Our 97th Year

§ Planter's Gin in Trent is a sight for local cotton farmers as the harvested cotton continues to pile up on the gin yard.
§ Trent Gin has processed more than 5,000 bales of cotton this season.

Staff photo

10,000 bales already ginned this season, harvest continues

Ten thousand plus bales have already been ginned at the Farmers Co-Op Gin here and Trent Gin as the cotton harvest continues.

Both local gins were working around the clock to get the cotton processed last week.

At the Farmers Co-Op Gin here, Bennett Massey told **The Mail** Monday We have ginned about 5,500 bales so far and there is probably 1,500 bales on the yard.

We have been working around the clock for more than two weeks and the quality of the cotton is staying generally the same. It's quality cotton and we are getting less and less bark."

At Trent Gin 5,300 bales have been ginned and Mrs. Red Shaefer told **The Mail** "We have at least 300 to 400 modules waiting and there are trailers everywhere, it

looks terrific. She said cotton grades there were improving and said some had been graded middlin light spot and strict white.

She added the seed price was staying steady and said most of their seed goes to Bronco Seed in Stamford.

The cotton ginning activity will continue here for about another month.

Bulk cotton seed is being loaded for delivery Tuesday at the Merkel Co-Op Gin. Many local farmers are keeping their seed to

used for feed supplement or fertilizer this season because of low bulk seed prices.

President, principal, pupil explain goals of Academic Boosters

A Citizen:

As a citizen of this community with three young people in our public schools, it is gratifying to know of the emphasis placed upon academic excellence by our school board, administrator, principals and many fine teachers.

Last year the very first Academic Banquet was held in our community, honoring those students who had excelled in academic excellence. At that time, 37 special academic jackets were awarded and 87 young people received academic medallions. This even was a real tribute to our great young people, their parents and the Merkel school system.

Following last year's banquet, an "Academic Booster Club" composed of parents and concerned citizens, was formed to help in a continuing effort to promote academic excellence at Merkel High School. Many parents and citizens signed up that very evening before leaving the banquet, to be "Academic Boosters".

I would like to encourage you as a citizen of the community and as parents of students in Merkel High School to become an academic booster today. You may do this by submitting a ten dollar check to "Merkel Academic Boosters" and drop it off at the high school office or mailing it addressed to the high school office.

Friends, being a Merkel Academic Booster simply states to

our young people "we believe in you, and we support you in your continuing strive for achievement."

Please join the Academic Booster Club today, an investment in a young person's education always pays great dividends.

Bob J. Brandon
President

Merkel Academic Booster Club
A Principal

When students come to school with an attitude of trying and when there is support and encouragement from home and school to make the most of what the school has to offer, students have the best chance of finding school worthwhile and meaningful. Thus, if students, parents and teachers all have high expectations for success, then success is best assured.

Merkel High School seeks to reward successful academic students. An academic recognition program is the cornerstone to rewarding these students. An honor roll certificate is issued each six weeks for those students who demonstrate success in studies.

On February 22, 1986, an Academic Honor Banquet will be held. Those students who have maintained a cumulative average of 93 points or above shall be honored with a "letter jacket". Those students with a cumulative average of 85 points or above will be honored with a medallion.

The more we all expect and give, the greater will be the success of our students.

Larry Curry
Principal
Merkel High School

A student:

Academics are very important. In twenty years, few people will remember what kind of grades their classmates had. However, a strong academic background is the key to a successful future. An academically sound student is more likely to be the business leader of tomorrow. Academics are the cornerstone of the American dream. With some motivation and hard work, everyone can have a solid head start in the work force.

The motivation factor comes from educators who take the time to work with students. They are not just information banks to make withdrawals from, they are friends. The teachers who make learning easier are those who listen to suggestions and listen to problems. By stressing the importance of schoolwork, they make a potentially unfavorable situation seem like an experience to be remembered.

Kevin Mitchell
Senior Student
Merkel High School.

Too many weekends ... more

by Cloy A. Richards

Glenn Teaff, the local WTU manager summed up a lot of my feeling Monday when he said "We have too many weekends during

the past few weeks. Things will slow down for a while now, unless you have a child in the FFA or in basketball. If you do, get your tennis shoes on and be ready to run around for the next

couple of months.

