## Mrs. Abbie Ring Dies

Another Hedley pioneer passed away Wednesday when Mrs. Abbie Ring 84 years of age died at the home of her daughter, Mrs. S. C. Richerson.

Funeral services are being held this afternoon (Thursday) at the Church of Christ by Rev. Claude O. Smith of Merkel. Interment will be made in Rowe cemetery, with Wemack Funeral Home in charge.

Amelia Abigail Bush was born Jan. 30, 1857, in Glenville, Gilmer county, West Virginia. The family moved to Texas in 1857, settling at Farmington Grayson county. She was married at Farmington Feb. 12, 1880, to Jesse Ring. Two children were born to this union, Homer Ring of Wichita Falls and Mrs. S. C. Richerson of Hedley.

Mr. and Mrs. Ring moved in 1890 to Childress county, and in 1902 to Collingsworth county where the Ring community was named for them. They moved to Hedley in 1918.

Mrs. Ring united with the Church of Christ at the age of 24 and was a faithful worker as long as her health permitted.

Besides her children she is survived by 11 grandchildren, Mrs. A. E. Lybber of San Davis, Mo., Mrs. Delmoot Bave and Mrs. Theodore Balm of Northfield, Texas, E. J. Ring of Wichita Falls, Miss Ruth Richerson of Clarendon, Mrs. Owen Moore of Pampa, Woodley and Elmer Richerson of Phillips, Glenn and Misses Loyd and Dorothy Jean Richerson of Hedley. Ten great grandchildren also survive. Her husband preceded her in death May 22, 1938.

The Informer extends deepest sympathy to the bereaved.

### Smith-Young

Miss Thursa Mae Young of Lakeview and Paul Smith of Hedley were united in marriage Saturday afternoon at the Methodist parsonage in Clarendon by Rev. J. O. Quattlebaum. They were accompanied by Gerald Bland.

The bride is the daughter of Mr. and Mrs. Ted Young of Lakeview and attended school at Memphis. The groom is the son of Mrs. Lola Hemelstrand of Hedley and attended school here. He is employed in the Darnell Grocery.

The Informer joins their many friends in extending best wishes to the couple.

### Bakery Changes Hands

Earl Hill has sold the Hill Bakery here to Chester Hill, who plans to continue making quality bread and cakes and states that he will appreciate the patronage of the community. Earl has leased the Caraway Bakery at Clarendon, and is moving there with his family. He states that he appreciates the liberal patronage given him in the bakery here, and solicits its continuation for the new owner.

### Gleaners Class

A call to all members of the Gleaner Class of the Methodist church. We meet Friday Aug. 8 at 8 o'clock in the home of Mrs. Edd Todd for important business. Be sure to come.

Lee Holland and family of Amarillo visited here over the week end.

## J. F. Reed

Funeral services for J. F. Reed who died in Amarillo Friday morning, were held from the Baptist church in Lolla Lake Saturday afternoon. Rev. V. W. Allen of the Baptist church in Vega gave the sermon and was assisted by Rev. Alvin Horton of the Pierce Street Baptist Church of Amarillo.

Mr. Reed was a retired farmer. He had farmed in Donley County for several years and prior to that he farmed around Bellis, Oklahoma. He had lived at Lolla Lake for the last five years. Mr. Reed was taken to Amarillo for treatment a few weeks ago.

He is survived by his widow, Lodie Reed, and six sons, Dennis, Bill, Glen, Clifford, Arnold, and Avery Reed.

Pallbearers were Carl Naylor, Kinch Leathers, Joe Raczka, Charlie Reynolds, D. M. Cook, and Ed Brumley. Burial was in the Otissses Cemetery at Clarendon under the direction of the Wemack Funeral Home.

## Comfort Program Starts

County Agent, H. M. Breedlove, announced this morning that the Comfort Program started in Donley County the 5th of August. Both plants at Hedley and Clarendon are now running full speed and all persons who receive mattresses will receive one comfort for each mattress that they received under the Mattress Program.

