## Parent-Teacher Assn.

Mrs W. H. Burden has kindly consented to accept the office of president of Parent Teacher Association vacated by Mrs. J. W. Webb for the remaining year.

In the regular meeting, Jan. 6, the association decided to begin a study course, which will meet once a month, and will begin just as soon as the material arrives. Six ladies have already expressed desires to take this course. We hope more will take it.

The body voted to allow Mr. Payne \$20 to spend on the needs of the grade school.

After the business meeting, Mrs. P. L. Dishman had charge of the program. The topic discussed was Home Work. Mrs. C. L. Johnson discussed home work as the parent looks at it. She stressed the importance of parents visiting school to become acquainted with teacher's methods in order that they might aid the child with home study problems. Furthermore, she said interested parents should be P. T. A. members.

Mrs. E. R. Hooker played a piano accordion solo for the group.

The teacher who was to discuss home work as the teacher sees it was unable to be present.

The fifth and eighth grades tied votes. The association voted to divide the dollar.

The next meeting will be Feb. 5, 1938.

A good broom for 50c at Hooker's.

For Sale—Rhode Island Red roosters. See J. B. Reed.

## METHODIST CHURCH

Please, make a special effort to be present, that we may have good services. We are so anxious to start the new year right. We want to serve you this year, the best that is possible. You are welcome at the Methodist Church.

### Students Hear Gypsy Smith

The Junior and Senior Classes of Hedley high school went to Memphis to hear Gypsy Smith last Friday morning. Three students gave a very interesting summary on his talk. Calvin Reed gave a few details on his personality and Jonimerie Pickott and Seretha Gunn spoke of his life and the things that he had to say. Each was enjoyed immensely.

The Junior and Senior classes had the privilege of going to Memphis Jan. 5, and hearing Gypsy Smith. He is one of the outstanding world evangelists, and has traveled the world over; but what interested us mostly was the fact that he was a "real" gypsy.

He is about 5 ft 8 in in height rather fleshy, grey haired, and has a very dark complexion. He has an outstanding personality which won the admiration of approximately 1,000 students at the time we heard him.

His message was an inspiration to young people to live a clean and Christian life for as he said, "a clean and holy life will spoil no one."

### Prodigy Discovered

Prosecuting Attorney Riley finds Forrest Adamson to be a very unusual student. He is 18 years of age, has obtained a degree from S. M. U. in Dallas, and for five years has been a real estate agent. But unfortunately, when asked "what is the square root of four times eight" by Attorney Riley, he was unable to answer.

The cause of this unusual discovery was that Forrest Adamson was a witness in the land trial project in the Commercial Law Case. The class plan to put into practice some of the theories found inside the book cover to see if they were usable.

Mr. Payne, the instructor of the class assigned the following parts to students of the class:

Forrest Adamson and Wayne Latimer made out a deed, which was not recorded, to Weldon Simmons. On the following day they made out another deed, which was recorded, issuing the same property to Virginia Watt. Virginia Watt and her attorneys, Geraldine Riley and Loyce Mae Lowrep then brought action against the said Forrest Adamson and Wayne Latimer assisted by their attorney, Calvin Reed.

On the morning of Jan. 6, Judge Payne opened court in the music room. Mr. Gregg and the civics class acted as the jury and with diligent attention enjoyed the confused answers the witnesses gave the attorneys. J. C. Dickerson acted as sheriff and Billie Hobbs swore in the frightened witnesses.

As the trial passed on evidence was found that Forrest Adamson and Wayne Latimer were only minors; but this evidence also ruined the deeds to Weldon and Virginia. But it did not free Forrest and Wayne. Forrest

who tried to wiggle witness stand will be in a dungeon and we will wiggle out of it.

The trial is over. We are that Forrest Adamson and Wayne Latimer will know that only patent parties are entitled to sign a contract.

# PRESS THE CLUTCH

*to start quicker.*

Here's right smart footwork for right smart starting in the cold: Down with your clutch pedal before you do anything else. Then your starter and battery won't be turning the gears, but only the engine, which is just that much easier to do.

Now don't let up on the clutch, but pull out the choke (unless automatic) and then spin your starter, leaving ignition OFF.\* After a few engine revolutions, switch on the ignition.... And hark to the strong steady firing of your Special Winter Blend Conoco Bronze, which is certainly the sensible gasoline for quick starting.

Conoco Bronze always lets you do a cocksure "professional" job of starting. For that matter the way Conoco Bronze is specially winter-blended you could purposely give it the worst handling in the worst cold just for a test... and that's daring you! **Fabric Can Be Silk Crepe**

By **CHERIE NICHOLAS**

**HERE'S important fabric news.** It's about the handsome silk crepes that have so definitely come into their own this season. Which is to say that leading designers are turning to the new crepes with high enthusiasm, for in rich suede-finished pure silk crepe they have found the material that will best serve as a background to "set off" by way of contrast the gorgeous touches of colorful and scintillating embroidery and applique which have so much to do with present-day costume design.

