Recital

Mrs. Robert Watkins presented her piano pupils in a recital at the Methodist church last Thursday night. Piano numbers were rendered by Jane Ruth and Bebie Lee Hall, Sarah Ann Rains and Dorothy Diebman.

Vocal selections were given by a quartette composed of Jane Ruth Hall, Chancey Ruth Key, Jane Kirkpatrick and Margaret McClung.

Miss McClung then sang a solo and Paul Diebman closed the program with two trumpet numbers.

S. & T. Grocery Robbed

Thieves entered the S & T. Grocery about 1 o'clock last Friday morning and escaped with about \$8 in cash and some \$20 worth of cigarettes and tobaccos. They had hoisted the store's safe to the alley and had knocked off the knob, when they were coaxed off by the approach of night watchman E. E. Hatley. Services of a locksmith were required to open the damaged safe.

Revival

A revival meeting will begin at the Methodist church Sunday, July 28, and will last two weeks. Rev. J. F. Michael of Claude will be the preaching.

Baseball

The Altus, Okla. nine played the Hedley team on the local diamond Sunday in a rather stiff breeze. The visitors came out in the long end of the score, counting 10 tallies to the local boys' 2.

Milton Foster pitched for Hedley, with Pete Darnell behind the plate.

Bowling Club News

Jack's Gate won first place in the bowling league, which closed Friday night, by winning 12 of their 15 games, ending with a percentage of 80%. The bowling club team was in second place, having won 11 games and lost four.

Manager Glenn Marrs states that a "Down the River" tournament will begin next week.

Jerry Hunt returned Sunday from Abilene, where he attended Hardin Simmons U the past term.

Mrs. O. B. Tinsley and Miss Ella Pool left Monday for Denton where they will attend summer school.

Rev. Rex Kendall and family of Vega stopped over Sunday night en route to the Methodist assembly at Abilene. Mrs. Kendall accompanied them to Abilene for a visit.

Among the spring graduates of N. M. M. I. at Roswell was Jack Battle of Hedley. His grandparents, Mr. and Mrs. J. B. Master sen, attended the commencement exercises.

Mrs. Truman Caldwell and son of Brownwood are visiting here.

Mrs. J. D. Shaw is ill in a Memphis hospital.

For Sale--good prime planting cottonseed 1/2 mile north of town 274 W. R. Banister

O. E. S. Installation

The local chapter of the Eastern Star lodge held their installation of officers Friday, May 31. The following new officers were installed:

Worthy Matron, Mable E. Jones

Worthy Patron, E. H. Watt
Associate Matron, Tonnie Masterson

Associate Patron, Will Jones
Secretary, Ethel Kinslow
Treasurer, O. E. Johnson
Conductress, Nell Land
Associate Conductress, Nena Pierce

Ada, Ruby Glass
Ruth, Mary Roast
Esther, Ruth Duncan
Martha, Beale Moreman
Electa, Gertrude Adamson
Warder, Lella Watt
Sentinel, Joe Devins
Chaplain, Lulu Johnson
Organist, Roscoe Land
Marshal, Janet Everett

The chapter presented the retiring matron, Margaret Carter, a lace table cloth, and a patron's pin to the patron, E. H. Watt.

Talks were made by various members, and dainty refreshments were served during the social hour.

Political Rally

The political rally sponsored by the Woman's Culture Club at the high school auditorium Wednesday night was a decided success. Some 25 candidates were present.

Cake walks were enjoyed, as well as lemonade, pie, coffee and candy.

Among the candidates speaking at the rally were Tom Hissy and Max Beyer of Perryton, Dusty Miller of Amarillo, Santa Favors of Pampa, John Paryear and Luther Gribble of Wellington, Elgar Robertson of Childress, A. S. Moss and John Deaver of Memphis, Walker Lane, J. W. Adamson, Guy Wright, R. Y. King, S. W. Lowe, Miss Helen Wiedman, Mrs. Margaret Thompson, Mrs. Homer Glascoe and John C. Knorrp of Clarendon, Miss Ruth Richerson, J. A. Tollett, Jay Hunt and W. O. Bridges of Hedley.

The club netted about \$22 from the rally.

M. L. Sims Gets Medal

Bryan Texas, May 30--M. L. Sims Jr., son of Mr. and Mrs. M. L. Sims of Hedley, has been awarded the medal which is annually given to the neatest cadet at Allen Academy, Bryan, Texas. Young Sims is a member of the West Point Class at the Academy and he hopes to have an army career. This medal was awarded at the fifty-fifth commencement exercises of the Allen Military Academy held at the First Methodist Church in Bryan on the evening of Tuesday, May 28. The speaker on that occasion was the Hon. B. O. Thompson, member of the Railroad Commission of Texas.

NOTICE

District Supt. Rev. C. T. Palmer will preach at the Methodist church Sunday morning and will hold the quarterly conference immediately after the service.

Constipation Relief

That Also Pepsin-izes Stomach

When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste, and bad breath, your stomach is probably loaded up with certain undigested food and your bowels don't move. So you need both Pepsin to help break up that rich undigested food in your stomach, and Laxative Senna to pull the trigger on those lazy bowels. So be sure your laxative also contains Pepsin. Take Dr. Caldwell's Laxative, because its Syrup Pepsin helps you gain that wonderful stomach comfort, while the Laxative Senna moves your bowels. Tests prove the power of Pepsin to dissolve those lumps of undigested protein food which may linger in your stomach, to cause belching, gastric acidity and nausea. This is how pepsinizing your stomach helps relieve it of such distress. At the same time this medicine wakes up lazy nerves and muscles in your bowels to relieve your constipation. So see how much better you feel by taking the laxative that also puts Pepsin to work on that stomach discomfort, too. Even sickly children love to taste this pleasant family laxative. Buy Dr. Caldwell's Laxative—Senna with Syrup Pepsin at your drugist today!

