Tornado Kills Four

One of the worst tornadoes ever to strike this section ripped through several Panhandle towns early Monday morning, leaving four persons dead and around 80 injured. The storm apparently originated near the New Mexico line, striking first at the Spade community near Littlefield, where two negroes, Allan and Sarah Green were killed. Then about 4 a. m. Kress was struck. Several homes were leveled, D. P. Singleton, 70 years old was killed, and Mrs. Singleton, also 70 and Bobby King, aged 8, were seriously injured.

Passing at Silvertown to destroy a small office building, the tornado raged on to Clarendon, reaching there about 5 a. m. The first home struck was that of R. E. Brennan, dean of Clarendon College, which was completely destroyed.

Mrs. Brennan was blown into the street, and succumbed to her injuries in an Amarillo hospital. Mr. Brennan, also in an Amarillo hospital, is in a serious condition.

The home of Mrs. O. L. Finn was badly damaged, and Mrs. Finn was slightly injured while attempting to reach her basement. Roofs were blown off the Joe Holland and Frank Bourland homes, Mrs. Bourland receiving severe cuts.

One of the heaviest blows of the storm struck the \$40,000 J. L. McMurry residence, carrying away the roof and blowing in parts of the top story. A barn and carriage house were demolished.

The storm next struck the administration building and dormitory of Clarendon College, wrecking the northeast wing of the dormitory and saving in the roof over the auditorium of the main building as well as tearing away cornice work. Damage to the college buildings was estimated at around \$60,000.

The brick home of Mrs. Lena Antrebus was reduced to a shell, the roof being torn away and the windows blown out. Three cars in the Antrebus garage were wrecked.

A frame residence recently vacated by Rev. G. E. Willard and family was completely blown away, only a few fragments being found.

Other damaged homes included those of Wiley Morris and T. W. Welch. Mrs. Welch suffered a broken leg.

The J. R. Sells home north of Clarendon was moved 12 feet from its foundations.

The total storm damage in Clarendon was placed at \$500,000. Many homes which were not seriously damaged had broken windows, holes in their roofs, etc.

Berries

Berries For Sale. Will pick berries at my place 2 mi. west of Hedley 6 days a week beginning June 9th. Bring your vessels. Thanking you in advance, I am at your service.

W. J. Luttrell

Mrs. P. M. Reed of Amarillo, J. B. Pickett, Robert and Miss Jonierie Pickett enjoyed a trip to Kansas last week.

R. E. Darnell has been quite ill in a Memphis hospital, with pneumonia.

Mr. and Mrs. Tom Trent, John Trent and family and Mrs. G. S. Sallis, all of Waco, visited friends here Monday.

Draft Registration July 1

On July 1st all young men who have reached the age of 21 since last Oct. 16th, must register for possible military service under the Selective Service Act. Donley county men in this group may register in Clarendon or at the City Hall in Hedley.

Baptist Church Notes

The pastor was happy to be back in the services last Sunday after a week at Saginaw and Ft. Worth. It was glorious to be at Saginaw for the homecoming where friends of other days were met and much progress was noted.

The Pastor's Evangelistic Conference at the Baptist Seminary of Ft. Worth was well attended; several hundred of the more than twenty five hundred Baptist preachers in Texas were present. The program was really great and the spirit was wonderful. At the morning hour last Sunday, the pastor brought a message of inspiration concerning this conference.

Because of the stormy weather and the lack of lights, there were no services at the evening hour.

The Daily Vacation Bible School will be postponed. A later date will be set.

Girls: remember the G. A. meeting Saturday afternoon at 3 o'clock.

The church voted Sunday morning to put a new roof on the basement. A roofing as near permanent as possible will be used. About one third of the amount of money necessary for this project was pledged Sunday morning. About \$75 more is needed. The treasurer is in a receptive mood.

Remember the services for Sunday. Come to them! Pray for them! Tell others!

A. L. Teaf, pastor

Scout Troop Wins Honor

At the May Court of Honor of the Boy Scouts of this district, held at Memphis, Troop 86 of Hedley won first place. The troops are rated on their attendance, attendance of officers and parents, uniforms, increase in membership and advancement of scouts.

The Troop good turns for the month of May by Troop 86 were putting out posters for defence bonds and work at the cemetery on Memorial Day. The troop has eighteen members and has a good baseball team. They are planning several hikes and camping trips during the summer. Any boy over 12 years of age is invited to join.

