The Hedley Informer

VOL. I — HEDLEY DONLEY COUNTY, TEXAS, FRIDAY, NOVEMBER 10, 1911

Come to Hedley, the Town with a Future, Situated in the Famous Farming Country

DEMOCRATS WIN IN THE ELECTION

Santa Fe, N. M. Nov 8.--Returns from yesterdays elections indicate that the democratic ticket swept New Mexico from governor down. The governor's majority is estimated at four thousand. However the republicans still claim a victory. The proposition of allowing the constitution to be amended carried by a vote of approximately two to one. Albuquerque gave a majority to the democratic ticket of about one thousand. Both democratic congressmen have safe majorities.

Washington D C. Nov.8.—Yesterday's elections in many sections of the country indicated a direct disapproval of the republican administration and of Taft's policies, and are very gratifying to the democratic party. While the republicans made gains in many sections, the general results have cast a gloom over republican leaders in many sections of the country. Brewer, Democrat, was elected governor of Mississippi; McCreary, democrat, defeated Wilson in Kentucky; Governor Foss, democrat, was re elected in the republican state of Massachusetts. On the other hand the republicans carried Maryland and elected the second republican governor that state has had since the war. Phillip Golsborough being elected by a small majority.

HEDLEY IS MOVING AND BUILDING

The Hedley Hardware & Implement Company moved into the Battle brick this week and has things showing up to good advantage.

W. R. McCarroll let the contacrt to J. W. Bond for the building of a residence on a Nat Smith five acre block at the northwest corner of the town. Work was begun yesterday.

Bain & Newsom moved this week into the Reeves store building which was vacated by the Hedley Hdw. Co. This store is taking on the looks of a neat dry goods store now. Read this company's ad on last page.

W. J. Stultz and children, and his son in-law and daughter, Robt. Smith and wife arrived Thursday from Collin county, and are located in the Reeves dwelling east of the Wooldridge lumber yard. Their household goods came first of the week accompanied by Marion Douglass who will try to get located here also. The Informer extends a welcome to these people.

GOVERNMENT COTTON CROP REPORT

Washington, D. C. Nov. 8.—The census report issued today shows almost ten million bales of cotton ginned from this year's growth to November 1. This is an increase of two and a half million bales over last year, and confirms the prediction of cotton bears who claimed that the crop would reach fifteen million bales this year, and thus succeeded in forcing the price down. All cotton growing states showed increase acreage except Oklahoma.

BAPTIST LADIES AID

Motto, Let your light so shine before men that they may see your good works and glorify your Father which is in Heaven. "God helps those who helps themselves.

Song.

Prayer.

What Woman should do, by the ladies.

Missionary reading selected, by Mrs. Killian.

Free will offering.

Business.

Song.

Closing prayer.

Secretary.

MARTIN CRAWFORD DIES OF PNEUMONIA

Martin Crawford, aged 31 years died at his home east of town Monday night of pneumonia after suffering several days. His body was laid to rest in the cemetery Tuesday evening. Rev. J. A. Long preached the funeral sermon, and the Woodmen of the World held their impressive funeral and burial services. Mr. Crawford had a policy for $2000 in that order.

The death was a severe blow to the relatives and friends. He leaves a wife and two small children, father, mother brothers and sisters to mourn his loss.

The Informer joins in sympathy for the bereaved family.

Rev. J. B. Wood and wife are packing preparatory to moving to Wellington first of next week. Rev. Wood has labored earnestly here for three years and has done much good, and the friends are sorry to see them leave, but wish for them a pleasant and good home in their new field.

Mr. McCastle and family came in last week and moved to E. R. Clark's place. They formerly lived here, and returned because they found no place to beat Donley county.

WHERE THE METHODIST PREACHERS GO

J. W Story, P. E.; Clarendon, H. M. Long; Claude. C. D. West; Canadian, M. E. Hawkins; Cataline, L. B. Smallwood; Goodnight, T. F. Robinson; Groom, L. Jackson; Hedley, G. H. Bryant; Higgins, E. R. Wallace; Lakeview, W. P. Edwards; Memphis, B. W. Dodson; Miami and Pampa, A. C. Smith; McLean, J. C. Carpenter; Newlin, A. V. Hendrix; Plymouth W. F. Moore; Quail, J. A. Aaron; Shamrock, W. M. Pope; Washburn, A. H. Hussey; Wellington Station, A. L. Bowman; Welling ton Circuit, J. B. Wood; Wheeler. G. T. Palmer; President Clarendon College, George S. Slover; Agent Clarendon College, Z. B. Pirtle; Professors Clarendon College, S. E. Burkhead, J. L. James, P. H. Willis and W. B. Mitchell.

