Homer Mulkey in Hospital

We are sorry to report that our good friend Homer Mulkey, owner of the Pastime Theatre in Clarendon, is seriously ill in Harris Memorial Hospital in Ft. Worth. Mr. Mulkey is one of this section's most valued and respected citizens, and few men have done as much for the welfare and progress of Donley county and its people.

Saturday, Dec. 14 is Mr. Mulkey's birthday. Be sure to remember him with a card or letter. He will deeply appreciate it.

His many friends are hoping for his speedy recovery.

Christmas Must Be Near

It looks like the Christmas spirit has reached Hedley. The business houses have colored lights strung the length of the business block, some outside Christmas trees and all of their windows and stores decorated for Christmas. All have an extra stock of Christmas goods and two of stores have a stock of toys that any town would be proud of.

Thanks to the prize offered by the Woman's Culture Club. Many more homes have outside lights and decorations this year. This is enough to make us proud of our Christmas shopping possible at home this year.

Attention!

Are you interested in bargains? No where can you get so much peace, satisfaction, fellowship, and help to better living for the time effort and money invested than in the three hours you spend in your church on Sunday.

Among your Christmas and New Year resolutions let this be first: "As for me and my house we will serve the Lord on His Holy Day and every day." The Methodist Church school cordially invites everyone not already enrolled in some school to meet with us at 9:45 next Sunday. Thanks!

Pull the Trigger on Lazy Bowels

with herb laxative, combined with syrup pepsin to make it agreeable and easy to take
 When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative Senna to pull the trigger on those lazy bowels, combined with good old Syrup Pepsin to make your laxative more agreeable and easier to take. For years many Doctors have used pepsin compounds, as agreeable carriers to make other medicines more palatable when your "taster" feels easily upset. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative Senna, combined with Syrup Pepsin. See how wonderfully its herb Laxative Senna wakes up lazy nerves and muscles in your intestines, to bring welcome relief from constipation. And see how its Syrup Pepsin makes Dr. Caldwell's medicine so smooth and agreeable to a touchy gullet. Even finicky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative Senna at your druggist's today. Try one laxative that won't bring on violent distaste, even when you take it after a full meal.

NEW IDEAS
 ADVERTISEMENTS are your guide to modern living. They bring you today's NEWS about the food you eat and the clothes you wear, the stores you visit and the home you live in. Factories everywhere are turning out new and interesting products.
 And the place to find out about these new things is right here in this newspaper. Its columns are filled with important messages which you should read.

WEEKLY ALY By Edward C. Way
Nazis Within Scope of Bombing Attacks On Vital Ports and Industrial Cities; Italian and British Naval Forces Clash; Weird Stories Told of Rumanian Purge

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
 (Released by Western Newspaper Union.)

BUCHAREST, RUMANIA — Shortly after this picture of King Michael and his mother was taken, the streets of this city ran red with blood. This is the last picture taken of the king and his mother before the outbreak of the Iron Guard blood purge of political enemies. Now Michael has fled into hiding and his mother is reported to be in Italy.
MEXICO CITY, MEXICO—Smiling a dazzling smile, General (Also-Ran) Almazan, defeated candidate for the presidency of Mexico, is shown as he arrived at Mexico City airport and renounced all claims to the high office following U. S. recognition of Manuel Camacho, who was inaugurated at ceremonies attended by U. S. vice president elect, Henry Wallace.

RUMANIA: Haywire?

Bringing to mind the French revolution, the downfall of Tsarism in Russia, and other rarities of human experience of similar ilk, Rumania went haywire following abdication of Carol and Anschluss with the Axis.
 Guns barked in public squares of half a score of towns, including Bucharest, where the enemies of Iron Guards found themselves perforated and laid in row upon row of corpses in bloody streets.
 In vain did Gen. Ion Antonescu order peace and quiet, death followed death; jails and other refugees were entered and victims dragged forth to the general slaughter.
 The Germans, who had touched off the inner revolt to the Nazi way of life, were aghast at their handiwork, fearing lest all value of their new acquisition would be swept away in an avalanche of anarchy.
 King Mihai fled into hiding; his mother, Queen Helen, who had returned to Bucharest joyfully as soon as Carol and Mme. Lupescu decamped, hastened off to Italy and the comparative safety of exile there.
 None could tell where Rumania was headed. Revolution immediately spread to the recently Sovietized Bessarabia, its dwellers crying out for "food, lower prices, fuel and medicines."
 Weird stories emanated from the madness within Rumania, perhaps the oddest of all the story that 30 Iron Guardsists, the ones who held the 64 "semesters" who were held responsible for the prior assassination of Codreanu, had immediately committed suicide after the slayings.
 Another yarn told how during the slayings a loud-speaker blared forth the voice of Codreanu, words of a threat against his enemies made during a famous speech when he was at the zenith of his career.