A letter from the public relations officer of the 1st Signal Troop at Fort Bliss reads as follows:

Private Jay L. Grimsley, of your city, now in the Service of the U. S. Army, connected with the First Signal Troop, Fort Bliss, Texas, has recently been appointed Corporal in this organization.

A War Dept. postcard requests that all mail addressed to Will F. Springs should be sent to Company C, 25th Battalion, Engineer Replacement Center, Ft. Leonard Wood, Missouri.

J. D. Gola of Glauco, a radio worker in the navy, has been transferred to the U. S. S. Idaho.

Mrs. G. S. Knowles and son of Dalhart are visiting here.

FAMOUS ALL-BRAN MUFFINS. EASY TO MAKE. DELICIOUS!

They really are the most delicious muffins that ever melted a pat of butter! Made with crisp, toasted bran of KELLOGG'S ALL-BRAN, they're a texture and flavor that have made them famous all over America.

KELLOGG'S ALL-BRAN MUFFINS 2 tablespoons 1/2 cup milk shortening 1 cup flour 1/2 cup sugar 1/2 teaspoon salt 1 egg 2 1/2 teaspoons baking powder 1 cup All-Bran Cream shortening and sugar, egg and beat well. Stir in All-Bran and milk; let soak until most of moisture is taken up. Sift flour with salt and baking powder; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400°F.) about 30 minutes. Yield: 6 large muffins, 3 inches in diameter, or 12 small muffins, 2 1/2 inches in diameter.

Try these delicious muffins for dinner tonight or for tomorrow morning's breakfast. They're not only good to eat; they're mighty good for you, too! For several of these muffins will add materially to your daily supply of what physicians call "bulk" in the diet and thus help combat the common cause of constipation that is due to lack of dietary essential. Eat ALL-BRAN every day (either as a cereal or in muffins), drink plenty of water, and see if you don't forget all about constipation, due to lack of "bulk." ALL-BRAN is made by Kellogg's in Battle Creek.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON (Consolidated Features—WNU Service.)

NEW YORK.—It isn't only the heat that is good news for soda-jerkers. It is an alumnus of their guild who develops a 57-passenger transport plane, gaited at 350 miles per hour, and gets an order for 40 of them, right away quick. The man from behind the counter is 36-year-old Jack Frye, president of the Transcontinental & Western Air, Inc., for the last six years.

He has been merging air companies the way he ambidextrously merged raspberry flips—up through the depression years to the status of a high-rating aviation mogul. His new plane, the largest commercial land plane ever projected, will have a flying range of 4,000 miles and a ceiling of 30,000 feet. He says his fleet of 40 of these planes could hustle 16,000 troops into Alaska in 36 hours.

Born in Sweetwater, Okla., Mr. Frye grew up and did his soda-jerking in California. He nicked each pay check for something for the kitty, to buy into aviation. His first investment was in a series of flying lessons. He and his instructor then bought a battered old war veteran Curtiss Jenny and made it the nucleus of a flying school and an aerial taxi service.

Standard Air Lines came later when two students, Paul E. Richter and Walter A. Hamilton joined young Mr. Frye in establishing it, operating between Los Angeles and Phoenix, Ariz. As one thing led to another, as they bought and merged companies, his associates moved along with him and became executives of the T.W.A. Mr. Richter shared his last notable acquisition of aviation stock, when, in April, 1929, T.W.A. took over about 70,000 shares of the Lehman Bros. holdings in T.W.A. at two points above the market.

Mr. Frye has kept right on flying as well as designing and financing airplanes, and in 1934 set up a record in crossing from Los Angeles to Newark in 11 hours and 31 minutes. Thirty-six years is young for a mogul. Last January, he married Helen Varner Vanderbilt.

COMMANDER Edward Ellsberg's new novel, "Captain Paul," the fictional narrative of the life of John Paul Jones, is another reminder of American penchant for doubling in writing and fighting. We have had Gen. Lew Wallace, with "Ben Hur," "Captain King" and all his other bell-ringing stories; Maj. John Thomasen, of the marines, author of "Fix Bayonets," and many other books and short stories and one of the best writing men of the country, regardless of weight or class; and of course Maj. Gen. "Hap" Arnold of the air corps, author of the long string of "Bruce" stories.

