Pigs for sale on Noel and Kinard farm at McKnight

Red Cross Notes

The busiest place in town Saturday was the Red Cross Work Room. A quilt was quilted and hemmed and quite a lot of work went out.

The McKnight Community Chairman, Mrs. John Tate turned in several pairs of finished pajamas. These ladies are doing fine work. They are quilting a quilt and sewing night shirts this week.

The Gray ladies have finished another quilt and took another to quilt this week. They are sewing also.

Hedley ladies quilted a quilt on Thursday. We will work each Thursday from 2 p. m. to 5 p. m.

We wish to thank the following: Mrs. Conner for cash donation; Mrs. Charlie Shaw and Mrs. Leonard Pierce for thread for afghan. We wish to make special mention of a worker, Grandmother Sims. She has finished one quilt and 8 more started, but due to eye trouble she will have to stop for awhile. We appreciate her work very much and hope in the near future she will regain her vision. We are happy to have the use of Mrs. M. Meoley's sewing machine.

We are in need of the following: wool thread, large buttons for pajamas, wool for afghan. If you don't have these remember we always need cash to help our local expenses.

Mrs. Frank Kendall has been visiting in Lawton.

David Paul Moore

David Paul Moore, a former Hedleyan, passed away March 10 at Vancouver, Wash. where he was employed in a Kaiser ship yard. He was 48 years of age and had lived there about 3 years.

He is survived by his mother, Mrs. D. C. Moore of Hedley, six brothers, Z. A. of Amarillo, M. F. and Connie of Pampa, Buck of Muskegon, Mich., Alva of Vancouver and Hugh of Oregon, and one sister, Mrs. Herman Herschler of Hedley.

Mr. Moore lived in Hedley about 25 years ago.

Lions Club Meeting

Forty-three Lions and guests attended the meeting of the Lions Club last Thursday night. The program was an old fashion spelling match and it was found that the Lions have both good and bad spellers.

The band committee reported a bass horn and a bass drum purchased for the use of the High School Band. The Red Cross drive committee reported the drive to be progressing as expected. The committees out have reported \$382.80 collected and sent in to Red Cross headquarters.

The next meeting of the Club will be Thursday night March 26 at which time the High School Band will have the program.

W. S. G. S.

WSGS met as scheduled in basement of church. A goodly number of fourteen were present. A very enjoyable social hour was spent in quilting a quilt and working button holes in pajamas for Red Cross.

Old and new business was discussed and disposed of. The study was presented by Mrs. Vinson, Mrs. McFarland and Mrs. Pyle. The devotional was by Mrs. Kempton. All engaged in singing a hymn. The period closed with prayer offered by Mrs. W. H. Hill.

Two visitors were enjoyed along with some members who have been unable to attend regularly.

Mr. and Mrs. W. I. Rains have gone to Marlin for the benefit of their health.

For Sale—1939 Ford. See Blaine Doherty.

For Sale—4 room house, 2 lots, across from Church of Christ.
J. L. Rostaif

Revival

The West Side Baptist Church will begin a revival Aug. 29. Bro. M. L. Porter, the pastor, and Bro. V. A. Haasard will have charge of the services. All are invited to attend.

Mr. and Mrs. J. M. Clarke left last week for Corpus Christi, where they will make their home. The Clarks have been Hedleyans for about 20 years, and their many friends here regret to see them leave.

Lieut. and Mrs. Bolan E. Wiley of San Angelo visited here this week.

Mr. and Mrs. Horace Cooper of Amarillo visited here Sunday.

For Lease—100 acres farm land government check included. Box 914, Hedley.

Timely Samplers to Beautify Your Home

TWO samplers — eloquent in thought, simple in execution—combine cross stitch with outline. Shield and bell are the dominant figures on one; on the other, the flag and eagle. Each is 8 by 10 in size, and both come on one transfer Z9477.

This pattern also brings outlines for the distinctive spear type hangers—these are cut from wood and painted. A cord of red or blue adds the final touch. Grand for gifts or your own use. The price of the transfer is 15 cents. Send your order to:

AUNT MARTHA
Box 166-W Kansas City, Mo.

- 2) Soothe irritated membranes;
- 3) Help reduce swollen passages;
- 4) Stimulate nasal blood supply. Every breath brings quick relief! Jars 30¢.

MENTHOLATUM

SNAPPY FACTS ABOUT RUBBER

Akron, Ohio had its beginning as the WORLD'S RUBBER MANUFACTURING CAPITAL in 1870 when its first rubber plant was started by Dr. B. F. Goodrich.

