THE DEMOCRATIC PLATFORM

Denver, Colo.—The following is a synopsis of the platform adopted by the Democratic national convention:

Preamble—We, the representatives of the Democracy of the United States in delegate convention assembled, reaffirm our faith in and pledge our loyalty to the principles of our party.

We rejoice at the increasing signs of awakening in the United States. The various investigations have traced graft and political corruption to the representatives of predatory wealth and laid bare the unscrupulous methods by which they have debauched elections and preyed upon a defenseless public through the subservient officials whom they have raised to place and power.

The conscience of the nation is now aroused and will, if honestly appealed to, free the government from the grip of those who have made it a business asset of the favor-seeking corporation. It must become again "a government of the people, by the people and for the people," and be administered in its departments according to the Jeffersonian maxim: "Equal rights to all and special privileges to none."

This is the overshadowing issue at this time; it manifests itself in all the questions now under discussion and demands immediate consideration.

Publicity for Funds—We heartily approve of the laws prohibiting the pass and the rebate and insist upon further legislation, state and national, making it unlawful for any corporation to contribute to campaign funds and providing for publication before the election of all the individual contributions above a reasonable minimum.

State's Rights—Believing with Jefferson in "the support of the state governments in all their rights as the most competent administrations for our domestic concerns and the surest bulwark against anti-republican tendencies," and in "the preservation of the general government in its whole constitutional vigor, as the sheet anchor of our peace at home and safety abroad," we are opposed to the centralization implied in the suggestions, now frequently made, that the powers of general government should be extended by judicial construction.

Senators by Direct Vote—We favor the election of United States senators by direct vote of the people and regard this reform as the gateway to all other national reforms.

Trusts and Monopolies—A private monopoly is indefensible and intolerable; we therefore favor the vigorous enforcement of the criminal law against trusts and trust magnates, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States. Among the additional remedies we specify three: First, a law preventing the duplication of directors among competing corporations; second, a license system which will, without abridging the right of each state to create corporations, or its right to regulate as it will foreign corporations doing business within its limits, make it necessary for a manufacturing or trading corporation engaged in interstate commerce to take out a federal license before it shall be permitted to control as much as 25 per cent. of the product in which it deals, the license to protect the public from watered stock and to prohibit the control by such corporation of more than 50 per cent. of the total of any product consumed in the United States; and third, a law compelling such licensed corporations to sell to all purchasers, in all parts of the country, on the same terms after making due allowance for cost of transportation.

Tariff Revision—We welcome the belated promise of tariff reform, now offered by a part of the Republican party, as a tardy recognition of the righteousness of the Democratic position on this question, but the people cannot safely intrust the execution of this important work to a party which is so obligated to the highly protected interests that it postpones relief until after the election. And we call attention to the significant fact that the promise now made by those Republicans who favor tariff revision is wholly vitiated by the use of the very qualifying words under which the present tariff inequities have grown up. We favor an immediate revision of the tariff by the reduction of import duties. Articles entering into competition with articles controlled by trusts should be placed upon the free list; material reductions should be made in the tariff upon the necessities of life, and reductions should be made in such other schedules as may be necessary to restore the tariff to a revenue basis.

Income and Inheritance Tax—We favor an income tax as part of our revenue system, and we urge the submission of a constitutional amendment specifically authorizing congress to levy and collect a tax upon individual and corporate incomes, to the end that wealth may bear its proportionate share of the burdens of the federal government. We favor a national inheritance tax to reach the "swollen fortunes" already in existence, but we believe that it is better to permanently prevent "swollen fortunes" by abolishing privileges and favoritism upon which they are based.

Railroad Regulation—We assert the right of congress to exercise complete control over interstate commerce, and we assert the right of each state to exercise just as complete control over commerce within its borders. We demand such an enlargement of the powers of national and state railway commissions as may be necessary to give full protection to persons and places from discrimination and extortion. We believe that both the nation and the various states should, first, ascertain the present value of railroads measured by the cost of reproduction; second, prohibit the issue of any more watered stock on fictitious capitalization; third, prohibit the railroads from engaging in any business which brings them into competition with their shippers, and, fourth, reduce transportation rates until they reach a point where they will yield only a reasonable return on the present value of the roads, such reasonable return being defined as return sufficient to keep the stock of the roads at par when such roads are honestly capitalized.

Postal Savings Banks—We favor the postal savings bank, and, in addition thereto, insist upon the passage of laws, state and national, for the better regulation of banks and for the protection of bank deposits.

Currency—We believe that, in so far as the needs of commerce require an emergency currency, such currency should be issued and controlled by the federal government, and that it should be loaned upon adequate security and at a rate of interest which will compel its retirement when the emergency is past. We demand, further, that favoritism in the deposit of treasury funds shall be abolished and that surplus revenues shall be deposited at competitive rates upon sufficient security and fairly distributed throughout the country.

Labor and Arbitration—We favor the eight-hour day. We believe in the conciliation of capital and labor and favor every legitimate means for the adjustment of disputes between corporate employers and their employes to the end that justice may be done to those who toil and that society may be relieved from the embarrassment occasioned by prolonged strikes and lockouts.

