To do a thing that must be done There's usually more ways than one.

> THIS means, of course, that if one way fails you shouldn't give up and think the thing cannot be done. You should try to find some other way. Often it will be a most unexpected way, a way that you discover by accident. There was the case of Busy Bee and her fellow workers when Buster Bear found their storehouse and began to rob it of their honey. They had done their best to drive him away. They had used the sharp little lances in their tails for all they were worth. If it had been anyone but Buster Bear they would have succeeded in driving the robber away. But though they

red-hot needle had been thrust into him, he jumped from his hiding place. Before you could say Jack Robinson half a dozen bees had stung him and a cloud of them were about him. He for got his interest in Buster Bear. In fact he forgot all about Buster Bear. He had but one thought, and this was that he couldn't get away from that place quick enough. It had suddenly become altogether too hot a place for

ily stuffing himself with honey that he had had no thought for anything else. He had no idea that Farmer Brown's Boy was anywhere near. Usually his ears and his nose are ever ready to warn him of the presence of others, but this time his ears were filled with the angry hum of the bees, and his nose was clogged with honey. So he had not heard Farmer Brown's Boy approach, and he had not smelled him. Then right into the middle of his enjoyment broke that wild yell. He couldn't help hearing that.

Now, as you know, the one thing Buster Bear fears is man. He knows all about the dreadful firesticks which no one but man carries, and at the least suspicion that man is about Buster runs away. If he were cornered and couldn't run he would fight as bravely as the bravest, but he is a firm believer in the old saying that he who runs away will live to fight another day, when man is concerned. The instant he heard that wild yell he forgot everything but that he was caugh? In a bad fix. He was caught up a tree and that was no place for a betr to be with a man about, even though that man were only a boy. He lost ull interest in honey. He had but one thought, and that was to get away from there as quickly as ever he could. To climb down would take too long. So Buster just simply let go and dropped. Yes, sir, that is what Buster Bear did, he let go and dropped. Buster's bones are not like other bones. They are not brittle and easily broken. The branches below broke his fall somewhat, and he broke the branches. Down he came to the ground with a thump that would have knocked the wind from anyone but Buster Bear. And the instant he touched the ground he rushed through the Green Forest as if the Old Nick were at his heels. Sammy Jay and Drummer the Wood. pecker saw it all, Farmer Brown's Boy running for all he was worth in one direction, stumbling as he ran and slapping at angry bees, and Buster Bear tearing off in the opposite direction with a little whimper of fright with every jump, his face and coat all smeared with honey, and dirt; and leaves sticking all over him. It was so funny that they laughed until they almost made themselves sick. But Busy Bee and her fellow workers wasted no time chasing either Farmer Brown's Boy or Buster Bear. They promptly fell to work to save what honey was left and take it to another storehouse which they knew of. And this is how it happened that Buster Bear got only balf a feast after all,

WRITING of the Republican national platform was intrusted by President Hoover to James R. Garfield of Ohio, son of President Garfield and

days ago he took a J. R. Garfield rough draft of the platform to the White House and it was edited by the President who deleted some portions and made several additions.

So far nothing is known to the pub lic of the manner in which the controversial questions will be handled. Mr. Garfield is not known to have made any statements concerning prohibition, but he has already conferred with Senator Borah, an inveterate dry, who had drawn up a plank dealing with that subject. The senator had a talk with Mrs. Henry W. WASHINGTON'S police force had a problem when the hitch-hiking army of 1,500 war veterans reached the capital city to present their de mand for immediate

It is not likely the Republican convention will last more than five days, and nominations probably will be made on Friday night. The platform will be submitted on Thursday and there may be a day of open debate on prohibition and some other controversial questions.

Democratic managers also are now hopeful that their convention will be short, for they naturally wish it to have an appearance of harmony that would be ruined by a deadlock. Franklin D. NE of those experiences that you read about in books came to Alonzo Meierberg when he was thirty-one, and on the upward plunge of a wave of success as a young surgeon that was carrying

him to the top of his profession. He walked out of the office of one of his most distinguished confreres, with his own suspicion of himself corroberated. One of his lungs had a hole in it. Tuberculosis had him. The man who was considered the most brilliantly promising plastic surgeon in the city of New York, and that meant practically in America, was doomed, at thirty-one, to exile. If not permanent exile, and most probably that, then for a period of years that was apt to play havoc with the soaring of his career.

