## TRAIN WRECKS ON BRIDGE

Another Woman Dies on Way to the Hospital—Name Not Known.

Greenwich, Conn., July 17.—The White Mountain Express on the New York, New Haven and Hartford road, was wrecked here this morning. One woman, Mrs. Margaret Armstrong of Wayne, Pennsylvania, was killed, and many persons injured.

Another woman is reported to have died on the way to the hospital. Her name has not yet been learned.

The wreck occurred on a bridge over Greenwich avenue and almost in front of the railroad station. There were five parlor cars and all were thrown from the track and overturned, the one in which the fatality occurred being turned completely over.

Every tie on the bridge was torn up and every angle iron on the cars broken.

It is thought that one hundred passengers in the Pullmans, about half the number were more or less injured, although the serious cases may not number more than a dozen.

### Lost Girl Found.

### Strikes Gas at Brownwood.

Brownwood: At a depth of 150 feet a strong flow of gas was struck in the Malone well. The gas could be heard escaping from the well at a considerable distance. As the drill goes deeper the pressure becomes greater. The drill is in the oil rock and it is expected oil will be found before the drill goes much deeper.

## ONE DYING; TWELVE INJURED.

Cars with Strikebreakers Attacked by Union Miners.

Birmingham, Ala., July 18.—Robert Gardner, a Deputy Marshal, fatally wounded, and at least a dozen coal miners more or less seriously shot, is the result of an attack on a train bearing strike breakers to take the places of union miners at Jefferson, near here, today. The train was in charge of thirteen deputies, and was en route to Adamsville. It is said the union miners attempted to induce the strike breakers to leave the train, and threatened to kill them if they went to work. Gov. Comer has ordered a company of cavalry from Montgomery to the scene, and troops already on the ground are under arms and will patrol the district tonight to prevent further disorders. Deputy Gardner, mortally wounded, was brought to Birmingham tonight. Deputy George Smith, accompanying him, estimates that no less than 1000 shots were fired by both sides in the attack on the train.

### Old Muster Roll Found.

Austin: A most interesting document has turned up, being the original muster roll of the Capt. Jonn Williams' company of frontier rangers, which were mustered into service on May 24, 1858, and mustered out on July 24. The muster roll was prepared by Capt. Williams himself and submitted as a report to the Legislature. The rangers were called into service by Gov. Runnels. The document was sent to the Controller by Joe P. Brown of Cherokee, San Saba County, who secured it from the heirs of David S. Hanna. In the Washington report giving the number of men in each company of rangers entitled to pensions under the new law only twenty was the estimate of Capt. Williams' command, but the muster roll received today gives a total of 112 names.

### Many Desertions Reported.

San Salvador: Official reports received here regarding the progress of the revolutionary movement in Honduras give sequence to the occurrences of the last seven days. On July 19 Choluteca was captured by the insurgents and on the 14th instant they took possession of the town of Nacaone. On this date Gen. Dionisio Gutierrez, commanding the government forces, occupied Limon. It is reported that there have been many desertions from his command. On the 15th instant two columns of government troops that were on their way from Ocoatepeque to the disaffected district decided to desert and proclaim Manuel Bonilla President of Honduras, but when these men approached the revolutionary forces one column changed its mind and remained faithful. The other, however, joined the rebels in Coroquin.

### Snakes Fight; One is Eaten.

Paris, Tex.: While C. A. Rainey, living north of Caviness, was in his pasture Friday getting a load of wood his attention was attracted to a bunch of weeds shaking a few feet away, and discovered a king snake and a coachwhip engaged in combat. The king snake was four and one-half feet long and the coachwhip was a foot longer. Suddenly the king snake seized its enemy by the back of the head and quick as lightning tied itself in a knot about the coachwhip's body. After constricting it awhile it began to swallow the coachwhip, commencing at the head.

### Railroads Refuse S. O. Booze.

Guthrie, Okla.: It has been agreed by all railroads entering Oklahoma that henceforth no shipments of liquor into the state will be accepted by them on shippers' orders, a custom claimed to have resulted in much trouble for the railroads since the enactment of the State-wide prohibition law. This agreement will not in all probability, curtail the amount of liquor shipped into prohibition Oklahoma.

Harris of Palestine has been selected by the department to investigate the alleged combine said to exist at Palestine, between the two ice plants at that point. ## TRAIN STRIKES AUTO; SIX ARE KILLED.