THE TRUTH

Simply Told

Today's popularity of *Doan's Pills*, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of *Doan's* under exacting laboratory conditions. These physicians, too, approve every word of advertising you read the objective of which is only to recommend *Doan's Pills* as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

DOAN'S PILLS

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

FOODS & FORENDS:

The British government kicked the women and children out of Gibraltar, that "firm" imperialist rock at the western gate of the Mediterranean.

The liner President Roosevelt got off Ireland, to pick up stranded American refugees from England. The state department warned the bell-ringer powers to let it alone. The master liner President Harding, so-called Belgium, had recently been bonded to the bottom by German

WEEKLY NEWS ANALYSIS

Surrender by Belgium Marks New Phase in the World War; Germans Hold Channel Ports

EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper. Released by Western Newspaper Union.

A strange refugee problem has arisen in Paris, France, because of the current war. While thousands of Parisians have fled to outlying sectors to avoid possible bombing raids by the Germans, still other thousands of refugees have been pouring into the city from all over France, Holland and Belgium. Just as in the World War of 1914-18, the French government is providing food and shelter for these people. In the above photo, a family of Belgians, sadfaced, is being fed in a Paris center.

THE WAR:

Belgian Surrender

Probably one of the most epochal days in history occurred when King Leopold of Belgium ordered his troops to lay down arms and surrender. How long would France and Britain continue to wage war, was the question immediately raised. The whole war's outcome was thus thrown into the balance.

The mechanized, motorized, and equipped German army continued its channel sweep in a wheeling semicircle, which began at Cambrai and Bapaume, and took in Arras, and then coastal Boulogne and Calais. Calais is exactly across from English Dover, and only 20 miles distant. Boulogne was Napoleon's headquarters when he decided to invade England in 1805.

German flyers came more and more to dominate the channel, making the work of English troop transports exceedingly difficult. For reinforcements from England, or retreaters to England, were bombed mercilessly from the air, as at least half a million allied troops appeared caught in a horrible steel trap of Nazi manufacture. At the other end of the channel drive, the Germans were in Antwerp, leaving the allies on the channel ports of Dunkirk (French) and Ostend (Belgian). Paris, pro tem, had been left "neglected"—for the Germans were said to be considering a separate peace with France, a peace some Frenchmen were reported as not unwilling to accept.

U. S. DEFENSE:

Billions

The critics went to work on Roosevelt's plan for 50,000 airplanes, and an extra appropriation of a billion dollars. How much would 50,000 airplanes really cost? And how many men would it take to staff them, and operate them? The experts began to figure.

They discovered that at the price England and France pay for aircraft, 50,000 planes would cost at least six billions. The American aviation professionals backed up this astonishing sum. Then our air chief put it at seven billions. But this was not all. It takes thirty men per plane, to keep it properly conditioned and piloted. Hence, it would take 1,500,000 men to run our 50,000-plane aerial armada.

These, plus the force of 750,000 regulars now talked about, would make for an army of over 2,000,000 men, mostly air force. And there came the rub—for an army of 2,250,000 (minimum) would mean nothing less than universal, costly conscription. But, asked the critics, didn't Roosevelt know that a mere billion dollars would buy and equip comparatively few airplanes?

Meanwhile, America's three best practical military critics, Lindbergh, Rickenbacker (our No. 1 ace), and General Smedley Butler of the marines, expressed the belief that the United States was quite sane, and endeavored to allay current hysteria, most evident in the U. S. on the eastern seaboard.

PUTTERINGS:

On Potomac

The senate appropriated nearly two billions for the war department, by 74-0. Also, it appropriated nearly a billion and a half for the navy department, by 78-0. Secretary of the Treasury Morgenthau talked with a hundred representatives of the country's aviation plants, but it didn't seem to amount to much. The navy department then clapped on a 48-hour week in its naval yards, and hired 15,000 additional civilian workers.

Chairman Dies, of the Dies committee, shuddered over the fifth column at work in the United States. Dies primarily assailed Russia and the communists, whom apparently he still dislikes more than Germany. Roosevelt is inclined to prefer Russia, but for once he said something nice about Dies & Co. Roosevelt had asked congress to approve the transfer of the immigration-naturalization service, from the labor department to the department of justice, in order to "deal" with fifth-column extremists.

Roosevelt said that a coalition Republico-Demo-cabinet was simply "cock-eyed." But he had talked to Landon and Knox, last-time Republican candidates, and Landon asked him to give up third-termite aspirations—which, carpers said, led to a Roosevelt-Republican deadlock and the "cock-eyed" verdict. Weather prophets predicted an unusually dirty presidential campaign for 1940, and some people accused Roosevelt of exploiting the European war to promote third-termite.

RELIGION:

The Lutherans

America's third biggest Protestant denomination is that of Martin Luther, with well over 4,000,000 adherents. But more than 50 per cent of the world's Lutherans are now under Nazi rule, it was divulged. This includes Germany proper and Germany "improper," Germany of Norway, Denmark, Slovakia and Poland. Holland is Calvinist, Belgium is Catholic.

Charles A. Lindbergh

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—In the last nine years, this typewriter has reported on the achievements of about 7,000 Americans distinguished in the arts of war and peace. If *Navy Got Wings* and *The Hard Way* of personnel resources is important in a critical hour, the record of this file is encouraging. Hitler has not repealed the axiom that the whole is equal to the sum of all its parts; and that being the case, this onlooker is convinced that we have what it takes, considering, particularly, the requirements for courage and highly specialized ability.

Today's citations of individual preparedness are Rear Admiral John H. Towers, ranking aviation officer of the navy, and Major General H. H. Arnold, chief of the army air corps. They are flexibly minded men who never have been grounded by precedent. They came all the way up from primitive and hazardous aviation, and from their altitude they have seen farther over the horizon than most of the rest of us. And they warned us.

