## Second War Loan Drive Starts April 12

### 17 Billion Dollars Must Be Raised

The Government of the United States is asking us to lend it 17 billion dollars in the next few weeks. We can do it. And we must do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men, made a lot of weapons, built a lot of ships.

But it's only a start. No man or woman among us would consent for a single instant that we've done enough now to win the war!

**We've Got to Build More!**

We broke all records building 8 million tons of shipping last year. But grim faced Army and Navy men will tell you that the 18 million tons we're building this year still won't be enough!

**We've Got to Fight More!**

From now till this war is won, America must be on the offensive in ever increasing numbers, year after year. Our sons, brothers, husbands must go into actual battle. Our losses have already begun to mount, and they won't grow less.

**And We've Got to Buy More War Bonds!**

Sure, we've all bought War Bonds. But we've got to help pay for our increased fighting and building. We've got to match, as best we can, the sacrifices of those Americans who are fighting and sweating on a dozen battle fronts with bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 17 billion extra dollars this month. 17 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this drive. But don't wait for him. Make up your mind now that on this drive is over, you're going to march right down to your nearest bank or post office, and do your duty. And don't ever forget this: in doing your duty, you are doing yourself one of the biggest favors of your life!

For your country's sake, for your own sake, invest all you can!

There are 7 different types of U. S. Government securities, choose the ones best suited for you.

### Missionary From India

Rev. Ralph Cook, returns missionary from India will be the speaker at the Church of the Nazarene Tuesday night, April 20. Every one is urged to come and hear this interesting speaker. India will probably figure quite a part in our missionary work in the tomorrows in all denominations, and the more we learn about it now the better we can get ready for the time after the war to really go in to evangelize this dark land.

## Elections

In the school trustee election Saturday, W. G. Qaisenberry, R. T. Everett and Earl Tollett were elected trustees. Other members of the board include J. E. Keeninger, Chas. Reins, Ray Moroman and C. N. Hill.

In the city election Tuesday Resso Land was chosen mayor for the coming year. Aldermen elected were W. O. Johansen, Dick Vallance, W. M. Biss, Barney Johnson and Barney Ohlson.

Mr and Mrs Lloyd Leggett announced the arrival on April 5 of a fine little son, weight 7 lb 11 oz. He has been named Jen Lloyd.

## Lions Club News

The Lions Club continues to grow. We now have over 51 members. We have a number of the communities adjoining Hedley represented in our Club. The men are showing a good interest and we feel that a number of worthwhile things are being accomplished. The next regular meeting is Thursday night of this week. This month also has a fifth Thursday which means a Ladies Night. Plans are already in the making to make this occasion that the ladies will enjoy. These nights have been high lights in the Lions activity since our beginning here.

## Scout-Troop Reorganized

The local scout troop 26 Adobe Walls Council made application for a new charter. The troop will be sponsored by the Hedley Lions club. The troop committee men are G. L. Johnson, Chairman, E. W. Seales, G. R. Hunsacker, J. W. Noel and C. O. Hill. Rev. Bob Jenkins is Scoutmaster and Billy Mac Biffle is Asst. Scoutmaster.

Eleven boys registered the first meeting night and two more were added the second meeting. Buckle Everett was elected acting Senior Patrol leader and Carter Huffman, scribe. The patrol leaders are R. L. Beach and Chas. Neal Johnson, asst. patrol leaders are Travis Bailey and Gerald Sims. The boys meet every Monday night at 8 p. m. in the basement of the First Baptist Church, however next Monday night the scouts will meet at 7 p. m. so their meeting will not conflict with the revival meeting at the Church. The Lions Club started the troop off with the donation of an American flag and a troop flag.

## Revival

The Church of the Nazarene has set the dates August 1 to 15 for the Summer revival. Announcements will be made later concerning the workers.

WEEKLY NEWS ANALYSIS

U. S. Forces Gain Ground in Tunisia;  
New Food Czar Seeks Speedy Solution  
Of Acute Farm Production Problems;  
Russ. Offensives Endanger Smolensk

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of  
Western Newspaper Union's news analysis and not necessarily of this newspaper.)  
Released by Western Newspaper Union.

For conspicuous heroism as leader of a marine fighting squadron in  
aerial combat with Jap forces in the Solomon islands, Maj. Robert E.  
Galer is presented with the Congressional Medal of Honor by President  
Roosevelt. The air hero's mother is shown helping to adjust the pendant  
on which the decoration hangs.