As to Commander Ellsberg, his New Book is one of an increasing number of his imprint which get loud applause from the critics. His spectacular feat in raising the submarine S-31 off Block Island in 1925 first brought him to national attention. His first book, "On the Bottom," told the story of the S-31. Thereafter came "Fig-boats," "Thirty Fathoms Deep," "Hell on Ice," "Men Under the Sea," and many short stories and magazine articles. He is now a United States naval reserve officer.

He was born in Hartford, in 1896, the son of a Russian Jewish immigrant. Young Ellsberg went to Annapolis, where he was graduated at the head of his class. His eminence in engineering is comparable to his literary reputation. He attended the Yale School of Naval Architecture, after his graduation from Annapolis and in the World war got a fast running start into his career by refashioning interned German ships for transport. He is short, compact, square-jawed, with an outthrust jaw, and always stirred by keen intellectual interests.

NEVER an engineer, metallurgist, financier or salesman, Walter S. Tower worked up in the steel industry to a \$100,000-a-year job. As president of the American Iron & Steel Institute, he tells the New York general meeting of that organization that this country has steel enough to supply all possible 1942 demands several times over. Mr. Tower taught economic geography at the University of Chicago and was trade adviser for the U. S. shipping board. Has a Harvard M. A. and a degree from Pennsylvania.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Great Britain's Loss of Crete to Nazis Endangers Mediterranean Position; President's Pledge to 'Help Britain' Spurs Study of Aid Being Extended

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

Billows of smoke rise from the Erie railroad terminal in Jersey City, to form a cloud that pallid the entire city of New York. Frantically the tiny fireboats below play tiny streams of water on the gigantic fire which destroyed over five million dollars worth of defense and other materials. Although authorities had been warned of sabotage and were watching, the fire broke out following an explosion in a hay shed.

SUPREME COURT: A Retirement

Seventy-nine-year-old Chief Justice Charles Evans Hughes of the U. S. Supreme court is retiring from the bench, July 1 of this year. In a telegram in answer to the request on the part of Hughes to cease active duty at that time, President Roosevelt accepted the retirement and spoke of "the splendid service" rendered. The "grand old man" of the court has been eligible for retirement since 1934 but he continued to serve in a regular capacity up to the present time. It is known that Mrs. Hughes has been urging him for some time to retire and spend his time in rest and travel. He gave age and health as his reasons for wanting to retire. His career of public service has few parallels in U. S. history. He has served as governor of New York, secretary of state, presidential candidate, member of the world arbitration tribunal and was twice justice of the Supreme court.

CRETE: Its Meaning

The Battle of Crete, another outstanding victory for Germany, won almost without Italian aid except in the closing stages, was not only a serious loss for Britain, but it was marking an epoch in warfare from several standpoints. The German claim apparently was justified that it was the first airborne capture of an island where the attacker did not have control of the water lane separating it from the mainland. In the case of the Norwegian invasion, which in some ways was similar to Crete, the Germans did control the water division between themselves and Norway. But into Crete they had to send and supply an army into a country occupied by the enemy, presumably an enemy in position to send reinforcements and supplies by ship to their own forces. The hand-to-hand fighting at the beginning of this campaign should have been more to the advantage of the British, yet the parachutists and gliders arrived in such force that the advantage rapidly wilted away and the British found themselves being pushed back by superior forces, sufficiently well armed and well supplied to hold out and await their air-borne reinforcements. That the Germans themselves had little confidence in the experimental war was shown by the fact that both they and the Italians were ready with shiploads of expeditionary soldiers, and the Germans, at least, tried to land theirs and lost an announced 5,000 men. But this very attempt proved another thing—that fleets are vulnerable to attack from swarms of airplanes. Reports showed that the Germans alighted hundreds of the plane-ship battle, British survivors, told stories of 20 Stukas at a time being assigned to each ship, and that when they went away their places were taken by 20 others. Now, the dive-bomber is apparently able to hit or come close to its objective and it makes a poor target for anti-aircraft fire, so great is its speed and so narrow the appearance of its approach. Hence the destroyers and cruisers were hit and badly hit, and many went to the bottom, the fleet had to withdraw to Alexandria to repair its wounds, and the coast was clear for the Italians to land their ship-borne forces. This was the last straw, but the battle had been won without that, and the German propagandists took full advantage of the fact to predict England would fall the same way. The Australian premier declared the battle as a simple lack of machines on the part of the British defenders.

