

The Hedley Informer

VOL. I

HELDLEY, DONLEY COUNTY, TEXAS, FRIDAY, NOVEMBER 3, 1911

NO. 50

Come to Hedley, the Town with a Future, Situated in the Famous Farming Country

NEWSOM SELLS HALF INTEREST TO BAIN

J. C. Newsom has sold a half interest in his stock of dry goods to J. L. Bain of Memphis. They expect to move into the Reeves frame building as soon as the Hedley Hdw. Co. moves into the Battle brick. These are both splendid business men and will no doubt do a good business here.

TEAM RUNS AWAY ONE HORSE RUINED

The splendid team of bay horses of W. H. Baker's ran away Tuesday and both were cut on wire fence; one horse's foreleg being almost severed. The team was hitched to a sled on which was an empty water barrel and one of the Baker boys was driving, the other boy was standing in the barrel when the team jumped and jerked loose from the sled, so the boy and the barrel took quite a roll down the hill.

MORE CEMENT WALKS IN TOWN

The cement sidewalk in front of the three new bricks was put down this week. The bricks were also about finished.

BOTH HOTELS FULL EVERY NIGHT

Both hotels are crowded every day and many people are turned off because of lack of room. That shows that Hedley is on the map. Just watch her grow.

BOX SUPPER NETS THE SUM OF \$37

The box supper given at the hall Tuesday night for the purpose of raising money for the parsonage was well attended considering it was only advertised verbally two days. The boxes were sold to highest bidders and netted \$37.00.

An incident of court last week was that of a jury which was tied up, the voting on the case being even six and six. During the dinner hour the sheriff had the men out walking and in passing some scales one side of six men challenged the other ones to weigh with them, saying they might be out talked or out-argued but they could not be out-weighed. In weighing it was found that the scales balanced exactly with each side of men. This incident probably could not be duplicated with another set of twelve men in the county without picking over and over to balance the weight.—Amarillo News.

REV. C. M. SHUFFLER DIES AT CLARENDON

Rev. C. M. Shuffler, missionary evangelist of the Northwest Texas Conference of the Methodist church, died last Monday morning early suddenly at the home of J. T. Graham in Clarendon. His wife and son, Ralph, were at Olney at the time where Ralph is editor of the Olney Enterprise.

Rev. Shuffler has been a prominent minister in the Methodist church for many years. He was in the North Texas conference several years and was then transferred to the Northwest Texas conference. He was editor at one time of the Herald at Plainview. Last November at the Annual conference held in Clarendon he was appointed Conference Missionary Secretary with Clarendon as headquarters, and has done good work in that position this year.

We have known Bro. Shuffler many years. He was of an optimistic disposition, making the world about him brighter and better wherever he went. Thousands were converted under his able preaching. He was in the very prime of life, but his work was suddenly ended, so that he could rest from his labors and enter into the joys of Heaven.

B. E. HARRIS SELLS FINE LOT OF HOGS

B. E. Harris sold 44 fat hogs this week to a party who shipped a car Wednesday to the Fort Worth market. The hogs were in fine shape and will no doubt top the market.

Mr. Harris is an enthusiastic hog raiser and takes pride in the raising of good hogs. He likes to market his feed on four feet instead of on four wheels. That brings a better price for the feed crops to feed it to stock and sell the stock.

A NEW KIND OF CALF TROUGH

Found, a new kind of trough in which to feed a calf. Same may be seen at the home of Jack McCants.

Jack has two hogs so fat they have creases in their backs, and when he wants to feed the calf he puts the feed on a hog's back and the calf proceeds to eat.

In feeding the hogs Jack has to kick them to make them squeal so he can tell which end their mouth is located so he can put the feed at the proper place.

Ask Jack.

REEVES BRICK TO BE BUILT AT ONCE

Ground was broken Tuesday for the foundation of the Reeves brick building which will be pushed rapidly. The brick has already arrived. Work has been suspended on account of the bad weather. There is considerable talk of mork bricks to be built also some residences. It is like being in a growing city. On all sides can be heard the hammer and saw chorus as well as talk of building. Let the good work go on and Watch Hedley Grow.

