BOVINA, TEXAS

VOL. IX, NO. 16

## WHITTLIN'

BY DOLPH MOTEN

People we talk with are cautiously confident that President Johnson will be elected to a four-year term.

Some supporters of his opponent even concede that Goldwater doesn't stand a good chance.

A few days ago, we heard a man comment, "Goldwater has about as much chance of being elected as I do. . . and I'm not even running." Most people aren't this openly confident of the election's outcome. They fully expect Johnson to win, but they realize, at the same time, that upsets happen and the favorite doesn't always come out on top. And some are wondering what they'll do if Goldwater is elected.

Frankly, we think the Republicans would be in a much better position now if they had a candidate other than Goldwater at the head of their ticket. Goldwater's reputation of being an "aginer" worries people.

"If he was just for something instead of against everything," some of his would-be supporters have commented.

Scranton, probably, if he had gotten the Republican nomination, would be figured to be running a better race now than is the ultra-conservative senator from Arizona.

A North-of-town farmer commented to us recently, "I don't see how a man who grows grain for a living can vote Republican. Just for the life of me, I can't figure it out."

With the election just 13 days away, we'd like to encourage voters to vote a straight ticket. Our theory is that a Democratic president doesn't have any need for a Republican senator or representative.

And to vote a straight ticket, it's necessary here, remember, to vote Democratic because the Republicans don't have candidates after you leave the state level and come this way. They haven't progressed enough as a political party to provide candidates on all levels of government in our area.

Plenty of campaign materials poster, literature, bumper stickers and what-have-you, are available at our office. If you have need for it, please come by or call us. It won't do any good where it is--it needs to be distributed.

It's a strange thing, we think, that people seemed to be more concerned about President Johnson carrying his own state of Texas as they do about him winning nation-wide. They're not as sure about Texas as they are the nation, it seems. Republicans are doing a lot of work in this state. The Democrats need to make a strong, and successful, effort to "get out the vote" to insure a lopsided margin in favor of LBJ November 3.

The Carson family is dominating Bovina Business Cotton Bowl Football Contest like the Yankees do the American League.

For the past three weeks a member of the family has taken home the first place prize money. And this week, they added a second place check to their cash prizes.

Mrs. Carson is leading in the race for the grand prize in this year's contest, too.

The probable outcome of upcoming football games is, no doubt, a popular topic of conversation at their house.

To the delight of their fans, the Bovina Mustangs have picked up three consecutive wins after having that many losses at the season's start. They've been on the winning track since they came back during the second half of the fourth game of the season to whip Meadow. They continued their momentum in a whitewashing of Texline week before last and then did an outstanding job last week in defeating the Happy Cowboys and old district rival.

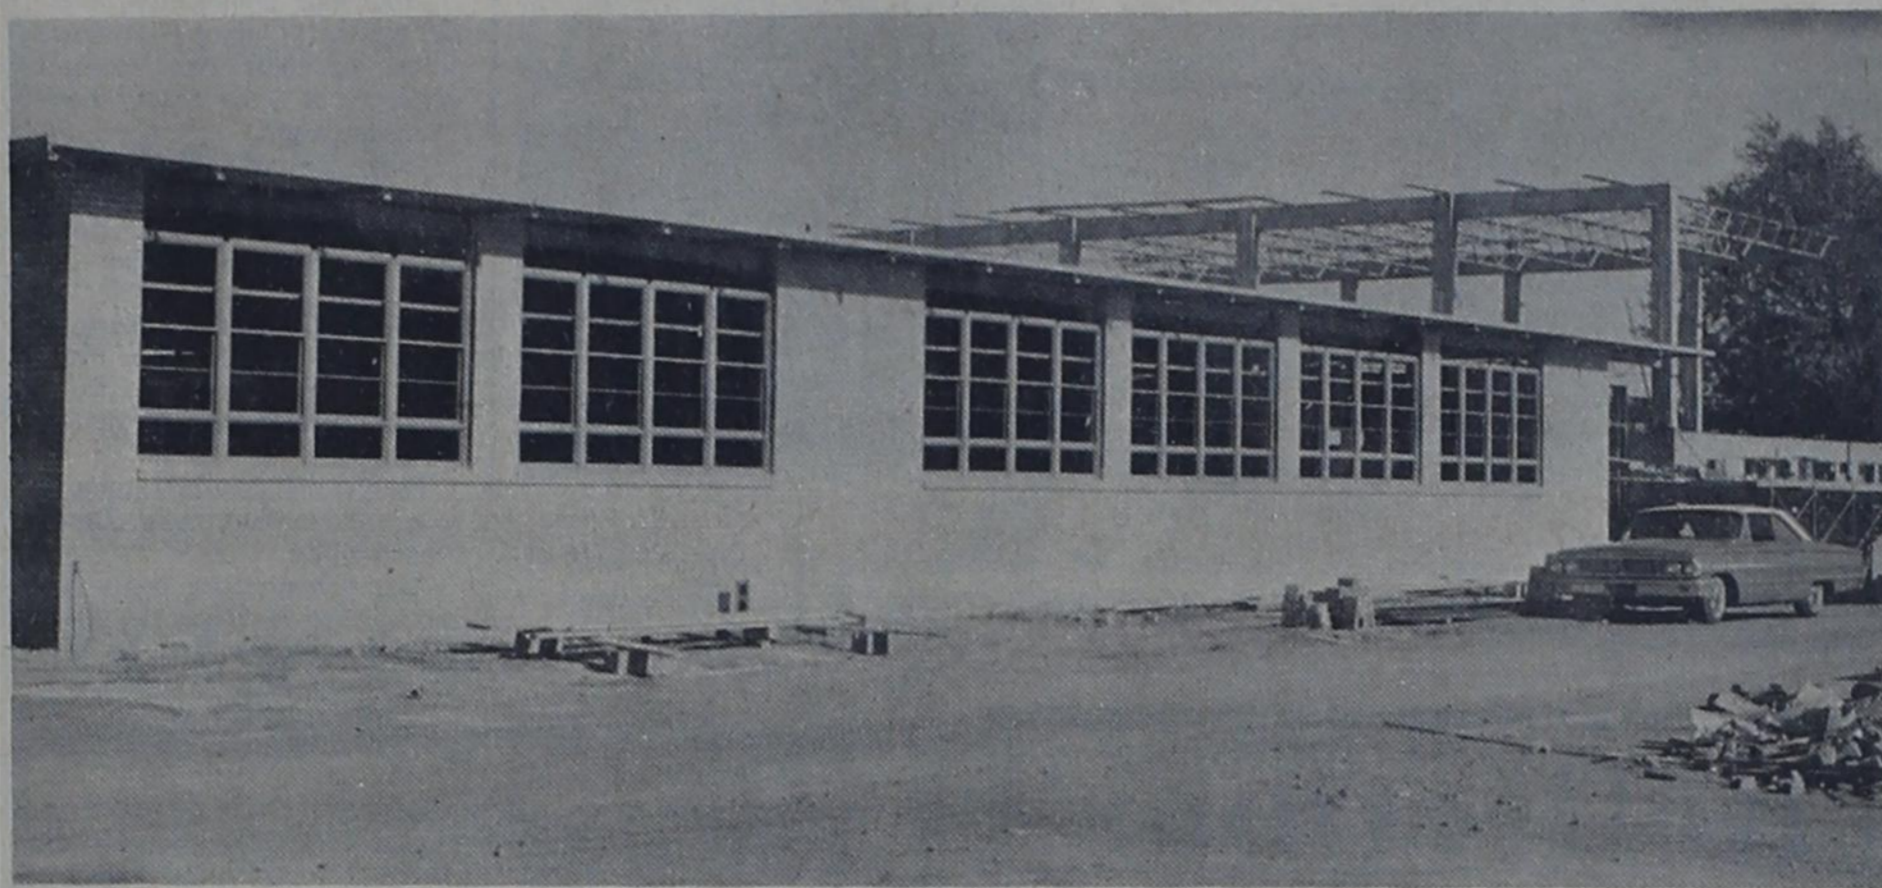

Year in and year out, if you can beat Happy you have one of the better teams in this district. We doubt that 1964 will be an exception.

## Study Club Plans Meal Before Game

Bovina Woman's Club will sponsor a fried chicken dinner Friday preceding the football game between Bovina and Hart.

The meal will be in school cafeteria with serving to begin at 5 and continue until 7.

Pie and coffee will be served following the game. Prices for dinner will be \$1.50 for adults, \$1 for high school students and 75 cents for children.

TAKING SHAPE -- The new grade school building addition is beginning to look like what it's going to be now as outside classroom walls have been completed. Raised beams in right

background are where the grade school gym will be. School officials hope to be able to use the \$200,000 addition to the school plant by shortly after first of the year.

KICKOFF TIME 7:30 --

## Longhorns Here Friday For District Contest

For the first time this season, the Bovina Mustangs will be favored to win a football game. They take on the Hart Longhorns in a District 1-B tilt here Friday night.

The Longhorns were winless for the season until last week when they gored Lazbuddie, 24-14.

Kickoff time will be 7:30. Coach Roy Stone's charges will be seeking their third consecutive district win in as many weeks. They hold decisions over Texline and Happy.

Pre-game information on Hart shows that the team is light and will be outweighed by the Mustangs four pounds per man in the line and 15 pounds per man in the backfield. They sometimes operate from a "shotgun" offense.

Until last week, the Long-

horns were winless after dropping their first five games. Non-district losses were to Anton, Silverton, New Deal and Turkey. They also dropped a 24-0 district decision to Nazareth, considered one of the better teams in the conference.

The Hart team is led by its 160-pound junior fullback, David Smith, who has good speed according to Coach Stone.

Mustangs are expected to have an altered line-up for this week's game. Seven members of the squad, including two starters, are attending the State Fair

in Dallas, this week and are missing practice sessions. They are expected to be back in time for Friday night's game, however.

Commenting on last week's

game with Happy, Stone said that his team didn't play up to "our capabilities" even though it

## World War I Veterans Visit Jack Roach

Two former army friends visited last week in the Jack Roach home.

Stewart Hosley of Salt Lake City, Utah and Carl King of Idaho and their wives visited last week in the home of Mr. and Mrs. Jack Roach.

The men were "buddies" during World War I.

## CROP Canvass Slated Tuesday

Methodist Youth Fellowship will conduct its annual house-to-house canvass for CROP, Christian Rural Overseas Program, Tuesday night, October 27.

MYF members will call at homes for donations to be sent overseas.

Trick or treat for CROP has been conducted here for the past several years.

Sponsoring the MYF group is Mrs. Dean Hastings.

## NEW CHAPTER --

## Bobby Fillpot JC President

Bobby Fillpot is president of new Junior Chamber of Commerce Chapter organized here last week.

Other officers elected at an organizational meeting Thursday night were Sonny Spurlin, vice president; Alfred Moody, secretary; Harold Snell, treasurer; Charles Smith, interclub director; and Sid Killough and Jesse Fulcher, directors.

The new organization meets again tomorrow (Thursday) night at 7 in Bovina Restaurant.

Dues were set last week at

\$13 per year. Plans are to be made this week for the club's charter night banquet. Fillpot says he expects it to be on a Saturday night in November.

Eighteen members attended the meeting last week. More than twice that many are hoped for this week by Fillpot. A total membership of 25 or more is needed before a charter can be obtained.