The switching of Dakar, French West Africa, to the side of the United Nations meant the establishment for the Allies of an important port for the shipment of crucial rubber. Among other important war essentials.

Atokine, the chemist's answer to the war time shortage of quinine, is serving to step up the collection of rubber in the malarious-infested jungles of Brazil. Here is a case of a synthetic product being used to stimulate the gathering of a natural product that is rapidly being replaced by synthetics in the United States.

Ordinary tires are now cured in molds at factories in 40 to 50 minutes. Before organic accelerators were developed by B. F. Goodrich it took about five hours to vulcanize a tire.

WEEKLY NEWS ANALYSIS

Meat Ceilings to Check Black Market; Bismarck Sea Triumph Forecasts U. S. Drive to Sweep Japs From New Guinea; Small Firms Get Billions for War Work

(EDITORIAL NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.) Released by Western Newspaper Union.

Even the most advanced air base in Tunisia gets its mail, as pictured above. This photo of the mailman arriving and being welcomed at an advanced U. S. air base of Gen. Dwight Eisenhower's army, should be an incentive to those on the home front to write and keep writing to loved ones no matter how far away on Uncle Sam's service they may be.

BLACK MARKET: Action on Meat

Action rather than words was the keystone of a program sponsored by the OPA and the department of agriculture to smash the black markets in meat.

First banage laid down in this offensive was Price Administrator Prentiss M. Brown's order imposing specific retail price ceilings on meat, beginning with pork products. Second attack came in the announcement by Secretary of Agriculture Wickard of orders licensing livestock slaughterers as well as those who buy and sell livestock for slaughter.

Effective April 1, the meat ceilings were expected to check black markets and end an "unjust squeeze" on packers. Mr. Brown said they would also lay the groundwork for the start of meat rationing about April 15. Meat ceilings were to be followed by uniform regulations on beef and lamb.

When meat rationing is undertaken, the order will include bacon, butter, cheese, lard and other cooking fats.

With price uniform throughout a community in all cuts of meat, Brown said, it would be difficult for dealers to profit of illicit meat at higher prices.

RUSSIANS: Repeat Old History

Back over the snowy Russian steppes when Napoleon's army perished long ago reeled the retreating German legions.

While the collapse of Nazi resistance at Rzhev had been of high immediate strategic importance to the Red command, it was prophetic of further Nazi reverses, for with the whole German salient west of Moscow unhinged, the fate of Orel and Vyazma to the east virtually sealed.

The rapidity of the Russian advance was indicated by the capture soon afterward of Olenino 35 miles west of Rzhev giving control of the railway running from Moscow to Velikie Luki.

While German spokesmen described the Nazi defeat as a strategic withdrawal to shorten Nazi lines, Allied military observers saw in it a threat to all Axis defenses from Smolensk to the Baltic sea.

In the South the Russians had moved forward more slowly, impeded by the first thaws of oncoming spring. But Red forces were reported driving forward from recaptured Lgov, important railroad center west of Kursk.

WAR COSTS: Exceeds 43 Billion

More than \$43,830,452,651 was spent for war purposes in the first eight months of the current fiscal year, it was disclosed by the treasury department.

The war department spent the most for war—\$27,303,243,684. The navy spent \$10,022,653,956, the maritime commission \$1,685,143,236 and the war shipping administration \$733,211,740.

Expenditures by the government for all purposes during the eight-month period totaled \$47,600,944,727, while net revenue totaled \$9,512,808,497. The government's deficit for the eight months was \$38,088,682,608.

HIGHLIGHTS . . . in the week's news

LONDON: "Take a towel with you when you go visiting" was, in effect, what Britons were told in a new set of rationing regulations. In announcing towel concessions for factory and medical workers, Hugh Dalton, president of the Board of Trade, said in the future "we must be prepared to take our towel with us if we go to stay, or if asked for a towel."

SMALL BUSINESS: Good News Ahead

Good news for small business concerns was forthcoming from Charles E. Wilson, executive vice chairman of the War Production board when he announced that war contracts placed with smaller companies "will run into billions of dollars by the end of the year."

Wilson said that more than \$30,000,000 of work a week is being placed now with small business firms through the efforts of the Smaller War Plants corporation.

The WPB's program for small business, Wilson said, includes: 1—An increase in the number of prime contracts placed with small plants; 2—Widening of WPB's lending policy to make loans to small business easier; 3—Certification of more small plants to handle war contracts.

