

Nita Beth Estes Installed As Worthy Advisor

Miss Nita Beth Estes, daughter of Mr. and Mrs. Vernon Estes, was installed worthy advisor of the local chapter of Rainbow for Girls Monday evening, June 2. The installation was held in the Masonic Hall and Mrs. Margaret Charles, outgoing mother advisor, was installing officer. Assisting her were Mrs. Janie Sudderth, installing marshal and Mrs. Mary Ruth Martin, installing musician.

Others installed were Patsy Richards, worthy associate advisor; Janice Leake, charity; Bettye Stevens, hope; Sherri Lynn Langer, faith; Carole Hammonds, chaplain and Judy Meacham, drill leader.

Also, Patricia Crawford, treasurer; Verna Marie Estes, musician; Harriette Lou Charles, recorder; Charlotte Hromas, inner observer and Margaret Taylor, outer observer. Color stations are occupied by Leslie Fourmentin, Brenda Jones, Celia Berry, Shirley Joplin and Sue Estes. Mrs. Evelyn Crawford was installed mother advisor and H. J. Charles was installed rainbow dad.

Mrs. Estes, mother of the incoming worthy advisor, was hostess at a reception which followed the installation. Decorations throughout the hall and reception room carried out Miss Estes' chosen colors, white and blue. The serving table was

overlaid with a white, imported cutwork cloth and was centered with a floral arrangement of blue and white. Refreshments of cookies and floating punch were served.

The new worthy advisor presented the installing officers with individual gifts and they gave her a white Bible. Miss Charlotte Hromas, outgoing worthy advisor, was presenting a pin for her work in the organization during her term of office.

Merit badges were also presented to Bettye Stevens, Patricia Crawford, Kay Leake, and Charlotte Hromas. They were awarded by Mrs. Margaret Charles, outgoing mother advisor.

The next meeting of the organization will be Monday, June 16. A stated meeting, it will be in the Masonic Hall.

With Daughter

Mrs. C. E. Strawn is visiting this week with her daughter and family, Mr. and Mrs. Roy Dodson and son, Roy Charles. Mrs. Strawn, who makes her home at Littlefield, is recuperating from a recent car accident. Mrs. Dodson reports that her mother is improving steadily. The guest plans to be here for about three weeks. She plans also to visit with her son and family, Mr. and Mrs. Norvell Strawn and children.

Studies serve for delight, for ornament, and for ability.—Bacon

From Arkansas

Mr. and Mrs. W. E. Williams returned home last week from Fayetteville, Ark. The couple had been visiting there for about three days with their daughter and family, Rev. and Mrs. George M. Small and children. Mrs. Small is the former Willie Ellen Williams.

Prior to her visit in Arkansas, Mrs. Williams had spent several days in Dallas, visiting another daughter and family, Dr. and Mrs. Jack Barnett. Mrs. Barnett is the former Martha Williams. Williams didn't make the trip to Dallas but met his wife in Fayetteville for the visit there.

To California

Miss Carole Hammonds, teen-age daughter of Mr. and Mrs. J. T. Hammonds, left Monday for a visit in California. Going by train, Carole will visit for about a month with her aunts and families, Mrs. J. B. Jones and Mr. and Mrs. E. D. Benedict, all of near Los Angeles.

Justifying a fault doubles it.