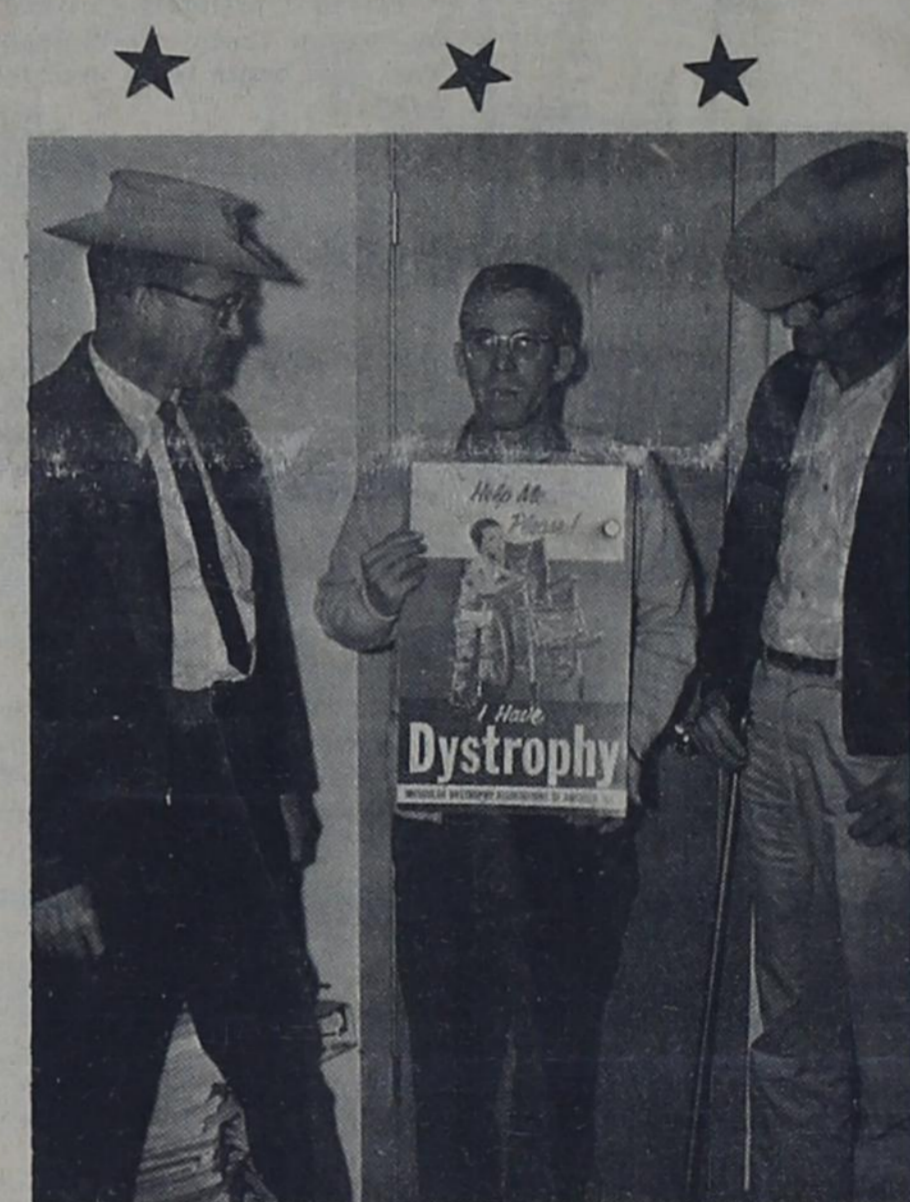

Primary purposes of the civic organization are community betterment and personal improvement.

The Mustangs' current winning streak is expected to attract a good-sized crowd to the Friday night tilt.

Fans wishing to park cars around the field may do so from 3:30 until 5, Superintendent Otis Spears announces. Admission gates close from 5 to 6 and then open again at 6.

**Weather by Willie**  
Should turn real cold. Hard freeze between October 22 and 28. Some moisture.  
--Willie

## Firemen Schedule MD Drive

PLAN FUND DRIVE -- These three members of Bovina Volunteer Fire Department, shown with a placard publicizing the current Muscular Dystrophy campaign will join with other members of the department in making a house-to-house canvass of the town Monday night. Left to right are Henry Minter, Jim Russell and Bill Denney.

Bovina Volunteer Fire Department members will conduct a drive here Monday night to raise funds for Muscular Dystrophy Associations of America.

Fire Chief Bill Denney says the drive will begin at 7:30 and will be completed by 9:30. The firemen will make a house-to-house canvass in town.

In addition to the canvass, coin canisters have been located in prominent places in town to collect coins. The drive earned approximately \$200 for the MDA last year, Denney says.

## Band Parents Meet Monday

Band Parents organization will have their monthly meeting Monday evening, October 26, at 8 p.m. in school auditorium.

Mrs. H. R. Denney, secretary for the organization, urges all parents to attend.

## Funeral Held For Mrs. Dunn

Funeral services were conducted Wednesday of last week for Mrs. Glenn R. Dunn, 56, of Muleshoe. She was a former resident and school teacher at Lazbuddie and was a past Worthy Matron of the Eastern Star in Bovina.

Services were conducted in Marlow, Okla. She died in Wichita Falls General Hospital October 11 from injuries received in an automobile accident October 10 near Hollis, Okla. She was enroute to Marlow after being notified that her father, Dan Goard, was in serious condition.

Mrs. Dunn was a past district deputy of the Eastern Star and had served on the board of advisors of Rainbow Girls.

Survivors include her husband; one son, Dan Dunn; her father, Dan Goard of Marlow; one sister, Barbara Reading of Marlow; and two grandchildren, Roy and Donna Dunn, Farwell.

OCTOBER 29 --

## Farmers Union Schedules Meet

New officers will be elected and four delegates to state convention will be named at regular annual meeting of Parmer County Farmers Union meeting Thursday night, October 29.

The meeting will be in Hub Community Building and will begin at 7:30.

Resolutions to be submitted to the state association will be drawn up.

Every Farmers Union member is urged to attend the meeting and all farmers are welcome, announces Sam Bradley of Lazbuddie, secretary-treasurer.

All farmers present may assist in drafting resolutions at the meeting.

Officers other than Bradley are Leon Smith, Jr., president, and Travis Dyer, vice president.

WIN FIRST AND SECOND --

## Carson Family Continues Football Contest Domination

For the third consecutive week, a member of the M. H. Carson family took first place in Bovina Business Cotton Bowl Football Contest as Richard Carson won \$5 first place award. And just for good measure in keeping up the family's winning ways, his brother, Gary, took the \$3 second place money.

Mrs. Carson won first place two weeks ago and another son, Alan, won first a week ago. David Lawlis won third place

and \$1 last week.

Each of the money winners in last week's contest named nine of 10 winners, missing only the Texas-Arkansas upset. They were the only contestants of the total of 113 to name nine winners.

Mrs. Carson jumped to a two-point lead in the race for the grand prize, which is an expense-paid trip for two to The Cotton Bowl in Dallas January 1. She has a point total of 54 out of a possible 70 for a per-

centage of .771.

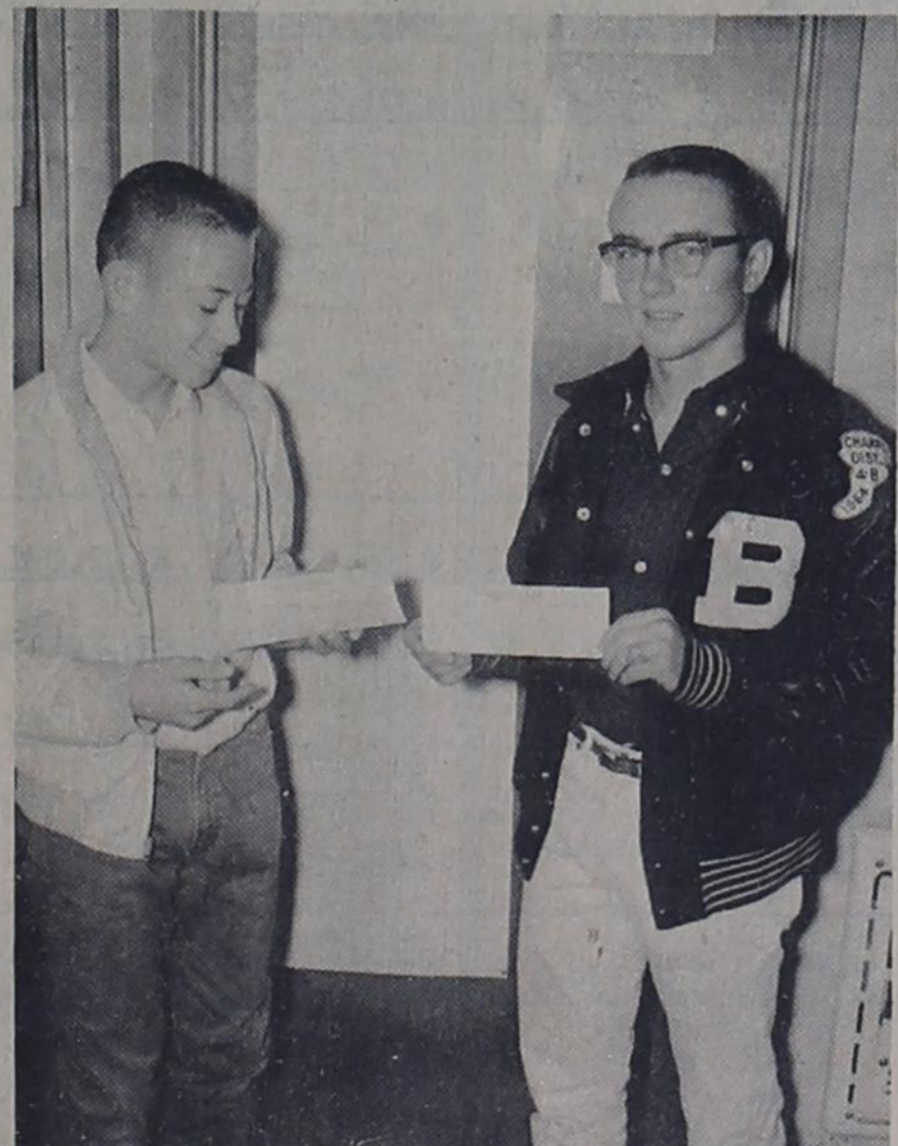

Two points behind the leader are Gene Ezell and Jeanne Kerby with totals of 52 each. Three points back with 51 each are Richard Carson and Bill Ellis, Ellis, editor of The Friona Star, was knocked out of first place for the grand prize last week after having been in the lead or tied for it all of the previous six weeks.

Alan Carson and Gary Carson have 49 each. Six points off the pace with 48 are Jimmy

Clements, Bill Caldwell, Flossie Rhinehart, Patsy Sherrill, Jay Sherill, Melvin Terry, Vernon Willard and A. M. Wilson.

Ten contestants named eight winners last week. They were John Wilson, Barbara Griffith, A. M. Wilson, Don Bandy, Alan Carson, Jeanne Kerby, Dixie Carson, Ellen Estes, Linda Estes, and Joe Bob Jones.

This week's contest is the eighth in the series of 13.

ALL IN THE FAMILY -- This pair of Carson boys, Gary, left, and Richard, joined their mother, Mrs. M. H. Carson, and their brother, Alan, as winners in Bovina Business Cotton Bowl Football Contest, Richard won first place last week while Gary was third. Alan won first place October 7 and Mrs. Carson was first place winner September 30.

## Q'Back Club Will Award Shotgun

Bovina Quarterback Club members are in the midst of a fund-raising campaign.

Donations are being accepted by members to get money to pay the club's game-filing expenses for the season and to pay for a banquet for the football team at end of the season.

For each \$1 donation, donors receive a chance on a 16-gauge, modified Remington automatic shotgun.

The shotgun will be drawn for at the Bovina-Nazareth football game here October 30.

**NEW SCHOOL CAR** — Superintendent Otis Spears, left, and Milt Fitts, Bovina High coach who teaches driver education, are shown with the '65 Plymouth furnished for the school's use by a Clovis automobile agency.

**Democratic Art Exhibit, Success**

Six local artist entered paintings in the amateur class at the Second Annual art show sponsored by Democratic women of 30th congressional district Saturday at Dimmitt.

Mrs. Wylie Bullock, committeewoman from Lazbuddie, presented first place scholarship award to high school student Tommy Sharp of Claude. He was given a \$75 scholarship. Second prize went to Joe Adams of Muleshoe and third place to Billy Standiforth of Floydada.

The contest was held at school cafeteria from 2 to 5 p.m. Saturday afternoon.

Local artists who exhibited paintings were Mrs. Reagan Looney, Mrs. Dolph Moten, Mrs. Tom Caldwell, Mrs. Art Mast, Mr. and Mrs. J. T. Hammonds, Mrs. Billy Johnson and Mrs. Marlin Ferguson.

"Son," said his father sadly, "after four years of college, you're nothing but a loafer and a nuisance. I can't think of one good thing it has done for you." The son was silent for a moment. Then he said timidly, "Well, it cured Ma of bragging about me."

**Colts Take First Win From Vega**

After four consecutive losses, Bovina's Junior High Colts picked up their first football victory of the season here Thursday night.

They blanked the Vega Short-horns, 8-0. Vega had defeated the Bovina team in a game played there September 24, 12-0.

The Colts first touchdown of the season was scored by Full-back Steve Peirson. Halfback Rodney Murphy ran for the extra points.

The team goes to Hart tomorrow (Thursday) night. Game time is 6:30.

Hart defeated the locals in a game here October 1, 20-0. The Colts conclude the season against Lazbuddie there, Thursday, October 29.