AID: A Question

Congress and many newspapers were beginning to question how much lease-lend aid was reaching British points, and this question the President promised to answer "in round figures." But one of Harry Hopkins' associates, in answer to a senatorial inquiry, wrote a letter which tended to the belief, expressed by Senator Byrd of Virginia, that the aid thus far sent had been "infinitesimal." Burns, the Hopkins associate, explained the delays required to set stuff aboard ship for Britain, explained that much of the material being turned out was required by "our own forces," and suggested that the few weeks since the passage of the bill had been needed just to start things in motion. Senator Byrd got the idea that not much had gone, in fact the Burns letter had attempted to explain why he couldn't give figures on how much had been sunk, which was what Byrd wanted to know. Burns said there couldn't have been much sunk because much hadn't gone. Byrd pointed to figures of 400 to 600 combat planes a month being built, medium tanks just started, 90-mm. cannon for anti-aircraft fire just started, and heavy tanks not started yet. He voiced sharp criticisms of the President's production and lease-lend set-up, and it was following this criticism that the President promised a report. But it was likely that this report would not come until the 90-day required period was up, 12 weeks and more after the passage of the bill. At all events it was plain that the hiatus between congress voting seven billions of dollars to implement the lease-lend bill and the setting down in British hands of the seven billions of dollars' worth of war material was going to be considerable. The consensus of opinions as to defense production was that the country had done "pretty well" in the first year, but that the country was going to have to do "much better" in the future.

SPEECH: Aftermath

Some newspapers who had praised the President's fireside chat to the highest, in the days that followed began to write editorials criticizing the President for not carrying out his implied promises. The President's press conference on the Wednesday following the Tuesday of his speech had been a shock, and it produced some pretty biting editorial comment. The President, who had demanded "freedom of the seas" and had promised any and all measures necessary to achieve this, turned around and said that he didn't mean that American ships had to go where they might be sunk, and he didn't think he would ask repeal of the neutrality act, which forbid just that. The American press began to wonder whether the President's speech had been just words, and that his policy was going to be much weaker than what had been expected by the public from the speech. Even the anti-interventionists were frankly surprised by the turn events had taken, though their thunder did not lessen. On the labor question, too, the President had indicated that he would not tolerate stoppage of work in defense plants, yet the Pacific coast machinists' walkout still continued. In this strike, as well as others which were continuing, there seemed no immediate change in the government's active attitude, the mediation board going through the same procedures as it had before the President's speech, and the President himself taking no active hand, or making any personal moves.

Co-ordinator

This is Mrs. Harold V. Milligan of New York who was chosen by the General Federation of Women's clubs as head of its new department of National Defense. She will campaign for organization of women into a single national "preparedness" movement.

IRAQ: Just in Time

With the Germans well occupied in Crete, so much so that they were unable to send aid in force to the Axis puppet government in Iraq, the British finally were able to eke out a victory over Rashid Ali Gailani's little army. The German planes which had been sent there were forced hastily to fly out of the country when a new Bagdad regime, suddenly formed on the flight of Rashid Ali Gailani to Iran, called for an armistice and was granted it by the British. The battle for the Mosul oil pipeline from Kirkuk to Haifa thus was won, at least temporarily, though even before the end of the battle of Crete, as soon as the Germans were definitely in the saddle, they resumed their flights into Syria, and were beginning to sit in force in Iraq's neighboring French protectorate, ready to start a new offensive to the southward. Again the British were faced with the problem of how to fight a delaying action through Iraq, how to defend the newly re-won pipeline, how to keep the Axis pincers from closing in on Suez and on the all important oil supply for the fleet. The British had moved into Iraq not through Saudi Arabia, but through Palestine, but from Basra on the Persian gulf, and from this point had driven successfully to Bagdad and had forced the surrender. However, military strategists recognized the difficulty of a holding campaign against an attack from Syria. Again American aid was the crux of the situation, for the British hoped that the German losses in the Cretan campaign, plus the fact that the Germans never moved until fully prepared, might delay the start of the attack from Syria until proper forces could be moved in. This delay, provided the lease-lend aid from the United States started to move, might give the British sufficient equipment to make a stern defense of Iraq and the Mosul oil.

