A QUICK READ OF THE NEWS

He's woman's best friend

Yosemite Sam, the 180-pound Saint Bernard, certainly earned his steak dinner.

The 2-year-old dog kept owner Kathi Zerance alive for nearly half an hour after she had a brain aneurysm while swimming in the Susquehanna River near Harrisburg, Pa.

Zerance later underwent emergency surgery and was released from the hospital.

She had taken her five dogs to the river for their daily exercise. She joined them in the river.

"All of a sudden I started hearing this loud roar," she said. Within seconds, the 44-year-old's body went limp, she said.

"I told Sam, 'Hold onto Mom. She's in trouble,'" she said.

Zerance managed to wrap her arms around the dog's neck and the current carried them downstream until Sam scrambled onto a rock and maneuvered his body to stabilize Zerance.

How to lose an election

Southwest Ranches, Fla., town council candidate Douglas Couvertier lost by a landslide — and he couldn't be happier.

Couvertier had spent a week begging people not to vote for him after he realized he would have to resign as a battalion fire chief in neighboring Miami-Dade County if he won the election. The county prohibits employees from holding elective office.

Resigning would have cost him a pension he is three years away from collecting.

When he learned that election officials couldn't take his name off the ballot, Couvertier shifted gears and began calling newspapers, friend and neighbors to tell them he didn't want to win and would resign if elected.

"I'm relieved," he said after learning he got 74 of nearly 1,700 votes cast.

Rep. Combest backs repeal of benefit tax

SPECIAL TO THE JOURNAL

U.S. Rep. Larry Combest, R-Texas, voted Thursday to repeal the income tax on Social Security benefits.

The Social Security Benefits Tax Relief Act of 2000 passed the House of Representatives by a vote of 265-159 and goes to the Senate for consideration.

The bill would repeal a 1993 measure that allows taxation of up to 85 percent of Social Security benefits, rather than the previously taxable 50 percent.

"This unnecessary tax costs more than 8 million seniors an average of \$1,180 each year," Combest said. "In a time when our senior citizens should be enjoying their golden years, the government should not be taking away the fruits of their labor from years of hard work."

He said the tax "discourages saving and investing your money, because if you do, you will be heavily taxed."

Under the law, when a single retiree's income exceeds \$25,000 or a couple's income exceeds \$32,000, then 85 percent of their Social Security benefits can be taxed.

"After strong bipartisan insistence by the Congress, the president agreed to repeal the Social Security earnings limit for seniors this year," Combest said.

"I hope that he will recognize the fairness of the government reducing the 1993 tax on seniors' hard-earned benefits," he added.

Combest's district includes Bailey County.

Two area students earn trip to D.C.

Two Muleshoe-area students have returned from a 12-day trip to Washington, D.C., sponsored by the Bailey County Electric Cooperative.

Jodie Coker, a junior at Lazbuddie High School, and Terrell Herington, a junior at Muleshoe High School, made the trip as part of the Texas Electric Cooperatives' Government-in-Action Youth Tour.

They traveled to Washington by chartered bus with a group of 114 students, mostly from Texas, who won essay or speech contests similar to the one held locally. They were accompanied by 11 chaperones.

They toured every site possible for the six days in Washington, with a 12- to 14-hour schedule each day.

Both students said it was an experience they will never forget and encouraged anyone who is eligible to enter the youth contest.

Herington is the daughter of Jay and JoAnn Herington and Coker is the daughter of Roy Don and April Coker.

The idea for these trips began in 1957 when then-Sen. Lyndon B. Johnson suggested that electric

Terrell Herington and Jodie Coker pause in Washington.

cooperatives send young adults to Washington to learn about the government.

Since 1964, the Austin-based statewide organization of electric cooperatives has coordinated Texas partici-

pants in the youth tour. This is only the second year since 1976 that Bailey County Electric has sponsored participants in the tour, according to a press release from the cooperative.

Character Counts! training is planned Aug. 8 at Sudan school

JOURNAL STAFF REPORT

Character Counts! training is scheduled for 8:30 a.m. to 4 p.m. Aug. 8 at Sudan High School.

