DAME NATURE HINTS When the Food Is Not Suited.

When Nature gives her signal that something is wrong it is generally with the food. The old Dame is always faithful and one should act at once.

To put off the change is to risk that which may be irreparable. An Arizona man says:

"For years I could not safely eat any breakfast. I tried various kinds of breakfast food, but they were all soft, starchy messes which gave me distressing headaches. I drank strong coffee, too, which appeared to benefit. me at the time, but added to the headaches afterwards. Toast and coffee were no better, for I found the toast very constipating.

"A friend persuaded me to quit the old coffee and the starchy breakfast foods, and use Postum and Grape-Nuts instead. I shall never regret taking his advice. I began using them three months ago.

"The change they have worked in me is wonderful. I now have no more of the distressing sensations in my stomach after eating, and I never have headaches. I have gained 12 pounds in weight and feel better in every way. "Grape-Nuts make a delicious as well as a nutritious dish, and I find that Postum is easily digested and never produces dyspepsia symptoms."

Prize Fighting and Prayer.

The little son of Nelson T. Wender of Seattle has been trained by his father to box. He is only six years of age. His father puts the gloves on with him and usually, after a few rounds, holds him down on the floor until he counts him out in the regular fashion of:

'One-two-three-"

One night the youngster knelt down at his mother's knee to say his prayers and he began:

"Oh, Lord, one-two-three-fourfive

Then he remembered himself and