MILK

IS

NATURE'S

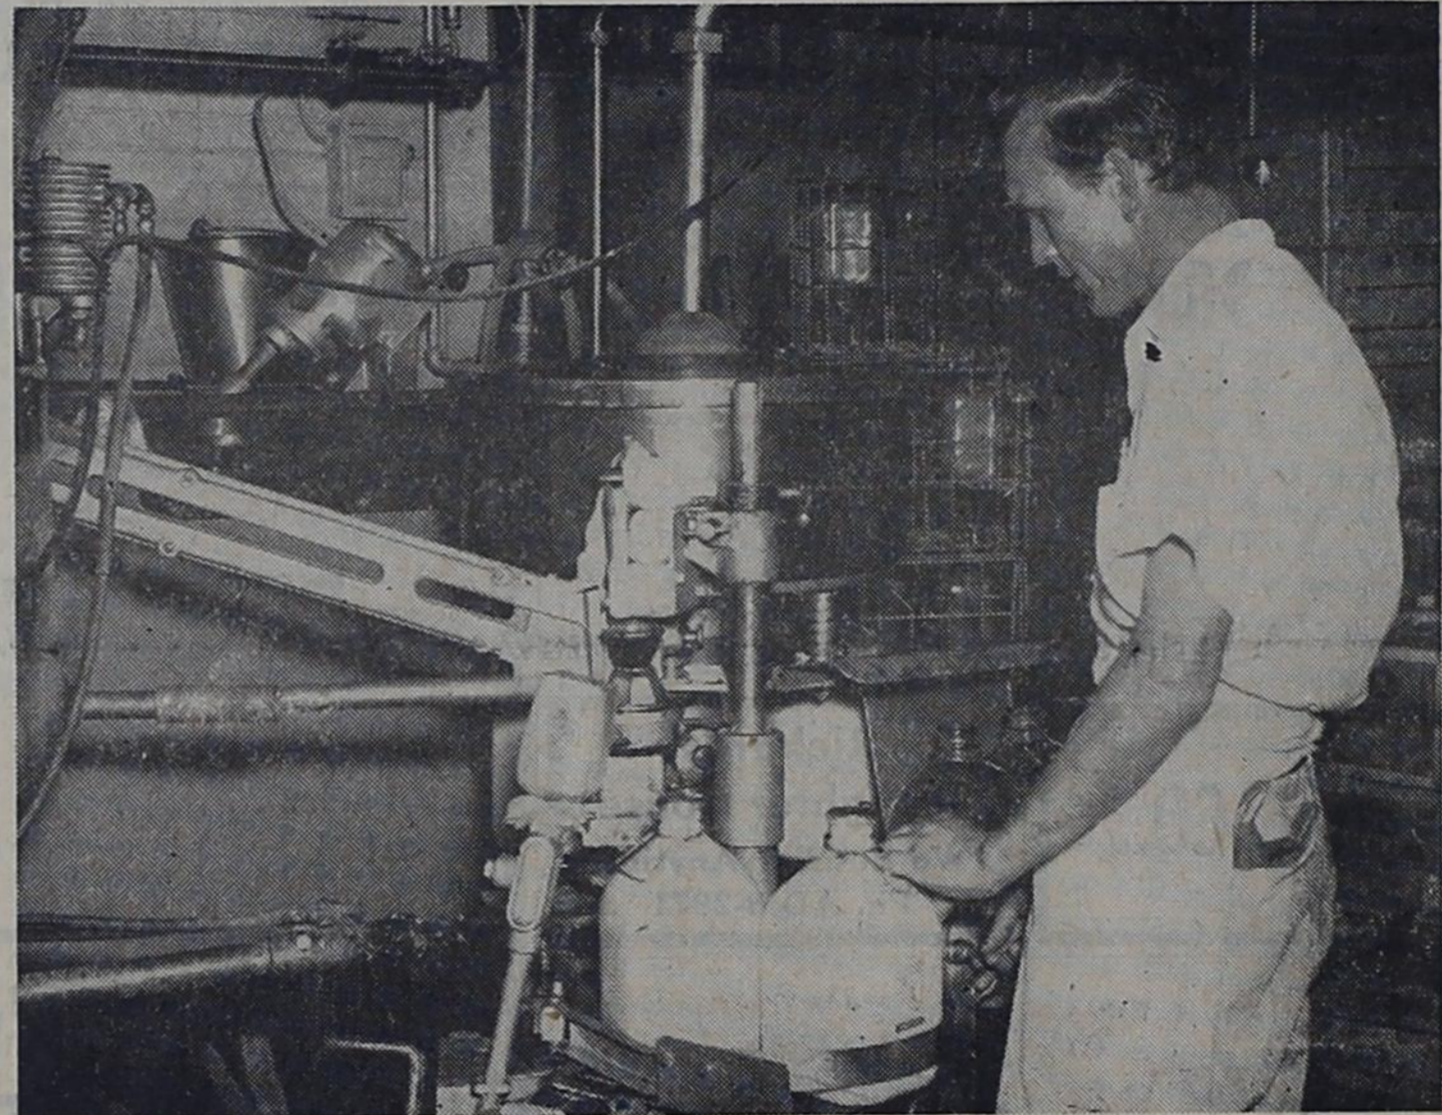

MOST

PERFECT

FOOD

Milk never touches human hands at the dairy, but is passed through the automatic milking machines, through stainless steel pipes directly to the bulk refrigerated tanks.

A refrigerated tank truck picks up the milk at the dairy and carries it to the creamery where again it is pumped through stainless steel pipes to the filling machine where attendants fill the bottles with milk.

From the creamery the milk is distributed to stores, homes and other points where the housewives buy the milk of their choice. All along the way the milk is kept cool so that it reaches your table within a minimum of time. The little one above shows that she realizes that milk is really Nature's Most Perfect Food.

NEWS FROM THE FARM BUREAU

Woody Fleming, Earl Chester, A. L. Black and Bruce Parr flew to Washington Saturday to meet with the Labor Department Sub-Committee in an effort to get the bracero law extended into the 1959 crop period.

president of Bailey County Farm Bureau, is due much of the credit for getting the project underway.

Gilbert Kaltwasser, PCFB president, had planned to be one of those on the Washington mission, but he landed in the Clovis Memorial Hospital the day before embarkation.

Your membership committee and others appreciate your response to billings and other notices of your memberships being due or lapsed.

CONSIDER THIS: Go not forth hastily to strive, lest thou know not what to do in the end thereof, when thy neighbor hath put thee to shame. Proverbs 25:3

A mistake proves somebody stopped talking long enough to do something.

People will believe anything if you whisper it.

Happily thumbing some No. 1 Pontiac reds are John Hood, left, and Buck Gregory. These nicized potatoes are on Hood's farm southwest of Lariat and are putting on tonnage daily. They should double in size and weight within the next two weeks.

