THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

Vol. 21, No. 11

BY BILL ELLIS

ONLY TWO WEEKS have passed in the Blade's football contest, and already we have had one of those weeks where upsets cause the contestants' scores to take a big dip.

We admit that each week we attempt to pick out the games that are most likely to go either way, rather than put games on the list in which one of the teams is an overwhelming favorite.

But this past week, we seem to have outdone ourselves. Two of the games were so close that they came out tied. In this case, everyone gets a "wrong" score on this particular game, unless in the unlikely event that they wrote "tie" in the blank.

Now, the high school games pretty well followed form, with one or two surprises. But the college games didn't follow any particular form at

Billy Whitecotton tried to alibi thusly: "I thought you were supposed to pick winners on the high school side, and losers on the college side," he remarked. Sorry about that, Billy.

One contestant even had the score of one correct out of the possible perfect score of 14. That's close, but doesn't quite equal the record, which is zero. It set us to thinking that it would be about as hard to pick all the games wrong as it would to pick them all correct.

Some people's scores would have been much better this past week if they had put down exactly the opposite of what they thought would

OUR NEW EDITOR, Gladys Spring, has received several nice compliments on the zest she has exhibited in attempting to cover all of the local

We would like to add our applause to the job that Gladys has done since assuming the position. What she lacks in experience, Gladys makes up for in enthusiasm, and that

counts for a lot. We forgot to mention in our original story about Gladys that she wasn't exactly a "rookie" at reporting. 'Way back when, she had served as a "county correspondent" for the Friona Star, writing a weekly column of news about the Rhea

Community. Husband Donnie, Bovina's popular pharmacist, has been helping his better half in grading the football contest, and says it gives him a different insight to the contest.

In the past, both had been faithful contest entrants, but now they have to confine themselves to seeing how their friends come out--and perhaps ribbing them when scores plunge like they did this past weekend. + + + +

A FRIEND GAVE US the news this week that one Barbara Shuttleworth has been picked "Outstanding Woman" for September by McCalls

In case you have forgotten Ms. Shuttleworth, she is the little lady who in 1973 started the meat boycott, and got the cattle feeding business headed toward hardship and bankruptcy, from which it still has not fully recovered.

As a result of her organized boycotts, the government called the temporary price freezes, causing many feed lots to curtail their operations, several meat packing plants closed, and in the long run, meat prices climbed to an all-time high in 1975 due to the resulting scarcity of meat.

At the time of the boycott and price freeze, the price of roast beef in Tokyo was running at \$11.97 per pound, and an hour's pay in the U.S. bought the same amount of beef it did 10 years earlier. We never could figure out what the fuss was about.

That's a pretty outstanding accomplishment for one woman. If she could personally meet all of the folks she has helped put out of business, she should feel real proud.

If you care to voice your opinion as to McCall's selection of "Ms. September," you might want to write Marlo Thomas, Director of Women's Interests, The McCall Pattern Co., 230 Park Ave., New York, NY, 10071.

FOOTBALL CONTEST

Faron Grissom Is Winner With A 10

College football's first big weekend produced a batch of big upsets, and they affected contestants' scores in the Bovina Businesses' football contest.

Scores took a tumble in the second week of the annual fall contest, which had seen good scores for the first week of predicting. In addition to the upsets, two of the

games on the slate ended in ties, which gave contestants two automatic "wrong" games on their entries. Only three contestants of the 169 who entered the second week's round scored as many as ten correct, and these three claimed the

three weekly cash prizes. Capturing first place and \$7.50 in the weekly contest was Faron Grissom, on the basis of his tie-breaker guess. Young Grissom pegged the Bovina-Happy score to be 20-6 favoring the Mustangs, missing the actual score by 14

Second place and \$5.00 went to Dale Gilbreath, who was 19 points off on the tie-breaker. Gilbreath picked Happy to top Bovina, 14-7. Suzi Gillespie was the third contestant picking ten correct. Her score was 25 points off, as she picked Happy, 20-7. She still received the weekly third prize of \$3.00.

In addition to the two tie games (Vega vs Sunray and LSU vs Nebraska), Grissom missed by picking Notre Dame to beat Pittsburgh and Detroit to beat Chicago.