Injunctions—We favor such a modification of the law relating to injunctions as will, first, prevent the issuing of the writ in industrial disputes, except after notice to defendants; second, permit trial before a judge other than the one who issued the writ, and, third, allow a jury to be summoned in all cases where the alleged contempt is committed outside the presence of the court.

Employers' Liability—We favor an employers' liability law, applicable to both private and public employes.

Immigration—We favor full protection by both national and state governments within their respective spheres of all foreigners residing in the United States under treaty, but we are opposed to the admission of Asiatic immigrants who cannot be amalgamated among our population or whose presence among us would raise a race issue and involve us in diplomatic controversies with oriental powers, and we demand a stricter enforcement of the immigration laws against any immigrant who advocates assassination as a means of reforming our government.

Canal and Water Ways—We believe that the Panama canal will prove of great value to our country and favor its speedy completion. We urge liberal appropriations for the improvement and development of interior water ways, believing that such expenditures will return a large dividend in lessened cost of transportation.

Pensions—We favor a generous pension policy, both as a matter of justice to the surviving veterans and their dependents and because it relieves the country of the necessity of maintaining a large standing army.

Philippines—We condemn the experiment in imperialism which has involved us in an enormous expense, brought us weakness instead of strength and laid our nation open to the charge of abandoning the fundamental doctrine of self-government. We favor an immediate declaration of the nation's purpose to recognize the independence of the Philippines as soon as a stable government can be established, such independence to be guaranteed by us as we guarantee the independence of Cuba until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines our government could retain such land as may be necessary for coaling stations and naval bases.

Clinton, Minn., was struck by a tornado Saturday and six persons killed.

Beyond Expression.
G. W. Farlowe, East Florence, Ala., writes: "For nearly seven years I was afflicted with a form of skin disease which caused an almost unbearable itching. I could neither work, rest or sleep in peace. Nothing gave me permanent relief until I tried Hunt's Cure. One application relieved me; one box cured me, and though a year has passed, I have stayed cured. I am grateful beyond expression."

Hunt's Cure is a guaranteed remedy for all itching diseases of the skin. Price 50c.

A Man's Tact.
Nobody but Mr. Henley would have asked such a question in the first place.

"Miss Fairley," he said, "if you could make yourself over what kind of hair and eyes would you have?"

"If I could make myself over," said Miss Fairley, "I would look just exactly as I do now."

"You would?" exclaimed Henley in honest surprise, and to this day he can't understand why Miss Fairley thinks him a man of little taste and less tact.

Realistic.
The conversation turned on the effect produced on the emotions by pictorial art, when one gentleman remarked:

"I remember one picture that brought tears to my eyes."
"A pathetic subject, I presume?"
"No, sir; it was a fruit painting. I was sitting close under it when it dropped on my head."

The Entire Family.
Grand Pop used it for Rheumatism. Dad for Cuts, Sprains and Bruises. Many for Burns, Scalds and Aches. Sis for Catarrh and Chills. I use it for everything, and it never disappoints any of us. It surely yanks any old pain out by the roots.

Hunt's Lightning Oil is what I am telling you about.

Looking for Work.
"Why don't you go to work instead of begging and boozing?"
"I will, boss, as soon as there's an openin' in my trade. An' I ain't got long to wait now, nuther."
"What is your trade?"
"I'm a trackwalker for aeroplane lines."

One Bottle or Less.
Malaria is easy to contract in some localities, and hard to get rid of—that is, if the proper remedy is not used. Cheatham's Chill Tonic frees any one from it promptly and thoroughly. It is guaranteed to cure any kind of Chills. One bottle or less will do it.

Opposites Cause and Effect.
"They say that there is more crime committed in hot weather."
"Yes; heat seems to conduce to wickedness."
"Now that's strange, that a close atmosphere should cause loose principles."

BURNING THEIR BRIDGES

One of our exchanges its advocacy of state wide prohibition says that our local option laws are a failure, and that local option has been "weighed in the balance and found wanting."

Now should state wide prohibition be defeated and we have to fall back on local option, we wonder if this brother will make the same argument in a prohibition contest in a local option precinct?

Our local option laws have had their successes and their failures, but all in all, they have given much satisfaction to the people of Texas and it is to be regretted that they are condemned by those who have been exceedingly fierce in their former advocacy.

Ingrowing Nails.
If any member of your family is troubled with ingrowing toenails, keep on your medicine shelf a small bottle of laudanum. Any druggist will sell you ten cents' worth. When needed saturate a little piece of antiseptic cotton and place between the swollen flesh and the nail or under the edge of the nail as far as it can be pressed without pain. The relief and cure is miraculous. It can be used also for a finger which has been cut or mashed close to the nail.

CARNEGIE'S RIVAL.

"He's a regular philanthro—what do you call it?"
"Wot's he did?"
"Why, in de last week he's give away two dozen 'Deadwood Dick' an' a dozen 'Nickel' libraries!"