Sandy Land Spuds Coming Along OK

There are two potato deals in the Parmer County area, one with Friona Growers and Shippers, and one at the Gregory shed at Lariat. Friona's "high land" potatoes make up the biggest acreage—about 600—and there are 287 acres in the Lariat deal.

A story in Farm and Home two weeks ago reported on satisfactory progress of the spuds in the northeastern part of Parmer County, and this week, a check with the sandy land farmers to the south indicates progress with the potato crop is satisfactory there also.

It appears that the potato harvest in the Lariat area will begin about the first of July, which is about "normal" for the area, but about two weeks sooner than in 1957.

The potato acreage is distributed among four growers—A. J. Hood, 87; Pershing Busbice, 30; Ardell Robertson, 30; and Buck Gregory, 140. There will be about another 100 acres of potatoes planted late this month for the fall harvest.

Gregory this week reports that the market is weaker than had been hoped for. "I don't see quite why," he says, pointing out that many areas are off normal production schedules, including California, one of the most prodigious producers of all.

Just the same, the market is weak at the present time and Gregory understands the current crop in Alabama is bringing only \$1.65 a sack. That is considerably below standard.

However, costs may be lower this year. Insects have been fewer than usual, and this is an important area of expense to the potato grower.

Gregory believes that the market will be weak at the beginning of the harvest, but will strengthen in time to help the local deal. He also believes it will level off and possibly decline in the late stages.