How did your Christmas go? We got a chance to see a lot

Lost ring, memorable day, gins busy ... more

relatives and that's always fun, well, most of the time, fun. It's interesting to see how people and their relationships change, especially with friends or relatives you see once a year or less.

Local cotton gins have been working 24 hours per day lately trying to get in the cotton crop. More than 10,888 bales of cotton had been ginned here and in Trent as of Monday and they will probably be busy for the next month.

I can't believe the warm weather we have been having for the past couple of weeks. I hope this doesn't mean we will be cold until May.

There is a letter to the Editor in this week's paper explaining why some folks here feel the Merkel Academic Booster Club is important to the community.

Take some time to read it and give it some thought.

A young man in Lovington, N.M. is looking for his high school class ring.

His girlfriend lost the ring on a Christmas visit in Merkel and she thinks it may have been lost somewhere on Locust Street.

It would make the young man very happy to have his senior ring back. Anyone with any information can call us at 928-5712.

The year certainly was started off on the right foot for the Richards Clan.

Those Aggies swarmed right past Auburn 36-16 in the Cotton Bowl and it was something to see. It will also be a day my son, Joey, won't forget.

We made a stop on the way into the game, and ended up in the same room as Texas Governor Mark White.

The governor shook hands with Joey and he'll remember that for the rest of his life.

Mark White may not be the most popular guy in town but it's not every day a kid would have that opportunity.

Of course, it didn't hurt his feelings a bit that A & M won.

Without a last minute touchdown by A & M in the Cotton Bowl, my 28-17 prediction would have been pretty close.

Since I'm on a 1-1 streak, try this one.

If Texas A & M is not under any NCAA "sanctions" next year, don't be surprised if the Aggies are playing in the Cotton Bowl with a shot at the mythical national title on Jan. 1, 1987.

At least I'll get to wait a long time before I eat crow on that one.

Arbour Day group offering 10 trees for \$10

The National Arbor Day Foundation is giving ten free trees to people who become Foundation members during January, 1986.

The free trees are part of the Foundation's effort to promote tree planting throughout America.

A Colorado Blue Spruce, Red Maple, White Flowering Dogwood, Red Oak, European Mountainash, Black Walnut, Silver Maple, Norway Spruce, Green Ash, and Sugar Maple tree will be given to members joining during January.

These trees were selected to provide a wide range of benefits: flowers, shade, berries, nuts, and beautiful fall foliage, according to the Foundation. The six to twelve inch trees will be shipped postage paid with enclosed planting instructions at the right time for planting this spring. The Foundation makes its spring shipments between February 1 and May 31, depending on the local climate and this year's weather.

The National Arbor Day Foundation, a nonprofit organization, is working to improve the quality of life throughout the country by encouraging tree planting. The Foundation will give the ten free trees to members contributing \$10 during January.

To become a member of the Foundation and to receive the free trees, a \$10 membership contribution should be sent to TEN TREES, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by January 31, 1986.

Our recent subscription offers have worked quite well as we have added quite a few readers in the last six weeks. We appreciate your support and hope you will continue to read the

paper. We did a lot of traveling over the recent holiday period and I am still amazed at how many people are complying with the new seat

belt laws. Most people wear their seat belts although a lot of those same people said they wouldn't when the law was passed.

DALE HAMMOND

Clark's services held

Anna May Clark, 94, of Merkel died Saturday at a local hospital. Services were held at 2 p.m. Tuesday at First Baptist Church with the Rev. Kenneth Jones officiating, assisted by the Rev. John Wagner. Burial was in Rose Hill Cemetery.

Born Anna May West July 1, 1891, in Abilene, she was the daughter of J. Ban West and Mary Lou West. She married Houston Clark Dec. 15, 1909.

She was a homemaker. She was a member of the First Baptist

Church for many years and a member of the Home Demonstration Club in Oak Ridge.

Her husband died in 1972. Also, a son, Willie Joe Clark, died in 1961.