Gilbreath's other two misses were in picking Texico over Lazbuddie and Denver over Cincinnati. Mrs. Gillespie had picked Friona to beat Lockney and Detroit to beat

Grissom's score of ten combined with the similar score he had on the first week's contest to tie him for the lead in the overall contest standings with a score of 20.

Also boasting 20s are Oakley Stevenson and Bobby Drake of Friona, who had a score of nine to go with his first week's score of 11. Drake was the grand prize winner in a similar contest sponsored by the Friona Star in 1975.

Fourteen contestants are tied for runnerup spot with scores of 19, and thirteen more are grouped at 18. A list of all the leading contestants may be found elsewhere in this issue of the Blade.

The third weekly contest, with a new list of games to challenge contestants, may be found on Page 3 of this issue.

In addition to the weekly cash prizes, contestants are shooting for a grand prize of \$100 to be awarded to the leading contestant after 13

WINNER.... Faron Grissom was the first place winner in the second week of the Bovina Blade's football contest the past week, with a score

of ten. Two other contestants also had tens, but young Grissom won out on his tie-breaker score on the Bovina-Happy game.

Farmers met at the Bovina Restaurant Monday for their regular monthly meeting. About thirty-five men attended the meeting.

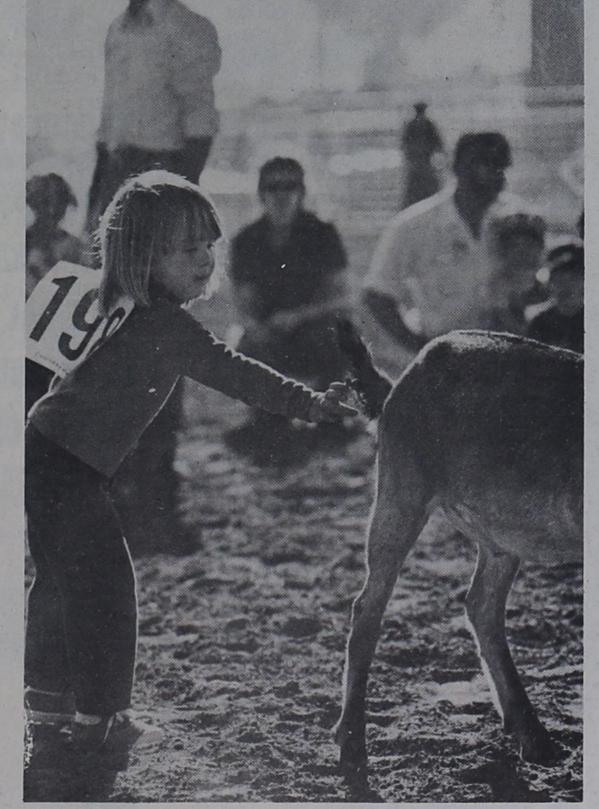

AVI provided the dinner steaks and program for the group. Otto Wilke from the Texas A&M Experiment Station in Lubbock presented pros and cons on research done in comparing sprinkler irrigation to ditch irrigation. Following this presentation, AVI showed a film on Valley Sprinklers which is the most popular sprinkler in this area.

A short business meeting was held following the program in which

plans were made for the area convention that will be held this Saturday in Lubbock. Max Eubanks, president for the organization, reported that door prizes for the area convention had been donated by the Oklahoma Lane Farm Store.

The Young Farmers would like to express their thanks and appreciation to AVI for the steak dinner and to the Oklahoma Lane Farm Store for the door prizes donated.

Plans were made to change the October meeting which will still be held October 11, but the time has been changed to 6:30 a.m. at the Bovina Restaurant instead of the regular night meeting.

DO I GOTTA?....Penny Johnson, daughter of Mr. and Mrs. Phillip Johnson, seems to have some reservations about taking the ribbon off her goat's tail, in the goat ribbon

race event in the Little Buckaroo Rodeo sponsored here last Saturday by the Bovina CowBelles.

