A COOL **PROPOSITION**

And a Sure One.

The Body Does Not Feel Heat Unpleasantly if it has Proper Food-

Grape-Nuts

People can live in a temperature which feels from ten to twenty degrees cooler than their neighbors enjoy, by regulating the diet.

The plan is to avoid meat entirely for breakfast; use a goodly allowance of fruit, either fresh or cooked. Then follow with a saucer containing about four heaping teaspoonfuls of Grape-Nuts, treated with a little rich cream. Add to this about two slices of crisp toast with a meager amount of butter, and one cup of well-made Postum.

By this selection of food the bodily energy is preserved, while the hot, carbonaceous foods have been left out. The result is a very marked difference in the temperature of the body, and to this comfortable condition is added the certainty of ease and perfect digestion, for the food being partially predigested is quickly assimilated by the digestive machinery.

Experience and experiment in food. and its application to the human body has brought out these facts. They can be made use of and add materially to the comfort of the user.

The resolutions are identical and provide first for the ratification of the amendment and second for the transmittal by the Governor of certified copies of the joint by a rising vote. resolution to the President of the United States, the Secretary of State of the United States and the presiding officers of the National Senate and House of Representatives.

The amendment proposed at the purated in the joint resolution. It gives to the Congress the power to levy and collect taxes on incomes from whatever source derived without apportionment among the several States and without regard to any census or of 102 to 11. enumeration. The amendment has been thus far ratified by but a few States. Three-fourths of the States through their Legislatures must indorse the measure before it becomes a part of the organic law of the Nation. The joint resolutions were referred, after reading, to the Committee on Constitutional Amendments.

The Senate notified the House of the passage of the House bill making appropriations for enlarging the negro wards of the Austin Insane Asylum. The bill is now ready for signing.

The authors of a measure are Messrs. Looney, Vaughan, Baker of Hood. Tarver and Kennedy.

It is proposed to change the plan of nominations for State and district offices only and to leave the County Executive Committees, as the law now provides, to determine whether they shall require the majority or the purality method of nomination. Because very few persons remember the name or residence of the State chairman and confusion and delay are thereby caused in getting returns to the committee, it is stipulated that returns shall be sent by the county chairmen to the Secretary at Austin, who shall deliver them on demand to the State chairman or to the State committee. Contrary to expectation, no provision is made to reduce campaign expenses, but this probably will be suggested by amend ments before the committee or on the floor of the House.

PRECIOUS METAL IN BELLS. Many of Those Hanging in Mexican Churches Are Worth Large Sums

of Money Commercially.

"Many of the church bells in the republic of Mexico are of copper, which also carries a large quota of silver and gold, and consequently they are worth a great deal of money," said Mr. Peter J. Thrasher, a mining engineer of St. Louis.

"Not long since while in the state of Guadalajara I was present at the sale of a bell of one of the historic Catholic churches for \$2,500. The good fathers did not wish to part with it, as it had summoned their people to mass and vespers for generations, but the church was poor and the money sadly needed. The bell will be thrown into the melting pot of the local smelter and no doubt the buyers will realize a good profit on their investment, for it is a big affair and has much precious metal.

"It may be that this will set a precedent and that many similar sales will occur, for there are hundreds of ancient copper bells of 'God and Liberty.' It will be a good way to relieve depleted treasuries, and iron bells will answer every pur-

NEW TYPE MOTOR CAR ORDERED BY SANTA FE

POSSIBILITY THAT SANTA FE WILL ESTABLISH NEW GAL-VESTON-HOUSTON SERVICE

CAR TO ARRIVE THIS WEEK

Its Introduction Would Meet Coming Interurban Competition and Give Santa Fe Advantage of Rivals

Galveston: Aug. 8: It is now practically certain that the Gulf, Colorado and Santa Fe is seriously contemplating the installation of gasoline motor passenger coaches between Galveston and Houston to meet the coming competition of the Galveston-Houston interurban and to score against its old rival in the intercity traffic, which has long held the advantage of several miles shorter trackage between the two points. Vice President and General Manager F. G. Pettibone is out of the city on a business trip, but his assistant, J. H. Keefe when questioned Saturday as to the possibility of such a service, said that one of the new motor cars had been

ordered for the Gulf lines. "In fact, the car will probably arrives some time during the coming week," said Mr. Keefe.