Well, Melerberg was about as logical as the average intellectual would be under such conditions. He placed his situation before him, so to speak Reckoned on the alternative advantages of remaining at his post, and dying young and perhaps brilliantly, or going off to struggle for an existence. that might not be worth the living.

With his mind, the latter alternative won. But love of life was too strong in this man to go down before the mere argument of a sophisticated brain.

In the end, Doctor Melerberg went out to a shanty town of an altitude and dryness necessary to his well being, and there took up his abode. The wide open spaces. God's coun-

try. Back to nature

Cactus Post was all those. A little smear of a town situated on the slope of a mountain that hung between desert and snow-caps. The sun came up in glory over Cactus Post and went down in magnificence. The air was as dry, as thin-tasting, as sparkling, as champagne and, every morning of his life Doctor Melerherg awoke to the incredibly lovely chipperings of birds he did not know by name, and to the clear ringing sound of axes burling into the wilderness of tree boles that lined the mountain side.

Glory hung over Cactus Post. Dewlit mornings. Peace-drenched noondays. Long, somnolent afternoons filed with what the doctor knew was sedative balm for his wounded lung. Evenings before a pine wood fire that went deeply up into the nostrils like the tickling elixir of a chartreuse. Leisure for reading that never before in all his closely packed years of struggle and endeavor had the doctor enjoyed. Boxes of books arrived from the East almost weekly, and were read! rattling tin can of a car that was to drive him the forty miles to the nearest station where he took his train, it was with the understanding that he was to return to them in the autumn. His shanty was to be there and waiting. His friends.

Like a sneak, the doctor turned his back on Cactus Post, knowing he had lied to them and yet had lied out of the kindness of his heart. The little group of them waving kim good-by. The fellows. Bless them. The handful of women in their callco who had been so kind to him. Mrs. Hodges, the general storekeeper's wife, who had norsed him through bronchitis. Sweet-eyed Clarissa who had tended

Life! Vitality. Sophistication. Here were the men who made the universe go around. The women who made the universe matter.

The city caught him up once more. Goaded him. Spurred him, Within the month he was on the old tread-mill again, straining, yearning, aspiring. The young doctor was back in the race. The profession which had practically forgotten him began to turn an eye upon him again.

The doctor was back again. Cured. In the race.

And after the first six months, it was borne in upon an amazed, a startled young doctor that the race no longer mattered. His work, the scientific curiosity that spurred him on, his love of it, could not be best pursued here in these marts of men.

The doctor had tasted of the beauty and the peace and the nobility of quiet. He missed the ring of axes into wood. The gibberish of birds against dawn. The largest of these, perhaps the biggest organ pipe ever constructed, is some thirty-seven feet long and twenty inches in diameter. Of zinc, reaching up four stories, it weighs 673 pounds. But across from it one finds the small est pipes, hardly thicker than a wheat straw and only a third of an inch long. Their tone is a whole en octaves higher than that of the cast bass pipes.

There are two motors for the main organ and one for each of the other four. The main organ requires up to 100 cubic meters of compressed air a minute. More than 425 miles of wire were required for the varis connections.

During the summer season the organ is played at noon every day, and the great cathedral is filled by visitors. To hear it is an experience which no one will ever forget .- Boston Transcript.

And yet it must be admitted that as the months marched along and then the years, such a nostalgia began to lay hold of the doctor that the heart of him was almost as sore as his healing lung had been.

Years of the covote-riddled, night silences. The flaming sunrises ushering in the long, somnolent days. The gorgeous sunsets ushering them out.