Potatoes were only a so-so crop last year so far as prices were concerned. In 1955 they were a very profitable crop.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

In our Mrs. America favorite recipe series, we are down to Mrs. Oregon, who is Mrs. Howard MacMurray. The favorite recipe Mrs. MacMurray selected was for a broccoli casserole. To make this casserole, you will need 6 to 8 stalks broccoli, boiling water, 1 teaspoon salt, 1 cup hot chicken broth or 2/3 cup boiling water in which a bouillon cube has been dissolved, 1 tablespoon butter, and 1/2 cup shredded sharp Cheddar cheese.

Cook broccoli in boiling salted water until tender but still firm. Drain and arrange in a shallow casserole. Pour broth over broccoli. Season to taste and dot with butter. Sprinkle with cheese and place in broiler to brown. Makes 6 to 8 servings.

Mrs. Frank Eythe, who was chosen Mrs. Pennsylvania, says that second helpings are always in order when she makes this fruited rice dessert.

GLORIFIED RICE DESSERT

2/3 cup quick cooking rice, 1/2 teaspoon salt, 1 tablespoon sugar, 3/4 cup water, 12 marshmallows, quartered, 6 maraschino cherries, diced, 3/4 cup canned crushed pineapple, 1 cup heavy cream, whipped. Combine rice, salt, sugar, and water in saucepan. Bring quickly to a boil, cover, remove from heat and let stand ten minutes. Add marshmallows and fruit. Fold in cream. Chill. Makes 8 to 10 servings.

From Mrs. Rhode Island, who is Mrs. Donald V. Stevens, we have a recipe for:

POTATO SCALLOP

6 medium potatoes, 3 tablespoons butter, 2 tablespoons flour, 3 cups milk, 1/2 cup shredded American cheese, 1 teaspoon salt, 1/4 teaspoon pepper, 2 tablespoons chopped onion, 1/4 cup chopped green pepper. Pare potatoes and slice thinly. Make a white sauce of the butter, flour, and milk. Melt cheese in white sauce. Put half the potato slices in a greased 1 1/2 quart casserole; cover with half the sauce, seasonings, onion, and green pepper. Repeat layers. Cover and bake in moderate hot oven 1 hour. Uncover and brown top. Makes six servings.

When Mrs. Kenneth W. Heist, Mrs. South Carolina, asks members of her family to select their favorite main dish, they often ask for:

STUFFED ROAST BEEF

1/4 cup minced onion, 1 can (4 ozs.) mushrooms with liquid drained and reserved, 1/4 cup butter or margarine, 1 1/4 cups soft bread crumbs, 1/2 cup celery, Hot water plus liquid from mushrooms to make 1/2 cup Salt and pepper, 1 tenderloin of beef, about 3 lbs., 4 slices bacon. Saute onions and mushrooms in butter. Add bread crumbs, celery, and hot water. Season to taste and spread over half of the meat which has been split and flattened. Fold other half of meat over and secure edges around stuffing with skewers. Sprinkle all sides with salt and pepper. Top with bacon.

Elect Wilmer B.

HUNT of Harris County For Associate Justice SUPREME COURT OF TEXAS

RAMSEY

The Man Texans Know and Respect

for LIEUTENANT GOVERNOR

slices and roast uncovered in moderate oven 1 hour. Makes six to eight servings.

One of the nice things about the recipe which Mrs. Milton Wass, who has the distinction of being Mrs. South Dakota, selected is that it can be made well ahead of a party and stored in the freezer. Another nice thing about it is that there's plenty of second helpings when it's just for the family.

FROZEN STRAWBERRY DESSERT

1 package vanilla wafers, finely crumbled, 1/2 cup butter, 1 cup confectioners sugar, 2 eggs, well beaten, 1 cup sliced strawberries, 1/2 cup slivered toasted almonds, 1 cup heavy cream. Spread half the crumbs on bottom of an 8x8x2 inch cake pan. Cream butter and sugar. Add eggs and blend. Spread evenly over crumbs. Layer berries, almonds, and cream on top in that order or gently fold together and spoon over mixture. Sprinkle remaining crumbs on top and freeze. Makes 16 servings.