"Will it arrive at Galveston or Houston?" he was asked.

"I am not in a position to announce "Willy, I'm deein', and as ye'll hae the its destination beyond the fact that charge o' a' I have, mind now that as it is billed to the Gulf lines," said Mr.

This statement, while it precludes the present official announcement of the new service, is, nevertheless, ento give every mourner as much as he lightening as to the possibilities that are now existant for a variety of ways in which the Galvestonian and Houstonian in the immediate future can go from city to city. There has been a persistent rumor for the last few days to the effect that the Santa Fe was going into this new venture, and more than a little color is added to it by the pending arrival of the new car. This form of motive power has been already tried out on the Santa Fe system, hav-Omaha, Neb.

Texas Dry Farming Congress.

El Paso: On Aug. 17 the Texas Dry Farming Congress will be meeting in Eagle Pass in second annual session. Organized only a year ago at Alpine, Texas, the congress has enlisted much interest throughout West Texas in particular. Since its formation the State Agricultural Commissioner, Hon. Ed R. Kone, has begun preaching the doctrines of scientific farming, and the adherents of the plan are becoming more numerous daily. The Texas organization is a branch of the International Dry Farm Congress.

Retail Hog Prices Advance.

St. Louis, Mo .: Notwithstanding there has been during the last three months a drop of more than \$2 a hundred pounds in the price of hogs received at market points, the retail price of hog products has advanced. The unfortunate ultimate consumer who timidly walks into the corner grocery or meat market to buy the raw materials for his scanty meal must now pay as much with choice corn-fed hogs fetching but \$9, as he did when the "war prices" of \$11.25 prevailed.

Party Tickets Had Changed Somewhat Since the Old Gentleman Handed Out Advice.

Everybody who had known old Henry admired him for the charity of his tongue when he spoke of his neighbors. It was his most marked characteristic-except the independence which he manifested in his political affiliations. It made a young man who was visiting in the neighborhood curious, and one day he managed to lead up to the subject and ask the old man what had taught him to keep such a good watch on his tongue.

"It was my father," replied the old man, quietly. "A splendid man, as I remember him. He always disliked to hear folks gossipping unkindly about each other. I've seen him, when they began it, get on his feet, just like a cow grazing and gradually working toward a hole in the fence, and before any one knew it he'd be out of the room, so's he couldn't hear 'em.

"He talked to me about it. 'Henry.' he'd say, 'when you're of age never say anything about a man if you can't say good of him, and always vote the straight party ticket'.'

"But you don't vote that way." "Well, sir," said Henry, "you see my father said the straight party ticket, and when I came along to vote, the pesky thing had got so crooked that I don't believe he'd have recog-

THE BEST OF ITS KIND

Is always advertised, in fact it only pays to advertise good things. When you see an article advertised in this paper year after year you can be absolutely certain that there is merit to it because the continued sale of any article depends upon merit and to keep on advertising one must keep on selling. All good things have imitators, but imitations are not advertised. They have no reputation to sustain, they never expect to have any permanent sale and your dealer would never sell them if he studied your interests. Sixteen years ago Allen's Foot-Ease, the antiseptic Powder for the feet, was first sold, and through newspaper advertising and through people telling each other what a good thing it was for tired and aching feet it has now a permanent sale, and nearly 200 so-called foot powders have been put on the market with the hope of profiting by the reputation which has been built up for Allen's Foot-Ease. When you ask for an article advertised in these papers see that you get it. Avoid substitutes. THE BEST OF ITS KIND substitutes.

What They Did With Them. An American who spends much of his time in England tells of a cockney who went to a dealer in dogs and thus

described what he wanted. "Hi wants a kind of dog about so 'igh an' so long. Hit's a kind of gr'y'ound, an' yet it ain't a gr'y'ound, because 'is tyle is shorter nor any o' these 'ere gr'y'ounds, an' 'is nose is shorter, an' 'e ain't so slim round the body. But still 'e's a kind o' gr'y'hound. Do you keep such dogs?" "We do not," said the dog man. "We drown 'em."
