## KILLED ON CROSSING

FOUR MORE MAY DIE FROM INJURIES RECEIVED.

## PARTY WAS RETURNING HOME

Not Known Whether Gateman or Driver Was Responsible for the Accident.

Spring Valley, N. Y., Feb. 24.—A foam-flecked pair of horses that tore through the streets early yesterday, dragging between them a splintered wagon pole, brought to the village the first news of a grade crossing accident in which nine members of its most prominent families were either killed or terribly injured.

The runaway horses came to a stop at the livery stable of George Young, from whom they had been hired the night before to take a party of men and girls to a basket ball game at Nyack.

Returning in the early hours of the day, the wagonload of merry-makers was run down at West Nyack by an Ontario and Western express train. Four of the party were instantly killed, two died while being removed to the Hudson Hospital at Hoboken, N. J., and the other three lie in a serious condition at that institution.

The gate on the side of the approach was broken down, but the opposite gate was intact, and, if previously lowered, must have been hurried by the frightened horses after the wagon had been struck and torn from its pole. The animals were uninjured.

## WIND WITH HURRICANE FORCE.

Portions of England and Ireland Devastated.

London, Feb. 24.—The northwest of England and the north of Ireland were swept suddenly Saturday afternoon by a wind of hurricane force, accompanied by storms of hail, which left death and destruction in its path. In the Mersey River a schooner was capsized and eight people drowned. Several small steamers are reported in distress off Holyhead, and many small craft have been driven ashore.

No less than one dozen grandstands in the designated area have been blown down, with resultant injury at several provincial points to the people, who had gathered to witness football matches.

A train running between Burton Port and Dogneal was blown off the rails by the wind while crossing a viaduct and into a bog beneath. The passengers were rescued uninjured.

## First Hudson River Tunnel Open.

New York: The century-old task of overcoming the water barriers that have separated Manhattan Island from the country of which it is the metropolis, has at last been accomplished. The first tunnel for passenger traffic under the North or Hudson River, is open to the public. President Roosevelt in the executive offices in Washington pressed a button to signal the opening of the tube, and the Governors of New York and New Jersey participated in the ceremonies.

After receiving more than 1000 volts of electricity and being removed from the network of wires into which he had fallen, by rescuers, Will Abadie, a lineman in the employ of the Temple Electric Company, still lives. He will lose one hand and two fingers from the other.

## Good Roads in Jones County.

Stamford: The split-log drag will be tested on the Jones County roads. The Farmers' Institute and the Commercial Club of this city have been making investigations, and have decided to make practical demonstrations of the drag on one of the prominent roads near Stamford. These organizations will also make a thorough campaign for the improvement of the roads during the coming spring and summer months.

## Bold Work of Purse Snatcher.

Dallas: S. Posey of Alabama reported early Sunday morning to the police that he had been robbed of \$216. He said that he was on a train of the Texas and Pacific Railway, westbound. At a point between the two depots in this city a man passed hurriedly by him and snatched from him his pocket-book and the money it contained. Several persons on the train witnessed the affair.

## MAY GET PENSION.

Texas Frontier Rangers from 1855 to 1860 Recognized.

Washington, Feb. 22.—Mr. Burleson's bill to pension the surviving officers and enlisted men employed in the defense of the Texas border between 1855 and 1860, including against Mexican marauders and Indian depredations, has been reported favorably by the House Committee on Pensions. The enactment of this measure would be the culmination of more than three years' work by Mr. Burleson.

It began with the introduction of a bill to reimburse Texas for the money spent in performing this service, which was properly the duty of the Federal Government. That bill passed during the first session of the Fifty-Ninth Congress in the face of determined opposition, and the money has been paid to the State of Texas.

The recognition of that claim on the part of the Federal Government gave pensionable status to the men who were enlisted in the defensive service, and the bill reported yesterday is intended to enable them to have their names put on the rolls. Mr. Burleson is confident that he will get it through the House.