If there are small children in your family, they will enjoy pudding with a bunny face at any noon or evening meal. To any cooked custard, add two banana slices for ears, coconut for whiskers and candy or chocolate chips for eyes, nose, and mouth.

Like a lot of boys away at college, Frank Duane Young finds it hard to sit down and write a letter to his parents.

So he records a message regularly on a tape recorder and mails it to mom and dad, Mr. and Mrs. Frank Young, and they play the tape on their recorder. In turn, the parents record their messages to their son on a roll of tape and shoot it up to Texas Tech, Lubbock. Amblin' Around, Alpine Avalanche.

"GRADUATE LANDSCAPE DESIGNER" Clovis, N. M.

Moorefield, West Virginia, Examiner: "We attended the Committee meeting on the Flood Prevention program... held at Brandywine. This is the project sponsored by the Potomac Valley Soil Conservation District... and should not be confused with the Flood Control Project by the Corps of Army Engineers. The army engineers go in for huge dams which inundates large areas of land, whereas the Flood Prevention Project is a series of small

retention dams in the upper reaches of a watershed which PREVENTS floods rather than CONTROLLING them."

It is now time to apply control measures to ornamental plants infested with bag worms. The worms are now small and can be effectively controlled, says C. F. Garner, extension entomologist. He suggests that in a copy of L-199, Texas Guide for Controlling Insects on Ornamental Plants, be obtained from the local county agent.

Political Announcements

The following political announcements are made subject to action of the Democratic Primary of 1958:

WESLEY HARDESTY For County and District Clerk HUGH MOSELEY (Re-Election)

Sidedressing Time For Sorghum Crops

Parmer County area row crops are coming along fast with the warm weather and time for sidedressing is fast approaching. More and more farmers are following the practice of sidedressing sorghum-type crops each year, says County Agent Joe Jones.

