Armyworm Control Still Necessary

Lyndon K. Almand, area entomologist, Texas Agriculture Extension Service, said that Beet Armyworms are still causing damage in several areas and local farmer's reports show that this area is one of those Almand is referring to.

While population of the destructive insect is on the decrease in many counties, many of the small worms are being found daily in this county and area. Control applications for this pest continue here.

The Beet Armyworm made his first known appearance here more than two weeks ago and County Agent J. K. Adams reported that some fields in southern Bailey County were heavily infested with the worms, so they that they were hardly visible.

Five to Vie For Title: Entry Deadline is Near

Five Muleshoe beauties are now contenders for the coveted title "Miss Muleshoe," as the entry deadline is drawing nearer.

Three of them have been revealed and the remaining two will be announced as soon as completed arrangements are made.

Those announced are Kay Coppedge, Kathy Williams and Vickie Henexson.

"Miss Muleshoe" has the

privilege of representing the city and county in many special events which has been considered quite an honor and pleasure by the past two reigning beauties, Mrs. Bill Russell, the former Sherri Smith and the 1967-68 title holder, Miss Diane Bryant.

Those who have not entered may do so by contacting Jerry Hutton at Richland Hills Tea-

tion is taking its toll in parts of Dawson and Gaines Counties. Light infestations are reported in Lubbock, Floyd, Lynn and Lamb Counties.

Counties reporting the decreases of significance are Mitchell, Lynn and Martin Counties.

Flea hopper infestations continue to be light in several counties with very little activity being reported overall, the entomologists report shown.

Aphids and thrips are the more common insect, familiar to area farmers. The report this week shows the thrips are of major concern to Bailey County farmers. Light infestation of both thrips and aphids are reported in surrounding counties.

Medium to heavy infestations of the Beet Armyworm are yet reported from Kent, Terry and Cochran Counties along with Bailey, while a heavier infestation is taking its toll in parts of Dawson and Gaines Counties. Light infestations are reported in Lubbock, Floyd, Lynn and Lamb Counties.

Cotton variety is becoming more and more important, Plains Cotton Growers review outlines.

This year, green cards can identify cotton by variety and they may be obtained at the request of the farmer. These cards can be of great benefit in marketing, if not misused.

The correct use of the green card will depend on the farmer and ginner in being careful not to put the variety on a bale unless and until you know the bale contains that variety and only that variety.

The PCG emphasizes that more and more mills are specifying variety because they have learned to depend on the spinning characteristics of a given variety and micronaire. Some mill men say the days may come when it will be harder to sell a bale of cotton of unknown variety than it is to sell unlabeled canned goods.

Farmers are warned by Plains Cotton Growers to never mislabel as it will soon be spun on machinery and by spinners who can spot a mislabeled bale of cotton as quickly as a car spots watered down gasoline.

Mature cotton of all staples should find ready markets this fall. This should be true if the buyer is sure of the variety he is getting. Contact with your ginner should disclose ginning for variety purity and methods of identification. Then harvesting by variety should be the methods used for best results.

COTTON LOAN

One year extension of 1967 crop cotton loan has been requested by PCG. If it is granted, it will keep cotton now in loan in the hands of the producers instead of CCC taking over August 1. As in the grain sorghum re-seal program, producers could then take advantage of any favorable price movements. The United States Department of Agriculture reports that a decision on this request should come soon after the first crop report on July 8.

A report on the study of 11 High Plains cotton varieties are conducted by Plains Cotton Growers each year through the Textile Research Center at

Texas Tech. The research which will be reported upon shortly gives carding and spinning performances data developed on mill-size equipment. Cotton tested from the 1967 crop includes staples from 1 inch to 1-5/32 inches. Previous reports evaluated shorter cottons.

GRAIN SORGHUM

Grain sorghum loan adjusted upward on the High Plains for 1968, PCG points out.