After six weeks of suffering the Death Angel came Wednesday morning at six o'clock and claimed the spirit of Miss Helen Patterson, daughter of Mrs. A. N. Patterson of this city. Miss Patterson contracted pellagra about six weeks weeks ago while attending Baylor University at Belton. She was brought home about the sixth of October since which time all that medical skill and human hands could do has been done to try to alleviate her suffering, but of no avail. Miss Patterson was about twenty years of age and leaves a mother, sisters, brothers and other relatives to mourn her death.—Memphis Democrat.

DONLEY COUNTY LONG STAPLE COTTON

F. P. Hilbun, living on the Latimer ranch, this year planted improved long staple cotton seed, and Wednesday brought a bale to the gin. After getting it ginned he sent a sample to Clarksville, Texas, to get it graded and find out its worth. One man in Hedley, who has had a lot of experience with long staple cotton, pronounced this bale a good one. If farmers would all improve their cotton and plant less acreage the cotton business would be so much better for all concerned.

A deal was consumated this week whereby G. C. Nelson became owner of L. L. Cornelius farm and Mr. Cornelius owner of Mr. Nelson's town property. The former will try town life and the latter farm life the coming year.

TEXAS NEEDS GREAT MEN

IV. GENIUS.

MICHAEL Angelo made the canvass glow with life and Phidias made marble speak and throughout ages civilization has felt the elevating influence of the painter and the sculptor. Their success was due to the fact that they had the ability to put the stuff in their work and what is true in art, is also true in government. We need in our Legislature men who can put the stuff on our statute books that will make industry glow with life and the soil speak with a glorious harvest.

A MASTER HAND.

To meet the issues of civilization now confronting us, we must place in position of power men who can chisel out empires and draw the tendrils of civilization Texasward. We must have statesmen who can pour wisdom into the fountain head of prosperity and who can wave the magic wand of genius over a land as full of opportunities as the morning of creation. Texas needs great men.

The President has issued a proclamation appointing the last Thursday in November as Thanksgiving day.

The gin reached its thousandth bale Wednesday afternoon and has been running steadily since. The ginners hope to get at least two thousand bales this fall.

Patronage of home industries acts as a boomerang. As the wealth of home industry increases the wealth of the state, the county and the community our own wealth.

For the man who would build a home where the conditions of life are most nearly ideal and where nature works with man and not against him, Texas smiles a radiant welcome.

The town has been full of prospectors this week. The many advantages offered in Donley county cause many people to look with longing eyes and they are coming.

C. W. Turner, sheet and metal worker of Hedley, supplied the Ring school house with a big lot of gutter, etc., this week. Hedley is becoming a good market for all kinds of merchandise.

The organization of "Get Together" clubs has been the order in a number of Texas towns. Whether such clubs are organized or not is not so material as getting together. Great things are only accomplished by a unity of effort.

It is just as much form of patriotism to build up the wealth of a state as it is to raise armies. Iidustrial wealth wealth is a bulwark of peace and he who honorably increases a state's wealth adds a substantial glory to her name.

Now is the time to get busy and boost for the development of state and community. Talk up the good road movement and say something about home industries and home trade. These things help everybody and put more money in our pockets than a lot of useless talk about politics and the weather.

Why do we send our cotton to New England to get it made into the cloth we have to buy back at three times its cost and with the added charges for transporting it several thousand miles? The question is too simple for an answer. Truly Texas needs more factories.

This country was visited by another good rain Sunday morning which has put a deep moisture in the ground and is a fair promise of a coming good crop year. The weather since Sunday has been fair and considerable crop gathering has been done this week.

It is estimated by manufacturers that a bale of cotton trebles in value in the process of manufacture. Hence, if only twenty-five per cent of our cotton were manufactured in the state, the value of the Texas cotton crop would be increased fifty per cent, or one hundred million dollars. Let's get more factories and keep this money at home.

There was recently held at New Orleans a conference of Governors of Southern States for the purpose of developing conditions conducive to a higher price of cotton. This meeting was well attended, there being present a number of the South's leading business men. It was generally conceded that the effectual way to bring about such conditions would be to reduce the acreage of cotton and diversify crops.