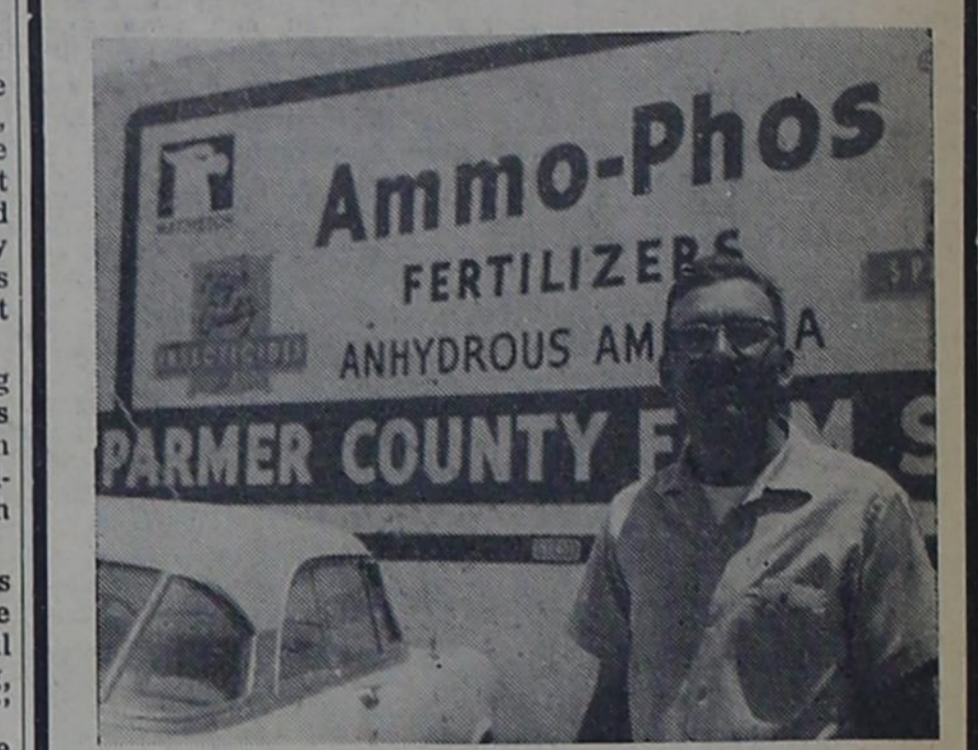

shuffleboard court. The garage or car port provides good space for table tennis or other outdoor games. A simple fireplace for outdoor cookery is easy to build and provides lots of enjoyment. If you are really ambitious, the family might develop an outdoor living room for all forms of recreation.

THE PARMER FARMER

By W. H. Graham Jr.

We ran into Sam Sanders the other day, who, with his son, C. W., has been a big sesame farmer in the area for the past few years.

Dorothy Thompson devoted a recent column to the heavy dependence of the American economy on war spending. This spending she wrote: "... takes million of employables off the labor market onto the government payroll, and furnishes an inexhaustible market for the basic industries, since its purchases are perpetually obsolete, sometimes even before they have moved on left the drawing board. An arms race is continual turnover, as each new weapon invented by an enemy must be matched and if possible surpassed."

DON STARK

has joined us as entomologist for the summer. He is here to serve farmers by checking insects that chew and

EATS

crops, cutting production. We have insecticides to control insects, so let us serve you to control those

PLAN SUMMER FUN

Recreation and summertime just naturally seem to go together. Wholesome recreation is a year-round need for old and young alike. More of us are realizing that fact all of the time, according to Lucille Moore, extension recreation specialist. It's part of the training program in much of our work with 4-H Clubs, home demonstration clubs and organized communities.

With summertime at hand, youngsters out of school, and lots of parties, picnics and family gatherings planned, this is a good time to take a look ahead. Call a family conference

sometime soon to plan for the best use of leisure time, energy and recreational dollars for summer months.

First, study the recreational interests and needs of each family member. Help each one develop a greater variety of outside interests.

Next, plan time for recreation in the family schedule. Talking this over often helps family members to see how adjustments can be made so that everyone has some individual time for recreation, and that all members plan some time for family recreation—at least once weekly.

Next, plan and provide a place that's a comfortable and adequate place for each family member. For indoor recreation, an unused room or basement would make an ideal room for the TV, piano, record player, radio or indoor games. For outdoor recreation, the family might arrange a court for horse-shoes, volley ball, badminton or croquet. A cement porch or driveway makes a good

The following optometrists of this area have been approved for membership in the Texas Optometric Association. They are voluntarily pledged to a rigid Code of Ethics, and to the Visual Welfare of their patients. This Seal will identify them.

Ketch-all Kcorner

By Sally Whitesides

Geneva Berry says she's crowding it close; it won't be long until she can fully qualify for membership to the SOG with a PIP Club. She got word the other day of the arrival of her first grandchild; the only thing missing so far is the picture. By the way, for those of you who haven't already figured out the meaning of the initials, it's Silly Ole Grandmother with a Picture in her Purse. Ten to one it won't be a week before she gets that picture, and with it, her rights as a full-fledged member of the club.

There's lots of members of

the club here in Bovina, and some of them aren't newcomers. That doesn't matter, says Lady Gaines, it's the fact that there's a NEW one arrived that makes you the strongest kind of member. Lady has had the honor a couple of times, and the joy of it hasn't diminished a bit.

There is one little hitch to the littlest Berry's birth. Although he'll be an American citizen, Gerald Wayne can't ever become US president. The little guy was born in Germany a couple of weeks ago—where his daddy is stationed with the army.