It is not necessary, Breedlove stated, for any person to make application for comforts because we already have the mattress application on file and the comforts will be issued according to the numbers of mattresses issued.

All persons will be required to make their own comforts, Breedlove said, just as they were in the Mattress program, however, all persons will only work one day in the plant to receive their comforts providing that they can get them all in one day.

The Hedley plant will be supervised by Mrs. Whitfield and the Clarendon plant by Mrs. Jack Bailey.

The plants will be open from 8 a. m. to 5 p. m. Breedlove stated that it was necessary that all persons receiving comforts make them at once so that the program could be closed before harvest begins in the fall. He asks the cooperation of all those persons eligible. The scales mentioned above will be in full charge of the plants and will help all persons to get their comforts made correctly.

There will be approximately one thousand comforts made for the program.

### W. S. C. S.

The Methodist Woman's Society of Christian Service will begin a study of "Dangerous Opportunities" for missionaries in China today. Make an effort not to miss a session of this class. We will meet in the homes. This first meeting will be with Mrs. Marvin Whitfield, Monday at 8 o'clock. There will only be six class sessions, one each Monday, so plan to be present. The Chinese people are an interesting study. Their future is closely connected with the Christian movement here.

DOAN'S PILLS

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Japanese Movements in Far East Bring Freezing of Assets by U. S. Plus Philippine Troop Mobilization; Nazis Claim Gains on Three Fronts

EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper. (Released by Western Newspaper Union.)

LOS ANGELES, CALIF.—Japanese are shown intently reading "extra" news bulletins posted at a newsstand in Los Angeles' "Little Tokyo" telling of President Roosevelt's order freezing all Japanese assets in the United States.

JAPAN:

Shows Hands

Dwarfing even the Russo-German war, with all its action, the Japanese situation because of its closeness to involvement of the United States, stole the world spotlight. While there were indications that the Japanese were to continue the war with China, perhaps on even a more vigorous basis, and that Nippon was attempting to strengthen its hand on the Russian front, the main move was the military and naval occupation of French Indo-China.

The freezing of Japanese assets. The limiting of all trade with Japan under special license. The mobilization of the troops of the Philippines.

In addition to the British empire's collaboration with the first two plans, Britain's far eastern troops were on the qui vive for action and a request by Thailand for British aid in case her territory was violated was met with instant assent.

In fact, it seemed extremely likely that Britain would move into Thailand in order to create a buffer state that might prevent Japanese attempt to cut the Burma road, which lies only a short distance, relatively speaking, from Hanoi in the northern part of Indo-China.

REACTION:

And Results

The immediate reaction of Japan was what amounted to a "sparring for time." Nippon was caught with several ships tied up at American wharves, automatically, by this government's declaration, prevented from moving. Some 40 additional ships were en route here, and were held at sea. And if the Pan-American republics were to take similar action to the United States they might find it hard to make a port where they would be able to unload. One of the vessels was carrying a \$2,500,000 silk cargo and nearly 500 passengers bound for the U. S.

Most serious result, however, was seen as the immediate stoppage of oil exportation to Japan from American sources. Utterly dependent on foreign supplies of petroleum, and for much of her scrap metal as well, Japan was visualized as practically forced to move on the Netherlands East Indies for the former and for supplies of tin as well.

Most observers felt that if and when such a move was made, it would find the United States taking some sort of direct naval action of a preventive nature. Tokyo, immediately after President Roosevelt's outline of American action with regard to the Indo-Chinese incident, broadcast an ap-

COINCIDENCE:

It so happened that the sudden move by Japan and the counter-moves by this government were timed exactly to coincide with congressional consideration of the measure to keep draftees, guardsmen and reservists in the armed forces for the duration.

There was no question but that the back of the opposition to this measure was badly bent if not broken by the quick change in the international situation.

peal to the United States to "reconsider."

The government took immediate retaliatory action, freezing all American, British, Canadian and Australian assets, and Ito, head of the Japanese Board of Information, said: "If the United States refuses to understand Japan's real intentions and is now bent on taking measures to exert pressure on Japan, the conclusion is inevitable that it is the United States that disturbs the peace. The responsibility rests entirely with that government."

