to the heat
when you don't have to;
wear loose-fitting, light
colored clothing that reflects
the sun's rays and allows for
better sweat evaporation;
don't go out in the hot
sunshine without a wide-
brimmed hat; drink water
often, even when you don't
feel the urge; stick to cool
drinks and food; and salt
your food liberally.

However, if you are on a
low-salt or salt-free diet or
suffer from heart disease,
hypertension, diabetes, lung
disease or other chronic
disorders, consult your
doctor before increasing salt
intake or appreciably altering
your diet. Don't overeat or
overindulge in alcoholic
drinks. Don't exercise just
before or after meals. Avoid
sudden changes in
temperature. For example,
don't dash from an air-
conditioned building to a hot
car. Open the car up for a
few minutes before getting
into it. And don't exercise
strenuously in the sun or
heat.