FOOD  
3-Way Attack

No stranger to farm problems,  
food production or the delicate job of  
dealing with recalcitrant congress-  
men was Chester C. Davis, recently  
appointed chief of the new Admin-  
istration of Food Production and  
Distribution. Former head of the  
Agricultural Adjustment administra-  
tion, Davis knew the ropes in Wash-  
ington and how to keep from get-  
ting tangled in them.

For weeks the capital had expect-  
ed some action in the increasingly  
critical food production situation. By  
relieving hard-pressed Secretary of  
Agriculture Wickard of his food ad-  
ministrator tasks and appointing Mr.  
Davis as sole food czar, President  
Roosevelt had created a new three-  
way agency, combining the Food  
Production administration, the Food  
Distribution administration and the  
Farm Labor administration.

Close working agreements be-  
tween congress and the food admin-  
istration and a minimum of official  
friction in dealing with war-created  
farm problems were expected to re-  
sult under Davis' administration.  
Observers agreed that Davis had  
one of the toughest jobs in history,  
but they were betting he would win.

AIR RAIDS:  
Woe to Axis

Axis and Europe will soon be sub-  
jected to round-the-clock air raids  
in which newer, bigger and faster  
American bombers will carry three  
or four times the bomb weight of  
present Axis Fortresses.  
This prediction was made in Lon-  
don by Maj. Gen. Ira C. Eaker,  
commander of the U. S. army air  
forces in Britain. American forces,  
he said, are now ready to build up  
a striking power on a par with that  
of the Royal Air Force. Soon, he added,  
will be the sustained offensive in  
which the Americans will strike at  
Europe by day and the British will  
bomb at night.

General Eaker disclosed that a  
series of 51 raids, the U. S. army  
air force has lost fewer than 90  
bombers.

NORTH AFRICA:  
Rough Road Ahead

The battle to clear the Axis out  
of Tunisia was going to take time.  
Rommel's army still had an offensive  
"kick." The struggle was likely to  
get tougher before it got better.

These facts emerged more clearly  
as the inexorable pressure of the  
Allied forces ringing the enemy was  
met by counter attacks which had  
regained for Rommel's army much  
of the ground lost when the British  
Eighth Army sliced into the Mareth  
line.

The communiqués did not indicate  
any lessening of the Allied effort.  
They merely served to show that  
the battle was by no means won  
at the present time. The conviction  
of an ultimate Axis defeat contin-  
ued.

While the British stoutly contest-  
ed the Nazi forces in the South, the  
Americans under Lieut. Gen. George  
S. Patton not only held their previ-  
ous gains at El Guettar in the  
"waist" of Tunisia but pushed on  
east of Maknassy in a drive on the  
constant road.

DOCTORS:

Rural U. S. Praised

Praising the rural areas of the  
United States for having in many  
instances exceeded their quotas in  
contributing doctors to the nation's  
armed forces, the American Medi-  
cal association declared that enroll-  
ments of medical officers in the  
army and navy are lagging because  
of the failure of young available  
physicians in large cities to volun-  
teer for duty. This situation is par-  
ticularly prevalent along the East-  
ern seaboard, the association's offi-  
cial magazine charged.

The fact that the armed services  
are not getting all the doctors they  
need was disclosed at a recent  
meeting with military authorities in  
Washington, the Journal of the  
American Medical Association said.  
The conference revealed that 6,000  
doctors must be drawn from the ci-  
vilian population this year.

FLOUR:

16 Millers Indicted

In Chicago a federal grand jury  
indicted 16 flour milling companies  
and the industry's trade association  
on charges of conspiracy to fix prices  
of packaged family flour—the kind  
ordinarily sold for use in homes  
throughout the United States.

The indictment charged that the  
defendants who mill 81 per cent of  
the 45,000,000 barrels of family flour  
sold annually met from time to time  
and agreed upon a uniform schedule  
of price differentials to be applied  
to the various sizes of packages in  
which the flour is sold. Addition of  
packaging charges had the effect of  
increasing bulk prices charged by  
millers by more than 100 per cent in  
some sizes, the indictment alleged.

The Miller's federation in a state-  
ment declared "there are no price  
agreements in the milling industry  
and there is no price fixing of family  
flour."