Elephant Butte Reservoir, largest in New Mexico, is on the Rio Grande 120 miles above El Paso.

**Cpl. Gilreath Gets Letter Of Compliment**

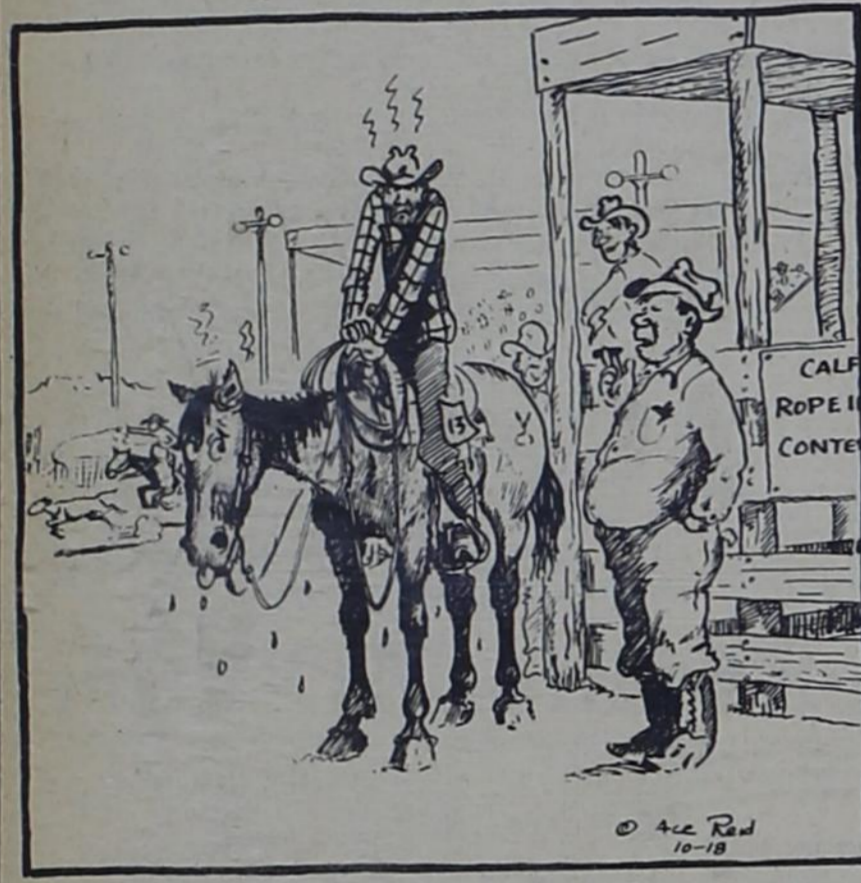

Corporal Max Gilreath, son of Mr. and Mrs. Boyd Gilreath of Bovina who is serving with the U. S. Marine Corps in England, recently received a complimentary letter from T. J. McHugh, sergeant major of the Marine Corps.

member of the Marine Corps Commandant's party.

The letter said, in part, "I was most impressed with your personal appearance and military bearing -- your performance as a driver was outstanding in every respect."

Gilreath is a graduate of Bovina High School.

"Helping Make A Good Community Better"

**Reflections From The Blade**

SIX YEARS AGO  
October 8, 1958

Two Bovina children were struck by autos during the past week but both received only slight to moderate injuries in two separate mishaps.

The two are LaJuana Hastings, 4, daughter of Mr. and Mrs. Dean Hastings, and Steven Lane, 6, son of Mr. and Mrs. Bill Lane.

Morris Douglas, about 30, was buried alive in moving grain Wednesday night of last week at Sherley-Anderson Grain Elevator at Lariat in an accident that nearly took his life.

The first privately operated radio unit in Bovina is owned by Parmer County Farm Supply. The unit was installed last week and began to be used by the business to save time and confusion.

While most folks are talking about getting some sort of industry to start in a small town, Archie McCutchan is busy getting one started in Bovina with his Bovina Glass works business.

THREE YEARS AGO  
October 11, 1961

Friday will be homecoming for ex-students of Bovina schools. Activities begin at 2:30 with a parade downtown.

Football squadmen have elected four queen candidates. They are Dixi Hartzog, junior; Elaine Fuller and Paula Howard, sophomores; and Judy Strawn, freshman.

Wind blew and sand flew, but there was a good representation of quality Quarterhorses on hand for Bovina's first annual show Saturday.

There were a total of 66 entries in 18 halter classes and three performance classes.

A quorum of four school board members reviewed audit report on last year's school operation at a regular meeting of board Monday night.

Place cotton denim or canvas sneakers on shoe trees to dry after washing them. This enables the fabric to dry more smoothly and eliminates puckers around the toes.

CARRIER OF THE YEAR -- Ricky Kunselman is shown with the Carrier of the Year Award presented to him last week by Clovis News Journal. He is the son of Mr. and Mrs. Pat Kunselman.

### Kunselman Gets Award From Paper

Ricky Kunselman, son of Mr. and Mrs. Pat Kunselman, was one of three boys who received "Carrier of Year" awards presented by Clovis News-Journal Thursday night in Clovis. Ricky received a four-year service trophy and a lamp with the inscription "Carrier of the

Year" on the base. The awards were presented to the boys for their outstanding and courteous service in delivering newspapers.

They were accompanied to Santa Fe by J. D. Denham. They had lunch with New Mexico Secretary of State, toured the cliff dwellings close to Santa Fe and attended a banquet that evening. Kunselman is a sophomore in Bovina High.

**Strengthening the Jig**  
Here's a tip for salt-water fishermen who find that mackerel, kingfish, etc., can chew up jig feathers fast and also cut the threads that hold a jig together. Just cover the thread with fine wire, then paint.  
**Hub Cap as Frying Pan**  
Who'd even think of using a hub cap (wheel cover) from an auto as an emergency frying pan? It works!  
**Sea Leader to Fly Line**  
A needle helps you make a neat attachment of a leader to a fly line.

Thread leader through needle then run the needle up the core of the fly line for a half inch. Bring leader out and wrap around fly line at that point.  
**To Locate Dogs**  
If you're a coon hunter, try putting some strips of reflecto tape on the collars of your hounds. It makes them stand out clearly in the beam of a light.  
**Clean Trophies With Bread**  
Best way to clean dust and lint off valuable game or fish mounts is with a piece of fresh bread.  
**Helps Assemble Rod**  
Aligning a fishing rod can be difficult in the weak light of early morning. To quickly put your rod together under such conditions, try setting up the rod at home. Then put a dot of white paint on male and female ferrule, one above the other. All you need to do then is align the dots.  
**Handy Camera Case**  
A U.S. Army canteen holder makes a strong, light case to protect your camera. Also keeps it snugly on your waist.  
**Plastic Wind Breaker**  
That plastic bag your clean suits come in can be used to cut down your vulnerability to wintry weather. Wear one under your fishing clothes. The thin plastic cuts out the wind.  
**Tissue Will Lead the Way**  
New brightly-colored facial tissues can help you find your way quickly and safely back to camp. Just tear tissue into pieces and drape at eye level on branches along the route you don't want to forget. Soft, clinging tissues seldom blow away.  
**Emergency Rivet**  
For emergency repairs, an empty 22 rimfire hull makes a good rivet.

## Mrs. Estes Has Guild Program

Mrs. Vernon Estes presented a study on Genesis to members of Wesleyan Service Guild Tuesday evening at Methodist Church.

Mrs. Bedford Caldwell hosted the meeting.

Attending were Mrs. W. E. Williams, Mrs. Harold Morris, Mrs. Earl Stevenson, Miss Grace Paul, Mrs. Dean Hastings, Mrs. Otis Spears, Mrs. Margaret Caldwell, Miss Rita Caldwell, Mrs. Estes and the hostess.

## Bells Host Bridge Party

Mr. and Mrs. Durward Bell entertained several couples with a bridge party Thursday evening at their home.

Refreshments of cake and coffee, nuts and candy were served to guests.

Attending were Mr. and Mrs. Alan Staley, Mr. and Mrs. Earl Stevenson, Mr. and Mrs. Oakley Stevenson, Mr. and Mrs. Bob Estes and Mr. and Mrs. Tom Caldwell.

## Luncheon For Woman's Club

Mrs. G. D. Anderson Jr. will host a luncheon at her cabin at Lake Stockton, Thursday for members of Bovina Woman's Club.

Members will meet at clubhouse at 10 a.m. to leave for Canyon. Mrs. Anderson will also carry out the theme "Broader Decisions Through Travel" as she tells the group about her trip to Europe.

## Club Meets In Caldwell Home

Mrs. Margaret Caldwell entertained members of Widow's Club Friday at her home.

Women brought covered dishes to compliment the hostesses luncheon.

The program consisted of members telling their funniest experiences.

Attending were Mrs. C. O. Edens, Mrs. Pearl Hastings, Mrs. J. R. Caldwell, Miss Rita Caldwell, Mrs. J. H. Steelman, Mrs. Ether Glover, Mrs. Ola Free, Mrs. Lillian Wheeler, Mrs. Mel Gunn, Miss Ellen Reminsider, Mrs. J. Sam Gaines and Mrs. Lady Armstrong.

He delivered me, because he delighted in me.

—(Psalms 18:19).

If we learn to sincerely regard ourselves as God's children, we will find that we belong; that we are in our perfect places in all that is good, all that is loving, all that is acceptable.

# Of Interest To THE WOMEN

**JUNIOR HIGH CHEERLEADERS** — Cheering the Junior High Colts this year are standing, left to right, Beth Hutto, Brenda Dilger and Vicki Hawkins. Kneeling, left to right, Candy Wilson, Jan Gromowsky and Kreta Morris.

## Blade Sawdust

By Sue Moten

It is almost time to make up a Christmas card list but remember to eliminate local names and join the Christmas Card Project which will be sponsored by Bovina Woman's Club. Money is donated to a fund which will be used for a civic project and names are published in The Blade for well wishers. We thoroughly enjoy the project not only because of the civic benefit but the fact that it cuts down on writing at an especially busy time of year.

We have decided that the files, not the "meek," are going to inherit the earth. They seem to have taken over all homes and businesses as of late.

The new car for Drivers Education purposes at school is really nice looking. It might even encourage some uninterested parties to take the course.

Maybe the reason women don't have to spend so much time in the kitchen anymore is because they cook TV dinners. Now we wish our family would eat these little things but that's the trouble; they are "little." I would take at least two to satisfy the adult members of our household and the children would squabble over what kind to eat, chicken or roast beef.

One thing we have never figured out is why when the fire siren whistles there aren't a rash of wrecks. The rate of curiosity is bound to catch up with the average one of these days.

For those of you who are interested in fall colors there are several pretty trees which have turned to gold and many yards are filled with orange, yellow and amber chrysanthemums. Fall colors are nice to look at but when it comes to dressing for the occasion one is apt to make a mistake.

Wouldn't it be nice if they would have an entire program composed of good TV commercials for children. It seems that all children run to the TV at the sound of musical commercials and then resume fighting the minute the program begins. "The Big Bright Texaco Star" almost causes a traffic jam at our house but let a good play come on and the youngsters seem to think it is time for cowboys and Indians, played locally.

## Bridge Club Entertained

Mrs. Don Owens entertained several women with a bridge party Wednesday at her home.

Attending were Mrs. Glenn Hromas, Mrs. Charles Vickers, Mrs. Kent Glasscock, Mrs. Scott Guber, Mrs. Erith Hawkins, Mrs. Bob McMeans, Mrs. Lanham Ford and the hostess.

Refreshments of chips, dips, cookies, Cokes, and coffee were served to guests.

## Mrs. Ronnie Wines Feted With Showers

Mrs. Ronnie Wines, nee Donna Mills, was honoree for post-nuptial wedding courtesies Saturday afternoon in the home of Mrs. Mitzi Walling, in Farwell.

School friends feted Mrs. Wines with a lingerie shower in early afternoon, with Misses Edith Ann Walling, Judy Gast, Sherri McBrayer, Peggy Martin, Donna Dunn and Peggy Eason as hostesses.

Pop and cookies were served to the guests.

At mid-afternoon, Mesdames Walling, Alvin Mace and John McFarland were hostesses for a miscellaneous shower.

The serving table was covered with lace and centered with an orchid and white floral arrangement in an antique white compote. Pewter and silver appointments were used with milk glass, and white cake squares iced in orchid were served. Wedding napkins completed the decor.

The honoree; Mrs. Prentice Mills, her mother; and Mrs. David Wines, of Bovina, her mother-in-law; were presented unique corsages designed of kitchen utensils and tied with orchid bows.

