HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, APRIL 14, 1911

Come to Hedley, the Town with a Future, Situated in the Famous Farming Country

## BRIEF SKETCH OF TOWN OF HEDLEY

Hedley is small as to size but large in pulling for the trade

HEDLEY, TEXAS, is located on the Fort Worth & Denver City railroad, in Donley county, 264 miles northwest of Fort Worth and 72 miles southeast of Amarillo, Texas. Hedley is only three years old and already has a population of nearly five hundred and is growing all the time. Hedley is nicely located as to drainage, being almost a level country, but with just enough fall to drain well. The sanitary question is one of our first considerations.

THE COUNTRY surrounding Hedley is without question one of the most productive farming sections in the State. There has never been anything near a failure in crops here; last year when other parts of the country had almost total crop failures, this section had fine cotton and feed crops. This not being a feed farming country alone makes it more sure of producing some money crop each year.

HEDLEY is composed of live, energetic and enterprising people who are wide-awake to any thing that will help the town. We have a two-story brick school building of which a town of three thousand inhabitants might be proud; constructed last summer at a cost of \$8,000; has its own system of water-works and being entirely sanitary. The Baptist, Methodist and Presbyterian churches are all well represented here. The town is strictly prohibition, having no saloons and wanting none. The following fraternal orders have good representation here: A. F. & A. M., I. O. O. F., W. O. W., M. W. A., and R. N. A.

HEDLEY has some splendid brick buildings and more being planned. The following business enterprises are here and having good patronage. A State bank,

3 dry goods stores, 4 groceries, 2 drug stores, 2 hardware and implement stores, 1 saddle and harness store, 1 newspaper—a live wire, 1 barber shop, 2 good lumber yards, 2 well equipped blacksmith shops, 1 vehicle dealer, 1 cabinet shop, 1 splendid telephone exchange with several rural lines, 1 postoffice, five daily mails, 1 R. F. D. mail line, 1 livery barn, 1 wagon yard, 3 dray lines, 1 cold storage, 1 hotel, 1 restaurant, 2 millinery establishments, 1 broom factory, a public waterworks, 2 or more real estate offices, 1 fire insurance office, 1 furniture store, 1 undertaking establishment, 2 lodge halls, 2 good physicians, 1 good gin, a pavilion capable of seating 500 people, and a nice park being improved, a depot large enough for a much larger town—the shipping facilities are the very best, having several thousand feet of side-track on level ground.

DURING the year of 1910 we shipped from Hedley 1403 bales of cotton, 175 cars of feed stuff, and about 30 cars of hogs and cattle.

HEDLEY has a Commercial Club that does something. If you mean business write to the Secretary. Perhaps you think Hedley has enough business enterprises, but when you consider that the town has a trade territory of over 336 square miles of thickly settled country you will see that there is room for more enterprises, some kinds that we have and some that we have not. If you are a hustler in your line and want to locate in a live town of live people, come to Hedley. If you are not a live wire and expect to let others do the pulling, you are not wanted.

## MRS. OXNER RETURNS HOME FROM CHINA

After Seven Years Labor as Missionary among the Chinese

Amarillo, April 10.—Mrs. Cora Oxner of Memphis, Texas, stopped over yesterday in Amarillo on her way home from Pingu, China. She and her husband, Dr. J. M. Oxner the much loved physician of Edgewood and later of Memphis, went to China as missionaries seven years ago under the foreign mission board of the Southern Baptist Convention. After three years of arduous toil for the poor and suffering Chinese, Dr. Oxner strength failed and he gave up his life he had so joyously consecrated to

istic work among the women and girls and superintending the village school for girls. She will be in America a year or eighteen months and then she will return to the work that has so won the affections of her heart.

Mrs. Oxner's brother and sister-in-law, Dr. and Mrs. Huckaby, went out to China as medical missionaries; also in the strange providence of God, they could remain there only two short years; they came to America entirely broken down in health and died only six weeks apart. Mrs. Oxner comes back rejoicing in abundant health, but she is only one out of four to return. The workers fall but the work is His and goes on.

The trip from China to London, England, took Mrs. Oxner six weeks. She says that in China thirty miles is considered a good days journey. She entertained

## TO CELEBRATE THE FOURTH OF JULY

At rousing meeting Commercial Club decides to have a Picnic

The Commercial Club at its meeting Tuesday night took up the question of a celebration the 4th of July, and decided unanimously to have one on that date. As Hedley did not have anything of the kind last year, and some of the neighboring towns did, it was thought best by those present not to stand back and let other towns keep Hedley out of her just rights and privileges. The committees will be selected at next meeting. Several new members were enrolled at the meeting, and if all the meetings are attended as that one, much may be expected of the Club in the future.