RUSSIA:

Action Slackens

Although the tempo of battle on  
the Russian front had slowed down  
and action appeared to be drifting  
into a deadlock in several sectors,  
the Red army had continued its dog-  
ged drive through the spring slush  
and mud toward Smolensk.  
Meanwhile German onslaughts de-  
signed to gain control of the upper  
Donets river valley had slackened  
following the furious resistance of  
the Russian defenders.

The Russian move toward Smol-  
ensk took the form of a north-south  
drive. The heaviest assault, a Soviet  
war bulletin reported sharp  
thrusts by the Red forces north of  
Dukhovschino, 32 miles northeast of  
Smolensk. At the same time a Rus-  
sian column was reported moving to-  
ward Dorogobuzh, below the Mos-  
cow-Viazma-Smolensk railway and  
50 miles east of Smolensk. Fierce  
counter-attacks with heavy concen-  
trations of artillery backing up in-  
fantry were being undertaken by the  
Germans, a Russ communique re-  
ported.

To the south, the Germans were  
paying a heavy price in men and  
material for their effort to gain con-  
trol of the upper Donets river basin.  
Nazi attempts to establish bases on  
the east bank of the river had been  
severely repulsed.

SOUTH PACIFIC:  
Prelude to Storm?

A lull in activity on both the Allied  
and Jap sides of the Pacific war had  
been taken by some observers to be  
merely the prelude to a storm  
ahead.

Action for some days was con-  
fined to local air and sea attacks in  
various sectors of the South Pacific.  
In the Solomon islands, air raids  
were traded. American bombers  
strafed Rekata bay, while the Japs  
inflicted some damage on Guadal-  
canal. Further to the east, an Ameri-  
can submarine torpedoed and sank  
a Japanese submarine. In Burma,  
American fliers attacked, the long  
railway viaduct between Mandalay  
and Lashio, a bridge north of Ran-  
goun and the Thazi railway junc-  
tion. The RAF bombed Donbaik,  
north of Akay.

ABSENTEES:

Women Worst Offenders

Women war workers were charged  
with being guilty of almost twice as  
much absenteeism as men, in a re-  
port compiled by the National In-  
dustrial Conference board.

Covering a "sample" group of 29  
plants employing 106,620 persons,  
the report showed that in a single month  
82,618 worker-days had been lost  
and that female employees aver-  
aged 1.16 days out of the month  
while male workers lost 0.65 day  
each.

Women showed a greater tendency  
to be absent for personal reasons,  
the survey disclosed. The board  
found that 50.4 per cent of their ab-  
sences were in this compared with  
47.8 per cent for men.

RAW MATERIALS:

Allies Now 'Solvent'

William L. Batt, vice chairman of  
the War Production board, an-  
nounced that the United Nations  
have now achieved "solventy" in  
raw materials and "are assured of  
sufficient amounts of all kinds to  
meet any military needs regardless  
of the length of the war."

"No material is being used faster  
by the United Nations today than is  
being produced," he said. "It can  
be stated with complete safety that  
whatever the length of the war, am-  
ple raw materials are available to  
meet our military needs."

Batt credited the accomplishment  
to the combined raw materials board  
of the United Nations, established by  
President Roosevelt and Prime Min-  
ister Churchill in their White House  
conferences in December, 1941.

UNIONS:

War to Cease?

Many a priceless hour of war pro-  
duction time had been lost in ju-  
dicial disputes between rival uni-  
ons. Although some wrangles still  
appeared inevitable, the heads of  
the American Federation of Labor  
and the Congress of Industrial Or-

ganizations agreed to take definite  
steps to end the difficulties.

Appearing before the senate's Tru-  
man investigating committee Wil-  
liam Green, president of the AFL,  
and Philip Murray, president of CIO,  
promised to reopen negotiations to  
end "union raiding," the maneuver  
by which one union seeks to oust  
another from representation of  
workers.

WAR BONDS:

'They Give Their Lives'

"They give their lives—you lend  
your money."

That is the slogan of the treasury  
department's second War Loan drive  
opening April 12, which has as its  
objective raising \$3 billion dollars  
through the sale of government  
securities. A substantial part of this  
vast financing—the most stupendous  
in world history—will be loaned by  
people in ordinary walks of life.

Financial experts point out that  
there are in liquid funds in the U. S.  
at present, more than 40 billion dol-  
lars which should go into the pur-  
chase of government bonds. It is  
from this huge reservoir that the  
treasury expects to meet its new  
goal.