Increases will average about six cents per cwt. for area counties. This is reported to be a result of the efforts in Washington by Grain Sorghum Producers Association, headquartered in Amarillo.

Producers with 160 acres of sorghum should realize about \$600 more income this year.

Limitations of the farm program payment to individual farmers are more and more a threat as pressure to cut Federal budgets gain momentum. Limit still expected to be proposed when the bill to extend the Act of

'65 hits the House floor. Congressman George Mahon and others in the House, fortified by PCG with examples and projected ill-effects of such a move plan a hard fight. Another attempt will be made in the Senate and Plains Cotton Growers are also furnishing Texas Senators with the proper "ammunition" to work against it.

Farm programs cannot survive with limitations and the purpose of the programs are to

progress of the county and give a progress report of the past history of the county and its progress.

Sen. Hightower Education Meet

AUSTIN-Gov. John Connally today announced the appointment of State Sen. Jack Hightower to represent Texas at the annual Legislative Work Conference on Regional Education to be held in Austin, July 11-12. He has attended this conference as a delegate for three consecutive years.

Sen. Hightower, who is from Vernon, was elected to the Senate in 1965 from senatorial district 30. He is chairman of the Senate Contingent Expense Committee and a member of the committees on Finance; Insurance; Agriculture and Livestock; counties, cities and towns; Labor and Management Relations; Oil and Gas; Water and Conservation; and Legislative, Congressional and Judicial Districts.

TSTA SAYS: LOOK AGAIN

Big Spenders on Education?

Texans who think they are big spenders on education should look around at other states.

For each public school pupil in average daily attendance, Texas spent an average of \$492 last year in current expenditures. But that was far below the \$619 average for the nation.

This is one of the striking new facts found in a new Texas State Teachers' Association publication, "Where Texas Ranks: Vital Statistics About Our Standing in Public School Education."

Texas state government and local school districts have made great strides in support of education during the last decade. But other states have been taking larger steps, the TSTA publication shows, leaving Texas with an "education gap."

The \$492 Texas now spends on each pupil is 61 percent more than ten years ago, the figures show. But the average increase for all states, during the same ten years, was 91 percent.

Texas population and school enrollment continue to grow faster than the nation as a whole, while the gap in financial support of education widens.

The statistics, gathered from a variety of official sources listed in the publication, show Texas' population has grown by 13.5 percent since 1960, compared to a national growth rate of 10.4 percent.

This total population gain ranks Texas 14th among the states in rate of increase since 1960.

School enrollment in Texas has grown 23.4 percent in the last ten years, exceeding the national rate of 35.8 percent. With almost 2.6 million pupils, Texas ranks third in school enrollment this year.

Determining whether school children have qualified teachers is "a job for people like you who pay the taxes and make education decisions," a foreword in the TSTA publication directed to the public states.

One way of measuring the quality of education, the report says, is through comparative statistics.

Another statistical fact cited is that Texas this year ranks 33rd among the states in average salary paid all public school teachers. The Texas average salary for teachers is \$6,500, compared with the average of \$7,296 in all states.

CU CHI--Jose S. Ambriz, son of Mr. and Mrs. Manuel Ambriz, Lyford, was promoted May 20 to Army sergeant in Vietnam where he is serving with the 1st Aviation Brigade.

Sgt. Ambriz, a pathfinder in Headquarters Company of the brigade's 26th Combat Aviation Battalion near Cu Chi, entered the Army in April 1967, completed basic training at Ft. Bliss, and was last stationed at Ft. Benning, Ga., before arriving in Vietnam last November.

The 24-year-old sergeant-attended Lyford Consolidated School, and was employed by Foster Fertilizer Company, Lazbuddie, before entering the Army.

The sergeant's wife, Maria, lives in Muleshoe.