Admiral Towers is the only survivor of the first three men assigned to naval aviation in 1911. Commander John Rodgers was killed in 1925, and Commander T. G. Ellyson in 1928. Towers himself has had many a close brush with death. It was in May, 1919, that he commanded the transatlantic flight of the wobbly, but determined NC-4. He and his mates, sagging down into the sea, taxied 60 hours over 205 miles to the Azores. In 1915, he was bucked out of a lurching seaplane, caught a strap as he fell and dropped 1,700 feet from the hurtling plane into Chesapeake bay.

The navy's No. 1 flier was born in Rome, Ga., in 1886. Glenn Curtiss taught him to fly at Hammondsport, N. Y. Succeeding Rear Admiral Cook, he became a rear admiral and head of the bureau of naval aeronautics in June, 1939. He is a West Pointer of the class of 1906.

Major General Arnold, known in the air corps as "Happy" Arnold, for obvious reasons, was assigned to aviation in 1911 and trained by the Wright brothers, at Dayton, Ohio. In 1912 he caught the attention of the then complacent country by riding a clattering chain and sprocket job 30 miles around Washington. In the same year, he coaxed a quaint sort of Currier and Ives plane up to the perilous height of 6,540 feet. It was a national sensation. They began calling him the "ride 'em cowboy" of the air.

When the World War started he had 35 pilots and 55 planes. Lieutenant Arnold was clamoring for more then, and, as general, he has been out in front the last year, insisting that air strength would decide any modern war.

One of his most notable achievements was his brilliant leadership of a hazardous plane survey over the Alaska mountain ranges. He is a native of Gladwyn, Pa., and was graduated from West Point in 1907.

Adm. Robinson Rates High as Navy Appraiser

or qualified appropriations. As co-ordinator of ship construction, he is cast in an important role in the hard-pressing enterprise of naval expansion. He is chief of the navy bureau of engineering, appointed September 15 and appears in the opening arguments primarily as a technician rather than as a policy adviser. When and if there is a decision as to just what we want to defend, what will be needed to defend it, and how much it will cost, Admiral Robinson will no doubt score highly in the technical "information please." He is 58 years old, a native of Eulogy, Texas, was graduated from West Point in 1899 and engaged thereafter in never spectacular, but crucially important naval engineering.

A FRIEND of mine, who until a few months ago had lived in Italy several years, tells me that Crown Prince Humbert of Italy not only is a holdout against the Fascist regime, but that he has a tremendous personal following which he could and would launch against Italy's entry into the war. My friend believes that his opposition to the axis and the war must have been sharpened by the fact that his wife, the former Princess Marie Jose, is a daughter of the late King Albert of Belgium.

PATTERN DEPARTMENT

Pattern No. 8719 is designed for sizes 11, 13, 15, 17 and 19. Size 13 dress requires 3 1/2 yards of 35-inch fabric without nap. Bolero, 1 1/4 yards. 1 1/4 yards for shorts. 3 1/2 yards bias fold required to trim.

HOUSEHOLD QUESTIONS

Art gum may be used to clean gloves, shoes, and wall paper.

After a blanket has been washed and dried pin it on the line and beat with a carpet-beater. This makes the blanket beautifully soft and fluffy.

Strained honey, mixed with cottage cheese, a few broken nut meats and soft butter makes a delicious filling for sandwiches for the school child's lunch box.

To protect the surrounding wall when cleaning electric light switch plates, cut a hole the size of the plate in a piece of cardboard or heavy paper and lay it on the wall so that just the plate is exposed.

When refilling a feather pillow crush a small block of camphor and mix in with the feathers. This will keep the feathers "fresh" and will help to preserve them.

Look 20 Years beyond the Refrigerator you buy today

Every NORGE ROLLATOR REFRIGERATOR is backed by the reputation and the resources of the great BORG-WARNER CORPORATION, world-famous manufacturer with 20 factories in 5 states

When you buy an electric refrigerator, look wisely to the future. Look 10 years ahead... or 20. Look beyond the refrigerator as it stands today, new and bright and gleaming. Visualize the greater needs which it may be called to meet in the years to come. Consider the satisfactions of service well rendered that can come only from a product ably engineered and ably built by an organization experienced in precision manufacturing.

Such an organization is Norge, backed by the resources and engineering skill, the seasoned reputation and world fame of the great Borg-Warner Corporation whose score of factories employ thousands in five states.

You will look today, of course, at the advanced features that distinguish the Norge refrigerator in its field... at the highlights of detail and design that are winning such high acclaim throughout the world. In the big SR-8 model, as shown above, you will admire extra size and ample capacity, a freezer of stainless steel, the convenience of the exclusive Handefroster and Coldpack, the sliding shelves, glass-covered drawers and Cellaret. You will appreciate the simple efficiency of the refrigerant-cooled Rollator Cold-Maker which Norge has built to almost unbelievable limits of precision for lifetime service.

But before you decide, look again at the record of integrity and achievement which Norge has made in the past. That, we submit, is the reason you also may look far to the future with faith in Norge.

See NORGE Before You Buy!

EYES OF THE PEOPLE

Folks down at Uvalde, Texas, will see the above scene re-enacted soon. When the Presidential Special rolls out of Washington in June, carrying President Roosevelt on his western tour, one of its stops will be at the home of his long-time friend and able political ally, Vice President John N. Garner.
For nearly eight years these Democratic leaders have worked together in the cause of political liberalism, and as the President's traditional second term draws to a close, the Vice President is being widely acclaimed as his most logical successor.
The announcement of the projected visit to Uvalde was made the day following the county conventions in Texas on May 7, and is being generally interpreted by political observers as expressing the President's gratification that the Lone Star State gave a ringing endorsement to the presidential candidacy of its distinguished native son. Texans adopted resolutions approving the Roosevelt-Garner administration, and endorsed Garner for the Presidency by a vote of 6 to 1 over

Notice of Sheriff's Sale

State of Texas, County of Donley
Whereas, by virtue of a certain Order of Sale issued out of the 48th District Court of Tarrant County, Texas, on a judgement rendered in said court on the 20th day of April, 1940, in favor of Anna E. Bomar, a femme sole, and W. P. Bomar, composing the co-partnership firm of Bomar & Bomar, and against the defendants Martha A. Muncie, a femme sole, W. E. Mess Vera Willie Moss, Mable Killingsworth, G. E. Killingsworth, Nola Bain, J. R. Bala, H. T. Muncie (sometimes known as Haskell Muncie) individually and as guardian of Wanda Horn, a minor, C. R. WEEKLY NEWS ANALYSIS BY *Ed. St. AW*

Surrender by Belgium Marks New Phase in the World War; Germans Hold Channel Ports

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union.

