IT IS high time to think of a gift or two for Aunt Emily and Sister Sue. Why not give aprons this year? Your piece bag is sure to have many odds and ends of rick rack braid and bias binding and bright scraps of material which will do for trimmings with

a 34-yard remnant of plain gingham or unbleached muslin.

The diagram gives you cutting dimensions for the skirt and shows how to shape the waistline. It is easy to add a straight bib if you like. Use wider belts, about 21/2 inches finished, for the bibless type and cut the ties about four inches wide. These three aprons will give you ideas for any number of trimmings. Be lavish with bright color for this is the season for gay gifts to bring good cheer.

NOTE—These aprons are from Mrs. Spears' BOOK 4 which also contains di-rections for more than thirty other gifts and things to make for the home, from inexpensive new materials and odds and ends of things on hand. Copies will be postpaid at 10 cents each. Address:

MRS. RUTH WYETH SPEARS Bedford Hills Drawer 10 Enclose 10 cents for Book 4.

SOOTHE CHAPPED SKIN QUICKLY Raw, biting weather dries skin cells, leaves them "thirsty." Skin becomes raw—may crack and bleed. Soothing Mentholatum acts medicinally: helps 1) Reviee those thirsty cells so they can retain needed moisture; 2) Protest chapped skin from further irrita-tion. Use Mentholatum for sore, chapped hands, cheeks, lips. Jars 30%.

MENTHOLATUM

The best is none too good for our men in the service. That's why it's worthwhile consulting them for their gift preferences this Christmas. According to surveys made in camps and barracks, cigarettes and smoking tobacco head the list as the gifts preferred by our boys in O. D. and blue. Camel is their favorite cigarette (based on sales records in Post Exchanges and Canteens). If he's a pipe-smoker, a big favorite is Prince Albert Smoking Tobacco, the largestselling tobacco in the world. You have your choice of the Camel Christmas Carton, or the Camel "Holiday House" package containing four "flat fifties." Prince Albert is packaged in the pound canister. All are handsomely gift packaged with space for your Christmas message. Your dealer is featuring them now.—Adv.

Soviet Pushes Offensive Against Nazis As Italians Contemplate Allied Threat Of Stepped-Up Campaign Against Them; Tunisia Battle Climaxes African Drive

(EDITOR'S NOTE; When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union,

The liberated French supplied the refreshments and a toast was raised to an American alliance when a lieutenant with the Yankee invasion forces brought word to the Foreign Legion barracks in Safi, Morocco, that the troops there were no longer prisoners. Thus ended another phase of the Allies' North African campaign.

TUNISIA:

Allied Wedge

Axis forces in Tunisia stood with their backs to the sea as Lieut. Gen. K. A. N. Anderson's British first army thrust a wedge between enemy strongholds in Tunisia by capturing the town of Djedeida, which controls road and rail communications between Tunis and the Bizerte naval base.

Thus by severing communications between Tunis and Bizerte, the Allies virtually had isolated the Axis positions, leaving only a coastal road open.

The German-controlled Paris radio said that fighting was taking place in the Mateur region and indicated that the British are preparing for a general offensive by deploying forces in that sector.

Axis forces fell back, following futile counterattacks, within the semicircular defense line around Tunis and Bizerte. According to the Morocco radio, Allied paratroopers attacked Axis positions near Mateur and other Allied forces stabbed at the

TRAGEDY:

Strikes Boston Not since the 1903 Iroquois theater fire in Chicago had so many people been burned or suffocated to death as perished in the disaster which struck the Cocoanut Grove night club that Saturday night in Boston. An incomplete toll by the police first set the number of dead at 477 with the belief that it might rise above 500. At the time this count was made 212 persons were receiving hospital treatment for their burns and in-

As hysterical parents and friends were engaged in the difficult task of identifying the bodies of those killed, Stanley Tomaszewski, a 16-year-old high school boy and part-time employee of the club, told his story of how the blaze began. He said that after a patron had unscrewed a light bulb he attempted to replace it and when he lighted a match to see better, the flame ignited some of the decorations. Swiftly the flames spread and the 750 patrons rushed frantically for the exits. Many were killed as they were trampled beneath rioting hundreds seeking escape. Only about 100 of the total

750 in the building escaped unhurt. Many of the persons killed were servicemen and football fans celebrating college victories of that afternoon. Buck Jones, well-known western star of the movies, was among the persons who had packed the smart club.

As all available medical help was rushed to the scene, the Red Cross released supplies of blood plasma which was used in extreme cases in efforts to keep the death toll

NAZI SHIP:

Trapped in Pacific

In a double-edged announcement from Allied headquarters in Austra-lia came word that two destroyers attempting to reinforce Japanese units at Buna were believed sunk by Allied bombers, while far to the west an 8,000-ton German auxiliary ship was trapped and 78 Germans cap- all summer. Most vital question

The announcement was the first Russian offensive could maintain its mention of Nazi shipping in this area for months.

FIGHTING DOLLARS:

Tops in Financing

When President Roosevelt launched the nine billion dollar "Victory Loan" drive by purchasing a \$1,000 bond from Secretary of Treasury Henry Morgenthau he set in motion the greatest financing program in all history.

This money is needed by the government to meet obligations stemming from the war effort and the President urged that everyone turn his idle money into "fighting dol-lars" by buying some of these bonds. Pointing out that while over 23 million Americans were already buying war bonds through payroll deduction plans, there still were many who could get in on this newest plan of building up government

While the new borrowing campaign is being handled largely by the nation's banks, all wage earners and corporations are being urged to buy these latest securities of all types. Beginning at \$500 the bonds are available to all investors and it is hoped that half the amount needed will be raised outside banks.