The session is geared to schoolteachers, child-care workers, youth workers — both paid and volunteer — and youth Sunday school teachers.

The session will be conducted by the Center for Character Development at Lubbock Christian University.

The Character Counts! program was produced in 1995 by a coalition of educational and youth development organizations dedicated to the promotion of character development based on six core ethical val-

ues: trustworthiness, respect, responsibility, fairness, caring, and citizenship.

It is a multi-faceted program providing guidance, training and ideas on how to integrate those Six Pillars of Character into school programs, day-care settings, youth organizations and communities in general.

The cost of the upcoming training session is \$20. Each participant will be provided an 80-page manual and a free lunch (provided by American State Bank of Littlefield).

Pre-registration is required by Aug. 2 and may be accomplished by calling the Extension office in Bailey County (272-4583) or Lamb County

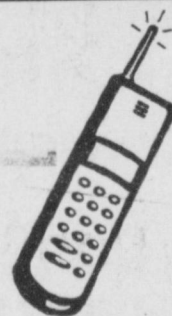

(385-4222, ext. 235).

Both Bailey and Lamb counties have teaching curricula for Character Counts! in kindergarten through 12th grade. Teachers or youth groups wishing to schedule a program on the Six Pillars of Character may contact their respective county Extension office.

Resources also are available from a certified trainer for scheduling at other times.

Individuals with disabilities who require auxiliary aid, service or accommodations in order to participate in this training are encouraged to call either Extension office listed above. Extension services are non-discriminatory.

Those hummingbird feeders can stop collecting dust now

By RONN SMITH
Editor

The late-summer invasion of hummingbirds in our area is under way — so if you didn't get the feeders up in the spring, now is your best chance to see immediate results.

Several species of hummingbirds seem to become somewhat nomadic once the nesting season is over, so we have not only the year's young birds wandering around, but many adults as well.

At the farm, the most common are rufous hummingbirds, followed by broad-tailed and black-chinned. Across most of our area, the black-chinned are the most common, and as far as I know that is the only species that nests here.

Black-chinned males have a black spot at the base of the beak and a purple gorget (throat feathers). The purple throat only flashes in the right light, just as with red-throated species, because the color is iridescent.

When the light isn't right, the bright throat patch may appear simply as a dark blotch;

then it catches the light and the whole bird is transformed instantly.

Rufous males are distinctive because they are that color (rufous, a sort of bright cinnamon) over much of their bodies, rather than the more typical greenish or grayish.

Most females look so much alike that it can take an expert to identify the species, though the rufous females tend to have cinnamon-colored markings — but not always enough to make identity certain.

Summer-hatched young birds tend to look like females, but sometimes you'll see an immature male starting to get just a few colored feathers in the throat.

If you want to familiarize yourself with the various spe-

cies, a good place to start is with a copy of the book on hummingbirds written by former TV weatherman Dan True, who moved to Clovis a few years ago.

Remember, too, that male hummingbirds tend to be territorial about their food sources — sometimes extremely so. If you get one that chases all the others away from your feeder, you might want to get another feeder and place it out of sight of the first one.

It isn't too late to plant a few final fall vegetables, and that can be a big incentive for mowing the weed patch that took over part of your spring garden.

If you have leftover seeds (and who doesn't if they've planted anything in the past two years?) or can get your hands on some, there are vegetables that do well in the cooler weather of fall.

We've about reached the limit on planting the biggest leaf vegetables such as Swiss chard or collards — they should be in the ground this

weekend or within the next few days.

If we have another late freeze, of course, you could plant them a couple of weeks from now and still get a good return on your work, but I'm assuming that sooner or later winter is going to return to our area — and it could be this year.

Generally needing to be planted by mid-August are spinach and beets. Both of these (especially spinach) may need some protection from the sun for the first month, but fall is probably the best time for spinach here. As a summer crop, I think it's just more trouble than it's worth to try to keep it going — even the "heat-tolerant" varieties I've tried weren't very.

In a mild winter, spinach will continue to grow off-and-on in our climate, giving you fresh salad greens after every prolonged warm spell.