Survivors include two daughters Bernice Jones of Merkel and Patsy McDuff of Merkel; three sons, Bernard Clark of Abilene, Woodrow Clark of Girard, Kan., and J.H. Clark Jr., of Merkel; nine grandchildren; 17 great grandchildren; and four great great grandchildren.

MISD lunch menu

The Merkel School menu is as follows:

Friday January 3: Bar-B-Q Pork on a bun, pork n beans, potato salad, rosey pears.

Monday January 6: Burritos with cheese stick, macaroni and tomato, lettuce wedge with dressing, applesauce cake.

Tuesday January 7: Bar-B-Q

links, cole slaw, pinto beans, corn bread, apricot halves.

Wednesday January 8: Frito pie with chili and cheese, pork n beans, comb. salad with choice of dressing, cherry cobbler.

Thursday January 9: Fried Chicken with cream gravy, whipped potatoes, french green beans, hot rolls, sliced peaches.

Friday January 10: Hamburgers, french fries, lettuce, tomato, pickle, onion, raisins.

Vet's

dividends up

The Veterans Administration has announced that 168,797 Texas veterans who have kept their GI life insurance policies in force will share a record high annual dividend distribution in 1986 totaling \$47,313,000.

Waco VA Regional Office Director Stephen L. Lemons said the higher dividend payout is due to lower death rates among policyholders and high interest earnings on the insurance funds' investments. Nationwide, policyholders will receive dividends of \$905 million, \$106.2 million more than the \$798.8 million paid out in 1985.

Each policyholder will receive the 1986 dividend in the month of the anniversary date of the individual policy. No application is necessary. Although there are several methods of payment, most policyholders prefer a dividend check.

Government life insurance has been issued through various periods starting Jan. 1, 1919, through May 2, 1966, to veterans of World Wars I and II and the Korean Conflict. The only VA-administered program now open to new issues is Service Disabled Veterans Insurance. It is available without dividends, to veterans with service on or after Apr. 25, 1951, who have a service-connected disability.

What's Happening to Farmland With Agriculture in Turmoil

By Robert L. Haney
TAES Science Writer

Conversion of farmland to urban uses in the United States has become a widespread issue. A major concern of some is the adequacy of food and fiber production in the not-so-distant future.

Many people, aware of the steady decline of farm numbers over the past three decades and the current economic turmoil in agriculture, are concerned with what's happening to the State and Nation's land supply, according to agricultural economists with the Texas Agricultural Experiment Station.

In Texas, during the 1970's, population and employment grew at more than twice the rate of the U.S. The State added over three million people in the 1970's.

This rapid increase in population centered mostly in the major metropolitan areas of Dallas-Fort Worth, Houston, Austin, San Antonio, El Paso, and the Lower Rio Grande Valley. Sixty-eight percent of this population growth occurred in 15 of the State's 254 counties.

As metropolitan areas expand in population and economic activity, agricultural land is converted to non-agricultural uses. Most future expansion of the highway system, airports, industrial expansion, housing construction, parks and recreational development will be in these metropolitan areas.

The loss of prime farmland in these areas will depend on the intensity and proximity of this growth to farmlands, especially cropland. And, as one economist observed, once converted to non-agricultural use, an acre seldom reverts to food and fiber production.

Agricultural land-use policy is a controversial issue. Debate over land use arises because various social, economic and environmental goals are pursued, each in competition with each other, observes Dr. Lonnie Jones, an agricultural economist for the Texas Agricultural Experiment Station.

Some of Jones' research has been used for decision making by both the legislature and various governors.

To discourage the conversion of agricultural lands to non-agricultural uses, governments at all levels have enacted a variety of programs.

For example, differential assessment programs, which provide tax relief for farmers, are most commonly used to protect agricultural land. Another Station economist, Dr. John Stoll, who made a study of the effect of such devices concluded that they might delay conversion but that they didn't prevent it.

In 1966, Texas approved a constitutional amendment providing for the special assessment of agricultural land for property tax purposes. Only agricultural land was eligible for the program and the basis for assessing farmland was its "agricultural use" value. This legislation was amended in 1978 and coverage extended to forest and open space. It also liberalized the requirements for coverage and allowed more landowners to qualify.