BISMARCK SEA: Disaster for Japs

Three facts of major significance to the future of the war in the Pacific emerged from the stunning victory of General MacArthur's bombers over the 22-ship Jap armada in the Bismarck sea, approaching New Guinea.

Fact No. 1 was that in sinking the 22 enemy ships and bagging 82 Jap planes, MacArthur's airmen proved that a force of land-based bombers manned by skilled pilots is more than a match for a sea-borne invasion force. Fact No. 2 was that the victory removed the danger of invasion to the Australian mainland for the time being at least. Fact No. 3 was that the enemy garrisons at Lae and Salamaua, New Guinea, would not now be reinforced, for it was estimated that 15,000 Jap troops perished when Yankee bombs sank their transports.

Military observers believed that one of the immediate results of the Jap disaster would be an increase in pressure by General MacArthur's armies besieging Lae and Salamaua with the object of driving the Japs entirely from New Guinea.

The clean-sweep character of the American triumph was summarized in General MacArthur's terse communique: "We have achieved a victory of such completeness as to assume the proportions of a major disaster to the enemy."

NAVY: Predict 10% Losses

A navy "big enough to dominate all seas over the world" was envisioned by Secretary Frank Knox, who added a warning that the American people must be prepared to expect a 10 per cent casualty rate in navy personnel before the war's end.

Secretary Knox and ranking naval officials unfolded a program for building up personnel strength to 2,250,000 by July, 1944, in testimony before the house subcommittee on naval appropriations. Appropriations totaling \$3,816,000,000 to implement this program were approved by the subcommittee.

The navy had 3,205 ships in commission on January 1, 1943, according to Rear Admiral Randall Jacobs, chief of the bureau of personnel. This number will be increased to approximately 4,100 by the end of the year, he added.

NORTH AFRICA: Rommel in Reverse

As Allied troops continued their drive in Tunisia, it became increasingly clear that Marshal Rommel's short-lived Kasserine Pass offensive had been a gamble. If he succeeded, he would follow it up. If he failed, he would waste no time in retreating. This was emphasized by the rapidly with which American and British forces had regained the ground lost in Rommel's first push.

Reports disclosed that some units of the British Eighth army had made contact with American troops in the Gafsa area of central Tunisia after circling the Mareth line from the south and advancing through the Chott Djerid marshes which had hitherto been regarded as impassable.

American forces pressing Rommel's retreat from the Kasserine pass were reported well beyond Sheitla on the way to the Faid Pass, the key to German north-south communications.

In the northern mountains west of Axis-held Bizerte heavy Nazi attacks had bent the British lines back. The Allied air arm remained dominant over North Africa, however, and in the Mediterranean, sharp enemy losses to British submarines were reported. Seven Axis ships were sunk and nine others damaged.

ABSENTEEISM: Wage Docking Urged

"Hit them in the pocketbook. If you dock their wages you are hitting them where it hurts."

This was the prescription for curing the problem of persistent absenteeism by war plant workers proposed by Secretary of Navy Frank Knox. Testifying before the house naval affairs committee, Knox advocated remedial legislations covering both draft-age and non-draft-age workers.

A large share of the absenteeism is caused by men safe from the draft, he told the committee which was studying measures to require periodic reports to local draft boards on absences of military age. Best results in curbing absenteeism would be to deprive such workers of earnings for part of the time they were actually at work, he added.

DRAFT: Fathers Go Soon

Draft boards will begin inducting fathers into the armed forces in many areas of the United States about May 1, informed officials in Washington indicated. These officials added that they expected drafting of married men with children to be general throughout the country by early summer.

Acknowledging that some married men with children have already been inducted, selective service officials declared that most of these had acquired their dependents after December 8, 1941. Other fathers, it was said, may not be inducted without authorization from selective service headquarters. It was predicted, however, that such authorization would be forthcoming this spring.

PIPELINES: Relief for East

Blunt-spoken Harold L. Ickes, petroleum administrator, served notice that he had decided to build a 20-inch pipeline from Texas to the Middle West, despite the objection of

PETROLEUM BOSS ICKES

Midwest senators who had urged that any new pipeline construction should be instead, from the Middle West to the East Coast shortage area. This will be in addition to the recently completed 24-inch line.

Mr. Ickes assured the Middle West senators in testimony before a committee in Washington that he also hopes to complete a 20-inch pipeline from the Midwest to the East coast this year.

Meanwhile, he insisted, building the western end of the second pipeline first would speed the job and increase deliveries to the East coast of from 3,000,000 to 5,000,000 barrels during the most critical period of the shortage. This would provide the most effective method.

