COFFEE WAS IT.

People Slowly Learn the Facts.

"All my life I have been such a slave to coffee that the very aroma of it was enough to set my nerves quivering. I kept gradually losing my health but I used to say 'Nonsense, it doesn't hurt me.'"

"Slowly I was forced to admit the truth and the final result was that my whole nervous force was shattered."

"My heart became weak and uncertain in its action and that frightened me. Finally my physician told me, about a year ago, that I must stop drinking coffee or I could never expect to be well again."

"I was in despair, for the very thought of the medicines I had tried so many times nauseated me. I thought of Postum but could hardly bring myself to give up the coffee."

"Finally I concluded that I owed it to myself to give Postum a trial. So I got a package and carefully followed the directions, and what a delicious, nourishing, rich drink it was! Do you know I found it very easy to shift from coffee to Postum and not mind the change at all?"

"Almost immediately after I made the change I found myself better, and as the days went by I kept on improving. My nerves grew sound and steady, I slept well and felt strong and well-balanced all the time."

"Now I am completely cured, with the old nervousness and sickness all gone. In every way I am well once more."

It pays to give up the drink that acts on some like a poison, for health is the greatest fortune one can have. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Instant death was the portion of T. H. Skaggs of Dallas, driver of W. H. Bertrand's Simplex 90, in a 200-mile free-for-all race as the final and only real event of the three days' race meet in Amarillo.

Dr. Grant sold a bale of cotton in Texarkana for 27c a pound, the highest price that has been paid here in several years. The cotton was long staple and was raised on the doctor's farm, a few miles from town.

Richard A. Hallinger, secretary of the Interior, was one of eleven passengers who were more or less seriously injured in the wreck of two passenger trains, which met in a head-on collision in the outskirts of Cincinnati, O.

Stubbornly contesting every point, attorneys for the State of Missouri and the railroads therein this week began argument before the Supreme Court of the United States in Washington as to the validity of the 2c passenger rate and maximum freight rate laws of that State, passed in 1907.

Porter Charlton, confessed slayer of his wife, Mary Scott Charlton, was ordered turned over to the Federal authorities in New York in the proceedings which had been instituted for his extradition to Italy. Judge Blair of the New Jersey Supreme Court declined to release Charlton.

A new hospital, the most completely equipped building of its kind in the world, is to be opened in New York City this week. It is an integral part of the Rockefeller Institute for Medical Research, and its aim will be "the intensive study of a few selected diseases."

In refusing a mandamus asked by the relator in the case of Robert Ashford vs. John W. Goodwin, from Coleman County, in which it was prayed that Goodwin, who is District Judge, be compelled to hear an election contest case in vacation time, Associate Justice Brown of the Supreme Court held that the Legislature had no authority under the Constitution to require District Judge to review election contest cases in vacation time.

A state of increasing excitement prevails in Barcelona. The success of the revolution in Portugal appears to have fanned the fire of rebellion that has smoldered since the furious outbreak of a year ago. There is the greatest animation in the streets.

The contest committee of the Automobile Club of America acted favorably upon the application of the Savannah Automobile Club and the municipal authorities of that city to transfer the grand prize automobile race from Long Island to Savannah.

Beaudette, Spooner, Graceton and Hite, Minn., were wiped off the map by a forest fire. The bodies of seventy-five settlers have been located, and it is thought the death rate among the settlers will be upward of 300. Wagon loads of human bodies are being brought into the railroad station at Beaudette. It is reported that many settlers, crazed with grief at the loss of families and property, are roaming the woods, and searching parties are constantly going out looking for the injured, the dead and the dejected. One family of nine, one of seven and one of five were destroyed on Friday night.

The most spectacular and thrilling aeronautic feats ever witnessed at an aviation meet in the United States marked the opening Saturday of the International Aviation Congress, Kinlock Park, St. Louis County. The arrival of Arch Hoxsey in a record-making flight of 164 miles from Springfield, Ill., was amid the coveting welcome of three biplanes, 1,000 feet in mid air.