Of course, we're just now entering the turnip-planting season, and any time for the next month is a good time to plant some. Poor turnips —

they have a really bad PR image, but a century ago they occupied the position that tomatoes occupy in gardens now. Fresh from the ground, they're a tasty treat.

Leaf lettuce and radishes can be safely planted through at least mid-September. They mature so quickly that a freeze isn't likely to get them before they produce — and lettuce, in particular, seems pretty cold-resistant, too.

If you want to try something different (and I know you do), you might try one of the late varieties of radicchio. There's even one called Agosto, in case you might not have read the packet and found out it was bred for late planting.

You may think you're not familiar with radicchio, but if you buy the pre-mixed supermarket salads and there are red leaves in the one you get, you've probably eaten radicchio.

Chances are it may not finish growing by frost time, but it's very cold-hardy in our climate.

Happy planting!

New immunization requirements in force

SPECIAL TO THE JOURNAL

Some children enrolling in schools or child-care facilities this fall will face new immunization rules for hepatitis A, hepatitis B and chicken pox (varicella), effective Aug. 1.

Also, all children in schools or child-care facilities must be up to date on all their immunizations, according to Kristin Hamlett of the immunization division at Texas Department of Health.

As of Aug. 1, the existing requirement for hepatitis B vaccine expands to include a group of adolescents.

Previously, children born on or after Sept. 2, 1992, had to show proof of receiving three doses of hepatitis B vaccine by age 5.

As of Aug. 1, children born on or after Sept. 2, 1988, also must be vaccinated against hepatitis B. These children may receive the vaccine at any time before age 12, and proof of vaccination will not be required until 30 days after their 12th birthday. Children with proof of a previous hepatitis B infection do not need to be vaccinated.

Before recommendation for universal infant vaccination against hepatitis B, about 30,000 children and adolescents were infected annually in the country.

A large number of people infected with hepatitis B early in life become chronic carriers who can continue to transmit the disease. Vaccination against hepati-

tis B is the only way to decrease the number of chronic carriers.

Chicken pox (varicella) vaccine or a history of having had chicken pox is required for two groups of children as of Aug. 1.

The first group is children born on or after Sept. 2, 1994, who are 12 months of age or older. A second group, children born on or after Sept. 2, 1988, but before Sept. 2, 1994, must show proof of vaccination or a history of having had chicken pox by 30 days after their 12th birthday.

Before the vaccine, about 4 million cases of chicken pox occurred each year in the United States, with up to 200,000 patients having complications including an average of 100 deaths.

Other vaccines required at various ages are polio; diphtheria, tetanus and acellular pertussis; *Haemophilus influenzae* type b; and measles, mumps and rubella.

Children who have not completed a particular series of shots may attend school or child-care facilities if they have received at least the first dose and are in schedule for the remaining doses as soon as medically possible.

"Children vaccinated at the earliest recommended age always meet state immunization requirements," said Robert Crider, director of the Health Department's immunization division.

The hepatitis A requirements apply only to students in the 32 counties along the Texas-Mexico border.

Corn-payment puzzle pops up

SPECIAL TO THE JOURNAL

LUBBOCK — As Texas corn farmers in the Lower Rio Grande Valley and Gulf Coast finish corn harvest, Panhandle and Blacklands producers are gearing up for harvest season.

Since harvest began, variations in the loan deficiency payment have become evident.

"There are discrepancies throughout the state," explained David Gibson, executive director of the state corn checkoff board.

"The loan deficiency program in conjunction with cash bids is leaving producers well short of the posted county loan rates. The safety net aimed at

protecting farmers from low prices is not working," he added.

The Texas Corn Producers Board office in Lubbock has fielded questions and concerns from across the state.

A major problem, and one that cannot be explained, is why the posted county price is higher than the actual cash bids in most counties. So far, the corn board has found this true in all areas where harvest is under way.

In most cases, the continued low price of grain has farmers holding it until the price goes up, leaving little or no storage space for newly harvested grain.

Some HMOs dropping Medicare plans

AUSTIN — Some Texas HMOs will stop offering Medicare plans as of Jan. 1, forcing almost 200,000 Texans to find other coverage.