CHILD LABOR: 2,780,000 Employed

Reflecting the war's impact on the nation's labor supply, a report by the National Child Labor commission revealed that 2,780,000 youngsters of less than 18 years of age are employed either full or part time in industry and agriculture.

Citing a noticeable increase in illegal child labor, especially in night work, the report said that 800,000 of the group were in the 14 to 15-year age group, and the remainder 14 and under.

PATTERNS SEWING CIRCLE

8207 10-20

8337 10-20

Bolero Frock. SIMPLE but so attractive is this bolero frock which will be worn more and more as the weather gets warmer. Right now, worn with bolero, it has a casual spring-time look. Comes summer, worn without bolero, it can be put to good use as a sun-tanner.

Pattern No. 8207 is in sizes 10, 12, 14, 16, 18 and 20. Size 12 ensemble takes 4 yards 35-inch material.

Young Frock. IT IS called the wedge—the interesting double line treatment of the smart new frock we show today—which starts at your shoulders and ends in jaunty slash pockets in the dirndl skirt. Outline it with blanket stitch—and watch it—narrow inches away from your waistline!

Pattern No. 8337 is made for sizes 10, 12, 14, 16, 18, 20. Size 12, short sleeves, requires 3 1/2 yards 39-inch material. Send your order to:

SEWING CIRCLE PATTERN DEPT., 536 South Wells St., Chicago, Room 1958. Enclose 20 cents in coins for each pattern desired. Pattern No. Size Name Address

Household Hints

Used brooms can be made stiff and clean by dipping them in a pail of boiling soda water, and drying them in the sun. If the broom is sprayed or sprinkled occasionally with a little kerosene, it gathers the dust much better.

Do not mix new milk with old, except when it is to be used immediately.

Rub over the inside of a cushion with hard soap before you fill it. Then the points of the feathers will not come through.

It will help keep your shoes if you put them on shoe trees or stuff the toes with paper when they are not being worn. Always wipe them dry of moisture and dirt after exposure.

Here's a hint for the workshop: In filing a saw, first smoke the teeth with a lighted candle. This will make it easy to see the fresh filing and to hold the file at the right angle for the job.

Children's Shoes should be plenty large when bought—but not large enough to slip around and rub the feet. When they get too small, they should be passed on to some one else, if they are not worn out, for wearing too-small shoes when a child may cause serious foot trouble all through later life.

An occasional application of oil will keep leather in chairs and suitcases from cracking.

Shotguns Needed by Army

The Ordnance Department this week appealed to the Hedley Post of the American Legion for all available 12 gauge shotguns. Types required are hammerless double barrels, pumps and automatic. Shotguns are used in training soldiers and sailors in using shooting and for guard purposes. Each gun used will receive a rifle for combat use. Guns bought by the government will range from \$30 for double barrels to \$42.50 for pumps and automatic. Anyone wishing to sell a gun to the government can leave them at Thompson Brothers Hardware.

HEDLEY LODGE NO. 413

Axis cuts your driving—
Terrorizes your engine with ACID!

Every time short rations keep your car idle it's really like the Axis trying to dose your engine with acid. All the Axis needs is the acid products of combustion always left in your engine when it stops. This unavoidable acid wasn't so bad when cleaned out pretty well, several times a day, on fast runs that warmed the engine completely. But now with slow short runs often keeping the engine too cool, acid's chance has increased to corrode metal.

To keep your tools from corroding you apply oil—again and again. In your engine you can have a more lasting preservative. It's designed to combat internal acid corrosion.

It's surfaced to metals as closely as any protective plating. That's why this inner engine preservative—made possible by the quick, simple, economical change to Conoco Nth motor oil—is known as OIL-PLATING.

Conoco Nth—patented—brings you the special synthetic invented to make metal surfaces cover themselves with OIL-PLATING. It may be quite a while "between coupons" now. But you needn't give hungry acids all that while to gnaw at your engine, which the Axis won't let you replace yet! OIL-PLATE it now. Change to Conoco Nth for Spring. Continental Oil Company

THE HEDLEY INFORMER

PUBLISHED EVERY FRIDAY
D. E. BOLIVER, Publisher

Entered as second class matter
October 28, 1910, at the postoffice
at Hedley, Texas, under the Act of
March 3, 1879.

NOTICE—Any erroneous reflec-
tion upon the character, standing or
reputation of any person, firm or
corporation which may appear in
the columns of The Informer will
be gladly corrected upon its being
brought to the attention of the
publisher.

