RED CROSS SEAL IN HISTORY

First Used During the American Civil War-Now an Aid in Fight-Ing Tuberculosis.

Red Cross Christmas seals date back in their origin to "charity stamps," first used for the soldiers' relief funds in Boston in 1862, during the Civil war. After the war, this method of raising money was discontinued in this country for a generation, although it found vogue in Portugal, Switzerland, Australia, France, Spain, Denmark, Norway, Russia, Sweden and other European countries. There are now several hundred different types of charity stamps used in all parts of the world.

Stamps or seals were first used to get money for the anti-tuberculosis crusade in Norway and Sweden in 1904. After being used in these countries for three years, as a direct result of the interest of Jacob Riis in this movement, the Delaware Anti-Tuberculosis association, headed by Miss Emily P. Bissell, and the Red Cross society of Delaware combined in issuing a tuberculosis stamp. So successful was this campaign that nearly \$3,000 was realized, and the next year, in 1908, the American Red Cross was induced to issue a national Red Cross tuberculosis stamp. From this sale, \$135,000 was realized, that amount being almost doubled in 1909.

NEW ERA IN FINANCE

ACCURACY AND PUBLICITY PRCVES TO BE A POPULAR MOTTO.

Prompt Response to Bold Move of President Vail .- "Accuracy" Reduced Western Union's Surplus \$13,-000,000 .- "Publicity" Restored Confidence and Its Stock Went Up.

Are the great financiers of the country beginning to see a new light? Time was, until recently in fact, when the men at the head of the big corporations "kept their business to themselves," as far as the law would allow. Capable men at the head of the big concerns, long realized the weakness of their position, but what was needed obviously, as in all great reforms, was an unmistakable occasion and a courageous man. The occasion arose in the purchase of the Western Union Telegraph company by the American Telephone and Telegraph submitted to vote of the people. company, and the man appeared m Theodore N. Vail, President of the purchasing corporation.

It was last December when public announcement was made that the Gould holdings of Western Union had been taken over by the Telephone company. .

On account of the high esteem in which the management of the telephone company is so generally held, great things were predicted as a re- flights. sult of the absorption of Western Union, By the press of the country the "deal" was most favorably commented on, it being widely pointed any sort of a play house. out that under the direction of such sociates, the telegraph company was says the structure will be completed bound soon to work itself into a po- by February 15, if present conditions sition where it could offer the public far more efficient service than it had

ever before been able to offer. But a very few months had elapsed when it became apparent to the new Temple citizens own 71 per cent of management that a modern and upto-date appraisal of the company's assets would make possible a far greater degree of efficiency of operation. "Here," they said to themselves, "we've bought control of this property and we know it's immensely valuable, but we don't know fust how valuable. These appraisals of real estate and securities owned were made a long time ago. If we have a complete inventory made of every thing we've got we can announce the suit.

How Inventory Was Taken. The most expert accountants and kum. appraisers to be had were put at the As a result of the prohibition contask. Their labors lasted over eight

It began by recommending an adjustment of the difference between Baker was seriously injured by a charge of \$5,595,089 against surplus. Book values of securities held were reduced to market values, bad and doubtful accounts were "charged off," an allowance of \$2,000,000 was made for "depreciation," another

of \$500,000 for "reserve," and so on, until the old surplus of \$18,867,000 came down to \$5,136,000. It required courage, the publication of this statement to stockholders, say. ing in effect: "The property of company has been revalued: the surplus isn't nineteen millions, as you have been led to believe, but five millions," but it was the truth, and President Vail did not flinch. "Accuracy and publicity," he declared, was essential. "The stock-

holder has a right to know. The shares of this company are scattered from one end of the Union to the other. This is more than a private corporation. It is a great national enterprise. The public is entitled to There is now \$17,500 in bonds avail-the facts." The report was ordered published forthwith. Financiers of the old school and speculators generally were aghast. What would happen? Would

the bottom drop out of Western Union when the shareholders realized that their propetry was worth \$13,000,000 less than they had supposed? But the amazing thing happened. The stock went up and stayed up. The public had responded to this remarkable display of frankness and confidence; to the new motto, "Accuracy and Publicity."

The full significance of the action of the new board is stated concisely by Harper's Weekly in these words: "Is this policy of publicity and of open-handed dealing with shareholders and public the forerunner of a similar movement on the part of other big corporations? Certainly it is to be hoped that it is. In the case of these big companies, dependent upon public patronage and doing business under public franchise, can there be any question of the right of

"That right is being recognized. It is recognized now in this epochal act on the part of the telephone and telegraph interests. It is the dawn of a new era in corporation finance."

All measures of reformation are effective in exact proportion to their timeliness; partial decay may be cut away and cleansed; incipient error corrected; but there is a point at which corruption can no more be stayed, nor wandering recalled. It has been the manner of modern philto perish, and the foolish to stray, while it spent itself in frantic exertions to raise the dead, and reform the

Benny on Benevolence.

Benevolence is a great thing. When you have benevolence you cannot rest until you do something to make other people feel grateful to you. The other day my mamma went up into the attic Judge James Brooks Dill, at Orange, to find a lot of old clothes to give to poor people who could not afford to buy any clothes for themselves. While she was hunting around she found a gold-headed cane worth \$25 that grandpa had put up there 18 years ago, and forgot all about. Thus we see, dear friends, benevolence brings its own reward.-Benny.

"For sixteen long years I have been suffering with a bad case of skin disease. While a child there broke out a red sore on the legs just in back of my knees. It waxed from bad to worse, and at last I saw I had a bad skin disease. I tried many widely known doctors in different cities but to no satisfactory result. The plague bothered me more in warm weather than in winter and being on my leg joints it made it impossible for me to walk, and I was forced to stay indoors in the warmest weather. My hopes of recovery were by this time spent. Sleepless nights and restless days made life an unbearable burden. At last I was advised to try the Cuticura remedies [Cuticura Soap, Ointment and Pills] and I did not need more than a trial to convince me that I was on the road of success this time. I bought two sets of the Cuticura Remedies and after these were gone I was a different man entirely. I am now the happiest man that there is at least one true care for skin diseases. Leonard A. The readers of this paper will be pleased to learn that there is at least one dreaded disease that acience has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it falls to cure. Send for list of testimonials.