Texas is improving in the retention of students, however. The number of high school graduates increased 45.3 percent from 1962 to 1967, compared to a national average increase of 42.8 percent. In this category, Texas ranked 19th, one of its highest educational ratings, SAN ANTONIO

The Texas State Teachers Association has thrown its full weight behind application of professional sanctions against the South San Antonio Independent School District.

Meeting in Austin, the TSTA executive committee reinforced last month's action by its own advisory committee and by the local TSTA unit in South San Antonio.

The sergeant is a 1951 graduate of Hubbard High School. His wife, Stella, is the daughter of Mr. and Mrs. Howard Crook of 311 Second Street, Farwell.

Water District Board Resolution Doubles Pay for Tax Assessors

County Tax Assessors and Collectors in a 14-county South Plains area stand to benefit appreciably if a realistic proposal by the High Plains Underground Water Conservation District No. 1 Board of Directors is successful.

The District's Board passed a resolution doubling the amount the Water District is willing to pay the affected counties for assessing and collecting the District's maintenance taxes.

Legislative action, likely in form of a local bill, will be required for implementation of the proposal.

Since 1952, the District has paid one percent compensation for assessing, one percent for collecting, and in case of delinquent taxes - five percent for collection.

Under the new proposal, two percent would be paid for assessing, and two percent for collecting to compensate for rising costs being experienced by the county agencies. Delinquent collections still would be compensated at the five percent rate.

A proposed amendment to the existing related legislative acts has been forwarded by the High Plains District to Rep. Bill Clayton, Springlake, Chairman of the Interim Water Committee of the legislature.

The Board, acting through its manager, has asked opponents to make a presentation before the committee at its next meeting to discuss the proposal.

Efforts also are being explored to get the amendment on the agenda for the special legislative session recently called by Gov. Connally.

Counties affected would include Armstrong, Bailey, Castro, Cochran, Deaf Smith, Floyd, Hale, Hockley, Lamb, Lubbock, Lynn, Parmer, Potter and Randall.

John Woodson Rank Advanced

Radarman Third Class John A. Woodson, USN, 24, son of Mrs. James F. Bailey of Friona, was advanced to his present rate while serving aboard the destroyer USS Robert H. McCard of the coast of Vietnam.

His advancement was based on time in service and rate, military appearance, performance of duties and passing the Navy-wide test for promotion.

His ship is homeported at Charleston, S. C.

Since June is the favorite month for matrimony, now is a good time to give the girls another "watch-out-for" -- WATCH OUT FOR the Internal Revenue computer. You have changed your name, but the IRS computer still has your name as Miss Jones instead of MRS. Smith. Get your name changed on your Social Security record right now. Last year a lot of beautiful brides didn't remember to change their name with the Social Security Administration, and instead of getting back that income tax refund, they got a nice little letter from the computer saying "who are you?" Of course, they did get their refund -- or will get their refund -- as soon as they get the name correction form back and their tax return goes through the mill again. So, Brides, as soon as you are sure that you are a MRS., mail in the name.

Miss Mary Elizabeth Sanders became the bride of William Henry (Bill) Buell Jr. in an impressive double ring ceremony Saturday night, June 15, at 8 p.m., in the First Baptist Church of Muleshoe.

The bride is the daughter of Mr. and Mrs. Robert Sanders of Muleshoe. The groom's parents are Mr. and Mrs. Henry Buell of Lubbock.

Rev. Leon Hokett of Dallas, uncle of the groom, read the service.

Given in marriage by her father, the bride entered the church amid an archway of yellow and apricot flowers entwined with English Ivy and other greenery. Two candelabras on either side of the archway complemented two baskets of yellow and apricot flowers.

The bride was attired in a formal length white peau de soie gown, accented by Chantilly lace train and bell sleeves. She carried a bouquet of white stephanotis centered with a white orchid atop a white Bible.

Mrs. Norman Brantley, sister of the bride, was matron of honor. She wore a formal length gown of apricot shantung, accented with scalloped neck and hemline. She carried nosegays of yellow and white daisies.