A strange refugee problem has arisen in Paris, France, because of the current war. While thousands of Parisians have fled to outlying sectors to avoid possible bombing raids by the Germans, still other thousands of refugees have been pouring into the city from all over France, Holland and Belgium. Just as in the World War of 1914-18, the French government is providing food and shelter for these people. In the above photo, a family of Belgians, sad-faced, is being fed in a Paris center.

THE WAR:

Belgian Surrender

Probably one of the most epochal days in history occurred when King Leopold of Belgium ordered his troops to lay down arms and surrender. How long would France and Britain continue to wage war, was the question immediately raised. The whole war's outcome was thus thrown into the balance.

The mechanized, motorized, and air-gear German army continued its channel sweep in a wheeling semi-circle, which began at Cambrai and Bapaume, and took in Abbeville, at the channel mouth of the Somme river, and then coastal Boulogne and Calais. Calais is exactly across from English Dover, and only 20 miles distant. Boulogne was Napoleon's headquarters when he tried to invade England in 1805.

German flyers came more and more to dominate the channel, making the work of English troop transports exceedingly difficult. For reinforcements from England, or retreaters to England, were bombed mercilessly from the air, as at least half a million allied troops appeared caught in a horrible steel trap of Nazi manufacture. At the other end of the channel drive, the Germans were in Antwerp, leaving the allies only the channel ports of Dunkirk (French) and Ostend (Belgian). Paris, pro tem, had been left "neglected"—for the Germans were said to be considering a separate peace with France, a peace some Frenchmen were reported as not unwilling to accept.

U. S. DEFENSE:

Billions

The critics went to work on Roosevelt's plan for 50,000 airplanes, and an extra appropriation of a billion dollars. How much would 50,000 airplanes really cost? And how many men would it take to staff them, and operate them? The experts began to figure.

They discovered that at the price England and France pay for aircraft, 50,000 planes would cost at least six billions. The American aviation professionals backed up this astonishing sum. Then our air chief put it at seven billions. But this was not all. It takes thirty men per plane, to keep it properly conditioned and piloted. Hence, it would take 1,500,000 men to run our 50,000-plane aerial armada.

These, plus the force of 750,000 regulars now talked about, would make for an army of over 2,000,000 men, mostly air force. And there came the rub—for a minimum of 2,250,000 (minimum) would mean nothing less than universal, costly conscription. But, asked the critics, didn't Roosevelt know that a mere billion dollars would buy and equip comparatively few airplanes?

Meanwhile, America's three best practical military critics, Lindbergh, Rickard (our No. 1 ace), and General Smedley Butler of the marines, expressed the belief that the United States was quite safe, and endeavored to allay current hysteria, most evident in the U. S. on the eastern seaboard.

Charles A. Lindbergh

V COLUMN:

In England

While Sir Anthony Eden's anti-parachute "sharpies" had increased to half a million game-keepers, unemployed, flaming youths, and Colonel Bilmps, Scotland Yard tracked down on the so-called English Fifth Column. Sir Oswald Mosley, World War flyer at 18 and son-in-law of the late foreign minister, Lord Curzon, had headed the British fascists' organization, and opposed the II German war. Five yard detectives took him in. The yard also grabbed off Archibald Ramsay, Eton Conservative and aristocratic member of parliament, and John Beckett, a former M. P. who loves a roughhouse.

Parliament passed a tough Treachery Bill, but the Irish Republican army merely smiled. This dangerous society has been actively anti-British, and definitely fifth-columnar. The I. R. A. made England feel that Ireland might be a base for German invasion of the Britanic midriff, even though Ireland's Premier De Valera vigorously opposes the "bomber-bhoys." Also, it was expected that the new English dictatorship would launch out against the English communists. British Labor appeared especially enthusiastic over Churchill's mailed fist in a kid glove. Nevertheless, Churchill's niece and Mosley's present wife are sisters. A third sister is Hitler's English girl-friend, Valkyrie.

ORODDS & FORENDS:

The British government kicked the women and children out of Gibraltar, that "firm" imperialist rock at the western gate of the Mediterranean.

The liner President Roosevelt got off for Ireland, to pick up stranded American refugees from England. The state department warned the belligerent powers to let it alone. The sister liner President Harding, sold to Belgium, had recently been bombed to the bottom by German divers.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—In the last nine years, this typewriter has reported on the achievements of about 7,000 Americans distinguished in the arts of war.

No. 1 Flier of Navy Got Wings The Hard Way

and peace. If the appraisal of personnel resources is important in a critical hour, the record of this file is encouraging. Hitler has not repealed the axiom that the whole is equal to the sum of all its parts; and that being the case, this onlooker is convinced that we have what it takes, considering, particularly, the requirements for courage and highly specialized ability.

Today's citations of individual preparedness are Rear Admiral John H. Towers, ranking aviation officer of the navy, and Major General H. H. Arnold, chief of the army air corps. They are flexibly minded men who never have been grounded by precedent. They came all the way up from primitive and hazardous aviation, and from their altitude they have seen farther over the horizon than most of the rest of us. And they warned us.