Thus Japan, and this was recognized as the most militant statement against this government that had been made in the history of the relations, many times strained, between the two nations.

NOTICE:

Served on Japs

The reaction of Tokyo, as expressed by Ito, was coupled with a none-too-veiled threat in the newspaper Nichi-Nichi as follows: "The United States may be confronted with a perilous situation fraught with the danger of war."

This is no longer an economic problem which could be dealt with economically, but provokes the fundamental determination of the Japanese people.

These words were particularly significant, because they bespoke the nation's inability to face the withdrawal of the exports of the United States and Britain and her dominions, or to replace these missing goods without going to war to get them.

Thus observers saw in the Philippine mobilization order that this government was serving notice on Japan that the United States is getting ready to defend her territory in the South Pacific and her trade lifelines to that part of the world with armed force.

Gen. Douglas A. MacArthur, former chief of staff of the United States army, was called out of retirement to take command of all the far eastern forces. The handsome, socially debonair general, still vigorous for all his years, immediately went to work.

The forces involved total now in the neighborhood of 150,000 trained or partially trained men, and with draft machinery already at work in the islands, and equipment ready to be rushed there, an armed force considerably larger was a possibility.

RUSSIA:

Holding Hard

While it was still practically impossible to make any definite sense out of the German and Russian claims, the consensus was that the Russians were making a surprising good fight out of the war.

As time wore on the battles were admittedly severe according to both sides, and the main objectives were clarified as Smolensk, Kiev and Leningrad.

There was nothing definite to indicate that any of these three German claims had actually been carried out.

This lent general credence to the belief that if the Germans were not stalled, they at least were able to make only thin forays past these points, and were probably having a hard time of it.

German dispatches tending to prove this to be so told of "bad roads" and "unfavorable weather," plus "stiff resistance" of scattered units of the Red army as making it difficult to advance.

Special Envoy

Harry Hopkins, administrator of the Lease-Lend bill, serving again as President Roosevelt's special envoy to London, is pictured here at the American embassy in London. In a speech broadcast to the British empire, Hopkins promised the British that the "tools" needed for victory are on the way from American production lines.

PAN-AMERICA:

Having Troubles

While the governments of the Pan-American republics were standing firm on their solidarity pledges with the United States covering hemispheric defense, they were beset by many troubles, some of them reportedly generated by a Nazi diplomatic and fifth column offensive ordered from Berlin to occupy America's attention on this side of the Atlantic.

However, the close of hostilities between Peru and Ecuador, in which it was thought that the Nazi Japanese hand could be seen, finally were halted, and neither the casualties nor the fighting apparently had been heavy.

Bolivia nipped an attempted Nazi coup d'etat in the bud and dealt drastically with the reputed author. The Herald Tribune came out with a story from Buenos Aires telling of the seizure of some 400 pounds of packages of spy material, messages and the like uncovering a very definite Nazi plot against the government of Argentina.

One German embassy fled the capital by plane, carrying 440 pounds of excess baggage, presumably afraid of having it seized and examined. He finally got it all into safe-deposit vaults in Lima, Peru, after great difficulties en route and after arrival, but there was doubt whether the mysterious baggage would be permitted to remain there.

This doubt was quickly resolved by the Peruvian authorities ordering the whole baggage to be shipped back to Buenos Aires. There it fell into the hands of an investigating committee which found the baggage to contain a radio transmitter and a large number of walnuts, which, when opened, contained the plot evidence in the form of messages.

RED:

Defense Technique

Still another described the military technic near the front. The plan was somewhat similar to that of Weygand in his attempted halting of the Germans in France, except that it was implemented by better mechanized equipment.

The Russians give way before the German mechanized advance, which finally, however, meets a "wall of Russian tanks," which at least temporarily halt their advance.

Then the Russian artillery in the rear, already trained on the roads behind the advance German lines, batters away at the supporting columns. When these are sufficiently disrupted to prevent refueling of the tanks and motor-fighting-cars, these have to fall back and the attack is broken up.

