Sanitary Board to Eradicate Scab

C. N. Crawford attended the sheep scab eradication meeting at San Angelo last Monday. There is a move on foot by the wool growers to have the Live Stock Sanitary Board to take over the eradication. The next legislature will be asked to make suitable appropriations for carrying on the work, and make such laws as will force sheepmen to keep their flocks free from scab. Mr. Crawford believes that if every man was forced to keep his sheep clear of scab, the malady would be a thing of the past in a few years.

Advocates of Idea Say Nature Should Be Allowed to Do What Cooking le Necessary.

Going back to first principles, the latest food fad is uncooked or sun cooked food. The advocates of this idea say that "before the use of fire primitive man took his sustenance as birds and wild animals still do. and there is evidence that he had better teeth, a harder body and was exempt from many of the ailments Therefore they urge that nature should be allowed to do whatever News-Record. Careful and prompt

cooking is necessary. "In all nature," say these people, every animal but man finds food ready prepared. Then why should human beings boil and roast and fry and in the end be worse off than those that eat raw food? In fact we have eaten some kinds of uncooked food for years, and so the step to a complete diet is not great.

Yes, Same Size.

He felt it would be extravagant to tall in a man for a little job like replacing a broken window pane, so he took the measurements very accurately and went to the hardware store to buy the glass.

"Quite a simple job," he explained to the storekeeper; "in fact, a child could do the thing in a few minutes. An hour later he presented himself once more at the store, the proprietor of which greeted him cheerfully with the query:

Same size, I suppose, sir.

Wide Sympathies.

Out in the world of talk one hears many conflicting opinions. A great saint once said, "Who hears the eternal voice is delivered of many an opinion." You do not need to hear all the talk, all the various opinions of many men, to know true wisdom Your own hushed spirit will teach you wisdom if you will listen. But in these lonely hours teach yourself to be ready to love all the vast variety of life that the world may offer you at any turning. Encourage thoughts and wide sympathies. Remember to sympathize even in the si lence with the people you read of and hear of, who are quite different from yourself. Try to understand motives and meanings in alien lives, and if you do this well enough your loneliness will be turned into the very best education there is. And when life calls you some day into its midst as life surely will some day, your lamp will be shining and bright and will shed a lovely radiance all about you. For you will be able to hand on to others the wisdom that comes with dove's feet.

LEARNING THINGS We Are All in the Apprentice Class

When a simple change of diet brings back health and happiness the story is briefly told. A lady of Springfield, Ill.,

"After being afflicted for years with nervousness and heart trouble, I received a shock four years ago that left me in such a condition that my life was despaired of.

"I got no relief from doctors nor from the numberless heart and nerve remedies I tried, because I didn't know that coffee was daily putting me back more than the doctors could put me

"Finally at the suggestion of a friend I left off coffee and began the use of Postum, and against my expectations I gradually improved in health until for the past 6 or 8 months I have been entirely free from nervousness and those terrible sinking, weakening spells of heart trouble.

"My troubles all came from the use of coffee which I had drunk from childhood and yet they disappeared when I quit coffee and took up the use of Postum." Name given by Postum Co., Battle Creek, Mich.

Many people marvel at the effects of leaving off coffee and drinking Postum, but there is nothing marvelous about it-only common sense.

Coffee is a destroyer-Postum is a rebuilder. That's the reason, Look in pkgs. for the famous uttle

Work Weakens the Kidneys

Many occupations weaken the kidneys, causing aching backs, urinary disorders and a dull, drowsy, discouraged feeling. Work exposing one to chilis, dampness or sudden changes; work in cramped ostitions; work amid the funes of urpentine; constant riding on joiting chicles, is especially hard on the kidneys.

Taken in time, kidney trouble isn't hard to stop; neglected it is dangerous. As a kidney tonic, there is no other medicine so well recommended, so widely used and so universally successful as Doan's Kid
