Ah - the world of newspaper! There is a new problem every week - nothing dull and humdrum about it, Almost every day since last Wednesday, part of the

Merkel Mail staff has been taking pictures for this week's paper. Several events were taking place, what with graduation, end of school activities, our subscription contest, and the list goes on and on

Well, we covered every event we were invited to cover and took two rolls of film and should have had several nice pictures to show for it.... Unfortunately, we have absolutely nothing to show for

all our hard work! That's right, we didn't get one picture off of two rolls of film. Our photo developer says the film was blank, and as

of press time, we have no explanation as to why. See what we mean when we say that there is a new problem every week in the newspaper business?

Our apologies to all of you that were looking forward to the picture we took for the paper. We hope that by next week we will have figured out the problem and have it corrected.

There's nothing like a budget to remind you how much you spend for what little you get.

Pam Massey, nine year old daughter of Mr. and Mrs. W. L. Massey, 707 Second Street, sold enough subscriptions to receive her bicycle this week. She will be in the fourth grade next fall. She and her mother would like to thank everyone who helped her get the bike.

Twenty years ago a lot of people dreamed of earning the salary they can't get along on today.

A father took his four-year old son to enroll him in kindergarten when pre-registration was held here Tues-

The teacher brought out a long, detailed enrollment form and started asking quesions.

- "Does the boy have any older brothers?"
- "No." "Does he have any older sisters?"
- "No."
- "Younger brothers or sisters?"
- Looking more and more unhappy with each negative answer, the little boy suddenly blurted out:

"But I've got lots of freinds!"

Tonya Moore and Cathy Holoway, both of Merkel, will be competing in the State 4-H Roundup at A&M on June 4-5-6 there they will be giving a demonstration in Vegetable Preparation. The girls have already won in Abilene at the County competition and in San Angelo at District competition. So, congratulations girls on your past wins, and good luck at A&M.

Daffynitions: Conscience: that part of one which hurts when everything else feels so good.

Secret: something you tell one person at a time. Fad: that which goes in one era and out the other.

Miss Effie Jones, Home Economics teacher at Merkel High School, presented a certificate of appreciation to Mr. and Mrs, Jim Torrence of Stuckey's this week. They received the certificate for their work and cooperation in employing students in the Home Economics Cooperative Education program.

When we hired our new ad make-up girl, one of the other office girls was overheard telling her: "You can always tell who the boss is. She's the one who watches the clock during the coffee break."

This Saturday is Trade's Day in Merkel, but it is special Trade's Day. The various merchants around town are offering some real nice merchandise in the lucky ticket drawing to be held, and if you havent' gotten your tickets, remember to pick them up, and check your numbers in the stores Saturday.

The reason so many congressmen are anxious to be re-elected is they'd hate to try and make a living under the laws they passed.

....

See 'ya next week - round the corner.

M Bank To In Return Of The Penny

"I'm calling on every American to get the penny back in circulation and keep it there," Mrs. Mary Brooks, Director of the Mint, said recently. 'T'm calling on the banking industry to welcome the return of pennies during the month of June. I'm urging schools, churches and charities to examine ways and means to involve their members in collecting pennies for deposit.

"The price of copper has retreated, closing at \$1.15 per pound on May 20. There will be no aluminum penny. The 62 billion pennies produced during the past 15 years have no numismatic value and because of the huge mintage they will never attain great

"Nevertheless, specu-lators and hoarders of pennies have caused what seems to be a shortage of pennies in certain areas of the coun-

try. "But there is no shortage of a supply of pennies.

"Creating a shortage where it does not exist can adversely affect every public spirited citizen, taxpayer and conservator of the earth's resources. It is inflationary should merchants start to round off sales to the next nickel due to lack of pennies to make change.

"Again, I'd like to emphasize. There are plenty of pennies. But they are in the wrong places.