Aetna, U.S. Healthcare, which covers about 130,000 Texans, is the largest HMO leaving the Texas market. Humana is withdrawing from 28 counties, affecting nearly 37,000 Texans.

Insurance Commissioner José Montemayor advised those who will be affected not to panic but to look for alternatives now. He also said policyholders should not make final decisions until they confirm that their Medicare HMO coverage will end Dec. 31.

Those losing coverage will have the option to switch to another Medicare HMO if possible, return to traditional Medicare coverage or go to a new, private "fee-for-service" plan to be offered in all but 15 counties.

Starting in mid-July, the federal Health Care Financing Administration began providing information on plans that will offer Medicare HMO coverage in 2001.

The information will be available at www.medicare.gov or by calling (800) 633-4227.

State spending deadline

Texas is in a use-it-or-lose-it situation with federal funds earmarked for health-care programs for uninsured children. After a Sept. 30 deadline, the

money may be redirected to other states.

Texas could lose nearly \$450 million in health care for needy children because its Children's Health Insurance Program did not get under way until May, more than two years after funds were authorized by Congress.

Each dollar Texas spends in the program yields \$3 in federal matching funds.

Sales tax holiday set

Texas' second annual "sales tax holiday" will be observed across the state Aug. 4-6.

"On the first Friday, Saturday and Sunday of August, no state or local tax will be charged on most clothing or footwear priced under \$100," state Comptroller Carole Keeton Rylander said last week.

This year, Rylander added a new dimension to the "holiday." Customer who put clothes and shoes costing less than \$100 on layaway during Aug. 4-6 will be permitted to take those items out of layaway at a later date without

paying sales tax, she said.

Last year, Texans spent more than \$400 million on tax-exempt clothes and shoes during the tax holiday and saved more than \$32 million in sales taxes, the comptroller's office reported.

Bullock Museum takes shape

The Bob Bullock Texas State History Museum, on the southern edge of the University of Texas campus in Austin, is projected to open on April 21, 2001, San Jacinto Day.

TOPS NEWS

TOPS No. 34 leader Laverne James opened the July 27 meeting, was held at the regular site, the Muleshoe Church of Christ.

James presided over the meeting and also led the prayer and pledge. Noemí Sánchez led both songs.

Secretary Janie Hughes read the previous week's minutes, which were approved as read.

The "triple-tie" losers of last week, James, Joline Franklin and Linda White, were presented gifts because they lost weight again this week.

Lucille Harp, the greeting card chairperson, selected get-well cards for Ozelle Cherry and Jerrell Otwell and each member signed them.

Tommie Fulcher received a gift in honor of her recent birthday. The other members sang "Happy Birthday" to her.

Twenty members were present for the weigh-in. Alene Bryant and Betty Jo Davis,

weight recorders, gave the weigh-in results.

The best loser was Elaine Coburn, with White as first runner-up and James the second runner-up.

James led in a discussion about overcoming obstacles to losing weight.

The article suggested that it might help to narrow goals to the ones that mean the most to the individual. Then narrow those to the single most important goal.

The pepper tree contest has ended and the list of members "on the tree" and "on the ground" has been announced by contest chairperson Jewel

Peeler. Members "on the tree" were James, White, Franklin, Bryant, Coburn, Fulcher, Peeler, Molly Davis, Betty Jo Davis, Mariani Wilson, Aurora Mata, Evelene Harris and Rose Sain.

Members "on the ground" were Hughes, Sánchez, Missy Royal, Lucille Harp, Paula Cantrell, Polly Otwell, Lucretia Roland, Ruth Clements and Alma Robertson.

Peeler was replaced as contest chairperson at her request; she will be followed in that position by Royal.

TOPS No. 34 meets at 5:30 p.m. Aug. 3 at the same site. Visitors are welcome.

The Mexican Americans will be broadcast Tuesday, August 1st at 8:00 p.m. It repeats Saturday, August 5th at 12:00 midnight.

"Y'all Hush Talkin' and Listen to Me!"