## Austin-Lockhart Project Awake.

Austin: It is expected that the committee appointed by the Business League to solicit funds for the projected Austin-Lockhart interurban line will inaugurate its campaign on Monday. The quiet passing of the flurry and the gradual restoration of normal conditions are expected to facilitate the labor of the committee. It is understood that Lockhart is prepared to donate at least \$20,000 to the project whenever the first call for funds is made.

## Plenty of Work for Workers.

New Orleans, La.: That unemployed men are so scarce in Louisiana as to render it difficult for planters to secure labor even at the present time, was the statement made by Secretary Dykers of the Louisiana Immigration Association. Immigration has fallen off to such an extent because of the general industrial depression, Mr. Dykers said, that the plantations of the State are likely to soon face a serious labor shortage.

## Citizens May Use Trinity Money.

Washington: The House Friday passed Mr. Beall's concurrent resolution permitting the use of the unexpended balance of the citizen's fund for lock and dam No. 2 on the Trinity River. Mr. Keifer of Ohio questioned the authority of Congress to divert a fund from the purpose originally subscribed by citizens, but refrained from objecting to the passage of the measure.

## Society Woman Asphyxiated.

New York: Mrs. William Proudfoot Burden, who was Natica Rives, daughter of O. H. P. Belmont, and a society favorite in New York, Newport and Washington, was found dead in bed at her home Friday. Death, the coroner decided, was accidental, and due to gas poisoning. A disconnected gas tube had led from a chandelier to a drop light, so placed that Mrs. Burden might read while propped up in bed.

Six of the eighteen furnaces of the Monongahela furnace department of the National Tube Company of McKeesport, Pa., have resumed operations. The entire plant will be in operation when the damages caused by the flood have been repaired.

## Red-Eye Captured in Oklahoma.

Chickasha, Ok.: Five big barrels of whisky were seized at the Frisco depot by the Sheriff and his deputy. When the liquor came Deputy Ross suspected it about dark. Application will be made to the County Court for an order to destroy it. Before the liquor was taken from the railroad company it had been rebilled to Quanah, Texas. A legal battle over the disposition of it is expected. It is said to be fine goods—eight years old.

## Text Books Selected.

Austin: The text book board has made its awards. The contracts are valued at about \$3,000,000, as they run five years. Next week the contracts will be signed and executed. One or two gross receipt tax matters have to be straightened out by some of the companies. Five contracts were selected "conditionally;" that is, based on some changes or improvements recommended by the board.

## The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

## Doesn't Work Both Ways.

Liquor improves with age, but unfortunately the same rule doesn't apply to those who drink it.

## Try It Once.

There is more actual misery and less real danger in a case of itching, skin disease than any other ailment. Hunt's cure is manufactured especially for these cases. It relieves instantly and cures promptly. Absolutely guaranteed.

Action of Animal Charcoal. Why animal charcoal removes the color from colored liquids while wood charcoal has no effect has not been understood. A European chemist now finds that the action of the former is due to the presence of five and seven per cent. of nitrogen.

## FINE RECIPE FOR COLDS.

Mix two ounces of glycerine with one half pint of good whiskey and one half ounce of Concentrated Oil of Pine. This latter is a product of the Globe Pharmaceutical Co. of Dayton, Ohio, and comes in one half ounce vials and packed in tin screw top cases. Any druggist should have it. This simple mixture is to be used in doses of a teaspoonful to a tablespoonful four times a day. The bottle should be well shaken each time.

## Rather Neatly Put.

A Baltimore man had until recently a dinky in his employ—about as shiftless and worthless a dinky, says he, as ever he came across. One day the employer, his patience exhausted, called Sam into his office and told him to look for another job. "Will you give me a letter of recommendation?" asked Sam, piteously. Although he felt that he could not conscientiously comply with this request, the Baltimore man's heart was touched by the appeal. So he sat down to his desk to write a non-committal letter of character for the negro. His effort resulted as follows: "This man, Sam Harkins, has worked for me one week, and I am satisfied."

## But Few Do.

Lots of people kin git credit fer bein' wise if they only have sense enough t' keep their mouths shut.—Josh Wise.

## BRAIN POWER

Increased by Proper Feeding.