SPENDING SPREE:  
81 Billions in '42

Americans dipped into their war-  
swollen pocketbooks to the tune of  
\$81,900,000,000 in 1942 in a spending  
spree that exceeded all previous re-  
cords, according to a compilation by  
the U. S. department of commerce.

Officials of the commerce depart-  
ment warned that this spending  
spree would continue unabated in  
1943 unless more effective steps  
were taken to control ration-

the continent. You eat what he

Here's Chap Who He counts  
Dishes Out What the beans,  
We Have to Eat the prunes,  
of beef, divvies them up among the  
army, our lend-lease friends, and  
the home front. He is the OPA's  
boss of food rationing, and his prom-  
ise that national control will crush  
hoarders and end local shortages  
makes a pin-up poster that John Ci-  
tizen wouldn't swap for Hollywood's  
loveliest.

Rowe was born on one of those  
deep black Iowa farms where  
any man can learn a lot about  
food because it is so abundant.  
He needed the big University of  
Minnesota to finish his education  
although he studied first at Iowa  
State. At Minnesota he moved  
a step along toward his present  
eminence as a food expert. He  
learned to cook. He hired out as  
a waiter to get the meals he  
couldn't afford to buy, but when  
he dropped a tray of glasses the  
lords of the University cafeteria  
figured he would do less damage  
in the kitchen. If he dropped a  
roast it could be brushed off, and  
they hoped he'd hang onto pies.

After Minnesota he taught for six  
years at Massachusetts State col-  
lege. He has been with the govern-  
ment since 1941. He lives in Ken-  
wood, Md., with his wife, son and  
daughter, Verna, Marvin and Shir-  
ley Ann. He has a round mild face  
and an easy manner that ought to  
keep him from looking old for quite  
a spell. He is in his middle thirties.

TWO brothers of Anthony Eden,  
British foreign secretary, were  
killed in the last World war and he  
fought all through it, coming clear  
with a major's tab and  
Chance in '17 the Military Cross. Today  
Finish Each Other his two sons,  
like your sons and the sons of every-  
body else, are in increasing jeopardy  
with every month that this second  
World war hangs on. These are  
reasons why Eden, on his visit in  
Washington, went to work like a  
nailer to smooth over aggravations  
among the United Nations and to  
stave off the third World war that  
some people say is shaping up even  
now.

A few years back Sir Austin  
Chamberlain, brother of Mu-  
nich's Neville, called Mr. Eden  
a first-class second-rater. The  
Chamberlains are gone now and  
the second-rater is the No. 2  
man of Britain. Only Churchill  
stands above him.  
Eden got into politics as soon  
as he finished at Oxford after  
the war. He was old Stanley  
Baldwin's white-haired boy. He  
has been in the house of com-  
mons since 1923, but his real  
start dates from the time he  
was named secretary to the se-  
cretary of state for foreign af-  
fairs. He zoomed after that and  
now is himself the secretary for  
foreign affairs. This is his sec-  
ond turn at the job.

He is still only 46 years old, tall,  
broad-shouldered and usually the  
best-dressed man at the party. Ad-  
mirers say he takes after his moth-  
er, a famous beauty. His family  
runs a long way back. Robert de  
Eden started it in 1413 and Hitler  
might have ended it. Eden and  
Adolf, talking one day, discovered  
that their outfits had shot at each  
other around Ypres in 1917.

ONE of tallest generals in any  
army helps the Americans push  
against Rommel's men on the side  
opposite from where Leclerc fights.  
This is Brig. Gen. Everett  
Should Take Much S. Hughes.  
Tap to Bind Gen. He stands  
Hughes' 6 1/2 Feet a bit over  
six feet five inches in his army shoes.

Hughes has cussed at red tape  
all his army life and it is his  
odd luck to be made Gen.  
Dwight D. Eisenhower's deputy  
commander in charge of train-  
ing, supply, hospitalization and  
personnel, all bound round with  
red tape. In the battle zone the  
loss of any military property can  
be blamed on a long enemy  
shell; a little one will do. In  
the supply area everything must  
be signed for, and if the papers  
aren't kept there is weeping all  
the way back to Washington.

General Hughes came into the  
army from South Dakota. He left  
West Point in 1903, rated his class'  
most efficient cadet.