Statistics show that all of the cotton factories in England could be located in an area of ten square miles. Texas cotton last year covered 10,088,000 acres. Yet the Englishman made twice as much out of the staple in 1910 as the Texan. These are cold figures and not very pleasant to think about when we consider that we are wearing English made goods manufactured from our own cotton. How can we secure factories for Texas? By using made-in-Texas products. Patronize home industries and they will come to us. They will have to in order to get our business.

Too Many Lawyers.

Too many lawyers in a community is worse than a pestilence. When the profession is overcrowded, it forces the weak ones to developing business and the result is ambulance chasers, trouble mongers, etc., and they can learn to smell blood with the instinct of a savage beast.

The legal profession is a high calling. It adjusts the machinery of human society and when confined to its true sphere of usefulness, is an indispensable servant to civilization, but when the skill and ability of the lawyer is directed to creating disturbances, he becomes a menace to the public welfare.

You Can Be a Better Cook

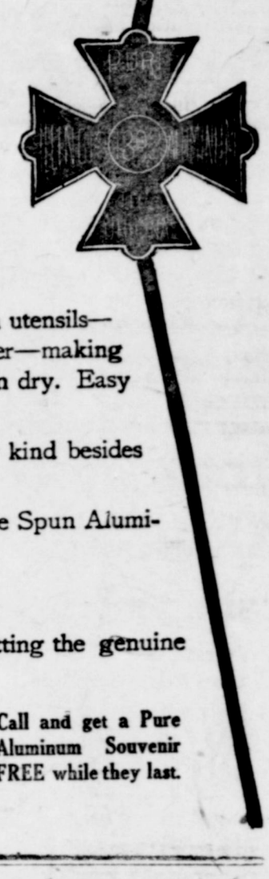
It isn't *all* in the "knack." The utensils you use go a long way toward making your food fine and appetizing or ill-cooked and indigestible.

It's impossible to make the best cookery in utensils that quickly scorch or crack and scale off, rust and corrode. And such utensils are dangerous. Authorities say that cancer comes of eating particles of glass chipped off from ordinary enamel ware when hot.

The heat expands the iron frame but the coating of glass—which is all enamel ware is—does not expand so fast, consequently it breaks and gets mixed with the food.

There is no such danger from food cooked in up-to-date

"1892" Pure Spun Aluminum Ware



It *can not* crack, peel nor chip. It *will not* rust, corrode, nor spoil food, and with harder use it lasts years longer than any other ware.

We Guarantee It for 15 Years

"1892" PURE SPUN ALUMINUM is the ideal ware for all kitchen utensils—permanently bright and beautiful as silver, but many times lighter—making it convenient to handle. Heats quickly but does not quickly burn dry. Easy to clean and care for.

"1892" Pure Aluminum utensils have all the advantages of every other kind besides several that are exclusive.

And with all these added advantages over all other utensils "1892" Pure Spun Aluminum Ware costs but a trifle more.

Look for the Maltese Cross on Every Piece

It is for your protection and benefit. Its a guarantee that you are getting the genuine and only original "1892" Pure Spun Aluminum.

Man with Money.

The man with m
ceives more ad
any other ind
of the most im
uals in the community.
ing to tell him ho
money and after ma
ment, we frequently in
ing him how to manage his bu
ness. Our interest in the matter is commendable but we should not forget that the man with money is the prime factor in our development and by no known process of economics can we eliminate him from a transaction. We can propose, but he disposes. We can submit our financial propositions for his consideration, but the man with money passes final judgment and from his decision there is no appeal. He is the final judge. This may be unfortunate and humiliating but it is nevetheless true and if we are going to develop Texas, we must first have a heart-to-heart talk with the man with money.

Good Roads.

The farmers everywhere are giving their earnest support to the good roads movement for they realize that good roads will cheapen transportation, promote social intercourse and make farm life more attractive.

Steamship Lines.

In describing the greatness of Texas, we invariably recount our railroad mileage, our public highways, our agricultural area and our industrial opportunities, but to gain a clear conception of our power and our possibilities, one needs to navigate our rivers and sail our seas.

A new steamship line opening up commerce is almost as valuable to our prosperity as a new railroad. We now have forty-six steamships plying out of Galveston and the flag of every nation on the globe can be seen floating from this harbor. In tonnage it ranks second to New York.

We have 1,210 miles of permanently navigable rivers which we have practically deserted and considering that freight can be transported by water for two mills per ton mile against one cent by rail and forty-three cents by public highways, we gain a conception of what waterways mean to our commerce.