Allen Ketchersid, a friend of mine who preaches in Indiana, was visiting with his father-in-law recently. For years, Allen's father-in-law has enjoyed raising birds and is particularly fond of a parrot which has given him a great deal of enjoyment—and conversation. As they discussed the parrot, Allen's

Focus On Faith

father-in-law told him about a family who purchased a similar bird and taught it to say, "Y'all hush talkin' and listen to me!"

"At first," Allen explains, "the family was greatly entertained. They laughed as the bird captured the attention of their friends with his statement. But what started out as humorous and cute became increasingly obnoxious and eventually intolerable. They had to get rid of the bird! They couldn't stand to be around it!"

Allen went on to point out that, though we expect childishness from a child for a while, unremitting childishness doesn't play well on anybody for very long, even when it comes from a household pet!

'Tis true!

How do you cure your parrot of spouting the very line you taught

him, particularly if, every time you try to "correct" him, he just tells you to "hush talkin'!"?

How do you "re-program" a bird who is mindlessly rehearsing exactly what you taught him to say? Do you spank him? Why? (How, for that matter?) He has no idea that what he's saying comes off as selfish, self-centered, and obnoxious. Gag him? Barbecue him? Roast him over a spit for his odious spouting?

Now, a harder question. How do you "cure" a child who persists in playing back, much to his parents chagrin, or shame, or displeasure, exactly what they taught him? How do you "cure" an adult who continually behaves childishly? Perhaps the words or the behaviors or the attitudes seemed cute once. But they've long since gotten over it. Teachers and employers, husbands and wives, don't find them cute at all.

How do any of us learn to "re-program" ourselves when we see issuing from our own lives the smoke that bears witness to the fire of selfishness burning in our souls?

Here is God's counsel: "Do nothing out of selfish ambition or vain conceit, but in humility consider others better than yourselves . . . Your attitude should be the same as that of Christ Jesus . . ." (Philippians 2:3-5).

Maybe we should "hush talkin'" and listen to Him!

All-select team

The Little League coaches' all-select team includes (front row, from left) Alejandro López, Marshall Head, Julio Bustillos, Ray Ramírez, Rene Orozco and Sergio Gonzales; and (back row, from left) coach Chris Johnson, Kendall Johnson, Dillon Gallman, Richard Rojas, George Rodríguez, manager Hector López and Ismael Mendoza. Not pictured is Gunter Kirby.

Piano students of Becky Jones include (back row, from left) Castle Crawford, Kelli Harris, Kati Mimms, Kelsey Jones and Jodie Coker; plus (front row, from left) Brittany Schacher and Crescent Crawford.

Jones' piano students have good year

Becky Jones' piano students have had a busy and productive year. In February Kati Mimms and Jodie Coker competed in piano solo at the University Interscholastic League contest in Canyon. The students are required to perform Class I solos from memory to qualify for state competition in San Marcos. Coker performed Claude Debussy's "Golliwogs Cakewalk" and received an "excellent" rating of II. Mimms competed with Haydn's Sonata No. 43 Finale and received a I, which qualified her for state. She competed in San Marcos in May and received a II there. She was accompanied to San Marcos by her mother, Reta

Mimms, and Becky and Kelsey Jones. Then in March most of Jones' students competed in Lubbock at the Texas Federation of Music Teachers Pastoral Contest. A rating of superior qualifies the students to compete at state competition in Fort Worth in June. All of the participating students qualified for state competition. They were Crescent Crawford, Castle Crawford, Kelli Harris and Kelsey Jones, all in piano solo; Coker in piano duet; and Mimms in piano sightreading and piano duet. Most of the students competed at state on the Texas Christian University campus

with Harris receiving a rating of very good. Castle Crawford and Jones were awarded ratings of excellent. Mimms was awarded an outstanding rating, qualifying her to receive a medal at the awards assembly. Crescent Crawford received a clearly outstanding rating, which meant she performed her solo at the awards recital. The students were accompanied by Charlotte Harris, Reta Mimms and Becky Jones. They all spent an afternoon at the Grapevine Outlet Mall after the competition. All the students also participated in Christmas and spring recitals at the Lazbudie Methodist Church.