AIR STRENGTH:

Asia Evidence

Heavy United Nations air raids were raining destruction on Jap bases and supply centers in Burma, Thailand and Indo-China as the growing strength of this arm of activity against the enemy became increasingly evident.

This most recent surge of air strength began with a terrific pounding of Jap railway yards at Manda-lay and reached its apex when a U. S. group of bombers and fighters shot down at least 23 planes in one day during operations against the great Pearl river base in China.

In that raid tons of explosives were dropped on the Pearl river estuary, sinking two medium sized freighters and upwards of 100 barges. In addition many docks and ware houses were set ablaze.

SUICIDE FLEET:

Scuttled by French

So that France "might at least be spared the supreme shame of seeing her ships become the ships of the enemy," French sailors de-stroyed 60-odd ships at Toulon, removing the last visible asset of the Vichy government.

The words were those of Charles de Gaulle, leader of the Fighting French. The sentiment was that of all the Allied nations.

Word of the suicide of France's home fleet disclosed that many French officers and dynamite crews went down with their vessels in wild dawn battles with German boarding

ADMIRAL LABORDE Was given orders.

parties attempting to halt the scut-

tling of the vessels. Warships now littering the bottom of Toulon harbor include three battleships, four heavy and three light cruisers, one seaplane tender, 25 destroyers and 23 submarines. Two submarines escaped and a third struck a mine dropped by a Nazi plane as it attempted to flee.

London sources accepted the scuttling as evidence that Adm. Jean Darlan has been secretly playing the Allied game. Fighting French sources said that Adm. Jean Abrial, new Vichy naval secretary, undoubtedly gave Adm. de la Borde orders to scuttle the ships.

BRIEFS:

LIMIT-A limit of 14 days to all army furloughs during the holiday season was announced by Secretary of War Stimson. Because of the increasing strain on U.S. railway facilities between December 12 and January 12 leaves will be granted to no more than 10 per cent of the enlisted strength of each army post. DOUBLED - OPA officials announced in Washington that twice as many passenger car tires would be available for rationing in December as compared to last month.

HOSIERY - Price Administrator Leon Henderson has set specific maximum retail prices on women's silk hose at from 35 cents to \$1.65 depending on quality and type.

GUEST-Upon completion of medical treatment in the U.S., Madame Chiang Kai-shek, wife of the Chinese generalissimo, was to be the guest of President and Mrs. Roosevelt at the White House. Her trip to this country was kept a secret until she arrived at her destination.

CHRISTMAS-"On the birthday of the Prince of Peace we can and should rest from the production of the weapons of war." With those words, Donald M. Nelson, WPB chairman, announced that Christmas will be observed as a full holiday in the nation's war plants.

PRAW a long breath of relief, you lads who secretly adore Greer Garson-with her marriage to Richard Ney postponed until after the war there may still be a chance for you! At least, at the moment there is; one never knows what to be sure of when a Hollywood marriage is concerned. At any rate, as of right now, this one is delayed; seems, according to Lieutenant Ney's announcement, that there was no place where they could be married until 10 o'clock, when the time came, so they decided to wait.

PREPAREDNESS AMERICAN RED CROSS

THE 3,725 Red Cross chapters, located in nearly every county in the United States, perform a very important service for members of the armed forces and their dependents. This is the work done by the Red Cross in case an emergency furlough for the service man becomes necessary.

While the county's Red Cross chapter itself cannot request these furloughs, it can speed up action on them if the family will notify the county Red Cross chapter immediately after the emergency arises.

The actual request for the furlough must be made by the service man to his commanding officer, who refers it to the camp Red Cross field director. A telegram from the field director then asks the local Red Cross chapter to verify information furnished by the service man.

If the family notifies the county Red Cross chapter at the same time it does the service man, the Red Cross can get the necessary verification of facts to the camp about the same time the furlough is requested.

If investigations bear out the service man's story, he usually gets the furlough. Bis the county Red Cross chapter must report the facts if the situation is not really an emergency, or if there is anything else that may make the man's return less urgent.

County Red Cross chapters also make available actual financial aid to service men and their families in emergencies. If the man needs money for the trip home, or if the family needs money because of the service man's absence, the Red Cross may make it available through a loan or draft.

The Red Cross is often called to aid in cases of the birth of a child whose father is in the armed forces. Likewise, Red Cross assistance is available to wives of service men before and after birth

The 'lectric train that wasn't there

SOME things are hard to understand—even when you're grown up. But Jimmy will understand why there may not be a 'lectric train under the Christmas tree this year.

And grownups will understand why there isn't the usual supply of electric appliances which in the past have made such swell Christmas

It dates back to a Sunday morning—December 7, 1941. Since then the wonderful electric train, with its light and whistle and all the bright shiny cars, has gone into guns, planes, tanks and ships. And the factories that used to make electric refrigerators, stoves, sweepers, radios, irons and the like all are doing war work.

In our showrooms are a few small appliances that may be given as Christmas gifts. But, before buying, be reasonably sure they are needed.

· The electric power which drives tiny trains for boys like Jimmy also is helping to drive the massive machines that make tanks, guns, bombers and ships. But we planned ahead, and made certain that West Texas had plenty of power. Today every war plantand every home-in West Texas has ample electric

light and power, whenever and wherever needed. This great abundance of electric power, under the American system of free enterprise, means production-and production in this modern-day war means Victory. Then the real Christmas will come again . . . and Jimmy will get his 'lectric train!