Bovina Group Sets Organizational Meeting

The Girl Scout program has attracted millions of girls since its founding in 1912. The organization's continued growth for more than 60 years is a tribute to its ability to provide a program which captures the interests of girls.

Invitations to join the Girl Scouts in Bovina will be issued to all girls, first through sixth grades, on September 14, 1976. An information meeting for parents will be held on Thursday, September 16, according to Ms. Barney Varbel, Field Service Chairman, at 4 p.m. at Ridgelea Elementary School. No children please.

Scouting in our area, Caprock Council, includes a Brownie day at Camp for younger girls; a Junior Olympics for older elementary; style show, backpack trips, heritage trip to Austin for Junior High girls; and for Seniors, career exploration trek to Wyoming, and a trip to the World Center in Mexico. Weekly troop programs cater to girls' particular interests and may cover anything from cooking or modeling to touring local points of interest or helping beautify the community.

Camping and outdoor activities are a vital part of the program. Camp Rio Blanco, owned and operated by the Council, is available for year-round camping activities.

Caprock Council holds over 40 adult training events each year to ensure that Girl Scouts have competent adult leadership. The Council, sponsoring some 400 troops, is one of 355 Councils in the U.S. Over 6,000 girls in Caprock's 18-County area are expected to join this fall. Girl Scouts and Girl Guides, organized in 91 countries, is the largest voluntary organization for girls in the world.

Taking a look at the other side of the coin is nearly always a good, if not necessarily pleasant, experience. That other side in this case is the opinion of the consumer action groups who are loudly complaining about the consumer representation plan for the Department of Agriculture. First they object that the plan gives them no assurance of consumer participation in policy discussions. They object to what they call ambiguity in the plan because of such terms as "appropriate procedures" (their choice). Finally, they want more clout with divisions administering the Child Nutrition and Food Stamp Program, food quality inspections, price support and parities and beef grading standards. With all this commotion over consumers role in agriculture, many wonder why farmers weren't complaining about not being in-City bail out.

The bride chose to wear a white gown of dacron swiss. She carried a bouquet of yellow roses and baby's breath.

For something old, she carried a handkerchief which had been carried by her maternal grandmother, Mrs. Stagner, at her wedding and a diamond necklace which belonged to her paternal grandmother, the late Lillian Walker. Something new was her bridal gown. Something borrowed were the wedding rings belonging to Mrs. Stagner. Something blue was the traditional garter.

Mrs. Rex Muncrief, the bride's cousin, served as matron of honor. She wore an empire-style gown of vellow dacron swiss.

Best man was Mike Murley. A wedding reception was held at the home following the ceremony. The bride's table, laid in white, was centered with a three-tiered white cake topped with a miniature bride and groom.

Assisting with the courtesies were Mrs. Marvin Harrison, Mrs. Ray Thomas, Mrs. Dick Wilson, the bride's aunt, and Mrs. Brenden Knauf, the bride's sister. Registering the guests were Dena and Mary Wilson, both cousins of the bride. For their wedding trip to Dallas,

REC-RIGID EFFICIENCY CHECK!

If you're thinking about buying, building or remodeling your home, check into the advantages of a Rigid Efficiency Checked home by Deaf Smith REC.

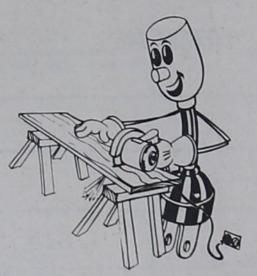

There's more to an efficiency check than you might think as much as 40% in savings on heating and cooling. You can have a combination of energy-saving features built into an REC home, features that can save you money and energy for years to come.

Before a home is constructed, or remodeled, have one of our representatives give it an "REC" check. Our program makes certain to allow for the utilization of energy wisely and efficiently. We check for such features as proper insulation, attic ventilation, proper distances from water heaters to points of use, proper size heating and air conditioning units .. and much more.

Electricity is too important to waste. Contact Deaf

Who's Who In Music Taps Gwen Clements

Mrs. Jimmie (Gwen) Clements was recommended and accepted for biographical inclusion in the eighth edition of the International Who's Who in Music and Musicians Directory, which is published in Cambridge, England. The directory was established in 1935. The Eighth Edition will be released in 1977.