What impact have these deferred taxation laws had on agricultural land use in Texas? The study by Stoll implies they have had little or no impact.

The year-to-year changes in total agricultural land use remained about the same. The deferred taxation laws have not produced an increase of the agricultural land base or significantly affected land use patterns.

In assessing trends in Texas farmland by type, agricultural economists use data taken from the U.S. Census of Agriculture, the Crop Reporting

Board and the Conservation Needs Inventory of Texas for 1970.

The analysis of data, for each census year from 1959 through 1982, shows that during this period, total land in farms decreased slightly, Jones says. Pastureland acreage fluctuated between 87.3 million acres and 85.4

million acres, whereas cropland fluctuated between 36.4 and 39.4 million acres, since 1969.

Harvested cropland, on the other hand, increased from 19.8 million in 1969 to 20.7 million acres in 1982. Irrigated land has, however, shown a decreasing trend since 1969.

In analyzing these trends, a cautious outlook should be taken, Jones says. A decrease in one type of farmland does not necessarily imply that this land has been converted to non-agricultural uses.

Market forces in farm commodities often dictate changes from cropland use to pastureland or woodland and vice versa. Conversion of farmland is taking place but the magnitude of this conversion can only be properly assessed with improved data on land use.

Texas has a total land area of 170,429,336 acres, of which 153,603,733 acres is classified as agricultural land.

Asked about the effect of growth of

public roads in the State, Jones secured figures which show that between 1971 and 1984, there was an increase of 30,669 miles of roads in the State. The acreage in right-of-way was 967,321 in 1971 and this increased to 1,067,672 in 1984.

So, in 13 years an 11% growth in mileage took an additional 100,351 acres for a 9% growth of land in roadway.

Jones has concluded from this study that for the present, and intermediate future, problems created by land conversion in Texas is not so much a threat to our ability to supply agricultural products, as it is to the attendant adjustment pains in local economies where conversion is taking

place.

One example he cites is the lower Rio Grande Valley where the economic base of the region is changing from being predominantly agricultural industry to one where the recreational and service industry is dominant.

Many businesses that are oriented toward the old economic base face serious adjustment problems as the transition occurs, Jones says.

THE STATE OF TEXAS
 To: Don Davenport, Address Unknown, Defendant, Greeting:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 10th day of Feb., 1986 at or before ten o'clock A.M. before the Honorable 42nd District Court of Taylor County, Texas, at the Court House of said County in Abilene, Texas.

Said Plaintiff's Petition was filed in said court, on the 13th day of September, A.D. 1985, in this cause, numbered 39,491-A on the docket of said court, and styled, Galloway Enterprises, Inc. Plaintiff, vs. Don Davenport, Individually and d/ b/ a Don Davenport Operating, Inc., Defendant.

The names of the parties to the cause are as follows: Galloway Enterprises, Inc. are Plaintiffs and Don Davenport, Individually and d/ b/ a Don Davenport Operating, Inc., are Defendants.

A brief statement of the nature of this suit is as follows, to-wit: Suit on Account Plaintiff prays that Defendant be cited to appear herein and that on final hearing Plaintiff have judgement against the Defendant for the sum of \$18,194.93, together with the sum of \$6,000.00 as attorney's fees, in the total sum of \$24,194.93, for costs in this behalf expended, and for such other relief as the Plaintiff may be entitled either at law or in equity, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the seal of said Court a office in Abilene, Texas this the 23rd day of December, A.D. 1985. Attest Rilla Mahoney District Clerk 42nd District Court Taylor County, Texas By Patricia Henderson Deputy (Seal) 145-4tc-91

CITATION BY PUBLICATION
 THE STATE OF TEXAS TO: JOE BASIL GRANATO, ADDRESS UNKNOWN, Respondent:

GREETINGS

-YOU ARE HEREBY COMMANDED to appear and answer before the Honorable 326th District Court, Taylor County, Texas, at the Courthouse of said County in Abilene, Texas, at or before 10 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the petition of ELIZABETH BELLMAN GRANATON PERREZ, Petitioner, filed in said Court on the 11th day of September, 1985 against JOE BASIL GRANATO, Respondent, and said suit being numbered 6086-C on the docket of said Court, and entitled "In The Interest of BAMBIE JEANETTE GRANATO, a Child" the nature of which suit is a request to terminate the parent-child relationship between JOE BASIL GRANATO and the child, and grant adoption of the child to NESTOR ARRANDE PEREZ, Jr. Petitioner request the child's name be changed to BAMBIE JEANETTE PEREZ. Said child was born

the 9th day of April, 1985 in Abilene, Taylor County, Texas.