To illustrate, note the dress shown to the left in the picture. That very applique design which you see is achieved with gold metal cloth and against the black of the elegant sheer silk crepe which fashions the dress it silhouettes to perfection. This is an up-to-the-minute mode that reaches a new high in chic and charm. It's a dress that will be outstanding in any gathering of fashionables. Just the thing to wear under the wintry fur coat and later on it will prove your favorite midseason gown. Note the straight slim "lines" so necessary to smart appearance. The coral buttons on the metal trim add a fascinating dash of color. The gloves with embroidered cuffs are adorable. Be sure to take cognizance of the clover leaf trim. It's the latest.

When milady of fashion is not wearing black this season her next choice is almost sure to be handsome dark green. In most instances the hat repeats the identical green. The idea is carried out effectively in the costume to the right in the picture. This good looking daytime dress of moss green silk crepe has the new surprise crossed bodice. There is an artful use of narrow flat vertical tucks. According to the forecast for the resort season and for early spring we may expect to see pleats and tucks in profusion throughout forthcoming fashions. The sash

that adds infinite grace to this dress, tying in front as it does, is enhanced with a colorful fringed-like arrangement formed of spaghetti cord made of self fabric. In this charming gown one sees how deftly designers are turning to self-fabric manipulation and from this point of view the new crepes are to be especially recommended.

One of the most vital themes on the current style program and one that has set the entire fashion world agog is the simple black foundation dress without which no well-planned wardrobe is complete these days. And here again the new plain weave silk crepes score a big triumph.

Another way of playing up to the foundation dress of black crepe is to lay in a stock of cunning jackets, especially bolero types. If you can sew even amateurly, fashion this season gives you your big moment in which to contrive all sorts of jacket fantasies, which slipped on over the foundation dress will in the twinkling of an eye tune your costume to the tempo of any occasion. A favorite method of procedure is to embroider the bolero all around its edges. Tremendously smart if the handwork is done in china-white beads or white wool or an applique of black or white patent leather or that which is a leading fashion, an applique of gold kid, for be assured the gold and black craze still persists. Sometimes it is a gay print gypsy sash that gives color.

Thrifty-wise women are even going so far as to have two foundation dresses of black crepe, one for practical day, the other for formal night. The latter is made floor length, the skirt being amazingly snug and subtle, the bodice sans sleeves and with low-back decollete, designed to take on versatile jackets with ease, one of which should be a bolero of glittering black sequins.

**LACY NEGLIGEEES**

By **CHERIE NICHOLAS**

Negligees, house coats or hostess-gowns have been steadily increasing in importance in the feminine wardrobe. Lacy negligees fashioned to the queen's taste are long odds the favorite this season. (The negligee here shown is a perfect example of entertaining as fashion. It has a skirt of a light color if you prefer) and a fitted bodice with sleeves puffed at the elbow of fine eggshell lace. The cuffs are zipped for convenience.

**GAY MITTENS AND GLOVES ARE SMART**

By **CHERIE NICHOLAS**

Here's your chance to go daringly fashionable this season. Be first in your set to come out gloved in a pair of crocheted or knitted mittens that for color will startle the eye. These new wool gloves and mittens are the smartest thing ever, so don't miss a chance like this to stir your neighbors into a state of frenzied envy.

A pair of these cuddly wool hand-coverings and your entire costume is dramatized. The handknit ones from Vienna are perfectly charming—have gay embroidery up the center and about the wrist. You can get scarves to match. Do not carry the mistaken idea they are simply for winter sportswear. No, indeed. The big news lies in the fact that they are worn with your "bestest" town suit or "highbrow" fur coat.

**Birds of Paradise and Flowers, Spring Forecast**

Birds of paradise and flowers or shaded breast feathers in light fuchsia and purple shades are combined in perfect harmony on Louise Rouillon's latest spring hats.

Ranking foremost is a color which individually suited to the personality and personality of well as to her mood. It is developed of helmet-like toque, asymmetric headdress, accented in color. For example, a stitched and trimmed with ostrich tufts.

**Velvet for After**  
Velvet hats are a fashionable wear in Paris collections.

**DORIS DENE'S COLUMN**

**Mature Lover Must Protect the Girl He Wants to Marry.**

**DEAR DORIS DENE:** I am thirty-six years old and am about to divorce my wife on the grounds of desertion. We are parting on amiable terms however and are both satisfied with the arrangement we have made.

Now I have fallen in love with the girl aged nineteen, who helps with my office work and also acts as day-housekeeper in my home. She is the girl I want and when I proposed to her she told me that she couldn't marry me because of the difference in our ages. She likes her young boy friends, her parties, dates, etc. I agreed with her that she should have some fun before settling down. I know once she did settle down she would be a fine wife and a good mother.