"It is estimated that over 30 billion pennies are in circulation - doing the job for which they were intended. Somewhere in this vast country of ours, however, in excess of 30 billion pennies are in hiding. These are the pennies I'm looking for. They are in dresser drawers, shoe boxes pickle jars; most anyplace you can think of that will get them out of pocket and out of sight. They are unwanted, unused and unappreciated.

"For the Mint to be forced to continue increasing its penny production to meet the current extraordinary demand is wasteful. Wasteful of a natural resource - copished by man. And wasteful of the taxpayers' hard earned money. One billion pennies returned to circulation will save the taxpayers \$10,000,000.

"The current price and supply of copper allows us to continue production and distribution of the copper bearing cent. During the past 15 years, the Mint has pumped out over 62 billion pennies using some 202,000 tons of

copper in their manufacture. "This year alone the Mint expects to use 33,000 tons of copper in their manufacture.

"This year alone the Mint of copper in cent productionmaking about 35 million pen nies each working day.

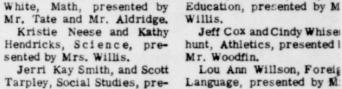

"If just 15 billion pennies could be lured out of hiding, the Mint, at current production figures, wouldn't have to make pennies for almost 2 years and it would represent saving of \$150 million.

"Fifteen years ago, the reverse design of the Lincoln cent was changed from wheat to a view of the Lincoln memorial. The Mint produced 25,7 billion Lincoln wheat pennies during a 50 year period.

"The Lincoln wheat pennies do enjoy collector interest - some years commanding more numismatic value than others. Rarity is one of the determinants in establishing value of almost any collectible item. Especially this hold true for coins A general rule of thumb is the lower the mintage of a given coin, the higher the numismatic value. Coin collecting is a very wholesome hobby. I'm happy to have young people

looking at their coins. "Sixty-two billion pennies of identical design, however, can never qualify as numisever reach great numismatic value. The true collector knows this and collects only those pennies needed to complete his coin collection sets.

The true collector likes bright, uncirculated coins also. Not the dull and discolored ones, unless they are rare. "For every \$25 worth of pennies cashed in at a bank,

LIVESTOCK INDUSTRY FACING UNCERTAINTY--Rising feed costs, financial losses or

slaughter steers and a six percent decrease in consumer consumption have combined to

make this an uncertain time for cattlemen. Probably the main factor affecting the industry

has been the rising cost of feed, said Agriculture Commissioner John C. White. But, he

Rites Held Sunday For Pearl McDonald Mrs. E.M. McDonald, long-

time Merkel resident, died at her home 410 Oak Street at 5:30 Friday morning, May 24, at age 97. Funeral services were held

at 3 p.m. Sunday at the First Baptist Church, with the Rev. Kenneth Jones, pastor officiating, assisted by N. S. Daniel, associated pastor of First United Methodist Church in Merkel. Starbuck Funeral Home was in charge of arrangements. Burial was in Rose Hill Cemetery.

Pallbearers were Buster Horton, Joe Cypert, Booth Warren, Byers Petty, Fred Guitar, Bill Brown, Wallace Bragg, J.C. Petty, Wayne Haynes, W. R. Cypert, Sam Swann, and the deacons of the First Baptist Church.

Mrs. McDonald was born Dec. 13, 1876 in Minden, La. At an early age she moved with her parents, Mr., and Mrs. J. S. Barnes, to Merkel where her father was an early lumberman. She became a member of the First Baptist

Church when a young girl. She married R. E. Tracy, who had established the Tracy Ranch 18 miles west and

south of Merkel. Mr. Tracy died in 1910. She later married E.M. Mc-Donald, a Merkel grocer, who died in 1954.

Pearl McDonald was a familiar figure in her neighborhood as she went about her work in her backyard and in her kitchen. No compliment pleased her more

MRS. McDONALD

than to be called by her family and her close friends "the best cook in town."