The old days began to gnaw at him. Closing his eyes of an evening beside his book-stacked fireplace, the doctor could visualize things back home. The incandescent-eyed city. Women who were a million years and three thousand miles alien to these husky, calicoclad ones, wrapping themselves in furs and riding out into the spangled evenings. The warm, vibrant flare of life along New York's Broadway. Mental stimulant of theaters and concerts. The voice of the city. The warm, ulsing note of humanity. That was It. Humanity. The doctor was lonesome unto death. The wide, open spaces were too wide. Too open. Humanity was a charmed circle closing within it life nd love and warmth and beauty. Secretly, the nostalgia was becoming almost more than the doctor could bear. And yet, he knew that, somehow, he must stick it out for another year. He knew himself on the road recovery but he dared not h the way along that road. Anothe year, what with careful living and right habits, would see the spot on his lung healed. Another year!

Sometimes, during the passing of it, the doctor frared for his sanity. Tedlum of waiting. Terrible, terrible tedium of waiting

#### Ruin Left in Wake of West Indian Hurricane

We hear a great deal about West Indian hurricanes, but the Virgin islands have been singularly free from destruction. It seems that in 400 years there have been 140 severe hurricanes, of which only ten touched St Thomas and St. Croix.

On July 26, which is called Supplication day, all the people go to church, to ask God to preserve them from hurricanes. July 26 is considered the beginning of the hurricane season. On that day the natives pack their most valued possessions and begin to watch Signal hill.

When a storm is coming the government runs a flag up on Signal hill-a red flag with a black disk. When a second flag appears every one runs to

The houses are all provided with heavy wooden shutters, to shut against the wind and rain. Masters and servants hurry about with hammers, nailing bars that close doors and windows.

When the third flag appears the hurricane is near, though there is always a warning of several hours. Then the world grows dark, and bot, and still. Not a leaf moves. It seems as though there must be a mistake. Then, suddenly, the gale breaks.

The usual length of a hurricane is 12 hours. The wind tears off roofs and uproots trees. The rain makes noise beyond belief. And the black night is filled with lightning. The sea comes in and floods the town, tearing up the cement waterfront, beating down the cabins on the shore.

At last it is over. Crops and groves are ruined. Great paim trees are felled. And there is devasiation everywhere. But the sky is blue as heaven. And the sun dances on the waves. And the people all go up to church, to thank God because be spared their lives.

After such a plea as Judah had it is not surpri could no longer restrain himself.

1. He declared his identity (vv. 1-3). This act on the part of Joseph troubled them. It ought to have made them glad. Under ordinary circumstances this would have been a time of exceeding joy, but their sins were in the way. This not only affords a beautiful example of forgiving love, but most beautifully illustrates Christ's dealing with his brethren, the mobile that had driven him the many Jews. When the seven years of famine came his brethren who had left him and sold him were compelled to come to him for aid. Joseph dealt severely with his brethren to test them and to bring them to repentance. 2. He bade his brethren come near

to him (vv. 4-8). When he revealed himself to them, the remembrance of their sins pierced them through. How just it would have been now for Joseph to take vengeance upon them. Joseph's first question was about his father, showing that his desire was to put their thoughts far away from their crime. He invited them to come near unto him and assured them that God had overruled their crime for salvation. They meant it for evil, but it was part of God's plan for good. He comforted them. This is exactly what Christ will do for his brethren, the Jews. He will become reconciled unto them and become their Saviour and Benefactor. Just as all Egypt was obliged to come to Joseph for sustenance, and become the servants of Pharaoh through him, so will all the world come to Christ for his blessing and be reconciled to God through him. 3. Joseph sent his brethren away with good news (vv. 9-15). As soon as Joseph's brethren knew him and were reconciled to him they were sent with glad tidings to their father. As soon as the Jews come to know Jesus Christ as the Messiah he will send them away to the ends of the earth with the good news of his saving grace.

#### CHAPTER IV -4-

#### Red Tragedy

Wilson drew up among the scrub pines on the side of the hogback across from Yerby's cabin. These days he followed roundabout trails and moved with extreme caution. For his life had been posted by a man who never made vain threats. It was the sight of a white-faced bay standing in front of the house that brought him up short now

With the trained eye of a cowpuncher he recognized the horse instantly. He had last seen it on a certain moonlit night and Julia Stark had been in the saddle. But he had no certainty that she was using it today. Some one else might be waiting for him in Jim's cabin-say Jasper Stark or his father or that Texas killer, Gitner. He decided to play safe.