The Court has authority in this suit to enter any judgement or decree in the child's interest which will be binding upon you, including the termination of the parent-child relationship and the appointment of a conservator with authority to consent to the child's adoption.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said Court at Abilene, Texas, this the 4th day of December, 1985

Rilla Mahoney, Clerk 326th District Court Taylor County, Texas By Patricia Henderson, Deputy (Seal) 143-88-4tc

How to find THE COMET explained

How To Use the Charts

Most of the time my comet won't be bright enough to catch your eye. So you'll have to know just where to look for it. The charts on the next few pages show exactly where it will be in the sky. Never mind that you don't know a thing about astronomy charts! Just follow these step-by-step instructions.

1. First, hold your hand flat out in front of you at arm's length with your fingers together, like I'm doing here. Close

one eye and sight past your hand toward the sky. The width of your hand (four fingers together) is a simple way to measure distance between points in the sky.

Try measuring the size of things in "hands." In the picture, the two stars

are three hands apart. Twelve hands should take you a quarter of the way around the horizon. Easy, isn't it?

2. The next step is to find where north is. One way is to use a map. (Don't use a compass; they're not very accurate.) I like to find North by the North Star. As shown in the drawing at lower right, the Pointer stars of the Big Dipper always point to the North Star, which is always due north.

3. Now look at the charts on the next six pages. They're in pairs for different months. The top ones are for the northern United States and southern Canada (or elsewhere near 40° north latitude). The bottom ones are for the southern United States (or elsewhere near 30° north latitude).

Find the right chart for your location and date. Now find the comet's position on that date and mark it with an X. This is where the comet will be at the time listed on the chart. You should plan to go out and look within about 15 minutes of this time. (If need be, you can find sunrise or sunset times in your local newspaper.)