Automobile Struck by Passenger Train Going at High Speed.

Columbia City, Ind., July 20.—Six persons were instantly killed when an automobile in which they were riding from Fort Wayne to Lake Wawasee was struck by a passenger train a mile south of here late Saturday afternoon. The dead: Charles S. King, Mrs. Charles S. King, Josephine King, twelve; Catherine King, fourteen; Fama Bradshaw, fourteen; Earl Timmins, chauffeur. All were from Fort Wayne. King and his family and the Bradshaw girl left Fort Wayne shortly after noon and when they reached the railroad crossing where the accident occurred found it blocked by a freight train. The automobile was stopped until the track was clear and immediately afterward the chauffeur started across the tracks. The roar of the departing freight train drowned the sound of a passenger approaching on the opposite track at high speed. When the automobile was in the middle of the track the passenger train struck it with terrific force. The people in the automobile were hurled in all directions and one of them was carried on the pilot of the engine for a quarter of a mile before the train was brought to a stop. All of the victims were prominent in Fort Wayne, being social leaders. The bodies were horribly mangled, nearly every bone in the bodies of two of the children being broken.

### Alamo Guns Unearthed.

San Antonio, Tex.: Ancient cannon used in defending the Alamo have been unearthed at the corner of Houston street and Alamo Plaza. The foundation for a skyscraper is being dug there, and when a depth of about twenty feet was reached the cannon were uncovered.

They were very large, cast iron, and there is no doubt that they are the old Alamo guns, as these relics were buried by the Texans many years ago. They are the property of the Maverick estate, but will probably be given to the State for the purpose of mounting at the Alamo in their original place.

### Boy Falls Fifty Feet.

Chicago, Ill.—Willie Hudson, 14 years old, was watching the struggle between the Chicago and New York National League at the West Side Baseball Park Saturday from the roof of a three-story building near by. In the fifth inning Tinker, the Chicago shortstop, batted the ball far into center field. The Hudson boy jumped up in his excitement and stepped forward, forgetful of his position. ### Monster Devil Fish Landed.

Galveston: Considerable excitement was created among the visitors at the Sea View Saturday by a monster devil coming within ten feet of the bathers in the gulf. Later Judge Votow shot and wounded it near the pier. The news was sent to the hotel, where a bus load of people went at once and helped to kill him and drag him on shore. He was 12 1/2 feet wide, 7 feet long, 44 inches between the eyes and weighed at least 1800 pounds. A strong mule and eight men had all they would do to get him on shore. In appearance he resembles a whale.

Monday the temperature in New York reached 100 degrees and as a result four persons are dead and there were many prostrations.

### Cowards Get in Dirty Work.

Dallas: When the garage of the Maxwell-Handley-Briscoe Automobile Company at Dallas was opened for business Saturday morning it was ascertained that during the night some one had damaged the machines to the extent of more than \$1,500, and possibly as much as \$2,500. More than a dozen of the machines had the tires slashed and cut and the leather seats and backs gashed and sliced. It will be necessary to entirely replace the fittings thus cut.

## SAVED FROM MATERNAL WRATH.

Boys' Fervent Prayer Was Answered in the Nick of Time.

A suburbanite is fond of telling this story of his five-year-old son Bobby. Being of an inquiring turn of mind the youngster one day managed to turn on both faucets in the bathtub to see what would happen. It chanced that the stopper was in place, and the tub rapidly filled up, to the great delight of Bobby. Finally, however, the tub became so full that it threatened to overflow on to the floor, and Bobby, having a proper respect for the maternal slipper, became frightened and tried vainly to turn off the water. Being unable to, for some reason, he gazed tearfully at the ever-rising flood, and then, mindful both of his religious training and the occasional visits of the plumber, he plunged down on his knees, and his elder sister, who happened to be passing at the moment, heard him exclaim, fervently:

"O, Lord, please stop this water running! And, O, Lord, if you can't do it, please send somebody that can!"

His prayer was answered, for his sister rose to the occasion and turned off the water and temporarily saved Bobby from the much-feared slipper.

### A Woman's Duty.

The woman of taste keeps abreast of the fashions in a way—that is, she drops wornout styles and adopts whatever new ones she can adapt to her use. If she can afford it she patronizes first-class dressmakers and gets her money's worth by wearing her clothes two or three seasons without losing her prestige as a well-dressed woman. There is an advantage in this method, as you can see, and I have been told by women who use it that there is economy as well.

