Sugar Rationing News

County Agent H M Bre dieve of the Texas A&M College Exten sion Service stated this merning that if you are soplying for can ning sugar, one question that the rationing board is sure to ask you is: 'how many quarts of fruit do you pan to cas?" To belothe house wife to have the information ready for this question I believe that the fellowing information will benefit you For example, there are 50 pounds of fresh fruit in a bushel of peaches. On an average this will make 18 qts. of canned fruit One bushel of plums will make 80 qts and you can expect 20 que or two or three gallons of juice from a bushel of grapes Aise be sure to know how much fruit you canned last year and how many qts of fruit you have on hand. If you will have this information when you go to the rationing board it will help them to wait on you faster. Also be sure to bring your ration ing book with you as they need the serial number from the books n issuing canning sugar. Ed Kinslew, chairman of the local ra toning board is well pleased with the progress of issuing canning sugar and says that if people will follow the above suggestions that it will be of great help to the of fice in issuing the canning sugar

U. S. AIR POWER: Around the Globe

From widely scattered sections of the world's fighting front came re-

ports of the increasing strength of America's hard-striking air power. Most dramatic was the announcement from London that for the first time the United States army air force had made an attack on Nazi occupied Europe. Six bombers, American made and American thing the Nazis had was blasted manned, took off and during a daylight raid smashed Nazi planes and The Red navy had to retire from it troops on the ground at three Hol-

land airdromes. Later enemy ships

were attacked off the Dutch coast. One interesting sidelight of the raid was that its principal hero, Capt. Charles C. Kegelman of El Reno, Okla., was awarded the Distinguished Service cross by Maj. Gen. Dwight D. Eisenhower, commander in chief of U.S. forces in the European theater, and Kegelman thus became the first member of the 1942 AEF to be decorated for gallantry in action against the enemy in Europe.

His feat was described as a demonstration of "superior airmanship and extraordinary coolness in the saving of the lives of his crew" after the plane he was piloting was struck hard by anti-aircraft fire over the bombing target."

Chinese Front

Meanwhile, the newly installed U. S. army air force in China started things off in good fashion by shooting down five Japanese planes in a battle which came as the result of a direct challenge by the U.S. forces to the enemy.

Background to the battle was a Jap radio report that their forces in the Hengyang area would "blast the new U. S. air forces out of China' and a reply by Brig. Gen. Claire L.

BRIG. GEN. CLAIRE CHENNAULT Off to a good start.

Chennault, commander of the Americans, that any such attempt would get a "cheery welcome." Then came the Jap raid and the skies over Hengyang were subjected to what was described as perhaps the flercest air battle over central China.

Australia Sector

General MacArthur's Australian headquarters reported that on the same day as the battle over central China, American and Australian planes shot down six Jap planes and damaged six others in heavy attacks on invasion bases Salamaua and Lae, New Guinea. Three United Nations planes were reported missing. In addition to the Jap planes de-stroyed, the report added that direct hits were scored on enemy airdromes, striking runways and build-

MORE SPIES: In Caribbean

Shortly after the FBI announced its arrest of the eight Nazi saboteurs who reached the U.S. via a submarine route, U. S. army headquarters in the Panama Canal Zone came through with the seizure of 20 alleged Nazi spies. It was claimed that these persons were engaged in a plot which included fueling of Nazi submarines and spotting of Allied shipping targets in the Caribbean.

Arrests were made from Panama to British Honduras, and business men, night club hostesses, trusted Canal Zone workers and shipping employees were involved.

SUBMARINES:

Pacific Too?

While Washington officials had announced that convoys were being used to protect shipping in America's Atlantic coastal areas, a threat appeared in a new sector.

This came in the form of dispatch from Santiago, Chile, which disclosed that the Chilean ministry of the navy and the Pan-American Grace airways were checking reports that submarines had been observed in the Pacific.

WEDDING-President Roosevelt's close friend and adviser, Harry Hopkins, and Louise Macy are to be married in the White House on July 30, it was announced at a press conference held by Mrs. Eleanor Roosevelt in Washington:

SHUN-Squabbles that interfere with war materials production should be shunned by labor, said Lieut. Gen. Brehon B. Somervell, army chief of supply, as he addressed a luncheon of AFL and CIO labor leaders in Detroit. "We all belong to the same union," he said "the Union of the United States of America . .