All obituaries, resolutions of re-
spect, cards of thanks, advertising of
church or society doings, when ad-
mission is charged, will be treated
as advertising and charged to
accordingly.

In case of error in legal or other
advertising the publisher does not
hold himself liable for damages be-
yond the amount received for
such advertising.

Is your Informer subscription
paid up? Come in and renew
your subscription today. Only
\$1.00 per year.

Shotguns Needed by Army

The Ordnance Department
this week appealed to the Hedley
Post of the American Legion for
all available 12 gauge shotguns.
Types required are hammerless
double barrels, pumps and auto-
matics. Shotguns are used in
training soldiers and sailors in
wing shooting and for guard pur-
poses. Each gun so used will re-
lease a rifle for combat use.
Guns bought by the government
will range up to \$30 for double
barrels and \$42.50 for pumps and
automatics. Anyone wishing to
sell a gun to the government can
leave them at Thompson Brothers
Hardware.

Notice of City Election

Pursuant to an order issued by
the City Council of the City of
Hedley, notice is hereby given
that a City Election will be held
on Tuesday the 6th day of April
A. D. 1943 in the City Hall of the
City of Hedley, Donley County,
Texas, for the purpose of elect-
ing a mayor and five (5) aldermen.

When life hangs by a wire!

IN HOSPITALS throughout West
Texas (and close up to battle lines
all over the world) a blue-white light
blazes down on the tense little group.
... A suction machine hums quietly.
... Skillful fingers poise an electric
knife. ... A human life hangs on the
smooth, even flow of electric power.

Electric equipment of many kinds
serves the modern hospital. Busy doc-
tors and nurses use it every day for
diagnosis and treatment, without even

pausing to think of the constant sup-
ply of electricity that keeps it operat-
ing.

But electric power didn't just hap-
pen. The hard work, training and ex-
perience of West Texas Utilities men
and women have made it dependable.

They've made it plentiful, too—so
that West Texas communities have not
been hindered by any power shortage
while joining in the Nation's war
effort. And they've made it cheap—so

that the average West Texas home
enjoys over twice as much electricity
for the same money it paid about fif-
teen years ago.

These are the results of practical
business management under public
regulation—part of the system of
business freedom in which millions of
Americans have put their faith and
their savings.

Converting Our Industry

The groundwork for the conversion of American industry to war production started as long ago as 1922 when the Army and Navy Munitions board was set up, and the Army established ordnance offices in 13 important cities throughout the country, says Collier's. The board then began a survey of some 20,000 large industrial plants to determine what these companies could and would produce in case of war.

Pull the Trigger on Constipation, with Ease for Stomach, too

When constipation brings on discomfort after meals, stomach upset, bloating, dizzy spells, gas, coated tongue, and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative-Senna to pull the trigger on those lazy bowels, combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many doctors have given pepsin preparations in their prescriptions to make medicine more agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Inset on Dr. Caldwell's Laxative Senna combined with Syrup Pepsin. See how wonderfully the Laxative Senna wakes up lazy nerves and muscles in your intestines to bring welcome relief from constipation. And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even finicky children love the taste of this pleasant family laxative. Take Dr. Caldwell's Laxative Senna combined with Syrup Pepsin, as directed on label or as your doctor advises, and feel world's better. Get genuine Dr. Caldwell's.

PLANT FERRY'S VEGETABLE SUCCESSES FOR A BETTER GARDEN

This is the year to know the seeds you plant—it's no time for guessing. Ferry's Seeds have proved their ability to make every inch of garden space count in top yield and fine flavor. See your Ferry's Seed dealer NOW for a complete line of high-quality garden vegetables.

VITAL ELEMENTS* TO HELP BUILD RESISTANCE TO COLDS... Good-tasting Scott's Emulsion contains the natural A and D Vitamins* often needed to help build stamina and resistance! Helps build strong bones, sound teeth! Mothers—give Scott's Emulsion daily. Recommended by Many Doctors. THE SCOTT'S EMULSION Great Year-Round Tonic

SKIN IRRITATIONS OF EXTERNAL CAUSE

Acne, pimples, bumps (blackheads), and ugly broken-out skin. Millions relieve themselves with simple home treatment. Go to work at once. Direct action aids healing, works the antiseptic way. Use Black and White Ointment (only) of the rected. 10c, 25c, 50c sizes. 25 years success. Money-back guarantee. 88 Vital in cleanliness is good sense. Enjoy famous Black and White Skin Soap daily.