Attending and sending gifts to the lingerie shower were Misses Linda Phillips, Linda Langston, Mikala Austin, Sherry Billingsley, Martha and Mary Coffey, Becky Strain, Sherry Bass, Phyllis Christian and Donna Rundell, and the hostesses.

Attending and sending gifts to the later courtesy were: Mesdames Walter Kaltwasser, Bernice Norton, W. T. Meeks, Joe Helton, Lee Meeks, Don Williams, Bob Anderson, Ira S. Levins, Patsy Hadley, Janice Williams, Raymond Martin and daughters, Myron Hillock, Otis Huggins and Donna, Eddie Traxson, Herbert Potts;

Mesdames Bunk Phillips, Bill Prince, Jack Williams, Buster Gast, Tommy Lovelace, Irene Dyer, Ruby Strain, Irvin Martin, R. D. Dale, C. C. Christian, John Aldridge and Elmer Kennedy, Farwell;

Evelyn Jarnagin and Mrs. Jerry Jarnagin of Kress, Mrs. Verlin Towe of Silvertown; and Mrs. Golda Mitchell and Mrs. Eva Bailey of Plainview.

## WSCS Hears Book Review

Mrs. Walter Kaltwasser of Farwell presented a book review to members of Woman's Society of Christian Service Tuesday at Methodist Church.

Guests for the meeting were members of Farwell W. S. C. S. "The Long Cry" was title of book reviewed by Mrs. Kaltwasser.

Preceding the program the group had a luncheon.

Tables were laid with white cloth and featured fall flowers and autumn leaves.

Hosting the luncheon were

Mrs. L. D. Grisson, Mrs. Richard Baxter and Mrs. Bobby Filpott.

Approximately 30 women attended the luncheon and review.

## Societies Plan Turkey Dinner

Final arrangements were made for annual turkey dinner sponsored by St. Ann's and St. Teresa Alter societies of Catholic Church at their meeting Monday at parish hall.

Mrs. Edmund Kitten was appointed hostess for the dinner. She will seat guests and dinner will be served at tables.

Mrs. George Cervantez and Mrs. Paul Jesko will be in charge of fancy work booth and will also handle baked goods. Charles Kitten and James Denney will conduct a fishing pond for entertainment of youngsters.

Mrs. Edmund Kitten presented a talk on "Confraternity of Christian Doctrine."

Following the program and business session refreshments were served to Fr. Claver and 14 members by Mrs. Dan Koelzer.

## Friendship Club Has Luncheon

Oklahoma Lane Friendship Club had a luncheon meeting at a Clovis Restaurant recently.

The next scheduled meeting will be October 22 at the home of Mrs. Tom Paine.

Attending the luncheon were Mrs. Billy Johnson, Mrs. Owen Patton, Mrs. Tom Paine, Mrs. George Douglas, Mrs. Benard Nelson, Mrs. Jack Roach, Mrs. Marlin Ferguson, Mrs. Perry Lance, Mrs. O. H. Jones.

## Mrs. Charles' Father Notes 80th Birthday

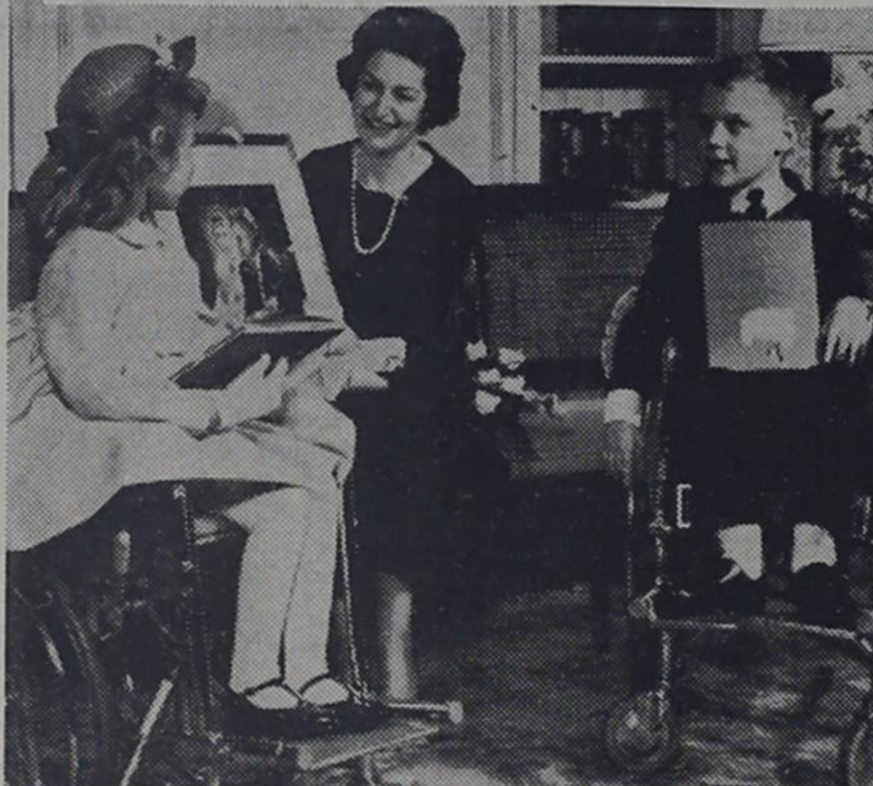

Mrs. Jimmie Charles, Rene, Johnny, Lisa and Alexander Orlovsky, visited with her parents, Mr. and Mrs. J. J. Frost, in Vernon over the weekend.

Her father celebrated his 80th birthday during their visit.

## Mrs. Howard Has Surgery

Mrs. E. G. Howard underwent surgery recently at a hospital in Lubbock. She is reported to be improving and is at home.

## White House Welcome

Robbie and Kerrie Whitaker, serving their second term as national poster children for Muscular Dystrophy Associations of America, get a warm reception in the White House library from Mrs. Lyndon B. Johnson, MDAA's honorary chairman. The First Lady was charmed by the beautiful and articulate youngsters from Cincinnati who presented her with a camera portrait of themselves taken by famous photographer Yousof Karsh. Robbie and Kerrie are travelling around the country to spark the efforts of hundreds of thousands of volunteers participating in the March for Muscular Dystrophy. Funds raised in the annual drive finance MDAA's world-wide program of scientific research into dystrophy and related disorders of the neuromuscular system.

"Pioneers In Bovina"

Outdoorsmen--

(Continued from page 3)

Just cut through the soft brass hull, leaving 1-16 inch length protruding through the material you want to rivet. Then insert a ball bearing or rock just slightly larger than the shell size and tap several raps with a hammer to expand the end.

Jumbo Ice Cubes Last

Going on a camping trip and need some ice cubes?

Big ice cubes that last can be improvised by freezing water in your wife's muffin pans. Each cube is king-sized and lasts and lasts.

More Light for Tent

Another use for aluminum foil is to pin it across the back of your tent. Its shiny surface reflects the light and makes the tent lantern glow brighter.

For Cleaner Windshield

A bottle of any kind of carbonated "cola" drink, poured on your windshield while the wiper is working will keep road film off for hours.

Emergency Tent Repair

Got a spot on your tent that's leaking?

Try rubbing the spot with a regular wax candle. Work wax into the cloth with vigor. Then apply heat in the form of a warm, not hot, iron.

Wax will melt and give water repellence for a surprisingly long time.

Emergency Ammo Supply

Remove the butt plate of your .22 rifle. Then bore a hole in the stock with a 3/8-inch drill. Next, fill the hole with as many rounds of ammo as it will take. Then replace the butt plate.

Now you've got a nice emergency supply of ammo with but little additional weight added to the rifle.

Triple Duty Pliers

If you carry a pair of pliers in your tackle box, try grinding down one handle until it serves as a screwdriver.

On the other handle, grind the end flat, then "V" the end. Presto, you've got a hook disgorger, too.

Glue Rope Ends Tight

So you don't want to take the trouble to whip the end of a rope?

Then try soaking about three inches of the end of the line in waterproof glue. Let it dry and slice off to where the rope is tight. It never will unravel.

My Neighbors

"Please, I'm not a candidate!"

Placer gold was washed in Virginia, North and South Carolina, Georgia and Alabama before it was found in California.

Advertisement for Hubert Humphrey and ADA, featuring the text 'DID YOU KNOW?' and 'WELCOME CASTRO INTO THE SOUTH AMERICAN ALLIANCE FOR PROGRESS'. It also includes a call to 'VOTE FOR BARRY GOLDWATER In Your Heart You Know He's Right'.

Grand Prize Consists Of Expense Paid ★ Trip For Two To Cotton Bowl In Dallas, January 1, 1965.

You Don't Have To Be A Football Expert.

**Contest Rules**

★ Expenses Include 2 Tickets To Cotton Bowl Game, Paid Hotel Reservations For 2 And \$55. For Food And Traveling Expenses

1. There are 10 high school and/or college football games listed in ads on this page.  
2. Pick the team you think will win in each game and place the WINNER'S NAME beside same advertiser's name in the contest entry blank at bottom right of this ad.  
3. Pick the score of the tiebreaker game and place your guess in the appropriate blanks on the entry. The tie breaker game will not count on your won-lost record. It will be used only in case of a tie.  
4. Winners will be named by the Monday following the contest deadline each Friday and they will be named by Saturday, if possible. Cash prizes of \$5 for first, \$3 for second, and third prize of \$1 will be awarded.  
5. Tabulations of individual entrants will be kept all season and at the end of the season a grand prize winner will be named. Grand prize winner will receive two free tickets to Cotton Bowl games plus hotel, food and traveling expenses to Dallas and the January 1, 1965 football classic.  
6. There is nothing to buy. No requirements other than to bring the entry blank, filled out, to The Blade office by 5 p.m. Friday of each week.  
7. Only one entry blank may be submitted per individual. If more than one blank is submitted by an individual, all will be disqualified.  
8. Tabulations will be available for public inspection. Members of Blade staff will serve as judges for contest.  
9. Everyone, except employees of this newspaper and their families, is eligible to enter.

Be A Lucky Cash Winner. All You Do Is Pick The Winner. There's Nothing To Buy, Nothing To Subscribe To. Enter Now!

SECOND DISTRICT WIN FOR BOVINA --

# Un-Happy Cowboys Upset By Mustangs

Led by the spectacular play of End Al Shamblyn and a stone-wall defense in the second half, the Bovina Mustangs pulled an upset, 20-12, win over their old district rivals, the Happy Cowboys, there Friday night.

The victory boosted Bovina's District 1-B record to 2-0 and it made the season mark all even, 3-3. Happy is now 1-1 in district play. The Cowboys won over Lazbuddle the week before.

The teams battled equally during the first half Friday night and the score was tied 12-12 when they went to the dressing rooms to rest and talk things over.

The second half belonged to the Mustangs. They scored the winning touchdown midway through the fourth period and the stubborn Maroon defense allowed the Cowboys only one first down in the final two quarters.

Bovina carried the fight to the favored Cowboys. The Mustangs never trailed in the contest -- making Happy play "catch-up" when the score wasn't tied.

Bovina's opening touchdown came early in the game on a surprise, 42-yard pass play from Quarterback David Anderson to Shamblyn. Halfback Dean Stanberry got the second one on a nine-yard sprint after it was set-up by 58-yard jaunt by Fullback Gene Pruitt.

Anderson banged over the go-ahead score from one yard away with 7:44 left to be played. The two extra points came after the

final TD and almost assured the Mustangs of a tie. Anderson fumbled the extra points attempted into the end zone and Stanberry controlled the ball to give his team the counters. The Cowboys, their offensive machine knocked out of gear, ran only four plays during the fourth quarter.

Jim McManigal, Happy's big fullback, was the top offensive man in Happy's effort and the Mustangs knew they had to stop Happy. They did, in spite of all his power, in the second half. He set up both of Happy's touchdowns, though, in the first two periods.

Bovina received the kick off, couldn't gain, and had to punt. Roman Ramirez got off a bad one from his own 45 that traveled only 13 yards and rolled dead on Happy's 42.

The Cowboys fumbled on the second play from there and Anderson recovered, giving Bovina possession on the 43. Two line plunges by Stanberry netted one yard and the stage was set for the scoring pass play.

Shamblyn was in the left flat all by himself and going at full speed when Anderson laid the ball in his arms. He sailed across the goal line untouched and the surprised Cowboys trailed, 6-0. Shamblyn's attempted kick for the extra point was low.