MOTORING: And It's 'Joys'

It didn't make much difference to motorists, but gasoline went up 21/2 cents a gallon along the East coast. Main trouble was that you couldn't get much gas in that area anyway. Reports reaching the 31 states where gas is still unrationed said that thousands of motorists were being turned away from empty gas sta-

tions in the East. It was also generally believed that as rationing might be the formula for the rest of the nation if the rubber salvage drive didn't bring enough of this vital scrap. After 219,000 tons of it had been collected in the originally scheduled period the drive was extended ten days. Secretary Ickes, on leaving the White House one day, rolled up a heavy rubber mat from the floor of this important building and carted

it to a scrap depot.

Jap-invaded Aleutian island chain. Recognized as an expert in aviation, Maj. Alexander P. de Seversky, airplane designer and military analyst, has given the United Nations a stern warning on the importance of gaining air superiority before attempting the opening of a second land front to relieve Nazi pressure on the Russians.

On a nation-wide radio hookup, which had as its forum topic the possibility of a land and sea invasion of Europe, the former Russian army official declared that it was opinion that a costly mass invasion would not get the desired results unless the German's mastery of the air was first disposed of.

'We have no alternative but to concentrate upon an all-out aerial offensive against Germany proper . In that way we offer true relief to Russia because we help to disarm Germany by smashing its industry, transport and fuel supplies, disorganizing and demoralizing the en-

emy," said the major. Aligned with Seversky was William B. Ziff, military expert, who pointed out that failure of the British to invade Norway and the recent blasting the Japs took at Midway were examples of what Britain and America would face if they tried an invasion without first getting control of the air.

On the other side of the debate were Brig. Gen. Henry J. Reilly and Wythe Williams, author and radio commentator. Their point of view was that while planes were vitally important in any invasion attempt, the invasion of Germany by land would most surely have to be made if the Nazi war machine was to be broken up.

ERSATZ RUBBER:

At Less Cost

While cost of production is the least of worries in the government's projects for making synthetic rubber, officials are now learning that it costs less than at first estimated.

desert army. Rommel wanted to save what he had gained and push Two major plants are now in production and Arthur B. Newhall, rubber co-ordinator, has issued a statement to the effect that the 800,000 ton-a-year program will not use up all the \$650,000,000 which congress Nahas Pasha announced a complete had allocated to it.

By RUTH WYETH SPEARS

UPHOLSTERY repair work is rather costly hand labor. However, if you can clear a corner where you may work on it a little at a time, it is easy to do. Use boxes or an old table to rest the piece on at a comfortable working height. Remove the outside covering first, keeping it whole to use as a pattern; then remove padding, springs and webbing, writing down everything you want to remember about how they were placed; also the amount of webbing used. When the last tack is

If your bread is too fresh to slice easily, put it into the refrigerator to get thoroughly cold.

Keep your linoleum floors waxed. Wash the floor first with mild soap and water. Wipe it dry. After half an hour has elapsed apply a thin coat of floor wax.

When you want to thicken gravy put the flour and water into a wide-mouthed jar, with a screw top and shake well.

Wipe greasy pots, pans and dishes with paper before washing.

Use the tab in opening and closing slide fasteners. Don't force them. Before washing a "zip" garment close the zipper. Guard it in pressing so the teeth will not be thrown out of alignment.

If you have china plates with cracked, old faces you probably subjected them to sudden, great or unevenly applied temperature changes. Or perhaps you soaked the dishes too long in water and the body expanded, cracking the glaze.

To keep lemons, sift dry sand into a stone jar, then bury the lemons in the sand, so that they will not touch each other.

Clothes iron much easier if they are hung up carefully, pinned securely with plenty of clothespins and shaken occasionally to remove wrinkles.

Inescapable History

Fellow citizens, we cannot escape history. We of this congress and this administration will be remembered in spite of ourselves. No personal significance or insignificance can spare one or another of us. The fiery trial through which we pass will light us down in honor or dishonor to the latest generation . . . We shall nobly save or meanly lose the last, best hope of earth.-Lincoln.

out, re-web the bottom of the seat, as shown, with strong new webbing and a homemade stretcher. Use No. 4 tacks or regular webbing tacks, and a tack hammer.

NOTE: You will find some upholsterers' tricks clearly sketched in Book 7, and the new Book 8, of the series prepared by Mrs. Spears for readers, shows you how to make a simple chair frame. To get a copy send your order to:

MRS. RUTH WYETH SPEARS Drawer 10 Bedford Hills Enclose 10 cents for each book Address.....

Garden Afloat

Every spring, from 3,000 to 7,000 huge rafts of logs are floated down the Yalu river, which forms the boundary between Manchuria and Korea. So they will bewell fed during the journey that takes many weeks, the Chinese who handle these rafts usually carry along a patch of earth and raise variety of vegetables, says

Yes, you get pleasure from eating oranges and drinking their juice. And you also get vitamins you need.