Fitch Hair Tonic, best ever made. The Imperial.

### WOOD-KILLIAN

At the home of W. A. Wood near Rowe at 3 p. m. Sunday April 2, Mr. Crews Wood and Miss Mary Killian daughter of Mr. and Mrs. S. A. Killian of Hedley, were united in marriage by Rev. A. H. Newton. The young people are now at home on the Dixon farm near Rowe. Congratulations are extended to them.

Troy Steam Laundry is represented by The Imperial.

Just as we expected. We took our stove down this week and here comes one said norther this morning and catches the office without the wherewith to fire up. But we can get some satisfaction out of saying, "I told you so."

## HEDLEY TO HAVE A NEW HOTEL

W. Nippert to begin erection of two-story 18-room hotel

W. Nippert, the Hedley station agent, has contracted to start at once building a hotel northeast of the depot. It is to be strictly first class in every respect. As the old hotel has been out of business for two weeks the town has been without accommodations for travelers. When the new hotel is built and open to the public our people can point with pride to it—something that couldn't be done heretofore. The Informer rejoices. Watch Hedley grow.

## NEW BROOM FACTORY HEDLEY'S LATEST

Brooms being made and sold here. Plenty broom corn

Hedley has a broom factory. W. C. Smith is making brooms and some of the Hedley merchants are handling them. They are good brooms and home people should buy them in preference to any other. There is considerable broom corn in the country yet and Mr. Smith will have no trouble in securing all he needs for brooms.

The Imperial Barber Shop for guaranteed satisfaction.

Tom Kennedy visited his mother at Lelia Lake Sunday.

W. C. Boyce of Amarillo is in town representing the Standard Real Estate Loan Co.

Miss Pearl Newton is learning the cases at the Informer office.

## THERE IS A REASON

Why people come to us when they want choice drugs of any kind. We'll tell you. It's because we carry

## THE LARGEST STOCK OF THE BEST DRUGS

and our charges are always reasonable. Why go elsewhere when we carry a complete line of everything, and putting in more drugs every day that the town has not had carried in stock: This is why we solicit your trade, for we can fill your wants. Dr. J. B. Ozier will fill all prescriptions for you at all times day or night. We solicit your business.

## HEDLEY DRUG COMPANY

the work. In his last hours he expressed a hope that his death would stir up the people in America to give sufficient funds to build the hospital he had hoped and prayed for during his three years of loving labor at Pingu. The prayers of his heart was heard and before Mrs. Oxner could communicate with friends as to Dr. Oxner's hope, their board had granted the appropriation as a memorial to the valuable life laid down. Dr. Hearn, with a splendid trained nurse, Miss Jones, now treat each year in the Oxner Memorial Hospital over five thousand patients.

Mrs. Oxner remained in China after her husband's death, looking after the medical work until another doctor could be sent out, and later doing personal evangel-

several of the guests of the Oriental Hotel last night in the hotel parlors, relating anecdotes of life in China and singing several hymns in the Chinese language. Mrs. Oxner left for her home in Memphis today.

J. G. McDougal says if you have anything you don't want sold, you had better not advertise it for sale in the Informer, because Informer ads bring results. He advertised two milk cows for sale in last issue, had a buyer for one before the ink got dry. The buyer had just subscribed for the Informer and got the worth of a year's subscription in that one ad, for he had been trying to find a milk cow for sale and hadn't found it till he saw his neighbors ad. The other cow was sold this week.

PUBLISHED EVERY FRIDAY

Entered as second-class matter October 28, 1910, at the post office at Hedley, Texas, under the act of March 3, 1879.

SUBSCRIPTION PRICE \$1.00 PER YEAR STRICTLY CASH  
 ADVERTISING RATES FURNISHED ON APPLICATION

Get in with the Commercial Club—you can do much toward helping build a good town by working as an organization.

Our hardware merchants have been selling farming implements rapidly this season. They are selling to people from far and near; from beyond Lelia Lake and as far in nearly every other direction. Which goes to show that Hedley merchants are business getters.

The story is told of a printer who a short time after starting in business, received his first check from a customer. Much pleased, he took it to the bank, and the cashier asked him to indorse it. The printer looked surprised. "Indorse it on the back," added the cashier. The printer took the slip of paper and wrote: "I heartily indorse this check."