Happy got its first score early in the second period. The Cowboys stopped a Bovina drive on the Happy 34, got possession of the ball on downs and then banged back down the field in

eight plays with McManigal carrying five of those. Quarterback Gary Culp went the extra points was squelched and the score was 6-6.

The Mustangs roared right back with the go-ahead TD. Stanberry returned Happy's kick off from the 30 to the 33

and then Pruitt slammed off-tackle for 58 yards and a first down on Happy's nine. Stanberry scooted in with it from there on the first play. Anderson's pass to Stanberry for the points was incomplete.

McManigal and Co. came right back to tie it again. They

marched 62 yards in 12 plays to tie it up again. Culp again got the score; this time on a one yard plunge. Happy's kick for the extra point was wide.

Mustangs lost the ball on down late in the third period on Happy's 17. That killed a threat to score the winning TD.

The winning drive was lunched late in the third period as the Mustangs got possession on Happy's 46 after the Cowboys were forced to punt out of danger.

It took 13 short yardage plays to pound it across from that distance. Anderson went the last step and after the extra points were added to the score, it was 20-12.

The Mustangs made themselves a break on the following kickoff. The Happy ballcarrier was jarred loose from the ball as he was tackled by the Stanberry boys, Dean and Alfred. Radford Venable grabbed it for Bovina and the Mustangs were in time-destroying possession

on Happy's 38.

They banged it back to Happy's 14 and used up almost five minutes of the last quarter before giving the ball up on downs. The Cowboys, running into the determined Mustang defense, gained only two yards in three tries and were forced to punt. Bovina used up the remaining time on the scoreboard clock and it was all over.

Anderson returned to his quarterback post for the first time since the season opener, when he was injured. He played fullback the week before, however, at Texline. Scotty Rundell, who had relieved Anderson as the man under, went back to his regular halfback slot.

Fullback Pruitt was the workhorse for the Mustangs as his counterpart was for the Cow-

boys. He gained 156 yards in 29 carries. Rundell toted the ball 11 times for 35 yards. Stanberry had 19 net in eight tries.

MR. AND MRS. FRED LANGER  
Come On In - The Playing Fine!

Phone -- 238-8421

By Vern Sanford  
Nearly every Texas stockman will agree that his Number 1 Animal Enemy today is the coyote.

Unfortunately for Texas stockmen there has been a coyote population explosion—a steady increase in the number of coyotes—the past few years.

Simultaneously another problem has arisen—an increase in the use of the Western range by humans. This was unfortunate in that it prevented the scattering of cyanide poisons to control the coyote population. Such a control method is unique in areas where hunters, fishermen, campers, hikers, photographers, rockhounds, or just plain visitors with new-found leisure hours abound.

Cyanide cannot be safely used where children play. Nor can poisons selective to the canine family be employed where the tourists' pet dog will roam.

The coyote doesn't mind the increase in people, for Don Coyote is very adaptable. But increased public use of the great outdoors has hampered the activities of the predator control men.

With curtailed predator control, the sheepmen suffered great losses. The mohair goat raiser found it almost impossible to operate at a profit. Poultrymen suffered too. In Texas and Oklahoma, coyotes caused heavy losses among newborn calves.

Something had to be done to stop the population explosion of coyotes without endangering the vacation seekers who invaded the scenic wonderlands of the West. So new tactics are being employed.

Wildlife researchers in the U. S. Department of Interior (Fish and Wildlife Service) have come up with a plan of birth control—for coyotes.

Planned parenthood for predators is fast becoming a reality. Don Balsler, a research scientist with the Bureau's control methods section, operates out of the Wildlife Research Center in Denver, Colorado. There he is testing the results of feeding stilbestrol to coyotes during the breeding season. Initial results have been good.

The coyote that eats a bait treated with this reproduction-inhibiting chemical simply does not become pregnant.

If embryo implantation has taken place when the stilbestrol is ingested, the embryos are resorbed by the female, and she does not give birth. The coyote doesn't know that any change has taken place, but when the annual crop of pups is prevented from being born, the population of coyotes in the treated area drops sharply.

It seems that research has come up with a tool in coyote control which comes near to pleasing everyone. Groups of people who objected to other control methods in the belief that they were cruel or caused suffering to the animal can find no objection to the reproduction inhibitor which causes no pain, no suffering—no change at all—except no pups are born that spring.

Those who feared coyote control programs because of

alleged harmful effects on other species can now rest easier. The breeding season of coyotes coincides with the breeding season of very few other mammals. Hence, only the coyote is affected.

Dog lovers who objected to poisons, traps, and cyanide getters because they feared for Old Rover's safety, can relax when the method of control is the reproduction inhibitor. If a dog takes one of the stilbestrol baits, the only result is that it cannot be bred that particular season.

As coyotes come into season only once a year—and dogs more often—there can be no loss to the dog lover.

Sheepmen who feared the coyote because it killed hapless newborn lambs in the spring of the year, when it had a den full of pups to feed, can breathe easier. Relieved of the necessity of foraging for a litter of hungry pups, the adult coyote does not need to kill as often and is more apt to content itself with natural foods—sparing the sheep.

In 1963, a team of men operating under Mr. Balsler's direction, placed the reproduction-inhibiting baits on a 720-square mile area in southeastern New Mexico. Government trappers kept track of the number of denning fe-

males taken. They performed autopsies on all females taken in normal control operations. Results were very encouraging. So this year the testing area is being enlarged.

At the present time, reproduction-inhibiting baits are being exposed on the Mt. Home desert in Idaho, and on 160 townships in southern New Mexico. These areas were selected either because they had a high coyote population or because they were areas that have been traditional trouble spots, with heavy losses to marauding coyotes.

After the drug has had time to take effect, Mr. Balsler's men will take every coyote they can to examine reproductive tracts and to determine whether or not the Planned Parenthood Program has succeeded or failed.

Research Scientist Balsler is careful to point out that this program still is in its research stage, but livestock interests

## SPORTS AFIELD

By Ted Kesting

The deer season is upon us, and with it the prospect of some mighty fine venison meals. Now is a good time, therefore, to think about preparing that deer for the table.

Here are several 100-year-old recipes that were used back when men were men and the electric range a far-distant contraption. They are compiled (and updated where necessary) by Pete Byrnes in the October issue of *Sports Afield*.

**To roast a haunch of venison:** Cut off the knuckle, trim the flap, remove the thick skin on the flank and nick the joint at the cramp-bone (knee). Spit it, rub it over with butter, sprinkle well with salt, cover it with a sheet of flour and water, and again with paper, then with a paste of flour and water, and again with paper; tie it up well with a stout string laced across it; baste it all the time it is roasting. Let it cook four or five hours. A quarter of an hour before serving it, remove the paste, throw a handful of salt on it, dredge it with flour and baste with a little fresh butter.

The gravy should be made as follows: Cut two or three pounds of the scrag (the nape of the neck or any lean meat rem-

nants), or the lean of a loin of old mutton, brown it on a grid-iron, and put it into a saucepan with a quart of water; cover it closely, and simmer it for an hour. Then uncover it and stew the gravy to a pint. Season only with salt, and strain.

Another gravy is made with a pint of Port wine, a pint of strong mutton gravy, as above, and a tablespoon of currant jelly. Let these merely boil up. Or much less wine and more jelly may be used. Seasoned beef gravy is sometimes preferred to mutton gravy.

**Venison soup:** Take four pounds of freshly killed venison and cut off from the bones and one pound of ham in small slices. Place on pot, add an onion minced, and black pepper to your taste. Put in only as much water as will cover it, and stew gently for an hour, keeping the pot closely covered. Skim it well, and pour a quart of boiling water. Add a head of celery cut small and three blades of mace. Boil it gently for 2½ hours; then put in ¼ pound of butter, cut small and rolled in flour, and ½ pint of Port or Madeira. Let it boil ¼ of an hour longer and send it to the table with the meat in it.

**Here Are The Answers To MAIZE STUBBLE**

**COMMANDO SIX!**

**cuts, clears, shreds a 72-inch swath**

Here's a warrior that's always on the attack. It shreds stalks, chops brush, mows pastures, levels undergrowth, reduces weeds to mulch. Built like a tank, the rugged Commando blitzes a clean 72-inch swath through some of the toughest terrain you can find. Then, raise the hinged side and it's ready to make hay (the haying features are standard—no optional kits are necessary). And yet, most surprising, the Commando is modestly priced. It costs no more—and in most cases less—than ordinary cutters.

**KRAUSE '400'**

Here at last...  
the disc harrow  
the farmer has always needed!

Most harrows show few original design advances since the day they were first mounted on wheels. Krause is the exception. Krause has pioneered so many sound new ideas—rigid one-piece welded frame, sealed anti-friction bearings, "Disc-Fit" spools, extra-sturdy construction, and many others. The new "400" puts Krause still farther ahead... makes it more than ever your top-value best buy of all discs.

# Farmers Need To Prepare Records For Census Of Agriculture

All farmers and ranchers in the county will need this year's business records to help answer questions on a form scheduled for mailing in early November to start the nationwide Census of Agriculture, County Agent Joe VanZandt said today.

The Census of Agriculture is taken every five years by

the Bureau of the Census, an Agency of the U. S. Department of Commerce, in years ending in "4" and "9". It provides information of vital importance about nation's agricultural resources and production. Such information is needed in making decisions affecting many segments of the U. S. economy.

Data gathered include the number and size of farms, number of persons living on farms, acreage and harvest of crops, a livestock and poultry inventory, and information on farm equipment and facilities, and on income and some production expenditures.

The job of taking the farm census will be in three stages, the county agent said. The first stage -- organizing a team of local citizens in each county to take the census -- is already underway. Crew leaders to supervise the census in each county are being selected and trained. They will have the responsibility of recruiting and training enough enumerators to count the farms (and ranches) in their counties. Each enumerator will visit about 150 farms during three weeks of tempo-

ary employment.

Shortly after November, the Census Bureau will open stage two by mailing out census questionnaires to all rural boxholders in the county, the county agent continued. Farm operators will then have a period of time to consult their records (or best estimates for the year) and answer the questions on the forms.

In the final stage, enumerators will visit each farm in the county to collect the questionnaires, the county agent added. At the time of this visit, the enumerators will help farmers complete answers to any questions the farmers may not have been able to answer. Enumerator visits, which will take about three weeks to complete, will start in this area of Texas November 23.

## Safe Use Ag Chemicals To Be Emphasized

Discussions on research, changes in recommendations, and the safe use of agricultural chemicals will highlight the Insect and Plant Disease Control Conference to be held November 10 and 11 at Texas A&M University.

Presentations and topics to be discussed generally revolve around the use of agricultural chemicals for controlling insect and plant diseases, reports Wendell Horne, Extension plant pathologist, Texas A&M University.

E. M. Trew, assistant dean of the College of Agriculture at Texas A&M, will welcome

the approximately 250 people expected to attend the conference.

Topics to be discussed include the following: "Shade Tree Diseases in Texas," "Diseases of Flax and Sorghum," "Changes in Insect Recommendations," "Small Grain Diseases," "Field Diseases of Rice," "Changes in Vegetable Guides," "Nematode Control in Field Crops," "Virus Diseases of Tree Fruit," and "Changes in Livestock Pest Control Recommendations."

Also, "Extension's Responsibility in the Safe Use of Pesticides," "Food and Drug Administration Activities in Texas in 1964 and Plans for 1965," "Pesticide Residue Analysis," "Peanut Diseases," "Leaf Diseases and Cotton Ruse Prevention Program," "Results of Research with Systemic Insecticides for Cotton Insect Control," and "1965 Cotton Insect Control Recommendations."

The 4-H members in Lazbuddie Club took their share of prizes and honors in the Fair that was held there Monday. I was unable to learn how many 4-H members had exhibits but I did see Dale Blackstone with 5 blue ribbons and two red ribbons, Charlotte Davis, Judy Koelzer, Ann and Katie Blackstone and Delayne Steinbock had exhibits in the Fair, with blue ribbons showing too.

Ten 4-H leaders attended the training meeting on Use of Guides 1 and 2 in Foods. This will enable them to start working with 4-H food groups now. It will take eleven lessons to complete these units and if work is begun now, 4-H groups will be ready for the Favorite Food Show about the 1st week in March.

Home Demonstration Club members are looking forward to Rural Homemaker Days, October 22, in Amarillo, as guest of the Chamber of Commerce, Womens Committee. Two members from each club are invited to attend a luncheon at the Country Club with an interesting program planned for their enjoyment.