WALTER WELLMAN CROSSING ATLANTIC

WITH CREW OF FIVE IS BELIEVED TO BE ON EPOCH-MAKING VOYAGE.

IN BIG BALLOON "AMERICA"

Numerous Messages Indicate Ship is Having Easy Sailing With the Wind.

Atlantic City, N. J., Oct. 17: Sailing into a thick fog that hung low over the Atlantic Ocean early Saturday Walter Wellman, with a crew of five men, is believed to be on an epoch-making voyage in the huge cigar-shaped airship America.

Starting from the beach a few minutes after 8 o'clock, the big air craft was soon out of sight of the cheering crowd that saw the big balloon go into the air. Since then no one with the possible exception of ships at sea has seen the strange craft and the only word from her came by means of the wireless telegraph.

Numerous wireless messages were received from the airship during the day and the latest indicated that Wellman is easily sailing through the darkness of the New York coast.

The men who are making aeronautic history in first over-ocean flight of an airship are Walter Wellman, commander; Melvin Vaniman, chief engineer and next in command; E. Murray Simonds, navigator; J. K. Irwin, wireless operator; John Aubert and Albert Louis Loud, assistant engineers.

The start of the America was one of the most dramatic ever occurring in this care-free resort of frequent sensations.

Roundly criticized by people who did not believe he would ever undertake what was thought to be a foolhardy venture, Wellman started the whole island by bringing the America out of the hanger and without ceremony going into the air.

Day after day it was announced that a trial flight would be made as soon as conditions were perfect. Early this week it was announced that the airship would positively make a trial flight, and when no effort was made to bring the ship out of the big shed criticisms of Wellman became stronger.

It was about 4 a. m. Friday when the final decision to go up was made by Chief Engineer Vaniman. All night he had watched the weather and as dawn broke he decided that now was the time. Arousing the crew, who slept in the hanger, Vaniman called Wellman on the telephone and notified him that the time to start had arrived.

Hastily jumping into his khaki uniform, Wellman summoned the members of his family and soon was on the way to the inlet in an automobile. Vaniman was also busy. Calling up Mayor Stoy and the Chiefs of the fire and police departments, he promised Vaniman to help get the big airship out. When all arrived and all was ready to move the great gas bag the policemen and firemen were instructed as how to hold down the immense balloon. Slowly it was warped out of the shed, great care being taken not to rip the heavy silken bag.

Siasconset, Mass., Oct. 17: Somewhere east of Nantucket Island, off the coast of Massachusetts and approximately 300 miles from Atlantic City, the starting point, Walter Wellman's airship America signaled a wireless "all's well" and a good-bye at 12:45 o'clock Sunday afternoon and swung on up the coast through the fog. The message was received here by A. H. Ginman, the Marconi operator, who had been on the alert since dawn.

At 9 o'clock Siasconset first came into touch with the giant dirigible. Then, although the wireless range of the craft is comparatively short, owing to the necessarily limited power and antennae, the station was surprised to hear its call, "MCS," clear and strong, followed by "W," the code signal, from the airship.

Judging from the strength of the signals it was assumed that the America was in close proximity to Nantucket, and immediately all the life saving stations and light houses on the island were notified by telephone to keep a sharp lookout.

But the fog which had enshrouded the America since its departure Saturday morning still hung over the ocean, shutting off the view. The Marconi station, however, began a rapid fire of interrogations and learned from Jack Irwin, the America's operator, that the ship's motor had been stopped and that the dirigible was heading east-northeast and making twenty-five miles an hour with the wind.

Fatal Wreck on the Katy. Gainesville: The Missouri, Kansas and Texas special, which was put into service between this city and Dallas was wrecked on the return trip Sunday night when nearing the city limits of Gainesville. The special left Dallas at 7 a. m. and was due to arrive here at 10:45, and was running on time. Fireman C. D. Corbin of this city was instantly killed and Engineer Jack Crofton of Dallas was severely scalded and bruised about the legs and body.