BOMBS: For Industry

After the British had been wondering what new line German bombing would take, the Germans made it instantly plain by starting a new type of attack on a long series of industrial centers of Britain with results the reports of which varied according to the source.
 The test tube for these attacks was the relatively small town of Coventry, but this was followed with smashing bombings of Bristol, Manchester, Liverpool, Southampton and other cities of greater size.
 In general the industrial heart of England lies in the Midlands, and on many nights the bomber waves passed up London entirely to smash away at towns in this territory.
 German accounts of damage done are optimistic, the British call them "highly exaggerated," but apparently the Nazis didn't know and the British wouldn't tell how extensive the damage has been.

Berlin claimed and London admitted that Southampton was in flames after a bitter day and night attack by the Nazis. England's chief southern port town, Southampton, is 80 miles southwest of London. Once the main port of call for transatlantic liners it was the object of the constant pounding by the feared dive bombers. While German dispatches stated that the city was in

flames, London admitted that many fires had been started but that they were put under control within a short time.
 Of interest to war observers, however, was the adoption by Germany of the tactic which has been earmarked by the R. A. F. since the commencement of the "all-out" air war.
 From the first the R. A. F. has concentrated on objectives of two types, despite the widespread popular demand for bombings of Berlin: The R. A. F. planes have deluged the "invasion ports" with explosives, and also the industrial and munitions centers of Germany.
 This attack also has been extended to industrial Italy, with devastating blows at Turin, Naples and Leghorn among other centers. Before the war, military observers predicted that of the three nations, Germany's industrial cities were best protected against air attack, England's next best and Italy's most vulnerable. All predicted, however, that if Germany held mastery of the air she conceivably could cripple British industry.

GREEKS: History Makers

Generations to come will find in their history books the story of the defense of their nation by the Greek armies under General Metaxas, who continued their successes, though at somewhat slower pace as they proceeded many miles into the difficult Albanian terrain.
 Study of military maps showed the dangers of the Italian position, but reports tended to show that although badly beaten and knocked back on their heels into Albanian territory, the Italians were still planning to make a fight of it.
 Greeks were taking their victories calmly, General Metaxas giving the United States to understand that little Greece could not hope to "go it alone," but would need expanded American aid in addition to liberal help from British land forces and airplanes.

The Grecian armies were fighting a brilliant and vigorous campaign, with much of the drive that goes with repeated successes. Dramatic sidelights were the fighting of the Macedonian women, who told how they gathered on a mountain plateau against orders of Greek commanders and started avalanches of heavy rocks down on Italians trapped in a ravine below them.
 Another dramatic sidelight was provided by the Italian radio, which broadcast a bitter denunciation of the Greeks for use of the bayonet, calling it a "barbarous weapon."
 Leslie Hore-Bellisha, writing of the Greeks, said real test would be reached when Italians reached the coastal plain, where Fascist mechanized equipment would get a fairer test. Greeks were promising to make no stops in driving Italians into the Adriatic.

DIES: Vs. Administration?

Martin Dies, foe of the fifth column, whenever and wherever he finds signs of it, ran into a snag when President Roosevelt handed him an advisory telegram at his Orange, Texas, home. President warned Dies that his "White Paper" and "Red Paper" were premature and hampered work of the G-men.
 Dies, taking a leaf from the Rooseveltian book, declared he has a "mandate" from the people for continuation of his committee's work, and promised two more "papers" as his answer to presidential objections.
 He went to the nation over the air-waves, urging a radical change in American methods of spy-fighting. Army and navy heads admitted Dies' charge of Communist members in the armed forces, and promised to "crack down" if any of them became active.

AMERICANA

Graduates of the Coast Guard academy will now be given degrees of "bachelor of science," just like college men, it has been decided.
 Louis Tracy is a barber and volunteer fireman of Ponca, Neb. He was half through a customer's shave when the alarm sounded. Tracy fought the fire, returned, and finished the shave. His customer was the deputy fire marshal.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
 (Consolidated Features—WNU Service.)