I look fairly young and am interested in many forms of enjoyment besides parties. The girl in question won't let me take her to a show or anything of the sort. Do you think I will overcome her objections to marriage? I know she is growing fonder of me daily. I am deeply in love and would make any sacrifice which would lead to her happiness.—H. K.

**ANSWER**—The man who is deeply and tenderly in love with a girl much younger than himself has a double difficulty to deal with. He must on the one hand follow the natural dictates of his heart, and propose to the lady; and he must not forget, on the other hand, to protect the girl he loves from making a mistake out of her inexperience and youth.

It is perfectly human that a suitor should rejoice in the fact of seeing his affinity daily and welcome the signs of her greater love for him.

Sometimes the girl in the case knows her own mind so definitely that her much older sweetheart can rely on her judgment to make the right decision. If she is the quiet, steady, sober-minded sort of girl who is honestly anxious for a home and for the responsibilities of marriage—she may marry the man twenty years older than herself and make a success of the job. But when a dandel indicates plainly that she is still interested in being popular when she knows her preference for young men and their ideas of a good time then her more mature admirer must take his place in the background and wait for her to make up her mind—without any persuasion from him.

Because you are looking so eagerly for signs of the sort you want, H. K., you are able to discover indications that your sweetheart is going to make an excellent wife and a perfect mother, once she has settled down—if she isn't ready for the matrimonial undertaking she will be a disappointment to you and her married life will be a bitter disillusionment to herself. Cease trying to convince her that you are her best hope of happiness. Your more mature brain and your greater depth of experience may make it possible for you to sway the feelings of your lady entirely in your direction but if her mind and heart are not truly won over to marriage the result of your victory will be bitter defeat.

**DEAR DORIS DENE:** I was married a little over a year, and my husband was good to me. Then suddenly one night he came home to tell me that married life didn't suit him and that he wanted to be free. I pleaded with him not to leave me but he went. When he was sick in the hospital I went to see him and he treated me as a friend. He has now filed suit for divorce. Sometimes I think his mother is responsible for this situation. I still love him. What can I do?—B. H.

**ANSWER**—Whether your mother-in-law was somewhere in the background directing her son's movements or not, it seems obvious that the man you married was a bad matrimonial investment. For no man in the world could be weak enough to let his mother ruin his marriage—not if he loved his wife as he should.

It is no infrequent occurrence for a man to marry without ever having given a serious thought to what marriage meant. He has simply decided that he is sufficiently in love to want one particular girl around the house all the time. Having achieved this he is literally amazed to discover that all sorts of rules and regulations have come into effect since he murmured a few unconvincing words to a parson.

However heartbreaking a wife may find her husband's desertion she can count herself lucky if she makes her discovery about his brand of devotion, early in marriage—while there is yet time for her to free herself of a hopeless entanglement and begin life over again.

Accept the fact that some men are just—that they are only that.

**Catch Up on Chic**

**IF YOU'RE** a bit behind in the thrilling game of Sew-Your-Own, Milady, why not take advantage of the holiday season and catch up? Today's trio is especially right for "vacation sewing" because it consists of simple practical pieces that require little time and trouble. Make all three and you'll have gone a long way toward putting the old punch back in the game.

**Streamlined Styling.** The slip at the left is all you could wish for from the standpoint of styling. It offers superb lines from the moderately low cut V neck, through the dart-fitted waist right down to the very hem. The clever overlapping back, is light proof and provides an action pleat so necessary for complete satisfaction. Important, too, is the fact that you may choose the material you wish in your own color. Better make it in duplicate for many meticulous months ahead.

**Pretty in Sheer Wool.** The two-piece in the center is, like the slip, heavy on style. The defined waist is effectively young as is the flowing skirt and little round collar. It is just the frock to give one lots of git-up-and-git for the second semester, or "to break the ice" whenever one is anxious about one's appearance. It can be the height of chic in sheer wool—very pretty in flat crepe.

**Modern Home Dress.** When it's home you're thinking of you naturally turn to a frock

like the third member of the trio at the right. This button-all-the-way model is different enough to delight you and simple enough to set you sewing at sight. It is cut for comfort but with an ever watchful eye on that elusive little thing called chic. Crisp contrast may be had in the collar and cuffs and in that trim row of buttons that march down the lipe—and then back again. Look fresh in your version in pretty percale.

**The Patterns.** Pattern 1946 is designed for sizes 14 to 20 (32 to 44 bust). Size 16 requires 3 1/4 yards of 39 inch fabric. One yard of ribbon is required for shoulder straps. Pattern 1404 is designed for sizes 12 to 20 (30 to 38 bust). Size 14 requires 4 1/4 yards of 39 inch material. Pattern 1390 is designed for sizes 34 to 48. Size 36 requires 4 1/2 yards of 35 inch material. The collar and cuffs in contrast require 1 1/4 yards material.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

**HELP KIDNEYS**

To Get Rid of Acid and Poisonous Waste

Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!