J. B. Masterson who was at one time in business here in Memphis and who has been manager of the Green Dry Goods store at Wellington, was in Memphis Tuesday and informs us that he has purchased a stock of general Merchandise and will enter business for himself at Hedley in the next few weeks. Mr. Masterson is a fine business man and his many friends here will wish him unbounded success.—Memphis Democrat.

The bang of shot guns can be heard every day since Nov. 1st. The quail feathers will fly promiscuously for a while.

S. G. ADAMSON DIES FROM CANCER

Mr. S. G. Adamson, aged 72 years, 5 months and 22 days, after a year's suffering with cancer, died Tuesday morning at the home of his brother, Mr. Tom Adamson. Funeral services were held Wednesday morning at the home, followed by interment at the Cemetery.

Mr. Adamson's home was in New Mexico up to three months ago when his daughters and relatives thought it best for him to make his home with his brother. Sympathy is extended to the bereaved family and relatives.

J. B. Masterson and family moved over from Wellington Wednesday. Hugh Brown of Clarendon hauled them and their household goods. This family is gladly welcomed back to the fair city which they left about a year ago.

J. Walker Lane and daughter, Miss Orene, returned Monday from Arkansas where they spent a week visiting relatives and old familiar scenes. They were accompanied home by Miss Nettie Crane, sister of Mrs. Lane.

Don't burn your house!

TEXAS Needs Great West

By W. W. WELLS

There is a great need in Texas for a more diversified agriculture. The present dependence upon cotton and wheat is a dangerous one. The soil is being exhausted and the weather is becoming more erratic. It is time to look to the west for new crops and methods of farming. The great west has much to offer to the state of Texas. It is time to turn our eyes to the west and to the many opportunities that are there.

The west is a land of opportunity. It is a land where the soil is rich and the weather is good. It is a land where the people are hardworking and the government is fair. It is a land where the future is bright and the possibilities are endless. It is time to turn our eyes to the west and to the many opportunities that are there.

The west is a land of opportunity. It is a land where the soil is rich and the weather is good. It is a land where the people are hardworking and the government is fair. It is a land where the future is bright and the possibilities are endless. It is time to turn our eyes to the west and to the many opportunities that are there.

FRATERNITY HAVE SEEN MONKEY

C. C. Mitchell

Our Cotton Money.

Our cotton crop last year sold for
 approximately \$220,000,000 and
 many of our citizens are under the
 impression that this money is avail-
 able for building railroads, factories,
 opening mines, etc. It is true we
 exchange our cotton for gold but
 while producing the cotton, we con-
 sume all our cereals and ship in
 \$75,000,000 worth of feed stuff from
 other States. The Texas Grain
 Dealer's Association conducted es-
 pecially for this article, an exhaus-
 tive investigation into our cereal
 consumption. The production col-
 umn is taken from the Federal Agri-
 cultural Department reports and the
 figures in the consumed column were
 furnished by the Grain Dealer's As-
 sociation:

	Pro. Bu.	Cons. Bu.
Corn	181,280,000	250,000,000
Wheat	18,780,000	25,000,000
Oats	24,325,000	25,000,000
Hay—Tons	711,000	3,000,000

The average price of corn is sixty-
 five cents; wheat one dollar; oats
 forty-six cents and hay twelve dol-
 lars. When these extensions are
 made to the figures in the consump-
 tion column, we find our cotton crop
 has entirely disappeared.

Of course all these products are not
 consumed on the farms as our cities
 are composed of exclusive consum-
 ers but, as a whole, we are an
 agricultural State and in its last
 analysis, the banker and the mer-
 chant is as much a farm laborer
 as the hired hand that follows the
 plow and to get our net gain, we must
 deduct total consumption from total
 production. The money to develop
 Texas cannot be found by searching
 our cotton fields. We must get it
 from other sources and our principal
 supply must come from outside the
 State.

A Billion Dollars for Factories.

Texas needs a billion dollars for
 factories. The amount seems large
 but it would require an immediate
 investment of that amount to man-
 ufacture the raw material now being
 shipped out of the state and we
 have only one-fifth of our land under
 cultivation and our minerals are
 practically untouched.

A good way to encourage factory
 investments in Texas is to patronize
 home industries. Home patronage
 would result in flooding our pres-
 ent plants with orders and would re-
 quire additional factories to take
 care of the business.