The Russians, when this point is reached, military observers were reporting, then attempt to put the "pinchers" on the German advance force. This, it was said, was the detail back of the three divisions destroyed, according to Russian claims.

Some let their minds drop back to the Russo-Japanese war of 37 years ago and recalled that the modern Russian army was giving a very different account of itself today against sterner than Japanese opposition.

One of these stated, as a matter of course, that "five Nazi attempts to bomb Moscow had been frustrated in succession," told of seeing two Nazi bombers wrecked 38 and 52 miles west of Moscow, and of watching "peasants calmly tilling their fields" near the wreckage.

INVASION:

By Stratosphere

Huge American-made Boeing "flying fortresses" yet not the largest ships soon to be sent overseas, made British aviation history by participating in the first "stratosphere" raids.

They were sent, with heavy cargoes of bombs, to a height of 33,000 feet, at which point, according to the British, they were practically invisible in the daytime, and apparently inaudible.

That's Her Count "Bobby, how old is your sister?" "Twenty-five." "Twenty-five? She told me she was just twenty." "Oh, I expect that's because she was five before she learned to count."

Platonic friendship, says a wise man, is the gun you didn't know was loaded.

Ump's Choice Fan—What we want is more action and not so many words. Baseball Ump—I don't exactly agree with you. I would much rather you fans would yell at me than throw pop bottles.

Get-Together Day Bitters—How would you define a picnic? Jitters—To me, my friend, a picnic is a day set apart to get better acquainted with ants, bugs, worms, mosquitoes, chiggers, ticks and poison ivy.

Flush—Not Blush Boogy—See how the bride is blushing? Woogy—Go on, man. That's not a blush. That's the first flush of victory.

Something About Him "My dear, I never imagined you would marry the man you did," said Gladys. "Neither did I, my dear," replied her friend. "I disliked his woy, but I adored his means."

If That's Expression Evelyn—Helen sings with a great deal of expression, doesn't she? Joy—Well, she makes awful faces when she does it.

The man who counts in this world is the cashier.

Quite at Home "Did Freda regret leaving the stage when she married?" "Not in the least. She feels she's still in the profession." "How is that?" "One scene after another."

Lockless Suez Canal

The Suez canal is a sea-level "ditch," requiring no locks. The narrow ditch in the sand runs for 104.5 miles through desert and marshy land from Port Said on the Mediterranean to Port Taufiq on the Gulf of Suez. Its channel depth is now 45 feet, and its narrowest width is 70 yards. Although it has been concreted at some places to halt erosion, the banks are chiefly sand or gravel.

The northern half of the canal cuts straight through the desert; the southern half leads through a chain of small lakes which act as "expansion chambers" to help take up the flow of the four-foot tide from the Red sea.

Worthwhile Illusions Don't part with your illusions. When they are gone you may still exist, but you have ceased to live.—Twaiz.

WORLD'S LARGEST SELLER AT 10¢ St. JOSEPH ASPIRIN

Tranquil Mind Tranquility consisteth in a steadiness of the mind; and how can that vessel that is beaten upon by contrary waves and winds, and tottereth to either part, be said to keep a steady course? Resolution is the only mother of security.—Bishop Hall.

INDIGESTION

Doctors know that gas trapped in the stomach or gut may irritate the lining of the stomach. They act gas free with the fastest-acting medicine known—the famous anti-gas medicine called Peppermint Tablets. Try Peppermint Tablets. If the FIRST DOSE doesn't prove full—see better, return bottle to us and receive DOLLAR money back. See at all drug stores.

Early Saving The habit of saving, so as to be beforehand with the world, if it is to be acquired at all, must be acquired early.—Earl of Derby, K.G.

YOU BUY INOCULATION ON FAITH

Field tests have shown a big difference in the quality of inoculator brands on the market. You cannot see the legume bacteria you purchase. Immediate demonstration is impossible. What is the reputation and experience behind the inoculation you buy?

NITRAGIN is the ORIGINAL LEGUME INOCULATOR, having served the farmers for over forty years. It was a GOLD MEDAL at the World's Fair, St. Louis, 1904.

