McMeans Visit Son In Washington, D.C.

By Joyce Gilbreath
Editor, Bovina Blade

Bob and June McMeans of Bovina recently returned from a trip to points of interest in Washington, D.C.

They left Amarillo September 4 and flew to Chicago. Their first stop at Chicago was the Sears Tower, which is the tallest building in the world. On a clear day from the 110-story height, you can see four states. They also visited the Museum of Natural History.

From Chicago, they took an Amtrak to Washington, D.C. and arrived on September 6. Their son, Stuart, met them at the Old Union Station. Among a few interesting points they visited were the Washington National Cathedral, Lincoln Monument and the Jefferson Memorial, also, the Air and Space Museum at the Smithsonian Institute.

June commented that the most impressive was the Vietnam Memorial. She said it was so shiny and so black that it reflects the image of the people passing by.

They went to the Capitol Building, where the House of Representatives is on the left wing and the Senate is located on the right wing. They went to the office of Representative Larry Combest to get passes into the Senate Gallery. The Senate was in session and they sat in on the speeches for over an hour.

While visiting the U.S. Mint, they saw where they print money and June said when they make an error in the printing, they just shred the money up, place it in little bags and sell it.

They bought tickets for a boat ride down the Potomac River. An hour down the river was the home

of George Washington, called Mount Vernon. June related, "Any chance to get on a boat, Bob will take it."

Stuart took them to Quantico, Virginia, where the Marine I Helicopter is kept at a Marine base there.

They toured the Pentagon. Stuart's wife, Lt. Linda McMeans, works for the Chief of Naval Operations, at the Pentagon.

Stuart, who is a graduate of Bovina High School, is a Marine pilot and flies the Marine I Helicopter which transports President George Bush and other dignitaries on official business. June said they were fortunate to observe President Bush walk down the colonnade from the Oval Office onto the White House lawn and on the Marine I Helicopter.

Stuart also took them to the press room, where press conferences are held. They were permitted to take pictures in that area. On one occasion, an acquaintance of Stuart, Sean Walsh, (who is an assistant to Press Secretary Marlin Fitzwater), took them to the Oval Office. They were not allowed to enter the room, only to look inside. They were not permitted to take pictures in that particular area.

Bob and June left Washington, D.C., rented a car and drove to Detroit. While at Dearborn, Michigan, they went to the Henry Ford Museum and Greenfield Village. The restored boyhood home of Henry Ford is located there.

There were all kinds of cars and even locomotives, also, a presidential limo used by John F. Kennedy. The Thomas Edison laboratory building and a boarding house that had the first electricity hooked up to it, was also part of the museum.

From Detroit, they flew home and arrived in Amarillo on September 20. Stuart and wife, Linda, live in Washington, D.C. within walking distance of the Capitol Building. June celebrated her birthday on September 15 with a steak dinner prepared by Stuart and Linda. Bob and June saw many interesting things in the areas they visited and June commented it was a most memorable trip.

VISIT WASHINGTON....Pictured is Bob and June McMeans with son, Stuart of Washington, D.C. The picture was taken with the Marine I Helicopter.

SPS To Be Honored For Management, Leadership

Electrical World magazine honored SPS this Wednesday, October 2, as the national winner of its 1991 James H. McGraw Award for management and leadership.

Chairman and Chief Executive Officer Bill Helton will accept the honor's commemorative medallion on behalf of all employees at a ceremony in New York City during the magazine's annual Executive Round Table of industry leaders.

The McGraw Award, named after the founder of the McGraw-Hill Publishing Company, is presented annually "for the purpose of giving public recognition and expressing industry appreciation of the contribution to the advancement of the electrical industry."

McGraw-Hill is the publisher of Electrical World, as well as other magazines, including Business Week.

In singling out SPS, Electrical World's Editor-In-Chief William Hayes said the award honors the company for:

"Effectively pursuing a policy of "dynamic conservatism" that has produced rate reductions in each of the last seven years.

"Gaining a rating of excellence in service from 97% of its customers as opposed to an industry average of 73%.

"Earning awards in two states for its economic development efforts (SPS actively participates in two economic development coalitions: The High Ground of Texas and the Business Quarter of New Mexico).

"Raising interest coverage to almost five times (a measure of

how well the company controls debt).