If your neighbor is not a subscriber of this paper and makes a point to read your copy each week, politely give him a hint that he would do you a service and the editor also, by subscribing for it himself. On the other hand, if your neighbor is not a subscriber and does not read your paper, let him read a copy or two and we feel sure he will want to subscribe. The two types of men are quite different.

Hedley is to have a 4th of July celebration and it is up to the people to see that it is a success. A good picnic will be a splendid advertisement for the town and all will profit thereby. But a bad one will give the town such a black eye that it will be hard to overcome. Put shoulder to shoulder and hand in hand in a mighty pull for a big day in Hedley, and without unanimous work on the part of all it cannot be expected that the celebration be what it should. Two years ago Hedley did herself proud, so let's do it again.

"There are some who withhold from the local publisher the small amount that his publication costs, not considering, apparently, the real-money-saver that it is to the family," says the Chipley (Fla.) Banner. This of course, is only meant for a subscription list boost—but it is none the less true, and certainly important. The average cost of a local newspaper is two cents or less a copy, and as the Banner correctly says, "no man ever subscribed for a weekly newspaper that did not in the course of the year save the price many times over" by consulting its pages in regard purchases and otherwise making use of the information contained therein. The country or city paper is a necessity in every family, and the cost is trifling when compared to the usefulness and importance of its presence in the house and business place. The progressive farmer, merchant and business man understands this, and does not depend upon his neighbors for the news or general information."

When you are blue, your face itches, and you have that don't-care felling. Get in shape by being worked over at Imperial.

### SOME REASONS WHY

As a newspaper man we never did believe much in referring to the poverty of editors, nor in apologizing for their lack of the world's goods. They may be poorer in purse than other men and they may not be. That is not so bad as soul-poverty. If they are poor there is surely a reason. Yes, there are several reasons, as pointed out by Kelley Pool of the Centralia (Mo.) Courier. He reminds us that the editor has to give away so much of what he has to sell—space, and then pay out money to have type set to fill the columns of space he gives away. Uncle Sam sends out columns upon columns of "space-fillers" about census, rural delivery, dead letters, forest reservations, immigration and other dry-as-dust subjects, requesting that it be printed—but never a cent to pay the freight. The newspaper man is expected to give away space for the public good. Deaths are willingly announced as a news matter, but unduly long obituaries are often contributed that costs the editor a cash outlay to print. Bulletins (padded beyond all reason), cards of thanks, announcements, all of these are pushed on country papers, and seldom is there anyone willing or able to pay the cost. After he has given away much of his space he is still expected to make cash donations and subscriptions to everything that comes along, or be pointed out as a "tightwad" in the community. The public does not seem to understand that space to the newspaper man is what flour is to the miller, or drugs to the druggist. It is his stock in trade. If the merchant gave away as much of his goods as the newspaper man does, he would have to go out of business. So we say: If the newspaper man fails to become a Croesus, there's a reason—several of them—Publishers Auxiliary.

None better—those shaves and hair cuts at The Imperial.

### NO RACE SUICIDE FOR THIS COUPLE

Married 10 years, have 19  
children, 13 of them  
are living

Muskogee, Ok.—Mr. and Mrs. Frank Scott of Highland, Kas. are seeking a home in this state with plenty of land. They will need it, for although they have been married not quite ten years they are the parents of nineteen children, all boys, and thirteen of them living. They hold the record for triplets, having five sets to their credit, and two sets of twins. All of the thirteen living are under five years. Recently the Scotts, deciding that they must find more land, went to Alberta, Canada. They were not satisfied there and returned. On the return

trip Mrs. Scott and her thirteen children all rode on one first class ticket. At Omaha the conductor made a vigorous protest.

"Madam, you cannot carry a whole Sunday school along with you on one ticket," he said, "and you need not tell me those are all yours. You will have to pay for some of them."

"The rules of this railroad provide that a child under five years may ride free, when accompanied by its parents with a first class ticket, don't they?" retorted Mrs. Scott.

"They do, but you will have to show me."

Mrs. Scott dug down into her valise and brought out the family Bible, in which was recorded the names and ages of each of the children. The conductor had to give in. The mother and the children occupied five of the double seats in the homeseeker's car and paid for only one.

The names and ages of the children are: Ashbell, Archer and Austin, triplets, 4 1-2 years old; Arthur and Arnold, twins, 3 1-2; Allan, Almon and Albin, triplets, 2 1-2; Albert, Albion and Adolph, triplets, 1 1-2; Abel and Abner, twins, 6 months old. Mrs. Scott is 30 years old and her husband is only a year her senior.