**SAVE THAT TAG.**  
On wash day, do you play a "guess the fabric" game -- because you've lost the tag that came with the garment, the one that tells what material it's made of and how to care for it?  
Here are several suggestions to end such confusion and avoid costly laundering errors.  
Whenever you buy a new garment, it is suggested you immediately remove the tag and label it -- Mother's green shift, Barbara's blue blouse, etc.

**COTTON TALKS**  
FROM PLAINS COTTON GROWERS, INC.

Just as one never knows whether medicine has been worth the money -- because he can't tell how sick he might have been without it -- so cotton producers may fail to recognize the benefits of cotton legislation.  
However, in the case of the one-price cotton law (Agricultural Act of 1964) it is safe to say that without this treatment cotton farmers and the industry in general would have been sick, sick, sick. It is a foregone conclusion that the decline in cotton's domestic markets and the resultant buildup of surplus stocks were heading us straight to a reduction in the 16 million acre minimum national cotton allotment, probably to as low as 10 or 11 million acres in the not too distant future, and to all the aches and pains that would follow.

With the one-price cotton law expiring in 1966, congress will be considering its extension next year and it might be well to take a realistic look at what even a 20 per cent reduction in acreage, which is about the minimum that could be expected, would mean.

First hit would be the producer. A farmer with a 100 acre allotment would be cut to 80 acres. At about the national average his production would drop to 80 bales; his gross income would go down about \$3,000. He would be using in all likelihood the same expensive equipment with the same amount of depreciation; his time as manager would go on the same and so would the time of probably one other employee; he would have no other crop to plant on the idled acres which would produce anything like the same cash income, and for all these reasons his net would be cut by more than the 20 per cent suffered by gross. What's more, his search for some other crop for the idled acres would create problems with other surplus products, giving farmers other than cotton producers a valid reason for fearing a reduction in cotton acreage.

Then there's the ginner. Assume a ginner with 50 customers averaging 100 bales each. Instead of ginning 5,000 bales for the season, he would be cut to 4,000 bales, and again this reduced volume would be handled with the same high-

# Annuals Furnish Color And Beauty For Fall, Winter Gardens

By A. F. DeWorth  
Professor of Floriculture  
Texas A&M University

In areas of Texas with open winters, annual flowering plants are a must for fall and winter color in the garden, although prevailing temperatures must be carefully considered.

Day temperatures during October and November and even early December seem to be ideal for good plant growth and development. As the season progresses into December, however, night temperature may drop so low that they will prevent flowering on many annual plants.

To insure good winter blooming on annuals, plant them early enough in the fall to develop good flower buds before low night temperatures slow down or stop their growth.

There are a considerable number of annuals, and perennials treated as such, that are well adapted to fall and winter gardens. Each plant has its own growth limits during cold nights; plants used for fall and winter flowering can be placed into groups based upon their response to climatic conditions.

Pansies and other species of Viola can withstand almost any climatic condition in fall and winter gardens. They can endure freezing weather, need low temperatures to set flower buds, and will continue to bloom through the fall and winter regardless of most weather changes.

Stocks and snapdragons are another group of winter garden favorites that are in a class by themselves. While these annuals survive temperatures as low as 18 to 20 degrees F., they need the warm days and nights of October and November to produce good early growth and should be in bud stage by the end of November at the latest.

Another cool-season annual, Calendula, also responds well to climatic conditions in fall and winter gardens. In areas void of heavy frosts with mild winters, fibrous rooted begonias, cinerarias, fiery primroses, gazanias and other annuals can provide extensive bloom during the cool spring months, even though they may be damaged slightly during winter cold spells.

Violas and pansies should be available soon from nurseries and should be planted when purchased. These come in separate and in mixed colors with numerous selections of flower size and abundance of bloom.

This year a wide selection of snapdragons should be available for almost any garden purpose. The newer, All-American winner Rochet types are tall growing plants with long flower spikes but are more suited to summer gardens in Texas. Best choice in the coastal area for fall and winter gardens are the tall growing Tetra types, now available in separate colors of white, rose, red, pink, copper and yellow, as well as mixed.

For medium height plants from 18 to 24 inches, consider United Sprites. They do not need staking and are available in mixed colors.

Magic Carpet strains are extremely well suited for low, swarf garden effects. A newer dwarf strain introduced this year is Floral Carpet, growing only eight inches tall.

Stocks for fall planting should be available in two well known strains. The Dwarf Ten Week is useful for mass planting or for planting in flower borders; plants are available in separate colors.

TRUCKS WAITING IN LINE is an old harvest-time theme for the High Plains, but something new has been added. Here trucks discharge the area's newest cash crop on its way to the mill—sugar beets. This picture was made at the Friona dump Tuesday.

## College Costs Continue Upward

Continued increases in college costs are shown in a new nationwide survey by the U. S. Office of Education, reports Mrs. Wanda Meyer, Extension Service home management specialist at Texas A&M University.

The amount is arrived at by adding up the year's increase in savings accounts, savings and loan deposits, U. S. savings bonds and life insurance cash values, as reported by government agencies, and dividing by the number of households in the country.

By including just the most common types of financial savings, the total value of family savings in the United States averages about \$7,300 per household. This is the average for all families—the extremely wealthy included. The typical family's savings are considerably lower, by this measure.

Preliminary results of another government study suggest a higher figure for the typical family — provided the dollar value of all types of property that can be readily sold is included. This includes the family home and car, securities, business or professional assets and other considerations.

Median tuition charges — the halfway mark between those that are higher and those that are lower — increased \$206 in private universities and colleges and \$49 in state and other publicly supported schools, the survey shows.

The median tuition in private institutions rose from \$534 for the 1958-59 school year to \$740 for 1962-63. The median at publicly supported institutions increased from \$134 to \$183, in comparison.

During the four-year period, tuition and student fees were upped by 98 per cent of the private institutions, while in state-supported colleges and universities, 81 per cent raised tuition and fees for state residents, and 91 per cent increased charges to out-of-state students.

The latest survey does not reflect additional increases in tuition and fees effective in many institutions of higher learning with the beginning of the new academic year in September. These changes range from small amounts to "considerable" amounts.

The Office of Education did not report on charges for room rent and meals, Mrs. Meyer said. These costs reflect less change than tuition and vary

## 'Average' Family Saved \$600 Last Year

If your family managed to save \$600 last year, you're just about average.

So says Mrs. Wanda Meyer, Extension Service home management specialist at Texas A&M University.

The amount is arrived at by adding up the year's increase in savings accounts, savings and loan deposits, U. S. savings bonds and life insurance cash values, as reported by government agencies, and dividing by the number of households in the country.

By including just the most common types of financial savings, the total value of family savings in the United States averages about \$7,300 per household. This is the average for all families—the extremely wealthy included. The typical family's savings are considerably lower, by this measure.

Preliminary results of another government study suggest a higher figure for the typical family — provided the dollar value of all types of property that can be readily sold is included. This includes the family home and car, securities, business or professional assets and other considerations.

## Watch For Grass Tetany In Livestock

Stockmen are being cautioned to watch for grass tetany, a cattle ailment that sometimes pops up in fall and winter.

Dr. Dixon Hubbard, Extension Livestock Specialist, says such small grain grasses as oats, wheat, barley and rye are capable of producing the sickness, particularly after rain. Common and Midland Bermuda and mesquite grass also can cause the trouble.

The disease is believed to be the result of an imbalance in body magnesium. Changing cattle from dry grass to lush winter pastures, or sudden temperature changes can encourage grass tetany.

"It's most likely to occur in the older, more mature cow that has just calved or is near calving," the specialist says. "It also is known to occur in yearling calves that have just been put on lush pastures."

The condition is characterized by lack of coordination, muscular tremors, excessive drooling and teeth grinding. Symptoms end with convulsions and coma six to twelve hours after first signs.

Treatment is largely ineffective once the animal reaches coma, Dr. Hubbard explained. But intravenous injections of various magnesium and calcium salts with dextrose is beneficial before coma.

Removal of cattle from lush pasture is the obvious preven-

tion if grass tetany is suspected. However, they can usually be left on the grass if they are supplemented with coarse, dry roughage.

The Extension Specialist said California has suffered large cattle losses from grass tetany. The problem has become so serious that the California Agricultural Experiment Station has developed an emergency ration which will prevent the ailment. The ration is magnesium oxide, milo or corn, and cottonseed meal and is fed at the rate of one pound per animal per day.

Electric motors can be used for many work-saving jobs around the farm and in the home, but should not be overworked, says Henry O'Neal, Extension agricultural engi-