Bridesmaids were Mrs. Robert L. Sanders of Amarillo, sister-in-law of the bride; Mrs. Ernest Naegele, Lubbock, sister of the groom; Mrs. Randy Deutsch, Richardson and Miss Janet Kinard of Lubbock. They wore gowns same as that of the matron of honor.

Flower girl was Pam Naegele of Lubbock, niece of the groom. Candlelighters were Misses Kathy and Marcie Williams of Muleshoe, Ringbearer was Kevin Naegele of Lubbock, nephew of the groom.

Pam Naegele wore a formal length dress of apricot shantung accented with scalloped

neckline and hemline. Groomsmen were James Starrett, Arlington, uncle of the groom; Donald James, Lubbock; Gary Mohon and John Beck, both of Lubbock.

Seating the guests were Robert L. Sanders of Amarillo, brother of the bride; Norman Brantley, Houston, brother-in-law of the bride and Ernest Naegele of Lubbock, brother-in-law of the groom.

Henry Buell, father of the groom, served his son as best man. Miss Sonja Bass provided wedding selections and soloist was Johnny Wilson of Lubbock.

The reception was held in Fellowship Hall of the First Baptist Church. The serving table was covered with a white cloth with apricot flowers and two candelabras with apricot candles accenting the centerpiece of the bridesmaid's bouquets. A wedding cake and lemonade punch were served.

After a wedding trip to points of interest in New Mexico, the couple will be at home after June 27, at Monroe Apts., Arlington.

For her traveling, the bride chose a blue knit dress and coat to match with gold buttons and white pillbox hat and white accessories.

The bride is a graduate of Muleshoe High School and Texas Tech and is a member of AAUW of Muleshoe.

The groom is a graduate of Monterey High School, Lubbock, and attended North Texas State University.

The bride has taught Special Education in Muleshoe schools for the past two years and will teach in Arlington schools this fall. The groom is in school at North Texas.

Bobo Family Holds Reunion

The Bobo family reunion was held in Muleshoe for the first time since they have been getting together since some 30 to 40 years ago.

Z. B. (Zack) Bobo and Elizabeth (Betty) Bobo (now deceased), father and mother of the Bobo children were married June 9, 1885 in Rhome, Tex. To this union, 12 children were born, eight of whom are still living.

They held the family reunion on their father's birthday until his death and then on their mother's birthday until her death in 1962. Since that time, they have met on their parent's wedding anniversary, which is June 9. The weekend nearest to that date is the time of the Bobo reunion now.

Some 18 members of the family chartered a bus at Fort Worth and arrived in Muleshoe. Others came from Hereford and Midland. All of the immediate family, including three brothers and five sisters, were here for the reunion.

Fat Bobo, of Muleshoe, took his family on a tour of Muleshoe, which was probably the first time in Muleshoe for some of them.

On Saturday, they went to King's Feed Lot and Harold King told them of the operation there and also the Hartley Dairy which they found interesting. On Saturday night, they enjoyed a chuck wagon supper at the Bill Jim St. Clair farm. Sunday morning, a breakfast was given, honoring the family in the Charles Lenau home. Bobo reported that all the family had a good time and appreciated the hospitality of the Muleshoe folk.

They also visited the different churches in Muleshoe and the Mule Memorial. The five sisters and two brothers present were Mrs. Carl Christian, Decatur; Dr. Zack Bobo, Arlington; Mrs. Fate Renshaw, Rhome; Mrs. Dewey Ellis, Rhome; Dr. Tom Bobo, Midland; Mrs. E. E. High, Rhome and Mrs. Bob Huddleston, Fort Worth.

Josephine Wenner Host Dorcas SS Class

The Dorcas Sunday School class in the Trinity Baptist Church met in the home of Josephine Wenner, June 11.

Opening prayer was led by Bonnie Harlin and the devotional was brought by Odessa Slayden from Psalms 61:3-10. Minutes were read and approved as read.