BRITAIN: And Vichy

Admiral Darlan, when he published a bill of particulars against Britain, a bill dating way back to World War I and the 20 years thereafter, went a long way toward widening the breach between France and her former ally to a point where repair would seem impossible. Indeed, the British in the bombing of Tunisia and the sinking of French merchantmen in the Mediterranean on the ground that they were carrying contraband which was destined for Axis use were apparently convinced that the break between themselves and France was irreparable, and that strong measures must be used. Many commentators believed that Darlan's statement was more or less of a smoke-screen to cover further French aid to the Axis war moves, and that France still was a long way from declaring war on the British. Yet it was conceded that France was walking a tightrope, Darlan attempting to do three things at once—keep his people out of war, feed them and still placate the German conquerors. MISCELLANY: London: Eyewitnesses of the Bismarck sea battle reported the German battleship was 50,000 tons, not 35,000 tons, and that she carried 2,400 officers and men, not 1,300, as reported. San Sebastian, Spain: One hundred and seventeen Americans, survivors of the Zamzam, reached Spain, the young men who were heading for ambulance service with the British being detained in occupied France.

THE TRUTH SIMPLY TOLD

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory results. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function, and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed. Burning, scanty or too frequent urination sometimes warns of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, painless under the eye—red web, nervous all played out. Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

FIRESTONE TIRES WIN AGAIN
IN 500-MILE INDIANAPOLIS RACE

MAURI ROSE, Co-Winner With Floyd Davis in the 500-Mile Indianapolis Race May 30th, Averaged 115.117 Miles per Hour on Firestone Gum-Dipped Tires Without a Tire Change or Tire Trouble of Any Kind.

FLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change. 500 miles of grinding, pounding, torturing speed — and not one tire failed! Here's proof of safety — proof of blowout protection — proof of endurance — proof of tire superiority backed not merely by claims, but by PERFORMANCE! For 22 consecutive

years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know that the patented construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory.

The same super-safety and dependability that are built into Firestone Tires for the speedway are also built into the new Safti-Sured Firestone DeLuxe Champion Tires for the highway. Both are Safti-Sured against blowouts by the patented Safety-Lock Gum-Dipped cord body. Both are Safti-Sured for longer wear by the exclusive new Vitamic rubber compound. Profit by the experience of famous race drivers. Equip your car today with a set of these new Firestone DeLuxe Champion Tires — the world's first and only tires that are Safti-Sured.

EASY AS LOW AS **50¢** PER WEEK

Firestone HIGH SPEED TIRES

First Quality—longer mileage—greater blowout protection—greater non-slip safety—less cost per mile. Finest High Speed Tire Firestone has ever built. Equip your car today.

A General Quiz

The Questions

1. A pundit is a man who is—illiterate, comical or learned?
2. What American city outside the United States has the largest population?
3. How long is a tennis court?
4. Where is the world's largest church building?
5. Which of the following had faithless daughters—Othello, Macbeth or King Lear?
6. The name of Elijah Lovejoy is associated with what?
7. Over what country does the House of Savoy reign?
8. What organization is the largest user of office space in the world?
9. What was the area of Germany before the present war as compared to that of the state of Iowa?

The Answers

1. Learned.
2. Mexico City.
3. Seventy-eight feet.
4. Rome (St. Peter's cathedral).
5. King Lear.
6. Freedom of the press. He was an Abolitionist editor who was killed by a mob at Alton, Ill., in 1837.
7. Italy.
8. Our federal government. It owns or rents a total of 118,225,000 square feet in 19,117 buildings scattered throughout this country. The 26,000,000 square feet in Washington alone is double that of only nine years ago.
9. The area of Germany before September, 1940, was 225,258 square miles, including Austria and the Sudetenland. The area of Iowa is 56,147 square miles.

YOUR SUNDAY DINNER

(See Recipes Below)

ESPECIALLY FOR DAD

Sunday, June the fifteenth, is the day you want to especially prepare DAD's favorite foods—for it's Father's day—and don't forget it. The favorite of all men is a good tasty meat pie—so the suggestion for the main course is a delicious individual meat pie. Dad doesn't like to bother much with side dishes of salad, so place his salad right on the plate with the rest of the meal. He likes a cole slaw stuffed tomato. Buttered carrots and peas are the vegetables. Because he is so fond of blueberries, it's blueberry muffins to go with the meal, and blueberry ice cream cake for dessert.

This week's menu is properly balanced for nutritional value. It supplies:

The appetizer: Carbohydrates, minerals, Vitamins A, B, C, and G.