Oranges are the best way to make sure of vitamin C Few foods supply much. It's easily lost in cooking. Yet you need an abundance Oranges also have vitamins A, B₁ and G; calcium, and other minerals.

EUGENE WORLEY Goes Back To Congress

At the Request of President Roosevelt

Congressman Eugene Worley sent word last week from a far-away port in Australia that he would return to Washington in compliance with a directive issued by the President, calling all members of the House and Senate who are on war duty, back to Congress.

It will require a few weeks for Gene to reach American shores but as soon as he does he will head straight for his district to talk over the war situation with you before resuming his duties in Washington.

Gene has been aboard a U.S. aircraft

Carrier at Pearl Harbor and off the coast

of Australia for the past six months. He for him.

when he voted for war, just like he told you he would. He did what his predecessor, Marvin Jones, did in World War I, and what Senator Tom Connally did in 1917.

When he enlisted in the Navy in January, Gene said he would return to Congress when the President called him, and he is keeping that promise, too. He will return with a vast amount of first-hand knowledge of this war that will be helpful in shaping our future course.

Gene will not be back in time to ask you for your vote, but his friends ask you

E. C. Neison

Judge E. C. Nelson is a candidate for Chief Justice of the Court of Civil Appeals. This is one of the highest judicial offices in our State, one that demands the most thorough training and the widest possible experience. Judge Nelson has attended and graduated from the leading universities and law schools in our country, giving him an educational background of the

highest order. He taught school for five years before entering the legal profession, and served two years in the United States Army during World War 1, fourteen months of his service being

in France.

He has had a well-rounded legal experience. He has been a licensed attorney for more than 22 years. He has practiced law in all of our courts and has been judge of all courts of record up to the Court of Civil Appeals. As an appellate judge, he will be able from his own experience, to review a case from the standpoint of both the practicing lawyer and the trial judge. He is now District Judge of the district compactd of Potter, Randail, and Armstrong Counties and his record as a trial indge is one of the best in the State.

Judge Nelson is 51 years old, just the right age to under ake the work of an appellate judge. He is old enough for ma urity, experience and judgment, and young enough for the years of hard work the po-

The size of the district has made it impossible for him to see all the people, but he solicits the vote and influence of all our citizens (Political Adv.)

This is the American way to provide the billions needed so urgently for National Defense

☆ United States ☆ DEFENSE SAVINGS BONDS and STAMPS

Record That! "Did you ever know an angler to tell the truth?" "Yes, once I heard one tell another that he was a liar."

Ultimatum

"Edith," he whispered, "will you marry me?"
"I don't know, Tom," she replied.
"Well, when you find out," he said rising, "send me word, will you? I shall be over at Eve's until 10 o'clock. If I don't hear from you by then, I'm going to ask her."

Retaliation Lady-Johnny, why are you making faces at that bulldog?

Johnny (wailing)-He started it. Folks who follow the old adage, "Think before you speak," find it hard to carry on a conversation."

Split It Doctor-I'll examine you for five Patient-Go ahead. If you find

it we'll go halves.

The new steel helmet just adopted by the Army is no longer called a "tin hat." It's a "head bucket" and when you see one you'll know why. Our soldiers have changed much of their slang since the last war, but not their preference for Camel Cigarettes. Now-as then -Camels are the favorite. They're the favorite cigarette with men in the Navy, Marines and Coast Guard as well, according to actual sales records from service men's stores. If you want to be sure of your gift to friends or relatives in the service being well received, stop in at your local dealer's and send a carton of Camels.-Adv.

Mexican Heat Powder to relieve heat rash, and help prevent it. Absorbs perspiration, often the cause of irritation. Always demand Mexican Heat Powder.

 ADVERTISING represents the leadership of a nation. It points the way. We merely follow-follow to new heights of comfort, of convenience, of happiness.

As time goes on advertising is used more and more, and as it is used more we all profit more. It's the way advertising has-

of bringing a profit to everybody concerned, the consumer included

By VIRGINIA VALE

ARRY PARKS, young Columbia Pictures' leading man, and eight other lads who are making their first bid for screen fame have taken over the 26room house once owned and occupied by the late Thomas Meighan. Larry, who heads the group, has an important role in the Astaire-Hayworth musical, "You Were Never Lovelier." He says it cost only \$14.75 to furnish the house -it cost Meighan more than \$9,000! They've thrown four rooms together and built a theater in which they rehearse parts for pictures coming There is a large portrait of Tom Meighan over the living room fireplace-they picked it up in a Hollywood prop house.