She is survived by two daughters and a son-in-law, Nell Teaff and Lucy and Comer Haynes, all of 410 Oak; two grandsons, Bill C. Haynes and Dr. Jack Haynes, both of Abilene; seven greatgrandchildren; a sister, Mrs. Walter Tatum of Mart, Texas; and severl nieces and ne-

Watson, Slaughter Trent Honor Students

Honor students from Trent High School were tapped today for membership into the nation's leading high school honorary, The Society of Outstanding American High School Students, announced Sam Frasier, principal of Trent High School, today.

The following students have been awarded the honor: Peggy Lynn Watson and John

Ray Slaughter. These students are now participating in The Society of Outstanding American High School Student's Annual Awards Program which offers over \$800,000 in renewable college scholarhips The scholarships consist of unrestricted cash awards to colleges of the student's choice and renewable annual scholarships to leading colleges and universities across the nation. The Society of Outstanding American High School Students Awards Program is one of the largest

of its kind in the country. The Awards Program is one means The Society uses to promote academic achievement and civic responsibility on the part of American youth. These students are also recognized nationally in an annually published volume, The Society of Outstanding American High School Stu-dents, which is distributed to colleges, universites and libraries across the nation.

Principals and counselors of high schools submit to The Society each year a limited

number of their top students. The Society then selects only the young men and women who have distinguished themselves as the highest of

achievers for membership. According to the principal, "This is a high honor, indeed, and one of which these students may be proud throughout their lives."

supplies to increase during the next few months, thus bringing prices down. Of course, much of the outcome depends on the world feedgrain situation and the weather, says a grain marketing specialist for the Texas Agricultural Extension Service.

"We are now moving into the transition period between grain crops, so the market will tend to overreact to any news - good or bad," points out Roland Smith, "Producers will want to keep abreast of the situation, since the way they market their

able impact on their income. Current indications are that a sorghum price of around \$3.50 per hundredweight can be expected during the coming season."

Feedgrain Supply Up, Sorghum Prices Down

According to Smith, the prospect for increased supplies and lower prices is brought on by a record feedgrain crop in the making and uncertain demand factors. He expects both domestic and export buyers to stay out of the market for a while to see where the price will stabilize. This will result in sluggish forward contracting for the new sorghum crop

through early summer. "Although sorghum production will be down slightly this year with about a one per cent decrease in planted acres, corn acreage is expected to increase a whopping

TRUSTING FAITH

The Bible plainly states that we are saved by grace through faith. Many people think that they have faith, but they really don't know what it is. It is not mere intellectual faith, for the devils have that (James 2:19) Nor is it simply trusting in Christ for earthly needs such as health, finances, and guidance (I Cor. 15:19). Faith is trusting in Christ alone for eternal salvation (Acts 4: 12). This means depending upon what Christ has done rather than our good works to get us to heaven!

The Bible further teaches, however, that there must be a response as a result of that faith. If the response is lacking, then salvation is also lacking. That response is baptism for the remission of sins. Romans 6:3-5 tells us that we must be baptized to participate in the death of Christ. Jesus died, was buried, and rose on the third day. We in a like manner, die to sin, are buried in baptism, and rise to walk in a newness of life.

If you are not certain that you will go to heaven when you die, then you need help. I Jno. 5:13 says, "I write this to those of you who believe in the name of the son of God, that you may know that you have eternal life." I want to help you have this assurance. Please call on me if I can help. you or study with you.

Farm Price **Decline Causes** Strong Concern

WACO - Texas Farm Bureau President J. T. (Red) Woodson has expressed strong concern over rapidly declining farm prices.

"Together with steadily increasing production costs, the disastrous drop in farm prices since mid-winter has caught farmers and ranchers in a deadly cost-price squeeze," the farm leader

The Farm Bureau president said a number of factors were responsible for the decrease in farm prices, including government intervention, food boycotts, truckers' strike, increased crop yields around the world, and increased plantings in the

Woodson said farm prices for eight major commodities are down an average of 27 per cent from 1974 highs. He pointed out that production costs are up 16 per cent in

the past year. 'It's about time that prices came down more in retail markets," Woodson said.