"Winning EPA and national attention for its pioneering environmental efforts (such as SPS's development of air quality control equipment for power plants, conservation of fresh water, marketing of coal ash and other achievements).

Nominations are not solicited. Electrical World monitors the industry and selects appropriate winners. Last year's winner was Florida Power & Light Company.

Helton said the McGraw Award is recognition of the foresight and commitment of the company's former and present directors and management team; and the hard work, dedication and contributions of every employee.

"It's gratifying to be honored nationally," Helton said. "Every employee has a right to be proud of this major award."

Historians Offer New Approaches To Understanding Texas

By James F. Veninga

How a community defines itself is determined in part by how it understands its history.

Texas A&M University historians, Walter Buenger and Robert Calvert, tell us that the recording of a history is always a selective process, and the story that is told functions as a mythic text for a community. Historians are keepers of the culture, they argue, functioning much as the ancients used the spoken word to pass the mythic story of their society from generation to generation.

Contemporary scholars increasingly understand the extent to which past historians have been bound by their own cultural biases. In Texas, those biases have been considerable, resulting in a history

of the state that for far too long focused on the pre-dominant Anglo myth, devoid of adequate reference to women, minorities and average citizens of all races.

C. Van Woodward estimates the shelf life of history to be about twenty years. After that time, new scholars have emerged to question the presumptions of previous historians.

Yet here in Texas, the giants of a previous time--George Garrison, Eugene Baker, Walter Prescott Webb, for example, continue to cast long shadows limiting perspectives on Texas history.

Unfortunately, traditional Texas history has all too often had negative consequences on the formation of public policy and on the relationship between the civic and po-

litical leadership of the state and the citizenry as a whole. A portrait of Texas shaped by 19th-century experience is hardly a guide to solve late 20th-century problems.

But this is changing. Buenger and Calvert believe that the myths of Texas are overdue for thinning and replanting. New trends in historical research and scholarship are helping us evaluate the past in new ways, such as those discussed in *Texas Through Time*, a collection of essays recently published by Texas A&M University Press and edited by Buenger and Calvert. The new social history has helped to recover the lost history of women, minorities and the non-elite. It has led to more emphasis on labor and economic history and on the history of our cities. And never before

have historians borrowed so much from other disciplines--sociology, for instance. Thus, a truer, fuller, more inclusive portrait of Texas is emerging.

All this has raised expectations that we will be better prepared to address serious problems of the environment, to care for the disadvantaged, to improve public education, to make state government more efficient and effective, and to find new ways to help ensure sustained economic development.

This is the second in a series of eleven articles made available by the Texas Committee for the Humanities as part of a three-year project focusing on the future of Texas. James F. Veninga is executive director of the TCH.

Mammogram Clinic Is Set November 20

The Breast Cancer Screening Program of the Don and Sybil Harrington Cancer Center and High Plains Baptist Hospital of Amarillo will continue community outreach clinics for early detection of breast cancer.

A clinic will be held in Friona on Wednesday, November 20, from 10 a.m. to 2:30 p.m. at the Parmer County Community Hospital. Exams are done by appointment only. For information about the clinic or to make an appointment, please call the Harrington Cancer Center (806) 359-4673, or our toll free number 1-800-274-HOPE (4673). Locally, for more information, contact Elda Hart at 247-2754.

Funding is available through the Texas Cancer Council for screening mammography for Texas residents qualifying for financial assistance.

Early detection of breast cancer is the major goal of cancer control

for each woman seen in the clinic. The clinic provides low cost screening which includes a breast exam by a Registered Nurse trained in breast cancer detection, teaching of breast self examination, and a mammogram.