NEW YORK — Also bulky and muscular, but less belligerent than John L. Lewis, his predecessor in office as president of C. I. O., is Philip Murray. He is of Scottish descent and therefore given to fewer words than Mr. Lewis, and has been a powerful offstage figure in the sensational rise of the C. I. O. in the last four years.
 Conservative labor opinion sees in his selection an augury for improved labor relations under the urgency of our defense effort. He has been a negotiator and labor pacifier for three Presidents. President Wilson made him a member of his War Labor board. In 1921, President Harding used him to sidetrack a civil war in the West Virginia coal fields, with 10,000 miners in revolt. President Roosevelt asked his cooperation in the successful adjustment of the threatened steel strike of March and April, 1937. He has been a hard-hitting foe of the left-wingers, both in the old craft unionism and "vertical" unionism days. A month ago, he wrote to Eugene G. Grace, president of the Bethlehem Steel corporation, proposing a conference, "for the establishment of orderly industrial relations."
 In his native Lanarkshire, Scotland, he was a breaker boy in the mines. He arrived in America with his family when he was 16 and went down in the pit for the Keystone Coal and Coke company in Westmoreland county, Pa. He started a small civil war when he punched the weighmaster in the nose. That, he has said many times, was one of his greatest mistakes. Thereafter he kept his temper. But the nose-punching started his career as a labor leader. The miners made him president of their newly organized local of the United Mine Workers of America, at the age of 18.
 He educated himself by a correspondence course and now he is a master of flawless grammar and diction. Restraining his powerful fist has not always been easy and he enjoys vicarious milling as an eager boxing fan. He is silver-haired, slow-spoken, with a bit of the old Scottish burr on his tongue, and deliberate in speech and action. In behalf of his organization, he has pledged labor's full co-operation in defense. He is married and has a 21-year-old son.

GUTZON BORGLUM, 73-year-old sculptor, recently made the radio presentation of awards in national poster contest of the William Allen White Committee to Defend America by Aiding the Allies.
 Apparently taking this personally, Adolf Hitler orders the destruction of Mr. Borglum's statue of Woodrow Wilson in Posen, Poland. The Nazis call it an "artistic eyesore, with the legs too short, the body too long and the head too large."
 They wouldn't talk that way to his face. The big, knobby, Danish-American citizen once mixed with "Ruby Bob" Fitzsimmons, without getting hurt. He is not only a sculptor, but an amateur boxer—still good for his age—a politician and engineer, a writer and a painter.
 He likes a lot of elbow room in whatever he does and has been having the time of his life with his Black Hills sculptures of the Presidents. Standing up, his mountain-side Abraham Lincoln would be 465 feet tall. He's never so happy as when he has a steam shovel for a chisel and a carload of dynamite for a mallet. He has a hair-trigger temper, riding any big political cyclone that may happen to kick up. His first attempt at gargantuan mountain carving, for the Confederate memorial at Stone Mountain, Ga., broke up in a row, in which models and plans were destroyed.
 With a number of other distinguished artists he has been active in the poster contest and has helped stir public excitement over the competition. Born in Idaho, he was educated in Fremont and Omaha, Neb., and studied art in San Francisco and Paris.
 IN THE war-planning, which daily takes on more and more of an emergency aspect, whippy little gray-moustached Gen. George V. Strong is the diplomat of the army. His recent mission to Great Britain is said to have yielded much basic information on which the army and navy are working out hemisphere defense. He is chief of the war plans division of the war department's general staff. General Strong is one of the few high-ranking army officers who started their careers fighting Indians.

I am certainly happy when people say they like those booklets. I have been so interested to do them that now Book 6 is ready for mailing. It is full of new ideas for making new things for the home. Mister X

Wonders:

What Miss Mathis is going to do when the cotton picking season is over and the Farmers' Gin Bookkeeper leaves.

Why Ida Lou is so stuck on Billy Cooke, Jr. now. What is the matter. Has that Perryton boy quit you?

Why J. M. thinks he would like to play girls basketball?

How much truth there is in those rumors about Charles and Lova? There must be a good bit because of the sweet letters that were found in her possession.

Why Ray Kinder and Lois Rhodes are following the example set by our previous sweet hearts? The hall seems to have become a regular show stage now that three couples are putting on a lovers show for us.

If the Seniors are slipping with Mrs. Owen? She made some of them stay in the other day.

If Miss Cleek is going to be able to leave her Hedley boyfriend during the Xmas holidays?