The Meat: Proteins, phosphorus, Vitamins B, B-1, fats, carbohydrates in crust.

The Vegetables: Minerals, Carbohydrates, Vitamins A, B, C, and G. Muffins and butter: Vitamins A, B, C, and G, minerals, carbohydrates.

Salad: Minerals, Vitamins A, B, C, and G, carbohydrates, and fats.

Dessert: Carbohydrates, minerals, fats, Vitamins A, B, C, D, and G.

To Serve 6 You Need:

- 1 can apricot nectar
- 1 can pineapple juice
- 2 lbs. lamb shoulder
- 2 bunches carrots
- 1 No. 2 can peas
- 6 tomatoes
- 1 small head cabbage
- 2 pints blueberries
- 1 pint ice cream

(Balance of materials among staples)

***Individual Lamb Pies.**

- 2 lbs. shoulder of lamb
- 2 small onions
- 3 tablespoons flour
- 1 1/2 teaspoons salt
- 2 1/2 cups milk

Butter Pastry

Trim the lamb, cut in small cubes and brown in a hot frying pan. Add the chopped onion and cook until light brown, stirring constantly. Add the flour and salt and mix well. Stir in the milk gradually. Cover and cook over low heat for about 45 minutes or until the lamb is tender. Roll out pastry and place in individual pie tins or cut in six five-inch rounds and place in large cupcake pans. Fill with the lamb mixture and brush the rims of the pastry with milk. Top each pie with another round of pastry. Crimp the edges and cut slits in the top for the steam to escape through. Brush each pie with milk or cream. Bake in a 425-degree F. oven for 25 to 30 minutes or until the crust is evenly browned. Lift gently from the pan and serve.

LYNN SAYS:

Dad's day might be the one day when Dad would really like to try his hand in the kitchen. How about some feathery light biscuits to go with dinner? They're an easy trick if you just put out the ingredients for Dad, along with one of those big bowls and a spoon. Now sift 2 cups of flour, 2 teaspoons of baking powder, and 1/2 teaspoon of salt. Cut in 4 tablespoons of shortening, and then add about 3/4 of a cup of milk gradually. Stir until a soft dough is formed, not too long, though, or the biscuits will be tough. Turn the dough on a slightly floured board, pat to a 1/2-inch thickness, and cut with a floured biscuit cutter. Pop them into a hot oven (450 degrees) on an ungreased baking sheet for 10-15 minutes. Dad will probably like the large biscuits, so better give him the large cutter. The recipe will make about 12 biscuits of that size, or 16 of the smaller ones. Can't you just see him beaming over a plate of hot, flaky biscuits he made all by himself?

THIS WEEK'S MENU

- Chilled Mixed Fruit Juices
- *Individual Lamb Pies
- Buttered Carrots and Peas
- *Blueberry Muffins
- Butter
- Tomato and Cole Slaw Salad
- French Dressing
- *Blueberry Ice Cream Cake
- *Recipes given.

Butter Pastry.

- 1 1/2 cups flour
- 1/2 teaspoon salt
- 1/2 teaspoon baking powder
- 3/4 cup butter
- 3 to 5 tablespoons milk

Mix and sift the flour, salt and baking powder. Cut in the butter with two knives or rub in with the fingertips. Add milk slowly, tossing the mixture together lightly and use only enough milk to hold the ingredients together.

***Blueberry Muffins.**

- 2 cups sifted flour
- 4 teaspoons baking powder
- 2 tablespoons sugar
- 1/2 teaspoon salt
- 2 eggs, beaten
- 1 1/2 cups milk
- 3 tablespoons melted butter
- 1 cup blueberries.

Sift dry ingredients together. Combine eggs, milk and shortening and add to dry ingredients, stirring only until moistened. Fold in blueberries. Pour into greased muffin pans and bake in moderately hot oven (425 degrees F.) for 25 minutes. Makes 18 muffins.

***Blueberry Ice Cream Cake.**

- 1/4 cup butter
- 1/4 cup sugar
- 1 egg
- 1 cup flour
- 1/2 teaspoon salt
- 1 1/2 teaspoons baking powder
- 1/4 cup milk
- 1/2 teaspoon vanilla
- 1 1/2 cups blueberries
- Vanilla ice cream

Cream the butter, add the sugar gradually and cream thoroughly. Add the egg and beat well. Mix and sift the flour, salt and baking powder and add to the first mixture alternately with the milk. Add the vanilla and pour into a buttered cake pan about 8 inches square. Sprinkle blueberries over the batter and bake in 375 degree F. oven for 30 minutes. Cut in squares and serve warm with ice cream and warm blueberry sauce.