From its place beside the saddle he drew a rifle and tested its mechanism. This done, he crept on all fours through the greasewood and the yucca till he had put a long hundred yards between him and Jim-Dandy. Behind a clump of cholia he squatted and watched the house patiently. For nearly half an hour he did not stir. Except his eyes he was motionless as a statue.

Julia Stark might not be alone with Yerby, though the fact that he could see only one saddled horse pointed to that conclusion. With the greatest care, he worked toward the house from the rear. /

When at last he reached the window Wilson raised his head slowly and looked inside. Julia had seated herself and was evidently just about to read aloud from a book. Jim was sitting in a chair with his leg propped up in another chair in front of him

Wilson went back to his horse, rode across the arroyo, and shouted, "Hello the house !"

Miss Stark came to the door. She stood, erect and uncompromisingly hostile, watching him as he dismounted. Her dark look was like a flashing sword.

Julia she was jest startin' to read to [ if it lay within his power, he must ] me from this here David Dickens book."

"David Copperfield," Julia corrected. "Sure enough. Dickens he's the fellow that owns the brand. Well, I was sayin' that this Steerforth duck, the one that done li'l Emily dirt, why some one had orta hung his hide out to dry, seems like. I don't hold with dryguiching, you understand, but there's times-'

The nester stopped abruptly, the springs of his garrulity dried up. A glance at Ann Gifford's frozen face had done it. He recalled the rumors that had come to him as to the reason why Nora had gone to Los Angeles and embarrassment flamed in his countenance.

McCann rescued him by commenting on the number of characters in the book. "I never did see so many footloose folks trailin' around. There's David an' Peggoty an' Miss Betsy an' the Murdstones an' Barkis-

"Looks like he'd have trouble with all them folks millin' around in his haid whilst he was writin'," the oldtimer mused aloud. "But this Dickens guy sure knows how to throw a rope so as to cut out any of 'em from the herd when he's good an' ready."

Ann Gifford did not stay. Her manner implied that she wanted to have nothing to do with any of them except Yerby.

The nester spoke first. "I'd like right well to do something for her an' her li'l sister if I knew what," he said, wrinkling his forehead in thought. 'O' course sheep are pests. I ain't denyin' that none. But seems like these girls ain't hardly to blame because old Andy Gifford was so mean and obstinate he plumb wasn't contented till he'd started trouble." "Exactly how I feel," McCann

agreed. Julia had opened her lips to say sub-

stantially the same thing, but she closed them again without speaking. She did not intend to be of the same opinion as Wilson McCann on any subject.

Nevertheless she had a word to say to him, and before she left she said it. He had stepped out to bring a bucket of water from the spring. She met him under a live oak a few yards from the house.

"You know my father is looking for you?" she said abruptly. "Some one did mention that to me,"

he said. "Why don't you go away? Why don't you leave the country?" she demanded. "Because Matt Stark has served notice on me of his intentions?" he asked grimly. "What kind of a man would I be if I ran away after that? Am I the one lookin' for trouble? Did I print bills sayin' I'd kill him on sight?" His face was hard as hammered iron.

strike her to the heart. Much stirred, he watched her lissom

young body as it moved with light rhythm toward the house. She belonged to the enemy clan, but he could not hold her in cold disapproval. An enemy, yes! But already he knew her a very dear one whose presence filled the secret places of his being. . .

As Jasper Stark moved about the streets of Mesa with his slouching gait his eyes furtively questioned public opinion to discover what it thought of him. His manner of braggadocio still sat on him, but it was a hollow mockery. He was full of shame, resentment, and self-pity. Hatred surged in him

of the Gilt-Edge and looked at young Stark with a scarcely veiled sneer. "Want to see me?" he asked. "Yep. Heard the old man say anything about me, Cari?"