Admirals may be admirable, but that isn't where the word comes from. It comes from an old Arabic word "amiral" meaning "commander of." That's what the Admiral is, the top-ranking officer in the Navy. Top-ranking cigarette with our Navy men is Camel—the favorite, too, with men in the Army, Marines and Coast Guard, according to actual sales records from their service stores. Camels are their favorite gift, too. Local dealers are featuring Camel cartons to send anywhere to any member of our armed forces. Today is a good time to send "him" a carton of Camels.—Adv.

Beware Coughs That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly always the cough or you are to buy your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Aunt Louise says: PAZO for PILES. Relieves pain and soreness. Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment. Get PAZO NOW! At Your Druggist!

WAR WORKERS Don't it seem more sensible?

ALL-VEGETABLE LAXATIVE. In NR (Nature's Remedy) Tablets, there are no chemicals, no minerals, no phenol derivatives. NR Tablets are different—act different. Fully vegetable—a combination of 10 vegetable ingredients formulated over 50 years ago. Uncoated or candy coated, their action is dependable, thorough, yet gentle, as millions of NR's have proved. Get a 25¢ box today... or larger economy size.

Nature's Remedy LAXATIVE NOW... CANDY COATED OR REGULAR! MR TO-NIGHT; TOMORROW ALRIGHT

To relieve distress of MONTHLY Female Weakness AND HELP BUILD UP RED BLOOD! Lydia E. Pinkham's Compound TABLETS (with added iron) have helped thousands to relieve periodic pain, backache, headache with weak, nervous, cranky, blue feelings—due to functional monthly disturbances. Taken regularly—Pinkham's Tablets help build up resistance against such annoying symptoms. Also, their iron makes them an excellent tonic to help build up red blood. Pinkham's Tablets are made especially for women. Follow label directions. Worth trying!

Use at first sign of a COLD 666 ALL TABLETS, SALVE, NOSE DROPS, COUGH DROPS. Try "Rub-My-Tum"—a Wonderful Liniment. WNU-L 11-43

Sentinels of Health

Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—constantly produces waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-ache, dizziness, one may suffer nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—feel tired, nervous, all worn out. Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Inset on Doan's. Sold at all drug stores.

DOAN'S PILLS

Star Dust STAGE SCREEN RADIO

By VIRGINIA VALE Released by Western Newspaper Union.

THE public is cheated because Paramount doesn't always shoot Susan Hayward in technicolor; her red hair and reddish-brown eyes that almost match it are something to look at! Visiting in New York when "Reap the Wild Wind" was being released nationally, Susan was interested in seeing old friends from Brooklyn, her home town, buying clothes, seeing the new plays, rather than being formally introduced as a successful young star. She's remarkably pretty—without benefit of makeup, except lipstick. Clara Bow was the first Brooklyn

SUSAN HAYWARD

redhead to make motion-picture history; Susan Hayward has the looks, talent and personality that should make her the second.

Michael Harvey, husky six-footer making his screen debut in "So Proudly We Hail" with Claudette Colbert, Paulette Goddard and Veronica Lake, is the third of three "youngsters" who grew up together in Atlanta to hit motion pictures. The others are Evelyn Keyes and Dixie Dunbar. The girls beat Harvey to the screen; he stacked up a record in Broadway plays before Hollywood got him.

All of a sudden Turkey has become very important to motion-picture makers; three studios have announced that they'd do pictures with Turkish backgrounds. Columbia's is "Constantinople," Paramount's "Datinel—Istanbul," Republic's either "Istanbul" or "Ankara."

Marilyn Maxwell, Metro starlet, returned from a five-week Victory Caravan trip for work in "Salute to the Marines" with this advice about how to rate A-1 when visiting the 1-As. Be gay, wide awake, peppy and active; be sure your hair is combed, your make-up fresh, your stockings seams straight; be yourself—there's only one Hedy Lamarr! Don't wear slacks; be interested in the man, not his uniform; know how to talk; don't dish out a line—he probably knows yours better than you do.

Thirty-four-year-old Edward Dmytryk, director of "Hitler's Children," has had 20 years' experience in pictures. He started as an errand boy in Paramount's laboratory, working after school and vacations, was a projectionist when he entered college, and two years later went to Hollywood as a cutter. Three years ago he turned director.

Dick Keith, the "Bright Horizon" actor was so well liked by the fans of another radio serial that letters piled in demanding that he marry the heroine. That was impossible, since he played a character so wealthy that, if the heroine married him, she'd have no troubles—and there'd be no more serial. The problem was solved by killing him off at the wedding ceremony.