STATE REP. ELMER MARTIN HAS DONE THE JOB FOR US

Vote Saturday To Re-elect This Effective Legislator To Keep Up The Good Work

Elmer Martin Is The Only Small Town, Rural Candidate.

Elmer Martin Is One of Us -- a small towner. He lives in Colorado City, earns his living from a small farm he owns and another he rents. Small towns and rural communities make up 75 per cent of our 5-county Legislative District 61 (Nolan, Fisher, Mitchell, Jones and Taylor). The other 25 per cent are from Abilene. Martin's opponent lives in Abilene, which already has a State Senator and one State Representative. Our small towns and agriculture communities need more voice in Austin, not less. We need more of Elmer Martin.

88 Per Cent Of His Home County Voters Are For Elmer Martin.

That is right. Elmer Martin received an unprecendented endorsement from his home county of Mitchell in the May 4, Democratic Primary. A total of 1,929 Mitchell County voters cast ballots. An overwhelming 88 per cent --1,702 of those votes -- were for Elmer Martin's re-election to State Representative, District 61. This is extraordinary testimony from those who know him best that Elmer Martin measures up to the high mark for honesty, integrity and effective service.

At 8:45 A.M., May 25, the Police Department received a call from DuBose Texaco minor injuries. A short time Service Station that there had been a break in at the Office Building behind the station sometime during the night. Investigation revealed that the entire office had been ransacked. There was approximately \$170,00 in cash taken and approximate \$18.00 worth of stamps. The Police Department was able to secure some finger prints at the scene and they will be used as a process of elimination as some of the prints taken may be from some authorized personnel working in the office. The Police Department does have a lead and hopefully the case will be closed shortly.

At 9:35 A.M., May 26, the Police Department received notification that there had been a break in at the Adcocks Laundry and Cleaners. Investigation revealed that some items including money had been taken from Mrs. Adcocks purse. It was also later determined that the Adcock Clothing store had also been entered and a various amount of clothing, gloves, etc. was taken. The exact amount of clothing taken is still being determined by Mr. Adcock. Mr. Adcock also is offering a \$100.00 reward to anyone having information that lead to the arrest and conviction of the person or persons that robbed his store. Anyone who may have such information and do not desire to contact the Police, you may contact Mr. Adcock. Either way, all names will be kept secret by the Police Department.

At 8:55 P.M., May 26, The Police Department received a call that there had been an accident on South 2nd St. in Merkel. It was determined that a vehicle had been driven into a high-powered line and there were hot wires that came together and caused a fire. The fire was extinguished by the Merkel Fire Department and the driver of the vehicle was taken to the

Law Affects Farm Wages

COLLEGE STATION - Recently-enacted federal legislation raised the minimum wage for farm workers who are covered from the present \$1.30 to \$1.60 an hour, effective May 1.

The minimum will increase \$1.80 on January 1, 1975; to \$2 on January 1, 1976; to \$2,20 on January 1, 1977; and to \$2.70 on January 1,

"The differential in minimum wage for agriculture and non-agriculture is wiped out by 1978," points out Kenneth Wolf, economist in agribusiness for the Texas Agricultural Extension Service.

"The newly - enacted amendments to the Fair Labor Standards Act do not change the exemption of agriculture from overtime requirements or the '500 man-day' test for coverage of agricultural employers.'

Wolf advises each farmer to examine his records to determine whether he hired as much as 500 man-days of agricultural labor in any quarter of 1973. If so, the farmer is obligated to pay at least the minimum wage to all labor in 1974.

"Covered farm employers recruiting workers for this summer," adds the Texas A&M University System economist.

Also effective May 1, certain domestic service workers were covered by the minimum wage law for the first time, notes Wolf.