During the past four decades, librarians, impressarios, agents and managements in most countries have come to regard the publication as vitally essential in their business. The eighth edition will include the biographies of only 10,000 men and women in the classical and semi-classical fields, including composers, conductors, instrumentalists, vocalists, music colleges, music critics, teachers, managers, publishers and impressarios.

Mrs. Clements has been teaching piano and theory since she was in high school, taking out only a few years to have her family. Mr. and Mrs. Clements are the parents of two daughters, Mrs. Joe (Denise) Jones, Janie who is a sophomore at Bovina, and one son Buddy who is a sophomore at Texas Tech. She married Jimmie Clements, for-merly of Muleshoe and is the daughter of Mrs. Opal Sikes and the late Herbert Sikes of Clovis. She was born and raised in Clovis.

Today Is Here

Today is here. I will start with a smile and resolve to be agreeable. I will not criticise. Today has one thing in which I know I am equal to others--time. All of us have the same salary in seconds, minutes, hours. Today I will not waste my time, because the minutes I wasted yesterday are lost and vanished. Today I refuse to spend time worrying about what might happen. I am going to spend my time making things happen. Today I am determined to do things I should do; firmly determine to stop doing the things I should not do. Today I will begin doing and not wasting my time. In one short week I will be miles beyond the person I am today. Today I will not imagine what I would do if thing were different. They are not different. I will stop saying, "If I had time," for I will never find time for anything--If I want time, I must find it. From now on my motto will be:

I am not afraid of tomorrow For I have seen yesterday And I love today.

SUMMARY OF PROPOSED

CONSTITUTIONAL AMENDMENTS **GENERAL ELECTION NOV. 2, 1976**

NUMBER ONE ON THE BALLOT (S.J.R. 49)

Repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution, S.J.R. 49 amends Section 49-c of Article III of the Texas Constitution to provide for and authorize an additional \$400 million in Texas water development bonds that may be issued on approval of two-thirds of the members of each house of the Legislature for such water development purposes as the Legislature may prescribe.

The amendment contains a specific prohibition against the use of state funds for the development of water resources from the Mississippi River and also requires that before any single water development project may be undertaken requiring the expenditure of more than \$35 million in bond proceeds, it must be approved by resolution of the Legislature.

The amendment removes the constitutional requirement that certain revenues must be used to retire water development and water quality enhancement bonds and removes the constitutional interest rate limit on such bonds.

The wording of the proposed amendment as it will appear on the ballot is as follows:

Farmers Helping REC With Cutdown Practice

"The increasing demand being placed on our system due to summer irrigation is a threat to the loading capacity of the Cooperative, and we need to know if there is a feasible method of controlling a part of this load in the future without hurting our irrigation farmer," stated James Hull, General Manager of Deaf Smith Electric Cooperative.

Although the problem is not yet critical, steps are being taken to prepare for the future. A load management experiment is now being conducted by the Cooperative, along with the voluntary cooperation of several farmers who irrigate with pivot sprinklers.

This experiment is being conducted out of one of the Cooperative's sub-stations located northwest of Hereford. It involves 14 center pivot sprinkler systems amounting to 730 HP. Each volunteer participant has his system

assigned to one of two operating schedules. During the hours between 10 a.m. and 6 p.m. of every alternating day, he has agreed to turn his system off. This arrangement will allow the Cooperative to shave approximately 300 HP off of its peak capacity demands. This lowering of peak loading will not only save money, which will be returned to the participating farmers, but it will also provide more capacity to the Cooperative during peak-use hours. This will also allow the Cooperative to take steps toward fulfilling the request of its power supplier to decrease its load growth each year.

Pivot sprinkler systems were selected as being one of the few loads which could be controlled the most economically for both the Cooperative and the farmer. It is also the only form of irrigation which could feasibly be controlled

ience and without damage to crops. Although the immediate benefits from this arrangement will be small, it will offer valuable data and information for analyzing the

with the least amount of inconven-

feasibility of incorporating a load management program into the entire service area in the future. "A full scale program of this type," commented Hull, "Could help in future years to insure the availability of electric energy for future growth."