The artillery got him first and he  
served in it down in Mexico and  
then down in the Philippines. In  
the first World war he was decorat-  
ed for meritorious service, but he  
landed in the service of supply and  
so trained for his present post.  
For a while he was the golf cham-  
pion of the United States army, and  
he finds great pleasure in hunting.  
Traveling is also one of his fa-  
vorite pastimes. While on leave in  
Europe, he retraced Napoleon's  
campaigns. With his men he seems  
stiff, but he is actually more sly  
than a hard.

Living Longest

He most lives who thinks most,  
feels the noblest, acts the best;  
and whose heart beats the  
quickest lives the longest.—James  
Martineau.

I LICKED MY  
CONSTIPATION

Of course, it wasn't due to  
anything organically wrong  
with me. It was just ordi-  
nary constipation, due to  
lack of "bulk" in the diet.  
A dose of some medicinal  
laxative gives only tempo-  
rary relief for such consti-  
pation. You got to find  
something that gets at the  
cause and corrects it. I  
found just that in KELLGOS's  
ALL-BRAN.

ALL-BRAN is a wonderful-  
tasting breakfast cereal and  
a swell way to start the  
morning. Eat it regularly,  
drink plenty of water and  
—if your constipation is like  
mine—you'll "Join the Regu-  
lars," too! ALL-BRAN is  
made by Kellgoss in Battle  
Creek, Michigan.

Cheerful Beginning  
Every beginning is cheerful; the  
threshold is the piece of expecta-  
tion.—Goethe.

**PAZO** for  
Simple PILES  
Relieves pain and soreness

There's good reason why PAZO oint-  
ment has been used by so many millions  
of sufferers from simple Piles. First,  
PAZO ointment soothes inflamed areas  
—relieves pain and itching. Second,  
PAZO ointment lubricates hardened  
excised parts—helps prevent cracking and  
swelling. Third, PAZO ointment tends  
to reduce swelling and check bleeding.  
Fourth, it's easy to use. PAZO oint-  
ment's perforated Pile Pipe makes ap-  
plication simple, thorough. Your doctor  
can tell you about PAZO ointment.

That Nagging  
Backache

May Warn of Disordered  
Kidney Action

Modern life with its busy and worry-  
ing habits, improper eating and  
drinking—its risk of exposure and in-  
fection—throws heavy strain on the work-  
ing of the kidneys. They are apt to become  
over-taxed and fail to filter excess acid  
and other impurities from the life-giving  
blood.

You may suffer nagging backache,  
headache, dizziness, getting up nights,  
leg pain, swelling—fast constantly  
tired, nervous, all worn out. Other signs  
of kidney or bladder disorder are some-  
times burning, scanty or too frequent  
urination.

Try Doan's Pills. Doan's help the  
kidneys to pass off harmful excess body  
waste. They have had more than half a  
century of public approval. Are recom-  
mended by grateful users everywhere.

# Star Dust

STAGE-SCREEN-RADIO  
By VIRGINIA VALE

Released by Western Newspaper Union.

THE little town of Brawley, Calif., woke up one morning recently to find a motorized battalion of German troops, armed to the teeth, lining the streets. As the Mexican border's only 25 miles away, the townsfolk were a bit jittery. Then they took another look at the "invaders" and recognized them as Brawley high school boys, drafted by Columbia Pictures to represent a unit of the Nazi Afrika Korps in the picture "Somewhere in Sahara." Humphrey Bogart's starred in it.

Janice Gilbert, who's twenty, has been acting since she was eight, has been on the radio since she was ten. On "The O'Neills" she plays "Janice O'Neill" and also an infant

JANICE GILBERT

and four children. But her most famous juvenile role is "Little Orphan Annie"—when she tours army camps, entertaining the boys, she gets vociferous requests for a session with "Annie."

The night Ann Ayars, Metro starlet, sang for the boys at Fort MacArthur, Calif., she got a rousing reception, but could have dispensed with part of it. Arriving in a pouring rain, she was escorted to the hall by a new recruit who led her smack into a deep puddle at the stage door. Ann fell in to her hips. She says that most of what the soldiers saw of her was mud!

Any Hollywood personage who discovers Lupe Velez watching him intently is likely to be uneasy; experience shows that Lupe's just gathering material for a devastatingly funny impersonation of him. Her imitations seldom reach the screen, but in "Redhead from Manhattan" she does several imitations of fellow stars. She plays identical cousins, both of whom are revue stars.