Admiral Towers is the only survivor of the first three men assigned to naval aviation in 1911. Commander John Rodgers was killed in 1926, and Commander T. G. Ellyson in 1928. Towers himself has had many a close brush with death. It was in May, 1919, that he commanded the transatlantic flight of the wobbly, but determined NC4. He and his mates, sagging down into the sea, taxied 60 hours over 203 miles to the Azores. In 1913, he was backed out of a lurching seaplane, caught a strap as he fell and dropped 1,700 feet with the hurtling plane into Chesapeake bay.

The navy's No. 1 flier was born in Rome, Ga., in 1888. Glenn Curtiss taught him to fly at Hammondsport, N. Y. Succeeding Rear Admiral Cook, he became a rear admiral and head of the bureau of naval aeronautics in June, 1939. He is a West Pointer of the class of 1906.

Major General Arnold, known in the air corps as "Happy" Arnold, for obvious reasons, was assigned to aviation in 1911 and trained by the Wright brothers, at Dayton, Ohio. In 1912 he caught the attention of the then complacent country by riding a clattering chain and sprocket job 30 miles around Washington. In the same year, he coaxed a quaint sort of Currier and Ives plane up to the perilous height of 6,540 feet. It was a national sensation. They began calling him the "ride 'em cowboy" of the air.

When the World War started we had 35 pilots and 56 planes. Lieutenant Arnold was clamoring for more then, and, as general, he has been out in front the last year, insisting that air strength would decide any modern war.

One of his most notable achievements was his brilliant leadership of a hazardous plane survey over the Alaska mountain ranges. He is a native of Gladwyn, Pa., and was graduated from West Point in 1907.

REAR ADMIRAL Samuel M. Robinson blames delay in ship construction to restrictive labor laws, short work weeks and inadequate appropriations.

Adm. Robinson Rates High as Navy Appraiser

or qualified as coordinator of ship construction, he is cast in an important role in the hard-pressing enterprise of naval expansion. He is chief of the navy bureau of engineering, appointed September 13 and appears in the opening arguments primarily as a technician rather than as a policy adviser. When and if there is a decision as to just what we want to defend, what will be needed to defend it, and how much it will cost, Admiral Robinson will no doubt score highly in the technical "information please." He is 56 years old, a native of Euloy, Texas, was graduated from West Point in 1899 and engaged thereafter in never spectacular, but crucially important naval engineering.

A FRIEND of mine, who until a few months ago had lived in Italy several years, tells me that Crown Prince Humbert of Italy not only is a holdout against the Fascist regime, but that he has a tremendous personal following which he could and would launch against Italy's entry into the war. My friend believes that his opposition to the axis and the war must have been sharpened by the fact that his wife, the former Princess Marie Jose, is a daughter of the late King Albert of Belgium.

A Reminder

The minister said he was sorry to have to complain about the of-fertories.

"In last Sunday's collections," he said, "there were no fewer than six buttons. I hope such a thing will not occur again. Then, turning to the Bible, he announced the text: "Render your hearts and not your garments."

Belief and Unbelief

Belief consists in accepting the affirmations of the soul; unbelief in denying them.—Emerson.

Constipation Relief
That Also Pepsin-izes Stomach

When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste, and bad breath, your stomach is probably loaded up with certain undigested food and your bowels don't move. So you need both Pepsin to help break up that rich undigested food in your stomach, and Laxative Senna to pull the trigger on those lazy bowels. So be sure your laxative also contains Pepsin. Take Dr. Caldwell's Laxative, because its Syrup Pepsin helps you gain that wonderful stomach comfort, while the Laxative Senna moves your bowels. Tests prove the power of Pepsin to dissolve those lumps of undigested protein food which may linger in your stomach, to cause belching, gastric acidity and nausea. This is how pepsinizing your stomach helps relieve it of such distress. At the same time this medicine wakes up lazy nerves and muscles in your bowels to relieve your constipation. So see how much better you feel by taking the Laxative that also puts Pepsin to work on that stomach discomfort, too. Even finicky children love to taste this pleasant family laxative. Buy Dr. Caldwell's Laxative—Senna with Syrup Pepsin at your drugist today!

Garrulous Fool

A fool's voice is known by multitude of words.

THE TRUTH SIMPLY TOLD

Today's popularity of Dean's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Dean's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Dean's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers on kidneys fail, and diuretic medicine would be more often employed.

Urining, scanty or too frequent urinations—sometimes with aching kidney pains—You may suffer sagging back—aching up nights, swelling, puffing the eyes—feel weak, nervous, etc.

Dr. Pills. It is better to rely on what has won world-wide approval than to use less favorably

PATTERN SEWING CIRCLE DEPARTMENT

HOUSEHOLD QUESTIONS

Art gum may be used to clean gloves, shoes, and wall paper.

After a blanket has been washed and dried pin it on the line and beat with a carpet-beater. This makes the blanket beautifully soft and Puffy.

Strained honey, mixed with cottage cheese, a few broken nut meats and soft butter makes a delicious filling for sandwiches for the school child's lunch box.

To protect the surrounding wall when cleaning electric light switch plates, cut a hole the size of the plate in a piece of cardboard or heavy paper and lay it on the wall so that just the plate is exposed.

When refilling a feather pillow crush a small block of camphor and mix in with the feathers. This will keep the feathers "fresh" and will help to preserve them.

Grasping Passion
Control your passion, or it will control you.

Look 20 Years beyond the Refrigerator you buy today

Every NORGE ROLLATOR REFRIGERATOR is backed by the reputation and the resources of the great BORG-WARNER CORPORATION, world-famous manufacturer with 20 factories in 5 states

When you buy an electric refrigerator, look wisely to the future. Look 20 years ahead... or so. Look beyond the refrigerator as it stands today, new and bright and gleaming. Visualize the greater needs which it may be called to meet in the years to come. Consider the satisfactions of service well rendered that can come only from a product ably engineered and ably built by an organization experienced in precision manufacturing.

Such an organization is Norge, backed by the resources and engineering skill, the seasoned reputation and world fame of the great Borg-Warner Corporation whose score of factories employ thousands in five states.