NITRAGIN is made in the most complete and modern laboratory of its kind in the world.

NITRAGIN is the leader in its field by a big margin. NITRAGIN demand in the South has rapidly increased year after year. During the fall of 1930 the Southern shipments of NITRAGIN were for more than 45 million pounds of VETCH and WINTER PEAS. This large demand is due to many field tests carried on year after year. We prove by these tests that NITRAGIN is a good product.

Send for our booklet "Plant Legumes to Prosper," showing pictures of field tests and how NITRAGIN is made. The booklet also gives you valuable information regarding the inoculation of legumes. If your dealer does not have NITRAGIN in stock, have him get it for you. Insist on NITRAGIN inoculation.

PHONE 29 when know a News Item.

... that's the kind of bargain Your Electric Servant brings YOU NOW under Business Operation

1. Twice the speed. Electric servants breeze through your housework in less than half the time it used to take—at about half the cost. Your bill maybe is about the same as it's always been, but you now get more and better service, plus better lighting, for about what you used to pay for lights alone.

2. Twice the labor saving. Ask the woman who owns a washing machine what electricity has done for her! At present-day low rates, you can afford to use most all the modern appliances. Today electric rates are only about half what they were 10 to 15 years ago. You get about two or three times as much for your money!

3. Twice the light. No blackouts here! Today you can get twice as much light as you used to, for the same money. Electricity today costs only about half as much. (Light bulbs are twice as efficient, so you get four times as much today for the same money.)

4. Twice the comfort. Constant research is developing new and cheaper ways of using electricity. Air conditioning this past summer reached more homes than ever before, bringing cool comfort at small cost. Other usages are being constantly improved at no extra cost to you!

Credit for the steadily improved service to you at steadily reduced rates is due the trained and experienced men and women of this organization. They have devoted many years to the highly technical problems of electric generation and distribution... all without interruption and at low cost.

Letters from the People:

"We used to pay 15 cents a kilowatt-hour. The low rates today enable us to use our many appliances without being extravagant. Besides lights, we now have range, water heater, Frigidaire, sweeper, air conditioner, iron, percolator, toaster, waffle iron, radio, fans and heating pad—making for better and more economical living... The West Texas Utilities always renders courteous, prompt and efficient service for which we are grateful."

Star Dust STAGE SCREEN RADIO

By VIRGINIA VALE (Released by Western Newspaper Union.)

SUSANNA FOSTER, the 16-year-old who sings C above high C, has appeared in two pictures, is being co-starred for the first time in Paramount's "Glamour Boy."

The box contained a set-chair—you know, one of those special chairs with a canvas back-rest that stars always have, with their names painted across the back.

Joan Blondell and Binnie Barnes discovered a new way of reducing; in "Three Girls About Town" they had to drag Walter Soderling around—from one room to another, through hallways and down fire escapes.

It does seem as if the young people of Hungary would be too much upset at the moment to think of forming a fan club. But one Joseph Hamor wrote to Virginia Weidner recently, from Budapest, to tell her a Virginia Weidner club had been formed.

Corp. James Stewart showed his family around the Metro lot the other day; Mr. and Mrs. Stewart and their daughters, Mary and Virginia, visited the sets of "Honky-Tonk" and "Smilin' Through" and had a chat with Clark Gable.

Laraine Day has been going on and on as Nurse Mary in the Kill-dare series—the latest is "Dr. Kill-dare's Wedding Day"—but she has the most important role of her career in "The New York Story," with Edward G. Robinson, Edward Arnold and Marsha Hunt.

RKO Radio received a nice communication not long ago; it was a letter from Maj. Gen. E. S. Adams, adjutant general of the United States army, saying that "Parachute Battalion" is "the most satisfactory army picture produced to date."

Remember "Ruggles of Red Gap," in which Charles Laughton recited the Gettysburg address so effectively that he's been in demand to do it ever since? It's been re-issued, which is good news for everybody who missed this hilarious comedy the first time out, as well as for those who want to see it twice.