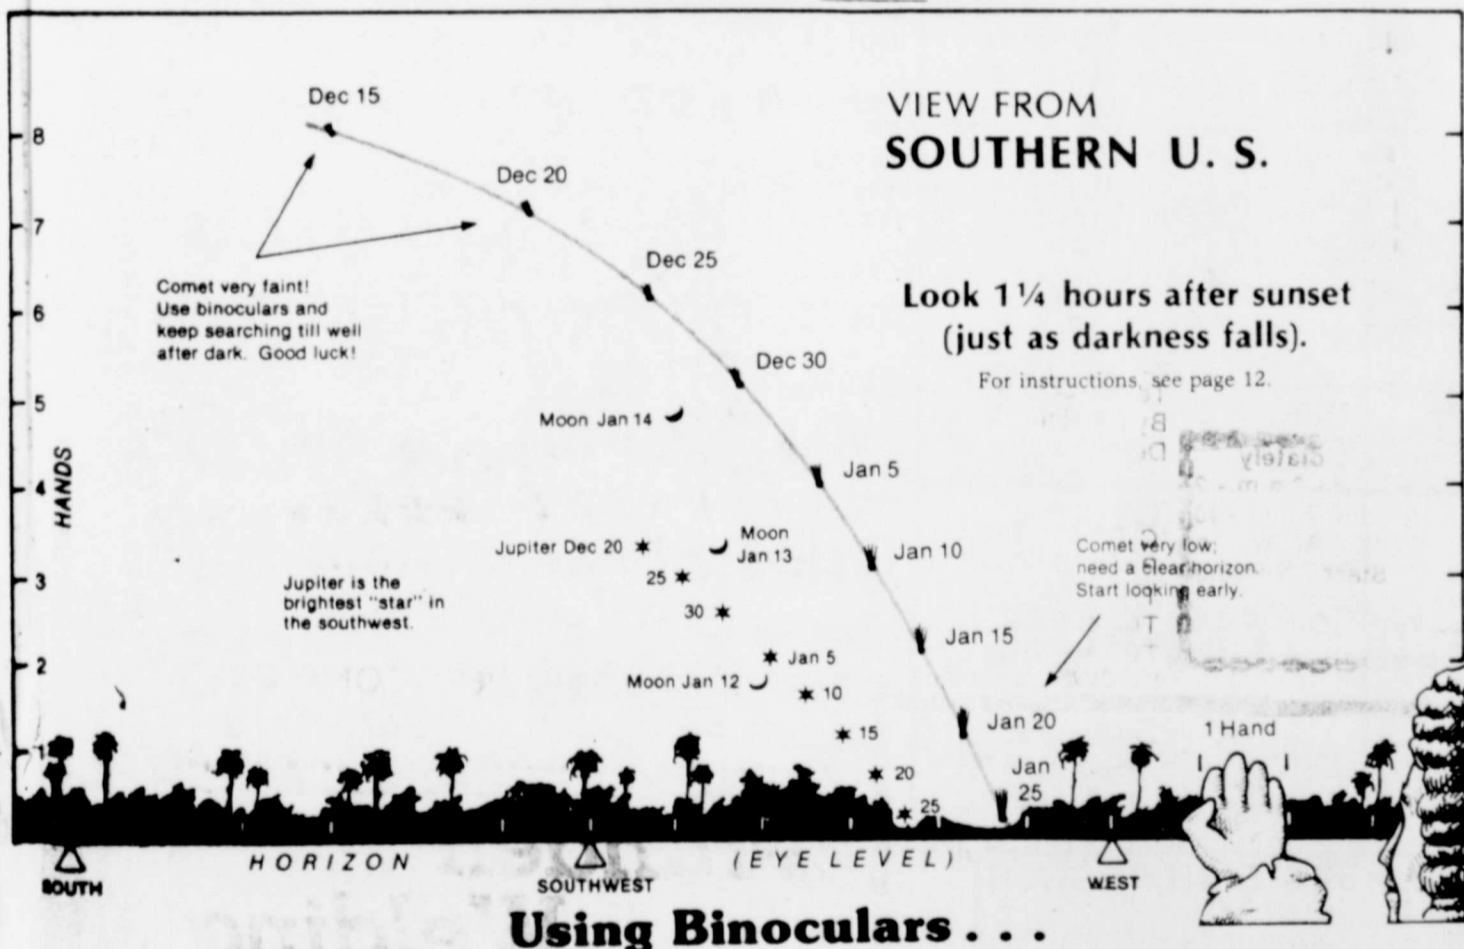

On the chart, the scales along the bottom and sides indicate hands. Count how many hands the comet is from west, south, or east (whichever is nearest) and how many hands it is above the horizon. Be sure to start from the "true horizon," or eye level. This means sighting horizontally and counting up from there, regardless of buildings, trees, or other objects in the way.

Look at the example above. Here the comet is shown for December 23rd. As I am demonstrating, it is 4 hands to the right of south and 6 hands above the horizon.

4. Now find this spot in the sky. The comet will be there. If it's not visible right away, scan the general area carefully with binoculars.

The Big Dipper and the North Star (as seen from the northern U. S.)

The handiest optical aid for looking at the sky is a pair of binoculars. They're a lot easier to use than a telescope and show you a larger part of the sky at once. This is a big advantage for finding Halley's Comet. Any binocular will give a better view of the comet than the naked eye. Use whatever pair you may have around the house.

If you decide to buy binoculars to view Halley, be sure to get a reputable brand; this is your best assurance of quality. For best performance on the comet — and for sky-watching in general — the front lenses should be as large as possible. Magnifications between six and nine power are fine for comet viewing.

Starr says thanks for Christmas party help

Starr Nursing Home would like to gratefully acknowledge our residents, families, staff, and friends that so lovingly took time to contribute to the success of the residents' Christmas Party.

To everyone that made the delicious goodies, we thank you, and to everyone that helped Santa pass out and open up presents, and serve all our friends, your help was invaluable.

Starr sincerely hopes all of you enjoy the true meaning of the season's and have the most prosperous New Year ever.