Peggy Allenby, actress on Phillips H. Lord's "Counterspy," regrets the realism which Jay Hanna, the director, brings to his work. Arnold Moss playing a Nazi spy, had to slap Peggy, but at rehearsal the sound made by the sound effects man didn't satisfy Hanna. He and Moss went into a huddle, and when the program went on the air Moss really slapped Peggy, and hard!

Have you formed the habit of listening to "The Man Behind the Gun"? Now broadcast Sunday evenings over CBS, it brings us the war stories that are making American history, gathering them from all branches of the service; William N. Robson, who directs it, traveled some 10,000 miles and often was with the men under actual combat conditions to get background for the dramatizations.

ODDS AND ENDS—Johnny, the Call Boy, will be glorified in the "Stage Door Canteen" film as the only living trade mark... Because of his outstanding performance in "The Hard Way" Dennis Morgan has been assigned by Jack L. Warner to the co-starring role opposite Ann Sheridan in "The Gay Nineties"... Horace Brum, of radio's "We Love and Learn," is playing nursemaid to five kinds of dogs—left with him when their owners went into the armed services... An army machine gunner wrote Red Shelton, star of the forthcoming "Good Guy" that in his outfit a dud is as hell, or bomb, that blows up!

WAR ON ALL FRONTS A SERIES OF SPECIAL ARTICLES BY THE LEADING WAR CORRESPONDENTS

BURMA By Daniel De Luce

(WNU Feature—Through special arrangement with Collier's Weekly)

Greatest reservoir of fighting manpower to whip the Japanese lies in free, unoccupied China. For five years the Chinese soldier has proved himself every bit as courageous and clever as his Japanese enemy. He has hung on in the face of discouraging odds, lacking modern weapons and an air force.

Anglo-American arsenals should eventually be able to furnish him with these new arms and give him the support of a combined armada of airplanes.

However, "the day" is indefinite. In 1943? Perhaps longer. There is a lot of spade work to be done, for a great Allied offensive on the Asiatic continent.

It is required chiefly in Burma. And it is being planned right now by Generalissimo Chiang Kai-shek, General Wavell and General Stilwell.

Allies Need Burma. The transfer of a thousand bombers and a thousand fighting planes from America to China could be made in seven days. But once having got the air fleet to China, the Allies would be little better off than before, unless they had Burma. For the air force would need fuel—not a few thousand gallons flown laboriously over the Himalayas, but many thousand tons.

And where is the oil for the future planes of China? In Burma. "Oh," you say, "weren't the Burma fields scorched by the British? Or was that just another newspaper story?"

Yes, the Burma fields were scorched, thoroughly scorched. At the moment they're useless. But listen to the man who did the scorching.

If the Japanese brought in 15,000 specialists and 50,000 tons of equipment and machinery, they could get Burma producing again within a few months. But they have neither the specialists nor the equipment. We have both. We can soon have the fields flowing—if and when we recapture Burma.

Scorching of Burma. For the story of the scorching of Burma, let's begin looking into a little red cloth-covered notebook which this itinerant war correspondent bought in Mandalay for ten annas, before the ships were bombed and burned down on Good Friday last year. I had it in a sweaty pocket of my khaki shirt when I jumped through Yenang-tuang, oil capital of Burma, on Thursday, April 16, 1942.

Yenang-tuang in Burmese, means "stream of the smelly waters." Some centuries ago, silk-spun natives scooped up the skint black liquid and burned it in crude lamps at home.

Came the white man. In the last 60 years thousands of derricks sprang up on the drab hills. Burma oil, a million tons every 12 months, began lighting many a lamp in greater Asia.

Then came the Jap. He was about 30 miles south of the oil capital and pressing hard last April when I walked into the main oil-field headquarters and met a lean, hard, eagle-nosed English civilian loading his .38 army revolver.

He was Walter L. Forster of the Shell Oil company at Cairo. He had supervised the demolition of the Rangoon refineries the previous month, then calmly departed and was now in central Burma to finish similar assignments here.

At work or play, Forster likes dynamite. Knowing his specialty, the British government had sent him late in 1941 to Russia, to advise the Soviet engineers in their program of scorching the earth. He quickly decided that the Russians knew more than he did, but he stayed to learn their methods, and visited secret areas of the Caucasus.

He remarked afterwards that the Reds had carried out factory wreckings in one day that Anglo-American experts had forecast might take six months.

"But I wish the Russians could have seen our job at Rangoon," he mused. "Smoke up to 15,000 feet. Vapor up to 19,000 feet. Not a drop of oil left for the Japs, nor a piece of workable machinery."