Blueberry Sauce.

- 1/2 cup sugar
- 1 1/2 tablespoons flour
- 1/2 teaspoon salt
- 3/4 cup water
- 1 cup blueberries
- 1 tablespoon lemon juice
- 2 teaspoons butter

Mix the sugar, flour and salt in a saucepan, and add water and blueberries. Cook over low heat, stirring constantly until thickened. Stir in lemon juice and butter.

SERVING HINTS:

Place individual pies right on the serving plate. The tomato cole slaw may be arranged on lettuce leaves on a platter and each person can serve himself from this platter. Peas and carrots always offer a good color combination. Arrange them in a bowl tossed together or separately arranged with carrots in the center and peas surrounding the carrots.

The dessert had better be served in a rather deep dessert dish. Place a square of cake in each dish, then top with a ball of ice cream. Over all pour the rich looking blueberry sauce. Prepare this dessert just before it is to be served. The whole family will love it.

USE OF LEFTOVERS:

Here's what to do with that bowl of leftover vegetables. Say you have peas, carrots and mashed potatoes. This is a fine combination for Vegetable Puffs. Mix 1 cup leftover mashed potatoes with 2 eggs, 3 tablespoons milk, 1 teaspoon baking powder, 1 1/2 cups peas, carrots, mashed, 1/2 cup flour and 1 tablespoon chopped parsley. Mix thoroughly together and drop by teaspoons into hot deep fat —350 degrees F. Cook until brown. Drain on absorbent paper. Makes 8 to 10 puffs.

(Released by Western Newspaper Union.)

Star Dust

By VIRGINIA VALE
(Released by Western Newspaper Union.)

THE first motion picture scene to be directed by long distance phone 3,000 miles from the spot where it was shot is credited to Elliott Nugent. He stood on a Paramount sound stage in Hollywood and gave instructions to cameraman Dewey Wrigley, whose equipment was set up on Biscayne boulevard, Miami Beach, Fla.

Wrigley had shot some atmospheric film for "Nothing But the Truth," but it wasn't exactly what Nugent wanted. He'd never been in Miami Beach, but he picked the right site from some still pictures and then gave instructions over the telephone.

Marjorie Reynolds has established a record of some kind; she's played the heroine opposite more western stars than has any other young Hollywood actress. Buck Jones, Tex Ritter, Bob Baker, George O'Brien, Gene Autry — she's been the pretty girl in ridin' and shootin' films with all of them. Her latest assignment is in one more of the same—"Cyclone on Horseback," for RKO Radio, in which she will appear opposite Tim Holt. Born in the cow town of Buhl, Idaho, she's right at home in those roles.

The new Joan Crawford picture, "A Woman's Face," has been hanging up new marks at the box office during its New York showing. Melvyn Douglas and Conrad Veidt are leading supporting players in the highly dramatic film.

Edmond O'Brien and his bride, Nancy Kelly, are spending their honeymoon by working in the same picture at RKO. The film is "Parachute Battalion." Following his work in the Harold Lloyd comedy, "A Girl, A Guy and a Gob," O'Brien signed two long-term contracts—one with RKO and the other with Nancy. Then he went to work in "Parachute Battalion." She was under contract to Twentieth Century-Fox, but studio executives were sympathetic, and she was lent to RKO. To be co-starred with her husband, Preston Foster and Harry Carey.

Joan Fontaine certainly picked herself a nice vacation when she finished "Before the Fact" with Cary Grant. She was satisfied with nothing less than a three-week jaunt to Honolulu, Tahiti and Pago-Pago as an escape from Hollywood.

Spencer Tracy won his Academy awards in roles that hadn't a suggestion of "boy meets girl." But in "Dr. Jekyll and Mr. Hyde" he meets two girls, Lana Turner and Ingrid Bergman, just by way of evening up the score.

"Sky Over Britain" brings to the air a new series of dramatic programs under the auspices of the British War Relief society, presented over the Mutual network every Thursday evening. Each radio play will dramatize the true story of civilian bravery in Great Britain.