BBB warns South Plains citizens against surge in telephone scams

SPECIAL TO THE JOURNAL LUBBOCK — The Better Business Bureau of the South Plains reports a surge in calls from consumers reporting that they had received suspicious telephone calls soliciting personal credit-card account information. Although the scenario of these calls varied, they shared a common attribute: The caller was attempting to catch the consumer off guard and gain his or her credit-card number. A woman reported that she received a call from someone posing as an employee of her credit-card issuing company. She was asked to read her credit-card number to the caller in order to supposedly update, which she did. Within a few days, the con-

sumer discovered an unauthorized \$295 charge on her credit card bill. In similar cases, callers identified themselves as representatives of the consumer's credit-card company with an offer of credit-card protection service. In order to subscribe to the protection service plan, the consumer would be required to provide all of their credit-card numbers to the caller. In a third twist to the credit-card scheme, consumers report receiving a call from an individual offering a low-rate credit card. The caller claimed that in order to offer this "lower rate" card, they needed to verify the consumer's existing credit-card number and its current rate. The bureau reminds consumers never to provide credit-card

numbers or other credit-card account information, or provide any private financial or personal information (such as your checking account number or Social Security number) to anyone who contacts you to provide your account number over the telephone if they are initiating a call to you regarding your account. If the caller claims to be from your bank, credit-card company, government agency or other organization, ask that they put their request in writing and send it to you. And, ask for a name, physical location and telephone number. Helpful prevention information is available at the following web site: www.consumer.gov/knowfraud.

Facts About The BIBLE BY JOHN ZEHTI

SOUND ADVICE!
 *LAY NOT UP FOR YOURSELVES TREASURES UPON EARTH, WHERE MOTH AND RUST DOTH CORRUPT AND WHERE THIEVES BREAK THROUGH AND STEAL: * (MATT. 6:19)

SOUND ADVICE IS CONTAINED IN THE SERMON ON THE MOUNT. JESUS ALWAYS SPOKE IN THE VERNACULAR OF THE DAY. ANY OF THE VALUABLE THINGS THAT PEOPLE POSSESSED WERE LIABLE TO BE STOLEN, FOR ONLY THE RICH HAD VAULTS IN WHICH TO KEEP THEIR TREASURES. THE COMMON MAN USED TO HIDE HIS GOOD CLOTHES AND OTHER PRIZED POSSESSIONS AWAY IN SOME HIDDEN NOOK OF HIS HOUSE--BUT THEN, ALTHOUGH SAFE FROM A THIEF, THEY OFTEN FELL PREY TO RUST AND MOTHS! IF A MAN HAD SOME MONEY, INVARIABLY HE HAD IT HIDDEN IN THE GROUND--THEN HE WORRIED NIGHT AND DAY THAT SOME TREASURE HUNTERS MIGHT DISCOVER IT! THE POOR PEOPLE OF THE TIMES WERE ALWAYS DIGGING IN FIELDS, HOPING TO FIND MONEY THAT SOMEONE HAD HIDDEN AWAY!

SO, NO MATTER WHAT A MAN DID WITH HIS MATERIAL POSSESSIONS, HE WAS ALWAYS WORRIED ABOUT THEM! JESUS' ADVICE, TO THE COMMON MAN, TO LAY UP IN HEAVEN A TREASURE OF GOOD DEEDS, DONE HERE ON EARTH, WAS PRACTICAL, INDEED FOR...

FOR WHERE YOUR TREASURE IS, THERE WILL YOUR HEART BE ALSO. (MATT. 7:21)

Jones, Williams wed July 1 in San Angelo

Katy Jones and Jason Williams were married July 1 at the Southgate Church of Christ in San Angelo. The ceremony was performed by Scot Yarbrough.

Trey and Laura Smith sang duets of "Forever I Do," "Your Love" and "Listen to Our Hearts."

The bride's honor attendants were her sisters, Erin Flores of Pensacola, Fla., and Kelsey Jones of Lazbuddie. Bridesmaid was Katie Williams (sister of the groom) from San Angelo.

Bridal attendants carried long-stemmed daisies and wore floor-length dresses of antique lavender crepe. The bodices were edged with white crepe; covered buttons and bows accented the backs.