You will look today, of course, at the advanced features that distinguish the Norge refrigerator in its field... at the highlights of detail and design that are winning such high acclaim throughout the world. In the big SR-8 model, as shown above, you will admire extra size and ample capacity, a freezer of stainless steel, the convenience of the exclusive Handefroster and Coldpak, the sliding shelves, glass-covered drawers and Cellaret. You will appreciate the simple efficiency of the refrigerant-cooled Rollator Cold-Maker which Norge has built to almost unbelievable limits of precision for lifetime service.

But before you decide, look again at the record of integrity and achievement which Norge has made in the past. That, we submit, is the reason you also may look far to the future with faith in Norge.

See NORGE Before You Buy!

It's a Y-y-yes, N-n-no Go That They'll Make of It!

The young couple stood before the justice of the peace. Both seemed very frightened. The justice glanced at the young man.

"Y-y-yes," he said slowly, "take this woman to be your lawful wedded wife!"

"I—I—really don't know," stammered the young man nervously. The justice then turned to the girl.

"And do you," he asked, "take this man to be your lawful wedded husband?"

"Well," hesitated the girl, "I'm beginning to wonder."

The justice nodded. "That's great!" he cried, grimly. "I now pronounce you man and wife—maybe!"

Household News By Eleanor Howe

IF YOU'RE ENTERTAINING THE BRIDE (See Recipes Below)

No sooner is the June bride back from her honeymoon, than the business of cooking for two begins! Feeding her new husband will be an important part of the bride's responsibility, and any of the successful homemakers she knows can tell her that perfectly cooked meals for a hungry husband help to keep the matrimonial ship sailing merrily along.

So, why not a kitchen shower for a bride—using for gifts the inexpensive little "gadgets" that will make her hours in the kitchen pleasant? Those are the things the bride isn't likely to buy herself and the very fact that they are small and inexpensive means that she isn't apt to get them, either, among her wedding gifts.

Small, matching pottery pots for chives and parsley to grow on a sunny kitchen window sill, make a thoughtful gift for a kitchen shower; a set of pastel tinted bowl covers is practical and very moderately priced; butter paddles, a french potato ball cutter and small earthenware pots for baking beans are out-of-the-ordinary kitchen gifts.

Any bride will bless you for starting her kitchen library for her—with her own copies of my homemaking booklets; Better Baking, Easy Entertaining, Feeding Father and Household Hints.

And speaking of a kitchen library—why not start a collection of favorite recipes for the bride? Have each guest at the shower bring her very choicest recipe, neatly written on a card for the bride's new recipe box, with the donor's name and the date of the party just for fun. Give her the recipes, too, that make up the menu for the day.

Food, for a kitchen shower, should be "homey" and informally served—and planned to give the bride suggestions for her own cooking and baking problems.

Menu for a Kitchen Shower. Noodle and Tuna Casserole Spring Vegetable Salad with French Dressing Butter Orange Rolls Cheese Scones Angel Food Cake Strawberry Sherbet Coffee
Fresh Strawberry Sherbet. (Serves 6.) Combine 1 cup of crushed strawberries and 2 tablespoons of lemon juice. Scald 1 pint of milk, add $\frac{3}{4}$ cup of sugar and stir until dissolved. Soak 1 tablespoon of unflavored gelatin in 1 tablespoon of cold water for 5 minutes and dissolve in hot milk. Add 2 beaten egg yolks, blend, and remove from flame and cool. Add fruit mixture to milk mixture and fold in 2 beaten egg whites. Assemble in ice cream freezer. Pour sherbet mixture into the freezing container. Adjust dasher and cover tightly. Then fill the ice chamber with a mixture of 3 parts chipped ice and 1 part salt and turn crank slowly for about 5 minutes to freeze. Repack and allow to harden.

Orange Rolls. (Makes 18-20 rolls) $\frac{1}{2}$ cup sugar 1 teaspoon orange peel (grated) 2 $\frac{1}{2}$ cups flour 3 teaspoons baking powder $\frac{1}{4}$ teaspoon salt 1 tablespoon sugar 4 tablespoons shortening 1 egg $\frac{1}{2}$ cup milk 3 tablespoons butter (melted) Mix $\frac{1}{2}$ cup sugar and orange peel thoroughly and allow to stand while making rolls. Sift and measure the flour, then sift together the flour, baking powder, salt and 1 tablespoon sugar. Cut in the shortening. Beat the egg slightly and add the milk. Stir into the flour mixture. Turn onto a lightly floured board and knead 30 seconds. Shape into a long narrow roll and roll out into a rectangle to about $\frac{1}{4}$ -inch thickness. Spread the dough with the melted butter and the sugar and orange peel mixture. Roll up like jelly roll and cut off in $\frac{1}{4}$ -inch pieces. Place rolls, cut side down, on a well-

greased pan and bake about 20 minutes in a hot oven (425 degrees).
Barbecued Steak. (Serves 6.) 2 pound round steak 3 tablespoons butter 3 tablespoons vinegar $\frac{1}{2}$ teaspoon salt 1 teaspoon prepared mustard 1 teaspoon onion, grated 1 teaspoon worcestershire sauce 1 teaspoon chili sauce $\frac{1}{2}$ teaspoon lemon juice 1 tablespoon brown sugar

Cut steak into pieces for serving and sear in frying pan. Melt butter, add vinegar and all other ingredients. Heat thoroughly and pour over the seared steaks. Bake in a moderate oven (350 degrees) for approximately 1 $\frac{1}{2}$ hours. Baste frequently with barbecue sauce while baking.
Fried Angel Food Cake. 1 $\frac{1}{2}$ cups sugar 1 cup cake flour 1 $\frac{1}{4}$ cups egg whites $\frac{3}{4}$ teaspoon salt 2 teaspoons cream of tartar 1 teaspoon vanilla extract