It is no economy to save at the expense of good looks. It is a woman's duty to look her best, a duty she owes to her family. If she can secure it by a small expenditure, so much the better, but to save by accepting shabbiness is not creditable save in dire stress of circumstances. Poverty is an excuse for shabbiness and nothing else is accepted by the world, save in the rare cases of shabby millionaires. —Chicago Journal.

### DROPPED COFFEE

Doctor Gains 20 Pounds on Postum.

A physician of Wash., D. C., says of his coffee experience:

"For years I suffered with periodical headaches which grew more frequent until they became almost constant. So severe were they that sometimes I was almost frantic. I was sallow, constipated, irritable, sleepless; my memory was poor, I trembled and my thoughts were often confused.

"My wife, in her wisdom, believed coffee was responsible for these ills and urged me to drop it. I tried many times to do so, but was its slave.

"Finally Wife bought a package of Postum, and persuaded me to try it, but she made it same as ordinary coffee and I was disgusted with the taste. (I make this emphatic because I fear many others have had the same experience.) She was distressed at her failure and we carefully read the directions, made it right, boiled it 15 minutes after boiling commenced, and with good cream and sugar, I liked it—it invigorated and seemed to nourish me.

"This was about a year ago. Now I have no headaches, am not sallow, sleeplessness and irritability are gone, my brain clear and my head steady. I have gained 20 lbs. and feel I am a new man.

"I do not hesitate to give Postum due credit. Of course dropping coffee was the main thing, but I had dropped it before, using chocolate, cocoa and other things to no purpose.

"Postum not only seemed to act as an invigorant, but as an article of nourishment, giving me the needed phosphates and albumens. This is no imaginary tale. It can be substantiated by my wife and her sister, who both changed to Postum and are hearty women of about 70.

"I write this for the information and encouragement of others, and with a feeling of gratitude to the inventor of Postum."

No, we don't publish all the news. If we did, there would be a dead editor in about two hours after the paper was issued. Several fellows have been on a drunk here lately and have acted after the manner of men who made hogs of themselves, but we would be taking chances of losing a very valuable scalp if their names were published. When we get time to clean the office gun and the weather gets cool so a horse rasp can be hid under our coat-tail, we shall take the liberty of freely using the name of every drunk as a current news item. But it is too hot now to wear a coat and our readers will have to forego the pleasure of seeing who was drunk this week.

NOTICE TO SCHOOL PATRONS

We take this means of giving notice that we will no longer handle the State Adopted School Books. The publishers made demands of us in the way of bonds to be made, freights to be paid and discounts allowed or rather not allowed which are prohibitory conditions, you can order them and get them here as cheaply as we can. We have always handled these books since the first law was enacted and at a considerable loss, but the margin is still lower this time than before and the loss will be too great. One cannot run a legitimate business without profit, and all over the state we notice that many who have heretofore handled these books are doing so no more. We give you this notice in time so that no one will be disappointed and that you will have ample time to make arrangements, and for the benefit of those who will want to order books, or any other dealer who might want to handle them. We give below a list showing where the different books may be bought. For the following address Hugh Perry Dallas, Texas.

We will as heretofore carry a full line of school supplies such as pens, inks, tablets, composition books, paper and the books used in the schools which are not in the adopted series, and will sell them at fair and honest prices, but we absolutely will not handle or order the State adopted books. The law is so oppressive that we cannot stand it and the sooner the public finds out the sooner there will be some remedy provided.

FULL RENDITION LAW

Yes, we believe in the full rendition law—not as it is, but as it should and will be. All property of whatsoever kind should be rendered for taxes at its full cash value based on what it would bring in the open market. The rates for school, state and all other funds should be cut and limited so that no unjust burden could be placed on the tax payer. In other words the law should be so fixed that the tax payer would be protected against having to pay more for giving a full value on his property than he would if he only gave it in for a fractional part of its value. Until this is done, some will have to pay more taxes on the same value than others. The tax dodger will shift the burden on the shoulders of his neighbor and discontent will reign supreme. The law should be so fixed that the value set opposite the item of the chattel rendered for taxes by its owner on the assessor's rolls would be a guarantee to every man that it was its true value. We hold that nothing but the plain unvarnished truth should be written in our records and that they should be an index and a testimonial of our honesty and integrity. If a chattel is worth a hundred dollars in the market and it is written in the tax record that it is only worth twenty dollars, the record is a falsehood on its face and bears witness that we are not only dishonest, but untruthful. If we fill our public records with rank misstatements about the value of our goods, of what value are they? A record that is a false record is not worth a whoop at a bonfire.