The best man was Chuck Holler of Houston. Groomsmen were Josh Seaton and Mark Vincent, both of San Angelo.

The bride is the daughter of John and Becky Jones of Muleshoe and the granddaughter of Florene Jones of Muleshoe and Jim and Nona Milner of Lubbock.

The groom is the son of Jerry and Nona Williams of Water Valley, Texas, and the grandson of Elizabeth Barber and N.B. Williams, both of Water Valley.

The flower girl was Tara Flores, niece of the bride, who wore a white tea-length dress with pale green organza vines and flowers on the front.

The ringbearer was T.J. Foster, who wore a tuxedo similar to those of the

Mrs. Jason Williams

groomsmen.

The bride wore a sleeveless princess-line gown of white French matte satin. The scoop neckline was accented with seed-pearl beading in a daisy design that continued around the back of the gown.

Covered buttons accented the gown from the back bodice to the hem of the sweep train.

A silver and pearl tiara accented by a ribbon-edged veil completed the ensemble.

The bridal bouquet was white daisies accented with baby's breath and touches and

lavender.

The groom wore a black tuxedo with a gray/silver best and bow tie. His attendants were dressed similarly but wore black and gray long ties.

For tradition, the bride chose as something old the ringbearer's pillow, made by the bride's grandmother for her mother 26 years ago; as something new, the bride and groom's names and a Scripture cross-stitched by the bride's grandfather; as something borrowed, silver reception appointments belonging to the bride's great-grand-

mother; and as something blue, a garter.

A reception followed the wedding at the same location. Serving were Krista Wilson, Erica Dye and Wendi Williams, all friends of the bride, Robbie Jones, a cousin of the bride, and Sarah Williams, a cousin of the groom.

The bride's cake was a three-tiered white basket-weave design topped with live daisies and with daisies and lavender cascading down the side and around the bottom.

The groom's cake, made by the couple's friend Joann Foster, was a two-tiered chocolate confection with chocolate creme and raspberry filling. It was topped by a mountain bike symbolizing the groom's favorite pastime.

Kimberly Smith of San Angelo registered the guests. Kira Cousatte (a cousin of the bride) passed out programs for the wedding celebration.

The bride is a 1996 graduate of Lazbuddie High School and earned a bachelor of science degree in elementary education from Angelo State University in San Angelo.

The groom is a 1996 graduate of Water Valley High School and is a senior kinesiology and science major at Angelo State. He is employed as the recreation director at West Texas Boys Ranch.

After a honeymoon in Fredericksburg, Texas, the newlyweds are living in San Angelo.

Jewelry allergies are often caused by nickel

SPECIAL TO THE JOURNAL
HOUSTON — When your wedding ring makes your finger itch, don't think it's an omen. Check out the nickel content of your jewelry.

"Nickel dermatitis is fairly common," said Dr. Rajani Katta, assistant professor of dermatology at Baylor College of Medicine. "Nickel is very common in jewelry. Even 14 karat gold contains nickel."

Katta said a skin allergy from nickel will appear directly under the jewelry, causing a patch red, itchy rash. The allergy can develop at any

time in life.

"Often, patients don't think the rash could be related to their jewelry because they've worn that piece of jewelry for a long time. Many times the allergy is under a wedding band, and most of them contain nickel," she said.

Though some people are so sensitive to nickel that even lightly touching it causes a reaction, most people develop the rash only in certain circumstances, Katta said.

"If you wash your hands frequently, soap and water left under the jewelry break down

your skin barrier and can cause the nickel to penetrate your skin," she said. "Or sweat can leach the nickel out."

Once a rash develops, it slowly disappears after the offending jewelry is removed. A topical steroid cream can reduce the symptoms.

Katta said that for anyone just mildly sensitive to nickel, the best advice is to keep skin dry and free of soap and water residue.

If the rash appears routinely

under a wedding ring, several coats of clear nail polish inside the ring can be an easy solution, she said. Another possibility is to have the inside of the band platinum-plated.

Unfortunately, for those allergic to nickel, jewelry is not the only culprit.

"One patient came in who sews a lot. We determined it was the nickel in the handle of her scissors that was causing the problem," Katta said.