After Rangoon was gone, Forster tackled the pipe line which had run more than 300 miles down-country from the Burma oil fields. He plugged the pipe with cement at river crossings, smashed the section pumps, wrecked bridges. Then he turned to the oil fields. The last job, he said, was blowing up the big powerhouse. "I've got 6,300 gallons of oil in drums stored above the transformers," he said. "Got oil piped in here to the main room, too. And the jets will turn on after the explosion. Nice fire we're cooking up!"

Slip Covers for an Unusual Chair That You May Desire to Protect

THIS cover was a twofold conservation measure in the most literal sense. Its purpose was not to cover shabby upholstery but to protect handsome damask from everyday wear and tear, in a household where there were children. The substantial striped cotton material chosen harmonizes perfectly with the rather elegant lines of the chair frame.

If you have an especially difficult chair to cover, you will save time by fitting a muslin pattern first. Then you can snip until it fits perfectly around arms and other supports and, if you make a mistake in the pattern just stitch a patch over it and start over again. Before removing the pattern from the chair, plan the openings so that they will lap neatly and be sure they are long

Sam Was Entirely for Peace and Harmony

It was the weekly meeting of the colored "Sons of I Will Arise Society." At the end of the usual business, a loud voice yelled from the back of the hall: "Mistah Chayman, Ah makes a motion dat Sam Jackson am a low-down, sneaking mis'rabble chicken thief."

Down in the front a little fellow leaped to his feet. "Who makes dat motion dat Ah'm a low-down, sneaking mis'rabble chicken thief?" he cried, glaring round the room.

A huge scar faced Negro arose. "Ah makes da motion," he said, menacingly. "Mister Chayman," said Sam, quickly, "Ah seconds dat motion."

ough. In the finished cover either bindings or facings may be used for irregular edges.

NOTE—This chair is from Mrs. Spears' Spring Book 3, which also contains directions for smart new curtains, and numerous things to make from odds and ends, as well as new materials. To get copy of Book 3 send name and address with 15 cents in coins to:

NOTICE

Qualifying tests for applicants
for the new Navy College Training
Program, V-12, will be con-
ducted throughout the country
on Friday, April 2. All schools
and colleges are being requested
to cooperate by administering
the tests to their students.
This test is open to all boys 17
or over, in or out of school. From
those who take the test the Navy
will eventually select students
for the Navy College Training
Program. Those accepted will
take their college training while
on active duty, in uniform, receiv-
ing pay and under general mili-
tary discipline.
Applicants who qualify
through the test will report at
their own expense to District Of-
fices of Naval Officer Procure-
ment where they will undergo a
physical examination and an inter-
view to determine potential offi-
cer qualities.

The Informer, \$1.00 per year

THE HEDLEY INFORMER

PUBLISHED EVERY FRIDAY
D. E. BOLIVER, Publisher

Entered as second class matter
October 23, 1910, at the postoffice
at Hedley, Texas, under the Act of
March 3, 1879.

NOTICE—Any erroneous reflec-
tion upon the character, standing or
reputation of any person, firm or
corporation which may appear in
the columns of The Informer will
be gladly corrected upon its being
brought to the attention of the
publisher.

All obituaries, resolutions of re-
spect, cards of thanks, advertising or
church or society doings, when ad-
mission is charged, will be treated
as advertising and charged ac-
cordingly.

In case of error in legal or oth-
erwise advertising the publisher does not
hold himself liable for damages in
excess of the amount received for
such advertising.

THE HOG THAT WILL NEVER GO TO MARKET

It's a hog you don't see in this
country. Landrace is the breed, a
wonderful bacon hog developed in
Denmark.

The Danes were just about the
very best farmers in the world.
Through their farm cooperatives
they produced and marketed live-
stock and farm products of the
finest quality.

Successful and happy were
these farmers—until one day the
Germans came. They took the
hog. They took all the hogs. They
took the butter and the cheese—
and the cooperatives too. Like
vultures, they picked Denmark to
the bone.

Remember this story as you
market your livestock, crops and
other farm products. Remember it
and put every dollar you can into
U. S. War Bonds—every dollar
you can.

Every dollar in Bonds that you
can for your country and for your-
self. Your Government needs that
money now and you yourself are
making a sound investment. The
Bonds never depreciate in value.
You get a third more than the
original cost of the Bonds in ten
years. You can always cash the
Bonds after sixty days if you need
the money. Buy now — at your
bank or post office.

MAKE EVERY MARKET DAY BOND DAY