Texas is today the most inviting
 field on the globe for capital and
 when our opportunities are under-
 stood and our citizenship ready to
 welcome factory investments by pa-
 tronizing the products, we will ex-
 perience no difficulty in securing
 factories.

Bad roads constitute a moral
 issue. A man of good morals
 will vote for good roads, but men
 of good morals can easily con-
 tract bad morals from bad roads.

Hedley is growing.

The South's Greatest Newspaper

**....The....
 Semi-Weekly Record**

FORT WORTH, TEXAS

In addition to subscribing for your home paper, which
 you can not well afford to be without, you must have a high-
 class general newspaper

As a trustworthy family paper, The Semi-Weekly Fort
 Worth Record has no superior. It isn't for any limited set
 of people; it's for every member of every family. If you do
 not find something of interest in a particular issue, well,
 the editor looks on that issue as a failure. In addition to print-
 ing all the news of the day in concise form, The Record has
 special features for each member of the family. The remark-
 able growth of The Record is the best evidence of its merits.

By subscribing through this office you can get The Fort
 Worth Semi-Weekly Record together with the Hedley Infor-
 mer, both papers one year for only \$1.75.

Accept This Remarkable Offer Today.

als

Moreman is quite

"Please the people," is the motto of the Imperial Shop.

The State bank examiners was in Hedley Tuesday looking over the business of the First State.

Everything for everybody's home and farm.

A. A. Koup, Memphis.

H. M. Hefner had his name added to the Informer's big list of subscribers.

W. O. W. members are requested to be present next Thursday night as there is some important business to transact.

Notice the date opposite your name on the paper this week. The date shows when your subscription expires.

W. S. McCrory went to Newlin Tuesday to help the exchange there finish putting in a switchboard.

We have Bain Wagons, both bois b'arc and oak rims; also Enterprise Buggies. M. W. Headrick & Son Clarendon.

J. F. Randall had his subscription to the Informer and Fort Worth Record run up a notch this week.

The boys and girls from Hedley off at school would enjoy getting the Informer every week. Nuf sed.

Choice resident lots in the McDougal Addition at a price you can afford to pay. J. C. Wells, Agt.

Two snows and about three rains within two week breaks the record for this country in the fall of the year.

J. H. Richey presented the Informer with a mess of sweet potato. It weighed four and one-half pounds.

When you are blue, your face itches, and you have that don't-care feeling. Get in shape by being worked over at Imperial.

Mrs. E. G. Dishman had as guests at dinner Tuesday Mr. and Mrs. Dishman of Los Angeles, Cal., and Mrs. J. E. Dishman of Missouri.

We have bought stoves by the car load lot and will give the people the benefit of the reduced freight rates. M. W. Headrick & Son Clarendon.

Paul Sarvis and Price Cates went to Quail this week after the printing plant Paul traded for a few week ago. On their return the roads were so muddy they had to leave a lead a few miles out.

The snow and freeze Wednesday night probably got all the green crops in this country. November 1st is the latest killing weather in this country in many a year. Watermelon vines were green and cotton blooming up to Wednesday.

Mr. Arnold and family of Southeast Oklahoma arrived this week to make Hedley their home. They have been trying to secure a residence here but every house in town is occupied. "Others are in the same fix. Who will build a residence for rent?"

Hedley is growing.

Remember that J. C. Wells writes fire insurance

Tell your friends that they are wanted as Informer subscribers.

For Sale! 40 pigs and shoats all sizes. Mason Bros., Hedley.

Tom Latimer went to Clarendon first of the week.

Frank Kendall went to Clarendon Wednesday.

Mr. Dishman and wife of Los Angeles, Cal., are visiting relatives here.

Mart Crawford is very sick with pneumonia.

C. B. Battle is holding down the store during L. A. Stroud's absence.

Mrs. W. H. Pettit left last night for Cook county to visit her mother Mrs. Wilson.

Before you sell your Maize you should see me. I pay the highest market price. A. N. Wood

L. A. Stroud left Wednesday morning for Hereford taking his son who was quite sick. The boy had been here with his father two or three weeks. Mr. Stroud returned last night and says the boy has typhoid fever.

Saturday's rain kept farmers out of the fields till Tuesday, then another rain came Wednesday and put a quietus to farming operations for another day or two.