The officers and crew of a British destroyer will comprise the first movie audience outside the Americas to see Anna Neagle's "Sunny," if present plans go through. Miss Neagle's older brother, Alan Robertson, is commander of a destroyer, and has not seen her or any of her pictures for more than two years. So a print of "Sunny" will be flown to England, then forwarded to him. She doesn't know where he is, but sending him the film is her reply to his recent request for a new photograph of her.

The Rudy Vallee program won't move to New York this summer after all. Moving would have meant leaving John Barrymore behind, and listeners like the Vallee-Barrymore combination so well that it's inadvisable to break it up.

ODDS AND ENDS—In "The Big Store" the Marx Brothers are private detectives who run wild in a department store... The only sound track in America of a London air raid has arrived at Warners' for scenes of London's bombing in "The Flight Patrol"... Orson Welles wants the screen rights to "Louisiana Hayride," the story of Huey Long's life... Marjorie Main will once again play a landlady—this one in "Hanky Panky" Midwestern mining town... Irving Berlin will write fifteen new songs for "Holiday Inn," in which Bing Crosby and Fred Astaire will be starred... Priscilla Lane is now a street in Burbank, Calif.—named in honor of the movie star.

IF YOU'RE expecting a baby, make all your summer outfits with this one easy pattern, including adjustable dresses, and collarless jacket felled into a shallow yoke. It will be so cool in soft cottons or afternoons silks, even on the hottest days, and will keep you looking trim and smart through-

Fighting Bird

One of the most powerful of all birds, and able to fly long distances, the great skua is seldom caught, but a dead specimen has been presented to the museum at the Smithsonian Institute in Washington. It was brought down in the Atlantic. The skua lives on penguins' eggs and chicks, and scores of half-eaten birds may be seen near the sites of penguin colonies during the hatching season. A famous British aircraft is named after the Gerce, killing skua.

Household Hints

To avoid smudges on freshly washed clothes, give clothes-lines and clothes-pins periodic washings.

Lining the basement walls with insulating board will help to eliminate the dampness usually found there.

Putty will not adhere to wood surfaces that are not prepared for it. They must be cleaned of all old putty and thoroughly soaked with linseed oil so that they will not absorb oil from the new putty.

To broil bacon place the strips close together on a wire rack over a drip pan. Use medium heat. Turn bacon over and drain on unglazed paper or on paper towels.

Cider sauce makes something just a little different to serve with pancakes or waffles. Boil one cup of sugar and half a cup of cider for four minutes. Serve either warm or cold.

Merle Johnson of Amarillo is visiting his grandparents, Mr and Mrs G E Johnson.

Shelterbelt News

Clarendon, Texas. "More than 150 farmers in Denley County have shelterbelts planted on their farms," reported D. S. Miller, Forest Service Officer of the Prairie States Forestry Project. Since the first shelterbelts were planted six years ago in six different counties, this planting program has spread to 32 counties. Shelterbelts in areas with belts of trees which are rapidly giving protection to numerous communities in this portion of the State. Favorable weather has given new and old trees alike a great spurt in growth. Even the slow growing pine and cedar are growing much more rapidly than normally. A number of tree species which struggled through several years of drought have come back with a bang. Cottonwood particularly is showing a wonderful recovery. Other trees like chinquapin, black and honey locust, mulberry, green ash, Walnut, and many others have already put out from 1 1/2 to 2 1/2 inches of growth this year, with the growing season barely underway. Miller predicts unusual increase in growth. He also stated that many of those shelterbelts which in past years did not receive proper care, are now being cultivated. Apparently, the usual amount of moisture has many farmers a different and more optimistic outlook on things and they are trying their best to keep the weeds down and give their trees the chance they deserve.

Memphis Boosters Here

A large group of Memphis citizens paid a visit to Hedley Friday and put on a good program boosting their pioneer celebration and rodeo to be held next Tuesday and Wednesday, June 17 and 18. The program included vocal and instrumental numbers, dancing a hog calling contest, etc. At its conclusion Hedley citizens were extended a cordial invitation to attend the reunion and rodeo.

Memphis Boosters Here

Memphis and Hall county never fail to put on a good show in their annual celebration, and all Hedleyans who attend the affair are assured of a good time, with plenty of fun and entertainment for everybody.

Miss Seretha Gunn moved Monday to Clarendon where she will be employed in The Alderson Studio.