Why it is that Adell Myers wants to stay over in the girls typing class and take speed tests.

Mr. X

There was "The Spirit of Christmas." He stated that the fortunate people of this community should give the unfortunate people an opportunity to keep in mind the real meaning of Christmas. His speech was very beneficial, if we would take it as he presented it to us. The student body as a whole enjoyed the speech very much.

Grade School Presents Operetta

The Christmas season is here and with it comes the annual Christmas operetta given by the Hedley Grade School. On December 19 at 7:45 the operetta "Spread the Christmas Spirit" will be given in the high school auditorium.

School friends visit Gene Paxton (Jerald Sims) and Bette Taxton (Virginia Hunter) to ask them for toys to make other children happy. Gene refuses. Jack (Carter Hoffman) wants to prove that Santa Claus isn't necessary at Christmas, but Ann (Dale Simmons) says that we all believe in Santa Claus.

Santa's fairy helpers (Joan Ray Mereman, Sarah Ann Raina, Blanche Sue Dudley and Anita Bain) come to see Gene's toys and they decide that Gene is hopeless and doesn't deserve any more toys. When Gene awakes

he decides that it is better to give than to receive and he is ready to spread the Christmas spirit. Even Jack finally believes in Santa Claus.

Everyone is invited to attend the Christmas program Thursday night December 19 at 7:45. There will be no admission.

Srs. Sponsor Opening of Hall's New Station

The Senior class is sponsoring the advertising and trade drumming for the new Conoco Filling Station, which is to open Saturday, December 14. Mr. Hall has built this new modern station so that he might better serve his trade. This new building has added greatly to the appearance of the west side of main street.

Mr. Hall has some very attractive features for his customers, old and new, on this big day. He will give away with sales chances for Christmas turkeys; flags to decorate the cars, and balloons to amuse children, old or young, big or little.

This project is one of the many activities of the Senior class to raise funds for their much hoped for trip next spring.

It also has the great wire feature service of North American Newspaper Alliance (NANA). Most newspapers would be content with these—but NOT The News, which also maintains its exclusively-owned bureaus in Washington, Austin, Mexico City, East and Central Texas . . . to say nothing of more than 200 local correspondents scattered over the Southwest . . . and the largest local staff of editors, reporters, artists and feature writers of any newspaper in Texas.

HOUSEHOLD QUESTIONS

When planning your meals aim for a balance in soft and solid, strong and mild-flavored, and a variety in colors as well as watching out for nutrient values.

Make ice cream "Snowballs" by dipping scoops of vanilla ice cream into coconut.

If fondant gets hard and crumbly during kneading break off small pieces at a time and work them individually. The fondant may also be covered with a damp cloth and then kneaded with the hands.

Let potatoes that are to be French fried stand in cold water at least half an hour before frying. It makes them crisp.

Gift Suggestion

One way to sure popularity with pipe and "makin's" smokers is to say "Merry Christmas" with the big one-pound Christmas gift packages of Prince Albert smoking tobacco. See them at your dealers—in gay holiday wrapping including gift card—and every big one-pound tin chuck-full of prime, rich-tasting P. A.—the cool-burning tobacco. Your tobacco store has Prince Albert in the pound gift tins—presents all ready to bring Holiday cheer to many a man's Christmas morn.—Adv.

THE TRUTH SIMPLY TOLD

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you see, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste from the body, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feet weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

STAGE SCREEN RADIO
(Released by Western Newspaper Union.)

By VIRGINIA VALE
IF "THE LADY EVE" is as good on the screen as it is on paper, it'll be a knockout. Preston Sturges, who is directing the picture, wrote the script as well; like all of his scripts, it not only makes interesting reading but gladdens the hearts of all connected with the picture because of the highly-descriptive instructions.

For instance—the casting experts knew just what kind of girl to get for a bit part, because Sturges had written "She's a sweetie in a sweater." Edith Head, costume designer, had no doubts about what was required when she read "Our senses reel as we see her in her bridal nightgown." Instructions for Barbara Stanwyck include "She screams like a steam whistle" and "She smiles like a leopard and almost purrs." But Henry Fonda was rather startled when he encountered, in his own part, "Unfortunately, as he says this, he looks like an idiot."

With "The Great McGinty" and "Christmas in July" to his credit, Sturges, who used to write successful plays, has become one of those directors whose pictures you can't afford to miss.