N. M. Hornsby completed his storage tank last week and this week he has been laying a main to Main street to furnish water to those desiring it along the line.

Passenger train No. 5 was wrecked by spreading of the rails Tuesday near Believee and the engineer was killed, the fireman and some thirty passengers were injured.

E. C. Kerley returned from Lakeview Saturday where he worked all fall at the gin. He and J. G. McDougal are getting their threshing outfit ready for the winter threshing.

The little five year old daughter of Mr. and Mrs. Honea died of diphtheria Thursday night and is to be laid to rest this afternoon. The child was sick only a few days and its death was a severe blow to its parents who live at Olustee, Okla., and came here to pick cotton. We extend heartfelt sympathy to the bereaved family.

THE HEDLEY TELEPHONE EXCHANGE

Texas Needs Great Men

III. MISTAKES.

THE statesmen of China have fought back civilization for four thousand years and today it is the most benighted nation of the globe. The Mohammedan government ordered the world's greatest library at Alexandria burned and the followers of the prophet are to this day bound in fetters of ignorance. The dark ages were the result of nations fighting back the tide of civilization. Since the beginning of government, some of the leading statesmen of all countries have become badly frightened at the processes of civilization.

MOHAMET'S MISTAKE.

The smoke of a factory has been distorted into the visage of a terrible ogre; the whistle of a locomotive has been mistaken for the war whoop of an Indian and the approach of capital has scared many of our amateur statesmen into fighting a duel with civilization. Texas needs leaders who will not become frightened at the torch of knowledge or stampede at the forces of progress. Texas needs great men.

Texas Productions.

The Federal Agricultural Department gives us a complete estimate on most items of farm production except live stock. While our live stock is valued at \$378,762,400, production per annum is not of record and the live stock figures shown in the following table may, therefore, be considered only a rough estimate.

Cotton	\$219,656,000
Corn	114,206,000
Wheat	18,404,000
Oats	11,433,000
Hay	8,532,000
Dairy Products	23,500,000
Fruit and Vegetable	24,000,000
Poultry and Eggs	25,500,000
Miscellaneous	10,000,000
Live Stock	100,000,000
Timber	6,000,000
Total	\$561,231,000

Timber is added to the list in order to complete surface production.

This stupendous total on its face points to a magnificent prosperity, but deducting consumption from production, we find the bulk of our money quickly melting away and when we build our homes and churches and school houses we have little left to invest in large industrial enterprises.

Production and Consumption.

The Federal Census reports enables us to estimate with reasonable accuracy our annual production which approximates as follows:

Agriculture	\$561,231,000
Manufacturing	170,000,000
Mining	20,000,000
Total	\$751,231,000

The item of consumption is far more difficult to estimate, although reliable data on the cost of living per capita is of record. The following table represents property consumed

and destroyed by the natural and artificial processes of civilization. Three classifications are used, "The People" which includes cost of living and burial expenses, "The Animals" which includes the keep of live stock and loss by natural and accidental deaths, "The Property" which includes destruction by fire, decay wear, etc., as well as destruction of seed by processes of germination.

The People	\$330,000,000
The Animals	200,000,000
The Property	120,000,000
Total	\$650,000,000

By deducting consumption from production, we have \$81,131,000 per annum left, which is equal to 11 per cent of gross production and is approximately correct. This volume of money is entirely too small to make much headway in development. We need Ten Billion dollars to open up new farms, build cities, construct railroads and public highways and we must get money from outside the state for our large development enterprises.

Sun Never Sets on Texas Press

The Texas press circulates in every state in the Union and some of our papers cross the ocean. It can be truly said that the sun never sets on the Texas press.

With a quarter of a million copies of Texas newspapers singing the praises of Texas in every clime and country, we are able to account for the marvelous influx of men and money into our state. There is no more effective way of advertising Texas than for our citizens to subscribe for the local paper and have it mailed to persons outside the state and no better service can be rendered our friends in other states than by giving them an opportunity of learning about Texas through the columns of our local papers.

Horse-Shoeing A Specialty

Farmers who travel over bad roads have to spend a large part of their time in mending harness and repairing vehicles, and many an hour of the rainy day that the farmer could enjoy in pleasant and profitable reading is necessarily consumed in making such repairs.

Snowed Thursday.