Deaf Smith Electric Cooperative expresses its appreciation to Ed Allison, Ray Kuper, George Jones, Clarence Martin, Johanson Farms, Steve Meiwes, and W.W. Thomas for their voluntary cooperation in helping the electric cooperative investigate potential ways to better serve the membership in the future.

No sooner had head smut been discovered in black, spiny rust. Silkless shucks look as if they might cover a short, fat ear of corn but opening

the local corn crop than the considerable expertise of Pioneer Hi-Bred research arrived to assess the situation. Six of the forty-man Pioneer corn research team rushed to examine corn fields throughout the affected area. Together with the agronomy service personnel out of Southwestern Division headquarters at Plainview and the Division's district sales managers, they have formulated recommendations for corn farmers in this area.

THE FIRST JOB IS TO IDENTIFY THE ENEMY

There are two kinds of smut in the corn fields of Parmer, Castro, Deaf Smith, Bailey, Lamb and Hale counties: common smut and head smut. Common smut has little, if any, economic significance. Head smut is the real culprit. Estimates are that it will reduce the yields of some fields by over 20%.

Common smut (Ustilago maydis), sometimes called boil smut, is repulsive but does not usually reduce yields. It is characterized by galls, bulbous growths which are at first covered with a glistening, greenishto-silvery-white tissue. The galls may appear on any part of the corn plant including the exposed tips of healthy ears protruding beyond the shuck. The plant becomes host to wind or water born sporidia which stimulate cells in young tissue to proliferate.

Head smut (Sphacelotheca reiliana) is systemic, the plant being infected by soil-born teliospores his in the seedling stage. The outward signs of the disease are less conspicuous than common smut. It first appears when ears and tassels are formed. Tassels of infected plants usually appear to be covered with a reddish-brown or

20%. These are invariably fields which have been planted to corn for several seasons. Since head smut is soil born and there is no practical chemical treatment to control it, we can expect infection to increase from one year to the next when conditions are right. This year's weather, (dry and cool) was particularly conducive to infestations of both types of smut fungus. The good news is that Pioneer has three excellent hybrid corn varie-

the shuck exposes a mass of black, worm-like telio-

ties that show strong resistance to head smut. One of these varieties is well known to area farmers and is the most planted variety in much of this area...Pioneer brand 3306. Two other Pioneer varieties ...3184 and 3195...which were planted widely in this area for the first time this year, not only resist smut but have even greater yield potential than the well-known yield champion, Pioneer brand 3369-A.

If you have a field that shows signs of head smut infections, plan to switch to one of the three Pioneer varieties that provide resistance to the disease and, at the same time, give you a shot at the best corn yield you have ever had.

Talk to your Pioneer dealer now about ordering Pioneer varieties 3306, 3184 and 3195. It makes a lot of sense to plant all three.

Happy By 12-0 Count Bovina's Mustangs stampeded the Happy Cowboys last Friday night in Bovina with a 12-0 win. "The kids didn't play up to their potential the first half," said head

coach Joe Christian. "We tried to stress that during halftime." The Mustangs' defense had several bright spots during Friday's game. Happy had the ball inside the Mustang ten yard line and was not

able to score in nine plays. The Bovina offense showed promise with Tommy Serna gaining 118 yards in 16 carries. There was also only one turnover the whole

Danny Harris carried the ball over for Bovina's first touchdown on a four yard pass from quarterback Ronnie Cary. The point after attempt failed.

The second touchdown came on a four yard run by Tommy Serna, with the PAT stopped again.

Mustangs Run Past

"All in all I'm tickled to death with the win," said coach Christian. "The kids are real excited right now, realizing what they can do. Last week was a real confidence builder."

Statistics were fairly close with Bovina gaining 261 total yards to Happy's 210 yards.

The Mustangs rushed for 223 yards and passed for 38 while the Cowboys ran for 200 and passed for ten. Ronnie Cary did a fine job of

punting for the Mustangs booting it three times for an average of 39 yards, while Happy punted twice for a 30 yard average.

Next Friday's opponent will be Lazbuddie's Longhorns.