Lionel Barrymore was in a dangerous spot a while back, and it wasn't one of those things that are part of a scenario, when the actor knows he'll be rescued. Driving home, he miscalculated the depth of flood water near his ranch, and found himself sitting in his stalled car in water up to his neck. The swift current started moving the car toward deeper water. But neighboring farmers came along with chains and hauled the car back onto the highway. The car was ruined, but the famous Barrymore wasn't damaged.

When Robert Ryan joined the army he knew that he'd have a job when he came back; he has a contract with RKO that assures his return to the screen at the war's end, at a salary exceeding the one he was getting when he left. His work in "Bombardier" and "The Sky's the Limit" was responsible for the scrapping of the old contract and the writing of the more favorable new one.

Bob Hope's set for another of those cross-country tours of army, navy and marine posts and bases, which is good news for the men who'll benefit; he gives them a swell show. In fact, he probably works harder at entertaining servicemen than at anything else.

Jack Miller, orchestra director for Kate Smith and "The Aldrich Family," can drop off to sleep any time. He dozed off in the studio before a recent "Aldrich Family" broadcast, so the cast slipped out and sent a page in to wake him and explain that the program was over and all visitors must leave. He spent a frenzied five minutes before he caught up with the truth.

**ODDS AND ENDS**  
The voice which Willy Mahes uses for "Wilibur" on the Tammy Ryan broadcasts is going into the movies for the second time, as the lead in the Metro cartoon, "The Screw Squirrel." . . . After three years' preparation, King Vidor is nearly ready to begin production of "America," starring Brian Donlevy. . . . Helmut Dantine, the Nazi aviator of "Mrs. Miniver," has a leading role in Warner Bros. "The Last Man," starring Errol Flynn. . . . New Orleans' famous French market, exactly as it was back in 1885, has been erected in a setting for "Saratoro Trunk." \$250,000 has been appropriated for advertising and exploitation of "Saratoro Trunk."

**Tot's Wardrobe**  
WHAT the well-dressed young lady of 1 to 5 years will wear this spring is right here—a gaily printed ensemble consisting of playsuit, overall and dress. Everyone's going to be the happier for these clothes—the youngster because they are so pretty and sensible and her mother because they are practically no bother at all.

Pattern No. 8363 is in sizes 1, 2, 3, 4 and 5 years. Size 2 dress takes 1 1/2 yards 25-inch material, overall 1 1/2 yards, playsuit 3/4 yard; 8 1/2 yards binding.

**SKIN IRRITATIONS OF EXTERNAL NATURE**  
Acne, pimples, bumps (blackheads), and ugly broken-out skin. Millions relieve miserably with simple home treatment. Goes to work at once. Direct action aids healing, works the antiseptic way. Use Black and White Ointment only as directed. 10c, 25c, 50c sizes. 25 years success. Money-back guarantee. 25¢ Vital in cleansing is good soap. Enjoy famous Black and White Skin Soap daily.

**Attaining True Wisdom**  
Not by constraint or severity shall you have access to true wisdom, but by abandonment and childlike mirthfulness.—Thoreau.

**Gas on Stomach**  
When excess stomach acid causes painful, outbursting gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicine known for symptomatic relief—medicines like those in Bell-sun Tablets. No laxative. Bell-sun brings comfort in a 15 or 20 minute period. Bell-sun brings comfort in a 15 or 20 minute period. Bell-sun brings comfort in a 15 or 20 minute period.

**SNAPPY FACTS ABOUT RUBBER**

Laboratory tests demonstrate that rubber can be made to stretch from 80 to 1000 percent and to have no stretch at all, as in hard rubber.

A cubical piece of about half an inch of the substance we now know as rubber was melting for three centuries in London art shops in 1790. It was then called rubber because it could erase pencil marks.

The first articles of rubber to be manufactured were clothing and shoes.

American seamen are now equipped with rubber life-vesting suits weighing slightly over 14 pounds. This new buoyant suit features a white, flashlight, kyle and yellow hood and gloves to attract rescuers. Weighted shoes keep the wearer upright in the water.

**Youthful Basque**  
SHE who wears this lovely frock will not go unnoticed, for it has a way of calling forth the compliments. Styled on basque lines, it is ever so youthful and becoming. The use of a print for trimming is most decorative.

Pattern No. 8359 is in sizes 11, 13, 15, 17 and 19. Size 13 takes 3 1/2 yards 39-inch material; 3/4 yard print required for trimming.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

## Smile Awhile

**Not This Time**  
A woman, visiting the movies, could find only two aisle seats, one behind the other. Wishing to sit with her sister, she cautiously surveyed the boy in the next seat. Finally she leaned over and whispered: "I beg your pardon, but are you alone?"  
Without even turning his head, but twisting his mouth and shielding it with his hand, the youth muttered: "Cut it out, my aunt's with me."