Two poems were read by Odessa Slayden: "Thirst" and "What We Live For." Alma Henly dismissed with prayer. Refreshments were served in the backyard patio to Amanda Bergstrom, Loyce Brewer, Eva Ashford, Opal Pugh, Odessa Slayden, Alma Henley, Bonnie Harlin, Roxie Hoover, Vivian Morris and the hostess, Josephine Wenner.

The next meeting will be in Alma Henley's home in the country.

Moves made to restructure and reevry setup.

In Fashion

Belts are fashionable this season. They may be narrow or a chain but the wide belt is the favorite. A rather wide belt with a buckle on a two piece bathing suit is new. This suit has a bare midriff but adequate pants and bra—not the skimpy kind.

Belts are also in evidence on many of the dresses. The high-waisted frocks may have a half belt that ties just under the bust or a cloth belt with long ends may be tied at the side of a natural waistline.

PLANS REVEALED--Mr. and Mrs. Guy Austin of the West Camp community, announce the engagement and approaching marriage of their daughter, Mikala to Tommy Harbert, son of Mr. and Mrs. Tom Harbert of Dumas. The couple will exchange wedding vows August 16, 8 p.m., in the West Camp Baptist Church.

Recipe of the Week

By Sarah Anne Sheridan

PUMPKIN PIE

This is the beginning of the pumpkin season and naturally my thoughts turned to pumpkin pie. While this recipe calls for canned pumpkin you could use the equivalent of fresh pumpkin.

- 2 cans pumpkin
- 1/2 c white sugar
- 1 c brown sugar
- 1 large can evaporated milk
- 8 eggs
- 1 t cinnamon
- 1/2 allspice
- 1/2 ground cloves
- 1/2 salt
- 1/2 ginger
- 1/2 nutmeg
- 2 t vanilla

Mix all together and pour into unbaked pie shells. Bake at 425 degrees for 15 minutes then lower heat to 350 degrees and continue to bake for 30 minutes or until done.

*This will make 2-9 inch pies.

"The others going from Bula were Rev. and Mrs. Leo Buschur, Donna and Diane Crume, Margaret Richardson and E. O. Battles.

"The mission was called 'A Revival on a Mission Field' and this is what was accomplished in a week.

"The Llanos Altos Association helped sponsor a 10-day Spanish mission experience in Donna and Alamo and there were 42 people who made this trip from this association.

"Four Vacation Bible schools were held at this time and this is where they were located: One on Benetz Street in Donna; one on El Gato Street, or commonly called 'The Cat,' just outside the town of Donna; one on the River Road and the other in the First Baptist Church in Alamo.

"Vacation Bible schools were held in the morning. Everyone went visiting and witnessing in the afternoon and at night held revival services outside. In these ten days, 150 people were won for Christ and over 500 Bibles were handed out.

"How often we read of a revival on a mission field, but never experience it. This week we personally say it happen in Donna and Alamo."

She concluded, "It would have never happened if Christ was not living in us and if we did not have a genuine burden for lost souls. No amount of words will ever be able to tell anyone what this experience has meant to our lives as well as many others. It was a wonderful and glorious week."

Go To Church Every Sunday

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Colman Adv. Ser.

Isn't it grand when the whole family reunites on holidays or on anniversaries! How good to see grandparents and great grandparents and the new crop of babies. Seeing them all together gives you a feeling of continuity, and a sense of oneness with all creation.

It gives you, also, a glimpse of God's plan in the life cycle. When you see the off-spring of the patriarch grandfather, you marvel at the great legacy he is bequeathing the world. All the children that have issued from him are in themselves a great contribution to the world of mankind.

There is marvelous potential in all these spirits. The great things they will do thrill your heart when you contemplate them.

This legacy of lives and spirit can be strengthened, sweetened and nourished by the church. We invite you to take your family to church this week.