Sift sugar once. Add $\frac{1}{2}$ cup of it to the flour and sift together 3 times. Beat egg whites with rotary beater until frothy, add salt and cream of tartar and continue beating until eggs hold their shape. Add sugar gradually, beating thoroughly after each addition. Add vanilla extract. Then fold in the flour, $\frac{1}{4}$ at a time. When all flour is in, fold a few additional times. Then place in large ungreased angel-food pan. Bake in a moderate oven (325 degrees) for 1 hour and 15 minutes. Invert and let cool in pan.
French Dressing. $\frac{1}{2}$ cup salad oil $\frac{1}{4}$ cup lemon juice or vinegar 1 teaspoon salt Paprika to color Few grains cayenne

Place ingredients in covered jar. Chill thoroughly. Just before serving shake vigorously. There are many ways to vary french dressing. The acid may be lemon juice, vinegar, or half and half. A few drops of onion juice may be added, or shake a cut garlic clove with the dressing (removing it before serving). Dry mustard may also be added, as may creamed Roquefort cheese.
Cheese Scones. 2 cups flour 2 teaspoons baking powder $\frac{1}{4}$ teaspoon salt $\frac{1}{4}$ teaspoon paprika $\frac{1}{4}$ cup shortening $\frac{1}{2}$ cup American cheese (grated) $\frac{3}{4}$ cup milk 2 teaspoons prepared mustard

Sift together the flour, baking powder, salt and paprika. Cut in shortening. Add cheese. Then add milk and prepared mustard which have been mixed together. Roll out to $\frac{3}{4}$ -inch thickness on lightly floured board. Cut in triangles and bake in a hot oven (425 degrees) for about 20 minutes.
Percolated Coffee. Allow 1 tablespoon ground coffee to each cup of water. Place coffee in strainer part of percolator. Add cold water. Adjust top. Heat until coffee just begins to percolate. Then turn heat very low and allow coffee to percolate slowly 8 to 10 minutes. Do not boil.

Spot Stage Screen Radio

(Released by Western Newspaper Union.)

By VIRGINIA VALE

WHEN Count Theo Rossi, the speedboat champion and "vermouth king," took a flying trip over South America with his bosom friend, Tyrone Power (before Annabella became Mrs. Power), they were hailed everywhere as "the world's two most eligible bachelors." The count, still a bachelor, made quite a dent in the hearts of the Hollywood girls last summer, but, like J. Edgar Hoover, he preferred Shirley Temple.

More recently he has left his mark on the movie colony by designing some square glasses. Almost the first person to get some was Dolores Del Rio; Hedy La Marr, Joan Bennett, Rudy Vallee, and Peggy Moran followed suit, as did a number of the smart restaurants.

And now Perc Westmore, Hollywood's ace make-up expert, claims that those square corners fit into a girl's mouth more naturally than does the edge of a round glass; he declares also that, as they create less pressure on the lower lip, they help to preserve the natural form of the lips.

Hollywood's smuggest girls are Ann Dvorak, Helen Mack and Lola Lane, who are featured in Columbia's "Girls of the Road." The script calls for them to work in mud and muck throughout the film, wearing soiled clothes and even dirtier faces. Mary Booth, great-granddaughter of Edwin Booth, makes her movie debut in the same picture.

Recently at a baseball game a bewildered six-year-old boy in military uniform found himself so besieged by autograph seekers that he missed an entire inning of the game. He was Gary Crosby, eldest son of Bing, attending the game with his grandfather, and he'd like to choke the fellow who recognized him and pointed him out to the crowd.

The announcement that major radio networks are planning to use name stars from stage, screen and radio during the annual summer slump has created a wave of mental depression among Grade B performers, who had banked on filling in as summer replacements.

Kathleen Burke, the famous "Panther Woman" of the movies some years ago, is now playing the part of "Rebekah" in "Light of the World," the daytime radio show based on the Bible. Miss Burke has been absent from the screen for the past four years, during which time she married a Spanish dancer, Jose Fernandez and had a daughter.

A source of delight to the production men and engineers who handle Mrs. Eleanor Roosevelt's Tuesday and Thursday NBC informal talks is the absolute ease with which she goes through her routine. A seasoned veteran of the air, the First Lady knows all the hand signals for speeding up and slowing down her speech, and is proving exceptionally easy to work with. Finishes right on the nose, too.

Mary Martin came home exhausted the other day; for a scene in "Rhythm on the River" she'd been working in front of the cameras in a heavy beaver coat and the temperature under the lights was 97! Arrived at home, she was confronted by the immediate need for buying a house for her mother, Mrs. Martin being one of the few people in this country who doesn't want to be alone in a house in which Greta Garbo used to be alone, and like it.

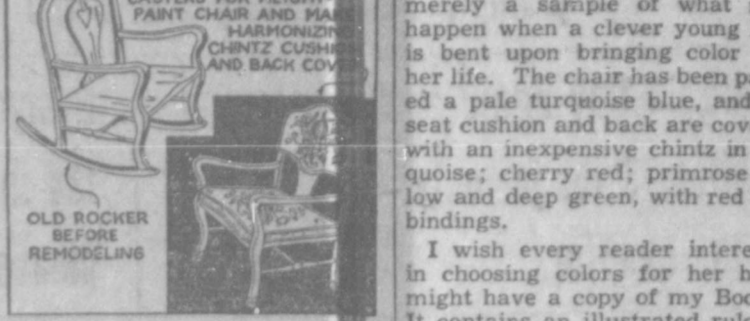

The lovely Mary took the house for herself and her mother before she married Richard Halliday. After her marriage she moved out, and her mother and the servants rattled around in the mansion. She has a six-room bungalow now, and likes it much better.

On a recent "Vox Pop" program Parks Johnson was doublecrossed in his efforts to lead into a natural ad lib commercial. Parks asked one of the men he was interviewing "What do you do after a fast run up the stairs?" The answer he expected was "I puff," whereupon Parks was all set to hand him a complimentary tin of his sponsor's tobacco and then launch into a recital of its merits.