HIS HANDS CRACKED OPEN

"I am a man seventy years old. My hands were very sore and cracked open on the insides for over a year with large sores. They would crack open and bleed, itch, burn and ache so that I could not sleep and could do but little work. They were so bad that I could not dress myself in the morning. They would bleed and the blood dropped on the floor. I called on two doctors, but they did me no good. I could get nothing to do any good till I got the Cuticura Soap and Cuticura Ointment. About a year ago my daughter got a cake of Cuticura Soap and one box of Cuticura Ointment and in one week from the time I began to use them my hands were all healed up and they have not been a mite sore since. I would not be without the Cuticura Remedies. They also cured a bad sore on the hand of one of my neighbor's children, and they think very highly of the Cuticura Remedies. John W. Hasty, So. Edingham, N. H., Mar. 5, and Apr. 11, '09."

Popularity of Thais.

"Every other young actress is calling herself 'Thais,'" said Henry E. Dixey at a dinner at Mauguin's. "Thais McGinnis, Thais Endicott, Thais Schmidt—the thing is universal. 'Universal and ridiculous; for they who have read Anatole France's story of 'Thais' know that she was a very naughty little girl. Indeed, I am quite sure that no real reader of 'Thais' would ever, under any circumstances, consent to be called such a name. It makes me think of a man who, taking his infant daughter to be baptized, told the clergyman to call her Venus. 'But I refuse to call her Venus,' said the clergyman, indignantly. 'Venus is the name of a pagan goddess.' 'Well, how about your own girl, Diana?' said the man."

ELECTION NOTICE

Whereas a petition signed by Emette Westbrook and other property tax paying voters of Sterling county has been presented to this Court praying that an election be ordered for the purpose hereinafter stated.

Therefore it is hereby ordered by the Commissioners Court of said county that an election be held on the 8th day of November, 1910, at which election the following proposition shall be submitted: That the Commissioners Court of the county of Sterling be authorized to issue bonds of said county to the sum of Ten Thousand Dollars, payable in forty years after date, bearing interest at the rate of 5 per cent per annum, payable annually, and to levy a tax sufficient to pay the interest on said bond and create a sinking fund sufficient to redeem them at maturity, for the purpose of building, planning, equipping and furnishing a jail for said Sterling county.

Said election shall be held at the various voting places in Sterling county, to-wit: The court house in Sterling City, precinct No. 1; Mulberry School House, precinct No. 2; China Valley School House, precinct No. 3; Divide School House, precinct No. 4; Kellie School House, precinct No. 5; Lohanthe School House, precinct No. 6; Lacy School House, precinct No. 7; Sterling Creek School House, precinct No. 8; and the following named persons are hereby appointed managers of said election: W. L. Foster, presiding judge, T. J. Strayer, ass't judge, precinct No. 1; J. L. Cleveland, presiding judge and J. R. Welch, ass't judge, precinct No. 2; R. T. Martin, presiding judge and G. B. Stanton, ass't judge, precinct No. 3; F. M. Jackson, presiding judge and R. Howell, ass't judge, precinct No. 4; J. W. Reynolds, presiding judge and W. T. Brown, ass't judge, precinct No. 5; F. M. Askey, presiding judge and J. K. Copps, ass't judge, precinct No. 6; R. C. H. Hines, presiding judge, precinct No. 7; J. F. Foster, presiding judge, J. H. Bugg, ass't judge, precinct No. 8.

Said election shall be held under the provisions of the general laws of the state, and only qualified voters, who are property tax payers of said county shall be allowed to vote. An said proposition and all voters desiring to support the proposition to issue bonds shall have printed on their ballots the words, "For the issuance of bonds in the sum of \$10,000 for the purpose of constructing and maintaining graveled or paved roads, or in aid thereof," and those opposed shall have printed on their ballots the words, "Against the issuance of the bonds in the sum of \$10,000 for the purpose of constructing and maintaining graveled or paved roads, or in aid thereof."

A copy of this order signed by the county judge of said county shall serve as proper notice of said election, and the county judge is directed to cause said notice to be published in the News-Record, a newspaper published in said county, for four consecutive weeks, and in addition to be posted in public places in said county, one of which shall be at the court house door for four weeks prior to said election.