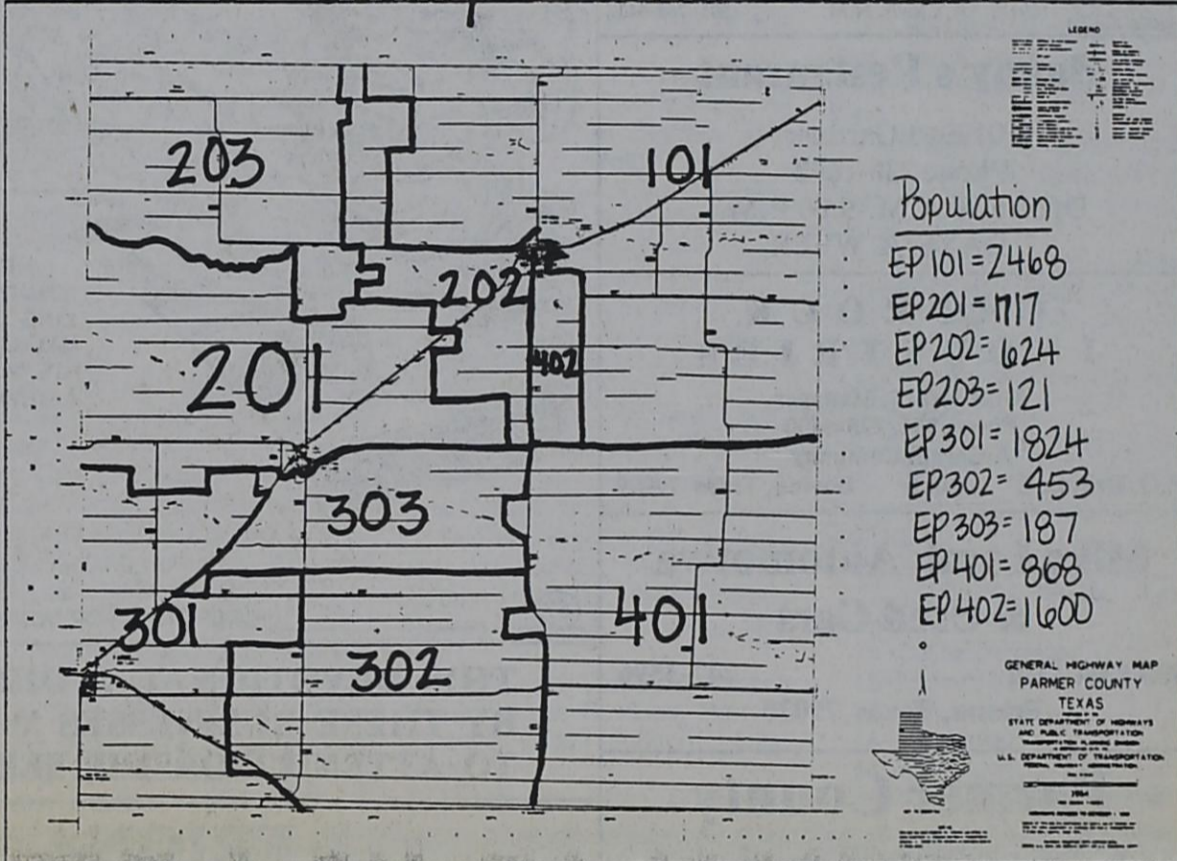

Currently, the most effective method known to win the battle against breast cancer is early detection. Early detection is best done by following the guidelines recommended by the American Cancer Society for breast cancer screening for women who have no signs or symptoms of breast cancer.

The guidelines are: (1) Learn and perform breast self examination every month; (2) Have a physical examination every year; (3) Have a mammogram according to the recommendations by age. Age 35-40, one baseline mammogram; 40-50, a mammogram every 1-2 years; over 50, yearly mammograms.

Facts About The BIBLE BY JOHN LEHTI

CONCUBINES, THE SAME AS HARLOTS? ...No!

WESTERN CIVILIZATION HAS VIEWED A MAN'S CONCUBINE ON THE SAME LEVEL AS A PROSTITUTE—BUT NOT SO IN EARLY HEBREW SOCIETY! LARGE FAMILIES WERE ESSENTIAL FOR ECONOMICAL SECURITY AND POLYGAMY WAS COMMON. IN THOSE DAYS, A MARRIAGE CONTRACT AFFORDED THE HUSBAND-TO-BE A GENEROUS DOWRY FROM THE BRIDE'S FATHER—BUT THE HEBREW MAIDEN WHOSE FATHER WAS TOO POOR TO GIVE A DOWRY COULD BE A MAN'S WIFE IF HE PAID HER FATHER A SUM OF MONEY, THIS SHE ENTERED HIS HOUSE WITHOUT MARRIAGE CONTRACT AS A SECONDARY WIFE (CONCUBINE), BUT EVEN SO HER RIGHTS WERE PROTECTED BY LAW (DEUT. 21:10-14) AND HER CHILDREN HAD EQUAL RIGHTS WITH THE CHILDREN OF THEIR FATHER'S WIFE BY MARRIAGE!