Can't husbands be the most wonderful pets to have around the house? Bill has known for months that I want to go to ENMU the middle of this month to a writers' workshop. He has also known that I gave up the idea some time ago because wheat harvest would be keeping him so frantically busy during the three days I'd be gone and

I know how much he hates to "batch."

Sunday afternoon, he pops up with the glad tidings that he's got it all planned out so that I can go. Was tongue-tied for once in my life and that familiar overwhelming sense of gratitude for such a thoughtful husband almost drowned me. Again, girls, aren't they nice to have around?

Well, some things do happen—and they usually happen on Tuesday afternoon or Wednesday forenoon. Just like last week. The Blade had stories, including a paragraph in the KAK about Rev. and Mrs. David Hamblin's arrival here as new minister of the Methodist Church.

Plans of the conference were changed during that time and Editor Leland and I didn't find out about it until Wednesday morning. . . within minutes of press time. By then, it was too late to pull the paragraph from my column.

So, this week, we both want to extend another welcome; this time to Rev. and Mrs. Davis Edens and their four children, who moved here last week. We certainly hope that they will like Bovina and be happy here.

The bus strike which has been on for some time now doesn't seem to bother most of us, but it has certainly put a stitch in the side of the local mechanics. Usually, they receive many of their needed replacement parts via this mode of transportation and, with the lack of such, are often hard pressed on immediate repair jobs.

Was talking the other day with one of the mechanics here, incidentally, and he mentioned a thought-provoking idea. Says that the chug holes, rocks and

the like that have made our streets and roads so uncomfortable for the past several months have also been responsible for some damage to the steering apparatus of our cars. He blamed the rocks for the tie rod trouble the "little blue Ford" had this week. He agrees with me that it might not be such a waste of time to have someone check the front end of your car—especially before a trip. When the tie rod drops, disaster follows in just a very few seconds.

Betty and Harold Hawkins have been working some time now, outfitting an ideal fishing and boating rig for themselves and their two daughters. Among their most prized possessions is a fiberglass boat that literally and figuratively let them down the other day. When the Hawkinses' prize was pushed into the water last week, says Betty, dozens of little fountains began to erupt all across the bottom of the boat. Two sadder people never lived, Betty reports, than she and Harold were as they began to "dip like sixty."

The Hawkinses seven-year-old daughter, Vickie, by the way, is fast learning the art of surf boarding. Betty says it won't be long before they get her on to a pair of water skis.

Johnnie Maye and Tuff Jones of Amarillo recently purchased a snazzy boat and 35 horse power motor for themselves and, shortly thereafter, a pair of water skis. According to a book on "How to Ski" they thoughtfully bought three days later, the author assured them they could learn how in 15 to 30 minutes.

Johnnie Maye says maybe 99 out of 100 people can, but she didn't. Says she didn't mind the dunkings she has received

while trying to get both skis to go in the same direction, but the "back-side-belly-bust" she took the other day was hard to receive with a smile. According to reports from those that were with her, Johnnie wouldn't get out of the water for a solid thirty minutes—for fear her swim suit would still catch on fire!

Have heard lots of private opinions on what spring fever really is, but the best explanation as far as I'm concerned, is all in the title of one of the western hit songs of today. The phrase "Stop the World and Let Me Off" is just about the summing up of the whole problem. If things would just stop long enough to let me off the merry-go-round for only a short breather, I think I could take summer weather. As it is, air conditioning is my only salvation. . . sure makes nice atmosphere for sneaking an afternoon nap now and then.

Is there anything that whispers "you're getting old" more clearly than your reaction while watching a very young kitten skid around a corner, up and over the sofa and back behind the drapes in one fluid motion? Also, their ability to "konk out" for a nap on the floor, a chair back or in a shoe just screams of their youth and my age.

In Strawn Home

Visiting Sunday in the home of Mr. and Mrs. Norvell Strawn and family were Mr. and Mrs. Delbert Mouser and two sons, Ronnie and Pat, all of New Home. The two families are former neighbors and are old friends.