Therefore it is hereby ordered by the Commissioners Court of Sterling county, Texas, that an election be ordered to be held at the various voting places in said county on Tuesday, November 8th, 1910, at which said election the proposition shall be submitted, to-wit: That the Commissioners Court of Sterling county, Texas, be authorized to issue bonds of said county to the sum of Ten Thousand Dollars, payable in forty years after date, bearing interest at the rate of 5 per cent per annum, payable annually, and to levy a tax sufficient to pay the interest on said bond and create a sinking fund sufficient to redeem them at maturity, for the purpose of building, planning, equipping and furnishing a jail for said Sterling county.

A HOG SNAKE

We have heard and read of the hog snake often, but we never saw one until last Saturday when Rue Cole brought one to town which he captured on the J. B. Cole farm two miles west of town.

This reptile is about two feet long and has markings that somewhat resemble a rattlesnake. It has a short, thick tail and a head that very much resembles one of that of a hog. The "croaker" or snout, on the end of his nose is a bony protuberance that serves the purpose of a digging tool.

When let out of the glass jar in which he was captured, he soon buried himself in the loose earth.

The food of this reptile is bugs and worms which live in the ground and in hunting for these, he makes a tunnel in the earth after the manner of a mole.

Your Boy's Life's Work

What Shall It Be?

TECHNICAL TELEPHONY
Sounds formidable, doesn't it?—But the big telephone companies conduct schools to teach it to aspiring youngsters, and pay them a weekly wage to boot—Going up the ladder and through the school at the same time—The big prizes, and other positions of authority that pay well—The only preliminary to taking up technical, or plant, telephony is a rudimentary education.

By C. W. JENNINGS.

AST week I told how a boy, starting in as a messenger at a few dollars a week, with application and ambition could make himself a power on the commercial side of the telephone industry, now rapidly spreading to every nook and cranny of this country. Today, I purpose telling how a boy, who doesn't know the first thing about a telephone principle to begin with, can equip himself for high office and influence on the purely physical, or technical, side of the industry.

Technical telephony—sounds formidable, doesn't it, especially when you recall that your boy has never displayed, to your certain knowledge, any pronounced leanings to study anything from the mechanical or technical side. But don't worry, notwithstanding, if your boy makes up his mind that he would like to take up technical telephony. Provided he is about 18, has a rudimentary education, and is chock full of ambition and determination to get ahead, the telephone company will see to it that he gets the necessary technical knowledge, that he may be of value to them and to himself. And if, in good time, he reaches a position of great power in the company he will not have been the first youngster to mount the same ladder to success.

Your boy, then—its having been decided that he is going to make a determined effort to learn everything possible to be learned about the physical side of the telephone business—applies to what is known as the plant department, the particular and distinctive branch of the industry that installs the telephones and keeps them in good working order 365 days in a year. At once, he doubtless will be surprised to learn that he has to begin by going to school; and his second surprise will come when he is told that, nevertheless, and notwithstanding, he will be an employee of the company and will actually be paid a weekly wage while he is being instructed in the ab's of technical telephony.

The pay of the pupil varies from \$5 to \$10 a week at the start, according to the city in which he begins his life's work studies. In almost every one of the big cities throughout the country the telephone company operating therein maintains a regular school of instruction in connection with its plant. The school in New York city, where there are 340,000 telephones in use, is typical of all the others, and so its methods and lines of advancement therefrom, are here described.

The school is in charge of an instructor, who, of course, teaches everything there is to be learned about putting the instruments together (assembling, it is called); how the wires are connected properly, and how to install them and the instruments in a building and fix them ready for use. After two or three weeks of instruction, demonstration, and listening to lectures, the boy will know enough to be sent out as a helper to one of the regular installers.

An installer makes connection with the outside wires or cables at the entrance of a building, continuing them beneath mouldings and through walls to the particular room in which the phone is to be installed. Then, when everything is ready, he connects the phone itself with the rest of the system and turns it over, ready for use, to the traffic department. He is a very important factor in the telephone industry.