A lady writer who not only has done good literary work, but reared a family, found in Grape-Nuts the ideal food for brain work and to develop healthy children. She writes:—

"I am an enthusiastic proclaimer of Grape-Nuts as a regular diet. I formerly had no appetite in the morning and for 8 years while nursing my four children, had insufficient nourishment for them.

"Unable to eat breakfast I felt faint later, and would go to the pantry and eat cold chops, sausage, cookies, doughnuts or anything I happened to find. Being a writer, at times my head felt heavy and my brain asleep.

"When I read of Grape-Nuts I began eating it every morning, also gave it to the children, including my 10 months old baby, who soon grew as fat as a little pig, good natured and contented.

"Within a week I had plenty of breast milk, and felt stronger within two weeks. I wrote evenings and feeling the need of sustained brain power, began eating a small saucer of Grape-Nuts with milk instead of my usual indigestible hot pudding, pie, or cake for dessert at night.

"Grape-Nuts did wonders for me and I learned to like it. I did not mind my housework or mother's cares, for I felt strong and full of 'go.' I grew plump, nerves strong, and when I wrote my brain was active and clear; indeed, the dull head pain never returned."

**Decline of Bull Fighting.**  
 The wholesome change that the character of the Mexican people is undergoing is shown again by the movement headed by President Diaz and taken up by the better social element to abolish bull fighting. That brutal sport is one of the handicaps which Mexico got from Spain. In the mother country it still flourishes, and any attempt to suppress it would be resisted as strongly by the ruling classes as by the common folk.

**No Bismarck Statue for Them.**  
**Vienna**—The courts in the town of Eger, in Bohemia, have just carried into effect the refusal of the Austrian authorities to allow the erection of a statue of Bismarck with the funds collected by the pan-Germanic party. The court declined to consider the legal aspect of the matter, simply taking the ground that the patriotic feelings of the Austrians might be injured by the proposed tribute to the German chancellor.

**Heart to Rest on Mount Olivet.**

**The Car Heard Them.**  
 Two jolly New York brokers, having finished their day's work, were discussing the latest news as the rode homeward on the "L." The car, as usual, was packed. One big man in particular made his presence felt, because he occupied not only his own seat, but projected a little over the partition arms designed to separate one passenger from another. "I see the car is having a close call," one broker remarked, reading the dispatches from Livadia. "He won't be missed," replied the other. Raising his voice he added: "I don't go much on cars anyway. They are too distasteful. We had ample experience of one, and were lucky to retire him to private life. He is a very decent fellow now." Glancing in the direction of the big man, who was half hidden behind his paper, a reporter detected a broad grin on the moon face of the Hon. Thomas B. Reed former speaker and car. The broker noticed it also, and with a wink at his companion, arose and left the car.

**Lord Rowton's Distinction.**  
 Lord Rowton, who celebrated his 62d birthday recently, has earned fame in several directions. He owes his title, to which there is no heir, to the fact that he was Lord Beauchamp's private secretary and also to the fact that he is a favorite with the queen. It is as the "noble lodging house keeper" that his lordship is now best known, however. He is the chief proprietor of three, if not four, of the great buildings about London where a single man can obtain a night's comfortable lodging for sixpence.

## WOMAN'S BACKACHE

The back is the mainspring of woman's organism. It quickly calls attention to trouble by aching. It tells, with other symptoms, such as nervousness, headache, pains in the loins, weight in the lower part of the body, that a woman's feminine organism needs immediate attention.

In such cases the one sure remedy which speedily removes the cause, and restores the feminine organism to a healthy, normal condition is **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**

Mrs. Will Young, of 6 Columbia Ave., Rockland, Me., says: "I was troubled for a long time with dreadful backaches and a pain in my side, and was miserable in every way. I doctored until I was discouraged and thought I would never get well. I read what Lydia E. Pinkham's Vegetable Compound had done for others and decided to try it; after taking three bottles I can truly say that I never felt so well in my life."