**Going Along**  
A well-known author met an old Negro called Uncle Joe, who was always cheerful in spite of having had more than his share of life's troubles.  
"How have you managed to retain your calmness and cheerfulness in spite of them all?" asked the author.  
"Well, sah, Ah'll tell you," replied Uncle Joe, "Ahse jest learned to co-operate wid de inevitable."

**Another View**  
"Is Jack conceited?"  
"Is he conceited? Why, he joined the navy to let the world see him!"

The man who says he treasures his wife's letters should still try to remember to post them.

**Just Imagine**  
"George, why do you close your eyes so tight when you kiss me?"  
"I'm trying to imagine you're Dorothy Lamour."

## AROUND THE HOUSE

If a can of paint is placed upside down for several hours before it is opened, it will not be necessary to mix it before using.

Leaking faucets can waste gallons of hot or cold water in a few months. See that faucets are tight.

Do not sprinkle all your linen napkins when preparing for ironing. Dip every third napkin into clear warm water, place one between two dry napkins, fold and roll together. Napkins dampened in this way are ironed easily.

Turn gas burners down when foods have begun to boil. Nothing is gained by too-rapid boiling.

Never empty the water in which spinach and other sandy vegetables are washed into an enameled sink if you wish to keep it looking well.

Never leave egg white after it has been beaten stiff. If let stand it will flatten and will not beat up again.

## ON THE HOME FRONT

with RUTH WYETH SPEARS

APPLIQUE DESIGN ON FABRIC UNDER GLASS

IT ALL started with a bright idea for making a simple, painted coffee table from odds and ends. The sketch at the lower left gives the dimensions and shows the simple construction. Two end sections were made first; the top and sides of these being fastened together with metal angles, as illustrated. A shelf was then nailed in and a 1/2 by 3-inch board nailed across the back of it. Two boards for the top of the table were then screwed to the end sections.

So far the table was substantial but crude and that is where the lady with the needle came in. The table was to be painted putty color and then waxed. She bought a yard of slightly darker tan sateen and applied a design of bright blue and red morning glories and green leaves on it with stems and tendrils in green outline stitch. This was

placed over the table top and tacked around the edge. A piece of glass was then cut to fit and 1/2 by 3-inch pieces were screwed to the sides flush with the top of glass.

NOTE: Mrs. Spears has prepared a sheet—by 22 inches—giving complete dimensions and directions for making this table. When the gal who is just learning to do all these chores with hammer, saw and screw driver can follow these simple, clear directions. To get a copy of Design No. 10, address:

the result is showing in the sing-  
ing at the regular services.

The preaching services will be  
dismissed Sunday evening in or-  
der that we may worship with the  
Baptist people in their revival.  
The Young People will meet at  
7:30 for their meeting.

Our Revival meeting is set for

## Ignition key in your pocket— ACID locked in your engine

YOU CAN'T "pull the cork" to clear  
out every cylinder after pocket-  
ing that key. A chemical mixture  
always lingers inside. The corner  
druggist would tell you that the cy-  
linders hold the acid products of com-  
bustion...the makings of corrosion.

You didn't have all that worry  
heretofore, when the worst acid was  
chased out by fast and frequent driv-  
ing that thoroughly heated the en-  
gine. Now however, when you're  
counting every coupon, how soon  
will it be till you drive enough to  
make the engine stay real warm?  
Meanwhile, with acid in your engine,  
as it stands for long stretches, you'd  
better take the precaution of having  
its insides OIL-PLATED by changing to  
Conoco N<sup>th</sup> motor oil this Spring.

OIL-PLATING is really a close cousin  
of platings you see every day retard-  
ing corrosion. Conoco N<sup>th</sup>  
oil—at a popular price—  
includes the costly syn-  
thetic that makes OIL-  
PLATING come between  
acids and inner engine  
surfaces. Unlike any mere liquid  
lubricant, ready to drain down to the  
crankcase promptly, OIL-PLATING  
tends to stay at its topmost point in  
your inactive engine, keeping up  
strong interference against acid at-  
tack on inner parts that can't always  
be replaced these days. The simple  
key to OIL-PLATING is Conoco N<sup>th</sup>  
oil for your needed Spring change—