"The old man don't mention yore name. It's understood at the Circle Cross that Matt's through with you. Why?" "Sit down," Jasper growled, with an-

noyed impatience. "I wantta talk." He pushed the bottle on the table toward the other man. Gitner took a chair and a drink He offered no comment. There was a tactical advantage in forcing the other to lead and he availed himself of it.

"Shove that bottle north by west," Stark said surlily, and then poured himself a large drink. He tossed it lown at a t at once replenished the tumbler. Morosely he eyed the liquor. "The old man been to town this week?"

stand for it." "You can't help yourself." Julia told him curtly. His boasting was an old story with her and she gave it no weight. "What's the matter with you anyhow, Jas? Why didn't you stand up and fight Wils McCann?" "Tell you he hit me when I wasn't Tell you I was dazed an' I fell. He jumped me when I was down.

It's the honest-to-God truth." She was convinced he was lying to save his face, but there was no use telling him so.

"Away from here." "Who said I was going?" "Why, I thought-Dad said-"

"I don't care what he said. He's not runnin' me. When I get good an' ready maybe I'll go an' maybe I won't.'

She came to a subject that never was long from her thoughts. The fact that she mentioned it at all to her brother, from whom she could expect no help, showed how much the dread of it obsessed her. "I'm worried about Dad-awfly wor-

Well, you tell him something for me Jule. He's not the only man that's lookin' for Wils McCann.'

Famous Beauty Expert

#### Fear of This and That

Some women are born worriers, atways full of apprehension. Think of all the things you have dreaded and feared. How many of them have really happened to you? Whether you are twenty-fifty-or eighty-you have probably spent a lot of energy worrying about things that never happened. The energy wasted in apprehension would have accomplished many worthwhile things! Fear, worry, and apprehension kept you from doing or attempting many things you would have liked to attempt, things you would have enjoyed and which would have made you a more versatile and interesting personality. For such emotions react upon the nerves. They diminish initiative and creative ability. Why meet life like a child in the dark, who fears there is a bear in the dark recess of the hall, and a bugaboo in the closet? Build up your resistance by using your energy for exercises which build and strengthen muscles; by sleeping in well-aired bedrooms; by keeping your house at a reasonable, even temperature; by taking baths and rubbing the body briskly with a Turkish towel to remove all clogging dead flakes of skin. You will improve your circulation to an extent which will increase your resistance against taking colds. Sensible diet and avoiding con-

#### stipation will increase your resist-ance against colds and against many other ills.

If you are always fearing this or that disease, you are probably always fearing this or that accident. If you are, you are depleting your physical health, and are depriving yourself of so many pleasure and personal contacts. Build up your health and tackle some of the bugaboos. Bo some of the things you fear to do, and rid yourself of such phobias.

Arm yourself with, common sense judgment as to precautions against disease and the accidents of recklessness, but don't be a coward. Cultivate a valiant spirit. Then the beauty treatments I prescribe will have a firm foundation. For an uplifted spirit will lift the face, without pain, danger or expense! You all know the adage "don't trouble trouble until trouble troubles you." It is a wise sayingthat.

"How's Jim?" he asked.

She stood aside to let him pass into the house, gathering her skirts close so that he would not brush against her as he went by. Nothing could have expressed more positively her detestation of him than that disdainful gesture.

With fingling spur he moved across the room. "How are you, Dad?"

"Fat like a match. Whad you know that's new?"

"Not much, Gather of beeves on Poison creek next month. Some more rustling up in the hills, they say."

McCann chatted easily, casually, with the nester, ignoring the burning resentment that held the girl passionately silent. His manner was coolly Indifferent, but not for a moment was he off guard.

Watching him covertly, Julia saw a sudden change in the lounging figure. The back straightened and the muscles grew taut. Every sense had quickened to life. For some one was coming up the path toward the house.

Julia moved quickly to the door, then drew a breath of relief. She had dreaded and half expected to see her father. But the approaching figure was that of a young woman.

The new arrival was Ann Gifford. She had brought with her a cake. Since Yerby's accident she had been in the habit of coming every day to supply the simple needs. Even her fierce aloofness had not been proof against the little man's good will. Nobody who knew him could co..tinue to dislike Jim Yerby.