USUALLY, HEBREW WOMEN EXPOSED THEIR FACES, ONLY HARLOTS VEILED THEIR FACES—SO THEY WOULD NOT BE RECOGNIZED AS THEY PLIED THEIR TRADE!

THE FIRST WIFE RULED THE HOUSEHOLD, ALL OTHER WIVES OR CONCUBINES WERE UNDER HER DOMINION!

NEVERTHELESS, EVEN THE OLD TESTAMENT POINTED TOWARD MONOGAMY. MOSAIC LAW (DEUT. 17:17) FORBIDS A KING "...TO MULTIPLY WIVES". HOSEA PREACHED MONOGAMY, MALACHI ADMIRES A HUSBAND'S LOYALTY TO THE "WIFE OF HIS YOUTH (2:14ff) AND LO, BY NEW TESTAMENT TIMES, A JEWISH HUSBAND USUALLY TOOK BUT ONE WIFE!

NEXT WEEK: LOT'S WIFE—SALT OR NOT?

Bovina Scoops

This is a busy time of year with harvest in full swing. Trucks are rushing to and from the fields in an effort to get their crops to the elevator.

Charlsie Eubanks, Virgie Adams and Jerry Ware went to Amarillo and picked up their friend, Irene Crawford. The four ladies went to Greenbelt Lake and spent a few days there relaxing, playing games and enjoyed eating out.

They had a nice time together. They also visited with Pauline Lowrie, whose son, Hughie, was

recently in the hospital at Houston. He is home now and doing as well as can be expected.

Elmer and Veda McKay and Amber Bandy went to Vernon recently to visit Elmer's mother, former Bovina resident, Selma McKay. She lives in a nursing home there.

On the way to Vernon, they stopped at Memphis, Texas and spent Friday night with Elmer's sister, Osie Lee Walker. They went on to Vernon Saturday, spent the day with Mrs. McKay and returned home Saturday evening. Veda said they did a lot of driving.

Twelve members who meet regularly to play Bridge met at Mary Jane Wilson's house for their Bridge Club party. Mary Jane said the Bridge Club has been meeting every two weeks for the past 35 years.

Bike-A-Thon Is Slated Saturday

St. Jude Children's Research Hospital has announced that Mrs. De-An Turner will coordinate the Bovina "Wheels for Life" Bike-A-Thon. The date of October 5 has been selected for the ride.

Founded by Danny Thomas in 1962, St. Jude Children's Research Hospital is the largest childhood cancer research-treatment-education center in America. Although located in Memphis, Tennessee, the hospital has a local impact because area doctors and hospitals can use treatments and procedures developed at St. Jude.

St. Jude Hospital is non-sectarian, interracial and provides medical care for over 3,600 active patients. Currently, over \$200,000 is needed

each day to keep the doors open. These funds come primarily from public contributions.

This year's Bike-A-Thon is dedicated to Brooke Simon. Six-year-old Brooke, from Delcambre, Louisiana, developed Wilms Tumor in November, 1988. Following the removal of her left kidney, she has undergone radiation and chemotherapy. Though her prognosis is good, her fight still continues.

We are grateful for the concern that Mrs. Turner has for our work and we hope the citizens of Bovina will support the Bike-A-Thon to help provide the funds that are needed to preserve the world's greatest asset...."Our Children."

Running stocker calves on wheat pasture?

Now, more than ever, IVOMECS® can build your profits.

(ivermectin)

At this year's beef prices, every pound you put on your calves is worth good money. And with IVOMECS® (ivermectin) you can put on plenty of extra pounds.

Whenever you have cattle on pasture, you're bound to have parasites. And if your calves have been sold and resold before shipping, you can't know what parasites they've picked up. And parasites steal weight.

But one shot of IVOMECS kills 31 different kinds of parasites--more than twice as many as TRAMISOL® and WARBECS® combined.

IVOMECS kills mature and immature worms, so you don't have to use it again in a couple of weeks. And IVOMECS gets external parasites, too. It does it all with just one simple shot under the skin. No wrestling. No Mess. No stress.

So go with your best shot. Get IVOMECS.