We honestly believe that every man, no matter who he is, or what he follows for a living, should bear his part of the public burdens. Because a man owns land, livestock, money, bonds or merchandise is no reason why he should have to pay more than his brother. To illustrate: Jones, Smith and Brown have cashed out their property in the east and come to Sterling and each place a thousand dollars in the bank—making three thousand dollars in all. On the first of December Jones buys 100 yearling at \$10. per head, on the 30th day of the same month Smith buys 100 acres of land at \$10. per acre, while Brown loans his money out and takes a note for it for \$1000.

On the first day of April—All Fools Day, the assessor come around and says, "Jones, how many yearlings have you?" "One hundred," says Jones. What are they worth? "Eight dollars" says Jones, and down on the rendition list goes Jones' \$1000 investment for \$800. "Smith, how much land did you own the first day of January?" "One hundred acres." "All right," and 100 is written in the "acre" column. "What is it worth, Mr. Smith?" "Well," says Smith, "what are you taking such land as mine at?"

The assessor looks on his list of values made by the equalization board of this tract of land last year, and he finds it valued at \$200 per acre. "Two dollars," says the assessor and he writes \$200 in the "value" column.

"Say Mr Brown, I am assessing taxes, please give in your property." No goats, no hogs, no ships no franchises, but Brown has a good, well secured note for \$1000 and the assessor writes in his list "1 note, \$1000."

Now let us see how this \$3000 is delved with and how the rendition list foots up and who totes the heavy end of the pole. Brown renders \$1000, Smith renders \$200, and Jones renders \$800, worth of property making a total of \$2,000, rendered for taxes, out of the \$3,000. \$1,000. es cape taxation, and when pay day comes, we make Brown pay \$10. on his note, Smith \$2. and Jones \$8. and yet they all three had the same amount of money invested.

Is there anyone who will say that this is justice, does anyone pretend to advocate such partiality or is contented with such a state of affairs? Yet, our public records will bear us out that such a state of affairs exist.

Our officers are not to blame for it for they do the best they can under the law. But the fault lies with the law, the fear of being mulched by fixed rates drives us all to cheat in self defense. Under the present rates, a premium is on the shirker and dodger. If the people were assured that they would not be robbed, they would take a pride in giving truthful renditions but as long as there is a chance for one man or county to pay more than its share of taxes to the state than others, that long will falsity be written in our record books.

Money hides from the tax assessor. Why? Because it is taxed 100 cents on the dollar, while other property of the same value is not taxed for half its value. No wonder money hides out. What is the remedy? Give the people to understand that they will not be punished by giving full value to their property and we shall see full renditions and full values given.

**ITCHING HUMOR ON BOY**

His Hands Were a Solid Mass, and Disease Spread All Over Body—Cured in 4 Days By Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Donahue, 295 Fremont St., Kokomo, Ind., Sept. 16, 1907."

Had Been Attended To. An Italian went up to the civil service commissioners' rooms in the federal building the other day to be examined for a laborer's position. Scratcha de arm. Yes, lasta week."—Philadelphia Ledger.

**STAR PLUG CHEWING TOBACCO**

STAR has for years been the world's leading brand of plug chewing tobacco. Statistics show that about one-fifth of all the chewers of plug tobacco chew STAR.

There's a reason for this enormous and constantly increasing number of STAR chewers, and it's just this—

Star Plug has always been manufactured with one sole object in view—to give chewers the best chew of tobacco it is possible to produce, yet to sell this STAR chew at a moderate price.

More chewers are learning every day that STAR, considered from the standpoint of true merit, has no competitor, and is the one best chew.

For a long time there was a prejudice (which probably still exists) among certain chewers against the use of what is generally termed "Navy Tobacco," because of the impression that all tobacco of that character is too sweet.

It is true that some brands of tobacco, similar in appearance to STAR, are too sweet to please chewers accustomed to the use of tobacco manufactured in thin plugs, but we know that STAR is right in every way.

You use tobacco for the pleasure it gives—**increase your pleasure by chewing STAR!**