TWO CURES OF ECZEMA

Baby Had Severe Attack—Grandfather Suffered Torments with It—Owe Recovery to Cuticura.

"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease and suffering, I recommended Cuticura and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease. A few years ago I contracted eczema, and became an intense sufferer. A whole winter passed without once having on shoes, nearly from the knees to the toes being covered with virulent sores. I tried many doctors to no purpose. Then I procured the Cuticura Remedies and found immediate improvement and final cure. M. W. LaRue, 845 Seventh St., Louisville, Ky., Apr. 23 and May 14, '07."

Couldn't Fool Him.

A custom house clerk, who, prior to his entry into Uncle Sam's service, was a schoolteacher, "a good many years yet," as he proudly informs his associates, was standing on the corner of Fifth and Chestnut streets one cold day last winter, deeply engrossed in studying a legend which appeared on a dairy man's wagon, as follows: "Pasteurized milk," etc.
His face wore a puzzled expression, but finally betraying evidence of dawning intelligence he remarked to a bystander:
"Ain't these here Philadelphia milkmen a-gettin' to be just as deceitful as anything! Pasteurized milk, eh? But they can't fool me, 'cause I lived in the country, and know you can't pasture cows in winter."

A Sure Remedy.

A young man who experienced much trouble in managing a head of hair which manifested an unpleasant inclination to stand on end, wrote to a weekly paper for a plan by which his troubles would be at least lessened.

He was given the following recipe: "One part molasses, three parts beeswax, four parts india rubber, four parts glue, 12 raw eggs; boil on a slow fire for two hours and 15 minutes, and while cooling stir in enough cod liver oil to make the mixture slab and good. Apply hot, and while gradually cooling pass a lawn mower back and forth over the head."
He didn't take it.

Telepathic Thirst.

News travels so fast nowadays as to render one almost speechless with wonder at the achievements of the wireless telegraph and telephone, says the Palmyra (N. Y.) Journal. One night last week we won a case of whisky at the Elks' fair in Lyons, and the night we brought it home there were three church members, a town official and two members of the band on hand to meet us on getting off the car. Since our arrival many people whom we have hitherto believed respectable have gone out of their respective ways to speak kindly to us.

DIFFERENT NOW

Athlete Finds Better Training Food.

It was formerly the belief that to become strong, athletes must eat plenty of meat.

"This is all out of date now, and many trainers feed athletes on the well-known food, Grape-Nuts, made of wheat and barley, and cut the meat down to a small portion once a day.
"Three years ago," writes a Mich. man, "having become interested in athletics, I found I would have to stop eating pastry and some other kinds of food.
"I got some Grape-Nuts, and was soon eating the food at every meal, for I found that when I went on the track, I felt more lively and active.
"Later, I began also to drink Postum in place of coffee, and the way I gained muscle and strength on this diet was certainly great. On the day of a field meet in June I weighed 124 lbs. On the opening of the football season in Sept., I weighed 140. I attribute my fine condition and good work to the discontinuation of improper food and coffee, and the using of Grape-Nuts and Postum, my principal diet during training season being Grape-Nuts.
"Before I used Grape-Nuts I never felt right in the morning—always kind of 'out of sorts' with my stomach. But now when I rise I feel good, and after a breakfast largely of Grape-Nuts with cream, and a cup of Postum, I feel like a new man."
"There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.
Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Overlooked.

"I always distrust your judgment for some reason or other, John."
"Yes, and you have reason to; it serves me right!"
"Why, I cannot remember you ever having done anything to justify such a distrust."
"Have you forgotten that I married you?"—Houston Post.

Nothing to Be Thankful For.
Elizabeth's mother did not teach her little daughter much that she should have learned about religion; nor did the father.
"The other day a guest said to the little girl: 'Elizabeth, does your father say grace at the table?'"
"What grace?" returned the girl innocently.
"Why, thanks for what you have to eat."
"Oh," replied Elizabeth, now enlightened. "We don't have to thank any one for what we have—we always pay cash."

STAR

PLUG CHEWING TOBACCO

STAR has for years been the world's leading brand of plug chewing tobacco. Statistics show that about one-fifth of all the chewers of plug tobacco chew STAR.

There's a reason for this enormous and constantly increasing number of STAR chewers, and it's just this—

Star Plug has always been manufactured with one sole object in view—to give chewers the best chew of tobacco it is possible to produce, yet to sell this STAR chew at a moderate price.

More chewers are learning every day that STAR, considered from the standpoint of true merit, has no competitor, and is the one best chew.

For a long time there was a prejudice (which probably still exists) among certain chewers against the use of what is generally termed "Navy Tobacco," because of the impression that all tobacco of that character is too sweet.

It is true that some brands of tobacco, similar in appearance to STAR, are too sweet to please chewers accustomed to the use of tobacco manufactured in thin plugs, but we know that STAR is right in every way.

You use tobacco for the pleasure it gives—**increase your pleasure by chewing STAR!**