Joan Crawford will have Melvyn Douglas (who's just signed a new contract with Metro) and Conrad Veidt as her leading men in "A Woman's Face," which originally was made in Sweden with Ingrid Bergman in the leading role.

Bette Davis deserves new laurels for her performance in "The Letter." She does some superb acting in a difficult role. Perhaps you remember the story—Jeanne Eagels made it in 1929, after Katharine Cornell had appeared in a play versed on the Somerset Maugham story. It is the story of the wife of an English rubber planter in the Malay States; she kills a man, but an incriminating letter exists, which must be recovered.

The entire cast—James Stephenson, Herbert Marshall, Gale Sondergaard—is excellent, and William Wyler's direction could not be improved on.

Paulette Goddard is up to her neck in snow, figuratively speaking. The first winter snows are blanketing upper reaches of the San Bernardino mountains and as president of Southern Skis she's resuming active direction of the organization. Among its members are Claudette Colbert, Norma Shearer, Galli-Curci and King Vidor.

And incidentally, speaking of the charming Claudette, her latest picture, "Arise My Love," deserves the avalanches of praises that it's been receiving. Of course, in her role of foreign correspondent she does dress better than any real newspaper woman.

But who cares? She's delightful, she plays her big emotional scenes expertly, she's convincing. Ray Milland makes you thankful that Don Ameche had differences with Paramount just in time for Milland to get the role opposite her.

Some of America's greatest musical talent is scheduled to come to you on that new radio program, "Music That Refreshes," heard on Sunday afternoons over 92 stations of the Columbia Broadcasting System. John Charles Thomas, Helen Jepson and many other top notch singers will appear. Albert Spalding, the violinist, is a permanent fixture on the program; co-featured with him is Andre Kostelanetz, the conductor, and husband of Lily Pons. Miss Pons will drop in as a guest star from time to time.

Spalding attributes his success as a violinist to a monkey. At the age of seven he was first exposed to one which, gaily dressed, was passing his home with a wandering fiddler. His family wouldn't buy him a monkey, but settled for a violin. Today he owns several of the most valuable violins in the world, is internationally famous, and has made a fortune by his playing.

ODDS AND ENDS—Harold Lloyd may return to acting when he finishes production chores on "Three Girls and a Gob" . . . Wee Bonnie Baker has to be very careful of what she does with her eyes, hands and dimples when she's singing in Paramount's "You're the One"—according to the studio censor, she does things with her voice that Sally Rand does with fans . . . The first "hemispheric premiere" in motion picture history takes place Dec. 17, when Metro shows "Flight Command" simultaneously in Washington, Havana, Mexico City and Toronto—it's being done as a salute to Pan-American Aviation Day . . . It's reported that Lucille Ball may become Mrs. Cass Markey.

Her Fourth Finger

The custom of women wearing engagement rings and wedding rings on the fourth finger of the left hand arose from the ancient belief that that finger contained a delicate nerve or vein, called "love's vein," connected directly with the heart.

By wearing the engagement or wedding ring on the fourth finger of the left hand, therefore, a woman sought to show not only that she was betrothed but that her heart was touched.

Shelterbelt Planting

Again the season has arrived when the Forest Service begins to move planting stock from the Plainview Nursery to the various locations in the area where farm shelterbelts are to be planted according to James W. Kyle, Acting District Officer in charge of the Shamrock District Office.

The locations where shelterbelt trees will be heeled in the Shamrock District are as follows: Shamrock, Wheeler, McLean, Hedley, Memphis and Wellington. Moving of the trees will start in the next few days, Kyle reports. The trees will be moved by Government trucks and only about two weeks supply stored at any one time.

According to the Acting District Officer the interest in the planting of shelterbelts is greater this year than in past years. It is reported that in past years the Forest Service has been in a position to plant shelterbelts for most all farmers desiring them provided the soil was favorable for tree growth, but the indications are this will not be the case.

The Forest Service furnishes trees and labor for the planting of farm shelterbelts on cultivated land where the soil is favorable, and landowners desiring these plantings are requested to make application by January 1st, as the applications will be considered as they are received and the late ones may not be considered for this year's planting. For this reason Kyle suggests applications either be made through the County Agent or direct to the Forest Service at Shamrock or to one of the field men. Field headquarters are maintained at Wheel-

er, McLean, Memphis and Wellington and Kyle says a post card or letter will be considered as an application.

Field men for Donley County are Bill Greene Jr., Clarendon, and Douglas Miller of Memphis.