In Warner Bros. "The Maltese Falcon" Humphrey Bogart plays his first detective role—sort of a relief from gangsters. So he can play love scenes. He has one with Mary Astor that was a change for both of them; gangsters can't have true loves, under the producers' code, and as for Mary, she said that the last time she'd been really kissed was in "The Prisoner of Zenda."

Speaking of the beautiful Miss Astor, she certainly stacked up laurels for herself in "The Great Lie," playing opposite Bette Davis. If you want to realize what excellent character portrayals the girls gave, see the picture on a double bill with one of those phony B pictures that Hollywood turns out.

Those who loathe the commercials mixed into their radio programs will hail with delight the announcement that the FFC has granted a permit to Muzak Inc., to build a station in New York that will carry absolutely no advertising.

ODDS AND ENDS—Margaret Lindsey signed to appear in four more of Columbia's Ellery Queen pictures. Victor McLaglen ended his personal appearance tour because "The Marines Are Ready" was ready. Jack Benny will make "The Widow Wouldn't Weep" for Warner when he returns from his vacation in September. Richard Travis, cast opposite Bette Davis in "The Man Who Came to Dinner," owes his big chance to her recommendation after seeing his test. Bob Hope's bad warburn held up "Louisiana Purchase." ZaSu Pitts will feature her hands in RKO's "Freaky But for Three." Ginger Rogers will play secretary again in "Self-Made Cinderella."

HEALTH

How to Get It and How to Keep It

If the reading of this article teaches you only this one lesson about your own body it may be worth more than millions of dollars to you; for of what use is money without health, or after you are dead?

How Can I Keep My System Pure? That is not a hard question to answer, for Science plainly teaches you that your liver, which is larger than all the other glands of the body combined, has the special work of purifying your blood and thereby your entire system and of keeping it pure.

How Does the Liver Purify? Physicians tell us that the liver destroys, or renders harmless, poisons such as uric acid and other toxic waste matter that is normally formed in the tissues, and also prevents the formation of poisons in the bowels by manufacturing a greenish-yellow, bitter fluid called bile, which, between meals, is stored up in the gall-bladder, but after each meal is poured out into the intestines. The bile is purgative and directly antiseptic or prophylactic. In health it is your bile that makes your bowels act regularly and freely every day.

Nature's Danger Signals When the bile becomes stagnant in your gall-bladder instead of flowing freely into your bowels, you soon, or later, begin to feel some of the following symptoms:—Your breath may become unpleasant (a bad taste in your mouth, and tobacco) lose their flavor; your food does not agree with you; you may have heartburn, gas, or fluttering around the chest, dizziness

Study the above drawing for a few minutes. Notice particularly how the bile flows from the liver into the gall-bladder and thence into the small intestine which it enters at a point just below the stomach. A cut-off valve prevents bile from the intestine from entering the gall-bladder. The gall-bladder is the pump for the bile, acting like the bulb of an atomizer.

or blind spell; you may be troubled with belching or frequent passages of gas from the bowels; "balloons" your bowels and presses so hard on the kidneys that you feel pain in the small of your back over your kidneys, making you think you have kidney trouble; or you might feel the gas in your bowels pressing upon your bladder making you urinate frequently.

In the morning you are tired instead of refreshed, gradually your health is injured. Your complexion becomes sallow or bilious; dark rings may appear under your eyes, you may feel lousy, dull or irritable or blue and melancholic; you may have frequent colds (cough) or dull headache; your bowels stop their free, full and natural action; you have constipation, gas, indigestion and self-poisoning or intestinal toxæmia, as the doctors call it. This group of symptoms is referred to, in the South, as "Torpid Liver," but apparently a better expression might be Torpid Bile Flow.

NOTE—If the above symptoms are very mild, they are called by the nervous reflex origin.