Mrs. Augustus Lyon, of East Earl, Pa., writes to Mrs. Pinkham: "I had very severe backaches, and pressing-down pains. I could not sleep, and had no appetite. Lydia E. Pinkham's Vegetable Compound cured me and made me feel like a new woman."

**FACTS FOR SICK WOMEN.**  
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

### BROUGHT HIM DOWN TO EARTH.

Young Lawyer Himself Again with Familiar Style of Address.

The following anecdote, after remaining in storage many years, has been recently dusted and brought to light:  
A young and afterward distinguished attorney from an up-country district of New York state was arguing his first appeal in the old general term of supreme court. He had been in many legal scurrillages in justices' courts, at home, but had never stood in the awesome presence of five adequate and learned judges of the supreme court, in general term assembling. His embarrassment was great. He repeated himself and misplaced his words so often that it was quite evident that he must soon be routed by his own confusion unless something should occur to break the spell. Finally, and just as he was floundering in the deepest in a chaotic jumble of language and ideas, the presiding judge interrupted with the following remark:

"Mr. Smithers, I believe it will be a great relief to yourself and to the court if you will address us in the same free and informal way that you doubtless use in addressing your local justice of the peace."  
"Well, then," replied Smithers, "I wish that while I am busy alleviating your honor's dense ignorance of the law, you would keep your 'd-d mouth shut'." The court laughed heartily and waved for him to proceed. He grew eloquent and won his case in the midst of hearty applause.—The Bohemian.

Painted from Life.

The monk who acts as guide to the many people that visit the old mission at Santa Barbara, Cal., is a picturesque and interesting figure. In his brown robe of heavy, coarse material, a rosary hung at the cord belt, and the cowl thrown back from his closely cropped head, he is in strange contrast to the fashionably dressed visitors. He shows a pardonable pride in the mission and all its contents. The curiosities which remain from the time of Mexican rule in California, the exquisite drawn-work altar cloths and the mural decorations are pointed out in a manner approaching reverence. Although he is occasionally inexact in his descriptions, he is sincere, and his naïveté is so amusing that it would be a carping, small-souled critic that would take issue with him.

Concerning one of the paintings in the church, he once said to a party of tourists:  
"This is a picture of the Virgin Mary, painted from life by Murillo."

**Great Water Power in Brazil.**  
Consul George A. Chamberlain of Pernambuco sends a comprehensive description of the Paulo Affonso falls and the San Francisco river, situated in that part of Brazil. The falls are 230 miles from either Pernambuco, which has a population of 200,000, or Bahia, with 220,000 people. The average volume of the river is 1,000 cubic meters (one cubic meter—35.316 cubic feet) per second, and between Jatoba and Piranhas, a distance of about 65 miles, the fall is 756 feet, 400 of which takes place in the rapids, extending about 15 miles. This vast undeveloped water power will become in time the nucleus of a great industrial circle. A new cotton mill is being erected near Penedo, and there are a few other small factories using this power, but these little establishments are almost nothing compared to the industries which the great river should foster.

**Heroic Deed "Fair Decent."**  
One of the Carnegie hero commissioners now in New York recently made a visit to Canada to investigate the story of Sandy Ferguson. He learned that Sandy had jumped into a river filled with floating ice, swam a hundred yards, rescued a drowning boy and after a great struggle got him to shore. As a result of his cold plunge Sandy was stricken with pneumonia and for a long time hovered between life and death. In the course of his investigation the hero commissioner visited Dr. Cameron, who had attended Sandy during his illness, and from him heard the story in all its details. "Do you think Mr. Ferguson performed a really heroic act?" the commissioner inquired of the doctor. "I kenna say," said the doctor. Then, after a pause: "But it was fair decent o' Sandy."

**Item for Psychologists.**  
Thomas Flood, of Philadelphia, Pa., who is critically ill with typhoid fever, called loudly for his wife at six o'clock the other morning. "There's a man in a cellar over on Dickinson street with a rope trying to hang himself. Stop him." Mrs. Flood, thinking he was raving with delirium, tried to quiet him. Then he became wildly delirious, but the woman paid no further attention to him. At ten minutes after six o'clock Mrs. James Sullivan, who lives on Dickinson street, started downstairs. As she stepped from the stair she felt a hand brush her face. The light she carried showed her the body of her husband hanging from a beam.

