In the thirteen years we have operated according to the teachers, the dormitory operators, the merchants and picture operators in our neighborhood, and, indeed all has been the best.

With so much emphasis on juvenile delinquency it is refreshing to us as educators to find so large a group amenable to discipline and decent and ambitious

parents, the teachers in the schools and the community for the fine Palestine, Terrell, and back to Abiyoung people we had with us.

Thank you if you can pass this on and let your readers know that in the mind of an educator of 36 Riding Club News years the vast majority of our children are on the right track. Sincerly.

FALCON FALCON TO THE CHEVY II (AND CORVAIR)

No matter which compacts you compare the facts favor the Ford Falcon. Here's proof!

FALCON VS. CHEVY II

Falcon's standard engine is a Six, Chevy II's a Four1 Falcon goes 6,000 miles between oil changes,* Chevy II, 4,000. Falcon topped Chevy II's gas mileage in the '62 Mobil Economy Run. In addition, Falcon gives you more glass area, multi-leaf (not single-leaf) rear springs, wider choice of models! AND FALCON'S PRICES START LOWER!**

FALCON VS. CORVAIR

Falcon is longer and almost 4" wider than Corvair . . . holds 6 adults in comfort (try that in a Corvair)! Falcon's engine delivers more power than Corvair's. Falcon packs almost twice as much as Corvair's front-end trunk. Falcon's wheelbase is 11/2* longer; Falcon has bigger brakes; Falcon's seats are comfortably higher. In addition, Falcon gives you oil savings, more glass area, bigger doors. AND FALCON'S PRICES START LOWER!** ofter initial 1000-mile change **Based on comparison of manufacturers' suggested retail

SERVE POLISH HAM FOR QUICK 'N' EASY LUNCHEONS

American housewives are "smartening up". No longer is it considered essential to spend hours cooking an interesting luncheon menu. The imported hams from Poland permit the hostess to spend more time with guests than with pots and pans. The quality of this thoroughly lean fine textured meat is juicy rather than dry and all sinew and fat is carefully trimmed

to enable the family chef to utilize every single slice of this canned Polish ham. Ways to serve sliced cold ham are legion. In today's column

we suggest a garnish of dill and crisp sliced cucumber with a Tropical sauce that will surely become a favorite of every guest.

COLD SLICED IMPORTED CANNED POLISH HAM 1 3-lb. imported canned Polish ham (cut 8 slices per pound)

2 medium-size cucumbers, peeled, sliced thin bunch fresh dill

4 radish roses Remove ham from tin, smooth off the jelly (keeps ham from banging in can) save jelly for soup stock. With a sharp

knife, cut 8 slices per pound. Allow two slices per person. If all ham is not sliced, wrap unused portion in metal foil, replace in refrigerator. Arrange on platter, garnish and place sauce around platter.
TROPICAL SAUCE 1 teaspoon dry mustard 1 cup crushed pineapple 1 cup brown sugar

3 tablespoons ketchup 1 tablespoons cornstarch 1 tablespoon soy sauce 1½ cup cold water
Mix together 1 cup water and brown sugar. Add ketchup,
soy sauce, mustard, and pineapple. Bring to a boil; simmer for 10 minutes. Dissolve cornstarch in 1/4 cup water; add to sauce and cook, stirring until sauce is clear and thickens. Makes

Paper cups and plates are a great help when the children are ill. Single service paper saves the hard work of sterizing the sick room dishe. The many varieties of patterns and colors available in paper cups and plates give a new look to the food tray for the youngster whose appetite is probably poor at best.

This is one of the reasons that I am working hard to get a GI Bill passed to help young post-Korean Conflick veterans get an education.

I recently read a disturbing report by the Bureau of Labor Statistics, showing how the problem of unemployment of young people other states, because our state is going to damage our economy

> 126,000 were still unemployed and looking for work four months later. This is an unemployment rate among these high school graduates of 18 per cent, as compared to an overall unemployment rate at the time of 6.5 per cent.

> Only about one - sixth of the June, 1961, high school graduates in the nation who did not enter college, were attending a school to learn a trade or skill. For those who drop out of school, what chance is there in a job market that demands increasing know-how for survival.

> To me, one of the cherished American dreams - one that the Communist Powers always underestimate - is the dream of all American parents, that their children will grow up to a better life. It is more than a dream. It's a driving force in the American home. Fellow Texan, for young people today, the key to the future is knowledge, "An educated mind is the guardian genius of democracy," as Mirabeau Bonaparte Lamar said. And it is also a driving force for betterment for the family.

> The GI Bill, which is co-sponsored by 36 other Senators with me, is one way to turn this American dream for a better life for our young people into living reality. An education under the GI Bill would take young men from the ranks of the unemployed, and arm them with the weapons of knowledge that will enable them to help themselves, their families and their country in the years ahead.

The GI Bills of World War II and Korean Conflict gave this nation 259,000 doctors and technicians; 135,000 scientists; 459,000 engineers and 367,000 school teachers. These are the leaders of today. We need to train leaders for omorrow And the records show that those trained under previous GI Bills pay enough in additional taxes, because of resultant higher earnings, to more than repay the cost of the training programs

By 1965 the number of young people reaching 18 years of age in the nation - the age when most of them enter the work force or go on to college - will be about fifty per cent higher than in 1960. Workers under 25 years of age will account for nearly half of the labor force growth during the 1960s. This is our great national resource - the brainpower of American

The responsibility we face today is to plan ahead, to make education available for all our young people. I think enactment of my GI Bill will go a long way toward giving them an education.

We have really everything in common with America nowadays, except of course, language.

OUR BEST WAY-OF-LIFE INSURANCE

The men of the Army and Air Na-1 tional Guard work as citizens and train as military men to protect our way of life. More than 472,000 strong, they stand at our first line of defense. On a minute's notice, runway alert units are activated ... air defense units manning Nike-Ajax bases swing into action...27 combat divisions prepare for mobilization. But the Guard's protection does not end with its battle function. In peacetime, it is just as ready to cope with disaster ... and just as admirably efficient. Today, the citizen-soldiers of the National Guard are better trained than ever before in the 300-year history of the Guard. They are, in every sense, our Upto-the-Minute Men, ever ready to serve, and to serve well.