As a helper to an installer your boy will receive probably \$5 or \$10 a week. His work as a helper will continue for several months, and all the time he will be getting more advanced instruction in the school, learning down to the uttermost detail the internal construction of the instrument himself. Perhaps, by the time he has mastered this bit of technical knowledge he is receiving \$12 a week, as reward for work well done and lessons well learned; and then, one fine morning, he walks into the office to find himself promoted to be an installer, with a helper under him, at \$15 or \$18 a week.

After a month or so of actual installing, for which he alone is responsible, he is given still more technical training in the school. This time he learns the principles of telephone construction and operation, and also how to wire up and connect what are known as private branch switchboards, the central distributing points in buildings and offices that have numerous branch telephones running from one room or apartment, or desk, to another. After he has proved to the head of the school his ability to do such work practically, he becomes an installer of private switchboards, or exchanges, as they are popularly called, at about \$25 a week.

So he goes on through the various carefully graded courses of the school, until he knows all the basic phases of the technical work of telephony, including the details of the sickle-

DOCTORS FAILED AGAIN-- THE GREAT KIDNEY REMEDY SAVED HIM

About ten years ago I suffered severely with inflammation of the neck of the bladder and was also troubled considerably night by numerous desires to urinate.

One night I was compelled to get up from my bed nineteen times. I had several doctors but their prescriptions seemed to have but little effect. At last upon the recommendation of a friend I tried Dr. Kilmer's Swamp-Root and found immediate relief.

I began to get well after the first half dozen doses, and am now in an ordinary state of good health. I consider Swamp-Root cured me and I believe it is a fine tonic and an unrivaled bladder remedy. You may publish this statement at any time or place you may wish.

He Knew.
A small boy brought up by a fire-nurtured father to hate anything connected with England or the English was consigned recently to eat dinner with the nurse while the family entertained a genuine English lord in the dining room. The grown-ups' meal had come to that "twenty minutes past" stage where conversation halts directly, when a childish treble fell upon the dumb-waiter shaft from the kitchen. This is what the astonished nobleman heard:
"Fe, fi, fo, fum."
"I smell the blood of an Englishman."—Wasp.

CHEERFUL WORDS FOR SUFFERING WOMEN.
No woman can be healthy with sick kidneys. They are often the true cause of bearing-down pains, headaches, aches, dizziness, nervousness, etc. Keep the kidneys well and health is easily maintained. Doan's Kidney Pills make strong, healthy kidneys.

Mrs. Joseph Gross, Church St., Morriston, Ark., says: "My ankles were swollen and my back was so painful I could not straighten. I was treated by six doctors without relief. Since using Doan's Kidney Pills, I have nothing to complain of."

Childlike Ignorance.
Laura Jean Libbey, residing in Brooklyn, her successful appearance on the stage, said:
"I talk in my monologue about love, marriage and the other interests of the heart. On these subjects women, especially young women, are strangely ignorant."
"They really make me think, you know, of the little girl who was asked by her teacher:
"What can you tell us about Solomon?"
"Solomon," replied the little girl, "was very fond of animals."
"And how, my dear," said the teacher, "do you make that out?"
"Because," answered the little girl, "the Bible says he had 600 porcupines."

Free Blood Cure.
If you have pimples, offensive eruptions, itchy sores, catarrhs, itching, eczema, suppurating swellings, bone pains, not skin, or if your blood is thin or impure, then Botanic Blood Balm (B.B.B.) will heal every sore, stop all itching and make the blood pure and rich. Cures after all else fails. \$1.00 per large bottle at all drug stores. Sample free by writing Blood Balm Co., Atlanta, Ga., Department B.

Tit for Tat.
Lloyd C. Griscom, in an interview in New York, said of party dissensions:
"They are animated by a nasty spirit, a tit-for-tat spirit; and they go from bad to worse."
"It's like the case of the engaged couple at the seaside dance. The young man, a little jealous, said coldly to his fiancée at supper:
"Let me see—was it I kissed in the conservatory?"
"About what time?" the young girl answered, with a little laugh."