But the man stopped him. "Oh," said he, "I always wonder why I did such a foolish thing!"

HOW TO SEW

by Ruth Wyeth Spears

A CERTAIN Miss Fixit, and that was not really her name, inherited a house full of furniture that was not old enough to be either quaint or antique. One day she sent for my little Book No. 4, and there she found a sketch showing how to plot a room color plan based on a rug, or a picture, or a piece of drapery material with good coloring. Miss Fixit had a picture that she had always loved because of its beautiful colors. Just for fun, as a sort of game, she made a room color plot based on that picture.

That was really a turning point in the life of Miss Fixit. This old

rocker that she made over merely a sample of what may happen when a clever young lad is bent upon bringing color into her life. The chair has been painted a pale turquoise blue, and the seat cushion and back are covered with an inexpensive chintz in turquoise; cherry red; primrose yellow and deep green, with red bias bindings.

I wish every reader interested in choosing colors for her home might have a copy of my Book 4. It contains an illustrated plan for making a room color plan, based on the colors in a picture a rug; a vase; or a piece of drapery material with lovely colorings. The rule is so clear and easily understood that I am sure every reader of these weekly articles would be delighted to have a copy. To get your copy, send 10 cents in coin and ask for Book 4. The Questions

1. What is the difference between a planet and a star?
2. How often does a canoe's heart beat per minute? An elephant's?
3. Is jerked venison smoked, fried or sun dried?
4. What is the fifth estate?
5. What great midwestern city was named by Indians after Skunk (the skunk)?
6. How many vice presidents of the United States later became Presidents?
7. If one had a match and went into a dark room with a lamp, a cigarette and an oil stove, which would one light first?
8. What is a pirogue—a variety of orchid, a rascal, or a dugout canoe?
9. How many degrees of latitude are there from the North pole to the Equator?
10. What nautical expression is used to identify the action of making a parachute jump?

The Answers

1. A planet shines by reflected light, a star is self-luminous.
2. Canary's, 1,000 times per minute. Elephant's, 25 beats per minute.
3. Sun dried.
4. A class or estate after the traditional four, as scientists have been termed the fifth estate.
5. Chicago.
6. Nine. Adams, Jefferson, Van Buren, Tyler, Fillmore, Johnson.

Mr. and Mrs. Herman Horsch visited in Childress Tuesday afternoon.

Mrs. S. S. Adamson is on the sick list.

Miss Alice Biehop left this week to attend summer school at Canyon.

S. W. Lowe Announces for County School Superintendent

The Informer has been authorized to announce S. W. Lowe as a candidate for the office of County School Superintendent, subject to the Democratic primaries. He is a graduate of John Tarleton College in Stephenville and Simmons University. He taught for six years in our public schools and served as principal of both Memphis and Clarendon high schools.

In announcing his candidacy Mr. Lowe makes the following statement:

I watch with interest every move in connection with our school system. Our best efforts are poor in comparison with the importance of providing training for our sons and daughters in good schools. Yet in the administration of our schools we must be mindful of the taxpayer whose load is often staggering.

So in making this statement to the voters of this county, I do so respectfully asking your consideration in my behalf. As rapidly as I can I will solicit, in person, your vote and endeavor to secure from as many as possible their views as regards our school situation.

Respectfully yours,
S. W. Lowe

Mrs. J. D. Shaw Jr. left this week to join her husband at Breckenridge, Colo.

Mrs. J. S. Beach is visiting in Decatur.

Miss Flora Curtis underwent a operation in a Quannah hospital last week.

Herbert Carter and family moved this week to Hollis, Okla.

Roy Hunter and family moved to McLean Friday.

25 Years Ago This Week

From the Informer files of June 4, 1915

J. P. Alexander was a juror in Clarendon last Saturday.

At a recent meeting of city and county officials, it was decided that no cigars, tobacco, sold drinks or Kodak supplies may be sold in Hedley on Sunday.

Meedames J. B. Masterson, U. J. Boston, M. L. Story, T. C. Lively, and J. L. Bain attended the Women's Missionary Conference in Memphis Tuesday.

Roland Erridge of Clarendon visited Tom McDeugal Saturday. Clean up, paint up, sweat that fly, cut weeds, go to church, be a beater, join the commercial club, quit cussing, quit knocking and watch Hedley grow.

Tuesday all the city laws went into effect. Be careful about hitching to shade trees and swaining posts and leaving teams un hitched and not tied on the streets.

Joyce and Gera Webb of Amarillo are visiting here.

W. E. Reeves is reported on the sick list.

Mrs. O. E. Bailey and sons visited in McLean this week.

D. Card is ill in a Memphis hospital.

Looking Around

A circular received from L. G. Bentley of the American Assn. of Railroads describes a number of horrible accidents that have been caused in recent years by children playing on railroad tracks. It goes on to say:

It is a tragic thing when strangers, or sometimes friends, come to the doors of our homes to tell parents that their little boy or girl has just been killed or seriously injured while playing on railroad tracks or hopping on railroad trains.

In ten years this happened in the homes of 2,954 children under 14 years of age, and 7,955 times in the homes of older boys and girls.

We believe that Youth should experience and enjoy adventure, but there is a vast difference between that adventure which brings happiness and good into the world and the exposure of one's self to the dangers attached to playing on railroad tracks or hopping on trains.

The purpose of this circular is to appeal to youth to keep away from railroad tracks and trains unless there is a right to be there and to say a word of warning to parents, so that they may check up on the playground habits of their children and the ways they travel in going to and from school and other places.

The Texas petroleum industry pays one fourth of all the school taxes in the state.

Fifty million acres of Texas land are now being leased from farmers and other land owners of the state by the Texas oil and gas industry.

Mrs. E. R. Hooker and daughter Bettie of Amarillo were Hedley visitors last week end.