The sponsors who, seven years ago, were farsighted enough to see the potentialities of an obscure radio couple and build them into the famed Fibber McGee and Molly, give radio another innovation this summer; they're substituting a

John Nesbitt and Meredith Willson

Metro news commentator and a musician in a half-hour replacement program while Fibber and Molly vacation. The commentator is John Nesbitt, the musician, Meredith Willson. The program combines music with snatches of history, literature and current events.

Walt Disney, whose "Bambi" will soon be released through RKO, has acquired the screen rights to Major Alexander P. de Seversky's "Victory Through Air Power," and will make it into a feature picture for exhibition sometime this fall.

Imagine Charles Boyer producing and acting in something called "Flesh and Fantasy." It will be his star in one episode, Edward G. Robinson in another, and let's hope they change the title!

Capt. Hewitt Wheless, the army flier who was cited by the President for his exploits in the Pacific war, will play himself in a short subject, "Beyond the Line of Duty," which Warner Brothers will produce for the army air corps.

This shortage of leading men has proved too much for Harold Lloyd. He's produced two pictures for "A Girl, a Guy and a Gob" RKO. and "My Favorite Spy" and has left the studio. His next picture would have been "Butterfingers," a football comedy.

Samuel Goldwyn will select six of the loveliest and most talented secretaries of Washington, D. C., for roles in "They Got Me Covered," costarring Bob Hope and Dorothy La-The story brings out the part mour. that Washington secretaries play in helping to run the government; it's said that they arrive in Washington at a rate of 5,000 daily!

The biggest all-star lineup ever gathered for a summer radio show is the one that Bob Hawk's sponsors have booked for Friday nights; it's a 60-minute show featuring Xavier Cugat's orchestra, Connie Boswell and Margo, Lanny Ross and a new comedian, Herb Shriner.

Richard Denning, male lead in "Beyond the Blue Horizon," has held many of filmdom's stars in his arms. He made the test with Veronica Lake which won her her role in "I Wanted Wings." Paulette Goddard got her Paramount contract after making a test with him; Ellen Drew's test set her for "If I Were King"; Mary Martin's put her into "The Great Victor Herlert," her first film role. A closeup of his chest substituted for one of Bob Hope's; his back did the same for Bob Burns'. Now he's getting a chance, all of him, in the Lamour picture.

ODDS AND ENDS-Paramount plans to present the Quiz Kids in feature films following the completion of their present series of short subjects at that studio . . Ruth Hussey takes another step toward well-deserved stardom with the role of Mrs. Andrew Johnson in "The Man on America's Conscience" . . . Eddie Albert will play opposite Lupe Velez in "Ladies" Day," a comedy of the woman's side of big league baseball . . . Patricia Morison wants a horse-but don't send her one unless it's a 14-hand Palmino . . . Metro has bought "Cabin in the Sky," one of last season's most successful musicals.

Vegetable Preparation and Processing Guide

Stock Those Shelves

Sauerkraut

Well-justified pride is yours if you can gaze at the summer's crop of

vegetables, nicely put up on your canning shelf for, comes the winter, you have but to open one of those brightly colored jars with tomatoes, peas, beans, beets or carrots or any of the other vegetable favorites and part of that well bal-

Pack cold, add salt,

anced meal is planned and on its way to the table. Time was when canning was an unscientific and highly questionable process, but all this is past now, and you can now put up any of the vegetable and victory garden produce, and be certain that it will be attractive to look at, good to eat, and will not be spoiled if you take the simple precautions that make

for successful canning. Safest method for canning vegetables is the pressure cooker. Your concern here is to be sure to process the exact length of time the vegetable requires, as indicated by the table at the top. If not properly processed, the food will spoil.

Selecting Vegetables.

Young, tender vegetables, freshly gathered. give you the best finished product. Canning cannot remedy tough, over-mature produce, so do not expect it to. Nor, should you expect to can what you cannot dispose of at the table while fresh. Commercial canners use vegetables grown to order, not leftovers, so it behooves you, homemakers, to take a tip from them.

Cleanliness is important. You'll enjoy letting cool water trickle, trickle, trickle over the vegetables to free them entirely of every trace of soil. Any soil left on the vegetable can carry bacteria, and thus be a major factor in spoiling an other-

wise good product. Process the jars of vegetables as soon as they are packed, never allowing them to stand around until you get to the serious business of canning

Spoilage Factors.

food spoilage. They lurk in air,

soil and water

Mold, yeast and bacteria cause

and must be destroyed by proper processing if the food is to keep in perfect condition. Then to assure food keeping well be sure the jar cover is fastened as tightly as possible. This you can do by any

number of available devices. It is also important when packing the jars, after vegetables have been precooked and you are spooning them into the jars, to wipe off any excess before fastening on the cover. Any small particles which lodge between cover and jar will cause spoilage.

