The people who were lucky enough to be at the Merkel Swimming Pool Sunday afternoon got an extra treat, I hear. Seems that Homer Newby, while giving his little daughter a few pointers on how to dive from the side of the pool, gave her an unrehearsed demonstration when he tumbled into the water-dressed in his Sunday best, complete with hat.

Remember my telling about the excitement at our house caused by what we thought was a rattle snake but wasn't? Well, that was nothing compared to the excitement caused by the one that was!

Father was home this time, piddling around outside. All of a udden he came dashing madly into the house, slid the length of the hall, grabbed his gun and dashed out into the back yard. We followed to see what was going on that could make the 'ole boy move so fast-the girls right at his heels-me not so close.

The snake was partly hidden under a wall of the garage den under a wall of the garage so he didn't know he had missed Sister Of Merkel until he had picked the repulsive reptile up with a rake. More room to relax in, for instance. A sampling of official dimensions reported to A.M.A.* makes this clear. Chevy front seat hip room, for one thing, is up to 5.9 inches wider than comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

2 From Pioneer Church Attend Youth Assembly

Ida Mae King, daughter of Mr and Mrs. Allen D. King, and Carole Perry, daughter of Mr. and Mrs. W. T. Perry, attended the youth assembly at McMurry Col-lege June 30 to July 3.

Remember the Little Red Hen who asked for help in planting, harvesting, and grinding her wheat? No one would help so she did the work herself. But when she asked "Who will eat my bread?" ... they were all willing to assist.

Texans find food for thought in this familiar nursery tale. Back when our rural community had no electricity, poles had to be set and the lines strung to pierce the darkness. No one was willing to do the work so rural people formed electric cooperatives and built their own electric systems. But now that the hard work has been done would you deny these democratic institutions the fruits of their labors?

We feel that the locally owned, business managed, tax paying Texas Electric Cooperatives should harvest the fields they have been cultivating for two decades. The Electric Cooperatives of Texas brought a new way of life to our rural community. They should continue to serve the areas they helped to develop.

SENTRY DUTY

IN AMERICA every editor is on sentry duty. guarding constantly against all encroachments on the Freedom of the Press. It has always been like this. . Ever since the press battled for and won freedom of expression, its guardians have had to be on the constant lookout for infiltration by the enemies of that freedom. Infiltration pressure from powerful groups to tone him comment on a situation ... pulling of rings to keep a story from being pubed predigested propaganda releases, · But the press knows the importance of never giving up its freedom. For on freedom of the press depend all other freedoms that make up democracy. Therefore, the men of America's press refuse to recognize any check-except military security-on complete, unabridged and inviolate freedom to print the truth.

That is the challenge of today to the Coun-AGE and the VIGILANCE of these sentries of America's press.