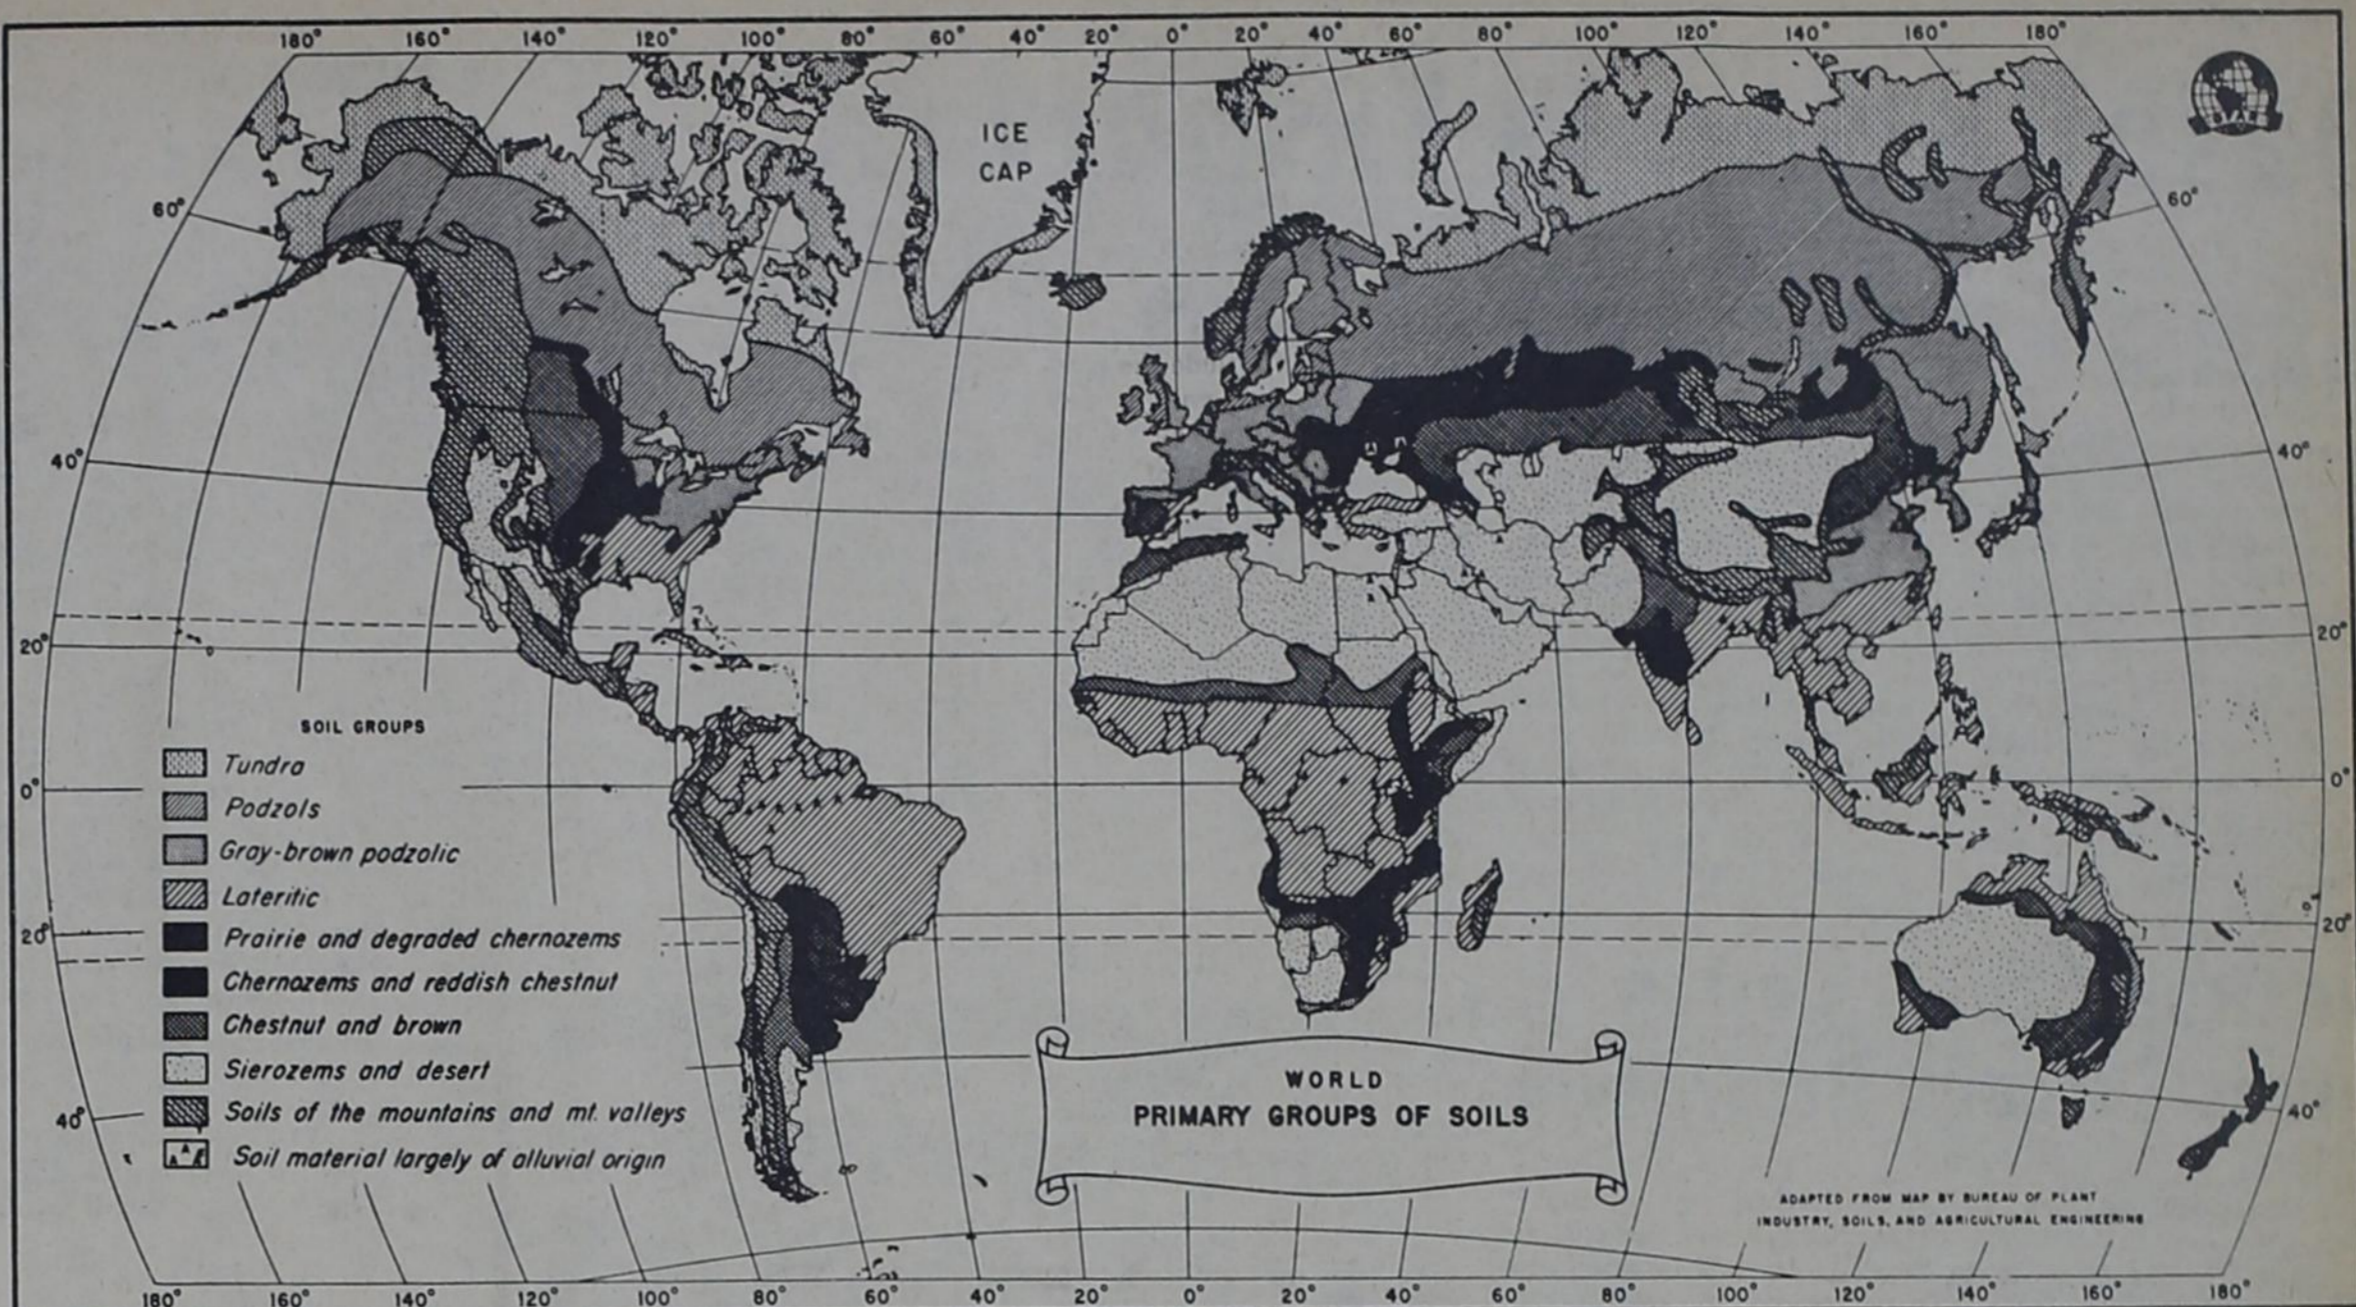

neer, Texas A&M University. Electric motors can be burned out by overloading, low voltage, high temperature conditions, or short circuits, O'Neal warns. Small motors can be bought with built-in protectors against overloading and high temperature conditions. The motor is automatically turned off if it gets too hot, and it is a good safety investment, he says.

General purpose motors will operate satisfactorily at 15 per cent overload without harm in temperatures up to 104 degrees F., O'Neal says. If the motor is too hot for you to hold your hand on for a few minutes, it is in danger of overheating, he explains.

Larger motors, one-half to one horsepower and up, should be protected by a magnetic starter. A motor starter is a good investment and insurance against an expensive motor burn-out.

Here's another shoe fashion note that's cool: Canvas casuals run riot in color and some are anchored to deep cork-and-rubber soles while others have smooth tennis-type or deck-gripping boat bottoms. Feather-weight leather casuals, some with the simple styling of espadrilles, are very much "in" this summer, and are companions to the smart white slacks and walk shorts.

It takes just a few hours to provide winter-long life insurance for summer clothes and furnishings, Extension specialist emphasizes. Pack out-of-season washables, clean and store them properly to avoid moths, mildew, abrasion from soil, and the unnecessary wear that deep creasing causes in fabrics and plastics.

## Mill Consumption, Exports Cause Upland Cotton To Disappear

Disappearance of upland cotton during the 1964-65 crop year is expected to reach 14.8 million bales—up slightly from the 14.1 million a year earlier and the highest since 1959-60.

Mill consumption is expected to increase sharply while exports are expected to be maintained at a relatively high level, reports John McHaney, Extension economist, Texas A&M University.

An estimated mill consumption of 9.6 million bales tops last year's total by 1.1 million—the highest since 1950-51, McHaney bases his 1964-65 estimate on an improved competitive price position for cotton and cotton textiles in the domestic market, a continued high level of general economic activity,

and some rebuilding of "pipeline" inventories of cotton textiles.

The economist estimates cotton exports at 5.2 million bales compared with 5.6 million last year. Nevertheless, exports are expected to remain relatively high during 1964-65 because of a continued up-trend in foreign free world consumption; the record was set last year. However, says McHaney, foreign free world production may rise slightly from the previous year.

Cotton carryover on August 1 was estimated at 12.2 million bales. This is an increase of about 1.1 million from the previous carryover and the highest level since the record high of 14.4 million in 1956.

Despite a larger disappearance than a year ago, carryover increased because of the large crop resulting from favorable growing conditions and record-high yields. The 1963 crop of 15.1 million bales was the largest since 1953, McHaney points out. Mill consumption and exports combined were up 2.4 million bales during the 1963-64 crop year.

In a recent nationwide survey, the Institute for Motivational Research found that 68 per cent of those interviewed take from one to five garments to the professional drycleaner each month. And 57 per cent visit their drycleaner from 2 to 5 times or more each month.

The Institute has found an "increasing desire to appear well-groomed on all socio-economic levels."

level since the record high of 14.4 million in 1956. HOLIDAY FOUR-PIECE CAPSULE WARDROBE. Modified design makes a group of pieces for all occasions, daytime to long after dark. Let yourself sparkle in a gay cocktail dress, wearing the lavishly sequined blouse. Pair on the plain blouse and you have a slim, basic two-piece dress. Step out brightly colored in the jacket and skirt, filling in the '64 neckline with your own favorite scarf. Go places in a dressy, three-piece costume wearing sequined or plain blouse. Jacket has notched collar, knee length at waist. Short sleeves. Of dressy, luxurious looking fabric like Bergin, a blend of rayon and acetate. In winter white, black, blue.

# Defoliation Is Important Step In Harvesting

If and when to defoliate is more than likely one of the problems cotton farmers are considering at this time. Defoliation to the cotton farmer is a very important step in harvesting, but it can also be very costly and damaging if used too early. Maturity of the cotton boll is the prime factor to be considered cautions W. K. Palmer, in charge of the Agricultural Marketing Service's

Cotton Classing Office, Lubbock, Texas.

An Extension Service Bulletin suggests that at least 60 per cent of the bolls on a cotton stalk should be open before applying defoliant. The bulletin gives detailed instructions on defoliating, types of materials available, and conditions under which they are recommended. Maturity is of prime import-

ance because when the defoliant is applied and becomes effective, the maturity processes are stopped. Then, when the cotton is harvested, which in most cases includes mature and immature bolls, chances are that the classification assigned to the staple length will be Wasty. Wasty cotton is defined as cotton which has a fiber that is weak, irregular, and immature, and such cotton carries a price

penalty. If too many bolls are immature, the lint turnout is usually reduced, so the farmer that defoliates too early in two ways - a reduced grade and less cotton.

Your County Agent has a bulletin which gives specific and detailed information as to when, how and what of defoliants. It would be wise to study all information available before defoliating your cotton.

## Mexican Grown Cotton Moves Through Brownsville

The movement of Mexican grown cotton across the border at Brownsville doesn't mean it has been purchased by American processors. The Port of Brownsville handles more foreign grown cotton for export than any port in the nation, says James E. Kirby, economist in marketing and policy for the Texas Agricultural Extension Service.

Chances are very good, he says, the inbound cotton shipments are coming into Brownsville as a part of this foreign trade.

He explains that certain U.S. ports have bonded warehouses where foreign products may be stored or processed and then re-exported. These facilities allow an imported product to be stored, sorted, graded or manufactured without the payment of duty. If the product, however, enters the U. S. market it is subject to the normal import duty.

Over 90 per cent of Mexico's cotton exports moved through U. S. ports as late as the early 1950's, Kirby says. But by the 1962 season, only about a third of her exports were transshipped. Kirby says the development of Mexico's west coast ports of Guaymas and Ensenada was responsible for most

of the decline.

He lists transshipments for the 1962-63 Mexican cotton season through U. S. ports as 449,000 bales through Brownsville; 18,000 bales through Houston; 4,000 through Corpus Christi; 77,000 through San Diego and 3,000 bales through Los Angeles.

Kirby said Brownsville's six compresses at one time provided the major facilities for handling cotton grown in Mexico's Gulf Coastal areas and by which the Mexican flat bales could be prepared as high density bales necessary for ocean shipment. Changes in export policies by the Mexican Government have resulted in expanded compress facilities and their use and a drastic drop in business for the Brownsville compresses, Kirby said.

He noted that the 1963-64 cotton crop in Mexico is estimated at two million bales, a sharp drop from the 2.4 million bales for the previous season.

Meat production under Federal inspection was 532 million pounds for the week ending September 26, about the same as the previous week, but 10 per cent higher than for the same period last year. For the second straight week remained at a record 525,000 head, 20 per cent more than a year ago. The number of hogs slaughtered was down 1 per cent from a year ago. Sheep and lamb slaughter was 10 per cent below the 1963 figure.