**Two Halves.**  
"Looks count a lot," remarked Sloppy. "About half the good I get from dinner is the look of things."  
"All right, Mr. Sloppy," replied Mrs. Borden. "We'll just give you two looks in future."

**John Muir's Simplicity.**  
Once, in a talk with E. H. Harriman, John Muir, author and ranchman, said that he was richer than Mr. Harriman. "I know what you mean," said Mr. Harriman, "but I won't admit it. Don't you think wealth is a good thing for a man?"

"Not great wealth—no. Your rich man renounces too much. I would rather lie down at night by an old spring I know up in the Sierras than to own the Waldorf-Astoria—that is, if I had to live in it."—Bookman.

**ECZEMA FOR 55 YEARS.**  
Suffered Torments from Birth—In Frightful Condition—Got No Help Until Cuticura Cured Him.

"I had an itching, tormenting eczema ever since I came into the world, and I am now a man 55 years old. I tried all kinds of medicines I heard of, but found no relief. I was truly in a frightful condition. At last I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery, but I kept on scratching as well as I could. I was so run down that I could hardly do my work. I used Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say I am cured. Hale Bordwell, Tipton, Ia., Aug. 17, 1907."

"I cheerfully endorse the above testimonial. It is the truth. I know Mr. Bordwell and know the condition he was in. Nelson R. Burnett, Tipton, Ia."

**A Boston Correction.**  
Bilkins had recently moved from New York to Boston. The other morning he went to the butchers.  
"Give me a nice porterhouse," he ordered.

"Extremely sorry, sir," said the proprietor of the establishment, urbanely, "but we are not giving anything away this morning."—Harper's Weekly.

### Macaroni Wheat.

Salzer's strain of Macaroni or Kubanka wheat is absolutely pure and is from seed obtained from the Department of Agriculture. Our strain is Dakota grown which laughs at droughts and elements and positively mocks black rust that terrible scourge and would be ashamed of itself if it did not return from 40 to 80 bu. of the finest wheat the sun shines on per acre in good Ill., Ia., Mich., Wis., Ohio, Penn., Mo., Neb., Kan., and other lands, and 40 to 60 bu. per acre in arid lands. No rust, no insects, no failure.

JUST SEND 10c AND THIS NOTICE to the John A. Salzer Seed Co., La Crosse, Wis., and they will send you the most original seed book published, together with free samples of farm seeds such as Macaroni Wheat, Billion Dollar Grass, Victoria Rape, Salford, the dry soil luxuriant, Bromus inermis, the desert grassifier, Emperor William Oats, more original than the Emperor himself, etc., etc.

And if you send 14c they will mail in addition a package of farm seeds never before seen by you. John A. Salzer Seed Co., La Crosse, Wis. K. & W.

**Getting His.**  
"Of course, you don't want anything you are not entitled to," said the conscientious man.  
"Of course not," answered Senator Sorghum, "but I will incidentally remark that I always have the best legal talent available to ascertain what I am entitled to."—Washington Star.

**It Will Stay There.**  
"In my family medicine chest no remedy is permitted to remain unless it proves beyond a doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly."

Dr. Chas. F. Simmons Has Cut Up His Ranch of 95,000 Acres and is Selling Truck and Fruit Farms of From 10 Acres to 640 Acres (Including Two Town Lots) For \$210. Payable \$10 a Month Without Interest.

The Hon. Joseph Daily, of Chillicothe, Ill., who owns thousands of acres in the Illinois Corn Belt, says: "I am one of the heaviest taxpayers on farm lands in Mason and Tazewell Counties, Illinois, and I have been familiar with the conditions around San Antonio for 12 years. Any thrifty farmer can get rich, and make more money off of this cheap land, acre for acre, than any land in the State of Illinois, that sells from \$150 to \$225 per acre."  
Investigate this before the land is all sold. For full particulars and beautiful views of the ranch, write