"Meet Miss Julia Stark, Miss Gifford," their host said, and after pronouncing the formula added: Julia she's jest back from Los Angeles, where she's learned 'most everything they is to know outa them schoolbooks, I reckon.

Julia laughed at this testime onial as epped forward to shake hands She had wanted to meet the Gifford girls ever since her return. Ann was still holding the cake and she did not

"You know why he did that-because you jumped on Jasper when he wasn't looking and beat him when he couldn't defend himself." He laughed, scornfully. "That's the

story he's telling, is it?" "And now Father's crazy mad. If

you don't go away-' "I'm not going," he cut in harshly.

"Then some one will be killed," she cried despairingly.

"Yes."

His brown competent fingers' were on the barrel of the rifle he had been carrying in one hand. There flowed through her a sense of his virile power. This man was dangerous. His force expressed itself in the cool juiet eyes, in the clean lines of the face and figure, in a certain wary stillness that meant reserve strength.

"If you'd only go-while there's still time\_

Her distress touched his not very accessible heart, the more because he knew her capable of fierce and primitive passion. Independence and courage were of the essence of her. But her pride could not stand out against the shadow of tragedy hovering in the background "I can't go. What would folks say?"

"Does it matter what they'd say if you were doing right?" she asked.

"It would matter to me. Besides, I'd not be doing right to go. This is where I live-the only country I know. I can't let anyone run me out. I've got to go through."

"Why have you?" she pleaded. "It's all wrong, this feud. If you'd just go away, for a while, maybe things would quiet down. Then you could come

He shook his head. "No, I can't go. I don't want to have any trouble with yore father, but if he's bent on it, why it'll have to come."

With a little gesture of hopelessness she gave up. It was of no use. Before making the attempt to move him she had known it would be. For according to the frontier code he was right. one but a weakling could run away after an enemy had served notice that he was looking for him.

As she turned away his voice stopped

"No. Last time he was in was the day he read the riot act to you," Gitner grinned maliciously. "But he's had Fletcher out to the ranch an' they spent 'most a whole mornin' together.

Jasper gloomed at his drink and poured it down his throat without visible pleasure. "He was making a will, don't you

reckon?" he said at last. "l reckon.

"Question is, has he signed it yet?" "If you want to know, who don't you go ask him?" suggested the Texan with sarcasm.

"I don't need to ask him. He hasn't Fletcher would draw it up when he come back to town. That would be the way they fixed it. But Fletcher had to leave Thursday night again for Phoenix to argue a case before the Supreme court. He got back this afternoon, not more 'an an hour ago. He'll finish writing up the will tomorrow." "Looks like," agreed the man from

the Lone Star state. "An' he'll take it out either in the afternoon or next day."

"Sounds reasonable. Better kiss the ranch good-by, Jas." The eyes of the two met and held fast. There was something of crouched significance in Jasper's narrowed gaze. It brought the other man to a wary and alert attention. He knew that he was going to find out now why he had

been asked to come here. They talked, in whispers, for an hour, their heads close and the door locked. Not once, though they drank much, did their voices lift. It might have been noticed, if anyone had be observing them, that Gitner left the Gilt Edge half an hour before his companion. Nobody but Hans the bartender knew that they had been in the room together.

At the hotel waiting for him Jaspe found his sister. They walked a little distance down the road to be alone.

"No use, Jas," she told him. "I've fought it out with Dad and he won't sten to a word. He's cutting you out

BY HIS HOME FOLKS

Judge of this District. was honored by the citizens of his home town, Childress, Wednesday of last week, the occasion being his seventy-second birthday.

Eulogistic addresses were de livered by Rev. Garland Shell Presbyterian minister, Hon. J Ross Bell, attorney, and a fitting tribute appeared in Wednesday's Childress Daily Index From that paper we reproduce Mr Bell's speech, as follows:

This good county of Childress largely thru his efforts was organized, as later were many other West Texas counties, and in the organization of this county they elected him its first