## Farm Census Coming

Census takers will visit every farm and ranch in the United States during November or December as part of the 1964 Census of Agriculture, conducted by the U.S. Bureau of the Census. Census questionnaires will be delivered by mail; the farmer will answer the questions and keep the questionnaire until the census taker calls for it. Answers are confidential and are used only for statistics. From the last Census of Agriculture in 1959 the nation learned that the number of farms had dropped by about 1 million in five years, but farm production had increased.

## Low Cost Protein, Energy Keys To Supplemental Feed

Beef cattle producers will soon be concerned with selecting feeds for their supplemental winter feeding program, and several factors should be considered for a profitable and economical operation.

Of real concern to farmers and ranchers are feeds which supply low cost protein and low cost energy, says Uel D. Thompson, Extension animal husbandman, Texas A&M University. Grain is considered the cheapest energy source and protein supplements should be chosen on the basis of their protein content and cost. A mixture of different sources of vegetable protein has little to offer since cattle make their own amino acids.

Before purchasing a supplemental protein feed, note the price per 100 pounds, percentage of crude protein supplied by the oil seed protein meals, percentage of equivalent protein from non-protein nitrogen, crude fat and crude fiber content. Higher fiber content feeds should be cheaper.

A protein supplement is bought primarily for its protein, Thompson points out. Cost of this protein may be determined on a per pound basis by dividing the price per 100 pounds by the per cent protein. Thus, range cubes with 20 per cent crude protein at \$3 per 100 pounds would supply crude protein at a cost of 15 cents per pound.

Herd protein supplemental feeding should be based at .8 pound of digestible protein daily per cow. Therefore, it would take four pounds of a 20 per cent product such as range cubes to satisfy this requirement.

Of course, methods of feeding

and individual preferences determine the form of supplement to be used -- meal, cakes, cubes, crumbles or pellets. Sil-limiting mixtures of protein mineral blocks, Urea-molasses or other liquid supplements, and combinations of salt and cottonseed meal may affect savings in labor and provide more even herd consumption. However, the unit costs of protein may be high, Thompson indicates.

Mixtures of salt and cottonseed meal have had extensive use, the percentage of salt varying from 15 to 50 per cent of the mixture. Ground sorghum grain or ground ear corn is often mixed with salt and cottonseed meal and fed free choice. Common mixtures contain about one-third of each. Water should always be available nearby when these amounts of salt are fed.

Selection of a supplement may also be influenced by the amount and quality of roughages available. Cattle performance is directly related to forage quality and quantity, explains Thompson. Where forage is limited, a feed including both protein meal and grain may be more useful than a straight protein supplement.

A Vitamin A fortified supplement should be fed where production is likely to be affected by Vitamin A deficiency. Adding synthetic Vitamin A to mineral mixtures or high salt feed mixtures and leaving it exposed to sunlight, air and heat is not advisable.

Aside from cottonseed meal or cake and Urea-molasses, other high protein supplements include guar meal, corn gluten meal, milo meal, peanut meal, sesame meal, sorghum gluten meal, soybean meal and tankage.

## Screwworms On The Move In Texas

Screwworms are on the move again in Texas, and with favorable, moist weather and ranching operations creating conditions ideal for the insect's development and migration, screwworm eradicators consider few areas of the state completely safe from the threat of outbreaks.

Since late September, when a 53-day screwworm-free period in Texas was ended, infestations have been reported in southern, western and northern sections of the state. How severe a buildup can be expected will depend largely on whether livestock producers use protective measures on their animals and report infestations to eradication headquarters so

that emergency treatment can be started.

Although the buildup in infestations began several weeks later than during most years--shortening the time screwworms will be a major problem before cold weather limits their activities--damage can still be extensive and control cost high. Outbreaks are treated by concentrated aerial release of sexually sterile flies and spraying of nearby herds--an expensive operation.

Dolph Briscoe, Jr. of Uvalde, president of the Southwest Animal Health Research Foundation which cooperates with state and federal agencies in the program, said the current buildup in cases presents a real challenge to the livestock industry. He expressed confidence that producers would not want to take risks that could jeopardize the program's progress, pointing out that Texas has

had only about 100 cases this year, compared to many thousands in previous years.

Market values of farm real estate advanced 6% in year ended July 1 and 3% in March to July period. National index of average value per acre as of July 1 was 135, a record. All states showed increases in per acre values, adding about \$8 billion to the total market value of farm real estate between March 1963 and March '64. Total value on July 1 was estimated at about \$155 billion or \$141 per acre, up \$7 from a year earlier.

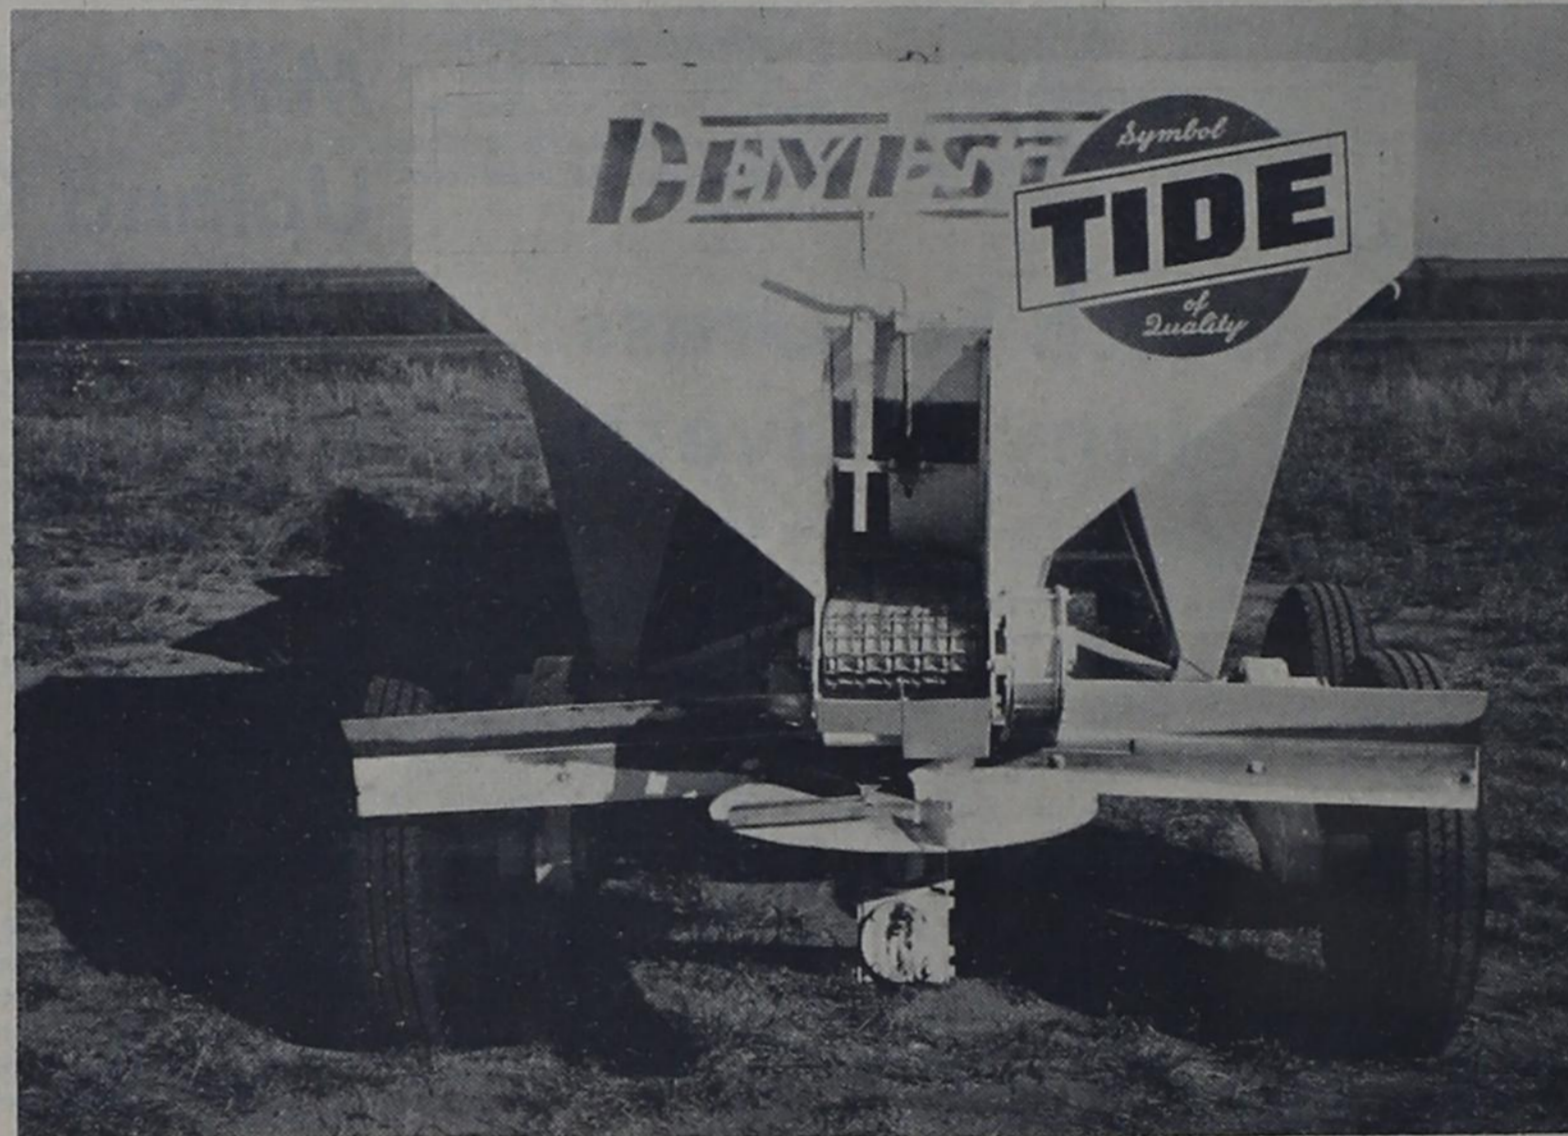

FOOD FOR THOUGHT I would rather fall in a cause that will ultimately succeed than succeed in a cause that will ultimately fail.

## ... Memo to Grain Farmers ...

## Tide's Plow Down Program SAVES YOU MONEY

### NOW IS THE TIME

As soon as possible after combining, shred stalks and apply TIDE'S prescription blend fertilizer to get maximum decomposition of the stubble and bring your soil nutrient level up to its needed level. All nutrients 100% water soluble, easily and economically applied. See your TIDE representative.

### ASSIST SOIL ORGANISMS

To take advantage of the soil conditioning effect brought on by the decomposition of your grain stubble--use TIDE Bulk Fertilizer NOW. Put down part of your NITROGEN, all of your PHOSPHATE and POTASH now and have all of the needed nutrients available to your seedling plants in the Spring by using the proven PLOW-DOWN fertilizer program. See your nearest TIDE representative.

### A SPECIFIC FERTILIZER BLENDED FOR A SPECIFIC CROP USE:

Prescription blended on this basis to meet your soil needs:

1. BY SOIL TEST
2. BY THE AMOUNT OF CROP REMOVAL
3. BY THE AMOUNT OF ORGANIC MATTER LEFT TO DECOMPOSE
4. BY THE ROTATION SYSTEM USED
5. BY THE SOIL TYPE AND ITS CURRENT CONDITION

### NO LOST TIME "ROADING" SPREADERS

Efficiency at its peak in the fertilizer field--spreaders filled in minutes on your own turn row from TIDE'S Bulk storage no wasted time "ROADING" spreaders to and from the field. See your nearest TIDE representative.

### TIDE'S TILT BOX SERVICE:

Only TIDE can give you the convenience of bulk service at the field... with no handling, 4,000 lb. spreaders filled in minutes with high analysis, Prescription blended fertilizer

### DON'T PACK YOUR SOILS

Don't pack your soils -- use standard size spreaders furnished by TIDE Products. By using small spreaders and our "on-YOUR-farm" bulk storage you can reduce this soil compaction problem.

LET THE EFFICIENCY OF OUR EQUIPMENT AND EXPERIENCE IMPROVE THE EFFICIENCY OF YOUR FARMING.

### TIDE'S COMPLETE LINE OF FARM CHEMICALS:

1. All fertilizer 100% water soluble.
2. Bulk or Bag
3. Anhydrous Ammonia
4. Herbicides
5. Insecticides
6. Fungicides
7. Defoliants

ONLY the BEST... Is Fit To Be TIDE