How to Make the Bile Flow But when the bile stops flowing freely, how can we help Nature start it again? The answer is:—Take Calotabs at bedtime and drink water freely the next day. This formula is designed to increase the force and frequency of contractions of the gall-bladder and the upper intestine (duodenum), thus promoting the expulsion of bile from the gall-bladder

and bile ducts into the small intestine and thence through and out of the bowels. When you take Calotabs you know that you have taken what the doctors call a cholagogue or bile expelling medicine. It cleans your stomach, every inch of your twenty-five foot canal, including your stomach, small intestine and large intestine or colon is thoroughly cleared and washed clean and pure, and you can see and feel the bile in the stools. (Bile causes a slight burning sensation and a bright yellow or greenish yellow color.) Next morning your system feels purified and is refreshed and you are feeling fine, with a hearty appetite for breakfast. Eat what you wish and go about your work, as pleasure.

\*NOTE—If the stagnation of bile is caused by the pressure of a tumor upon the gall duct, or by permanently impacted gall-stones, only a surgical operation can remove the cause. But the common cause of stagnation of bile is the accumulation of catarrhal mucus in the gall-bladder or gall-duct. This mucus may be expelled by Calotabs. The mucus is caused by impurities in the liver, usually the result of over-indulgence in highly seasoned foods, or stimulating drinks. Calotabs help to relieve this engorgement.

Formula and Action of Calotabs The formula of Calotabs is designed to make calomel-taking a pleasure, to obviate the necessity of following it with a dose of Epsom Salts, and thus make it just as pleasant and safe as any other purgative. Calotabs are composed of thoroughly purified and refined calomel combined with assistants and correctives. The calomel acts as a "cholagogue" or bile-expeller; is directed to the kidneys; and antiseptic (prophylactic) to the bowels, discouraging the growth of putrefactive bacteria and gas formation. The assistants act like salts, washing the calomel out of the system, preventing its accumulation and any danger of salivation. The correctives settle the stomach and bowels, preventing nausea, sickening and griping effects. Calotabs (and water) therefore, give you the combined effects of calomel and salts without the nausea, sickening and griping effects.

When You Need Calotabs Unwholesome foods and drinks or over-indulgence in good foods and beverages, especially meats, alcohol, coffee, tea and tobacco, cause engorgement of the liver with stagnation of bile, and intestinal toxæmia. Colds with their toxins, bring about a similar toxic condition. Hot summer weather, overwork, mental strain, irregular habits, and lack of sleep tend to make the system toxic. Whenever you need a thorough cleansing of the food canal, as in colds, constipation, bilious indigestion, sick headaches, engorgement of the liver and its allied organs, the stomach and kidneys, you will find Calotabs a most dependable and effective eliminant. Millions of Calotabs have been used annually for twenty years. You need have no fear of using them as directed. Calotabs are quite economical—only 25 cents for the family package; 10 cents for the trial package, at your druggist's. (Advertisement.)

Up 25,661 Feet Afoot

Nanda Devi, a 25,661-foot summit of the Himalayas, is the highest mountain ever climbed by man, says Collier's. Although encircled by almost insurmountable

peaks which have frustrated the best mountaineers for 50 years, it was reached by an expedition consisting of four Americans and four Englishmen on August 29, 1936. No oxygen was used, despite the fact that unconsciousness usually occurs at 22,000 feet.

Use of Facts

Real knowledge consists not in an acquaintance with facts, which only makes a pedant, but in the use of facts, which makes a philosopher.—Buckie.

Large advertisement for Prince Albert cigarettes, featuring a man smoking and text: 'Says Ralph Rivers COOLER-BURNING PRINCE ALBERT IN ROLL-YOUR-OWNS MEANS SMOKING COMFORT-FAST, EASY ROLLING-NEAT, EVEN, NO BUMPS, MILD, MELLOW-SMOKING P.A. IS RICHER-TASTING- IN PIPES, TOO!'.

IT'S UP TO YOU TO JUDGE... Most large organizations today have skilled men whose job it is to cross a public opinion favorable to the organization and its products. This is known as the creation of good will — one of the most necessary ingredients in business. But the peculiar thing about good will is that it only comes to those who deserve it. In other words, asking the public for good will is not enough; the business must be worthy of that good will through giving good service, through selling good merchandise, through maintaining fair prices.