A TRAIN LOAD OF TOBACCO.

Twenty-four Carloads Purchased for Lewis' Single Binder Cigar Factory.

What is probably the biggest lot of all fancy grade tobacco held by any factory in the United States has just been purchased by Frank P. Lewis, of Peoria, for the manufacture of Lewis' Single Binder Cigars. The lot will make twenty-four carloads, and is selected from what is considered by experts to be the finest crop raised in many years. The purchase of tobacco is sufficient to last the factory more than two years. An extra price was paid for the selection. Smokers of Lewis' Single Binder Cigars will appreciate this tobacco.

AS SOON BE WITHOUT MATCHES AS WITHOUT RESINOL IN THE HOUSE.
Resinol is the never failing article resorted to by my wife for the many bruises, chaffings, cuts, burns and accidents of the children and has been our cure-all for years. I have used it in cases of irritation and inflammation and have invariably been relieved almost instantly. We would as soon think of being without matches in our house as without Resinol Ointment.

Prudent Bridegroom.
"The uncertainties of life in New York are reflected in wedding rings," said the jeweler. "Of all the wedding rings I have sold this season more than half were brought back after the ceremony to have the date put on. The rest of the inscription was engraved when the ring was purchased, but in order that the date might be correct it was cautiously omitted until after the knot was tied."

Facts for Weak Women
Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription
It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modern woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only, or in cloth binding for 31 stamps.

CONVINCING PROOF

OF THE VIRTUE OF Lydia E. Pinkham's Vegetable Compound

What is the use of procrastinating in the face of such evidence as the following letters represent? If you are a sick woman or know one who is, what sensible reason have you for not giving Lydia E. Pinkham's Vegetable Compound a trial? For 30 years we have been publishing such testimonial letters as these—thousands of them—they are genuine and honest, too, every one of them.

Mrs. S. J. Barber says:
"I think Lydia E. Pinkham's Vegetable Compound is the best medicine for women—and I feel it my duty to let others know the good it has done for me. Three years ago I had a tumor which the doctor said would have to be removed by an operation or I could not live more than a year, or two, at most. I wrote Mrs. Pinkham, at Lynn, Mass., for advice, and took 14 bottles of Lydia E. Pinkham's Vegetable Compound, and today the tumor is gone and I am a perfectly well woman. I hope my testimonial will be of benefit to others."
—Mrs. S. J. Barber, Scott, N. Y.

Mrs. George May says:
"No one knows what I have suffered from female troubles, neuralgia pains, and backache. My doctor said he could not give me anything to cure it. Through the advice of a friend I began to use Lydia E. Pinkham's Vegetable Compound, and the pain soon disappeared. I continued its use and am now in perfect health. Lydia E. Pinkham's Vegetable Compound has been a God-send to me, as I believe I should have been in my grave if it had not been for Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound."
—Mrs. GEORGE MAY, 89 4th Ave., Paterson, N. J.

Mrs. E. F. Hayes says:
"I was under the doctor's treatment for a fibroid tumor. I suffered with pain, soreness, bloating, and could not walk or stand on my feet any length of time. I wrote to Mrs. Pinkham for advice, followed her directions and took Lydia E. Pinkham's Vegetable Compound. Today I am a well woman, the tumor was expelled and my whole system strengthened. I advise all women who are afflicted with tumors or female troubles to try Lydia E. Pinkham's Vegetable Compound."
—Mrs. E. F. HAYES, 1800 Washington St., Boston, Mass.

Mrs. W. K. Housh says:
"I have been completely cured of a severe female trouble by Lydia E. Pinkham's Vegetable Compound, and want to recommend it to all suffering women."
—Mrs. W. K. HOUSH, 7 Eastview Ave., Cincinnati, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female illness, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, etc.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Free of charge. Address Mrs. Pinkham, Lynn, Mass.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that I have been entirely cured. I therefore let you know that I shall recommend them to any one suffering from such troubles."