Cooling the Jars. Proper cooling is important to the good keeping of canned food. Do not

Lynn Says:

How many jars will it take? That's the question many home canners are asking when it comes to figuring the number of jars she should have. Here are hints on some of the

common canned goods: Tomatoes: 3 pounds yield a quart jar. String Beans: 1 bushel yields

17 to 20 quart jars. Greens: 1 bushel spinach yields pints; 1 bushel dandelions yields 15 pints.

Corn: 100 ears of golden Bantam makes about 14 pints. Beets: 12 pounds yields 6 pints in the stalk, 2 pint jars, if cut in

pieces. Peas: 1 bushel pods yields 14

30

set them in a draft, but rather away from one, with jars far enough apart to allow a free circulation of air around them.

Stacking the jars or covering them with a cloth does not allow for free circulation of the air. Jars should not be packed in boxes or in the canning cupboard until they are

When the jars are cool, test to see if they are sealed properly, by taking a spoon and tapping the lid gently. If they give off a clear, ringing sound, they are properly sealed. If the sound is low and dull, there's a leak somewhere, and you would do best to re-can the food, and prevent spoilage.

Sterilizing Jars, Caps, Lids.

To dip the jars, lids and caps in hot or warm water is not preper sterilization. Before placing in sterilizer, wash all caps and jars and lids in soapy suds, then rinse thoroughly. Place in a pan on a rack or on a cloth laid on the bottom of the pan and pour warm water over them. Bring to a boil and boil for 15 minutes. The equipment may stay in the hot water longer, until you are ready to use it.

Speed Is Necessary.

The time from which the vegetables or fruit are picked and canned should be pared down to exceed not more than two hours. Changes take place in the composition of the food which makes it less desirable for canning, each hour it is allowed to stand without being canned.

Packing the Food.

Sandwiching the food down in the jars too tightly prevents the heat from getting around it and will result in improper processing. Especially important is a fairly loose packing with vegetables like corn, peas, greens and lima beans.

If liquid boils away or evaporates during processing, do not replace this other liquid before sealing the jar. Even though all the vegetables or fruits are not covered with juice, they will keep perfectly well, provided the contents are cooked properly and sealed well.

Since tomatoes are technically a fruit and are acid, they are canned differently from vegetables.

Tomatoes.

Scald tomatoes in boiling water 1 minute. Soak in cold water 1 minute. Peel, core and pack into sterilized jars. Add 1 teaspoonful of salt to each jar and cover with boiling water or tomato juice to within 1/2 inch of the top. Put on cap, screw tightly and place in pressure cooker for 10 minutes at 5 pounds, in a hot water bath for 35 minutes or in the oven for 75 minutes.

> Vegetable Soup Mixture. 1 large onion (cut fine)-I quart tomatoes (cut fine) 2 cups okra (cut fine) 2 cups corn (cut fine)

Combine the ingredients, stirring carefully to prevent scorching, for about 12 minutes. Pack loosely into clean jars and add 2 teaspoons salt to each jar. Put on cap fastening it tightly, and process in pressure cooker 40 minutes at 10 pounds.

If the directions for the vegetables you wish to can are not given in today's column, or if you have any vegetable canning problems, write to Miss Lynn Chambers, explaining your problem to her. Address your letters to her at Western Newspaper Union, 210 South Desplaines Street, Chicago, Illinois. Please enclose a stamped, self-addressed envelope for your reply. E. C. Nelson

Judge E. C. Nelson is a candidate for Chief Justice of the Court of Civil Appeals. This is one of the highest judicial offices in our State, one that demands the most thorough training and the widest possible experience. Judge Nelson has attended and graduated from the leading universities and law schools in our country, giving him an educational background of the

highest order. He taught school for five years before entering the legal profession, and served two years in the United States Army during World War I, fourteen months of his service being

He has had a well-rounded legal experience. He has been a licensed attorney for more than 22 years. He has practiced law in all of our courts and has been judge of all courts of record up to the Court of Civil Appeals. As an appellate judge, he will be able from his own experience, to review a case from the standpoint of both the practicing lawyer and the trial judge. He is now District Judge of the district composed of Potter, Randall, and Armstrong Counties, and his record as a trial judge is one

Judge Nelson is 51 years old, just the right age to undertake the work of an appollate judge. He is old enough for maturity, experience and judgment, and young enough for the years of hard work the po-

sition requires.

The size of the district has made It impossible for him to see all the people, but he solicits the vote and influence of all our citizens. (Political Adv.)
